In Anchorage, Alaska (Anchorage International Airport), "Anchorage RR southwest course extending from the 5-mile radius zone to 8.5 miles southwest of the RR;" is deleted and "Campbell Lake RBN 209° bearing extending from the 5-mile radius zone to 8.5 miles southwest of the RBN;" is substituted therefor.

6. Section 71.211 (38 FR 618) is amended as follows:

a. "Anchorage, Alaska, RR" is deleted and "Campbell Lake, Alaska, RBN" is substituted therefor.

b. "Skwentna, Alaska, RR" is deleted and "Skwentna, Alaska, RBN" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).))

Issued in Washington, D.C., on September 10, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and*
*Air Traffic Rules Division.*

[Airspace Docket No. 73–SW–56]

## PART 73—SPECIAL USE AIRSPACE

### Revocation of Restricted Area

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to revoke Restricted Area R–5116A and R–5116B, White Sands Missile Range, N. Mex.

The United States Air Force has advised the Federal Aviation Administration that the requirement for restricted airspace R–5116 A & B is no longer valid.

Since this amendment returns the airspace to public use and is a minor amendment upon which the public would have no particular reason to comment, notice and public procedure thereon are unnecessary. In order to make this airspace available for public use at the earliest possible date, good cause exists for making this amendment effective on less than 30 days notice.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective September 25, 1973.

Section 73.51 (38 FR 658, 1923, 14271 and 12735) is amended as follows:

1. "R–5116A White Sands Proving Grounds, N. Mex." is deleted.

2. "R–5116B White Sands Proving Grounds, N. Mex." is deleted.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).))

Issued in Washintgon, D.C., on September 10, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and*
*Air Traffic Rules Division.*

[FR Doc.73–20354 Filed 9–24–73;8:45 am]

[Airspace Docket No. 73–WA–39]

## PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

### Alteration of RNAV Waypoint Reference Facilities

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to amend several RNAV waypoint reference facilities on J859R, J880R, and J992R. These changes are prompted by the alteration of other RNAV routes which share common waypoints with J859R, J880R, and J992R. The action taken herein will assign a single reference facility to waypoints which are included in more than one route.

Since this amendment is minor in nature with no substantive change in regulation and upon which the public affected thereby would not be particularly interested in commenting, notice and public procedure thereon are unnecessary. However, since sufficient time must be allowed to make appropriate changes on aeronautical charts, this amendment will become effective in more than 30 days after publication.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 8, 1973, as hereinafter set forth.

Section 75.400 (38 FR 700) is amended as follows:

*Waypoint, location, and reference facility*

1. In J859R Kansas City, Mo., to Denver, Colo., "Walcott, Kans.; 39°13'06" N. 94°59'28" W.; Salina, Kans., Enterprise, Kans. 38°58'04" N. 96°59"46" W. Salina, Kans.," is deleted and "Walcott, Kans., 39°13'06" N. 94°59'28" W. Butler, Mo., Enterprise, Kans., 38°58'04" N. 96°59'46" W. Wichita, Kans.," is substituted therefor.

2. In J880R Jacksonville, Fla., to Cleveland, Ohio, "Beech Mountain, N.C., 36°05'30" N. 82°04'58" W. Greensboro, N.C.," is deleted and "Beech Mountain, N.C., 36°05'30" N. 82°04'58" W. Spartanburg, S.C.," is substituted therefor.

3. In J992R Refinery, Tex., to Tulsa, Okla., "Tulsa, Okla., 36°11'46" N. 95°47'16" W. Oklahoma City, Okla.," is deleted and "Tulsa, Okla., 36°11'46" N. 95°47'16" W. Tulsa, Okla.," is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c).))

Issued in Washington, D.C., on September 10, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and*
*Air Traffic Rules Division.*

[FR Doc.73–20355 Filed 9–24–73;8:45 am]

[Airspace Docket No. 73–RM–19]

## PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

### Extension of Jet Route

On July 20, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 19415) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would extend Jet Route 148 from Delta, Utah, to Coaldale, Nev.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., December 6, 1973, as hereinafter set forth.

In § 75.100 (38 FR 681) the description of the Jet Route 148 is amended to read as follows:

Jet Route No. 148. From Coaldale, Nev., via Delta, Utah; Myton, Utah; Cheyenne, Wyo.; to O'Neill, Nebr.

This amendment is made under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 17, 1973.

H. B. HELSTROM,
*Chief, Airspace and Air*
*Traffic Division.*

[FR Doc.73–20356 Filed 9–24–73;8:45 am]

[Docket No. 13181; Amdt. No. 881]

## PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

### Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue SW., Washington, D.C. 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAP's, effective October 28, 1973.

Ft. Worth, Tex.—Greater Southwest Int'l Dallas/Ft. Worth Field, VOR Rwy 13, Amdt. 12, Canceled.

## Title 17—Commodity and Securities Exchanges

### CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-10391]

### PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

### Interpretation of "Affiliated Person"

The Securities and Exchange Commission today announced that it has sent the following letter to the New York Stock Exchange in response to the Exchange's proposed interpretation of the term "affiliated person" as used in Rule 19b-2 under the Securities Exchange Act of 1934 [17 C.F.R. 240.19b-2] and in the New York Stock Exchange's Rule 318:

THE NEW YORK STOCK EXCHANGE,
*Eleven Wall Street,*
*New York, N.Y.*

Attention: David D. Huntoon
Re: Proposed Interpretation of the Term "Affiliated Person"

GENTLEMEN: This is in further response to your letter of May 31, 1973 enclosing for our concurrence a "significant interpretation" of the term "affiliated person", as that term is used in Securities Exchange Act Rule 19b-2 and NYSE Rule 318. While our letter of June 1, 1973 indicated that we had no objection to your issuance of the proposed interpretation as of that date, pending our consideration of its appropriateness, it also indicated that, because of the importance of this interpretation, we would solicit public comments thereon. We further stated that it might be necessary to revise the proposed interpreation as a result of our conclusions after further consideration of the interpretation and any comments received. We have received comments from thirteen persons and organizations representing various sectors of the investment community expressing diverse views regarding the appropriateness of the interpretation. Our conclusions, based on our consideration of the comments received and our view of the purposes of Rule 19b-2, as expressed in Securities Exchange Act Release No. 9950 (January 16, 1973), are set forth below.

The proposed interpretation delineates certain circumstances under which the term "affiliated person" would include an institutional account over which a money manager exercises investment discretion. Rule 19b-2, clause (b) provides, in part, that an "affiliated person" of a member shall include:

"(1) any person directly or indirectly controlling, controlled by or under common control with such member, whether by contractual arrangement or otherwise, provided that the right to exercise investment discretion with respect to an account, without more, shall not constitute control; • • •" Thus, under clause (b)(1), in order to find that a person is an "affiliated person" for purposes of Rule 19b-2 a finding of "control" must be made. NYSE Rule 318 contains identical language.

The NYSE's proposed interpretation would find the existence of "control" in all cases where, in addition to having investment discretion, a money manager, by contract or by furnishing additional services, has decreased the likelihood that his customer will dispense with his services in favor of those of another money manager on the basis of competitive merit alone. While in certain respects the NYSE's interpretation is consistent with the "competitive merit" considerations which we enunciated in Release No. 9950, at pages 152 and 153, the rigid approach implicit in the interpretation would deprive the term "control" of the flexibility which we intended it to have by giving rise to an irrebuttable presumption of control without regard to whether, in a particular case, control is actually present.

The terms "affiliated person" and "control" were assigned by the Commission "their traditional legal meanings", as indicated in Release No. 9950 at footnote 434 on page 152, and the NYSE should utilize those traditional meanings in applying Rule 19b-2 and its Rule 318. While it may be difficult for securities exchanges to probe the relationships between customers and their money managers and other factual circumstances having a bearing on the question of control, denial of membership on an exchange is a serious matter and must be based on a careful review of all relevant facts and the particular circumstances of each case. At page 8 of Release No. 9950 we stated that Rule 19b-2 *"requires"* exchanges "to make exchange membership available to *any* person or entity, assuming minimum standards of financial responsibility and competency are met" and assuming the availability of a seat, "provided *only* that each member demonstrate his commitment to compete for the public's exchange securities business" [emphasis supplied]. This does not mean that each member must prove that persons for whom the member effected at least 80 percent of the value of its exchange securities transactions during the preceding six months were not affiliates of the member. Rather, disclosure of the identity of a member's affiliates (if any) and a showing that the required volume of transactions was for persons other than those affiliates satisfactorily demonstrates the requisite commitment of the public's business. A determination that a broker-dealer is not engaged in a "public securities business" as defined in Rule 19b-2 and Rule 318 must be bottomed on findings more substantial and more carefully tailored to particular situations that those envisaged by the NYSE's proposed interpretation. All exchanges should carefully formulate questions to be put to their memberships and to applicants for membership designed to uncover the identities of affiliates and the amount of business done for the accounts of those affiliates. The exchanges' power under their rules to compel disclosures which will reveal control relationships cannot be questioned. The burden of proof that a broker-dealer's claimed "public" business is in fact a "private" business because of a control relationship with its customer, however, must rest with the securities exchange which denies membership.

An additional disagreement we have with the NYSE's interpretation stems from its premise that a money manager's "control" over an "account" can be determined without also determining that a money manager is in a control relationship with the persons who own the account or are charged with its care. It is difficult to conceive of a money management relationship which by itself so separates an account from the persons whose account it is or those charged with its care that control over the account could be said to have passed to the money manager. We believe that such a situation generally could exist only where other factors clearly establish a money manager's control relationship with those persons sufficient to enable the money manager to direct their allocation of money management for the account. Those ultimately responsible for an account are legally entitled, and, indeed, are obliged, to make such disposition of the funds constituting the account as they deem appropriate. No money management agreement, whatever its terms may be, can deprive such ultimately responsible persons of that right or relieve them of that duty. At page 153 of Release No. 9950 we noted that whether an adviser "with mere discretionary authority over an account" was a broker, an insurance company or a bank, he was "subject to discharge by whoever is ultimately in control of the account." We also noted that if the element of competition for the account's business was present and the money manager had no authority in the selection or retention of a money manager, that account "should not be considered a captive or 'controlled' advisory account." In the words of Release No. 9950, at page 152, it is the receipt of business "because of an identity of interest between the broker and his 'customer'" that requires the business to be characterized as private, rather than public. In this context, the person owning or ultimately responsible for the account, not the account itself, is the customer.

A transaction executed by a broker-dealer subsidiary of an insurance company, for example, for an account of its parent—consisting of the parent's assets invested for its sole benefit—is clearly executed for an affiliated person and does not qualify as public securities business. A transaction executed for a corporation's pension fund account managed by that insurance company parent, however, should qualify as public business absent other circumstances evidencing a control relationship between the insurance company and the trustees of the pension fund or the corporation (in the event the pension fund's trustees are deemed affiliates of the corporation). As we stated in Release No. 9950 at pages 155 and 156:

"Where the insurance company, or its subsidiary, is simply managing and investing pension fund assets without any other indicia of control, as is typically the case with a separate account, we would consider transactions executed on an exchange for the account by the insurer's affiliated member to be public business • • •."

The NYSE's interpretation would make ready and inexpensive mobility of an account the definitive test of whether a control relationship exists between the money manager and the person owning or charged with custody of that account. Mobility of a managed account is, of course, an evidentiary factor to be considered in determining whether a control relationship exists between a money manager and his customer, but the customer must be allowed sufficient latitude to exchange easy mobility of the account for economical packages of money management, brokerage and other services. Contractual impediments to mobility (e.g., notice periods prior to cancellation, liquidated damages, termination or increase in price of other services) do not by themselves, except in extreme cases, demonstrate either conclusively or presumptively that a control relationship between the parties exists.

Similarly, the coupling of investment discretion over a customer's account with commercial banking, insurance or investment banking services does not prove the existence of a control relationship, although it may be evidence of it, particularly where it can be demonstrated that a mix of services provided to the customer at a particular price was not obtainable from any other source. For example, the fact that a bank may provide various banking services to a corporation in addition to managing its employees' profit-sharing plan is not a sufficient basis for concluding that a control relationship exists between them. Moreover, the fact that an insurance company may write group life insurance for a corporation in addition to managing its employees' pension fund would be unlikely to affect the corporation's desire to seek the best available performance, consistent with the most economical cost of management, for its pension fund.

Certainly state law to the effect that "separate accounts" of an insurance company are to be deemed property of that insurance company has little, if anything, to do with whether the persons beneficially interested in or ultimately responsible for such accounts are in a control relationship with the insurance company. While many states have adopted statutes under which separate accounts legally are deemed to be the property of insurance companies (for purposes quite different from those governing qualification for exchange membership), such laws do not change the practical nature of these separate accounts whereby all gains and losses, as well as income, inure to the benefit of the account holder. Furthermore, these state statutes typically provide that the assets of separate accounts may not be used to satisfy the obligations of the insurance company. Even more significantly, the technical ownership of the funds by the insurer does not, as a practical matter, restrict their mobility. Thus, such laws cannot be said to constitute a realistic index of control sufficient to overcome our view that for purposes of Rule 19b-2 separate accounts of insurance companies are essentially public business. To assert the existence of affiliation under such circumstances would appear to contravene the conclusion articulated in Release No. 9950 that separate accounts of insurance companies would be considered to be "public" business, absent a showing of other indicia of control. As stated by the Supreme Court in *Rochester Telephone Corp.* v. *United States*, 307 U.S. 125, 145 (1959): "• • • control cannot be determined by artificial tests but is an issue of fact to be determined by the special circumstances of each case."

In light of the foregoing, it appears that none of the hypothetical cases submitted by the NYSE set forth facts sufficient to support a predetermined finding of control by a money manager over the persons owning or charged with custody of a pension fund or trust. Thus, it does not appear that the NYSE's proposed interpretation is in accord with the intent of Rule 19b-2 and the interpretation therefore should be promptly withdrawn. While the Commission encourages the NYSE to publish new hypothetical situations which illustrate cases in which the NYSE believes that facts will require it to find that a control relationship exists, such hypotheticals should be drawn with the principles set forth above in mind. Such hypotheticals, of course, as significant interpretations, should be submitted to the Commission for its review prior to their circulation.

The Commission, in promulgating Rule 19b-2, of course, stressed the experimental nature of its policymaking endeavors, thus leaving open the possibility that changes in the rule might be appropriate after necessary experience with the rule has been obtained. The interpretations you have furnished would effect significant changes in the concept of the term "affiliated person" bringing the scope of that term closer to the formulation utilized by two Congressional subcommittees in drafting new legislation. As you know, we have advised the Congress that its approach—which would preclude any exchange member from executing transactions for any institutional account the member manages—reflects a valid legislative resolution of the issues involved. As a matter of administrative policymaking, however we did not believe we should adopt that approach without first obtaining some practical experience with a somewhat more gradual formulation.

The Commission has no further comment at this time.

Sincerely yours,

RAY GARRETT, JR.,
*Chairman.*

The Exchange's proposed interpretation, which was enclosed with its letter to the Commission dated May 31, 1973, is attached hereto as Exhibit 1.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

SEPTEMBER 13, 1973.

MAY 31, 1973.

MR. JOHN LIFTIN,
*Associate Director,*
*Division of Market Regulation,*
*Securities and Exchange Commission,*
*Washington, D.C.*

DEAR MR. LIFTIN: In SEC Release No. 9950, the Commission stated that it expected national securities exchanges to discuss in advance significant interpretations of the rule adopted by them pursuant to Rule 19b-2. The interpretation which is the subject of this letter is significant because the dollar value of transactions involved.

The definition of "affiliated person" in Exchange Rule 318, adopted pursuant to SEC Rule 19b-2 includes the following language:

"any person directly or indirectly controlling, controlled by or under common control with the member or member organization, whether by contractual arrangement or otherwise, provided that the right to exercise investment discretion with respect to an account, without more, shall not constitute control;"

The Exchange intends to issue a circular containing the attached language. We would appreciate your concurrence that this interpretation is consistent with SEC Rule 19b-2.

Questions regarding this matter may be directed to David D. Huntoon at (212) 623-5253.

Very truly yours.

JAMES E. BUCK.

INTERPRETATION OF RULE 318

Under the existing definition of "affiliated person", the Exchange has determined that for an account not to be considered to be in a control relationship with the person holding the investment discretion, the conferring of such discretion must be based on competitive merit and may not be the result of or incidental to other circumstances or relationships. Among other circumstances and relationships which are considered to constitute such a control relationship for the purposes of Rule 318 are:

(1) Investment discretion is given pursuant to a contract or agreement which can be cancelled only on notice of more than 30 days.

(2) Investment discretion is given pursuant to a contract or agreement which provides for a penalty upon termination.

(3) Investment discretion cannot be cancelled without the incurrence of substantial expense or hardship.

(4) Investment discretion is part of a more extensive relationship which includes providing other services to a substantial degree,

V 38 I 185 SEP 25 73 XUM

including, but not limited to, commercial banking, insurance and investment banking.

(5) The account is a so-called "separate account" managed by an insurance company which exercises investment discretion and under applicable law the securities in the account are the property of the insurance company.

The following examples may serve to illustrate this interpretation.

(1) The portfolio of a pension fund is managed by an investment manager which has discretion over the account. The discretion may be cancelled at any time on receipt by the investment manager from the fund of written notice without the payment of any penalty of any sort. Neither the investment manager nor the pension fund have any other relationship which might constitute control. The pension fund is not considered to be controlled by the investment manager, and is not an "affiliated person" of the investment manager.

(2) The circumstances are the same as in (1) above, except that the investment discretion is given by a contract which may be cancelled only on notice which must be given at least 90 days prior to the effective date of cancellations. The pension fund is considered to be controlled by the investment manager and is an "affiliated person" of the investment manager.

(3) A pension fund is managed by an insurance company as a "separate account" and the insurance company has investment discretion over the account. The agreement between the pension fund and the insurance company provides that investment discretion may be cancelled upon 30 days written notice, but that in the event of such cancellation a substantial cash penalty must be paid. The pension fund is considered to be controlled by the insurance company and is an "affiliated person" of the insurance company, even though under applicable law the securities in the "separate account" are not considered to be the property of the insurance company.

(4) A charitable trust is managed by an investment manager which exercises investment discretion over the trust account. The discretion may be cancelled at any time by the trustees (who have no other relationship with the investment manager) upon written notice, without penalty. However, the investment manager also provides office space, clerical support, telephones and other services which are necessary to the trust. In order to cancel the investment discretion, the trustees would have to find other quarters and arrange for clerical, telephone and other essential services. The trust is considered to be controlled by the investment manager, and is an "affiliated person" of the manager.

(5) A pension or profit sharing trust established by the X corporation is managed by an investment manager which holds investment discretion over the trust account. The discretion may be cancelled forthwith at any time by the trustees without penalty. The parent of the investment advisor is a bank holding company which has as another of its subsidiaries the principal commercial bank servicing the X corporation. The trustees of the trust are officers and/or employees of the X corporation. Under these circumstances, the trust will be considered to be in a control relationship with the investment manager and an "affiliated person" of the manager.

(6) A pension or profit sharing trust established by the X corporation is managed by an investment manager which holds investment discretion over the trust account. The discretion may be cancelled forthwith at any time by the trustees without penalty. The investment manager is also an investment banker and has traditionally been a managing underwriter of securities issued by X corporation. The trustees of the trust are officers and/or employees of X corporation. Under these circumstances, the trust will be considered to be controlled by the investment manager and an "affiliated person" of the manager.

(7) A pension or profit sharing trust established by the X corporation is managed by an insurance company as a "separate account" and the insurance company holds investment discretion over the trust account. The discretion may be cancelled forthwith at any time by the trustees without penalty. The account of the trust is operated as a "separate account" by the insurance company. The insurance company provides substantial insurance coverage to X corporation. The trustees of the trust are officers and/or employees of X corporation. Under these circumstances, the trust will be considered to be controlled by the insurance company and an "affiliated person" of the insurance company, even though under applicable state law the securities in the "separate account" are not considered to be the property of the insurance company.

(8) A pension or profit sharing trust is managed by an insurance company which holds investment discretion over the trust account. The discretion may be cancelled forthwith at any time by the trustees without penalty. The trust account is operated as a "separate account" by the insurance company. Under applicable law the securities held in the "separate account" are considered the property of the insurance company which operates the "separate account". Under these circumstances, the "separate account" is considered to be an "affiliated person" of the insurance company.

## Title 20—Employees' Benefits

## CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 5, further amended]

## PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED (1965- )

### Designation of Extended Care Facilities as Skilled Nursing Facilities

The Social Security Amendments of 1972 (P.L. 92-603; 86 Stat. 1329-1493) designated or redesignated "extended care facilities" as "skilled nursing facilities" throughout title XVIII of the Social Security Act. In order to conform the regulations of the Social Security Administration to this change in name, the regulations of the Social Security Administration (20 CFR Part 405) are amended as follows: Wherever the terms "extended care facility," and "extended care facilities," appear, the terms "skilled nursing facility" or "skilled nursing facilities," as the case may be, is substituted therefor, and the indefinite article "an" is changed to "a" as appropriate.

(Sec. 1102, 1814, 1861, 1864, 1866, and 1871, 49 Stat. 647, as amended; 79 Stat. 294, as amended; 79 Stat. 313, as amended; 79 Stat. 326, as amended; 79 Stat. 327, as amended; 79 Stat. 331, 42 U.S.C. 1302, 1395f, 1395x, 1395aa, 1395cc, and 1395hh.)

*Effective date.*—This amendment is effective September 25, 1973.

(Catalog of Federal Domestic Assistance Program Nos. 13.800, Health Insurance for the Aged—Hospital Insurance, and 13.801, Health Insurance for the Aged—Supplemental Medical Insurance.)

Dated September 6, 1973.

ARTHUR E. HESS,
*Acting Commissioner of Social Security.*

Approved September 20, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

## Title 29—Labor

## CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

## PART 723—LAUNDRY AND CLEANING INDUSTRY IN PUERTO RICO

### Wage Order

Pursuant to sections 5, 6 and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208) and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 625 (38 FR 9031), the Secretary of Labor appointed and convened Industry Committee No. 115 for the Laundry and Cleaning Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under section 6(c) of the Act to employees in the industry, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 115 are hereby published, amending subparagraph (1) of paragraph (b) of § 723.2, Code of Federal Regulations.

As amended § 723.2 reads as follows:

§ 723.2 **Wage rates.**

. . . . . .

(b) *Other activities classification.* (1) The minimum rate for this classification is $1.60 an hour.

. . . . . .

(Secs. 5, 6, 8, 52 Stat. 1062, 1064, as amended; 29 U.S.C. 205, 206, 208).

*Effective date.*—This amendment shall become effective October 11, 1973.

Signed at Washington, D.C., this 18th day of September 1973.

WARREN D. LANDIS,
*Acting Administrator, Wage and Hour Division, U.S. Department of Labor.*

## CHAPTER XIV—EQUAL EMPLOYMENT OPPPORTUNITY COMMISSION

## PART 1602—RECORDS AND REPORTS

### Recordkeeping and Filing Requirements Report EEO-5

By virtue of the authority vested in it by sec. 713(a) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. sec. 2000e-12(a), 78 Stat. 265, The Equal Employment Opportunity Commission (hereinafter referred to as the Commission) hereby amends Title 29, Chapter XIV, Part 1602 of the Code of Federal Regulations.

On June 12, 1973, there was published in the FEDERAL REGISTER (38 FR 15462) a notice of proposed rule making with proposed amendments to Part 1602 of the regulations. The proposed amendments adding Subparts L, M, and N, §§ 1602.39-1602.46, would have required public and private elementary and secondary school systems, districts, and individual schools to keep personnel and employment records for a period of two years, keep employment statistics by race and job category as required by Report EEO-5 for a period of three years, and file Report EEO-5 annually unless the school system employed fewer than 100 employees. Pursuant to the June 12, 1973, notice, a duly constituted public hearing was held at 10 a.m., June 27, 1973, in the hearing room of the Equal Employment Opportunity Commission, Washington, D.C., for the purpose of considering the views of the public on the proposed amendments. Three individuals were heard by the Commission and four written comments were received during the period that the record remained open.

All comments submitted with respect to the proposed amendments were given due consideration. The public comments resulted in certain changes. Reporting and recordkeeping requirements for private schools were temporarily eliminated due to an incomplete universe of names and addresses of private schools. The reporting and recordkeeping requirements for private schools will be imposed in 1974. In addition, due to time limitations, the date on which the 1973 EEO-5 must be filed has been deferred from October 15, 1973, to November 30, 1973. The October 15, date shall apply to all calendar years after 1973.

Part 1602, Chapter XIV of Title 29 of the Code of Federal Regulations is amended by adding new subparts L, M, and N and by adding new §§ 1602.39, 1602.40, 1602.41, 1602.42, 1602.43, 1602.44, 1602.45, and 1602.46 thereto to read as follows below. These amendments shall become effective October 25, 1973.

**Subpart L—Elementary and Secondary School Systems, Districts, and Individual Schools Recordkeeping**

Sec.
1602.39 Records to be made or kept.
1602.40 Preservation of records made or kept.

AUTHORITY.—Sec. 709(c), 78 Stat. 265, 42 U.S.C. sec. 2000e-8(c), 29 CFR 1602.3.

**Subpart L—Elementary and Secondary School Systems, Districts, and Individual Schools Recordkeeping**

### § 1602.39 Records to be made or kept.

On or before October 15, 1973, and annually thereafter, every public elementary and secondary school system or district, including every individually or separately administered district within a system, with 15 or more employees and every individual school within such system or district, regardless of the size of the school shall make or keep all records and information therefrom which are or would be necessary for the completion of report EEO-5 whether or not it is required to file such a report under § 1602.41. The instructions for completion of report EEO-5 are specifically incorporated herein by reference and have the same force and effect as other sections of this part.[1] Such records and the information therefrom shall be retained at all times for a period of 3 years at the central office of the elementary or secondary school system or district, or at the individual school which is the subject of the records and the information therefrom, where more convenient, and shall be made available if requested by an officer, agent, or employee of the Commission under sec. 710 of Title VII, as amended. It is the responsibility of every such school system or district, to obtain from the Commission or its delegate necessary instructions in order to comply with the requirements of this section.

### § 1602.40 Preservation of records made or kept.

(a) Any personnel or employment record made or kept by a school system, district, or individual school (including but not necessarily limited to application forms submitted by applicants and other records having to do with hiring, promotion, demotion, transfer, layoff, or termination, rates of pay or other terms of compensation, and selection for training or apprenticeship) shall be preserved by such school system, district, or school, as the case may be, for a period of 2 years from the date of the making of the record or the personnel action involved, whichever occurs later. In the case of involuntary termination of an employee, the personnel records of the individual terminated shall be kept for a period of 2 years from the date of termination. Where a charge of discrimination has been filed, or an action brought against an elementary or secondary school by the Commission or the Attorney General, the respondent elementary or secondary school system, district, or individual school shall preserve similarly at the central office of the system or district or individual school which is the subject of the charge or action, where more convenient, all personnel records relevant to the charge or action until final disposition thereof. The term "personnel record relevant to the charge," for example, would include personnel or employment records relating to the person claiming to be aggrieved and to all other employees holding positions similar to that held or sought by the person claiming to be aggrieved; and application forms or test papers completed by an unsuccessful applicant and by all other candidates for the same position as that for which the person claiming to be aggrieved applied and was rejected. The date of "final disposition of the charge or the action" means the date of expiration of the statutory period within which a person claiming to be aggrieved may bring an action in a U.S. district court or, where an action is brought against a school system, district, or school either by a person claiming to be aggrieved, the Commission, or the Attorney General, the date on which such litigation is terminated.

(b) The requirements of this section shall not apply to application forms and other preemployment records of applicants for positions known to applicants to be a temporary or seasonal nature.

NOTE.—The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

**Subpart M—Elementary-Secondary Staff Information Report**

Sec.
1602.41 Requirement for filing and preserving copy of report.
1602.42 Penalty for making of willfully false statements on report.
1602.43 Commission's remedy for school systems', districts', or individual schools' failure to file report.
1602.44 School systems', districts', or individual schools' exemption from reporting requirement.
1602.45 Additional reporting requirements.

AUTHORITY.—Sec. 709(c), 78 Stat. 265, 42 U.S.C. sec. 2000e-8(c); 29 CFR 1602.3.

**Subpart M—Elementary-Secondary Staff Information Report**

### § 1602.41 Requirement for filing and preserving copy of report.

(a) On or before October 15, 1974, and annually thereafter, certain public elementary and secondary school systems and districts, including individually or separately administered districts within such systems, and individual schools within such systems or districts shall file with the Commission or its delegate executed copies of Elementary-Secondary Staff Information Report EEO-5 in conformity with the directions set forth in the form and accompanying instructions. The elementary and secondary school systems and districts covered are: (1) Every one of those which have 100 or more employees, and (2) every one of those others which have 15 or more employees from whom the Commission requests the filing of reports. Every such elementary or secondary school system or district shall retain at all times, for a

[1] NOTE.—Instructions were published as an appendix to the proposed regulations on June 12, 1973 (38 FR 15463).

V 38-185 SEP 25 73 XUM

period of 3 years, a copy of the most recently filed report EEO–5 at the central office of the school system or district, or the individual school which is the subject of the report, where more convenient, and shall make the same available if requested by an officer, agent, or employee of the Commission under the authority of sec. 710 of Title VII, as amended. It is the responsibility of the school systems or districts above described in this section to obtain from the Commission or its delegate necessary supplies of the form.

(b) For calendar year 1973, the requirements of paragraph (a) of this section shall be carried out on or before November 30, 1973.

**§ 1602.42 Penalty for making of willfully false statements on report.**

The making of willfully false statements on report EEO–5 is a violation of the United States Code, Title 18, section 1001, and is punishable by fine or imprisonment as set forth therein.

**§ 1602.43 Commission's remedy for school systems', districts', or individual schools' failure to file report.**

Any school system, district, or individual school failing or refusing to file report EEO–5 when required to do so may be compelled to file by order of a U.S. district court, upon application of the Commission or the Attorney General.

**§ 1602.44 School systems', districts', or individual schools' exemption from reporting requirements.**

If it is claimed that the preparation or filing of the report would create undue hardship, the school system, district, or individual school may apply to the Commission for an exemption from the requirements set forth in this part by submitting to the Commission or its delegate a specific proposal for an alternative reporting system prior to the date on which the report is due.

**§ 1602.45 Additional reporting requirements.**

The Commission reserves the right to require reports, other than that designated as the Elementary-Secondary Information Report EEO–5, about the employment practices of private or public individual school systems, districts, or schools, or groups thereof, whenever, in its judgment, special or supplemental reports are necessary to accomplish the purposes of Title VII. Any system for the requirement of such reports will be established in accordance with the procedures referred to in section 709(c) of Title VII and as otherwise prescribed by law.

**Subpart N—Records and Inquiries as to Race, Color, National Origin, or Sex**

**§ 1602.46 Applicability of State or local law.**

The requirements imposed by the Equal Employment Opportunity Commission in these regulations, subparts L and M of this part, supersede any provisions of State or local law which may conflict with them.

(Sec. 709(c), 78 Stat. 265, 42 U.S.C. 2000e–8(c), 29 CFR 1602.3.)

Signed at Washington, D.C., this 17th day of September 1973.

WILLIAM H. BROWN III,
*Chairman.*

[FR Doc. 73-20438 Filed 9-24-73;8:45 am]

## Title 32—National Defense

## CHAPTER I—OFFICE OF THE SECRETARY OF DEFENSE

### SUBCHAPTER Q—CIVIL RIGHTS

### PART 301—EQUAL OPPORTUNITY IN OFF-BASE HOUSING PROGRAM

The Assistant Secretary of Defense (Manpower and Reserve Affairs) approved the following revision to Part 301. This Part 301 revises the policies covering "restrictive sanctions" and "relief for complainants"; updates the reporting requirements; includes sex discrimination under its provisions; and authorizes commanders to use verifiers under certain conditions.

Sec.
301.1 Purpose.
301.2 Applicability and scope.
301.3 Definitions.
301.4 Objectives and policies.
301.5 Reports.
301.6 Check list for commanders.
301.7 Definitions of terms.

AUTHORITY.—Sec. 301, 80 Stat. 379; 5 U.S.C. Sec. 301.

**§ 301.1 Purpose.**

This Part 301 supplements the "equal opportunity" provisions of DOD Directive 1100.15, "Equal Opportunity Within the DOD," dated December 14, 1970,[1] relating to equal opportunity in off-base housing and fair housing enforcement.

**§ 301.2 Applicability and scope.**

The provisions of this Part apply to all DOD Components (Military Departments, Defense Agencies, Specified and Unified Commands and other DOD Components) which have under their jurisdiction:

(a) Military personnel authorized to live in the civilian community in the United States, or

(b) DOD personnel authorized to live in the civilian community in areas outside of the United States.

**§ 301.3 Definitions.**

Terms which apply to this Part are contained in § 301.7.

**§ 301.4 Objectives and policies.**

The Department of Defense is fully committed to the goal of obtaining equal treatment for all DOD personnel as specified in DOD Directive 1100.15.[1] To carry out this policy with regard to off-base housing and fair housing enforcement, the Secretaries of the Military Departments and Heads of other DOD Components concerned will develop and issue implementing regulations consistent with the following:

(a) *National Housing Policy.* In the United States, Federal legislation prohibits discrimination in housing against any person because of race, color, religion, or national origin:

(1) Title VIII of the Civil Rights Act of 1968 contains the fair housing provisions; outlines the responsibilities of the Secretary of Housing and Urban Development with regard to the Act; and requires all executive departments and agencies to administer housing and urban development programs and activities under their jurisdiction in a manner which will reflect "affirmatively" the furthering of the purposes of Title VIII.

(2) Title IX of the Civil Rights Act of 1968 makes it a crime to willfully intimidate or interfere with any person by force or threat because of his activities in support of fair housing.

(3) 42 U.S.C. 1982 states that all citizens shall have the same right as is enjoyed by white citizens to purchase, lease, sell and convey real and personal property.

(b) *DOD Fair Housing Policy.* The Department of Defense intends that Federal fair housing legislation be supported and that DOD personnel have equal opportunity for available housing regardless of race, color, religion, national origin or sex. This includes the objective of eliminating discrimination against DOD personnel in off-base housing. This is not achieved simply by finding a place to live in a particular part of town or in a particular facility for a person from a minority group. It is achieved only when a person who meets the ordinary standards of character and financial responsibility is able to obtain off-base housing in the same manner as any other person anywhere in the area surrounding his installation, without suffering refusal and humiliation because of his race, color, religion, national origin or sex.

(1) The accomplishment of the objective shall not be hampered in any case by requiring the submission of a formal complaint of discrimination. A suspected discriminatory act, with or without the filing of a formal complaint, is a valid basis for investigation and, if discrimination is substantiated, for imposition of restrictive sanctions.

(2) No member of the Armed Forces moving into or changing his place of residence in the commuting area of a military installation or activity in the United States and no DOD member moving into or changing his place of residence in the commuting area of a DOD installation or activity outside the United States, shall be authorized to enter into a rental, purchase or lease arrangement with an agent or a facility which is under restrictive sanctions. (See paragraph (b)(3) of this section.)

[1] Filed as part of the original. Copies available from the U.S. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, Pa. 19120, Attention: Code 300.

(3) Restrictive sanctions shall be imposed upon substantiation that discrimination was practiced by an agent in accordance with (d)(2) of this section. These sanctions are not applicable to DOD personnel who may be residing in a facility at the time the restriction is imposed or to the extension or renewal of a rental or lease agreement originally entered into prior to the imposition of the restrictive sanctions. Relocation of a tenant within a restricted facility is not authorized without the written approval of the commander.

(4) In the case of paragraph (b)(3) of this section, the agent shall be informed in writing that restrictions have been imposed, the reasons therefor, and the actions which must be taken to remove the restriction after the 180 days minimum restriction expires. In order for restrictive sanctions to be removed, the agent must provide assurances of future non-discriminatory practices.

(5) After imposition of restrictive sanctions, the commander shall insure that DOD personnel comply with the restrictive sanctions imposed on the agent.

(6) If a discrimination complaint is substantiated, the commander shall take whatever action is deemed reasonable to assist the complainant in obtaining suitable housing. If, due to discrimination practices in the community, suitable housing cannot be obtained by the complainant in a reasonable amount of time, the complainant and the commander may use this fact as a reason to justify a request for, if otherwise eligible, priority in obtaining military housing or for compassionate reassignment.

(7) The fact that 42 U.S.C. 1982 and P.L. 90–284 may or may not provide a remedy in a given case of discrimination affecting DOD personnel does not relieve a commander of the responsibility to insure equal treatment and opportunity for such personnel or to impose restrictive sanctions against the agent when appropriate.

(8) Consistent with the policy of freedom of choice, commanders shall insure non-discrimination in referring personnel to off-base housing facilities.

(9) Continuing efforts (as described in Part 239a and Part 239b) shall be made to identify and solicit non-discriminatory assurances from those rental facilities within the commuting area which are considered to be suitable for occupancy by DOD personnel.

(10) An information program to apprise DOD personnel of the DOD policy and program for equal opportunity in off-base housing shall be developed at each installation. For support of this program, use should be made of local community resources such as civil rights organizations, religious and civic groups, and others.

(c) *DOD personnel seeking off-base housing.* DOD personnel shall:

(1) Be processed through the Housing Referral Office in the United States and, when available, in areas outside the United States.

(2) Be provided the following assistance in seeking temporary and permanent off-base housing:

(i) Counseling concerning the Equal Opportunity in Off-Base Housing Program, with particular stress placed on obligation of applicants to report any indication of discrimination against them in their search for housing.

(ii) Personal assistance by:

(*a*) Ascertaining the applicant's desires and requirements for housing and matching them as nearly as possible with current available listings.

(*b*) Offering to follow up by a telephone check of the selected listings to insure their availability. In taking this action, a record shall be made of the date, time and nature of the conversation confirming the unit, which record shall be retained for future reference. In no case will the race, color, religion, national origin, or sex of the applicant be divulged.

(*c*) Offering the services of a command representative (such as a unit sponsor or other person) to accompany and assist the applicant in his search for housing. The command representative will be responsible for taking the following action:

(*1*) If an agent of a housing facility refuses to accept or consider the applicant as a tenant; falsely indicates the unit sought has been rented to another applicant; or otherwise fails to furnish the unit under the same terms and conditions as are ordinarily applied to applicants for his facilities, the agent will be queried concerning the reasons why the unit is not available. After all reasonable steps have been taken to ascertain whether any valid nondiscriminatory reason can be shown for the agent's rejection of the applicant, and there appears to be no such reason, a reasonable effort will be made to persuade the agent to make the unit available to the applicant.

(*2*) Failing to persuade the agent to accept the applicant as a tenant, the incident will be reported to the appropriate command official for investigation. (Whether a complaint is or is not filed by the applicant, the procedures outlined in paragraph (d)(1) and (2) of this section as warranted by the circumstances, shall be followed.)

(d) *Responsibilities of commanders—*(1) *Enforcement procedures in the United States.* Every commander shall:

(i) Insure that on office and staff serving the command are available to advise DOD personnel concerning:

(*a*) The procedures set forth in this part.

(*b*) The application of 42 U.S.C. 1982 and P.L. 90–284 in specific situations.

(*c*) The rights of individuals to pursue remedies through civilian channels, without recourse or in addition to the procedures prescribed herein, including the right to:

(*1*) Make a complaint directly to the Department of Housing and Urban Development (HUD) or to the Department of Justice; and,

(*2*) Bring a private civil action in any court of competent jurisdiction.

(ii) Periodically review the off-base housing procedures in his command to insure adequacy and compliance with this part. In order to assist the commander in accomplishing this review, a checklist is provided in § 301.6 of this part.

(2) *Complaint procedures in the United States.* Upon receipt of a housing discrimination complaint, an investigation will be initiated within three (3) working days after receipt of the complaint, using verifiers if deemed necessary. Verifiers will not be used for the sole purpose of ascertaining the sincerity of the practices of an agent unless a housing discrimination complaint has been filed against the agent. The investigation shall conform to the due-process procedure as set forth for Armed Forces Disciplinary Control Boards.[2]

(i) If the complaint is not substantiated by the investigation, the complainant will be (*a*) so informed, (*b*) advised of his rights to pursue further actions through HUD, the Department of Justice, and/or State or Federal Court, and (*c*) offered whatever assistance is appropriate and can be provided legally by the Military Service in pursuing the courses of action in paragraph (d)(1) of this section.

(ii) If the complaint is substantiated by the investigation, restrictive sanctions will be imposed against the agent for a minimum of 180 days; the agent will be informed in writing of this action and advised on what action he must take to remove the restrictive sanctions after the 180 day minimum.

(*a*) The complainant will be informed in writing of the results of the investigation and action will be taken to assure relief for the complainant as outlined in paragraph (b)(6) of this section.

(*b*) The complainant shall also be informed of his rights to pursue further actions through HUD, the Justice Department and/or State or Federal Courts and he shall be offered whatever assistance can be provided legally by the Military Service in pursuing these courses of action.

(c) If the act of discrimination falls under existing laws, the commander shall forward a copy of the complaint directly to HUD using HUD Form 903, if the complainant concurs. A complaint must be received by HUD within 180 days after the occurrence of the alleged discriminatory act. A copy of the Complaint shall also be forwarded to the Department of Justice (Civil Rights Division), Washington, D.C. 20530.

(iii) Where more than one complaint alleging discrimination involves the same agent, documentation may be consolidated. In these cases, if appropriate, the consolidated documentation shall be

[2] Filed as part of the original. Copies available from The Adjutant General's Center, Attention: DAAG–PAS–I, Washington, D.C. 20314.

V 38 I 185
SEP 25 73
XUM

forwarded to HUD and to the Department of Justice (Civil Rights Division), Washington, D.C. 20530.

(3) *Complaint procedures in areas outside the United States.* The procedures outlined in paragraph (d)(2) of this section shall be used for processing complaints of housing discrimination in areas outside the United States with the exception of submitting complaints to HUD or the Department of Justice.

(4) *Cooperation with Governmental agencies investigating alleged housing discrimination complaints.* Commanders shall cooperate to the fullest extent possible with other governmental agencies investigating housing discrimination complaints filed by a complainant.

**§ 301.5 Reports.**

(a) *Reporting requirements.* (1) A copy of each investigative report that substantiates a case of housing discrimination shall be submitted by the Military Services to the Assistant Secretary of Defense (Manpower and Reserve Affairs) and not later than 45 days from the date the case is forwarded from the installation. Under normal circumstances, the installation will complete required investigation and processing of complaints within 20 days from the date that a housing complaint is filed by a complainant. The Military Services shall summarize and make appropriate comments to include the affirmative action taken in the case prior to submission of the report to the Assistant Secretary of Defense (Manpower and Reserve Affairs).

(2) A copy of investigative reports that do not substantiate allegations of housing discrimination shall be kept on file at the installation level for a period of 24 months. Requests for these cases to be forwarded to the Assistant Secretary of Defense (Manpower and Reserve Affairs) normally will be made only when other government or civilian agencies have expressed an interest.

(3) Each Military Service shall submit semi-annual reports to the Assistant Secretary of Defense (Manpower and Reserve Affairs) as follows:

(i) Total number of rental facilities surveyed during the reporting period.

(ii) Total number of rental facilities listed to date and number of rental facilities listed during the reporting period.

(iii) Total number of rental facilities under restrictive sanctions and number of rental facilities restricted during the reporting period.

(iv) Total number of discrimination complaints processed during the reporting period by each Military Service.

(v) The number of compassionate reassignment and priority housing requests received under the provisions of this Part and their disposition during the reporting period.

(vi) By installation in the United States, a list of housing facilities upon which restrictive sanctions have been imposed. This shall include, as available, the name and address of the facility and agent, the reason for the restriction and the status of negotiations with the agent.

(vii) A short narrative report summarizing servicewide significant Equal Opportunity in Off-Base Housing activities, problems and experiences and appropriate explanatory comments concerning the statistical portion of the report.

(viii) Reports (as of December 31 and June 30) shall be submitted to the Assistant Secretary of Defense (Manpower and Reserve Affairs) not later than the 25th of the month following the end of the reporting period.

(b) *Report control symbol.* (1) Reports of investigation required in (a)(1) and (2) of this section are exempt from RCS by Paragraph III.D.6., DoD Directive 5000.19, "Policies for the Management and Control of DoD Information Requirements," June 2, 1971.[1]

(2) The report required in paragraph (a)(3) of this section is assigned Report Control Symbol DD-M(SA) 1146.

**§ 301.6 Check list for commanders.**

(a) Are newly assigned personnel informed as to the requirements of the equal opportunity in off-base housing program prior to obtaining housing off-base?

(b) Is there an effective equal opportunity in off-base housing information program?

(c) Are community resources being used to support the equal opportunity in off-base housing information program?

(d) Are housing discrimination complaints being expeditiously processed?

(e) Are complainants being informed, in writing, of the results of investigations?

(f) Are housing surveys being conducted periodically to obtain new listings?

(g) Are restrictive sanctions being imposed immediately for a minimum of 180 days on agents found to be practicing discrimination?

(h) Are the services of command representatives offered to accompany and assist applicants in their search for housing?

(i) Are Housing Referral Office and equal opportunity personnel sensitive to the problems of minority personnel?

(j) Are accurate equal opportunity in off-base housing reports being submitted in a timely manner?

**§ 301.7 Definition of terms.**

(a) *Agent.* Real estate agency, manager, landlord or owner, as appropriate, of a housing facility doing business with DOD personnel or a Housing Referral Office.

(b) *Area Outside the U.S.* An area in which DOD personnel reside but which is not subject to U.S. laws or regulations.

(c) *Commander.* The military or civilian head of any installation, organization or agency of the DOD.

(d) *Commuting Area.* That area defined in DOD Instruction 4165.45, "Determination of Family Housing Requirements," January 19, 1972.[1]

(e) *Complainant.* A military member, adult dependent acting for a military member, or a civilian employee of the DOD who submits a complaint of discrimination.

(f) *Discrimination.* The act of denying housing to DOD personnel because of race, color, religion, national origin, or sex.

(g) *DOD personnel.* In the United States, military personnel and their dependents, and non-appropriated and appropriated fund U.S. citizen civilian employees and their dependents, assigned to any DOD component.

(h) *Listed facility.* A suitable facility listed with the housing referral office as available for DOD personnel which is not under restrictive sanctions and whose agent and/or owner has provided a nondiscriminatory assurance.

(i) *Relief for the complainant.* Action taken by a commander for the benefit of a complainant if a discrimination complaint is substantiated.

(j) *Restrictive sanctions.* Action taken by a commander to preclude DOD personnel from entering into a new rental, lease or purchase arrangement with, or otherwise moving into, a housing facility, the agent of which has been found to have discriminated against DOD personnel. Restrictive sanctions are effective against the agent and the facility.

(k) *Verifiers.* Volunteers used by the commander during the course of a housing discrimination investigation to determine if, in fact, housing discrimination is being practiced by a facility or individual as alleged. Verifiers are not required to be prospective tenants.

MAURICE W. ROCHE,
*Director, Correspondence and Directives, OASD (Comptroller).*

## Title 35—Panama Canal

## CHAPTER I—CANAL ZONE REGULATIONS

## PART 51—AIR NAVIGATION

### General Traffic Circuit Rules

Effective September 25, 1973 § 51.122 (c) and (d), Subpart B of Part 51 of Title 35, Code of Federal Regulations, is amended to read as follows:

**§ 51.122 General traffic circuit rules.**

* * * * *

(c) Aircraft entering the traffic circuit shall exercise caution and courtesy so as not to cause aircraft already in the circuit to deviate from their course. Aircraft shall enter for runway 35 downwind where Galeta Road intersects with Randolph Road; for runway 17, aircraft shall enter south of New France Field. Straight in approaches to either runway will not be permitted.

(d) Aircraft leaving the traffic circuit shall, when departing runway 35, proceed straight out to the Colon breakwater, and then make a 45° right turn; aircraft departing runway 17 shall proceed straight out to Randolph Road, and then make a 45° left turn.

* * * * *

(2 C.Z.C. § 701, 76 A Stat. 29; 35 CFR 3.1(a)(2); 35 CFR 51.81.)

Dated August 29, 1973.

## Title 36—Parks, Forests, and Memorials

## CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

## PART 295—USE OF OFF-ROAD VEHICLES

In notice of proposed rulemaking published on March 2, 1973 (38 FR 5643), the Forest Service requested public comment on a proposal for a regulation of the use of off-road vehicles on National Forest System lands.

Comments were received from Governmental agencies (National, State, and local), organizations, companies, and formal groups, as well as many private individuals. The majority of respondents expressed support for the regulations in general, but numerous suggestions were made for change or improvement.

Several respondents felt the definitions were too broad and/or incomplete to ensure uniform interpretation. Accordingly, some revisions and expansions have been incorporated to provide for more uniform terminology and interpretation. A few comments were concerned with the delays that could be encountered to obtain a permit for emergency repairs for utility maintenance. All utilities located on National Forest System lands are under a permit, lease or license and, therefore, the use of any off-road vehicles authorized in the permitting document is exempt from these regulations. Administrative instructions in the Forest Service Manual also address the point of access for emergency purposes so as to minimize delays.

Some Governmental agency comments on the designation of areas indicated the need for cooperation with other agencies in the planning process. This need does exist and has been recognized in the regulations. Several comments were received concerning the need for seasonal restrictions. Although this is not specifically stated in the regulations, the instructions in the Forest Service Manual, FSM 2351, address this situation.

Several respondents commented that the section on public participation was not specific enough in that it did not identify the specific method for this participation. The Forest Service Manual instructions on this issue outline various methods for public participation and it is felt that latitude must be available at the local level to choose one or more methods rather than to be restrictive in the regulation. Comments were also received indicating the need for more time for public participation. This is recognized and although not specifically detailed in the regulation, it has been changed to indicate that adequate time will be provided for public participation.

Numerous responses were made to the requirement for the posting of signs to identify areas or trails having off-road vehicle restrictions. The majority of responses desired to have the Forest Service sign the areas open to off-road vehicle travel rather than the closed areas. Several reasons were given: the impact of signing would be lessened in that areas where this use is permitted would have less emphasis on esthetics; there would be less area open to off-road vehicles than are closed, thus less signing. Others felt that enforcement would be simplified in that vandalism to the signing of closed areas could effectively negate the closure in that enforcement would be questionable without the signs, whereas the absence of the signing of open areas would cause no problems. The Forest Service policy has been one of multiple use with a philosophy that the National Forests are public lands and as such are open to the public. Although there is merit to many of the reasons stated for signing of open areas this concept cannot be accepted for all National Forest System lands. Modification has been made to the regulations to eliminate the mandatory signing of closed areas and the Forest Service Manual instructions have been changed to allow latitude as to the signing of either open or closed areas or the use of maps and brochures and the possible elimination of all signing.

Many comments were received on the exemption of equipment used in connection with mining activities. Only 25 percent of comments were in favor of the exemption. However, because the Forest Service is in the process of issuing new regulations governing mining activities, no change is being made in this regulation until the mining regulations are finalized. Necessary changes will then be made in this part to bring them into agreement with the mining regulations.

Several comments were concerned about the specifics of permits. Most felt the regulations were too vague. The Forest Service Manual contains instructions on permit issuance and it is felt that no additional instructions should be provided in the regulations. A comment was received relative to permit needs for group activities such as races, rallies, meets and other events. Since there is a requirement for a permit to conduct group activities on National Forest System lands it was not included in this regulation. A few respondents questioned the monitoring procedure. The Executive order was explicit in indicating that each agency would monitor; therefore, for clarification purposes, the regulation has been modified to indicate monitoring by the Forest Service.

Several comments were received concerning operating conditions, for which § 295.6 was reserved. Subsequently, operating conditions have been written and the proposed rulemaking process will bring them to the attention of interested parties for comment.

In consideration of the foregoing, 36 CFR Chapter II is amended by adding a new Part 295—Use of Off-Road Vehicles—to read as set forth below.

*Effective date.*—This amendment is effective October 20, 1973.

ROBERT W. LONG,
*Assistant Secretary for Conservation, Research, and Education.*

SEPTEMBER 19, 1973.

Sec.
295.1 Applicability.
295.2 Definitions.
295.3 Planning Designation of Areas and Trails.
295.4 Public Participation.
295.5 Public Information.
295.6 Operating Conditions. (Reserved)
295.7 Restricted and Prohibited Use.
295.8 Off-Road Vehicle Permit.
295.9 Monitoring Effects of Off-Road Vehicle Use.

AUTHORITY.—30 Stat. 35, as amended; 16 U.S.C. 551; 50 Stat. 525, as amended; 7 U.S.C. 1011; 83 Stat. 852; E.O. 11644.

**§ 295.1 Applicability.**

The regulations in this part pertain to administrative designation of specific areas and trails of National Forest System lands on which the use of off-road vehicles shall be allowed, restricted, or prohibited and establishing controls governing the use of off-road vehicles on such areas. The use of off-road vehicles in National Forest Wilderness and Primitive Areas is governed by §§ 293.1 through 293.17 of this Title.

**§ 295.2 Definitions.**

(a) "Off-road vehicles" means any motorized vehicles designed for or capable of cross country travel on or immediately over land, water, sand, snow, ice, marsh, swampland, or other terrain which would include, but not be limited to, such vehicles as four wheel drive, motorcycle, snowmobile, amphibious, and air cushion vehicles; except that such term excludes (1) any registered motorboat, (2) any military, fire, emergency or law enforcement vehicle when used for official or emergency purposes, and (3) any vehicle whose use is expressly authorized by the Chief, Forest Service, under a permit, lease, license, or contract.

(b) "National Forest System lands" means National Forests, National Grasslands, and other lands and interests in land administered by the Forest Service.

(c) "Official use" means an employee, agent, or designated representative of the Federal Government or one of its contractors in the course of his employment, agency, or representation.

(d) "Trail" means a designated path or way of varying width which is commonly used by and maintained for hikers, horsemen, snow travelers, bicyclists or for motorized vehicles with a total width of 40 inches or less.

**§ 295.3 Planning designation of areas and trails.**

On National Forest System lands the continuing resource planning process

V 38 185 SEP 25 73 XUM

will provide for designation of specific areas and trails for off-road vehicle use, use restrictions, and closures to any or all types of such use. This process will include coordination with appropriate Federal, State, and local agencies. The planning process will analyze and evaluate alternatives to enable decisions which best provide for the protection of the natural and historic resources, promotion of safety for all users, minimization of use conflicts, and accomplishment of all of the other resource objectives for National Forest System lands. Analysis and evaluation of off-road vehicles uses will take into consideration factors such as noise, safety, quality of the various recreational experiences provided, potential impacts on soil, watershed, vegetation, fish, wildlife, fish and wildlife habitat, and existing or proposed recreational uses of the same or neighboring lands.

**§ 295.4 Public participation.**

The public shall be provided an opportunity to participate in the designation of areas and trails relating to off-road vehicle use. Advance notice will be given to allow review by the public of proposed designations or revisions of designations of any areas or trails for off-road vehicle use, for restrictions, or for closures to such use. Adequate time will be allowed for public response prior to any designations or revisions. In emergency situations, designation or revision of designation may be made without public participation to protect natural resources and to provide for public safety.

**§ 295.5 Public information.**

Areas and trails may be marked with appropriate signs to control off-road vehicle use. All notices issued concerning the regulation of off-road vehicles shall be posted so as to reasonably bring them to the attention of the public, and a copy of the notice shall be kept available to the public in the offices of the District Rangers and Forest Supervisors. Information and maps will be published and distributed describing the conditions of use and the time periods when areas and trails are: (a) Open to off-road vehicle use, (b) restricted to certain types of off-road vehicle use, (c) closed to off-road vehicle use.

**§ 295.6 Operating conditions. [Reserved]**

**§ 295.7 Restricted and prohibited use.**

Except as provided in § 295.8, and except for use in connection with mining activities under the provisions of the General Mining Act of 1872, the use of off-road vehicles is prohibited in areas and trails on National Forest System lands during any period when such areas and trails have been closed to vehicles or certain types of vehicles pursuant to these regulations.

**§ 295.8 Off-road vehicle permit.**

Use of off-road vehicles on National Forest System lands where the use of off-road vehicles is prohibited may be allowed for official use or with prior authorization by means of an Off-Road Vehicle permit. Off-Road Vehicle permits may be issued by the Chief or authorized official of the Forest Service, and such permits will be for a specific area, conditions of use, and a definite period of time. Off-Road Vehicle permits shall be revocable for violation of the rules and regulations governing the National Forests.

**§ 295.9 Monitoring effects of off-road vehicle use.**

The effects of off-road vehicle use on National Forest System lands will be monitored by the Forest Service. Designation, use restrictions, and operating conditions will be revised as needed to meet changing conditions.

[FR Doc.73-20324 Filed 9-24-73;8:45 am]

## Title 47—Telecommunication

## CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

## PART 0—COMMISSION ORGANIZATION

### Chief Broadcast Bureau; Delegation of Authority

There have been approximately twenty-one amendments to § 0.281 since it was published at 28 FR 12402, November 22, 1963. To coincide with the 1973 revision of Title 47, Chapter I, Parts 0 to 19 of the Code of Federal Regulations, it is appropriate to recap § 0.281. The text of this section, which was last amended effective November 7, 1972 and published in the FEDERAL REGISTER at 37 FR 23336, is set forth below.

Released September 20, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

The text of § 0.281 as in effect on September 20, 1973, is as follows:

CHIEF, BROADCAST BUREAU

**§ 0.281 Authority delegated.**

The Chief of the Broadcast Bureau is delegated authority to act upon applications, requests, and other matters which are not in hearing status relating to broadcast services as follows:

(a) Formal applications for broadcast authorizations:

(1) For construction permits for new or changed standard, FM, noncommercial educational FM, television, television translator, FM translator, FM booster facilities, and UHF television booster facilities, or for modification thereof; for licenses or modification thereof; or for renewal of licenses for such facilities for the normal license term, which applications comply fully with the requirements of the Communications Act and the provisions of this chapter, accord with Commission policy and standards, are not mutually exclusive with any other application, and concerning which no petition to deny pursuant to § 1.580 of this chapter or other substantial objection has been filed.

(2) For assignment of broadcast licenses or permits or for transfer of control of broadcast licensees or permittees, which applications comply fully with the requirements of the Communications Act and the provisions of this chapter, accord with Commission policy and standards, and concerning which no petition to deny pursuant to § 1.580 of this chapter or other substantial objection has been filed;

(3) For new or modified experimental, developmental, and auxiliary broadcast authorizations covered by Part 74 of this chapter, or for renewal of authority for such facilities.

(4) For reinstatement of expired construction permits.

(5) For new or modified Subsidiary Communications Authorizations, or for renewal of such Authorizations.

(b) Designate for hearing, upon appropriate issues, mutually exclusive applications for new or modified standard, FM, noncommercial FM, and television facilities.

(c) Requests for temporary authority:

(1) For temporary waiver of technical operating requirements relating to overall system performance or elements thereof and rules requiring that specified items of equipment be employed.

(2) For operation with temporary antenna system.

(3) For operation with auxiliary transmitter as main transmitter.

(4) For operation with new or modified equipment pending repair of existing equipment or pending receipt and action upon a formal application.

(5) For operation with reduced power or to make other changes in operation of authorized equipment for technical reasons.

(6) For special operation necessary to facilitate equipment, program and service tests or to comply with technical requirements specified in authorizations, orders, rules or releases of the Commission.

(7) For operation with licensed, new, or modified equipment at a temporary site with a temporary antenna system when in case of an emergency it becomes impossible to continue operating at the regularly authorized site.

(8) For special operation of stations in the experimental, developmental and auxiliary broadcast services covered by Part 74 of this chapter.

(9) For temporary authority in emergency cases, at times outside of the regular office hours of the Commission, which require immediate action during such hours.

(10) For authority for television broadcast stations to operate with visual-to-aural power other than that specified in this chapter.

(d) Miscellaneous applications and requests:

(1) For temporary operation, for a lesser period of time than specified by §§ 73.71, 73.261, and 73.651 of this chapter, or to remain silent for temporary periods.

(2) For extension of time within which a transfer of control or assignment of license may be effectuated.

(3) For authority for FM broadcast stations to transmit multiplex facsimile in accordance with § 73.266 of this chapter.

(4) For authority to rebroadcast when authorization is required under Parts 73 and 74 of this chapter.

(5) For any permit required by the provisions of section 325(b) of the Communications Act.

(6) For cancellation of licenses, construction permits or other authorizations.

(7) For withdrawal of papers in accordance with § 1.8 of this chapter.

(8) For the extension of time in which to file briefs, comments, pleadings, and all other papers, including papers relating to matters which are to be decided by the Commission, such as applications for review of actions taken by the Chief, Broadcast Bureau, and including situations in which the filing date was initially specified by the Commission.

(9) For conducting equipment and program tests.

(10) For operation during daytime for specified periods with the nighttime facilities in order to check measurements and operation.

(11) For extension of time within which to comply with technical requirements specified in authorizations, orders, and rules or releases of the Commission.

(12) For television site survey.

(13) For standard broadcast special field test authorizations.

(14) For authority to relocate the main studio outside the corporate limits of the community to which the station is assigned, when no change in station location or identification is involved.

(15) For waiver of the transmitter inspection requirements imposed by §§ 73.93(e), 73.265(e), and 73.565(e) of this chapter.

(16) To waive the provisions of the note to §§ 1.571 and 73.37 of this chapter to the extent necessary to accept for filing and application by an existing standard broadcast facility for change of site or antenna efficiency, which would result in new or increased cochannel or first adjacent channel overlap, if it is found that good cause for the change exists, and such overlap is not in excess of 2 miles along the line of maximum penetration.

(17) For waiver of the provisions of § 73.652(a) of this chapter to permit multiple-city identification, where the additional community or communities with which identification is sought, are provided with the requisite field intensity specified in § 73.685(a) of this chapter by the station seeking such authority.

(e) Applications or requests concerning experimental or developmental broadcast stations involving:

(1) Assignment from time to time of the frequency or frequencies, power, emission, and type of equipment to be employed by any experimental or developmental broadcast station, so as to provide the maximum results from the experimentation with the minimum interference.

(2) Addition, modification, or coordination of programs of research or experimentation of any experimental or developmental broadcast station, so as to provide the maximum results from the experimentation which can be reasonably expected of the licensee or licensees.

(f) To withdraw authorizations for equipment and service or program tests where the terms of the construction permit have not been met.

(g) Requests for modification of tower painting and lighting specifications.

(h) To issue such National Defense Emergency Authorizations as may be required to permit stations licensed by the Commission to participate in approved National Defense Plans during a national emergency, and to issue such further authorizations as may be appropriate under Executive Order 11092.

(i) To dismiss applications without prejudice (1) as provided in § 1.568 (a) and (b) of this chapter, or (2) where an application is not timely filed under the Commission's rules in order to receive comparative consideration with an application or applications with which it is mutually exclusive.

(j) To give written consent to applicants who request authority to make minor changes in effecting transfers of control, or assignment of licenses, previously authorized by the Commission.

(k) To advise licensees to cease operation in the event renewal applications are not filed with the Commission prior to the expiration date of the particular license.

(l) To defer action on those renewal license applications received subsequent to the fifteenth day of the month prior to the expiration date of the particular license.

(m) To grant, for good cause shown, requests for temporary authority to continue operation for a period not to exceed 90 days, where an application for renewal of license has been filed subsequent to the expiration of the particular license.

(n) To dismiss or return applications or petitions which are not acceptable under Commission rules.

(o) To extend the time to file oppositions to petitions relating to broadcast applications not designated for hearing.

(p) To administer, interpret, and apply orders or rules of practice and procedure promulgated by the Commission relating to financial and statistical data of stations in the broadcast service and broadcast networks and chains, including applications for extension of time in which to file financial and statistical statements and reports.

(q) To declare a construction permit for a broadcast facility automatically forfeited if the station authorized by the construction permit is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and if no application for extension of construction permit has been granted by the Commission or timely filed by the permittee, and to place a notation of the forfeiture in the records of the Commission as of the expiration date of the construction permit.

(r) After coordination with the U.S. Information Agency, to authorize the use of frequencies and frequency hours by international broadcast stations; and to grant, upon adequate showing of need, waivers for operation in excess of the frequency-hour limitations imposed by § 73.702(1) and the note to § 1.574 (c) of this chapter.

(s) To determine whether an application for modification constitutes a major change in facilities, and whether an amendment to an application constitutes a major amendment; and, if so, to so designate such a change or amendment.

(t) To direct standard broadcast stations to refrain from pre-sunrise operation with their daytime facilities pursuant to § 73.87 of this chapter.

(u) To dismiss petitions and other pleadings which have clearly been rendered moot.

(v) To extend the time to file responses to official correspondence.

(w) With the concurence of the General Counsel, to issue rulings and interpretations with respect to, and to act upon complaints arising under, section 315 of the Communications Act and §§ 73.120, 73.290, 73.590 or 73.657 of this chapter.

(x) To issue Notices of Apparent Liability in amounts not in excess of $250, under Section 503(b) of the Communications Act and § 1.621 of this chapter.

(y) To issue lists of applications for standard broadcast facilities establishing a "cut-off" date pursuant to the provisions of § 1.571(c) of this chapter.

(z) To dismiss, subject to request within 30 days for reinstatement and hearing, applications for extensions of time in which to construct a station where it appears that the failure to complete was due to causes under the control of the grantee.

(aa) To dismiss, as repetitious, any petition for reconsideration of a Commission order which disposed of a petition for reconsideration and which did not reverse, change, or modify the original order.

(bb) To dismiss or deny petitions for rule making which are repetitive or moot or which, for other reasons, plainly do not warrant consideration by the Commission.

(cc) To act on requests for temporary exemption from the provisions of § 73.242(a) of the Commission's rules and regulations, and if good cause is shown to grant temporary exemption for a period of no more than 3 months.

(dd) To accept and grant reinstatement applications beyond the 30-day period in § 1.534(b) of this chapter.

(ee) To grant temporary operation by remote control pending receipt and consideration of a formal application.

V 38 N 185 SEP 25 73 XUM

(ff) To waive the provisions of the note to §§ 1.571 and 73.37 of this chapter to the extent necessary to accept and grant an application by an existing standard broadcast facility for change of site or antenna efficiency, which would result in new or increased co-channel or first adjacent channel overlap, if it is found that good cause for the change exists, and such overlap is not in excess of 2 miles along the line of maximum penetration.

(gg) To grant, grant in part, or dismiss, as appropriate, informal applications for Presunrise Service Authority (PSA) in acordance with § 73.99 of this chapter, and to suspend, modify, or withdraw such authority under the circumstances outlined therein.

(hh) To grant temporary authority for subchannel operation.

(ii) In conjunction with the Office of Chief Engineer, to rule on objections based on claimed phonetic similarity arising under § 1.550 of this chapter.

(jj) In conjunction with the Office of Chief Engineer, to waive the provisions of § 1.550(d) (1) of this chapter if an examination of the call signs of the broadcast stations notified by applicant clearly indicates that no significant likelihood of public confusion could arise and that no purpose would be served by the waiting period prescribed.

(kk) For waiver of the provisions of §§ 73.117 and 73.287 of this chapter to permit multiple-city identification, where the additional community or communities with which identification is sought are provided with the minimum principal city signal intensity specified in §§ 73.188(b) and 73.315(a) of this chapter for AM and FM broadcast stations, respectively; and to dismiss requests for multiple-city identification which do not meet principal city coverage requirements.

(ll) To act on requests for waiver of § 73.651(c) or § 74.931(a) of this chapter, where operation under such requests will not exceed 10 hours per week, to permit operation by a noncommercial educational television broadcast station or an instructional television fixed station of their aural transmitters to transmit music accompanied by slides, films, or other visual transmissions.

## Title 49—Transportation

### CHAPTER X—INTERSTATE COMMERCE COMMISSION

### SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 274 (Sub-No. 1)]

### PART 1121—ABANDONMENT OF RAILROAD LINES

### Special Procedures for Proposed Railroad Abandonment; Corrected Order [1]

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 14th day of January 1972.

**§ 1121.32 Notice, publication, posting, service.**

(a) *Publication in county newspapers.* The front page of the application (short-form) and attachment (if any) must be published by the applicant in some newspaper of general circulation in each county in which any part of the line of railroad sought to be abandoned is situated. The notice must be published at least once during each of three consecutive weeks. The last publication date must be at least 20 days before the date specified therein for the filing of protests with the Commission.

(b) *Posting.* Copy of the front page of the application and attachment (if any) must be posted in a conspicuous place at each agency station on the line sought to be abandoned. If there is no agency station on the line sought to be abandoned, the notice shall be posted at the agency station on the applicant's line through which business for the line sought to be abandoned is handled.

(c) *Mail service.* On or before the date the application is filed with the Commission, the applicant shall serve, by first class mail:

(1) A conformed copy of the application on the governor and public service commission of each state in which any part of the line of railroad sought to be abandoned is situated, accompanied by a statement that if they desire to be heard in the matter they shall advise the Commission within the period specified of their interest in the proceeding; and

(2) Copy of the notice on all shippers and consignees which, after diligent, inquiry, are found to be located on the line proposed to be abandoned and to have used the services of said line during the 12-month period immediately preceding the date of filing the application and upon all prospective shippers and consignees which may have newly located on the line during the aforesaid 12-month period regardless of whether or not they may have utilized the line during the period.

(d) *Certificate of service.* A certificate of mail service and proof of publication and posting of the notice shall be filed with the Commission at least 10 days before the date specified in the notice for the filing of protests.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

### SUBCHAPTER D—TARIFFS AND SCHEDULES

[Ex Parte No. MC-1 (Sub-No. 3)]

### PART 1322—EXTENSION OF CREDIT TO SHIPPERS BY MOTOR CARRIERS

### Payment of Rates and Charges of Motor Carriers Credit Regulations—Household Goods

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 5th day of September 1973.

It appearing, that pursuant to part II of the Interstate Commerce Act (section 223) and section 553 of the Administrative Procedure Act (5 U.S.C. section 553), a rulemaking proceeding was instituted by the Commission on November 24, 1970, for the purpose of determining whether and to what extent the currently effective rules and regulations pertaining to the period of credit following delivery of freight by motor common carriers of household goods should be modified or changed, and whether the carriers should be allowed to impose penalty charges upon shippers who fail to pay the freight charges within the credit period;

If further appearing, that investigation of the matters and things involved in this proceeding has been made and that the Commission has made and filed its report herein containing its findings of facts and conclusions thereon, which report is hereby referred to and made a part hereof;

*It is ordered,* That Part 1322 of Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, modified by amending § 1322.1 by adding thereto the

**§ 1322.1 Carrier may extend credit to shipper.**

* * * * *

following provisions:

(c) *Exceptions—Carriers of houshold goods.* Except as provided in paragraph (b) of this section, motor common carriers of household goods must also provide in their tariffs that (1) the aforestated credit period of 7 calendar days shall automatically be extended to a total of 30 calendar days for any shipper who has not paid the carrier's freight bill within the aforesaid 7-day period, (2) such shipper will be assessed a service charge by the carrier equal to 1 percent of the amount of said freight bill, subject to a $10 minimum charge, for such extension of the credit period, and (3) no such carrier shall grant credit to any shipper which falls to pay a duly presented freight bill within the 30-day period, unless and until such shipper affirmatively satisfies the carrier that all future freight bills duly presented will be paid strictly in accordance with the rules and regulations prescribed by the Commission for the settlement of carrier rates and charges. *Provided,* That no service charge authorized herein shall be assessed in connection with rates and charges on freight transported for the United States, for any department, bureau, or agency thereof, or for any State or territory, or political subdivision thereof, or for the District of Columbia.

*It is further ordered,* That this order shall become effective on November 5, 1973, and shall remain in effect until modified or revoked in whole or in part by further order of the Commission.

*And it is further ordered,* That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register (49 U.S.C. 301, 302, 304, 308, and 323, 5 U.S.C. 553 and 599).

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[FR Doc.73-20428 Filed 9-24-73;8:45 am]

[1] In the order of the Commission, served September 1, 1972, part 1121.32 was inadvertently omitted. (37 FR 18918, September 16, 1972.)

## Title 50—Wildlife and Fisheries

### CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

### PART 32—HUNTING

### Montezuma National Wildlife Refuge, New York

The following special regulation is issued and effective during the period December 5, 1973, through February 28, 1974.

**§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.**

NEW YORK

MONTEZUMA NATIONAL WILDLIFE REFUGE

The public hunting of gray squirrels, cottontail rabbits, raccoons, foxes, and unprotected mammals is permitted from December 5, 1973, to February 28, 1974, inclusive, on the Montezuma National Wildlife Refuge, New York except on areas designated by signs as closed. The open area, comprising 5,285 acres, is delineated on maps available at refuge headquarters, RD1, Box 232, Seneca Falls, New York, 13148; and from the Regional Director, Bureau of Sport Fisheries and Wildlife, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

Hunting shall be in accordance with all other applicable state regulations governing the hunting of the above mammals.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 28, 1974.

RICHARD E. GRIFFITH,
*Regional Director, Bureau of Sport Fisheries and Wildlife.*

SEPTEMBER 17, 1973.

[FR Doc.73-20331 Filed 9-24-73;8:45 am]

### PART 32—HUNTING

### Prime Hook National Wildlife Refuge, Delaware

The following special regulation is issued and is effective during the period November 3, 1973, through January 3, 1974.

**§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.**

DELAWARE

PRIME HOOK NATIONAL WILDLIFE REFUGE

The public hunting of waterfowl, rails, coots, gallinules, common snipe, woodcock, and mourning doves on Prime Hook National Wildlife Refuge is permitted within the regularly established 1973–74 waterfowl hunting season of the State of Delaware, but only within the 1,663 acre waterfowl hunting area as delineated on a map available at refuge headquarters, RD 1, Box 195, Milton, Delaware 19968, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Massachusetts 02109.

Hunting shall be in accordance with all applicable Federal and State regulations covering the hunting of migratory birds subject to the following special conditions:

(1) Permits will be issued by a ticket-lottery system at two hours before sunrise. Hunters arriving after the lottery will be issued permits on a first-come, first-served basis until 3:00 p.m. Permits will be surrendered at the checking station within one hour after sunset.

(2) Hunting shall be only from blinds at locations designated by refuge personnel. The possession of a loaded gun or shooting outside of a blind while hunting migratory game birds is prohibited. Three hunters per blind permitted.

(3) Access to the waterfowl hunting area will be at the refuge headquarters, and other designated access points.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge area generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 16, 1974.

RICHARD E. GRIFFITH,
*Regional Director, Bureau of Sport Fisheries and Wildlife.*

SEPTEMBER 17, 1973.

### PART 32—HUNTING

### Tishomingo National Wildlife Refuge, Oklahoma

The following special regulation is issued and is effective on September 25, 1973.

**§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.**

OKLAHOMA

TISHOMINGO NATIONAL WILDLIFE REFUGE

Public hunting of quail on the Tishomingo National Wildlife Refuge, Oklahoma, is permitted only on the area designated by signs as open to hunting. This open area, comprising 3,170 acres, is delineated on maps available at refuge headquarters, Tishomingo, Oklahoma, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations governing the hunting of quail subject to the following special conditions:

(1) The open season for hunting quail on the Management Unit (Zones 1 and 2) extends from sunrise to 11:45 A.M. November 20, 1973 through February 1, 1974, inclusive, on Tuesdays, Thursdays, Saturdays, Sundays, and all national holidays.

(2) Dogs may be used for the purpose of hunting and retrieving.

(3) A Federal permit is not required to enter the public hunting area, but hunters, upon entering and leaving, shall report at designated checking stations as may be established for the regulation of the hunting activity and shall furnish information pertaining to their hunting, as requested.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 1, 1974.

ERNEST S. JEMISON,
*Refuge Manager, Tishomingo National Wildlife Refuge, Tishomingo, Oklahoma.*

SEPTEMBER 11, 1973.

[FR Doc.73-20332 Filed 9-24-73;8:45 am]

### PART 32—HUNTING

### Tishomingo National Wildlife Refuge, Oklahoma

The following special regulation is issued and is effective on September 25, 1973.

**§ 32.32 Special regulations; big game; for individual wildlife refuge areas.**

OKLAHOMA

TISHOMINGO NATIONAL WILDLIFE REFUGE

Public hunting of deer on the Tishomingo National Wildlife Refuge, Oklahoma, is permitted only on the area designated by signs as open to hunting. This open area, comprising 3,170 acres, is delineated on maps available at refuge headquarters, Tishomingo, Oklahoma, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office Box 1306, Albuquerque, New Mexico 87103. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) The archery deer hunting season on the Management Unit (Zone 1, 2, and 3) is from October 13 through October 21, 1973, to buck only deer hunting. Shooting hours are from daylight to dark. No permit required. A maximum of 60 archery hunters per day will be admitted to the hunting area.

(2) The gun deer hunting season on the Management Unit will be open November 23, 24, 25, 1973, to buck deer hunting only by permits. The Oklahoma Wildlife Department will issue 35 permits per day by public drawing. Shooting hours are from daylight to dark.

(3) A Federal permit is not required to enter the public hunting area for the hunting of deer, but hunters, upon entering and leaving, shall report at designated checking stations as may be established for the regulation of the

V 38 I 185 SEP 25 73 XUM

hunting activity and shall furnish information pertaining to their hunting, as requested.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 25, 1973.

ERNEST S. JEMISON,
*Refuge Manager, Tishomingo National Wildlife Refuge, Tishomingo, Oklahoma.*

SEPTEMBER 10, 1973.

[FR Doc.73-20333 Filed 9-24-73;8:45 am]

## PART 32—HUNTING

### Yazoo National Wildlife Refuge, Mississippi

The following special regulations are issued and are effective on September 29, 1973.

**§ 32.22 Special regulations; upland game; for individual refuge areas. areas.**

MISSISSIPPI

YAZOO NATIONAL WILDLIFE REFUGE

Public hunting of squirrels on the Yazoo National Wildlife Refuge, Mississippi, is permitted only on the areas designated by signs as open to hunting. These open areas, comprising approximately 10,500 acres, are delineated on a map available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, 17 Executive Park Drive NE., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State regulations governing the hunting of squirrels subject to the following special conditions:

(1) The open season extends from September 29–October 10, 1973, Sundays excluded, one-half hour before official sunrise to official sunset. Hunters may not enter hunting area earlier than one hour before official sunrise and must depart area immediately after official sunset.

(2) Bag limit: 8 per day.

(3) Firearms: shotguns, 10 gauge or smaller (no buckshot or slugs permitted, possession illegal), rifles limited to 22 caliber (22 magnum and 222 rifles prohibited). *All shotguns must be plugged to hold three shells. Sidearms (pistols and revolvers) prohibited.*

(4) Use of dogs prohibited.

(5) No firearms may be discharged within 250 yards of Refuge Headquarters or residences.

(6) Carrying of loaded firearms in vehicles prohibited. Shooting from vehicles or paved roads prohibited.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 10, 1973.

PHILLIP S. MORGAN,
*Acting Regional Director, Bureau of Sport Fisheries and Wildlife.*

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF THE INTERIOR

### Bureau of Indian Affairs

### [ 25 CFR Part 221 ]

### SALT RIVER INDIAN IRRIGATION PROJECT, ARIZONA

### Proposed Revisions

Pursuant to the authority vested in the Secretary of the Interior for issuance of irrigation operation and maintenance orders fixing per acre assessments against lands included in Indian Irrigation Projects, delegated to the Commissioner of Indian Affairs by Order No. 2508 (10 BIAM 2.1, Section 15a) and redelegated to the Area Directors by 10 BIAM 4.1, notice is hereby given that it is proposed to modify § 221.120 *Basic assessment*, of Title 25, Code of Federal Regulations, dealing with operation and maintenance assessment against the lands under the Salt River Indian Irrigation Project in Arizona, by increasing the annual basic assessment rate for the calendar year 1974 and subsequent years until further notice, from $7.35 to $9.60 per acre; § 221.121 *Payment*, to change annual date of payment from April 1 to February 1 each year; and § 221.123 *Excess water*, by increasing the rate from $8.00 to $9.50 per acre-foot.

The revised sections will read as follows:

**§ 221.120 Basic assessment.**

The basic operation and maintenance assessment against the lands under the Salt River Indian Irrigation Project in Arizona to which water can be delivered through the irrigation project works is hereby fixed at $9.60 per acre for the year 1974 and subsequent years until further notice. The payment of the per-acre assessment shall entitle the land for which payment is made to receive three acre-feet of water per annum, or such lesser amount as represents the proportionate share of the available supply of water.

**§ 221.121 Payment.**

The annual basic charge fixed in § 221.120 shall be due and payable on or before February 1, 1974, and on February 1 of each year thereafter until further notice. Charges not paid on the due date shall stand as a first lien against the lands until paid.

**§ 221.123 Excess water.**

Additional water in excess of the basic apportionment of three acre-feet per acre per annum, may be purchased if and when the water is available at the rate of $9.50 per acre-foot or fraction thereof, measured at the farm delivery point. Payment shall be made in advance of delivery.

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed revisions to John Artichoker, Area Director, Phoenix Area Office, Post Office Box 7007, Phoenix, Arizona 85011, on or before October 25, 1973.

JOHN ARTICHOKER,
*Area Director.*

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 989 ]

### RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

### Proposed Designation of Desirable Free Tonnage for Natural Thompson Seedless Raisins

Notice is given of a proposal to designate a desirable free tonnage for natural Thompson Seedless raisins of 150,000 tons which would be made available as free tonnage during the 1973–74 crop year. This action would be in accordance with the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), hereinafter referred to collectively as the "order", regulating the handling of raisins produced from grapes grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was unanimously recommended by the Raisin Administrative Committee.

The Committee's recommendation is pursuant to § 989.54 of the order and is based on its review of shipment data, inventory data, and other matters, relating to a desirable free tonnage for natural Thompson Seedless raisins for the 1973–74 crop year.

The proposed desirable free tonnage is based upon the following estimates:

| Item | *Natural condition tons* |
|---|---|
| 1. Free tonnage trade demand | 131,500 |
| 2. Desirable carryout Aug. 31, 1974 | 20,000 |
| 3. Total requirements | 151,500 |
| 4. Less carryin Sept. 1, 1973 | 1,500 |
| 5. Desirable free tonnage | 150,000 |

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 15, 1973. All written submissions made pursuant to this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated September 19, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

### [ 7 CFR Part 1140 ]

### MILK IN THE FRONTIER MARKETING AREA

### Postponement of Hearing on Proposed Marketing Agreement and Order

A notice was issued on July 10, 1973 (38 FR 18681), giving notice of a public hearing to be held at the U.S. Courthouse, Old Federal Building (Courtroom 1), 111 South Wolcott Street, Casper, Wyoming, beginning at 10 a.m., local time, on August 7, 1973, with respect to a proposed marketing agreement and order, regulating the handling of milk in the Frontier marketing area.

The hearing was convened on August 7 and recessed on August 10, 1973. The Administrative Law Judge scheduled the hearing to reconvene at the same place on September 25, 1973, at 9 a.m., local time.

Notice is hereby given, pursuant to the rules of practice applicable to such proceedings (7 CFR Part 900), that said hearing is postponed until the earliest date feasible for rescheduling, such date and the time and place of the hearing to be announced later. The major order proponent had requested a postponement of the hearing for approximately sixty days.

Copies of this notice of postponement of hearing may be procured from the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on September 20, 1973.

JOHN C. BLUM,
*Deputy Administrator Regulatory Programs.*

[FR Doc.73-20433 Filed 9-24-73;8:45 am]

V 38 185 SEP 25 73 XUM

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Office of the Secretary

### [ 42 CFR Part 81 ]

### CAPITAL EXPENDITURES

### Payment to States for Costs of Review

On August 3, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 20994) stating that the Assistant Secretary for Health of the Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposed to issue a new Part 81 of Title 42, Code of Federal Regulations, entitled "Limitation on Federal Participation for Capital Expenditures". The Notice stated that the purpose of the proposed Part 81 was to implement the provisions of section 1122 of the Social Security Act, as added by Section 221(a) of the Social Security Amendments of 1972 (86 Stat. 1386–89; 42 U.S.C. 1320a–1). Interested persons were given 30 days to comment on the proposal.

The proposed Part 81 did not include any provision implementing paragraph (c) of such section 1122, relating to payment to the States by the Secretary from the Federal Hospital Insurance Trust Fund for the performance of functions under section 1122(b). Such a provision has now been prepared for inclusion in Part 81.

Accordingly, notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary, proposes to add to 42 CFR Part 81, as such Part 81 was proposed in the notice of proposed rulemaking published on August 3, 1973 (38 FR 20994), a new § 81.110, entitled "Payment by Secretary of costs of agency review".

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed new 42 CFR 81.110 to the Comprehensive Health Planning Service, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, on or before October 10, 1973. Comments will be available for public inspection in Room 7–43, Parklawn Building, between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

It is, therefore, proposed to add the following new § 81.110 to the new Part 81 of Title 42, as such Part 81 was proposed in the notice of proposed rulemaking published in the FEDERAL REGISTER on August 3, 1973 (38 FR 20994).

Dated August 31, 1973.

H. E. SIMMONS,
*Acting Assistant Secretary for Health.*

Approved September 21, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

**§ 81.110 Payment by Secretary of costs of agency review.**

(a) In accordance with section 1122(c) of the Act, the Secretary will pay to each designated planning agency, from the Federal Hospital Insurance Trust Fund, an amount for each fiscal year beginning with the fiscal year ending June 30, 1974, to be determined as follows:

(1) The Secretary will determine, on the basis of information furnished to him by the designated planning agency and such other information as may be available to him, (i) the amount of funds, both Federal and non-Federal, which will be expended in such State during such fiscal year to carry out sections 314(a) and (b) of the Public Health Service Act, and (ii) the amount of such funds which will be expended for the purpose of cost containment.

(2) The amount to be paid to each designated planning agency under this paragraph will be computed by multiplying the lesser of (i) the amount determined pursuant to clause (ii) of paragraph (a)(1) of this section or (ii) 50 percent of the amount determined pursuant to clause (i) of paragraph (a)(1), of this section, by the percentage obtained by dividing the total amount of Federal expenditures for hospital and nursing home services under Titles V, XVIII and XIX of the Act in such State by the total amount of all expenditures for hospital and nursing home services, from whatever source in such State. This computation shall utilize data from the latest fiscal year for which all necessary data is available, as determined by the Secretary.

(3) The amounts to be paid to the States pursuant to this paragraph for each fiscal year will be published by the Secretary in the FEDERAL REGISTER as soon as practicable following the beginning of such fiscal year.

(b) Each designated planning agency shall be responsible for making payments from funds paid to it by the Secretary pursuant to paragraph (a) of this section to the other agencies described in § 81.105 in such State. The method for computing such payments shall be described in the Agreement.

(c) The Secretary shall from time to time make payments to a designated planning agency of all or a portion of the amount determined pursuant to paragraph (a) of this section, in advance or by way of reimbursement as provided in the Agreement, to the extent he determines such payments necessary to promote the carrying out of the purposes of section 1122 of the Act in such State. Such payments shall be subject to adjustments, on account of overpayments or underpayments previously made, in accordance with the Agreement.

(d) The designated planning agency shall keep such records and accounts, and furnish such reports to the Secretary, as may be required pursuant to the Agreement.

[FR Doc.73-20497 Filed 9-24-73;8:45 am]

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

### [ 14 CFR Part 71 ]

[Airspace Docket No. 73–EA–84]

### CONTROL ZONE

### Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Calverton, N.Y., Control Zone (38 FR 362).

The communications and weather information at the Peconic River Airport will be available from 0800 to sunset, local time, Monday through Saturday. It is proposed to alter the control zone description so as to make its effectivity coincident with such availability.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Calverton, New York, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to alter the Calverton, N.Y. control zone as follows:

In the text, delete "from 0800 to 1630 hours, local time, Monday through Friday." and substitute in lieu thereof, "from 0800 to sunset, local time, Monday through Saturday."

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on September 11, 1973.

ROBERT H. STANTON,
*Director, Eastern Region.*

[FR Doc.73-20358 Filed 9-24-73;8:45 am]

### [ 14 CFR Part 71 ]

[Airspace Docket No. 73–SO–61]

### CONTROL ZONE

### Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Knoxville, Tenn. (Downtown Island Airport) control zone.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 770, 3400 Whipple Street, East Point, Ga.

The Knoxville (Downtown Island Airport) control zone described in 71.171 (38 FR 351) would be amended to read:

Within a 5-mile radius of Downtown Island Airport (Lat. 35°57'45" N, Long. 83°52'30" W); excluding the portion within the Knoxville control zone. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

The proposed alteration is required to provide controlled airspace protection for IFR operations at Knoxville Downtown Island Airport. An instrument approach procedure to this airport, utilizing the Knoxville VOR and Knoxville Approach Control Radar, is proposed.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on September 10, 1973.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.73-20368 Filed 9-24-73;8:45 am]

### [ 14 CFR Part 71 ]

[Airspace Docket No. 73–EA–80]

### CONTROL ZONE

### Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of the Federal Aviation Regulations so as to alter the Morristown, N.J., Control Zone (38 FR 403, 21393).

A review of the terminal airspace requirements for Morristown, New Jersey, indicates a need to alter the control zone to conform to the criteria of the Terminal Instrument Procedures (TERPs).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Morristown, New Jersey, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting the description of the Morristown, N.J. control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 40°47'58" N., 74°34'56" W., of Morristown Municipal Airport, Morristown, N.J., extending clockwise from a 339° bearing to a 229° from the airport; within a 6-mile radius of the center of Morristown Municipal Airport, extending clockwise from a 229° bearing to a 339° bearing from the airport and within 3 miles each side of a 204° bearing from the Chatham, N.J., RBN, extending from the 5-mile-radius zone to 8.5 miles southwest of the RBN, excluding a 1-mile radius of the center, 40°41'28" N., 74°32'08" W., of Somerset Hills, Airport, Basking Ridge, N.J. This control zone is effective from 0630 to 2230 hours, local time, daily.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on September 11, 1973.

ROBERT H. STANTON,
*Director, Eastern Region.*

### CONTROL ZONE

### Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of the Federal Aviation Regulations so as to alter the New York, N.Y. (La Guardia Airport) Control Zone (38 FR 406).

A review of the terminal area airspace requirements for New York, N.Y., indicates a need to alter the control zone so as to conform to the criteria of the Terminal Instrument Procedures (TERP's).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received within 30 days after publication in the Federal Register will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of New York, New York (La Guardia Airport), proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of the Federal Aviation Regulations by deleting the description of the New York, N.Y. (La Guardia Airport) control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center 40°-46'36" N., 73°52'24" W. of La Guardia Airport; within 1.5 miles each side of a line bearing 124° from a point 40°46'20" N., 73°-51'34" W., extending from said point to 5 miles southeast of said point.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on September 11, 1973.

## CONTROL ZONE AND TRANSITION AREA

### Proposed Alteration and Revocation

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of the Federal Aviation Regulations so as to alter the Newburgh, N.Y., Control Zone (38 FR 405) and Transition Area (38 FR 543) and revoke the Middletown, N.Y., Transition Area (38 FR 533).

A review of the terminal airspace requirements for Montgomery, N.Y., Middletown, N.Y., and Newburgh, N.Y., indicates a need to increase the controlled airspace to protect aircraft executing instrument procedures for Randall Airport, Orange County Airport and Stewart Airport. Such alteration will also permit the deleting of the Middletown, N.Y., Transition Area, which will be included in the Newburgh, N.Y., Transition Area.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal areas aforementioned, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of the Federal Aviation Regulations by deleting the description of the Newburgh, N.Y. control zone and by substituting the following in lieu thereof:

Within a 5-mile radius of the center, 41°-30'05" N., 74°05'40" W., of Stewart Airport, Newburgh, N.Y., extending clockwise from a 066° bearing to a 209° bearing from the airport; within a 5.5-mile radius of the center of the airport, extending clockwise from a 209° bearing to a 249° bearing from the airport; within a 5-mile radius of the center of the airport, extending clockwise from a 249° bearing to a 315° bearing from the airport; within a 6.5-mile radius of the center of the airport, extending clockwise from a 315° bearing to a 066° bearing from the airport; within 3 miles each side of the Stewart VOR (41°30'28" N., 74°05'53" W.) 325° radial, extending from the VOR to 15 miles northwest of the VOR and within 4.5 miles each side of the Stewart VOR 085° radial, extending from the VOR to 11.5 miles east of the VOR, excluding the portion that coincides with the Poughkeepsie, N.Y., control zone. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

2. Amend § 71.181 of the Federal Aviation Regulations by deleting the description of the Newburgh, N.Y., transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center, 41°30'05" N., 74°05'40" W. of Stewart Airport, Newburgh, N.Y., extending clockwise from a 222° bearing to a 332° bearing from the airport; within an 11.5-mile radius of the center of Stewart Airport, extending clockwise from the 332° bearing to a 045° bearing from the airport; within an 8.5-mile radius of the center of Stewart Airport, extending clockwise from a 045° bearing to a 076° bearing from the airport, within a 10-mile radius of the center of Stewart Airport, extending clockwise from a 076° bearing to a 130° bearing from the airport; within a 12.5-mile radius of the center of Stewart Airport, extending clockwise from a 130° bearing to a 159° bearing from the airport; within a 14.5-mile radius of the center of Stewart Airport, extending clockwise from a 159° bearing to a 191° bearing from the airport, within a 12.5-mile radius of the center of Stewart Airport, extending clockwise from a 191° bearing to a 222° bearing from the airport; within 3.5 miles each side of the Stewart VOR (41°30'28" N., 74°05'53" W.) 325° radial, extending from the Stewart VOR to 18.5 miles northwest of the Stewart VOR; within 5 miles each side of the Stewart VOR 085° radial, extending from the Stewart VOR to 13 miles east of the Stewart VOR; within 5 miles each side of the Huguenot VORTAC 074° radial extending from the Huguenot VORTAC to 20 miles east of the Huguenot VORTAC; within a 7-mile radius of the center 41°30'41" N., 74°15'51" W. of Orange County Airport, Montgomery, N.Y., extending clockwise from a 332° bearing to a 074° bearing from the airport; within a 7.5-mile radius of the center of Orange County Airport, extending clockwise from a 074° bearing to a 161° bearing from the airport; within an 8-mile radius of the center of Orange County Airport, extending clockwise from a 161° bearing to a 228° bearing from the airport within a 9-mile radius of the center of Orange County Airport, extending clockwise from a 228° bearing to a 332° bearing from the airport; within 3.5 miles each side of the Orange County Airport ILS localizer south course, extending from the OM to a point 14 miles south of the OM; within a 6-mile radius of the center, 41°25'54" N., 74°23'45" W. of Randall Airport, Middletown, N.Y., extending clockwise from a 015° bearing to a 128° bearing from the airport; within a 6.5-mile radius of the center of Randall Airport, extending clockwise from a 128° bearing to a 167° bearing from the airport; within a 6-mile radius of the center of Randall Airport, extending clockwise from a 167° bearing to a 227° bearing from the airport; within a 7-mile radius of the center of Randall Airport, extending clockwise from a 227° bearing to a 309° bearing from the airport; within a 6.5-mile radius of the center of Randall Airport, extending clockwise from a 309° bearing to a 015° bearing from the airport; and within 2 miles each side of the Huguenot VORTAC 082° radial, extending from the Huguenot VORTAC to 10 miles east of the Huguenot VORTAC.

3. Amend § 71.181 of the Federal Aviation Regulations so as to revoke the Middletown, N.Y., transition area.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on September 11, 1973.

## RESTRICTED AREAS AND CONTROLLED AIRSPACE

### Proposed Designation

On July 31, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 20348) stating that the Federal Aviation Administration was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would alter the description of Restricted Areas R-2401 and R-2402, Fort Chaffee, Ark., and include R-2401 in the description of the continental control area. The deadline for public comment on the proposal was August 30, 1973.

Subsequent to publication of the NPRM, problems in the distribution of the notice arose which required an extension of the comment period.

In consideration of the foregoing, the comment period for the proposal to alter the Fort Chaffee, Ark., Restricted Areas R-2401 and R-2402, as contained in Airspace Docket No. 73-SW-33, is extended to September 30, 1973.

This action is taken under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 10, 1973.

CHARLES H. NEWPOL,

## TRANSITION AREA

### Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of the Federal Aviation Regulations so as to alter the Hershey, Pa., Transition Area (38 FR 501).

A review of the terminal area airspace requirements for Hershey, Pa., indicates a need to alter the transition area to conform to the criteria of the Terminal Instrument Procedures (TERP's).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Hershey, Pennsylvania, proposes the airspace action hereinafter set forth:

1. Amend § 71.181, Federal Aviation Regulations so as to delete the description of the Hershey, Pa. 700-foot floor transition area and by substituting the following in lieu thereof:

HERSHEY, PA.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of the center, Lat. 40°17'35" N., Long. 76°39'40" W. of Hershey Airpark, Hershey, Pa.; within a 7-mile radius of the center of the airport extending clockwise from a 092° bearing to a 041° bearing from the airport excluding that portion that coincides with the Harrisburg, Pa., transition area. This transition area shall be effective from sunrise to sunset, daily.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on September 11, 1973.

ROBERT H. STANTON,
*Director, Eastern Region.*

[Airspace Docket No. 73-SW-62]

## TRANSITION AREA

### Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter the Lafayette, La., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received within 30 days after publication of this notice in the Federal Register will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (38 FR 435), the Lafayette, La., transition area is amended to read:

LAFAYETTE, LA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Lafayette Airport (latitude 30°12'00" N., longitude 91°59'40" W.); within 2 miles each side of the Lafayette ILS localized north course extending from the OM to the 5-mile radius area; within 2 miles each side of the Lafayette ILS localizer south course extending from the 5-mile-radius-area to the 5-mile-radius area of the Abbeville Municipal Airport (latitude 29°58'19" N., longitude 92°05'06" W.); within 2 miles each side of the Lafayette VORTAC 171° radial extending from the 5-mile-radius area of the Lafayette Airport to 8 miles south of the VORTAC; within 2 miles each side of the 276° bearing from the Lafayetto RBN (latitude 30°11'35" N., longitude 91°52'58" W.) extending from the RBN to the 5-mile-radius area; within 2 miles each side of the Lafayette VORTAC 206° radial extending from the VORTAC to the 5-mile-radius area of the Abbeville Airport; within a 5-mile-radius of Acadiana Regional Airport (latitude 30°-02'15" N., longitude 91°53'00" W.); within 2 miles each side of the Lafayette VORTAC 139° radial extending from the 5-mile-radius area of Lafayette Airport to the 5-mile-radius area of Acadiana Airport; within 3 miles each side of the Lafayette VORTAC 145° radial extending from the 5-mile-radius area of Acadiana to 17.5 miles from the Lafayette VORTAC.

The proposed amendment to the transition area will provide controlled airspace for aircraft executing the proposed VORTAC runway 34 standard instrument approach to Acadiana Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on September 10, 1973.

ALBERT H. THURBURN,
*Acting Director, Southeast Region.*

---

[ 14 CFR Part 71 ]

[Airspace Docket No. 73-WE-15]

## TRANSITION AREA

### Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of Blythe, California transition area.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Blvd., P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009. All communications received within 30 days after publication of this notice in the Federal Register will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Blvd., Lawndale, California. 90261.

The FAA has developed two new VOR instrument approach procedures and an Area Navigation Approach to Blythe Airport, California. The new VOR procedures (VOR-A and VOR RWY 26) procedures will utilize the Blythe VORTAC 250° M (264° T) and 052° M (066° T) radials respectively as final approach courses. The VOR 26 approach will also incorporate a 15 NM mile arc transition extending from the Blythe 080° M counterclockwise to the 052° M radial. In addition, holding will be approved east of the 080°/15 DME fix.

The procedure turn for the VOR RWY 26 approach is described on the 052°/8 DME fix (McGowan intersection). The McGowan intersection is also designated as the intersection of the 052° M radial of the Blythe VORTAC and the 004° M bearing from the Ripley radiobeacon.

V 38 185 SEP 25 73 XUM

Describing the intersection in this manner will require that Ripley be redesignated from a SABH to a HSAB radiobeacon.

The proposed alteration of the Blythe, California transition area is necessary to provide controlled airspace protection for aircraft executing the proposed instrument procedures.

If the proposals outlined above are adopted, the current VOR–2 instrument approach procedure to Blythe Airport will be cancelled.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (38 FR 435), the description of the Blythe, California transition area is amended to read as follows:

BLYTHE, CALIF.

That airspace extending upward from 700 feet above the face within 3 miles each side of the Blythe VORTAC 264° radial, extending from the VORTAC to 9 miles W. of the VORTAC; that airspace extending upward from 1,200 feet above the surface within 9.5 miles S. and 4.5 miles N. of the Blythe VORTAC 264° radial, extending from the VORTAC to 18.5 miles W. of the VORTAC; within 4.5 miles N.W. and 9.5 miles S.E. of the Blythe VORTAC 066° radial, extending from the VORTAC to 28 miles N.E. of the VORTAC; within 9 miles N. and 10 miles S. of the Blythe VORTAC 094° radial, extending from the VORTAC to 36 miles E. of the VORTAC, excluding the airspace within R–2306B, and that airspace within an arc of an 18-mile radius circle centered on the Blythe Airport (latitude 33°37'15" N., longitude 114°43'00" W.), extending clockwise from longitude 114°30'00" W. to the S. edge of V–16.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on September 7, 1973.

ROBERT O. BLANCHARD,
*Acting Director,*
*Western Region.*

## TRANSITION AREA

### Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of the Federal Aviation Regulations so as to alter the Andover, N.J., Transition Area (38 FR 440).

A review of the terminal airspace requirements for Andover, N.J. indicates a need to alter the transition area so as to conform to the criteria of the Terminal Instrument Procedures (TERP's).

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Andover, New Jersey, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations by deleting the description of the Andover, N.J., 700-foot floor transition area and by substituting the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 10.5-mile radius of the center 41°00'00"N., 74°44'00"W. of Aeroflex-Andover Airport, Andover, N.J., extending clockwise from a 103° bearing to a 103° bearing from the airport; within a 9.5-mile radius of the center of the airport, extending clockwise from a 103° bearing to a 174° bearing from the airport; within an 8.5-mile radius of the center of the airport extending clockwise from a 174° bearing to a 225° bearing from the airport; within a 7-mile radius of the center of the airport, extending clockwise from a 225° bearing to a 295° bearing from the airport; within a 6-mile radius of the center of the airport, extending clockwise from a 295° bearing to a 053° bearing from the airport; within 1.5 miles each side of the Stillwater, N.J. VORTAC 083° radial, extending from the 7-mile-radius area to the Stillwater, N.J., VORTAC.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 [72 Stat. 749; 49 U.S.C. 1348] and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on September 11, 1973.

ROBERT H. STANTON,
*Director, Eastern Region.*

## VOR FEDERAL AIRWAY

### Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate VOR Federal Airway No. 207 west alternate between Denver, Colo., and Gill, Colo.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 601 E. 12th Street, Kansas City, Mo. 64106. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would designate new VOR Federal Airway No. 207 west alternate from Denver, Colo., to Gill, Colo., via INT Denver 359°T(346° M) and Gill 224°T(211°M) radials. This amendment would provide for segregation of departing and arriving aircraft northeast of Denver.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 10, 1973.

## VOR FEDERAL AIRWAY

### Proposed Designation and Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would:

1. Designate a new VOR Federal Airway between Kansas City, Mo., and Ottumwa, Iowa.

2. Extend an airway from Kirksville, Mo., to Ottumwa.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 601 E. 12th Street, Kansas City, Mo. 64106. All communications received on or before October 25, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 10, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and*
*Air Traffic Rules Division.*

[ 14 CFR Part 75 ]

[Airspace Docket No. 73–SW–59]

## JET ROUTE

### Proposed Establishment

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would establish a new jet route from Humble, Tex., to Little Rock, Ark., via Daisetta, Tex.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before October 25, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would establish new Jet Route No. J–180 from Humble, Tex., to Little Rock, Ark., via Daisetta, Tex. This jet route would be used primarily for traffic from over Little Rock and Memphis, Tenn., en route to the Houston, Tex., Terminal Area, and would relieve traffic congestion in the Shreveport, La., area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 10, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and*
*Air Traffic Rules Division.*

## ATOMIC ENERGY COMMISSION

[ 10 CFR Part 70 ]

### SPECIAL NUCLEAR MATERIAL

### Fundamental Nuclear Material Controls

The Atomic Energy Commission has under consideration amendments to 10 CFR Part 70, "Special Nuclear Material" which would specify fundamental nuclear material controls required to be established, maintained, and followed by licensees authorized to possess at any one time and location more than one effective kilogram of special nuclear material in unsealed form.

Part 70 of the Commission's regulations now requires that each application for a license to possess at any one time more than 5,000 grams of contained uranium-235, uranium-233, or plutonium, or any combination thereof, except in reactors or as sealed sources, contain a description of the applicant's procedures for control of and accounting for special nuclear material. In addition, each applicant is required to identify those fundamental material controls in the described procedures which he considers essential for assuring that the special nuclear material in his possession under license will be protected adequately. Further, as a condition of each license, the licensee is required to maintain such fundamental material controls and such other material control procedures as the Commission determines to be essential for the safeguarding of special nuclear material.

During the six years in which these requirements have been in effect fundamental material controls have been incorporated into licenses by a series of license conditions based on each license application. These license conditions now have been developed to the point where they can be standardized and included as a part of AEC regulations. The proposed amendments would eliminate the need for each license applicant to identify and to state these fundamental controls and for the Commission to issue separate but essentially similar conditions for each licensee. Instead the amendments would require each major licensee to establish, maintain, and follow specified fundamental nuclear material controls and to describe to the Commission his program to comply with such requirements. Some changes from the wording of the license conditions have been made in the fundamental material control requirements and additional requirements for control of scrap and waste have been included.

When the Commission determines that requirements specific to a given licensee are needed in addition to those in the proposed amendments, specific license conditions would be issued on a case by case basis.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of Title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 70 is contemplated. All interested persons who desire to submit written comments or suggestions should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, by November 24, 1973. Copies of comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C.

1. Paragraph (b) of § 70.22 is amended to read as follows and footnote 1 thereto is deleted:

§ 70.22 Contents of applications.

* * * * * *

(b) Each application for a license to possess at any one time and location special nuclear material in a quantity exceeding one effective kilogram of special nuclear material and to use such special nuclear material for activities other than those involved in the operation of a nuclear reactor licensed pursuant to Part 50 of this chapter, or as sealed sources, shall contain a full description of the applicant's program for control of and accounting for special nuclear material which will be in his possession under license, to show how compliance with the requirements of § 70.58 will be accomplished.

* * * * * *

§ 70.32 [Amended]

2. Paragraph (c) of § 70.32 is deleted.

3. A new § 70.58 is added to read as follows:

§ 70.58 Fundamental nuclear material controls.

(a) Each licensee who is authorized to possess at any one time and location special nuclear material in a quantity exceeding one effective kilogram, and to use such special nuclear material for activities other than those involved in the operation of a nuclear reactor licensed pursuant to Part 50 of this chapter, or as sealed sources, shall establish, maintain, and follow written material control and accounting procedures in compliance with the fundamental nuclear material controls requirements specified in paragraphs (b) through (k) of this section and such other controls as the Commission determines to be

V 38 I 185 SEP 25 73 XUM

essential for the control of and accounting for special nuclear material.

(b)(1) The overall planning, coordination, and administration of the material control and accounting functions for special nuclear materials shall be vested in a single individual at an organizational level sufficient to assure independence of action and objectiveness of decisions. In manufacturing organizations, such individual shall be independent of individuals or units that are solely responsible for production functions.

(2) Material control and accounting functions shall be identified and assigned in the licensee organization to provide a separation of functions so that the activities of one individual or organizational unit serve as controls over and checks of the activities of other individuals or organizational units.

(3) Material control and accounting functional and organizational relationships shall be set forth in writing in job descriptions, organizational directives, instructions, procedure manuals, etc. Such documentation shall include position qualification requirements and definitions of authorities, responsibilities, and duties. Delegations of material control and accounting responsibilities and authority shall be in writing.

(c) A management system shall be established, maintained, and followed to provide for the development, revision, implementation, and enforcement of nuclear material control and accounting procedures. The system shall include:

(1) Provisions for written approval of such procedures and any revisions thereto by the individual with overall responsibility for the material control and accounting function and by licensee plant management.

(2) Provision for a review at least every 12 months of the nuclear material control system. Such a review shall include an audit of the nuclear material records by individuals in licensee management independent of both nuclear material control management personnel and personnel who have direct responsibility for the receipt, custody, utilization, measurement, measurement quality, and shipment of special nuclear material. The results of the review and audit along with recommendations for improvements shall be documented, reported to the licensee's corporate management and plant management, and kept available at the plant for inspection for a period of five years.

(d) Material Balance Areas (MBA) or Item Control Areas (ICA) shall be established for physical and administrative control of nuclear material.

(1) Each MBA shall be an identifiable physical area such that the quantity of nuclear material being moved into or out of the MBA can be measured.

(2) A sufficient number of MBAs shall be established so that nuclear material losses, thefts, or diversions can be localized and the mechanisms identified.

(3) The custody of all nuclear material within an MBA shall be the responsibility of a single individual.

(4) ICAs shall be established according to the same criteria as MBAs except that control into and out of such areas shall be by item identity and count for previously determined special nuclear material quantities.

(e) A system shall be established, maintained, and followed for the measurement of all special nuclear material received, produced, transferred between MBAs, on inventory, or shipped, discarded, or otherwise removed from inventory and for the determination of the limit of error associated with each such measured quantity. The system shall provide for sufficient measurements to substantiate the quantities of element and isotope measured and the associated limits of error.

(f) A program shall be established, maintained, and followed for the maintenance of acceptable measurement quality in terms of measurement bias and random and systematic errors and for the evaluation and control of the quality of the measurement system.

(g) Procedures shall be established, maintained, and followed to:

(1) Assure accurate identification and measurement of the quantities of special nuclear material received and shipped by a licensee;

(2) Review and evaluate shipper-receiver differences both individually and in series;

(3) Take appropriate investigative and corrective action to reconcile shipper-receiver differences that are statistically significant; and

(4) Maintain records of shipper-receiver difference evaluations, investigations and corrective actions on file at the facility for a period of five years.

(h) A system of storage and internal handling controls shall be established, maintained, and followed to provide continuous knowledge of the identity, quantity, and location of all special nuclear material contained within a facility in discrete items and containers. Such a system shall include procedures as specified in § 70.51(e)(1).[1]

(i) Procedures for special nuclear material scrap and waste control shall be established, maintained, and followed to limit the accumulation and the uncertainty of measurement of these materials on inventory. Such procedures shall include:

(1) Identification and classification of scrap; [2]

(2) Regular processing and recovery of scrap materials so that no item of scrap remains on inventory longer than three months;

(3) Minimization of the quantities of waste held on inventory so that no disposable waste is kept on inventory longer than three months, except as specifically authorized by the Commission; and

(4) Limitation of the uncertainty in measurement of scrap and waste materials so that the total measurement uncertainty attributable to these materials during a material balance period does not exceed thirty (30) percent of the limit of error of the plant material unaccounted for for that period.

(j) Physical inventory procedures shall be established, maintained, and followed so that special nuclear material balances and their measurement uncertainties can be determined on the basis of measurements in compliance with the material balance and inventory requirements and criteria specified in § 70.51.[1]

(k) A system of records and reports shall be established, maintained, and followed which will provide information sufficient to locate special nuclear material and to close a measured material balance around each material balance area and the total plant, as specified in § 70.51.[1] Such a system shall include:

(1) A centralized accounting system employing double entry bookkeeping;

(2) Subsidiary accounts for each material balance area and item control area;

(3) Records pertinent to the requirements of § 70.51 (e)(1).[1]

(4) Procedures for the reconciliation of subsidiary accounts to control accounts at the end of each accounting period; and

(5) Procedures for reconciliation of control and subsidiary accounts to the results of physical inventories.

(l) Each licensee subject to the requirements of this section who has not submitted a description of his fundamental material controls pursuant to this part by September 25, 1973, shall submit by December 24, 1973, a full description of his program for control of and accounting for special nuclear material in his possession under license to show how compliance with the requirements of this section will be accomplished.

(Secs. 53, 161, 68 Stat. 930, 148 (42 U.S.C. 2073, 2201).)

Dated at Washington, D.C., this 19th day of September 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,
*Secretary of the Commission.*

## FEDERAL HOME LOAN BANK BOARD

[No. 73-1339]

### [ 12 CFR Part 526 ]

### FEDERAL HOME LOAN BANK SYSTEM

### NOW Accounts

SEPTEMBER 14, 1973.

Section 2(a) of Public Law No. 93-100 of August 16, 1973, provides that "No depository institution (as defined in section 2(b)) shall allow the owner of a deposit or account on which interest or dividends are paid to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties, except that such withdrawals may be made in the States of Massachusetts and New Hampshire." By section 8 thereof, section 2 takes effect on the thirtieth day after the day of its enactment.

The Federal Home Loan Bank Board considers that deposits or accounts on which Federal Home Loan Bank member institutions may pay interest on dividends and may allow the owner to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third persons (NOW accounts) are "regular accounts" as that term is defined in § 526.1(d) (12 CFR 526.1(d)). Such accounts of member institutions are subject to the Board's authority under section 5B of the Federal Home Loan Bank Act (12 U.S.C. 1425b) to prescribe regulations governing the payment and advertisement of interest or dividends thereon.

The Board, in conjunction with the Board of Governors of the Federal Reserve Board and the Board of Directors of the Federal Deposit Insurance Corporation, proposes to amend Part 526 of the Regulations for the Federal Home Loan Bank System (12 CFR Part 526) to prescribe the maximum rate of return which may be paid on NOW accounts and the conditions under which a return may be paid. The Board expects that final regulations for NOW accounts and those of the Federal Reserve Board and the Federal Deposit Insurance Corporation will be similar in substance. Therefore the Board urges interested persons to comment to the Board on the proposed NOW account regulations of those agencies as well as the Board's. Member institutions should keep these proposed amendments (and those of the Federal Reserve Board and the Federal Deposit Insurance Corporation) in mind if they decide to make these accounts available to their customers before the Board has had the opportunity to adopt final regulations in this area.

The Board proposes to add two definitions to § 526.1. The term "instrument" would be defined to include any paper writing, whether or not negotiable, by which payment or credit is effected. The term "transaction account" would be the term used to describe a NOW account and would mean a "regular account" (as defined in § 526.1(d)) of a member institution upon which the owner is allowed to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties.

New § 526.8 would set forth the rules under which a member institution having its home office in New Hampshire or Massachusetts may pay a return on transaction accounts. If the member institution did not comply with those rules, it could not pay a return on its transaction accounts.

The Board proposes to set the maximum rate of return on transaction accounts at 4.50 percent on the lowest monthly balance for each month of the distribution period. A service charge would be required for the handling of each transaction-account-related instrument in excess of 10 per month.

The Board proposes to limit the payment of interest or dividends to transaction accounts of owners having addresses in New Hampshire or Massachusetts (except that a member institution could pay a return on transaction accounts of out-of-state customers who create transaction accounts by transfers of funds from savings accounts in existence on September 14, 1973). In order to provide competitive equality with commercial banks and mutual savings banks, interest or dividends could be paid only on transaction accounts owned by individuals and certain non-profit organizations. Advertising for interest or dividend-paying transaction accounts would be limited primarily to the States of New Hampshire and Massachusetts and would be subject to the existing advertising restrictions of § 526.6.

Accordingly, the Federal Home Loan Bank Board hereby proposes to amend said Part 526 by adding new paragraphs (k) and (l) to § 526.1 thereof and by adding new § 526.8 thereto to read as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue, NW., Washington, D.C. 20552, by November 9, 1973, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

**§ 526.1 Definitions.**

As used in this Part 526—

* * * * *

(k) *Instrument.* The term "instrument" includes any paper writing, whether or not negotiable, by which payment or credit is effected.

(l) *Transaction account.* The term "transaction account" means a "regular account", as that term is defined in paragraph (d) of this section, of a member institution upon which the owner is allowed to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties.

**§ 526.8 Transaction accounts.**

(a) *General.* Subject to the provisions of this section, each member institution having its home office in New Hampshire or Massachusetts may pay a return on transaction accounts.

(b) *Maximum rate of return.* Such member institution may pay a return on a transaction account at a rate not in excess of 4.50 percent per annum on the lowest monthly balance for each month of the distribution period.

(c) *Service charge.* Such member institution shall impose a service charge for the handling of each instrument in excess of 10 per month in connection with any transaction account.

(d) *Limitations on owners.* (1) Transaction accounts, or the entire beneficial interest therein, issued by such member institution may be owned only by (i) one or more individuals or (ii) a corporation, business trust, association or other organization which is not operated for profit; and

(2) Interests in transaction accounts issued by such member institution may be owned only by (i) owners having addresses in New Hampshire or Massachusetts, or (ii) owners whose transaction accounts are created by transfers of funds from such owners' savings accounts which were in such member institution on September 14, 1973.

(e) *Advertising.* Each newspaper, magazine, radio, television or similar advertisement, announcement or solicitation by such member institution relating to transaction accounts shall be limited to media primarily serving residents of New Hampshire and Massachusetts. All other advertisements, announcements and solicitations including direct mailing, circulars, and notices, to the extent practicable, shall be directed only to residents of New Hampshire and Massachusetts. The provisions of § 526.6 shall also apply to all advertisements, announcements and solicitations related to transaction accounts.

(Sec. 5B, 47 Stat. 727, as added by sec. 4, 80 Stat. 824, as amended by Public Law 91-151, sec. 2(b), 83 Stat. 371; sec. 17, 47 Stat. 736, as amended (12 U.S.C. 1425b, 1437). Sec. 2, Public Law 93-100. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
*Assistant Secretary.*

## DEPARTMENT OF STATE

[Public Notice CM-67]

### SECRETARY OF STATE'S ADVISORY COMMITTEE ON PRIVATE INTERNATIONAL LAW

#### Notice of Meeting

A meeting of the Secretary of State's Advisory Committee on Private International Law will be held at 10 a.m. on Friday, October 5, 1973, in room 5519 of the Department of State. The Committee meeting will be open to the public.

The principal topics of the meeting will be consideration of positions to be taken by the United States at the Diplomatic Conference on Wills to be held in Washington from October 16–26, 1973, and in bilateral negotiations on the recognition and enforcement of foreign judgments.

Members of the general public who desire to attend the meeting will be admitted up to the limits of the capacity of the meeting room. Entrance to the Department of State building is controlled and entry will be facilitated if arrangements are made in advance of the meeting. It is requested that prior to October 5, 1973, members of the general public who plan to attend the meeting inform their name and affiliation and address to Mr. Robert E. Dalton, Office of the Legal Adviser, Department of State; the telephone number is area code 202–632–2107. All non-government attendees at the meeting should use the C Street entrance to the building.

Dated September 13, 1973.

ROBERT E. DALTON,
*Executive Director.*

## DEPARTMENT OF THE TREASURY

### Office of the Secretary

### NON-POWERED HAND TOOLS FROM JAPAN

#### Antidumping Proceeding Notice

SEPTEMBER 21, 1973.

On August 20, 1973, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that certain non-powered hand tools from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.). For the purpose of this notice, the term "non-powered hand tools" means wrenches, pliers, chisels, punches, screwdrivers, hammers, metal-cutting snips and shears, wheel and gear pullers, valve tools, and body and fender tools.

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the United States Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold for exportation to the United Staes are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

[SEAL] EDWARD L. MORGAN,
*Assistant Secretary of the Treasury.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

### CHIEF, DIVISION OF MANAGEMENT SERVICES, STATE OFFICE ET AL.

#### Delegation of Authority Regarding Contracts and Leases

A. Pursuant to delegation of authority contained in Bureau Manual 1510–03B2, and 38 FR No. 154, dated August 10, 1973, the Chief, Division of Management Services, State Office, Chief, Branch of Administrative Management, State Office, and Chief, Procurement and Property Section, State Office, are authorized:

1. To enter into contracts with established sources for supplies, equipment and services, regardless of amount, and

2. To enter into contracts on the open market for supplies, equipment and services, not to exceed $2,500 per transaction ($2,000 for construction), provided that the requirement is not available from established sources. (sec. 302(c)(3) of the FPAS Act).

3. To enter into contracts in an unlimited amount for necessary procurements in the case of emergency fire suppression work for the rental of equipment and aircraft and for the purchase of supplies, equipment and services required in such operations. (sec. 302(c)(2) of the FPAS Act).

If purchases for capitalized property are to be charged to fire suppression funds, or if the item is not included in an approved equipment budget, prior approval of purchase by the Assistant Director Administration is required. This authority may be exercised only in a true emergency situation such as immediate use in suppression of active fires; and delivery for use on that fire is attainable.

B. The (1) District Managers and (2) District Chiefs, Division of Administration, are authorized to enter into contracts under the authority of A 1, 2, and 3 above, *excluding capitalized property*, as appropriate.

C. The Chief, Division of Management Services, and Chief, Branch of Administrative Management are delegated authority to negotiate contracts in excess of $2,500 under sec. 302(c)(10) of the FPAS Act of 1949, for air transportation services not related to emergency fire presuppression or suppression, in accordance with the following:

1. *Limitations.* This authority may be used only:

a. To hire aircraft with crew for transportation of persons or cargo, not for project work.

b. To hire such aircraft for unforeseeable short term needs, where lead time is not available to permit the Service Center to handle the contract.

c. After it has been determined that Bureau-owned aircraft, or aircraft available under existing contracts or offers (when appropriate) cannot satisfy the need.

D. District Managers may redelegate the authority granted in "B" above.

E. All previous delegations of procurement authority are hereby canceled.

CURTIS V. MCVEE,
*State Director.*

### PRINEVILLE DISTRICT ADVISORY BOARD

#### Bureau of Land Management

#### Notice of Meeting

Notice is hereby given that the Prineville District Advisory Board will meet on October 25, 1973, commencing at 10 a.m. in the Prineville District Office, Bureau of Land Management, 185 E. Belknap Street, Prineville, Oregon. The agenda for the meeting includes review of Step 1 of the Management Framework Plans for the Glass Butte-Hampton-Brothers Planning Units and the Lower John Day-Fossil Planning Units.

The meeting will be open to the public. It will be held in the conference room which accommodates about 30 people. In addition to District presentation and discussion of topics by board members, there will be time allowed for brief questions and statements by non-members. Written statements will also be accepted for consideration. Send them to the chairman in care of the co-chairman, Prineville District Manager, P.O. Box 550 Prineville, Oregon 97754.

PAUL W. ARRASMITH,
*District Manager.*

SEPTEMBER 14, 1973.

[FR Doc.73-20392 Filed 9-24-73;8:45 am]

### National Park Service

### SECRETARY'S ADVISORY BOARD ON NATIONAL PARKS, HISTORIC SITES, BUILDINGS AND MONUMENTS

#### Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that meetings of the Advisory Board on National Parks, Historic Sites, Buildings and Monuments will be held on October 1, 2, and 3, at the Department of the Interior, 18th and C Streets NW., Washington, D.C.

The purpose of the Advisory Board is to advise the Secretary of the Interior on matters relating to the National Park System, and the administration of the Historic Sites Act of 1935.

The members of the Advisory Board are as follows:

Dr. Melvin M. Payne (Chairman), Washington, D.C.
Mrs. Lyndon B. Johnson (Vice Chairman), Stonewall, Texas.
Mr. Peter C. Murphy, Jr. (Secretary), Springfield, Oregon.
Hon. E. Y. Berry, Rapid City, South Dakota.
Laurence W. Lane, Jr., Menlo Park, California.
Dr. A. Starker Leopold, Berkeley, California.
Mr. Linden C. Pettys, Ludington, Michigan.
Mr. Steven Rose, Arcadia, California.
Capt. Walter M. Schirra, Jr., Englewood, Colorado.
Dr. Douglas W. Schwartz, Santa Fe, New Mexico.
Dr. William G. Shade, Bethlehem, Pennsylvania.

Meetings will be conducted in different locations as follows:

*October 1.* 9 a.m., Room 5160. The Advisory Board will meet on October 1 in regard to administrative matters pertaining to the Board and to hear reports on several topics, including Bicentennial activities, Regional Advisory Committees, archeological salvage, backcountry management, and the campground reservation system. This session is open to the public.

*October 2.* The Board will meet in committee sessions for the entire day. At 9 a.m., North Penthouse, Room 8068, the Natural Areas Committee and the Recreation Areas Committee will meet in joint session. From 9 a.m. to 9:45 a.m., the committees will hear legislative reports on proposed additions to the National Park System. This portion of the meeting shall be closed to the public. Commencing at 9:45 a.m. the committees shall consider 73 natural areas as potential additions to the National Registry of Natural Landmarks. This portion of the meeting shall be open to the public.

At 9 a.m., Room 5160, the Historical Areas Committee will meet. From 9 a.m. to 9:30 a.m., the committee will consider reports on two pending legislative proposals. This portion of the meeting shall be closed to the public. At 9:30 a.m., the committee will hear reports on various studies, including a part of the Theme, "Architecture in the South," and the study to revise the boundaries of Cape Krusenstern, Alaska. This portion of the meeting shall be open to the public.

*October 3.* Room 5160, commencing at 9 a.m. the Advisory Board shall be reconvened to receive reports from the committee meetings and from ad hoc committees. The meeting will be an executive session in order for the Advisory Board to formulate its comments and recommendations. This meeting will be closed to the public.

The meeting will be open to the public only as indicated above. The Secretary of the Interior has made a determination in accordance with section 10(d) of the Federal Advisory Committee Act that the portions of the meeting to be closed will involve matters exempt from public disclosure under the provisions of 5 U.S.C. 552(b).

Any member of the public may file with the Advisory Board a statement in writing concerning any of the matters to be discussed. In regard to the meeting on October 1, facilities and space to accommodate members of the public are limited and it is expected that not more than 35 people will be able to attend. Persons desiring further information concerning this meeting or who wish to file written statements, may contact Miss Shirley Luikens, National Park Service, Washington, D.C., at 202–343–2012.

Minutes of the meeting will be available for public inspection 8 to 10 weeks after the meeting in Room 3123, Interior Building, Washington, D.C.

Dated September 18, 1973.

STANLEY W. HULETT,
*Associate Director,*
*National Park Service.*

### Office of the Secretary

[INT DES 73-55]

### PROPOSED DEVELOPMENT OF HORICON NATIONAL WILDLIFE REFUGE, WISCONSIN

#### Availability of Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, Public Law 91–190, the Department of the Interior has prepared a draft environmental statement for development of the Horicon National Wildlife Refuge, Wisconsin, and invites written comments within 45 days of this notice.

The proposal recommends the purchase of 42.86 acres of land as an addition to the Horicon National Wildlife Refuge, Dodge County, Wisconsin. Planned development will include a visitor information center, wildlife walking trail, hiking trail, approximately 1½ miles of new road, parking areas, and rehabilitation of existing roadway.

Copies of the draft statement are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife
Federal Building, Fort Snelling
Twin Cities, Minnesota 55111

Headquarters
Horicon National Wildlife Refuge
Route 2
Mayville, Wisconsin 53050

Bureau of Sport Fisheries and Wildlife
Office of Environmental Quality
Department of the Interior
Room 2246
18th and C Streets NW.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Quality, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240. Comments concerning the proposed action should also be addressed to the Chief, Office of Environmental Quality. Please refer to the statement number above.

Dated September 17, 1973.

LAURENCE E. LYNN, Jr.,
*Assistant Secretary,*
*Program Development and Budget.*

[PPQ 639, Amdt.]

### SOIL SAMPLES

#### List of Approved Laboratories Authorized To Receive Interstate and Foreign Shipments of Soil Samples for Processing, Testing, or Analysis

This document amends the regulation listing laboratories authorized to receive interstate and foreign shipments of soil samples for processing, testing, or analysis by deleting reference to 11 laboratories which no longer receive interstate shipments of soil samples for analysis, and by deleting reference to 22 laboratories whose permits to receive foreign

V 381185 SEP 25 73 XUM

soil samples have expired. It also lists 15 laboratories whose permits to receive foreign soil samples were extended. It further amends the regulation by adding 65 laboratories approved since the last amendment of the list to receive soil samples shipped interstate and shipped from foreign sources. Various other changes were also made.

Under the Japanese Beetle, Whitefringed Beetle, Witchweed, Imported Fire Ant, and Golden Nematode Quarantines (Notices of Quarantine Nos. 48, 72, 80, 81, and 85; 7 CFR 301.48, 301.72, 301.80, 301.81, and 301.85), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), the list of laboratories (37 FR 7813) operating under a compliance agreement and approved under said Quarantines to receive interstate and foreign shipments of soil samples for processing, testing, or analysis is hereby amended by deleting therefrom, adding thereto, and correcting certain listings as set forth below:

NOTE.—A date after a name indicates when the import permit expires.

(Secs. 8 and 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 FR 16210, as amended, 37 FR 28464, 28477, 38 FR 19140; 7 CFR 301.48, 301.72, 301.80, 301.81, and 301.85.)

*Effective date.*—This amendment to the list of approved laboratories, PPQ 639, shall become effective September 25, 1973.

Under the provisions of the regulations supplemental to the notices of quarantine cited herein, soil samples for processing, testing, or analysis may be moved interstate from any regulated area specified in the regulations to laboratories approved by the Deputy Administrator and so listed by him. A laboratory may be approved if a compliance agreement is signed; samples are packaged to prevent spillage of soil; and soil residues, hazardous water residues, and shipping containers are treated in accordance with specified procedures.

The Deputy Administrator of Plant Protection and Quarantine Programs has approved the above-listed additions to the list of laboratories as establishments which meet the qualifications required under the regulations. These laboratories listed as additions are, therefore, authorized to receive soil samples from the regulated areas specified in the regulations without certificates or permits attached.

With respect to the establishments added to the list of approved laboratories, this amendment relieves certain restrictions presently imposed and should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions that are being relieved. The deletion of laboratories from such list imposes certain restrictions that are necessary to prevent the spread of the above-named pests and should be made effective promptly to prevent the interstate spread of such dangerous pests. The corrections of previously listed establishments are nonsubstantive in nature and notice and other public procedure with respect thereto would serve no useful purpose. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure

[1] National Compliance Agreement—applies to all branch laboratories in conterminous United States.
[2] Authorized to receive unsterilized foreign samples only.
[3] Authorized to receive unsterilized foreign samples also.

V 38 I 185 SEP 25 73 XUM

with respect to this amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 19th day of September 1973.

T. G. DARLING,
*Acting Deputy Administrator, Plant Protection and Quarantine Programs.*

### FOREST RESEARCH ADVISORY COMMITTEE, ORONO, MAINE

#### Notice of Meeting

The Forest Research Advisory Committee, Orono, Maine will meet at 10 a.m.–12 noon, October 15, 1973, at 205 Main Street, Woodland, Maine.

The purpose of this meeting is to describe and discuss the current research program of the NEFES Orono Work Unit.

The meeting will be open to the public. Persons who wish to attend should notify Barton M. Blum, U.S. Forest Service, Northeastern Forest Experiment Station, USDA Building, University of Maine, Orono, Maine 04473, Telephone 866–4140.

B. F. DUFFY,
*Acting Director.*

SEPTEMBER 18, 1973.

### MULTIPLE USE ADVISORY COMMITTEE

#### Notice of Meeting

The Ottawa National Forest Multiple Use Advisory Committee will meet at 1 p.m. thru 5 p.m., c.d.t., October 18, 1973, and at 8:30 a.m. thru 12 noon, c.d.t., October 19, 1973, in the conference room of the Ontonagon Village Senior Housing Project, 100 Cane Court, Ontonagon, Michigan.

The purpose of the meeting is to discuss forest management.

The meeting will be open to the public. Persons who wish to attend should notify the Forest Supervisor, Ottawa National Forest, Ironwood, Michigan 49938, phone number: 906–932–1330. Written statements may be filed with the committee before or after the meeting.

The committee has established the following rules for public participation: Public participation will be limited to a period designated for open discussion. To the extent time permits, interested persons may be permitted by the committee chairman to present oral statements at the meeting.

JOSEPH H. HARN,
*Forest Supervisor.*

SEPTEMBER 17, 1973.

## Office of Plant and Operations

### FEE SCHEDULE

On June 21, 1973 (38 FR 16253), the Department of Agriculture published a revision to its Fee Schedule which was subsequently rescinded on July 6, 1973 (38 FR 18051), to comply with Phase III of the Cost of Living Council Economic Stabilization Regulations. As Phase III has expired and as Phase IV permits units of government to make certain price adjustments (38 FR 21601) and as it is necessary to raise certain prices to recover the cost of making reproductions, therefore, pursuant to the authority delegated to the Director, Office of Plant and Operations, in Title 7, Code of Federal Regulations, § 1.2(b), there is published the following:

SECTION 1. *General.* This notice sets forth the policy on providing copies of records, including photographic reproductions, microfilm, maps and mosaics, related services, and the fees therefor. The agencies of the Department will be guided by these procedures in making copies available to the public, and in the collection of appropriate fees.

SEC. 2. *Facilities.* Records and related services are available at the locations specified by the agencies in their statements or organization and services. Each agency establishes procedures to facilitate public inspection and copying of records. Any materials offered for sale by the Government Printing Office should be purchased from that source. Departmental agencies will not stock such materials for public sale.

Agencies do not stock copies of forms and publications or maintain records at any facility which does not of itself require these materials in its operations.

SEC. 3. *Fees for materials and services.* All agencies of the Department shall be guided by the fees set forth herein. Any changes or additions to this fee schedule shall be made by amendment to or revision of this schedule. Agencies may set their own fees on specialized materials, such as printouts, magnetic tapes, directives, handbooks, building plans, and other material unique to any one agency. Where a fee has not been established in this schedule, an appropriate fee will be set by the individual agency.

SEC. 4. *Circumstances Governing Exceptions to the Charging of Fees for Records and Related Services.* (For photographic reproductions, see Sec. 12.)

A. *Waiver of fees for records and related services.* Fees may be waived under the following conditions:

1. Where individual collections are $1.00 or less.

2. Where individual collections are more than $1.00 and the total cost of collecting the fees would be an unduly large part of the receipts.

3. Where the furnishing of the service without charge is an appropriate courtesy to a foreign country or international organization; or comparable fees are set on a reciprocal basis with a foreign country.

4. Where the recipient is engaged in a nonprofit activity designed for the public safety, health, or welfare.

5. Where payment of the full fee by a State, local government, or nonprofit group would not be in the interest of the program involved, all or part of the fee may be waived.

B. *Fees not to be charged for records and related services.* Fees shall not be charged under the following conditions:

1. When the furnishing of records and related service benefits the public.

2. When filling requests from other Departments or Government agencies for official use, provided quantities requested are reasonable in number.

3. When members of the public provide their own copying equipment, in which case no copying fee will be charged.

4. When any notices, decisions, orders or other material are required by law to be served on a party in any proceedings or matter before any Department agency.

SEC. 5. *Limitations of copies.* Agencies may restrict numbers of photocopies and directives furnished the public to one copy of each page. Copies of forms provided the public shall also be held to the minimum practical. Persons requiring any large quantities should be encouraged to take single copies to commercial sources for further appropriate reproduction.

When transcripts are requested which have been provided the Department under a reporting service contract which requires that copies of transcripts be sold only by the contractor, the public may be shown a copy of the transcript. However, the agency shall refer the public to the contractor for purchase of copies.

SEC. 6. *Searches and deletions.* Because of the nature of the Department's business and records, the normal location of a document in a file or other facility will not be considered a search. This would be the same as quickly locating a piece of material for purposes of answering a letter or telephone inquiry, and is based on the Department's obligation to respond to requests furnishing reasonably specific description of the record.

Where a requested record is not discovered by normal location efforts, or where deletion of part of a record is necessary, the office will notify the requestor of that fact and require payment of the estimated search or deletion charge as prescribed in the fee schedule in advance before further efforts are undertaken to locate the requested record. Such searches shall be limited by availability of time and staff to perform them and to locations where the record would reasonably be expected to be found.

SEC. 7. *Payments of fees and charges.* Payments will be made to the fullest extent possible in advance or at the time of the transaction. Except as otherwise stipulated by agency procedures, payment shall be made by check, draft or money order made payable to Treasurer of the United States, but small amounts may be paid in cash, particularly where services are performed in response to a visit to a Department office.

SEC. 8. *Fees for records and related services.*

| Class of service | Unit | Price | Minimum |
|---|---|---|---|
| Photocopies 8½ × 14" or smaller. | Each | $0.10, first copy | No minimum. |
| | Each | .05 additional copies. | |
| Certifications | Each | 1.00 additional to any other charge. | $1.00. |
| Authentications under Department Seal (excluding aerial photographs). | Each | 2.00, additional to any other charge. | $2.00. |
| Searches and deletions. | Each | 1.00 each 15 minutes or fraction thereof. | $4.00. |

An additional handling charge of $.50 for each order may be imposed when a request must be sent to another office for filling, or request is handled by mail.

SEC. 9. *Photographic reproduction, microfilm, mosaic and maps.* Reproduction of such aerial or other photographic microfilm, mosaic and maps as have been obtained in connection with the authorized work of the Department may be sold at the estimated cost of furnishing such reproductions as prescribed in this schedule.

SEC. 10. *Agencies which furnish photographic reproductions.*—a. *Aerial photographic reproductions.* The following agencies of the Department furnish aerial photographic reproductions:

Agricultural Stabilization and Conservation Service (ASCS).
Forest Service (FS).
Soil Consevation Service (SCS).

b. *Other photographic reproductions.* Other types of photographic reproductions may be obtained from the following agencies of the Department:

Agricultural Stabilization and Conservation Service.
Forest Service.
Office of Communication.
Soil Conservation Service.
National Agricultural Library.

SEC. 11. *Photographic Sales Committee.* The Photographic Sales Committee consists of representatives designated by Department agencies principally concerned with the sale of photographic reproductions. The Committee recommends prices at which photographic and mosaic reproductions, except library material, shall be sold, and other matters related to photographic reproductions.

SEC. 12. *Circumstances under which photographic reproductions may be provided free.* Reproductions may be furnished free at the discretion of the agencies of the Department to:

a. Press, radio, television, and newsreel representatives for dissemination to the general public.

b. Agencies of State and local governments which are carrying on a function related to that of the Department when furnishing the service will help to accomplish an objective of the Department.

c. Cooperators and others in furthering agricultural programs. As a general rule, only one print of each photograph should be provided free. Care should be exercised in approving requests for free prints to determine that such action is in the public interest.

SEC. 13. *Loans.* Aerial photographic film negatives or reproductions may not be loaned to the general public.

SEC. 14. *Sales of positive prints under Government contracts.* The annual contract for furnishing single and double frame slide film negatives and positive prints to agencies of the Department, County Extension Agents, and other agencies cooperating with the Department carries a stipulation that the successful bidder must agree to furnish slide film positive prints to such persons, organizations, and associations as may be authorized by the Department to purchase them.

SEC. 15. *Procedure for handling orders.* In order to expedite handling, all orders shall contain adequate identifying information. Agencies furnishing aerial photographic reproductions require that all such orders identify the photographs. Each agency has its own procedure and order forms.

SEC. 16. *Photographic reproduction prices.* The prices for photographic reproduction listed here are for the most generally requested items.

a. *National Agricultural Library.* The following prices are applicable to National Agricultural Library items only:

Microfilm—$1.00 for each 30 pages or fraction thereof.
Photoreproduction—$1.00 for each 10 pages or fraction thereof.

b. *General photographic reproductions.* Minimum charge $1.00 per order. All sizes are approximate. An extra charge may be necessary for excessive laboratory time caused by any special instructions from the purchaser.

| Class of work | Unit | Price |
|---|---|---|
| 1. Black and white copy negatives and film positives: | | |
| 4 x 5 | Each | $3.30 |
| 5 x 7 | Each | 3.55 |
| 8 x 10 | Each | 4.20 |
| 11 x 14 | Each | 6.80 |
| 2. Black and white enlargements: | | |
| Up to 8 x 10 | Each | 2.40 |
| 11 x 14 | Each | 4.20 |
| Over 11 x 14 | Per square foot. | 3.30 |
| 3. Reductions (from any size negative). | | 3.00 |
| 4. Mounting | Per square foot. | 2.10 |
| 5. Slides: Black and white (from copy negative): | | |
| 2 x 2 cardboard mounted | Each | 2.40 |
| 3¼ x 3¼ | Each | 3.60 |
| Original Color (from flat copy). | Each | 1.80 |
| Duplicate Color (2 x2 cardboard mounted). (Duplicate color slides are slides copied from 35 MM color slides only). | Each | .30 |
| Slide made from black and white material, or from transparencies larger or smaller than 35 MM, will be charged at the same rates shown for black and white and original color slides. | | |
| 6. Color transparencies (4 x 5) | Each | 8.00 |
| 7. Color prints | | By quotation |
| 8. Current USDA slide sets in stock: | | |
| 1–50 frames | | 13.00 |
| 51–60 frames | | 14.00 |
| 61–75 frames | | 15.50 |
| 76–95 frames | | 17.50 |
| 96–105 frames | | 18.50 |
| 106–130 frames | | 21.00 |
| (Prices include printed narrative guide.) | | |
| The following can be purchased for the corresponding slide sets above: | | |
| Cassettes | | 3.00 |
| Records | | 3.00 |
| Audio-tape | | 1.50 |
| 9. Milk Sedimentation Standards (5 x 7 Black and White photograph). | Each | 1.25 |
| 10. Seeds and Seedlings (any size). | Each | 2.10 |

c. *Aerial photographic reproductions.* No minimum charge on aerial photographic reproductions.

Single or double weight paper not ferrotyped (double weight, semimatte furnished, unless otherwise specified). All contact prints and enlargements unmounted and untrimmed.

1. *Contact prints.* The prices for contact prints are set forth below. The size refers to the approximate size of the contact print.

*Size 9" x 9" on commercial grade paper*

| Quantity | Price each |
|---|---|
| 1–25 | $1.75 |
| Excess over 25 | 1.25 |

For polyester base paper, add $.75 for contact print (Available from ASCS only).

*Size 70mm contact prints*

| | |
|---|---|
| 1–25 | 1.25 |
| Excess over 25 | 1.00 |

2. Enlargements (projection prints).

The prices for enlargements of various sizes are set forth below. The size in each case refers to the approximate size of paper required to produce the enlargement ordered. For "scale accuracy" add $.50 per print.

*Size 9 x 9 inches (from 70mm)*

| Quantity | Price each |
|---|---|
| 1–25 | $1.75 |
| Excess over 25 | 1.25 |

*Size 17 x 17 inches*

| | |
|---|---|
| 1–25 | 3.00 |
| Excess over 25 | 2.50 |

*Size 17 x 17 inches*

| | |
|---|---|
| 1–25 | 3.50 |
| Excess over 25 | 3.00 |

V 38 185 SEP 25 73 XUM

*Size 24 x 24 inches*

| | |
|---|---|
| 1-25 | 4.50 |
| Excess over 25 | 3.50 |

*Size 38 x 38 inches*

| | |
|---|---|
| 1-25 | 9.00 |
| Excess over 25 | 8.00 |

For larger size reproductions, add $2.00 for each additional 12" or fraction thereof, linear measurement.

3. *Aerial photo-index sheets.*

*Size 20 x 24 inches*

| Quantity | Price each |
|---|---|
| Any quantity | $3.00 |

4. *Film positives*—Contact printed from aerial negatives, size 9 x 9 inches.

| Quantity | Price each |
|---|---|
| Any quantity | $3.00 |

5. *Copy negatives*—On film, aerial exposures, size 9 x 9 inches.

*One-step method (direct duplicating film)*

| Quantity | Price each |
|---|---|
| 1-25 | $3.25 |
| Excess over 25 | 2.75 |

*Two-step method*

| Quantity | Price each |
|---|---|
| Any quantity | $6.00 |

6. *Diapositives.*

Prints on glass, size 9 x 9 inches, thickness .06 inch.

| | |
|---|---|
| 1-25 | $6.50 |
| Excess over 25 | $6.00 |

7. *Aperture Cards and Printouts*

| | 1st unit | Each additional unit |
|---|---|---|
| Duplicate of an aperture card | $1.00 | $0.10 |
| Aperture card from photo-index sheet | 1.00 | .25 |
| Printout from aperture card | 1.00 | .50 |

8. *Color Photography.* Furnished only by the Regional Forest Service Aerial Photography Laboratories at Ogden, Utah and San Francisco, California and the Agricultural Stabilization and Conservation Service Aerial Photography Laboratory in Salt Lake City, Utah.

*Positive contact print made from negative*

| Quantity | Price each |
|---|---|
| First print | $7.00 |
| Each additional print | 3.00 |

*Enlargements 9 x 9 inches (from 70mm)*

| | |
|---|---|
| First print | 7.00 |
| Each additional print | 3.00 |

*Enlargements 17 x 17 inches*

| | |
|---|---|
| First print | 15.00 |
| Each additional print | 9.00 |

*Enlargements 24 x 24 inches*

| | |
|---|---|
| First print | 20.00 |
| Each additional print | 14.00 |

*Enlargements 38 x 38 inches*

| | |
|---|---|
| First print | 25.00 |
| Each additional print | 20.00 |

*Color film transparencies* (Positives or Negatives)

*Contacts 70mm*

| | |
|---|---|
| First print | 4.00 |
| Each additional print | 2.50 |

*Contacts 9 x 9 inches*

| | |
|---|---|
| First print | 10.00 |
| Each additional print | 8.00 |

*Enlargements 9 x 9 inches (from 70mm)*

| | |
|---|---|
| First print | 10.00 |
| Each additional print | 8.00 |

*Enlargements 17 x 17 inches*

| | |
|---|---|
| First print | 20.00 |
| Each additional print | 15.00 |

*Enlargements 24 x 24 inches*

| | |
|---|---|
| First print | 30.00 |
| Each additional print | 25.00 |

*Enlargements 38 x 38 inches*

| | |
|---|---|
| First print | 60.00 |
| Each additional print | 55.00 |

9. *Special Needs.* For special needs not covered above, persons desiring aerial photographic reproductions should contact the agencies listed in Section 10a, or the Coordinator, Aerial Photographic Work of the Department of Agriculture, ASCS, 2511 Parley's Way, Salt Lake City, Utah 84109.

SEC. 17. The fee schedule published in the FEDERAL REGISTER on October 14, 1972 (37 FR 21859), is superseded by this fee schedule.

SEC. 18. *Effective Date.*—The fee schedule and related procedures shall become effective upon publication in the FEDERAL REGISTER.

T. M. BALDAUF,
*Director,*
*Office of Plant and Operations.*

## Office of the Secretary

### CHAIRMAN, COMMODITY EXCHANGE COMMISSION

### Notice of Designation

Pursuant to the provisions of sec. 2(a) of the Commodity Exchange Act, as amended (7 U.S.C. 2), I hereby designate Ervin L. Peterson, Administrator, Agricultural Marketing Service, United States Department of Agriculture, to serve in my stead as Chairman of the Commodity Exchange Commission, effective immediately.

Done at Washington, D.C., this 18th day of September 1973.

EARL L. BUTZ,
*Secretary of Agriculture.*

## DEPARTMENT OF COMMERCE

### Domestic and International Business Administration

### CORNELL UNIVERSITY, ET AL.

### Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before October 15, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket Number: 74-00075-33-46040. Applicant: Cornell University, Section of Genetics, Development and Physiology, New York State College of Agriculture and Life Sciences, Plant Science Building, Ithaca, New York 14850. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended Use of Article: The foreign article is intended to be used in research on various aspects of ultrastructural studies in different organisms. The main areas of research will be the following: (1) Fine structure of cytoplasmic microfilaments in elogating plants cells, and of P-protein in the sieve elements of phloem; (2) fate of DNA in a differentiating and mature sieve elements; (3) alterations in chloroplast membranes during cold acclimation of spinach plants; and (4) comparative ultrastructural studies of the ascospore in the wild type and mutant strains of the fungus *Neurospora crassa.*

The article is also intended to be used to train undergraduates, graduates, post doctoral fellows, and technicians in three courses in electron microscopy. Application received by Commissioner of Customs: August 20, 1973.

Docket Number: 74-00076-33-43420. Applicant: The University of Oklahoma, Purchasing Department, 660 Parrington Oval, Room 321, Norman, Oklahoma 73069. Article: Micromanipulator, Type MZ-10 and accessories. Manufacturer: Narishige Scientific Instrument Laboratory, Japan. Intended Use of Article: The foreign article is intended to be used in research on the large paired Retzius Cells in segmental ganglia of the leech. The program will examine the synaptic interactions between Retzius Cells, large fiber units in the connective, which mediate shortening, and the large lateral motor neurons. Retzius Cells will also be examined to measure their presynaptic effects upon the tension and potentials of the muscles during the reflexive shortening. The article will also be used

to teach a course entitled "Electrophysiological Techniques." Application received by Commissioner of Customs: August 20, 1973.

Docket Number: 74-00078-33-46070. Applicant: Virginia Commonwealth University, Medical Health Sciences Center, Medical College of Virginia, 1200 East Broad, Richmond, Virginia 23219. Article: Scanning Electron Microscope, Model JSM-S1. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used for studies of ocular tissue, normal and pathological, derived from human and animal eyes and their adnexa. Experiments to be conducted include:

(a) Investigations of normal and abnormal development of the eye primarily based on teratogenic agents interfering with normal ocular development.

(b) Comparison of the morphological configuration of normal and glaucomatous outflow channels and structures from embryonic and postnatal stages of the eye.

(c) Studies to detect differences of normal and glaucomatous corneal epithelium and their causes.

(d) Study of effects of intense bright light on the receptor organs of the retina and the retinal pigment epithelium and to compare those changes with macular degeneration in man, a not infrequent cause of reduced vision primarily with age.

The article will also be used for training of post-graduate fellows in Research Ophthalmology with main emphasis on ocular fine structure and pathology and for four year NIH traineeship in ophthalmology leading to a career in academic medicine. Application received by Commissioner of Customs: August 17, 1973.

Docket Number: 74-00079-33-46040. Applicant: DHEW/PHS, Food and Drug Administration, National Center for Toxicological Research, Jefferson, Arkansas 72079. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended Use of Article: The foreign article is intended to be used in research on biological, mainly mammalian tissues derived from experimental animals, and exhibit both normal and pathologic structure. Specifically, the experiments will be (1) transmission electron microscopy (TEM) of myocardial necrosis in adult female mice given 2,4,5-T; (2) transmission and scanning electron microscopy (TEM and SEM) in conjunction with elemental x-ray analysis of crystalline material present in the lungs of mice associated with carcinogenesis; (3) TEM and SEM in conjunction with elemental x-ray analysis of transitional epithelium of the urinary bladder of mice which have received 2-AAF, a carcinogenic compound; (4) TEM and SEM study of intracytoplasmic hyaline bodies in epithelial cells of urinary bladder from mice treated with 2-AAF; (5) SEM of teratologic defects in mice fetuses from maternal animals which have received 2,4,5-T; (6) an electron microscope study to define subcellular deviations which occur within neoplastic transitional epithelial cells of the urinary bladder of mice and (7) an electron microscopic study of liver and kidney of mice treated with 2-AAF. Application received by Commissioner of Customs: August 20, 1973.

Docket Number: 74-00080-33-46040. Applicant: DHEW/PHS, Food and Drug Administration, National Center for Toxicological Research, Jefferson, Arkansas 72079. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended Use of Article: The foreign article is intended to be used in research on biological, mainly mammalian tissues derived from experimental animals, and exhibit both normal and pathologic structure. Specifically, the experiments will be (1) transmission electron microscopy (TEM) of myocardial necrosis in adult female mice given 2,4,5-T; (2) transmission and scanning electron microscopy (TEM and SEM) in conjunction with elemental x-ray analysis of crystalline material present in the lungs of mice associated with carcinogenesis; (3) TEM and SEM in conjunction with elemental x-ray analysis of transitional epithelium of the urinary bladder of mice which have received 2-AAF, a carcinogenic compound; (4) TEM and SEM study of intracytoplasmic hyaline bodies in epithelial cells of urinary bladder from mice treated with 2-AAF; (5) SEM of teratologic defects in mice fetuses from maternal animals which have received 2,4,5-T; (6) an electron microscope study to define subcellular deviations which occur within neoplastic transitional epithelial cells of the urinary bladder of mice; and (7) An electron microscopic study of liver and kidney of mice treated with 2-AAF. Application received by Commissioner of Customs: August 20, 1973.

Docket Number: 74-00081-33-46500. Applicant: University of Nebraska Medical Center, Department of Dermatology, Conkling Hall, Room 406, 42nd and Dewey Avenue, Omaha, Nebraska 68105. Article: Ultramicrotome, Model LKB 8800A, 7800B Knifemaker, and 4806A Ultrotome Table. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The foreign article is intended to be used in research on biological, exclusively mammalian tissues derived from human skin and from experimental animals, which exhibit both normal and pathologic structure. Specifically, the experiments to be conducted include sequential biopsies during the development of the various forms of dermatitis (eczema) and during the resolution of various skin diseases using different clinical therapeutic modalities. Application received by Commissioner of Customs: August 21, 1973.

Docket Number: 74-00082-33-37100. Applicant: University of Pennsylvania, Department of Microbiology, School of Dental Medicine, 4001 Spruce Street, Philadelphia, Pennsylvania 19174. Article: Yeda Press. Manufacturer: Yeda Research & Development Co., Ltd., Israel. Intended Use of Article: The foreign article is intended to be used in research on virus infected KB living cells. Specifically, the virus-infected cells will be factionated and virus antigens located in order to document membrane alterations. Application received by Commissioner of Customs: August 22, 1973.

Docket Number: 74-00083-33-46500. Applicant: William Paterson College of New Jersey, 300 Pompton Road, Wayne, New Jersey 07407. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended Use of Article: The foreign article is intended to be used in teaching a course entitled "Electron microscopy" to seniors in the Biology major program. In addition, a second course entitled Cell Ultrastructure is planned for Spring 1974. Application received by Commissioner of Customs: August 21, 1973.

Docket Number: 74-00084-33-46500. Applicant: Wayne State University, Department of Dermatology, Research Medical Building, 550 East Canfield, Detroit, Michigan 48201. Article: Ultramacrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended Use of Article: The foreign article is intended to be used to study biological, mainly mammalian tissues derived from human and experimental animals which exhibit both normal and pathologic structure. Specifically, experiments will be conducted on the normal, physiological behavior of cells and tissues in regard to the transport and ingestion of macromolecules. Variations in the behavior of cells and tissues under experimental pathological conditions will also be studied. Application received by Commissioner of Customs: August 21, 1973.

Docket Number: 74-00085-01-77040. Applicant: California State University, Los Angeles, 5151 State University Drive, Los Angeles, California 90032. Article: Mass Spectrometer, Model CH-5. and accessories. Manufacturer: Varian MAT-GMBH, West Germany. Intended Use of Article: The article is intended to be used for the application of negative ion mass spectrometry in the following research projects:

I. Negative Ion Mass Spectrometric Sequencing of Amino Acids in Peptides.

II. Negative Ion Mass Spectral Studies of Carboranes and Boron Hydrides.

III. Gas Phase Non-Benzenoid Aromatic Systems studies.

The article will also be used in various chemistry courses for the teaching of instrumental techniques. Application received by Commissioner of Customs: August 21, 1973.

Docket Number: 74-00086-33-46040. Applicant: University of Rochester, Medical Center, 260 Crittenden Boulevard, Rochester, New York 14642. Article: Electron Microscope, Model EM 201 and accessories. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended Use of Article: The

V 38-185 SEP 25 73 XUM

article is intended to be used for the examination by electron microscopy of the fine structural features of brain tumor cells in culture with particular attention given to a search for viral particles, and for cellular features which correlate with tumor malignancy and invasiveness. In addition, morphologic characteristics will be correlated with metabolic properties determined by physiological and biochemical methods. An important aspect of these studies will be an assessment of the influence of chemical substances (or physical conditions such as irradiation) which might therefore, have applicability in the treatment of patients with brain tumors. Application received by Commissioner of Customs: August 20, 1973.

A. H. STUART,
*Director, Special Import Programs Division.*

## CORNELL UNIVERSITY

### Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00561-90-73610. Applicant: Cornell University, NYS Agricultural Experiment Station, Department of Plant Pathology, Geneva, New York 14456. Article: Recording Volumetric Spore Trap. Manufacturer: Burkard Manufacturing Co. Ltd., United Kingdom. Intended use of Article: The article is intended to be used in studies of fungus spores to determine the type and quantity of spores in the air in relation to weather conditions.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is designed to continuously sample airborne particles for periods up to 7 days and provide a record of the type and quantity of particles collected at a given time. The Department of Health, Education, and Welfare (HEW) in its memorandum dated Augsut 30, 1973 advised that the ability to record such data for 7 days is pertinent to the applicant's research purposes. HEW further advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
*Director, Special Import Programs Division.*

[FR Doc.73-20382 Filed 9-24-73;8:45 am]

## SAN FRANCISCO STATE UNIVERSITY

### Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00497-33-46040. Applicant: San Francisco State University, Division of Biology, 1600 Holloway, San Francisco, Calif. 94132. Article: Electron microscope, EM 10. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in the study of sperm cell activation in opistobranch mollusks to understand the mechanisms of sperm cell maturation; how mature sperm cells are transferred from one individual to another; how viable sperm cells can be stored up to one month in the seminal receptacle while remaining inactive; and how they are activated at the precise time of egg-laying so they are fertilized just prior to being shed. The article will be used to take low magnification orientation pictures and to take high-magnification, high-resolution pictures in order to observe the finest structural details in the developing sperm cells, the fine details of the lining cells of the seminal receptacle, and minute differences between activated and inactive sperm cells. In addition, the article will be used in the course, Electron Microscopy, to prepare students to work independently in electron microscopy, whether it be as electron microscope technicians or using the instrument in original research for a higher degree.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article has a specified resolving capability of 3.5 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corporation. The Model EMU-4C has a specified resolving capability of 5 Angstroms. (The lower the numerical rating in terms of Angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 30, 1973 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

## UNIVERSITY OF RHODE ISLAND

### Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00550-33-01710. Applicant: University of Rhode Island, Kingston, R.I. 02881. Article: Voltage-Clamp Amplifier. Manufacturer: Hugo Sachs Elektronik K.G., West Germany. Intended Use of Article: The article is intended to be used in studies of smooth and cardiac muscle wherein membrane potential difference will be clamped at a value corresponding to deplorization by acetylcholine, while the muscle is treated with 5-hydroxtryamine to determine whether current oscillations and rhythmicity will be established. COMMENTS: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant's use is in a very specialized study of membrane potentials in smooth and cardiac muscle requiring very specialized apparatus. In addition the applicant requires a device to satisfy the articles capabilities and be compatible with a particular microelectrode amplifier. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated August 30, 1973 that the specific design of the foreign article is pertinent to the purposes described above. HEW also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the purposes for which the article is intended to be used.

The Department of Commerce knows no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

## NORTH TEXAS STATE UNIVERSITY AND UNIVERSITY OF ILLINOIS

### Notice of Consolidated Decision on Applications for Duty-Free Entry of Accessories for Foreign Instruments

The following is a consolidated decision on applications for duty-free entry of accessories for foreign instruments pursuant to section 6(c) of the Educational Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq). (see especially § 701.11 (e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00540-00-77030. Applicant: North Texas State University, Denton, Tex. 76203. Article: ¹D internal field frequency lock system. Manufacturer: JOEL Ltd., Japan. Intended Use of Article: The article is an accessory to be used with a nuclear magnetic resonance spectrometer being used in studies of the structures of and of the bonding within various chemical (mainly organic) compounds. The objectives pursued in the course of these investigations include:

(a) The training of graduate students for futures in the chemical industry and academia,

(b) Basic Research for a better understanding of synthetic chemistry, and

(c) New applications of nuclear magnetic resonance to study of reaction products and molecular structures.

In addition the article is to be used for educational purposes in various Chemistry courses to train students in the most modern methods of chemistry including nmr spectroscopy. Application received by Commission of Customs: May 30, 1973. Advice submitted by Department of Health, Education, and Welfare on: August 30, 1973.

Docket Number: 73-00557-00-77040. Applicant: University of Illinois-Urbana-Champaign, Purchasing Division, 223 Administration Building, Urbana, Illinois 61801. Article: Combination Field Desorption-Field Ionization-Electron Impact Ion Source Device. Manufacturer: Varian MAT GmBH, West Germany. Intended use of article: The articles are accessories to an existing mass spectrometer to be used for studies of organic compounds and mixtures of interest in biology and medicine to determine their molecular weights and molecular formulas. The article will also be used for educational purposes in various Chemistry courses. Application received by Commissioner of Customs: May 25, 1973. Advice submitted by Department of Health, Education, and Welfare on: August 30, 1973.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: The applications relate to compatible accessories for instruments that have been previously imported for the use of the applicant institutions. The articles are being manufactured by the manufacturers which produced the instruments with which they are intended to be used. We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda that the accessories are pertinent to the applicants' intended uses and that it knows of no comparable domestic articles.

The Department of Commerce knows of no similar accessories manufactured in the United States which are interchangeable with or can be readily adapted to the instruments with which the foreign articles are intended to be used.

A. H. STUART,
*Director Special Import Programs Division.*

## EXXON CORP.

### Application for Construction of DWT Tankers

Notice is hereby given that Exxon Corp. has filed an application dated September 6, 1973, pursuant to Title V of the Merchant Marine Act, 1936, as amended for construction-differential subsidy to aid in the construction of two 400,000 DWT tankers of approximately 15.4 knots speed proposed for operation in worldwide tanker trades.

Interested parties may inspect this application in the office of the Secretary, Room 3099-B, Maritime Administration, Commerce Department Building Fourteenth & E Streets NW., Washington, D.C. 20235.

Dated September 19, 1973.

By Order of the Maritime Subsidy Board, Maritime Administration.

JAMES S. DAWSON, JR.,
*Secretary.*

## Food and Drug Administration

[FAP 4B2945]

## AMERICAN CYANAMID CO.

### Notice of Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 4B2945) has been filed by American Cyanamid Company, Wayne NJ 07470, proposing that § 121.2571 *Components of paper and paperboard in contact with dry food* (21 CFR 121.2571) be amended in paragraph (b)(2) to provide for the safe use of the antimicrobial agents dodecylguanidine acetate and dodecylguanadine hydrochloride in paper and paperboard in contact with dry foods.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the

V 38 185 SEP 25 73 XUM

additive will not have a significant environmental impact. Copies of the environmental impact analysis report are available in the Office of the Assistant Commissioner for Public Affairs, Rm. 15B–42 or the Office of the Hearing Clerk, Food and Drug Administration, Rm. 6–86, 5600 Fishers Lane, Rockville, MD 20852.

Dated September 12, 1973.

[DESI 5378; Docket No. FDC–D–582; NDA 11–522]

## CERTAIN COMBINATION ANORECTIC DRUGS

### Final Order on Objections and Request for a Hearing Regarding Withdrawal of Approval of New Drug Applications

In the FEDERAL REGISTER of August 8, 1970 (35 FR 12652) the Commissioner of Food and Drugs published a statement of policy (21 CFR 130.46) concerning amphetamines for human use. The statement contained the findings of the Food and Drug Administration based upon reports received from the National Academy of Sciences-National Research Council (NAS–NRC) Drug Efficacy Study Group. Also published in the FEDERAL REGISTER of August 8, 1970 (35 FR 12678) was a notice (DESI 5378) on drugs containing amphetamines and their salts, stating that the drugs were regarded as possibly effective for their claimed anorectic effect and lacked substantial evidence of effectiveness for their other labeled indications. The statement of policy also contained the findings of the Commissioner that because of the extensive use of the drugs in the treatment of obesity, and their stimulant effect on the nervous system, they have a potential for misuse and actual abuse, and production data indicated that amphetamines are produced and prescribed in quantities greatly in excess of demonstrated medical needs. As a condition for continued marketing of amphetamines, the statement of policy required relabeling as specified and the submission of a new drug application (NDA) within one year for all such drugs not then the subject of NDA approval. Holders of approved NDAs were required to submit additional evidence of safety and substantial evidence of efficacy in the form of adequate and well-controlled clinical investigations.

On February 12, 1973, the Commissioner published in the FEDERAL REGISTER (38 FR 4249) a final order stating that there was a lack of substantial evidence of effectiveness for, and a recognized potential for the abuse of, fixed combination drugs for anorectic use which contained, among other ingredients, amphetamine, methamphetamine, or dextroamphetamine. In addition, the Commissioner found that alternative therapeutic measures which are safe and effective are available for use. The Commissioner also stated in the final order that a mixture of dextroamphetamine and amphetamine is ordinarily regarded as a single drug entity. A similar conclusion as to a mixture of dextroamphetamine and methamphetamine, and/or amphetamine and methamphetamine, was not made. In § 3.86 (21 CFR 3.86) the Food and Drug Administration set forth a policy on fixed-combination drugs for prescription use requiring that each drug in a fixed-combination drug contribute to the claimed effect of the drug; section IV, infra. Therefore, drugs containing combinations of amphetamine and methamphetamine and/or dextroamphetamine and methamphetamine, are fixed combination drugs. The final order also stated that a proposal to withdraw approval of such combination drugs for anorectic use was published elsewhere in the same issue of the FEDERAL REGISTER.

In a notice in the FEDERAL REGISTER of February 12, 1973 (38 FR 4279), the Commissioner announced an opportunity for hearing on his proposal to withdraw approval of new drug applications for the combination amphetamine or other anorectic drugs. This notice was based on evaluation of data submitted pursuant to the FEDERAL REGISTER notice of August 8, 1970 (35 FR 12678). This data was found, after review, not to provide substantial evidence that the drugs named in the FEDERAL REGISTER notice of February 12, 1973, were effective as fixed combination for their claimed anorectic uses. Based on this lack of substantial evidence of effectiveness of the drugs as fixed combinations, the recognized potential for abuse of these combination drugs, and the availability of alternative therapeutic measures which are safe and effective, the named drugs were also found to be lacking in proof of safety. The Commissioner further found that the data submitted in response to the FEDERAL REGISTER notice of August 8, 1970, did not support a contention that the combination products decrease the incidence or severity of side effects associated with the abuse potential of the single entity anorectic drug. Notice was therefore given to holders of the named new drug applications and all other interested persons, including those marketing similar, identical or related drugs (§ 130.40 (21 CFR 130.40)) that the Commissioner proposed to withdraw approval of these new drug applications based on a lack of substantial evidence of effectiveness and a lack of proof of safety. All holders of the NDA's and persons marketing similar, identical or related drugs, and other interested persons were invited to request a hearing on the proposed withdrawals and to submit with such request a well organized and full-factual analysis of the clinical and other investigational data they were prepared to prove in support of their opposition to the withdrawal of the named NDA's and any such similar, identical or related drugs. The notice stated that if substantial evidence of effectiveness and evidence of safety was received for any of the named drugs, or for similar, identical and related drugs, the notice would be rescinded as to such drugs.

In response to the notice in the FEDERAL REGISTER of February 12, 1973, requests for a hearing were received from four persons for five drugs. The persons and the drugs were named in the FEDERAL REGISTER notice of March 30, 1973 (38 FR 8290). The subject final order concerns only two of those persons requesting hearings.

Rexar Pharmacal Co., 396 Rockaway Ave., Valley Stream, NY 11582, requested a hearing for the drugs Obetrol-10 and Obetrol-20 Tablets (NDA 11–522). These drugs are the subject of an NDA which was made conditionally effective on July 24, 1959, and fully effective on February 23, 1960. The Obetrol drugs had been reviewed by the NAS–NRC and found to be possibly effective as an adjunct in the management of some forms of obesity in which an appetite depressant is indicated. The NAS–NRC finding was incorporated into the August 8, 1970 FEDERAL REGISTER notice discussed above (35 FR 12678).

Delco Chemical Co., 7 McQuesten Parkway North, Mount Vernon, NY 10550, requested a hearing for the drugs Delcobese Sustained Release Tablets and Capsules and Delcobese Tablets and Capsules. Pursuant to the August 8, 1970 FEDERAL REGISTER order, the Commissioner received from Barrows Pharmacal Inc., 300 Prospect St., Inwood, NY 11696, four new drug applications on the following dates for the following drugs: March 15, 1971, NDA 17–162, Delcobese Tablets, 5 mg., 10 mg., 15 mg., and 20 mg.; March 15, 1971, NDA 17–161, Delcobese Capsules, 5 mg., 10 mg., 15 mg., and 20 mg.; March 26, 1971, NDA 17–160, Delcobese Sustained Release Capsules, 5 mg., 10 mg., 15 mg., and 20 mg.; and June 24, 1971, NDA 17–159, Delcobese Sustained Release Double-Layer Tablets, 5 mg., 10 mg., 15 mg., and 20 mg. All four of the drugs consist of a combination of amphetamines and methamphetamines. No data was submitted in support of the efficacy of these combination drugs; the sponsor merely paraphrased the conclusions stated in the August 8, 1970 FEDERAL REGISTER notice in support of the safety and efficacy of the drugs for use as anorectics and in treating narcolepsy and minimal brain dysfunction in children.

Due to the large number of new drug applications received pursuant to the August 8, 1970 FEDERAL REGISTER order, a review and evaluation of the new drug applications submitted by Barrows was delayed. Barrows was notified of this delay by a letter from the Food and Drug Administration on February 25, 1972. On January 15, 1973, a letter was sent to Barrows from J. Richard Crout, M.D., Acting Director, Office of Scientific Evaluation, Bureau of Drugs, stating the conclusion of the Food and Drug Administration that the four new drug applications submitted by Barrows could not be approved because the submissions

failed to demonstrate that each component of the drug makes a contribution to the claimed effect and that the dosage of each component is such that the combination is safe and effective for a significant patient population requiring such concurrent therapy as defined in the labeling for the drug (21 CFR 3.86). In response to this letter, Delco Chemical Co., Inc., 7 McQuesten Parkway North, Mount Vernon, NY 10550, notified the Food and Drug Administration that it was reformulating the products subject to the submitted new drug applications into "single entity amphetamine preparations." No further communication has taken place.

The other drugs named in the FEDERAL REGISTER notice of March 30, 1973, will be the subject of orders ruling on the requests for hearings to be published in the FEDERAL REGISTER at a future date.

I. *The Drugs* a. Obetrol 10 and Obetrol 20 Tablets, respectively contain 2.5 mg. each or 5 mg. each of methamphetamine saccharate, methamphetamine hydrochloride, amphetamine sulfate, and dextroamphetamine sulfate per tablet.

b. The four Delcobese drugs are combinations of dextroamphetamine sulfate, methamphetamine hydrochloride, methamphetamine adipate and amphetamine sulfate.

II. *Recommended Uses* a. Obetrol 10 and Obetrol 20 Tablets are recommended in exogenous obesity as a short-term (a few weeks) adjunct to a regimen of weight reduction based on caloric restriction.

b. The Delcobese drugs are recommended in exogenous obesity, as a short-term (a few weeks) adjunct in a regimen of weight reduction based on caloric restriction, and in the treatment of narcolepsy and minimal brain dysfunction in children.

III. *The Data to Support Claims of Effectiveness* A. *Obetrol 10 and Obetrol 20 Tablets* 1. *Published Studies.* Rexar has submitted five literature reprints which it contends support the efficacy of Obetrol Tablets. For the following reasons, these studies are not substantial evidence of the effectiveness of Obetrol Tablets since they are not adequate and well-controlled clinical investigations.

a. *Modern Management of Obesity—The "Social Diet"*, Milton Plotz, M.D., *J.A.M.A.*, July 25, 1959, Vol. 170, pp. 1513–1515. This report is substantially a discourse on the causes of obesity and the various methods of treating the condition. It merely reports that the author feels that some investigators, including himself, have established a genuine therapeutic action with certain drugs in promoting weight reduction. There is no actual clinical data presented, no discussion of the investigations as to size of the studies, no controls or statistical methods, and no reference to the composition of the drugs that were employed in the investigations, as required by § 130.12(a)(5) (21 CFR 130.12). The author mentions that Obetrol was used in "this" study, but the reference to which study is unclear. The criteria for establishing that a study is adequate and well-controlled, set forth at § 130.12(a)(5), have not been met.

The study is, on its face, insufficient to support any claim of effectiveness for the Obetrol Products. The Commissioner finds that this article is not substantial evidence of the efficacy of Obetrol Tablets.

b. *The Treatment of Obesity in Patients With Cardiovascular Disease*, Franklin Simon, M.D. and Arthur Bernstein, M.D., *Angiology*, Vol. 12 No. 1, January, 1961, 32–37. This is a report of the obesity problem in the United States and a study conducted with Obetrol.

The study reported consisted of 100 patients who were seen by the investigators for "varying" periods of time. The authors stated the test was conducted for two months, an "appropriate" period of time. Why the two months was "appropriate" is not stated. The standard for determining "overweight" was given as "overweight by any standard used." Both Obetrol 10 and Obetrol 20 were administered, with dosage and time of administration altered to conform to individual requirements.

No attempt was made to use any controls in the study. The investigators reported that a placebo substitute was attempted with twenty-five patients after four weeks of treatment, but this type of placebo employment is not a placebo control contemplated by § 130.12(a)(5)(ii)(*a*)(*4*)(*ii*), since the regulation requires that the test drug be compared with the results of a patient group to whom a placebo, in all respects physically identical to the test drug, has been administered throughout the study. The subject study did not comply with the regulation.

The patient population was made up of patients some of whom had some sort of cardiovascular disease with or without diabetes, some with diabetes alone, and some with no other disease conditions. There is no information as to suitability of the patients to be included in a study to determine the effectiveness of an anorectic, and no assurance of comparability of the test group with a control group, since a control group was not employed (§ 130.12(a)(5)(ii)(*a*)(*2*)(*i*) and (*iii*)). Because of the great variations in the physical conditions of the patients and the other medications they were taking, and the variations of dosage and duration of administration reported by the authors, any specific finding by the investigators related to the effectiveness of Obetrol is of questionable value.

Section 130.12(a)(5)(ii)(*a*)(*5*) requires that "a summary of the methods of analysis and an evaluation of the data derived from the study, including any appropriate statistical methods" be submitted. No such data is presented in this study. Therefore, it is not possible to evaluate the analytical and statistical methods employed in order to determine the validity of the results and the investigator's conclusions.

The results of the study were stated in general terms of the total number of pounds lost, with an average being assigned to each patient. No actual patient results were stated. The investigators state that the range of weight loss varied from "almost nothing" to 25 pounds. The authors admit that their results are "made up of combining the good with the bad, the effective with the ineffective weight reducer." Thus, it is impossible to draw any meaningful conclusions as to the efficacy of Obetrol from the study because full reports of patient data obtained from the study are not presented as required by § 130.12(a)(5)(ii)(*a*)(*5*).

In addition, since Obetrol is a combination drug within the meaning of § 3.86, the investigators must show that both the amphetamine and methamphetamine components of the drug contribute to the drug's purposed effect. No such showing was made in this study.

The Commissioner finds that this study is not substantial evidence of the effectiveness of Obetrol Tablets.

c. *Treatment of Obese Diabetics and Arteriosclerotics*, Arthur Bernstein, M.D. and Franklin Simon, M.D., Reprint from *Clinical Medicine*, May, 1961, pp. 1–6. This is another report of the study discussed in b, above. It contains no more patient information or data than does the other report, and no statistical analysis. For the reasons stated above, the Commissioner finds this study is not substantial evidence of the effectiveness of Obetrol Tablets.

d. *Use of an Amphetamine-Combination Drug in an Anti-Obesity Clinic*, Merrill Berman, M.D. and Ian Anderson, M.D., *Md. St. Med. J.*, Jan., 1965, pp. 22–31. This is a report of study conducted with Obetrol–10 Tablets. The patient population numbered 43; the only medical problem of the group was obesity. The drug was tested in 25 patients and compared with 18 patients to whom no medication was administered. The authors stated that "the final outcome of this study will await its ultimate re-evaluation when the patients are reviewed one year from the time they entered the clinic program."

The patients were selected at random, and randomly placed on either the drug or no treatment. Both test and control patients were weighed each week, given nutritional counseling and participated in the same group discussions. The results obtained showed that the group to whom the drug had been administered lost an average of 20.2 pounds over a ten week period, while the control group lost an average of 9.61 pounds over the ten week period. The actual weight loss for each patient is tabulated. The authors concluded that "the group on the amphetamine preparation was able to lose twice as much, on the average, as the control group."

The study is deficient in several respects. First, the degree of overweight of the patients is not specified. Second, the method of randomizing the selection of the patients is not stated, nor is a table of random numbers presented (§ 130.12(a)(5)). Data is not presented as to the number of entrants in the study and the

V 38 185 SEP 25 73 XUM

number of dropouts. This data is necessary both in order to demonstrate that equal numbers of patients were placed in each group and to follow up on these patients to ascertain why they dropped out. Finally, the analytical technique for evaluating the results is not described making it impossible to establish the significance of the differences of treatment of the two groups (§ 130.12(a)(5)(ii)(*a*)(*4*)).

In adition to the above deficiencies, the study is not adequate and well-controlled to establish the efficacy of Obetrol for the following reasons. As pointed out by the investigators in this and the other studies submitted by Rexar, one of the major factors contributing to obesity, and crucial in its treatment, is the psychological condition of the patient. In order to conduct an adequately controlled test with an obesity drug, it is imperative that placebo controls as set forth in § 130.12(a)(5)(ii)(*a*)(*4*)(*ii*) be employed so that all patients think that they are receiving some medication in order to adequately compare the test and control groups. No treatment controls are insufficient in this type of study since a placebo has a definite and significant effect in obesity studies (§ 130.12(a)(5)(ii)(*a*)(*4*)(*i*)). As with all placebo studies, true double blinding is required. Thus, a third party must package both the active drugs and the placebos in containers which are indistinguishable and which can only be identified by code numbers known only to the third party. The placebos and drugs must be physically indistinguishable to both the physician and the patient. Only in this manner will the study result in neither the physician nor the patient being aware, at the time of treatment, which patient is receiving the drug or the placebo. This is required so that physician and patient expectations do not bias the study. Double blinding was not done in this study.

Finally, the study was not conducted in such a manner that the investigators demonstrated that both the amphetamine and the methamphetamine constituents of Obetrol contributed to its anorectic effect. Such a showing is required to establish the efficacy of a fixed combination drug such as Obetrol. In order to show the contribution of each ingredient it is necessary to have four test groups—one on the combination drug, one each on each of the active ingredients, and one on a placebo. This was not done (§ 3.66).

The Commissioner finds that this study is not substantial evidence of the efficacy of Obetrol Tablets.

e. *Comparison of Weight Losses With Their Reducing Regimens-Diet Therapy, Phenmetrazine, and . . . Obetrol*, Merrill Berman, M.D. and Ian Anderson, M.D., *J. Am. Geriatric Soc'y*, Vol. 14 No. 6, pp. 623–630.

In this study, 88 overweight female outpatients in the Anti-Calory Clinic were randomly divided into three groups, unequal in size: 18 to whom no medication was administered; 41 to whom phenmetrazine hydrochloride was administered; and 29 to whom Obetrol was administered. There is no explanation given for the variation in the number of subjects in each group. The no treatment group had an obesity duration of 10 years or longer in all cases; the other two groups had a long obesity duration. There is no reason given why the 10 years for the no-treatment group is significant or why the lack of specific duration of obesity for the other two groups is significant.

The results of the study showed an average loss of 2.0 pounds in two weeks, 4.2 pounds in four weeks, 6.4 pounds in six weeks, 8.6 pounds in eight weeks and 10.3 pounds in 10 weeks for the controls. For the phenmetrazine group, the average weight loss was 3.6 pounds in two weeks, 6.8 pounds in four weeks, 9.7 pounds in six weeks, 11.9 pounds in eight weeks and 13.8 pounds in 10 weeks. Finally, the Obetrol group averaged a weight loss of 5.0 pounds in two weeks, 9.5 pounds in four weeks, 13.8 pounds in six weeks, 18.3 pounds in eight weeks and 22.6 pounds in 10 weeks.

The results are not meaningful since there are no data relevant to the amount and frequency of medication. The degree of overweight of the patients is not given so that an objective comparison of the test subjects' weight loss is not possible. There is no method of randomizing the selection of the subjects stated, nor is a table of random numbers presented. The analytical technique for evaluating the results is not described so that the significance of the differences of treatment of the various groups cannot be established (§ 130.12(a)(5)(ii)(*a*)(*4*), and (a)(5)(ii)(*a*)(*4*)(i), (ii), *and* (iii)).

As with the study discussed in paragraph d. above, the necessary placebo is not present. The "active drug" control is insufficient because the administration of a placebo would not be contrary to the interest of the patient (§ 130.12(a)(5)(ii)(*a*)(*4*)(*iii*)). Furthermore, the follow-up study, in which only Obetrol was used, and then, only as needed, has no significance for purposes of demonstrating the efficacy of Obetrol. The study is not adequately double blinded for the reasons set forth in d above. Finally, there are no data to show that both the amphetamine and methamphetamine constituents of Obetrol contributed to the efficacy of the drug (§ 3.86).

The Commissioner finds that this study is not substantial evidence of the efficacy of Obetrol Tablets.

2. *Unpublished Studies*. a. *The Leberco studies*. Rexar also submitted two studies conducted by Leberco Laboratories in 1952. The studies are apparently acute toxicity studies. The first was conducted with Dexedrine. The purpose of this uncontrolled study is not stated. The target population ostensibly consisted of "normal, healthy albino rats", although the criteria for determining the condition of the rats is not stated (§ 130.12(a)(5)(ii)(*a*)(*2*)(*i*)). The animals were fed 10 milligrams of Dexedrine per cc of a suspension substance for an unspecified period of time, possibly only once, although this is not clear. The investigator concluded that "when the above results were calculated according to the method of Behrens, the $LD_{50}$ was established to be 112 milligrams per kilogram of rat. This is equivalent to 5,730 milligrams in a 60 kilogram human being."

The second study was conducted with 500 tablets of "Oby-Rex #1", composition not stated. The purpose of this uncontrolled study is not stated. In this study, the target population ostensibly consisted of "normal, healthy albino rats", although the criteria for determining the condition of the rats is not stated (§ 130.12(a)(5)(ii)(*a*)(*2*)(*i*)). The test animals were fed 40 milligrams of Oby-Rex #1 per cc of a suspension substance for an unspecified period of time, possibly only once, although this is not clear. The investigator concluded that "when the above results were calculated according to Behrens, it was found that the $LD_{50}$ of the test material is 283 milligrams per kilogram of rat. This is analogous in the human to 16,890 milligrams".

Rexar states that these two studies were comparative, but fails to state what was being compared, and the results of any such a comparison are nowhere stated. Furthermore, the results are not confirmed by clinical data since they are only acute data. The results of such animal studies cannot be extrapolated to man. Therefore, these studies do not prove the safety of Obetrol Tablets in human beings.

The two studies do not establish either the effectiveness or safety of Obetrol. Indeed, whether or not the "Oby-Rex #1" is of the same composition as Obetrol is not stated. The Commissioner finds that these studies do not constitute evidence of safety or substantial evidence of the efficacy of Obetrol Tablets for its intended use.

b. *The Nedelman study*. In a letter dated September 21, 1971, Rexar was advised by the Food and Drug Administration that a proposed clinical protocol for a double-blind efficacy study of Obetrol was deficient in several respects; several requirements for the study to be adequate and well-controlled were provided to Rexar. One of these requirements was that Rexar "should provide for acquiring data on the contributions of the individual constituents to the total claimed effect for the drug." Rexar submitted with its request for a hearing, a copy of a protocol of a study to be conducted with Obetrol for Rexar by Medical and Technical Research Associates, Medford, MA, dated January 20, 1972. There is no mention in the protocol of acquiring data on the contribution of the individual constituents to the total claimed effect for the drug. The protocol only provided for two test groups: one to whom Obetrol would be administered, and one to whom placebo medication would be administered. Rexar submitted the results of this study, which was conducted by Philip B. Nedelman, M.D. In the foreword to the study,

Rexar stated that pursuant to the September 21, 1971 Food and Drug Administration letter, it was incorporating new requirements for the study, and set them out. These revised requirements did not include a provision for acquiring data on the contribution of the individual constituents to the total claimed effect of the drug. Thus, at the threshold, the study is not adequate since Rexar failed to comply with the requirements for the study to be considered adequate and well-controlled.

In addition, the study itself is deficient in several respects. There are no data provided on patient selection, condition, randomization, comparability of test and control groups, or steps taken to minimize bias (§ 130.12(a)(5)(ii)(*a*)(*2*) and (*4*)). There are no data presented to show that an adequate placebo control was employed since the data presented do not state whether a certain number of patients received only the drug and a certain number received only the placebo. The investigator states that the groups were designated X and Y, but states both X and Y groups received Obetrol. Furthermore, the investigator states that both groups received a known placebo during the last one week of the study. Therefore, a comparison of the test and control groups is not possible (§ 130.12(a)(5)(ii)(*a*)(*4*)(*ii*)).

The Commissioner finds that the Nedelman study is not substantial evidence of the efficacy of Obetrol Tablets.

B. *Delcobese*. As stated above, no data from clinical investigations were submitted with the nonapproval new drug applications for the Delcobese drugs. In Delco's request for a hearing, no investigations, including adequate and well-controlled clinical investigations were submitted. All that Delco has presented is 47 physicians' reports from a survey conducted by Delco from 1964 to 1968. Most of the physicians used the drug for treating obesity, although some did not state for what purpose they used the drug. Only one physician stated he used the drug to treat narcolepsy, and none stated they used the drug to treat minimal brain dysfunction in children. There are also no data presented on whether capsules or tablets were administered or whether the medication was of the sustained release type. The material, five to ten years old, was not submitted with the NDAs.

The physician reports are testimonials at best. There are no actual patient data in any report. None of these "investigations" were controlled. Furthermore, there are no data that demonstrate that the constituent ingredients in the Delcobese drugs contribute to the total claimed effects for the drugs. The Commissioner finds that these testimonials are not substantial evidence of the efficacy of the Delcobese drugs.

IV. *General Objections*. Both Rexar and Delco object to the Commissioner's finding in the February 12, 1973 FEDERAL REGISTER final order (38 FR 4249), that while a mixture of dextroamphetamine and amphetamine is ordinarily regarded as a single drug entity, a mixture of amphetamine and methamphetamine, or a mixture of dextroamphetamine and methamphetamine is not regarded as a single drug entity. The Commissioner's finding is sound from a pharmacological and chemical standpoint, and no evidence was submitted to refute it.

Dextroamphetamine is one of the two optical isomers which constitute the racemic mixture known as amphetamine; its chemical formula is identical with that of amphetamine. Methamphetamine, however, is a distinct chemical entity with a formula different from amphetamine or dextroamphetamine. Methamphetamine is one of many different sympathomimetic amines, such as ephedrine or phenylpropanolamine. While methamphetamine and amphetamine are at times lumped together due to their similar pharmacological action, namely central nervous system stimulation, the differences in pharmacological actions and chemistry make a mixture of amphetamine and methamphetamine a combination drug subject to § 3.86 (Goodman and Gilman, *The Pharmacological Basis of Therapeutics*, 1970, pp. 501–506, 293–296).

The fixed combination prescription drug policy, set forth at § 3.86, provides that where two or more drugs are combined into a single dosage form, each drug must make a contribution to the claimed effect. In addition, the dosage of each drug in the combination must be safe and effective for a significant patient population requiring concurrent therapy as defined in the drug's labeling. Exceptions to this general rule are where a component is added to enhance the safety or effectiveness of the principal active component or to minimize the potential for abuse of the principal active component.

Since the Obetrol and Delcobese drugs are fixed combination drugs because they consist of two separate drug entities, amphetamines and dextroamphetamines as one drug entity and methamphetamines as a second drug entity, these drugs are subject to the fixed combination prescription drug policy. Neither of the two special cases applies here, since no data were submitted to show that one drug entity enhanced the safety or effectiveness of the other; the drugs consist of equal parts of the two drug entities. Second, the abuse potential of both amphetamine and dextroamphetamine, and methamphetamine is well known throughout both the medical and lay communities. Therefore, addition of one drug entity to the other does not minimize the potential for abuse for one or the other. The fixed combination policy thus applies to Obetrol and Delcobese.

Rexar and Delco, to establish the safety and efficiacy of Obetrol and Delcobese, would have had to submit studies in which four test groups were used: one to whom the combination drug was administered; one to whom the amphetamine and dextroamphetamine drug entity was administered; one to whom the methamphetamine drug entity was administered; and one to whom a placebo was administered. As pointed out above, none of the submitted studies were carried out in this manner. Thus, the effectiveness of these fixed-combination prescription drugs has not been proven by either Rexar or Delco.

V. *Legal Objections*. No legal objections to the withdrawal of approval of NDA 11–522 were raised by either Rexar or Delco. Delco admitted in its request for a hearing that the Delcobese drugs are similar to the Obetrol drugs. The Delcobese drugs are thus subject to the conclusions of the Commissioner reached with respect to the Obetrol drugs and their NDA (§ 130.40).

VI. *Findings*. The Commissioner, based on the review of the medical documentation offered to support the claims of safety and efficacy for Obetrol Tablets as a short term adjunct to a regimen of weight reduction based on caloric restriction in exogenous obesity, and Delcobese tablets and capsules and Delcobese sustained release tablets and capsules as a short term adjunct to a regimen of weight reduction based on caloric restriction in exogenous obesity and in the treatment of narcolepsy and minimal brain dysfunction in children, finds that Rexar Pharmacal Corp. and Delco Chemical Co. have failed to present substantial evidence of effectiveness for these products. No data was submitted on these fixed-combination drugs for prescription use that establishes that each of the drug components make a contribution to the claimed effect of the drug (§ 3.86).

Neither Rexar or Delco presented any data to establish that there is no potential for abuse of the Obetrol and Delcobese drugs. In addition, there is nothing in the record to show that there are not safer and effective drugs available for use for the conditions for which Obetrol and Delcobese are intended. The only safety data submitted were the apparent acute toxicity studies conducted with a drug "Oby-Rex #1", the results of which were not confirmed with clinical data. Therefore, no evidence has been submitted which challenges the Commissioner's finding as to the lack of proof of safety or which, in fact, proves the safety of Obetrol and Delcobese, and a hearing is not necessary on this issue. Nevertheless, the safety issue, for the purposes of this order, becomes moot since no substantial evidence of the effectiveness of Obetrol or Delcobese has been submitted. Therefore, the drugs would be withdrawn from the market even if they could be proven safe.

The Commissioner further finds that the approval of the New Drug Application heretofore approved for Obetrol-10 and Obetrol-20 Tablets (NDA 11–522) should be withdrawn on the basis of a lack of substantial evidence of effectiveness and lack of proof of safety. This finding applies with full force to the Delcobese drugs (§ 130.40).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 701, 52 Stat. 1052–1053, 1055–1056, as amended; (21 U.S.C. 355,

V 38 185 SEP 25 73 XUM

371)), and under authority delegated to the Commissioner (21 CFR 2.120), notice is given that the approval of the New Drug Application for Obetrol-10 and Obetrol-20 Tablets (NDA 11-522) is withdrawn, effective October 5, 1973. This order applies with full force and effect to the Delcobese drugs (§ 130.40).

(Sec. 505, 701, 52 Stat. 1052-1053, 1055-1056, as amended; (21 U.S.C. 355, 371).)

Dated September 17, 1973.

SAM D. FINE,
*Associate Commissioner for Compliance.*

[DESI 9418]

[Docket No. FDC-D-602; NDA No. 9-418 etc.]

## CERTAIN DRUGS CONTAINING PENTAERYTHRITOL TETRANITRATE IN COMBINATION WITH RAUWOLFIA ALKALOIDS

### Notice of Withdrawal of Approval of New Drug Applications

A notice was published in the FEDERAL REGISTER of March 6, 1973 (38 FR 6090), extending to the holders of the new drug applications listed below, and to any interested person who may be adversely affected, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act, withdrawing approval of the listed applications and all amendments and supplements thereto. The basis of the proposed action was the lack of substantial evidence that the drugs are effective for their labeled indications.

| NDA No. | Drug | NDA holder |
|---|---|---|
| 9-418... | Pentoxylon Tablets, containing pentaerythritol tetranitrate and alseroxylon. | Riker Laboratories, Inc., Subsidiary o. 3M Co., 1021 Nordhoff St., Northridge, Calif. 91325. |
| 10-084.. | Nitralox Tablets, containing pentaerythritol tetranitrate and alseroxylon. | Dorsey Laboratories, Division of Sandoz-Wander, Inc., Northeast U.S. 6-A Interstate 80, Lincoln, Nebr. 68501. |
| 10-245.. | Pentaserpine Tablets and Pentaserpine "20" Tablets, containing pentaerythritol tetranitrate and reserpine. | USV Pharmaceutical Corp., 1 Scarsdale Rd., Tuckahoe, N.Y. 10707 (NDA formerly held by Nysco Laboratories, Inc.). |
| 11-129.. | Respot Tablets, containing pentaerythritol tetranitrate and reserpine. | Westerfield Laboratories, Inc., 2911 Bretherton Rd., Cincinnati, Ohio 45206. |

Both Riker Laboratories and USV Pharmaceutical Corp. (formerly Nysco Laboratories, Inc.) had previously discontinued their products and elected not to request a hearing. Neither Dorsey Laboratories, Inc. nor Westerfield Laboratories, Inc. filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election not to avail themselves of an opportunity for hearing.

In addition to those listed above, three other new drug applications were included in the notice of March 6, 1973. Pfizer Pharmaceuticals, Inc., holder of NDA 10-998 for Cartrax 10 and Cartrax 20 Tablets (pentaerythritol tetranitrate and hydroxyzine hydrochloride), American Home Products Corp., holder of NDA 11-423 for Equanitrate 10 and Equanitrate 20 Tablets (pentaerythritol tetranitrate and meprobamate), and Carter-Wallace, Inc., holder of NDA 11-502 for Miltrate Tablets (pentaerythritol tetranitrate and meprobamate), elected to avail themselves of the opportunity for a hearing on their drugs. Their requests for a hearing are under review and will be the subject of a future publication in the FEDERAL REGISTER.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drugs, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drugs will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of new drug applications Nos. 9-418, 10-084, 10-245, and 11-129 and all amendments and suppplements thereto is withdrawn.

Shipment in interstate commerce of the above-listed drug products or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

*Effective date.*—This order shall become effective on October 5, 1973.

Dated September 19, 1973.

SAM D. FINE,
*Associate Commissioner for Compliance.*

[FAP 3B2856]

## SANDOZ COLORS & CHEMICALS

### Notice of Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 3B7856) has been filed by Sandoz Colors & Chemicals, East Hanover, NJ 07936, proposing that § 121.2426 *Components of paper and paperboard in contact with aqueous and fatty foods* (21 CFR 121.2526) be amended in paragraph (a)(5) to provide for the safe use of polyamide-epichlorohydrin water-soluble thermosetting resins prepared by reacting adipic acid with diethylenetriamine to form a basic polyamide and further reacting the polyamide with an epichlorohydrin and dimethylamine mixture for use in the manufacture of paper and paperboard intended for use in contact with food.

Dated September 11, 1973.

VIRGIL O. WODICKA,
*Director, Bureau of Foods.*

[DESI 11073]

[Docket No. FDC-D-541; NDA 11-073]

## WAMPOLE LABORATORIES

### Notice of Withdrawal of Approval of New Drug Application

On January 12, 1973, there was published in the FEDERAL REGISTER (38 FR 1404) a notice of opportunity for hearing (DESI 11073) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of new drug application 11-073 for Vastran Forte Capsules containing niacin (375 mg.) with ascorbic acid, riboflavin, thiamine mononitrate, cyanocobalamin, pyridoxine hydrochloride, and calcium pantothenate; Wampole Laboratories, 35 Commerce Road, Stamford, CT 06904. The basis of the proposed withdrawal of approval was the lack of substantial evidence that this fixed combination drug, offered for hypercholesteremia, will have the effects that it purports or is represented to have under the conditions of use prescribed, recommended or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

Pursuant to the notice, Wampole Laboratories has reformulated Vastran Forte Capsules into a new product named Wampocap Capsules containing 500 mg. niacin. In the FEDERAL REGISTER of April 15, 1972 (37 FR 7535) and an amendment on March 19, 1973 (38 FR 7270) (DESI 9760), niacin as a single active ingredient was evaluated as effective for hypercholesterolemia and hyperbetalipoproteinemia. The amendment of March 19, 1973 stated the following indications:

As adjunctive therapy in addition to diet and other measures in the treatment of hypercholesterolemia and hyperbetalipoproteinemia.

It also required that the following statement follow the "Indications" section either enclosed in a block or in italics:

Notice: It has not been established whether drug-induced lowering of serum cholesterol or other lipid levels has a detrimental, a beneficial, or no effect on the morbidity due to atherosclerosis or coronary heart disease. Several years will be required before current investigations can yield an answer to this question.

No data were submitted, pursuant to the notice of January 12, 1973, in support of the effectiveness of the combination product, nor has any person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended (21 U.S.C. 355)), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him 21 CFR 2.120), finds that on the basis of new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore pursuant to the foregoing finding, approval of that part of NDA 11-073 pertaining to Vastran Forte Capsules and all amendments and supplements applying thereto is withdrawn effective on October 5, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, will then be unlawful.

Dated September 19, 1973.

SAM D. FINE,
*Associate Commissioner for Compliance.*

## Health Services Administration

## NATIONAL ADVISORY COMMITTEES

### Notice of Meetings

The Administrator, Health Services Administration, announces the meeting dates and other required information for the following National Advisory bodies scheduled to assemble the month of October 1973:

| Committee name | Date, time, and place | Type of meeting and/or contact person |
|---|---|---|
| National Migrant Health Advisory Committee. | 10/1-3, 9 a.m., Conference Room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. | Open, contact Billy M. Sandlin, Room 7-20, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., code 301-443-1150. |
| Maternal and Child Health Services Research Grants Review Committee. | 10/18-19, 9 a.m., Conference Room L, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. | Closed, contact Gloria Wackernah, Room 12A-11, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., code 301-443-2190. |

*Purpose.* The Committee is charged with the review of all research grant applications in the program areas of maternal and child health administered by the Bureau of Community Health Services.

*Agenda.* The Committee will be performing review of grant applications for Federal assistance and will not be open to the public, in accordance with the determination by the Administrator, Health Services Administration, pursuant to Public Law 92-463, section 10(d).

| Committee name | Date, time, and place | Type of meeting and/or contact person |
|---|---|---|
| National Advisory Council on Health Manpower Shortage Areas. | 10/19-20, 9 a.m., Howard Johnson's Motor Lodge, University Blvd. and Viers Mill Rd., Wheaton, Md. | Open, contact Howard Hilton, Room 6-05, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., code 301-443-4337. |

*Purpose.* The Council is charged with establishing guidelines and regulations to improve the delivery of health care services; assigning Public Health Service personnel to areas where medical manpower and facilities are inadequate to meet the health needs of persons living in such areas; and on a nationwide basis recommending the criteria and personnel on which selection of areas are based.

*Agenda.* Agenda items include progress made in the designation process, results of review and evaluation visits, and open discussion with Acting Office Directors, Bureau of Community Health Service.

Agenda items are subject to change as priorities dictate.

A roster of members and other relevant information regarding the open/closed sessions may be obtained from the contact persons listed above.

Dated September 19, 1973.

ISABELLE G. GOLDBERG,
*Acting Associate Administrator for Management Health Services Administration.*

## National Institutes of Health

## AD HOC TOXICOLOGY COMMITTEE

### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Ad Hoc Toxicology Committee, National Cancer Institute, September 27 and 28, 1973, 9:00 a.m. to 5:00 p.m., National Institutes of Health, Building 31, Conference Room 2. This meeting will be closed to the public to review 3 contract proposals in the field of toxicology, in accordance with the provisions set forth in Section 552(b) 4 of Title 5 U.S. Code and 10(d) of P.L. 92-463.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014, 301-496-1911, will furnish summaries of the closed meeting and roster of committee members.

Dr. J. A. R. Mead, Executive Secretary, Building 37, Room 5A05, National Institutes of Health, Bethesda, Maryland 20014, 301-496-4386, will provide substantive program information.

Dated September 13, 1973.

JOHN F. SHERMAN,
*Deputy Director, National Institutes of Health.*

[FR Doc.73-20323 Filed 9-24-73;8:45 am]

## CANCER CONTROL ADVISORY COMMITTEE

### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Cancer Control Advisory Committee, National Cancer Institute, October 4, 1973, at 9:00 a.m., National Institutes of Health, Building 31, Conference Room 9. This meeting will be open to the public from 9:00 a.m. to 5:00 p.m. for the Committee to discuss and advise the National Cancer Institute on: (1) The development of program plans for cancer control, including the recommendations from the cancer control planning conference; (2) the most effective methods and procedures for the implementation of the recommendations from the planning conference. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014, 301-496-1911, will furnish summaries of the open meeting and a roster of committee members.

Dr. Robert L. Woolridge, Executive Secretary, Building 31, Room 10A19, National Institutes of Health, Bethesda, Maryland 20014, 301-496-1946, will provide substantive program information.

Dated September 14, 1973.

JOHN F. SHERMAN,
*Deputy Director, National Institutes of Health.*

[FR Doc.73-20317 Filed 9-24-73;8:45 am]

### PERIODONTAL DISEASES ADVISORY COMMITTEE

#### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Periodontal Diseases Advisory Committee, National Institute of Dental Research, October 16-17, 1973, National Institutes of Health, Building 31-C, Conference Room 8. This meeting will be open to the public from 2:00 p.m. to 5:00 p.m. on October 16 and from 9:00 a.m. to 5:00 p.m. on October 17 to discuss research progress and research plans for the remainder of FY 1974. Attendance by the public will be limited to space available. The Executive Secretary from whom substantive program information may be obtained is: Dr. Anthony A. Rizzo, Scientist-Administrator, Extramural Programs, National Institute of Dental Research, National Institutes of Health, Westwood Building, Room 521, Bethesda, Maryland 20014.

Dated September 14, 1973.

### NATIONAL ADVISORY COMMISSION ON MULTIPLE SCLEROSIS

#### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Advisory Commission on Multiple Sclerosis on October 3, 1973, at the National Institutes of Health, Building 31A, Room 8A03A. This meeting will be open to the public from 10 a.m. to 4 p.m. and will continue the investigation into the most promising avenues for research leading to causes of and preventives and treatments for multiple sclerosis. Attendance by the public will be limited to space available.

1. The Institute Information Officer who will furnish summaries of the meeting and rosters of committee members is: Mrs. Ruth Dudley, Building 31, Room 8A03, phone: 496-5751.

2. The Executive Director from whom substantive program information may be obtained is: Dr. Harry M. Weaver, Room 8A11, Building 31A, NIH, phone: 496-3523.

Dated September 14, 1973.

### NATIONAL RESEARCH AND DEMONSTRATION CENTERS FOR HEART, BLOOD VESSEL, LUNG AND BLOOD DISEASES AND BLOOD RESOURCES

#### Request for Letters of Intent

The National Heart and Lung Institute announces its intent to establish a limited number of National Research and Demonstration Centers under authority of Part B of Title IV of the Public Health Service Act as amended by the National Heart, Blood Vessel, Lung and Blood Act of 1972 (P.L. 92-423) (42 U.S.C. 287 et seq.)

A National Research and Demonstration Center is defined as a national resource attached to a major medical complex and dedicated to working in close collaboration with the National Heart and Lung Institute to further the goals of the National Heart, Blood Vessel, Lung and Blood Program through a multidisciplined, coordinated, yet flexible, approach to research, education (public and professional) and demonstration of the applicability of the results of research. It is the inclusion of education and demonstrations and the coordination of these programs with the research and training efforts that sets a National Research and Demonstration Center apart from other types of programs.

Centers will be funded by the grant mechanism, but under conditions that will require close coordination with the National Heart and Lung Institute.

Proposals should be submitted on Form NIH-398, the application form for traditional research project grants. The format for presentation of a proposal should be as outlined in the "Program Announcement and Guidelines: National Research and Demonstration Centers for Heart, Blood Vessel, Lung and Blood Diseases and Blood Resources" dated August 20, 1973. Awards will be based on national competition. Only a limited number of awards will be made at the start of the program; additional Centers may be established later.

To describe the program in more detail and to enable potential applicants to ask questions, the National Heart and Lung Institute plans to hold a meeting of representatives of interested institutions on or about October 2, 1973. The Institute asks for letters of intent, which will not be binding, by November 1, 1973 in order to start planning for review of proposals. The deadline for receipt of formal applications is January 15, 1974.

Additional information may be obtained from:

### PULMONARY DISEASE ADVISORY COMMITTEE

#### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the Pulmonary Diseases Advisory Committee, National Heart and Lung Institute, October 8 and 9, 1973, 8:30 a.m., at the Holiday Inn of Bethesda (conference room to be assigned), Bethesda, Maryland. This meeting will be open to the public from 8:30 a.m., October 8, until its adjournment on October 9. The main focus of the meeting will be on reports by subcommittees of the Advisory Committee and discussion of the Pulmonary Specialized Centers of Research Program. Attendance by the public will be limited to space available.

Mr. Hugh Jackson, Information Officer, NHLI, NIH Landow Building, Room C918, phone 496-4236, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from the Executive Secretary, Dr. Malvina Schweizer, NHLI, NIH Building 31, Room 5A10, phone 496-1613.

Dated September 14, 1973.

## ATOMIC ENERGY COMMISSION

### ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON D. C. COOK NUCLEAR PLANT, UNITS 1 & 2

#### Notice of Meeting

SEPTEMBER 21, 1973.

In accordance with the purposes of section 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Subcommittee on the D.C. Cook project will hold a meeting on October 5, 1973, in Room 1046, at 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to continue the Committee's formal Operating License review of the Donald C. Cook Nuclear Plant, Units 1 & 2. This facility is located in Lake Township near Benton Harbor, Michigan.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

*Friday, October 5, 1973, 9:30 a.m.-3:30 p.m.*

The Subcommittee will hear presentations by Regulatory Staff and representatives of Indiana Michigan Electric Co. and their representatives and hold discussions with these groups pertinent to issuance of an Operating License for Donald C. Cook Nuclear Plant, Units 1 & 2.

In connection with the above agenda item, the Subcommittee will hold an executive session beginning at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members present and internal deliberations for the purpose of formulation of recommendations to the ACRS. In addition, prior to the executive session at the end of the day, the Subcommittee may hold a closed session with the Regulatory Staff and Applicant to discuss privileged information relating to plant security and fuel design, if necessary.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive session at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain information relating to plant security and fuel design, which is privileged and falls within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business. With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than October 1, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the Final Safety Analysis Report for this facility and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and the St. Joseph Public Library, 500 Market Street, St. Joseph, Michigan 49085.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statements and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on October 4, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m. e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and within approximately nine days at the St. Joseph Public Library, 500 Market Street, St. Joseph, Michigan 49085. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, on or after December 5, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
*Advisory Committee*
*Management Officer.*

[Docket Nos. 50-413; 50-414]

### DUKE POWER CO. (CATAWBA NUCLEAR STATION, UNITS 1 AND 2)

#### Assignment of Members of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787 (a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for these proceedings:

Alan S. Rosenthal, Chairman
Michael C. Farrar, Member
Dr. Lawrence R. Quarles, Member

Dated September 19, 1973.

MARGARET E. DU FLO,
*Secretary to the Appeal Board.*

[Docket No. 50-346(OL)]

### TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO.

#### Notice and Order for Special Prehearing Conference

Pursuant to notice and order of this Board, dated August 13, 1973, and in accordance with the Commission's rules of practice, notice is hereby given that a special prehearing conference will be held in this proceeding on October 12, 1973, at 10 am, local time, at the Lucas County Courthouse, Court of Appeals (Forth Floor), Adams and Erie Streets, Toledo, Ohio.

All members of the public are invited to attend this special prehearing conference as well as the evidentiary hearing to be scheduled and held at a later date. However, no evidence will be received at this Conference; nor will there be opportunity for presentation of limited appearance statements. Such statements will be received on the initial day of the evidentiary hearing.

This special prehearing conference will be conducted in accordance with § 2.751 (a) of the Commission's rules of practice, and will deal with the following matters:

a. The identification and simplification of the issues.

b. The obtaining of stipulations and admissions of fact.

c. The need for discovery and time required for such discovery, and

V 38 185
SEP 25 73
XUM

d. Such other matters which will aid in the orderly disposition of the case.

It is so ordered.

Issued at Washington, D.C., this 19th day of September 1973.

ATOMIC SAFETY AND LICENSING BOARD,

JOHN B. FARMAKIDES,
*Chairman.*

[Docket No. 70-371]

## UNITED NUCLEAR CORP.

### Notice of Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations, notice is hereby given that a copy of a revised environmental report received May 3, 1973, and revised data received June 11 and July 24, 1973, submitted by United Nuclear Corporation, are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Raymond Hill Library, Raymond Hill Road, Oakdale, Connecticut. The report and revisions are also being made available to the public at the State Clearinghouse, Office of State Planning, Department of Finance and Control, 340 Capitol Avenue, Hartford, Connecticut 06115 and at the Southeastern Connecticut Regional Planning Agency, 139 Boswell Avenue, Norwich, Connecticut 06360.

The report and revisions discuss environmental considerations related to the production and assembly of unirradiated enriched uranium fuel elements and other components for naval reactor cores at United Nuclear Corporation's Naval Products Division Montville Plant located in the town of Montville, New London County, Connecticut.

After the report and revisions have been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement related to the proposed action will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a notice of its availability. The notice will request comments from interested persons on the proposed action and on the draft environmental statement. The notice will also contain a statement to the effect that the comments of Federal agencies and State and local officials and interested persons thereon will be available when received.

Dated at Bethesda, Maryland, this eighteenth day of September, 1973.

For the Atomic Energy Commission.

R. B. CHITWOOD,
*Chief, Technical Support Branch, Directorate of Licensing.*

## CIVIL AERONAUTICS BOARD

[Docket No. 25826; Order No. 73-9-75]

### SEABOARD WORLD AIRLINES, INC.

### Order To Show Cause Regarding Flag-Stop Service at Bangor, Maine

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of September 1973.

By petition filed August 23, 1973, Seaboard World Airlines, Inc. (Seaboard) requests the Board to issue an order to show cause amending its certificates for routes 119 and 119-A [1] to authorize all-cargo flag-stop service at Bangor, Maine. The petition was filed in response to Press Release CAB 73-106, issued June 19, 1973, in which the Board invited, inter alia, U.S.-flag carriers to apply for flag-stop or permissive authority to enplane and deplane cargo at Bangor International Airport.

In support of its petition, Seaboard states that the authorization of flag-stop all-cargo service at Bangor will enable Maine area shippers and consignees to receive their first direct North Atlantic cargo service; that no carrier will be adversely affected by such authorization; and that, since Seaboard regularly serves Bangor International Airport as a technical stop, it will not incur any additional direct expenses in providing flag-stop service at Bangor.

The State of Maine and the Bangor Parties [2] filed answers in support of Seaboard's application. No answers in opposition to the petition have been received.

Upon consideration of the pleadings and all the relevant facts, we have decided to issue an order to show cause which proposes to add Bangor, Maine, as a temporary point on Seaboard's routes 119 and 119-A.[3] The authority to serve Bangor will be limited to all-cargo flag-stop service, for a period of three years. We tentatively find and conclude that the public convenience and necessity require the amendment of Seaboard's certificates as outlined above.[4] The facts and circumstances which we have tentatively found to support our proposed ultimate conclusion appear below.

In the Board's Press Release CAB 73-106, dated June 19, 1973, we invited U.S.-flag and foreign-flag airlines operating between the United States and Europe or the Orient to apply for the right to enplane and deplane cargo at Bangor International Airport in Maine on a "flag-stop" or permissive basis, without passenger traffic rights. We found that the airport is uncongested, offers carriers excellent facilities, and is on or close to the great circle route between much of the United States and Europe. Furthermore, we pointed out that Bangor flag-stop authority could facilitate the handling of international air cargo by alleviating the burden on existing cargo facilities, promoting the export of goods such as seafoods, and helping attract light manufacturing industries to the State of Maine, which is currently suffering relatively high rates of unemployment. Finally, we contemplated that the privileges would be granted on a temporary, experimental basis for a period of three years.

Seaboard is an all-cargo U.S.-flag carrier operating between the United States and Europe, and the carrier already utilizes Bangor International Airport as a technical stop. Thus, we tentatively find that Seaboard is in an excellent position to use Bangor on a flag-stop basis and to provide the benefits accruing from Bangor flag-stop service which we set out in Press Release CAB 73-106. Moreover, we note that the State of Maine and the Bangor Parties support Seaboard's proposal, and no answers in opposition to the applications have been received. Further, we tentatively find that the same reasons which prompted the Board to authorize Seaboard to engage in restricted interstate commerce apply equally to the addition of Bango as a temporary flag-stop point on route 119-A. Thus, under these circumstances and in view of these tentative findings, we tentatively conclude that amendment of Seaboard's certificates to authorize flag-stop all-cargo service at Bangor, Maine, for an experimental period of three years is in the public interest.

Interested persons will be given twenty days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

[1] Route 119 includes the U.S. coterminal points Los Angeles/San Francisco/Chicago/Detroit/Cleveland/Philadelphia/New York/Boston and points throughout Western and Northern Europe. Route 119-A authorizes interstate air transportation of cargo on flights serving Europe between U.S. coterminals, except New York.

[2] The City of Bangor, Maine, and the Greater Bangor Area Chamber of Commerce.

[3] The authority to serve Bangor as a flag-stop on route 119-A would permit Seaboard to collect and disperse cargo to and from Bangor originating at or destined for other U.S. coterminals, provided the flights also serve Europe.

[4] We also tentatively find that Seaboard is fit, willing, and able properly to perform the air transportation authorized by the certificates proposed to be issued herein and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

*Accordingly, It Is Ordered,* That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and amending the certificates of public convenience and necessity of Seaboard World Airlines, Inc. for routes 119 and 119-A so as to add Bangor, Maine, as a temporary point thereto, subject to the condition that the authority to serve Bangor will be limited to all-cargo flag-stop service, for a period of three years;

2. Any interested persons having objection to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 20 days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [5]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon Seaboard World Airlines, Inc.; Delta Air Lines, Inc.; Governor, State of Maine; City Manager of Bangor; the Maine Department of Aeronautics; Flying Tiger Line Inc.; Pan American World Airways, Inc.; Trans World Airlines, Inc.; National Airlines, Inc.; Northwest Airlines, Inc.; American Airlines, Inc.; and the Postmaster General (attention: Assistant General Counsel for Transportation), U.S. Postal Service.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.73-20425 Filed 9-24-73;8:45 am]

[5] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

## CONSUMER PRODUCT SAFETY COMMISSION

### STANDARD FOR THE FLAMMABILITY OF MATTRESSES

### Notice of Approval of Alternate Sampling Plan for Mattresses and Mattress Pads

In the FEDERAL REGISTER of June 7, 1972 (37 FR 11362), the Secretary of Commerce published the Flammability Standard for Mattresses (DOC FF 4-72) pursuant to provisions of the Flammable Fabrics Act.

Effective May 14, 1973, section .30(b) of the Consumer Product Safety Act (Public Law 92-573, 86 Stat. 1231; 15 U.S.C. 2079(b)) transferred all functions under the Flammable Fabrics Act to the Consumer Product Safety Commission.

Subsequently, the Consumer Product Safety Commission amended and reissued the standard (as the Standard for the Flammability of Mattresses (FF 4-72)) in the FEDERAL REGISTER of June 8, 1973 (38 FR 15095), effective June 7, 1973. As a result of a judicially imposed temporary stay, the standard as amended became effective June 22, 1973.

The standard contains a sampling plan for the selection and testing of mattresses and mattress pads. A provision (.4(b)(1)) of the standard allows alternate sampling plans to be used provided they are approved by the Consumer Product Safety Commission. Such plans must provide at least the equivalent level of fire safety to the consumer as that provided by the standard's sampling plan.

The alternate sampling plan for mattresses and mattress pads set forth below was submitted for approval in accordance with .4(b)(1) of the standard. It has been reviewed and determined to offer an equivalent level of fire safety to the consumer and to meet all technical requirements of the standard. It has operating characteristics such that the probability of unit acceptance at any percentage defective does not exceed the corresponding probability of unit acceptance of the basic sampling plan in the region of the operating characteristic curve that lies between 5 and 95 percent acceptance probability. The Commission hereby approves the plan.

Use of this alternate sampling plan, which may be cited as Alternate Sampling Plan No. 6 to FF 4-72, is applicable to mattresses and mattress pads. The plan is not restricted to the party submitting it but may be used by any mattress or mattress pad manufacturer.

Records of the use of this plan shall be maintained by the manufacturer in accordance with regulations established by the Consumer Product Safety Commission (see proposed 16 CFR 302.20 in the FEDERAL REGISTER of June 11, 1973; 38 FR 15373).

All provisions of the Standard for the Flammability of Mattresses (FF 4-72, as amended) are applicable under this alternate sampling plan except as specified below.

Dated September 20, 1973.

SADYE E. DUNN,
*Secretary, Consumer Product Safety Commission.*

ALTERNATE SAMPLING PLAN NUMBER 6 TO FF 4-72 MATTRESSES AND MATTRESS PADS

The following substitutes for .4(b) *Specimen and sampling* of FF 4-72:

.4 *Test procedure.*

* * * * *

(b) *Specimen and sampling.*—(1) *General.*—(i) The test criterion of .3(b) of FF 4-72 shall be used in conjunction with this Alternate Sampling Plan No. 6 (ASP No. 6). This ASP No. 6 may be used in conjunction with ASP No. 4 to FF 4-72 (mattress ticking) if desired. (ASP No. 4 was published in the FEDERAL REGISTER of June 19, 1973; 38 FR 15990). When ASP No. 4 is so used, the provisions of this ASP No. 6 shall apply with respect to production testing of mattresses or mattress pads.

(ii) Differing options or sampling plans may be employed with respect to differing mattress types and/or production units; however, any sampling plan employed with respect to a specific production unit shall be so employed in its entirety. (Note: Throughout this ASP No. 6 (except for (A), (B), and (C) of .4(b)(1)(iii)), "mattress(es)" means "mattress(es) or mattress pad(s).")

(iii) For purposes of this ASP No. 6, "initial production quantity" means a quantity of mattresses equalling or exceeding a specified fraction of the quantity to be contained in the production unit to be accepted upon successful completion of the sampling requirements. Each prototype to be included in the production unit shall be represented in the initial production quantity. For each production unit, one of the following four options shall be selected:

(A) *Option 1.*—The specified fraction shall be one-thirtieth. The quantity limit shall be 800 mattresses or 5,500 mattress pads for normal sampling (.4(b)(2)(i)(B)(*1*)) and 1,700 mattresses or 11,000 mattress pads for reduced sampling (.4(b)(2)(i)(B)(*2*)) unless a smaller limit is imposed under the provisions of .4(b)(2)(i).

(B) *Option 2.*—The specified fraction shall be one-twentieth. The quantity limit shall be 950 mattresses or 6,600 mattress pads for normal sampling and 2,000 mattresses or 13,000 mattress pads for reduced sampling unless a smaller limit is imposed under the provisions of .4(b)(2)(i).

(C) *Option 3.*—The specified fraction shall be one-tenth. The quantity limit shall be 2,000 mattresses for normal sampling and 4,650 mattresses for reduced sampling unless a smaller limit is imposed under the provisions of .4(b)(2)(i). The quantity limit shall be 13,450 mattress pads for normal sampling unless a smaller limit is imposed under the provisions of .4(b)(2)(i). The quantity limit for mattress pads for reduced sampling shall be that imposed under the provisions of .4(b)(2)(i).

(D) *Option 4.*—The specified fraction shall be one-fifth. The quantity limit shall be that imposed under the provisions of .4(b)(2)(i).

(2) *Mattress sampling.*—The basic mattress sampling plan is made up of two parts: Prototype qualification (.4(b)(2)(i)(A)) and production testing (.4(b)(2)(i)(B)). In addition, a batch sampling plan (.4(b)(2)(ii)) is given that may be used for small production quantities, when shipping requirements prohibit the use of the basic plan or for other reasons at the discretion of the manufacturer.

(i) *Basic sampling plan.*—A production unit in the basic sampling plan shall consist of not more than 250 mattresses

V 38 I 185 SEP 25 73 XUM

of a mattress type in normal sampling (.4(b)(2)(i)(B)(1)) nor more than 500 mattresses of a mattress type in reduced sampling (.4(b)(2)(i)(B)(2)) or the quantity produced in 1½ consecutive calendar months, whichever is smaller in either case. This production unit size may be increased to the quantity produced in 1½ consecutive calendar months or less: *Provided*, That it is either documented that each of the materials contributing to the cigarette ignition characteristics of all the mattresses in the production unit and the preceding or the following production unit came from a single manufacturing lot of such material, or 50 consecutive production units (at least 20,000 mattresses) have all been accepted in production testing as set forth in .4(b)(2)(i)(B). In no event shall the production unit size exceed quantity limits imposed by the option selected.

(A) *Protoype qualification.*—(*1*) For prototype qualification, the term "manufacturer" shall mean (*i*) with respect to a company having one manufacturing facility, that company; (*ii*) with respect to a company having two or more manufacturing facilities, either that company or one or more of its manufacturing facilities as it elects; or (*iii*) with respect to a company that is part of a group of companies that have elected to share in a prototype design, either that group of companies or a portion of that group or (*i*) or (*ii*) above, as that company elects.

(*2*) Each "manufacturer" shall select enough of each mattress prototype from preproduction or current production to provide six surfaces for test (three mattresses if both sides can be tested or six mattresses if only one side can be tested). Test each of the six surfaces according to .4(d) *Testing* of FF 4–72. If all the cigarette test locations on all six surfaces satisfy the test criterion of .3(b) of FF 4–72, accept the mattress prototype. If one or more of the cigarette test locations on the six surfaces fail the test criterion of .3(b), reject the mattress prototype.

(*3*) If it has been elected to include more than one company and/or more than one manufacturing facility in the term "manufacturer" for purposes of prototype qualification, each such company and each such manufacturing facility shall select enough additional prototype mattresses from its own preproduction or current production to provide two surfaces for test. Test each of the two surfaces according to .4(d) of FF 4–72. If all the cigarette test locations on both surfaces satisfy the test criterion of .3(b) of FF 4–72, accept the mattress prototype for that company or manufacturing facility. If one or more of the cigarette test locations on the two surfaces fail the test criterion of .3(b), reject the mattress prototype for that company or manufacturing facility.

(*4*) Mattress prototype qualification may be repeated after the manufacturer has taken action to improve the resistance of the mattress prototype to ignition by cigarettes through mattress design, production, or materials selection. When mattress prototype qualification is repeated as a reslit of prototype rejection by the "manufacturer," such qualification shall be conducted as if it were an original qualification. When the mattress prototype qualification is repeated as a result of prototype rejection under the provisions of the proceding (3) or as a result of production unit rejection, such qualification shall be performed as if the producer of the failing mattress were a company having one manufacturing facility.

(5) Each mattress prototype must be accepted in prototype qualification prior to shipping any mattresses to customers and prior to producing significant quantities of mattresses. If the "manufacturer" is one manufacturing facility, the first production unit manufactured immediately after successful prototype qualification or the production unit from which the mattresses were selected for the successful prototype qualification (not to exceed 500 mattresses in either case) may be accepted and shipped to customers without further testing if all mattresses in the production unit are the same as the prototype except for size.

(B) *Production testing.*—For production testing, the term "manufacturer" shall mean each manufacturing facility. Random selection for production testing shall be accomplished by use of random number tables or equivalent means as determined by the Consumer Product Safety Commission. If it is desired to use only mattresses of a specified size (for example, twin) for testing, the drawing may be repeated until sufficient mattresses of that size have been selected. A production unit, except for the first production unit following successful prototype qualification as specified in .4(b)(2)(i)(A), is either accepted or rejected according to the following plan:

(*1*) *Normal sampling.*—(*i*) From the initial production quantity (.4(b)(1)(iii)), randomly select enough mattresses to provide four surfaces for test (two mattresses if both sides can be tested or four mattresses if only one side can be tested). Test each of the four surfaces according to .4(d) of FF 4–72. If all the cigarette test locations on all four surfaces meet the test criterion of .3(b) of FF 4–72, accept the production unit. If one or more of the cigarette test locations on the four surfaces fail the test criterion of .3(b), reject the production unit.

(*ii*) From the initial production quantity (.4(b)(1)(iii)), randomly select enough mattresses to provide four surfaces for test. Test each of the four surfaces according to .4(d) of FF 4–72. If all the cigarette test locations on the four surfaces meet the test criterion of .3(b) of FF 4–72, accept the production unit. If two or more individual cigarette test locations fail the test criterion of .3(b), reject the production unit. If only one individual cigarette test location fails the test criterion of .3(b), accept the production unit.

(*iii*) Production unit rejection shall include all mattresses in the particular production unit under test. Such rejection also results in the loss of prototype qualification (.4(b)(2)(i)(A)) for all prototypes included in the production unit under test.

(*2*) *Reduced sampling.*— (*i*) The level of sampling required for mattress production acceptance may be reduced provided the preceding 15 consecutive production units of mattresses (at least 500 mattresses) have all been accepted using the normal sampling plan of this ASP No. 6 (.4(b)(2)(i)(B)(*1*)) or that of FF 4–72. The production quantity for reduced sampling under this ASP No. 6 shall consist of one production unit as defined in .4(b)(2)(i).

(*ii*) From the initial production quantity (.4(b)(1)(iii)), randomly select enough mattresses to provide four surfaces for test. Test each of the four surfaces according to .4(d) of FF 4–72. If all the cigarette test locations on the four surfaces meet the test criterion of .3(b) of FF 4–72, accept the production unit. If two or more individual cigarette test locations fail the test criterion of .3(b), reject the production unit. If only one individual cigarette test location fails the test criterion of .3(b), accept the production unit.

(*iii*) Production unit rejection shall include all mattresses in the particular production unit under test. Such rejection also results in the loss of prototype qualification (.4(b)(2)(i)(A)) for all prototypes included in the production unit under test.

(ii) *Batch sampling plan.*—For the batch sampling plan, the term "manufacturer" shall mean each manufacturing facility. A production unit in the batch sampling plan shall consist of not more than 250 mattresses or the quantity produced in one period of 30 consecutive calendar days, whichever is smaller.

(A) *Batch unit qualification and acceptance.*—(*1*) Select enough mattresses from the inital production of the production unit to provide four surfaces for test (two mattresses if both sides can be tested or four mattresses if only one side can be tested). Test each of the four surfaces according to .4(d) of FF 4–72. If all the cigarette test locations on the four surfaces meet the test criterion of .3(b) of FF 4–72, accept the production unit. If one or more of the cigarette test locations on the four surfaces fail the test criterion of .3(b), reject the production unit.

(*2*) After rejection, production unit qualification and acceptance under this batch sampling plan may be repeated after the resistance of the mattress to ignition by cigarettes is improved by the manufacturer taking corrective action in mattress design, production, or materials selection.

(*3*) Acceptance of any production unit under this batch sampling plan shall not have any effect on prototype qualification (.4(b)(2)(i)(A)) or production unit acceptance of any other production unit.

(*3*) *Disposition of rejected units.*—Rejected production units shall not be retested, offered for sale, sold, or promoted for use as mattresses as defined in .1(a) of FF 4–72 except after reworking to improve the resistance to ignition by cigarettes and subsequent retesting in accordance with the procedures set forth in the basic sampling plan (.4(b)(2)(i)).

(*4*) *Records.*—Records of all production unit sizes, test results, and the disposition of rejected production units shall be maintained by the manufacturer in accordance with regulations established by the Consumer Product Safety Commission (see proposed 16 CFR 302.20 in the FEDERAL REGISTER of June 11, 1973; 38 FR 15373).

(*5*) *Preparation of mattress samples.*—The mattress surface shall be divided laterally into two sections (see figure 1 of FF 4–72); one section for the bare mattress tests and the other for the two-sheet tests.

(*6*) *Sheet selection.*—The sheets shall be white, 100-percent combed cotton percale, not treated with a chemical finish which imparts a characteristic such as permanent press or flame resistance, and shall have 170–200 threads per square inch and fabric weight of 115±14 grams per square meter (3.4±0.4 ounces per square yard), or shall be of another type approved by the Consumer Product Safety Commission. Size of sheet shall be appropriate for the mattress being tested.

(*7*) *Sheet preparation.*—The sheet shall be laundered once before use (in an automatic home washer using the hot water setting and longest normal cycle with the manufacturer's recommended quantity of a commercial detergent) and dried in an automatic home tumble dryer. The sheet shall be cut across the width into two equal parts after washing.

(*8*) *Cigarettes.*—Unopened packages of cigarettes shall be selected for each series of tests.

(*9*) *Compliance marketing sampling plans.*—(i) Sampling plans for use in market testing of items covered by the standard (FF 4–72) may be issued by the Consumer Product Safety Commission. Such plans shall define noncompliance of a production unit to exist only when it is shown, with a high level of statistical confidence, that those production units represented by tested items which fail such plans will in fact fail the standard.

(ii) Production units found to be noncomplying under these provisions shall be deemed not to conform to the standard (FF 4–72).

(iii) The Consumer Product Safety Commission will propose such plans in the FEDERAL REGISTER for public comment prior to their promulgation.

(*10*) *Postponement of production testing.*—Temporary suspension of production testing may be granted on a case-by-case basis by the Consumer Product Safety Commission in those instances where an individual manufacturer proves, under rules prescribed by the Commission, that he cannot acquire access to either in-house or independent testing facilities for production testing. In the event of such a suspension, the manufacturer would still be obligated to produce a mattress that meets all other requirements of the standard (FF 4–72).

## ENVIRONMENTAL PROTECTION AGENCY

[FIFRA Docket No. 294]

### CALCIUM CYANIDE, STRYCHNINE, SODIUM MONOFLUOROACETATE (1080) AND SODIUM CYANIDE USED IN CERTAIN RODENTICIDES

#### Order Fixing Parties

By notice dated June 19, 1973, and published in the FEDERAL REGISTER on June 26, 1973, 38 FR 16796, the Acting Administrator, Environmental Protection Agency, under authority of section 6(b) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, gave notice of his intention to hold a hearing to determine whether or not the use of the above products as rodenticides in field, human or urban areas, should be canceled or amended. Under said notice any person who wished to become a party to the hearing was required to file by July 26, 1973, a response to the statement of issues which accompanied the notice and which was published therewith.

The undersigned has been designated as the Administrative Law Judge to be in charge of and to preside at these proceedings.

Pursuant to § 164.8 of the rules of practice for the conduct of these hearings (38 FR 19371, July 20, 1973), notice is hereby given that it has been determined that the following persons, firms, associations, and governmental units have filed responses, in accordance with § 164.24 of said rules, to the notice of June 19, 1973. Accordingly, *It is hereby ordered*, That the following are parties to the proceedings:

1. United States Environmental Protection Agency
   Anson M. Keller, Esquire
   Office of General Counsel
   401 M Street SW.
   Washington, D.C. 20460
2. B & G Company
   L. P. Quattrochi
   General Manager
   P.O. Box 20372
   Dallas, Texas 75220
3. Defenders of Wildlife
   Mary Hazell Harris
   Executive Director and Editor
   2000 N Street NW., Suite 201
   Washington, D.C. 20036
4. Environmental Defense Fund
   William A. Butler, Esquire
   1525 18th Street NW.
   Washington, D.C. 20036
5. Fund for Animals, Inc., The
   Lewis Regenstein
   Executive Vice President
   1765 P Street NW.
   Washington, D.C. 20036
6. Humane Society of the United States, The
   Murdaugh S. Madden, Esquire
   General Counsel
   910 17th Street NW.
   Washington, D.C. 20006
7. Izaak Walton League of America, Inc., The
   Maitland S. Sharpe
   Environmental Affairs Director
   1800 North Kent Street, Suite 806
   Arlington, Virginia 22209
8. National Audubon Society
   Cynthia E. Wilson
   Washington Representative
   1511 K Street NW.
   Washington, D.C. 20005
9. National Forest Products Association
   Robert S. Bassman, Esquire
   1619 Massachusetts Avenue NW.
   Washington, D.C. 20036
10. National Parks & Conservation Association
    John W. Grandy, IV, Ph.D.
    Administrative Assistant
    Parks and Wildlife
    1701 18th Street NW.
    Washington, D.C. 20009
11. National Pest Control Association
    Philip J. Spear, Ph.D.
    Senior Director, Research
    C. D. Mampe, Ph.D.
    Director, Technical Services
    250 West Jersey Street
    Elizabeth, New Jersey 07207
12. National Resources Defense Council, Inc.
    Hamilton P. Kean
    15 West 44th Street
    New York, New York 10036
13. Sebesta Bait Mixing Plant
    O. L. Sebesta
    P.O. Box 306
    Mitchell, South Dakota 57301
14. Sierra Club
    William A. Butler, Esquire
    1525 18th Street NW.
    Washington, D.C. 20036
15. United States Department of Agriculture
    Alfred R. Nolting, Esquire
    Raymond W. Fullerton, Esquire
    Office of the General Counsel
    14th & Independence Avenue SW.
    Washington, D.C. 20250
16. United States Department of Defense
    Lt. Col. Harland W. Fowler, Jr.
    Executive Secretary
    Armed Forces Pest Control Board
    Forest Glen Section, WRAMC
    Washington, D.C. 20012
17. Wilderness Society, The
    Stewart M. Brandborg
    Executive Director
    1901 Pennsylvania Avenue NW.
    Washington, D.C. 20006

Certain firms, associations, and governmental units have indicated their desire to become parties but have filed incomplete responses and it has been determined that they are not parties.

Any person, firm, association, or governmental unit not included in the above list of parties may show cause before me, in writing, not later than October 4, 1973, why he or it should not be added as a party to these proceedings. For those who wish to intervene in this hearing attention is called to § 164.31 of the above-mentioned Rules of Practice.

Notice of public hearing will be published in the FEDERAL REGISTER as required by § 164.8 of the Rules of Practice.

Due notice of prehearing conference will be given to all party-participants.

BERNARD D. LEVINSON,
*Administrative Law Judge.*

SEPTEMBER 20, 1973.

V 38 I 185 SEP 25 73 XUM

## MOTOR VEHICLE POLLUTION CONTROL

### California State Standards; Notice of Public Hearing

Whereas, the Clean Air Act, as amended, section 209(a) 42 U.S.C. 1857f-6a(a) 81 Stat. 501 (Public Law 91-604) provides, "No State or any political subdivision thereof shall adopt or attempt to enforce any standard relating to the control of emissions from new motor vehicles or new motor vehicle engines subject to this part, * * * [or] * * * shall require certification, inspection, or any other approval relating to the control of emissions from any new motor vehicle or new motor vehicle engine as condition precedent to the initial retail sale, titling (if any), or registration of such motor vehicle, motor vehicle engine, or equipment";

Whereas, section 209(b) of said Act directs the Administrator of the Environmental Protection Agency, after notice and opportunity for public hearing, to waive application of the prohibitions of said section 209 to any State which had adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles or new motor vehicle engines prior to March 30, 1966, unless he finds that such State does not require standards more stringent than applicable Federal standards to meet compelling and extraordinary conditions or that such State standards and accompanying enforcement procedures are not consistent with section 202(a) of the Clean Air Act;

Whereas, the State of California had, prior to March 30, 1966, adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles or new motor vehicle engines;

Whereas, by letter dated September 29, 1971, California submitted a request for waiver of preemption with respect to model years 1973 through 1976 gasoline powered motor vehicles (including both passenger vehicles and light duty trucks) under 6,001 pounds gross vehicle weight;

Whereas, on April 19, 1972, and by notice published in the FEDERAL REGISTER, on April 25, 1972 (37 FR 8128), after holding a public hearing February 8, 1972, on California's request for waiver and after California withdrew the model year 1976 portion of the request, the Administrator, pursuant to section 209(b), granted the model year 1973 and 1974 portions of the request, but held in abeyance the model year 1975 portion of the request pending development of further information;

Whereas, on April 11, 1973, and by notice published in the FEDERAL REGISTER, on April 26, 1973 (38 FR 10317), the Administrator, pursuant to section 202(b)(5)(D) of the Act, granted the requests of five automobile manufacturers to suspend for one year the effective date of the statutory standards for model year 1975 light duty vehicles (hydrocarbons, 41 grams/mile; carbon monoxide, 3.4 grams/mile; oxides of nitrogen, 3.1 grams/mile) and established interim standards (hydrocarbons, 1.5 grams/mile for the nation, carbon monoxide, 15 grams/mile for the nation other than California, and 9 grams/mile for California; and oxides of nitrogen, 3.1 grams/mile for the nation);

Whereas, on April 11, 1973, the Administrator pursuant to section 209(b) of the Act, also acted on California's request for waiver of preemption with respect to model year 1975 light duty (passenger) motor vehicles and granted such request to California with respect to hydrocarbons (.9 grams/mile), extended to the model year 1975 the previously granted waiver for model year 1974 with respect to oxides of nitrogen (2.0 grams/mile), but denied the request with respect to carbon monoxide (17 grams/mile);

Whereas, as a consequence of the decision rendered in International Harvester v. Ruckelshaus by the U.S. Court of Appeals for the District of Columbia, February 10, 1973 (378 F.2d 615), holding that light duty vehicles and light weight trucks are separate classes, the Administrator has established (38 FR 21362 et seq., August 7, 1973) standards for light duty (weight) trucks (hydrocarbon, 2 grams/mile; carbon monoxide, 20 grams/mile; oxides of nitrogen, 3.1 grams/mile) with the result that the standards adopted by California for light duty trucks are more stringent than applicable Federal standards;

Whereas, by letter dated August 17, 1973, California has renewed its request for waiver of Federal preemption in order to enable California to enforce its standards of .9 grams/mile for hydrocarbons, 17 grams/mile for carbon monoxide, and 1.5 grams/mile for oxides of nitrogen for gasoline-powered light duty trucks;

Therefore, I hereby give notice that (i) California has renewed its request for waiver of the application of the prohibitions of section 209(a) with respect to the above described model year 1975 emission standards for which waiver has not yet been granted, that (ii) information obtained from the February 8, 1972 public hearing on this issue as well as other pertinent information appears to require the granting of California's request, and that (iii) a public hearing on the request is to be held in San Francisco, California, at the Environmental Protection Agency Conference Room, 100 California Street, on Tuesday, October 2, 1973, commencing at 10 a.m., P.s.t.

Although it is EPA policy in most circumstances to give at least thirty days FEDERAL REGISTER notice of hearings, the notice time has been abridged here for the following reasons:

(i) Manufacturers are presently at an advanced planning and design stage for their 1975 model light weight trucks, and it is imperative that administrative procedures be completed and a final California standard set as soon as possible, and

(ii) California sent copies of its letter dated August 12, 1973 renewing its waiver application to all affected manufacturers and actual notice of this hearing was given to all affected motor vehicle manufacturers and to the State of California on or before September 12, 1973.

Dr. Norman D. Shutler of the Environmental Protection Agency is hereby designated as Presiding Officer to conduct the hearing. Any person desiring to make a statement at the hearing or to submit material for the record of the hearing should file a notice of such intention and, if practicable, five copies of his proposed statement (and other revelant material) with the Director, Mobile Source Enforcement Division, Environmental Protection Agency, Room 3220, 401 M Street SW., Washington, D.C. 20460, not later than September 28, 1973.

The pertinent standards, requirements, conditions, and test procedures for gasoline-powered 1975 model year light duty trucks are contained in the following identified publications:

FEDERAL

40 CFR Part 85, Subpart C, Emission Regulations for New Gasoline—Fueled Light Duty Trucks (38 FR 21362, August 7, 1973).

CALIFORNIA

Section 1955, Title 13, California Administrative Code, as amended June 26, 1973, and California Exhaust Emission Standards and Test Procedures for 1975 and Subsequent Model Gasoline-Powered Motor Vehicles 6,000 pounds Gross Vehicle Weight or Less, dated June 21, 1973, and California Assembly Line Test Procedures for 1974 Model Light Duty Gasoline-Powered Vehicles, dated June 20, 1973.

A copy of the above-described material is available for public inspection during normal working hours (8:00 a.m. to 4:30 p.m.) at the Office of Public Affairs, Room 232, Waterside Mall—West Tower, 401 M Street SW., Washington, D.C. 20460. Copies of the Federal regulations will be provided upon request to that office. Copies of the California standards and test procedures are available upon request from the California Air Resources Board, 1025 P Street, Sacramento, California 95814.

*Procedures.* Since the public hearing is designed to give interested persons an opportunity to participate in this proceeding by the presentation of data, views, arguments, or other pertinent information concerning the Administrator's proposed action, there are no adversary parties as such. Statements by the participants will not be made under oath and the participants will not be subject to cross-examination.

Presentations by the participants should be limited to the following considerations with particular attention to (ii):

(i) Whether the standards adopted by California for hydrocarbons, carbon monoxide, and oxides by nitrogen, and related test procedures and enforcement procedures applicable to new model year 1975 light duty trucks are required to meet compelling and extraordinary conditions in California; and

(ii) Whether such standards are consistent with section 202(a) of the Act, in particular with respect to their technological feasibility in the lead time remaining.

In order to assure full opportunity for the presentation of data, views, and arguments by participants, the Presiding Officer will, upon request of the participants, allow a reasonable time after the close of the hearing for the submission of written data, views, arguments or other pertinent information to be included as part of the record of the public hearing.

A verbatim record of the proceeding will be made and a copy of the transcript will be made available on request at the expense of the person so requesting.

The determination of the Administrator regarding the action to be taken under section 209(b) of the Clean Air Act with respect to the waiver of the application of the prohibition of section 209(a) to the State of California is not required to be made solely on the record of the public hearing. Other scientific, engineering, and related pertinent information, not included in the transcript of the public hearing, may also be considered.

Dated September 19, 1973.

ALAN G. KIRK II,
*Acting Assistant Administrator for Enforcement and General Counsel.*

[FR Doc.73-20439 Filed 9-24-73;8:45 am]

## FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19419; FCC 73-924]

### AMERICAN TELEPHONE AND TELEGRAPH COMPANY

### Memorandum Opinion and Order Clarifying Issues

In the matter of American Telephone and Telegraph Company Long Lines Department (A.T. & T.), Revisions of Wide Area Telephone Service (WATS) Tariff F.C.C. No. 259, Private Line Service (PLS) Taaiff F.C.C. No. 260, and The Western Union Telegraph Company (Western Union) revisions of Tariff F.C.C. No. 254.

1. The Commission has before it for consideration an Order of Certification in Docket No. 19419, issued by Administrative Law Judge Denniston on April 12, 1973. (FCC 73M-457). Basically, we are requested to clarify the issues in this proceeding and determine whether the technical necessity for the Automatic Data Access Arrangement (ADAA) is at issue herein. A petition for leave to file Comments and Comments regarding the order of Certification were filed on April 27, 1973, by the American Telephone and Telegraph Company and the Associated Bell System Companies (A.T. & T.). A petition for leave to file Comments and Comments concerning the Order of Certification were also filed on May 11, 1973, by The Independent Data Communications Manufacturers Association Inc. (IDCMA). On June 5, 1973, the National Association of Regulatory Utility Commissioners (NARUC) filed a letter with the Commission commenting on the Order of Certification.

2. By *Memorandum Opinion and Order* released February 7, 1972, 33 FCC 2d 518, we suspended and instituted an investigation into the lawfulness of certain tariff revisions in A.T. & T.'s Wide Area Telephone (WATS) Tariff F.C.C. No. 259 and Private Line Service (PLS) Tariff F.C.C. No. 260. As originally filed, these tariffs included (a) substantial reductions in existing interstate charges for A.T. & T.-provided "Dataphone" data sets that are offered for the modulation and demodulation of data signals; (b) establishment of new interstate charges for an A.T. & T.-provided "automatic data access arrangement" that is required for customers who wish to connect their own data facilities, including modems, to the switched network through private line service; (c) changes in existing interstate tariff regulations to permit more flexible use of A.T. & T.-provided "multi-channel data station equipment" offered to customers who wish to use such channel-deriving equipment in combination with voice-grade data channels obtained from the telephone company; and (d) establishment of new interstate rates for an additional category of "Dataphone" sets suitable for combined sending and receiving and for handling data at higher speeds. Subsequently, modified tariffs were filed by A.T. & T., the hearing held in abeyance, and matching tariffs were filed by The Western Union Telegraph Company. (36 FCC 2d 498). The subsequent filings were designated for hearing and investigation in this proceeding. 39 FCC 2d 637 (1973).

3. By an information request dated March 2, 1973, the Chief of the Common Carrier Bureau (Bureau) directed a series of questions to A.T. & T. relating to the ADAA, which were designated to elicit information to establish the technical necessity for the arrangement in conjunction with the specific rates for equipment designated in the tariffs under investigation. A.T. & T. refused to supply this information on the grounds that the questions went beyond the issues specified by the Commission. The Administrative Law Judge was requested to clarify this question and after hearing arguments on the record took the matter under advisement. Subsequently, the Administrative Law Judge issued the Order of Certification currently under consideration, nonetheless expressing the view that "full exploration of the questions of need and technical performance characteristics of the items in issue, as well as of marketing practices, is required for an adequate determination of whether anti-competitive or monopolistic forces are embodied in these rate schedules."

4. We have considered the record in this matter and the Comments filed by A.T. & T., IDCMA, and NARUC. A.T. & T. basically contends that the issues in this proceeding inquire only into the lawfulness of the rates for the ADAA and that this is a rate investigation. It states that the order instituting this investigation noted IDCMA's allegations with respect to the ADAA, but failed to specify an issue as to the technical need for, and performance of, the ADAA. A.T. & T. states that further orders in this proceeding also did not contain such an issue. Therefore, A.T. & T. concludes that its general regulations requiring protection of the network were not affected by the filing in question and were not designated for investigation in this proceeding. Moreover, A.T. & T. maintains there is no need to consider the need of the ADAA, since this is presently at issue in other Commission proceedings, particularly Docket No. 19528 *In re Interstate and Foreign MTS and WATS* 35 FCC 2d 539 (1972). In Docket No. 19528, the Commission initiated "an inquiry into whether and under what conditions the telephone companies subject to our jurisdiction should provide new or revised classes of interstate and foreign MTS and WATS service whereby customers would have the option of furnishing "Network Control Signalling Units * * * and any needed 'Connecting Arrangements' * * * (or the functional equivalent thereof) that are presently furnished only by the telephone company * * *." (35 FCC 2d at 539) A.T. & T. maintains that to litigate in Docket No. 19419 the lawfulness of the present requirements for the ADAA and possible alternative means for achieving such protection would result in the wholesale fragmentation of, and duplication of, the proceedings in Docket No. 19528, which would be neither appropriate nor conducive to an expeditious resolution of the interconnection issue. A.T. & T. also contends that an investigation of the interconnection issue in Docket No. 19419 would appear to usurp the functions of The Federal-State Joint Board in Docket No. 19528.[1] Similarly, NARUC, in its letter urges the Commission to defer determination on the need and technical performance of connecting arrangements, whether in Docket No. 19419 or other proceedings, until a determination on such issues is made by the Joint Board in Docket No. 19528 or, in the alternative, to consolidate any such proceeding in which the issues are raised in Docket No. 19528. If such issues are considered in a separate proceeding, NARUC requests that determination on such issues be made only upon consultation with the Joint Board. NARUC contends that the integrity of the Joint Board proceeding in Docket No. 19528 requires that issues before it not be prejudiced by prior determination in separate proceedings.

[1] A.T. & T. also requests that we issue the instant order absent advice from the Common Carrier Bureau. We have stated previously our views concerning the Bureau's role herein and adhere to that view now. See, *Memorandum Opinion and Order*, released May 4, 1973. FCC 73-446.

V 38 185 SEP 25 73 XUM

5. IDCMA contends that it is not merely the ratemaking policies of A.T. & T. which are under investigation in this proceeding, but that the rates for these devices must be tested in relationship to each other and must be viewed in light of the technical and marketing restrictions A.T. & T. applies. IDCMA urges that the requirement of the ADAA and the imposition of a charge only on customers not wanting to use A.T. & T. data sets are unreasonably discriminatory, either standing alone or when viewed in light of the alternatives available to reduce the cost. Moreover, IDCMA contends that to the extent A.T. & T. can impose a higher rate for the ADAA, or cause additional costs to the customer, or affect the customers' service, A.T. & T. can aid their own data equipment sales. In summary, IDCMA submits that it is essential to consider the total impact of the ADAA and its rate in relationship to its need in order to understand its anti-competitive impact and lawfulness. In particular, IDCMA urges that the proceeding in Docket No. 19419 affords the Commission an opportunity to consider the need for and the design and performance characteristics for the ADAA in view of the charges for the device and to evaluate the alleged anti-competitive practices within the confines of a definite and precise factual situation, an undertaking which would not interfere with or duplicate Docket No. 19528.

DISCUSSION

6. The specific question before us is whether the issues we have designated for resolution in this proceeding are sufficiently broad to encompass the subissue raised as to the need for and technical performance characteristics of the telephone company-provided ADAA.

7. We framed the issues herein in the broad terms of the relevant statutory provisions, as follows:

(1) Whether the charges, classifications, practices, and regulations published in the aforesaid tariffs are or will be unjust and unreasonable within the meaning of Section 201(b) of the Act;

(2) Whether such charges, classifications, practices, and regulations will, or could be applied to, subject any person or class of persons to unjust or unreasonable discrimination or give any undue or unreasonable preference or prejudice to any person, class of persons, or locality, within the meaning of Section 202(a) of the Act;

(3) Whether the aforesaid tariffs conform to the requirements of Section 203 of the Act and Part 61 (47 CFR Part 61) of our Rules implementing that Section;

(4) If any of such charges, classifications, practices, and regulations are found to be unlawful, whether the Commission should prescribe charges, classifications, practices, and regulations for the service governed by the tariffs, and if so, what should be prescribed. 33 FCC 2d 518 (1972)

Under these issues, any competent and material evidence is admissible that is relevant to whether and to what extent the ADAA charges and the regulations, classification and practices to the carriers with respect thereto are just, reasonable, and free of undue discrimination. For reasons to be stated, we believe that the questions relating to the need for the ADAA and its performance characteristics are matters that are clearly relevant to the issues herein.

8. Under the applicable tariff provisions, whenever a customer wishes to provide his own modem (modulating/demodulating unit) to condition data signals for transmission and reception over a carrier's voice-grade private line, the customer must have his modem connected to the telephone network through a "connecting arrangement" (CA) provided only by the telephone company. The ADAA is one of several CA's that are provided by the carrier for such purpose. A.T. & T. claims that all carrier-provided CA's, including the ADAA, contain certain protective features that prevent harm to the carrier's network and services that could or would be caused if noncarrier modems are connected directly to the network without such CA's. Thus, customers desiring to obtain modems from an independent, competitive supplier that are functionally the same as the carrier's modems must pay the telephone company for such CA's. The ADAA, for example, costs the customer $15.00 to $20.00 for installation and $3.50–$4.75 a month rental. However, if the subscriber obtains a modem from the telephone company, he does not have to obtain or pay for any CA even if the carrier-provided modem is of the same make, characteristics and quality as that provided by a noncarrier source.

9. Clearly, the tariff requirement is anti-competitive in effect insofar as it provides that only those customers who do not use carrier-provided modems must use and pay for carrier-provided CA's, including the ADAA. This is because a customer obtaining modems from a competitor of the carrier, must pay not only the purchase price for such modems but he must also pay the installation and rental charges for the ADAA. Such tariff would appear to be unjust, unreasonable and unduly discriminatory *unless* the requirements thereof which have these anti-competitive effects can be justified by an over-riding public interest. *Comu-trol Corp.* v. *GTE* 97 PUR 113 (1973) (Calif.). Moreover, even if the carrier were to make no anti-competitive charges for the ADAA when used with customer-provided modems, if the ADAA operates to degrade such interconnected service in contrast to the service furnished through a carrier-provided modem, this too would be anti-competitive in effect. Accordingly, in order to determine whether there is any over-riding public interest consideration that would warrant the anti-competitive charges for the ADAA, it is pertinent to determine to what extent the ADAA is reasonably necessary to perform the function of protecting carrier facilities from the type of harm that we would consider to be contrary to the public interest. We are concerned particularly with the three types of harm that the National Academy of Sciences has advised us can degrade the service to the public generally, i.e. (a) excessive voltages or signal levels (b) improper network signalling and (c) line imbalance. If it is shown by the evidence herein that the ADAA is needed for such purposes, there would remain the question of whether and to what extent the ADAA may be over-designed or over-built in relation to such needs and thus whether the charges therefor are unnecessarily high. In addition, it is important to determine, apart from justification for the anti-competitive charges for the ADAA, whether and to what extent the ADAA may cause any degradation of service to the subscriber that is not present when carrier-modems are used. If such degradation may reasonably be expected to occur, it will become necessary to determine whether there is any over-riding public interest to warrant any such degradation. All of these questions are pertinent to the lawfulness of the tariffs in issue herein and should be considered in this evidentiary proceeding.

10. As is characteristic of common carrier proceedings, there are areas of overlap among the questions under consideration in most, if not all of the various cases now pending before us. This is true to a certain extent with respect to the proceedings in this case and the Joint Board proceedings in Docket 19528. However, as we recently stated, the Joint Board proceedings are not concerned with the question of lawfulness of any existing interstate tariffs. It is rather an inquiry and rule-making proceeding which seeks to determine what additional options, if any, shall be given to the customer whereby the customer may provide CA's and network control signalling units that are currently provided only by the carrier. We are not concerned in this case with the possibility of such options but only with questions of lawfulness of tariffs requiring a specific type of CA. The Joint Board will not be concerned with determining whether the ADAA equipment and the charges therefor are lawful or what the lawful charges, if any, should be for the ADAA. In setting up the Joint Board, we specifically stated that we were concerned in such joint proceedings with whether and under what terms and conditions customers should be given the option of providing any *needed* CA in lieu of carrier-provided CA's. 35 FCC 2d 539; page 542 (1972). Thus, in the instant case we must determine whether there is a need for the ADAA and if we find on the basis of the evidence herein, that ADAA's serve a need in the public interest, and we approve or prescribe appropriate charges therefor for interestate private line service, then the Joint Board will be concerned with whether and under what terms customers should be allowed to provide such ADAA's or the functional equivalent thereof, from sources of supply other than the carrier. If we should find that there is no overriding public interest warranting the use of the ADAA, this would moot any question before the Joint Board as to any options for customers to provide such unneeded device.

11. Our treatment of the question before us is consistent with recent actions by A.T. & T. revising the interstate tariffs with respect to certain other carrier-provided CA's. Thus, A.T. & T. has recently changed its interstate tariffs generally to eliminate the requirement for carrier-provided CA's for customer-provided headsets and nonpowered conferencing devices. Neither we nor A.T. & T. considered this action by A.T. & T. of making its carrier-provided CA's unneeded for such usages as impinging upon the Joint Board issues in Docket 19528; such action merely made it unnecessary for the Joint Board to consider whether customers using such headsets and conferencing devices should have the option of providing CA's or the functional equivalent thereof for such customer devices. For the same reasons, our determination herein of the ADAA questions discussed above will not, in our judgment, affect the Joint Board's deliberations in Docket 19528.

12. We should make it clear that we agree with NARUC that no decision should be made in this, or in any other case pending before us concerning the lawfulness of interstate tariffs, that would infringe in any way upon the determinations of the Joint Board with regard to the issues before it. Accordingly, the Presiding Judge should not admit evidence in this case that may be offered for the purpose of showing that customers should be allowed the option of providing any needed ADAA or any other CA or the functional equivalent thereof. These are matters that are in issue in Docket 19528 and we agree that they should be left for determination by the Joint Board. We recognize that there may be technical evidence adduced on the record herein with respect to the types of network harm that the ADAA is designed to prevent that may be of interest to the Joint Board and which it may wish to give some consideration to in resolving the questions before it. To the extent that this occurs, we will, of course, make such evidence available to the Board for its use in the proceedings in Docket 19528. Furthermore, in view of the aforementioned mutual objectives of NARUC and the Commission, we would welcome the participation by NARUC as a party in this proceeding.

13. In view of the foregoing, we agree with the conclusions of the Presiding Judge that, in order to determine whether the ADAA tariff provisions are just, reasonable and nondiscriminatory within the meaning of sections 201(b) and 202(a) of the Act, it is necessary to investigate herein the questions raised concerning the need for and technical performance of, the ADAA, including the marketing practices of the carriers with respect thereto. In this latter connection, we the deleting the footnote from our initial hearing order herein, 33 FCC 2d, at page 520, which excluded, at that time, consideration of marketing practices relating to carrier-provided modems, namely the 201A and 201B data sets. We believe that the marketing practices of the carriers with respect to all of these carrier-provided devices are pertinent to the anti-competitive issues in this case.

14. *It is ordered*, That the issues herein are clarified and defined as set forth above and that the Presiding Judge shall proceed accordingly.

Adopted September 6, 1973.

Released September 13, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[1]

*Acting Secretary.*

[FR Doc.73-20377 Filed 9-24-73;8:45 am]

[Docket Nos. 19820–19822; File Nos. BRED–49, BRED–109, 1–359; FCC 73–940]

## BOARD OF EDUCATION, UNION SCHOOL DISTRICT #46 AND COLLEGE OF DUPAGE, DISTRICT 502

### Order Designating Applications for Consolidated Hearing

In re applications of Board of Education, Union School District #46 Noncommercial educational FM station WEPS, Elgin, Illinois, for renewal of license; College of Dupage, District 502, Glen Ellyn, Illinois, requests 90.9 MHz., #215; 5 kW (H&V), 293 feet; Board of Education, Union School District #46, Noncommercial educational FM station WEPS, Elgin, Illinois has 90.9 MHz, #215; 364 watts; 24 feet and requests 90.9 MHz, #215; 4.7 kW; 100 feet for construction permits.

1. The Commission has before it (a) the captioned applications which are mutually exclusive and thus must be designated for comparative hearing; and (b) a "Petition To Add A New Educational FM Station" filed by the College of DuPage (DuPage) on September 4, 1970.

2. In its petition, DuPage stated that it had determined that there were no vacant noncommercial educational FM broadcast channels available for its use. However, its study revealed that if the edauctional station operated by the Board of Education, Union School District #46 (School District), were to shift the frequency on which it operates from channel 215 (90.9 MHz) to channel 205 (88.9 MHz), then DuPage could operate on channel 215 (90.9 MHz). It also asserted that it was willing to reimburse the School District for any reasonable expenses it might incur in changing frequency. Nevertheless, despite attempts on the part of DuPage to negotiate this change in the frequency utilized by the School District, the School District was unwilling to make the switch. Therefore, DuPage requested us to issue an order against the School District's application for renewal of its license to show cause why it should not have its license modified to specify operation on channel 205 (88.9 MHz). In addition, DuPage filed an application against the School District's renewal application, within the period prescribed by our rules, which requested authority to utilize channel 215, the frequency on which the School District is currently licensed to operate. Subsequently, on December 30, 1971, the School District submitted an application to increase its effective radiated power and antenna height. If the School District's application for increased facilities were granted, the School District could not operate on channel 205 (88.9 MHz), the frequency to which DuPage requested it to move, without causing prohibited interference to the 1 mV/m contour of station WONC, Naperville, Illinois. However, if the School District were to maintain its present effective radiated power and antenna height, it could operate on channel 205 (88.9 MHz) and no prohibited interference would result.

3. Accordingly, if the Administrative Law Judge finds DuPage basically qualified to be a broadcast licensee, evidence must be adduced to determine whether the public interest, convenience and necessity would best be served by granting the School District's application for renewal of its license with a modification specifying operation on channel 205 (88.9 MHz), denying its application for increased facilities, and granting DuPage's application; or whether a share-time arrangement between the applicants would result in the most efficient use of channel 215 (90.9 MHz) and thus best serve the public interest, convenience and necessity (see paragraph 4); or whether a choice between the applicants should be made pursuant to section 307(b) of the Communications Act of 1934, as amended (see paragraph 5).

4. Although DuPage has attempted to negotiate a share-time arrangement with the School District on channel 215 (90.9 MHz), the School District has not been amenable to such an agreement. Therefore, an issue will be specified to determine whether a share-time arrangement between the applicants would be the most effective use of the frequency and thus best serve the public interest. In the event that this issue is resolved in the affirmative, an issue will also be specified to determine the nature of such an arrangement. It should be noted that our action specifying a "share-time issue" is not intended to preclude the applicants, either before the commencement of the hearing or at any time during the course of the hearing, from participating in negotiations with a view toward establishing a share-time agreement between themselves.

5. It appears that there will be a significant disparity in the areas and populations served by the applicants. Consequently, we shall include issues to determine whether a choice between the two applicants should be made pursuant to section 307(b) of the Communications Act of 1934, as amended, and if so, which of the proposals would better provide a fair, efficient and equitable distribution of radio service. Inasmuch as this proceeding involves competing applicants for noncommercial educational facilities, the standard 307(b) issue shall be modified in accordance with our prior action

[1] Commissioner Reid dissenting.

V38I185 SEP 25 73 XUM

in *New York University*, 10 RR 2d 215 (1967). Such a determination requires that we consider the areas and populations to be served by the applicants, as well as the number of other aural educational services available in the proposed service area of both applicants.

6. DuPage's application indicates that it will require $82,369 to construct and operate its proposed station for one year, itemized as follows: equipment costs, $50,869; building expenses, $3,000; miscellaneous expenses, $1,500; and first-year operating expenses, $27,000. To meet these expenses, the applicant initially relied on its "existing operating budget," but its application was unclear as to whether funds had been earmarked for its FM station or whether funds could be obtained from a particular budget account. Accordingly, by staff letter of December 15, 1972, DuPage was requested to submit a current budget showing the availability of funds for its proposed FM station, together with a statement from an appropriate member of the Board of Education asserting that funds had been earmarked for the proposed radio station. Subsequently, DuPage submitted another budget and statement indicating that it might be able to obtain funds for its FM station from the U.S. Office of Education and the Illinois Junior College Board. DuPage did not explain, however, whether it had earmarked the necessary funds, nor did it specify any particular account in its budget from which these funds could be derived. In addition, DuPage does not appear to have allocated sufficient funds to cover its costs in the imminent comparative hearing. Accordingly, appropriate financial issues will be specified.

7. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding.

8. *Accordingly, it is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are Designated for Hearing in a Consolidated Proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, with respect to the application of the College of DuPage, District 502 (College of DuPage):

(a) The applicant's estimated expenses for the comparative hearing;

(b) In light of the foregoing issue, whether the applicant has accurately estimated its total costs for procuring its construction permit, building its station, and operating it for one year;

(c) Whether sufficient funds will be available to meet the applicant's total estimated costs; and

(d) Whether, in light of the evidence adduced pursuant to the foregoing issues, the applicant is financially qualified.

2. To determine whether the public interest, convenience and necessity would best be served by renewing the license of the Board of Education, Union School District #46 (School District), with a modification specifying operation on channel 205 (88.9 MHz), denying the School District's application for increased facilities, and granting the College of DuPage's application.

3. To determine whether a share-time arrangement between the applicants would result in the most effective use of channel 215 (90.9 MHz) and thus best serve the public interest, convenience and necessity.

4. If issue 3 is decided in the affirmative, to determine the terms of a share-time agreement.

5. To determine whether a choice between the two applicants should be made pursuant to section 307(b) of the Communications Act of 1934, as amended, to ascertain which of the applicants would better provide a fair, efficient, and equitable distribution of radio service. Evidence shall be adduced under this alternative, as follows:

(a) To determine the areas and populations which would receive FM service of 1 mV/m or greater intensity from the respective proposals;

(b) To determine the number of other aural educational services available (primary for AM, 1 mV/m or better for FM) in the proposed service area of both applicants, and the areas and populations served thereby;

(c) To determine the extent to which each of the proposed operations will be integrated into the overall educational operation and objectives of the respective applicants; or whether other factors in the record demonstrate that one applicant will provide a superior educational FM broadcast service; and

(d) To determine, in light of the evidence adduced pursuant to the foregoing issues 5(a) through 5(c), which of the proposals would better serve the public interest, and therefore, which application should be granted.

9. *It is further ordered*, That the burden of proceeding with the introduction of evidence and the burden of proof with respect to the foregoing issues (1) and (2) shall be upon the College of DuPage, District 502.

10. *It is further ordered*, That the applicants shall file a written appearance stating an intention to appear and present evidence on the specified issues within the time and in the manner specified by § 1.221(c) of the rules.

11. *It is further ordered*, That the applicants shall give notice of the hearing within the time and in the manner specified in § 1.594 of the rules, and shall seasonably file the statement required by § 1.594(g).

Adopted September 11, 1973.

Released September 18, 1973.

[FCC 73-904]

## BOSTON BROADCASTERS, INC.

### Declaratory Ruling Re "Significant Viewing"

1. Boston Broadcasters, Inc., is the permittee of Station WCVB–TV, Channel 5, Boston, Massachusetts. Until March 19, 1972, Station WHDH–TV operated on Channel 5 in Boston. Thereafter, WCVB–TV commenced operation with technical facilities substantially the same as those previously licensed to WHDH–TV. Boston Broadcasters, Inc., requests a ruling that it is to be considered significantly viewed for purposes of cable television system carriage in those counties where WHDH–TV would have been significantly viewed pursuant to § 76.54(a) of the rules.[1] Issuance of the following declaratory ruling is requested:

"Significant viewing" attributed to a particular station in Appendix B to the February 2, 1972 Report and Order in Docket No. 18397 shall be attributed to any subsequently authorized station utilizing the same channel in the same city, and operating with substantially the same technical facilities as the listed station.

2. In support of the requested ruling, it is urged that WCVB–TV's position is not materially different from that of an existing station that made an insignificant change in its technical facilities or that of an existing television station that acquired its authorization by assignment after Appendix B to the *Cable Television Report and Order*[2] was adopted.

3. We agree with Boston Broadcasters, Inc.'s interpretation of the rules and that such a ruling is in conformity with the objectives and policy enunciated in the *Cable Television Report and Order*, paragraphs 85–86, and in the rule itself. We will, therefore, grant the requested ruling and adopt the language as proposed by Boston Broadcasters, Inc. (paragraph 1, above).[3]

Adopted September 6, 1973.

Released September 13, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[4]
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

[FR Doc.73-20376 Filed 9-24-73;8:45 am]

[1] Section 76.54(a) states:

"(a) Signals that are significantly viewed in a county (and thus are deemed to be significantly viewed within all communities within the county) are those that are listed in Appendix B of the *Memorandum Opinion and Order on Reconsideration of the Cable Television Report and Order* (Docket 18397 et al.), FCC 72-530."

Stations are entitled to request carriage on cable television systems in those areas where they are found to be significantly viewed.

[2] 36 FCC 2d 141 (1972). Appendix B was modified in some respects not here relevant on reconsideration of the *Cable Television Report and Order*, 36 FCC 2d 326 (1972).

[3] Subsequent to the filing of this declaratory ruling petition, the same issue was put in question in connection with several certificate of compliance applications. In connection with CAC's 1133–1137 for Norwich, Lisbon, Franklin, Sprague, and Bozrah, Connecticut; Boston Broadcasters incorporated by reference its petition and urged that the requested certificate not be granted until its carriage rights had been resolved. Cable Video, Inc., the applicant in these communities had not proposed carriage of WCVB–TV. In CAC–656, International Telemeter of New Bedford, New Bedford, Massachusetts, proposed carriage of WCVB–TV as a significantly viewed signal. The request was opposed by WGAL Television, licensee of Television Station WTEV, New Bedford, which argued as follows: "ITNB is incorrect in asserting * * * that WHDH–TV is 'now WCVB–TV.' WCVB–TV is not operating under any sort of continuation of WHDH–TV's license, and there was no mere change of call signs. WCVB–TV is a totally new station, with a network affiliation different from that of WHDH–TV and with its own new non-network programming. WCVB–TV cannot, therefore, be carried on a New Bedford CATV system (footnote omitted)." We have reviewed the arguments raised in these certificate of compliance proceedings but are not persuaded that the WCVB–TV's position is incorrect. We see no reason why changes in a station's ownership should change the availability of the station's signal for cable television carriage purposes, so long as the technical facilities involved remain substantially the same.

[4] Commissioner Robert E. Lee absent; Commissioner Reid concurring in the result.

[Docket No. 19684]

## ITT WORLD COMMUNICATIONS INC.

### Order Extending Time

In the Matter of ITT World Communications Inc. petition under section 201(a) of the Communications Act of 1934 for connection with RCA Global Communications, Inc., to enable ITT World Communications Inc., to provide telex and message telegraph services to Guam.

1. By telex dated September 11, 1973, Western Union International, Inc. (WUI), requests a two-week extension of time within which written briefs on the application of the International Formula to Guam may be filed in this proceeding.

2. WUI represents that the requested extension is necessary because of WUI's current staffing problem and the absence of supervisory counsel from the office. WUI also represents that it has informed RCA Global Communications, Inc. and ITT World Communications Inc. of the subject request and no objections have been raised.

3. We find that good cause has been shown for the requested extension of time.

Accordingly, *It Is Ordered*, Pursuant to § 0.303(c) of the Commission's rules pertaining to delegations of authority that the request of WUI is granted; and

(A) the time in which to file written briefs pursuant to the Commission's Memorandum Opinion and Order released July 31, 1973, and the Commission's order released August 14, 1973, extending the time for filing until September 15, 1973 [38 FR 22431] is extended until October 1, 1973; and

(B) the time in which to file reply briefs is extended until five days thereafter.

Adopted September 14, 1973.

Released September 17, 1973.

## COST OF LIVING COUNCIL

### FOOD INDUSTRY WAGE AND SALARY COMMITTEE

### Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of sec. 212(f)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10 A.M., Thursday, September 27, 1973, at 2025 M Street, NW., Washington, D.C.

The agenda will consist of discussions leading to recommendations on specific Phase II and Phase III wage cases in the food area, and future wage policy.

Since the above stated meeting will consist of discussions of future food wage policy and Phase II and III cases for decision, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C., on September 24, 1973.

HENRY H. PERRITT, Jr.,
*Executive Secretary, Cost of Living Council.*

[FR Doc.73-20608 Filed 9-24-73;12:11 pm]

### LABOR-MANAGEMENT ADVISORY COMMITTEE

### Determination To Close Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that a meeting of the Labor-Management Advisory Committee created by Section 8 of Executive Order 11695 will be held on October 2, 1973, in the Secretary's Conference Room, Main Treasury Building, Washington, D.C., from 10 a.m. to 12:30 p.m.

The purpose of the meeting is to discuss policy matters relating to the future of the Stabilization Program and to industrial relations will be considered.

Pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting of the Labor-Management Advisory Committee will consist of exchanges of opinions, that the discussions, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on September 24, 1973.

HENRY H. PERRITT, Jr.,
*Executive Secretary, Cost of Living Council.*

## FEDERAL POWER COMMISSION

[Docket Nos. RI74-35, *et al.*]

### AMOCO PRODUCTION COMPANY, ET AL.

### Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

SEPTEMBER 14, 1973.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

*The Commission finds*

It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

*The Commission orders*

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supple-

[1] Does not consolidate for hearing or dispose of the several matters herein.

V 38 185 SEP 25 73 XUM

ments shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX "A"

| Docket No. | Respondent | Rate schedule No. | Supplement No. | Purchaser and producing area | Amount of annual increase | Date filing tendered | Effective date unless suspended | Date suspended until— | Cents per Mcf* | | Rate in effect subject to refund in dockets Nos. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | Rate in effect | Proposed increased rate | |
| RI74-35... | Amoco Production Co..... | 594 | 1 | El Paso Natural Gas Co. (Basin Dakota Field, San Juan and Rio Arriba Counties, N. Mex., San Juan Basin). | $13,200 | 8-17-73 | | 2-17-74 | ¹ 26.4 | ¹ 30.5 | |
| RI74-36... | Atlantic Richfield Co..... | 606 | 1 | El Paso Natural Gas Company (Ignacio Blanco Field, La Plata County, Colo., San Juan Basin). | 2,960 | 8-20-73 | | 2-20-74 | ¹ 24.0 | ¹ 28.0 | |

* Unless otherwise stated, the pressure base is 15.025 psia.
¹ Includes upward Btu adjustment for 1,100 Btu from a base of 1,000 Btu per cubic foot.
² Subject to Btu adjustment from a base of 1,000 Btu per cubic foot.

The proposed rate increases are suspended for five months since they exceed the applicable ceiling rate established in Order No. 435.

[FR Doc.73-20262 Filed 9-24-73;8:45 am]

[Docket No. CP74-14]

## EL PASO NATURAL GAS CO.

### Notice of Amendment to Application

SEPTEMBER 19, 1973.

Take notice that on August 20, 1973, El Paso Natural Gas Co. (El Paso), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP74-14 an amendment to its application filed in said docket pursuant to section 7(b) of the Natural Gas Act by documenting certain additional information and data respecting the abandonment authorization sought therein through divestiture to Northeast Pipeline Corporation (Northwest) and by requesting pursuant to section 7(c) of the Natural Gas Act a certificate of public convenience and necessity authorizing certain gathering and exchange arrangements to implement said divestiture, all as more fully set forth in the application, as amended, which is on file with the Commission and open to public inspection.

El Paso filed its initial application in this proceeding for authorization to abandon certain facilities as a result of the mandate of the United States Supreme Court in *United States* v. *El Paso Natural Gas Co., et al.*, 376 U.S. 651 (1964), as implemented by the Orders and Opinion of the United States District Court for the District of Colorado (District Court) entered on June 16, 1972, in *United States* v. *El Paso Natural Gas Co.*, Civil Action No. C-2626, aff'd *sub nom. California-Pacific Utilities Co., et al.* v. *United States*, U.S. ---- (1973), requiring divestiture by El Paso to Northwest of the facilities and properties acquired by Applicant in 1959 from Pacific Northwest Pipeline Corporation (Pacific Northwest) together with additional properties and facilities.

El Paso states that at the time it made its initial filing in the subject docket, it was in the process of negotiating an agreement with the APCO group pertaining to the price to be paid for twenty percent of Northwest's common stock and other matters related to implementation of the divestiture. El Paso further states that it has now reached such an agreement and that it and Northwest have filed Implementing Documents with the District Court, as required by the court's order of July 25, 1973. El Paso requests that these Implementing Documents be made part of its application in the subject proceeding by incorporation by reference to Northwest's Exhibit Z-4 in the application pending in Docket No. CP73-331.

El Paso also requests certificate authorization pursuant to one of the Implementing Documents, a San Juan Gathering Agreement, for the mutual gathering and exchange of natural gas in the San Juan Basin after divesture in order to utilize existing facilities and to avoid duplication of facilities. Said agreement provides that if the quantities of gas gathered by each party for the other party are not equal, deliveries of balancing gas possessing equivalent heating value shall be made to the deficient party on a reasonably concurrent basis. The party receiving balancing deliveries is required to pay the other party 6.61 cents per Mcf for all gas so received. El Paso states that two existing interconnecting points in Rio Arriba County, New Mexico, and La Plata County, Colorado, and related measuring and regulating stations thereat will be utilized to effectuate such exchange.

Any person desiring to be heard or to make any protest with reference to said amendment to application should on or before October 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed petitions to intervene in this proceeding need not file again.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20410 Filed 9-24-73;8:45 am]

[Project No. 401]

## MICHIGAN POWER CO.

### Notice of Issuance of Annual License

SEPTEMBER 18, 1973.

On December 30, 1970, and supplemented February 1, 1971, February 23, 1973, and August 15, 1973, Michigan Power Co., Licensee for Mottville Project No. 401, located on the St. Joseph River in St. Joseph County, Michigan, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6).

The license for Mottville Project No. 401 was issued effective September 19, 1923, for a period ending September 18, 1973. In order to authorize the continued operation of the project pursuant to Section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Michigan Power Co. for continued operation and maintenance of Project No. 401.

Take notice that an annual license is issued to Michigan Power Co. (Licensee) under section 15 of the Federal Power Act for the period September 19, 1973, to September 18, 1974, or until Federal takeover, or the issuance of a new license

for the Project, whichever comes first, for the continued operation and maintenance of the Mottville Project No. 401 subject to the terms and conditions of its license.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20407 Filed 9-24-73;8:45 am]

[Docket No. RP72-149]

## MISSISSIPPI RIVER TRANSMISSION CORP.

### Notice of Proposed Changes in Rates and Charges

SEPTEMBER 18, 1973.

Take notice that Mississippi River Transmission Corporation (Mississippi) on August 20, 1973, tendered for filing Substitute Twelfth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1 to become effective October 1, 1973.

The instant filing was made pursuant to the purchased gas cost adjustment provisions of Mississippi's tariff to recct: (1) Rate changes applicable to Mississippi by Natural Gas Pipeline Company of America (Natural), pursuant to the provisions of Natural's Amended Stipulation and Agreement at Docket No. RP72-132, approved by the Commission by order issued July 18, 1973; (2) a rate change applicable to Mississippi by Trunkline Gas Company, effective August 1, 1973; and (3) a change in the Deferred Cost Adjustment pursuant to Mississippi's tariff effective October 1, 1973.

Mississippi states that on June 22, 1973, it submitted for filing Twelfth Revised Sheet No. 3A to its FPC Gas Tariff but that the Commission rejected the filing without prejudice to its refiling with certain changes.

Copies of the filing were served on Mississippi's jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). However, parties previously permitted to intervene need not file such a petition. All such petitions or protests should be filed on or before September 25, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-8391]

## MT. CARMEL PUBLIC UTILITY CO.

### Notice of Changes In Wholesale Rate

SEPTEMBER 18, 1973.

Take notice that on August 28, 1973, Mt. Carmel Public Utility Co. (Mt. Carmel) tendered for filing changes in its wholesale rate for Resale Schedule (FPC No. 1) and a new fuel adjustment clause rider.

Mt. Carmel states that the revised rates are proposed to go into effect October 1, 1973. According to Mt. Carmel, the purpose of the change in the rate is to remove an ambiguity in language that had resulted in exempting the Village of Allendale, Allendale, Illinois (Allendale) from fuel adjustment charges.

Mt. Carmel further states that the purpose of the revised fuel adjustment charge is to reduce the amount by factoring in the lower unit cost of purchased energy that prevails since Mt. Carmel has converted from coal-firing to oil-firing. Mt. Carmel also states that the total revenue from Allendale is less than $30,000 annually and that this filing will result in a change of $8,936 annually.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 8, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Dockets Nos. CI72-233, CP73-15; CI72-677, CI73-231]

## NATURAL GAS PIPELINE COMPANY OF AMERICA AND TEXACO INC.

### Order Permitting Deferral of Hearing

SEPTEMBER 12, 1973.

On August 8, 1973, Michel Levant, the Presiding Administrative Law Judge in the above-entitled proceedings, certified to the Commission a request by the parties for deferral of hearing and a record of a prehearing conference held on August 7, 1973. On July 13, 1973, we ordered that a prehearing conference be held on August 7 in these proceedings to narrow the issues and to find which issues may usefully be considered in a hearing while deferring the policy questions with respect to the transportation of gas until a determination is made in *Tennessee Gas Pipeline Co.*, Docket No. CP72-6, *et al.* At the prehearing conference counsel for Texaco, Natural Gas Pipeline, Northern Illinois Gas Co., the New York Public Service Commission, Associated Gas Distributors and the Staff representing all parties appearing agreed that no useful purpose would be accomplished by proceeding with the hearing and the Judge so ruled. We note that there was also a discussion on the record of the possibility of a settlement.

Texaco and Natural made an oral motion on the record that the Commission defer the hearing, pending the determination in the *Tennessee* case. Staff counsel asked that they should bear the responsibility for filing an appropriate motion with the Commission asking that the case be reactivated at such time as they desire to go forward. We agree that Texaco, Natural, or any other party can file such a motion.

*The Commission orders*

The hearing in the above-entitled proceedings is deferred pending determination in *Tennessee, supra*, and may be reconvened upon appropriate motion or upon the Commission's initiative.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20411 Filed 9-24-73;8:45 am]

[Docket No. RP71-119]

## PANHANDLE EASTERN PIPELINE CO.

### Notice of Motion for Extraordinary Relief

SEPTEMBER 18, 1973.

On September 7, 1973, DeKalb AgResearch Inc. (DeKalb) filed a petition for extraordinary relief with the Commission pursuant to § 1.7 of the Commission's rules of practice and procedure requesting that its Crawfordsville, Indiana seed-drying plant be exempted from the provisions of Panhandle Easter Pipeline Company's (Panhandle) presently effective curtailment plan and/or any other curtailment plans of that company that may subsequently become effective.

DeKalb, in its petition, alleges that it purchases natural gas on an interruptible basis from Indiana Gas Company Inc. (Indiana Gas), which in turn is supplied by Panhandle. This gas is used by DeKalb's Crawfordsville Plant for corn seed drying. Approximately 45,000 Mcf of natural gas is required to meet the plant's requirements during the critical 60 day period prior to November 15 of each year when the corn seed must be dried.

DeKalb in its petition notes that its Crawfordsville Plant provides farmers with hybrid seed corn for planting. It stresses that seed corn is an essential element in a food production and that seed is a basic element in the food chain. It contends that interruption in natural gas deliveries to its Crawfordsville Plant commencing on October 1, 1973, would reduce annual production by at least 65 percent and require the plant to lay off a number of employees. It contends that such reduced seed production could conceivably result in a shortfall of nearly 40 million bushels of high-quality corn next summer. DeKalb notes that the problem is further compounded by the fact that seed corn is presently in short supply because of the relatively poor season experienced last year and that most of the stock that they normally maintain has been depleted.

V 38 185 SEP 25 73 XUM

DeKalb contends that its Crawfordsville Plant is confronted by an immediate emergency, because it lacks a presently installed alternate fuel capability. It further contends that up until August 20, 1973, it had acted under an assurance from Indiana Gas, its distributor supplier, that it would be provided with sufficient gas to meet its 1973 fall drying season requirements.

DeKalb, therefore, requests that the Commission grant its petition for extraordinary relief filed pursuant to § 1.7 of the Commission's rules of practice and procedure, in order to avert the damages hereinbefore set forth.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said application, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10) on or before September 25, 1973. The notices and petitions for intervention previously filed in this proceeding will not operate to make those parties interveners or protestants with respect to the instant filing. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20397 Filed 9-24-73;8:45 am]

[Project No. 135]

## PORTLAND GENERAL ELECTRIC CO.

### Notice of Issuance of Annual License

SEPTEMBER 19, 1973.

On February 19, 1970, Portland General Electric Co., Licensee for Project No. 135, located in Clackamas County, Oregon, on the Clackamas River, filed an application for a new license under section 15 of the Federal Power Act and Commission regulation thereunder (§§ 16.1–16.6).

The license for Project No. 135 was issued effective September 27, 1922, for a period ending September 26, 1972. In order to authorize the continued operation of the project pursuant to section 15 of the Act, pending completion of Commission action thereon, it is appropriate and in the public interest to issue an annual license to Portland General Electric Co. for continued operation and maintenance of Project No. 135.

Take notice that an annual license is issued to Portland General Electric Co. (Licensee) under section 15 of the Federal Power Act for the period September 27, 1973, to September 26, 1974, or until Federal takeover or the issuance of of a new license for the project, whichever comes first, for the continued operation and maintenance of Project No. 135, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20408 Filed 9-24-73;8:45 am]

[Docket No. E-7723]

## POTOMAC EDISON CO.

### Order Granting Motion for Approval of Settlement Offer

SEPTEMBER 14, 1973.

On March 29, 1972, the Potomac Edison Company (Edison) tendered for filing proposed changes in its Electric Tariff, Volume No. 2 (Original Sheet Nos. 4b, 5b, and 6b, First Revised Sheet Nos. 4, 4a, 5, 5a, 6 and 6a, and Third Revised Sheet No. 8) and on March 30, 1972, Edison tendered for filing Amendment No. 3 to its FPC Rate Schedule No. 30. Notice of Edison's tendered filing was issued on April 18, 1972, with comments due on April 26, 1972. No protests or petions to intervene were received. By Commission order issued July 11, 1972, Edison's proposed changes were accepted for filing and the use thereof suspended until December 11, 1972, and hearing procedures were established.

On February 1, 1973, as supplemented on February 20, 1973, The Potomac Edison Company (Edison) filed a motion for approval of a Settlement Offer which is intended to resolve all issues in this proceeding. Edison requests the Commission approve the proposed Settlement Offer and permit the proposed rates to become effective December 11, 1972, the date on which the rates originally proposed became effective subject to refund. Edison also requested on March 19, 1973, that the Commission further extend the procedural dates established by notice issued February 23, 1973, until 60 days after the Commission has acted upon the proposed Settlement Offer. By notice issued March 22, 1973, dates for filing of evidence and hearing procedures were deferred pending disposition of the offer of settlement.

Public notice of Edison's motion was issued on February 23, 1973, providing for receipt of comments by March 9, 1973. On March 9, 1973, the Commission Staff filed comments wherein the staff recommended that on the basis of its review of the proposed settlement and cost of service support thereof the Settlement Offer as filed be approved.

In support of its offer of settlement, Edison states that the proposed rates are not objected to by its customers to be served thereunder. Edison further asserts that the revision of some of the originally proposed increases are in settlement of differences between Edison and the Commission Staff which were made known in discussions with the staff.

The Settlement Offer consists in principal part of the following:

(1) A reduction in revenues from the originally proposed increases of $239,000 to $216,000 based on calendar year 1970 and excluding the additional revenue effect of the proposed fuel clause.

(2) Normalization of the cost of service to reflect the substantial load changes of Hagerstown and of a high load factor industrial retail customer.

(3) The rates of return are:

Wholesale for Resale Rate Groups

| WS-HV (percent) | WS-LV (percent) | WS-DV (percent) | Total (percent) |
|---|---|---|---|
| 6.64 | 7.08 | 5.86 | 6.39 |

(4) The originally proposed fuel adjustment clause has been modified to recognize the fuel cost of energy generated by Edison and in energy purchased by Edison from other companies in the Allegheny Power System (APS) and will not apply to energy purchased from companies other than those which are members of APS. Also the base cost of fuel was revised to include the base fuel component of energy purchases.

The settlement offer is based on the cost of service for the test period (1970) submitted by Edison and set forth in Appendix A below. In addition, the computation of Edison's capitalization set forth in Appendix A below shows the yield on common equity at a 6.39 percent overall return.

Based upon our review of the terms and conditions of the proposed Settlement Offer and the cost of service attached thereto (Appendix A below), we conclude that the proposed settlement offer provides a reasonable and appropriate resolution of the issues herein and that the public interest will be served by our approval of the settlement offer.

*The Commission finds*

Approval of the settlement of these proceedings on the basis of the Settlement Offer filed by Edison on February 1, 1973, as supplemented on February 20, 1973, is reasonable and proper and in the public interest in carrying out the provisions of the Federal Power Act, and should be approved and made effective.

*The Commission orders*

(A) The Settlement Offer as described above is incorporated herein by reference, and is approved and made effective on December 11, 1973.

(B) Edison shall fully comply with each of the provisions of the Settlement Offer and the terms of this order.

(C) Edison shall file with the Commission revised tariff and rate schedules to conform with the Offer of Settlement filed February 1, 1973, within 30 days of the date of issuance of this order.

(D) This order is without prejudice to any finding or orders which have been made or may hereinafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, Edison, or any other party or person affected by this order.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

APPENDIX A

SOUTHERN TEXAS NATURAL GAS GATHERING COMPANY, DOCKET NOS. RP73-7 AND RP73-57, SUMMARY COST OF SERVICE AND GATHERING COST YEAR ENDED, JUNE 31, 1972, AS ADJUSTED

[In Dollars]

| Line No. | Particulars | Company | Adjustments | As adjusted |
|---|---|---|---|---|
| 1 | Operating expenses | $18,376 | [1] ($678) | $17,698 |
| 2 | Depreciation expense | 829 | [2] (219) | 610 |
| 3 | Taxes other than income | 150 | — | 150 |
| 4 | Federal income taxes | 1,077 | 67 | 1,144 |
| 5 | Return (company—8 percent, staff 8.75 percent) | 1,306 | 84 | 1,390 |
| 6 | Other Operating Revenue—Cr | (360) | — | (360) |
| 7 | Total cost of service | 21,378 | (746) | 20,632 |
| 8 | Cost other than purchased: Gas cost | 5,208 | [3] ($89) | 5,119 |
| 9 | Sales volumes (Mcf) | 74,949,000 | | 72,333,000 |
| 10 | Gathering cost per Mcf line 8÷line 9 (cents) | 6.95 | | 7.08 |
| 11 | Gathering charge proposed (cents) | 6.22 | | 6.22 |

[1] Reflects reduction in staff's sales volumes.
[2] To eliminate depreciation expense on general plant transferred to affiliated companies.
[3] Net adjustments to cost other than purchased gas cost.

[Docket Nos. RP73-7, RP73-57]

## SOUTH TEXAS NATURAL GAS GATHERING CO.

### Order Terminating Proceeding and Allowing Rate Increase To Become Effective Without Further Refund Obligation

SEPTEMBER 14, 1973.

On July 31, 1972, South Texas Natural Gas Gathering Company (South Texas) tendered for filing proposed changes in its rates to Transcontinental Gas Pipe Line Corporation (Transco) under South Texas' FPC Gas Rate Schedule No. 2 and to Natural Gas Pipeline Company of America (Natural) under South Texas' FPC Rate Schedule No. 1. South Texas stated that the proposed rates were in accord with the prices provided in its producer type sales contracts and were based on a test year ended March 31, 1972. The proposed changes would increase South Texas' annual revenues by $1,240,251 with respect to Transco and by $96,406 with respect to Natural or a total of $1,336,657. These totals were based on an increase in its rates from 19.58 cents per Mcf to 22.05 cents per Mcf for Transco and from 19.50 cents per Mcf to 21.55 cents per Mcf for Natural. South Texas alleged that such rate increases would yield a negative 7.53 percent return, because of a contract which limits South Texas' rate of return. The rates were proposed to become effective September 1, 1972.

On August 31, 1972, we accepted and suspended the proposed changes for one day, set hearing dates and permitted interventions.[1]

On October 17, 1972, South Texas tendered for filing a proposed Purchased Gas Adjustment Clause (PGA) and an additional increase of $2.8 million annually for its sales to Transco, under South Texas' FPC Gas Rate Schedule No. 2, based on an overall rate of return of 10%, increased purchased gas costs, and decreased annual sales, among other things.

South Texas had requested that the Commission waive its notice requirements to permit this filed increase to become effective on a date to coincide with the Commission approval of the conditional settlement in the Docket No. RI72-240, or November 15, 1972, whichever was earlier.[2]

On November 16, 1972, we rejected the proposed PGA clause, accepted and suspended the proposed increase for the statutory five months, established dates for service of evidence and hearing, and permitted the interventions.[3]

On December 4, 1972, South Texas submitted a revised PGA clause and requested that it be accepted and permitted to become effective immediately or no later than the effective date of approval of the settlement in the producers rate case, RI72-240, and the abandonment proceeding, Docket No. CP67-349.

On January 10, 1973, we issued an order that dealt with four South Texas cases pending before the Commission including Docket Nos. RP73-7 and RP73-57. In Docket Nos. RI72-240 and CP67-349, et al. we approved proposed settlements. In RP73-57 we approved the revised PGA clause filed on December 4, 1972, terminated the suspension period ordered on November 16, 1972, and permitted the rates in Docket No. RP73-57 to go into effect at the settlement rate in CP67-349, et al., subject to refund. We also consolidated Docket Nos. RP73-7 and RP73-57 for disposition and approved the change or rate charged to Transco, but left the issue of the precise rate level for determination in the instant consolidated docket.[4]

At the prehearing conference on June 19, 1973, Staff placed into the record its direct testimony and exhibits which included a cost of service analysis which would support a 28.70 cents per Mcf rate based upon a purchased gas cost of 21.62 cents per Mcf and a gathering charge of 7.08 cents per Mcf. Also at this prehearing conference South Texas moved to terminate the proceeding and to terminate the refund provisions in the instant dockets. All of the parties represented at that conference either supported the filed rates or expressed no opposition to them. On July 2, 1973, Judge Litt certified South Texas' motion to the Commission, and such certification was noticed on July 20, 1973, with comments due on or before August 3, 1973. No comments were received.

We note that staff cost of service supports a rate higher than South Texas' proposed producer—type rates of 21.55 cents per Mcf to Natural and 22.05 cents per Mcf to Transco in Docket No. RP73-7 and its proposed 27.87 cents per Mcf rate to Transco in Docket No. RP73-57 based on purchased gas costs of 21.65 cents per Mcf and a gathering charge of 6.22 cents per Mcf. The cost of service presentations in support of the filings in both dockets are basically for the same test period and the Staff as a basis for testing the rates in both dockets utilized a test period of the twelve months ending June 30, 1972, as adjusted. Staff recommended an overall rate of return of 8.75 percent with an allowance of 10.74 percent on equity. (For the summary cost of service, see Appendix A to this order).

Our review of the record in these proceedings which includes South Texas' rate increase filing, testimony and exhibits as well as the testimony and exhibits of the Staff, and the aforementioned history of the case reveals that the settlement rates are not excessive. Accordingly, good cause exists to grant South Texas' motion to terminate the refund provisions in these proceedings and approve the proposed settlement.

*The Commission finds*

Approval of the proposed settlement in these dockets and granting of South Texas' motion to terminate refunds on

[1] Transco, Philadelphia Gas Works Division of UGI Corporation (PGW), Natural, and Public Service Electric and Gas Company (Public Service).

[2] The Settlement in Docket No. RI72-240 was approved by an order issued January 10, 1973.

[3] Natural, Consolidated Edison Company of New York, Inc. (Consolidated), Transco, Public Service Commission for the State of New York.

[4] On March 19, 1973, we issued an order permitting Philadelphia Gas Works Division of UGI Corporation (PGW) & Associated Gas Distributors (AGD) to intervene in the consolidated dockets.

V 38 I 185 SEP 25 73 XUM

the basis set forth above is just and reasonable and in the public interest in carrying out the provisions of the Natural Gas Act.

*The Commission orders*

(A) For the reasons stated herein the settlement of these dockets is accepted, the settlement rates in Docket Nos. RP73–7 and RP73–57 shall be made effective as of September 2, 1972, and January 10, 1973, respectively, without further refund obligation, and this proceeding is terminated.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CP70-7 (Phase II)]

## SOUTHERN NATURAL GAS CO.

### Notice of Petition To Amend

SEPTEMBER 19, 1973.

Take notice that on August 29, 1973, Southern Natural Gas Co. (Petitioner), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP70-7 (Phase II) a petition to amend the Commission's order issued October 29, 1969 (42 FPC 944), in the subject docket pursuant to section 7(c) of the Natural Gas Act by authorizing certain changes and reallocations in the contract quantities of natural gas to be delivered to Atlanta Gas Light Co. (Atlanta) among individual delivery points, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By the Commission's order of October 20, 1969, Petitioner was authorized, inter alia to sell and deliver to Atlanta at certain specified delivery points a contract demand of 737,500 Mcf of gas per day. On November 30, 1972, Petitioner tendered for filing under Section 4 of the Natural Gas Act a ninth revised Exhibit A to its presently effective firm service agreement with Atlanta. By order issued March 20, 1973, in Docket No. RP73-73, the Commission rejected this filing because it was inconsistent with the outstanding certificate authorization in the subject docket.

Petitioner seeks authorization herein to make changes and reallocations in the contract quantities delivered to Atlanta among individual delivery points, pursuant to its rejected ninth revised Exhibit A. In an affidavit filed with the petition to amend, the president of Atlanta states that these changes and reallocations are needed to:

(1) Efficiently operate its gas distribution system, particularly occasioned by the recent construction of its Riverdale LNG storage facility in the Atlanta area;

(2) Shift approximately 40,000 Mcf of contract demand quantity out of the Atlanta area in order to cover the estimated firm design day requirements in other areas on its system; and

(3) Alleviate a measure of hardship caused for some of its customers under Southern Natural's curtailment program which, if not corrected, could cause the curtailment of high priority uses such as process and possible feedstock gas and at the same time cause these curtailed volumes to become available as excess "AO" or direct interruptible gas at other delivery points and to other delivery points and to other customers of Southern Natural for lower priority uses.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before October 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20400 Filed 9-24-73;8:45 am]

[Docket No. RP72-121]

## SOUTHWEST GAS CORP.

### Notice of Proposed PGA Rate Adjustment

SEPTEMBER 18, 1973.

Take notice that Southwest Gas Corporation (Southwest) on August 23, 1973, tendered for filing proposed changes in its FPC Gas Tariff, Original Volume No. 1. Concurrently with the filing, Southwest requests that its filing made by letter dated August 17, 1973, be withdrawn. The proposed rate change is described in the company's transmittal letter as follows:

El Paso Natural Gas Company, the sole supplier of gas to the Company's Northern Nevada Division, has filed pursuant to its PGA Clause for an increase of .315 cents per therm to become effective October 1, 1973. El Paso also proposes an alternate tariff sheet which would increase its rates by .149 cents per therm to become effective October 1, 1973. Southwest is unable to anticipate which El Paso increase the Commission will finally authorize, therefore, Southwest has included under Tab A, attached hereto, its Substitute Second Revised Sheet No. 3A containing the .315 cents per therm and under Tab B, also attached hereto, the identical Sheet No. 3A containing the .149 cents per therm increase. It is respectfully requested that the Commission select for approval Southwest's tariff sheet that has the identical increase proposed therein as the El Paso tariff sheet which the Commission makes effective October 1, 1973.

Southwest respectfully requests that the appropriate enclosed tariff sheet herewith submitted for filing become effective October 1, 1973, concurrent with El Paso's increase.

Southwest states that copies of the filing were sent to its jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20400 Filed 9-24-73;8:45 am]

[Docket No. E-8379]

## UTAH POWER AND LIGHT CO.

### Notice of Proposed Changes in Rates and Charges

SEPTEMBER 18, 1973.

Take notice that on August 27, 1973 Utah Power and Light Company (Utah) tendered for filing proposed changes in its FPC Electric Tariff, Original Volume No. 1, Resale Service Rates. Each of the changes reflect the addition of Resale Service Schedule RS-3 and/or the Resale Electric Service Agreement between Provo City and Utah.

Utah states that its system is presently interconnected with the electrical system of Provo City and has for several years delivered Colorado River Storage Project power to Provo City under an agreement with the federal government. That agreement is on file with the FPC and designated Utah Rate Schedule FPC No. 98. As a result, Utah claims that no new facilities have been installed or modified in order to supply service under proposed Resale Service Schedule RS-3. Utah currently has, it says, no other rates for similar wholesale or resale services.

According to Utah, the service agreement with Provo contains a clause exempting the company from providing firm power, if and only if any of its planned facilities are delayed or prevented from entering service for reasons beyond the company's control. Utah states such a clause is necessary because of unrealistic and unduly restrictive environmental protection requirements, delaying governmental approval of new plants.

While service to Provo is not contemplated until 1974–1975, Utah states that Provo wishes to have call on the power for unforeseen developments in the interim. Therefore, Utah requests waiver of the notice requirements of the Commission's Rules and Regulations so that October 1, 1973 might be the effective date. Because of the uncertainties about power supplied over the coming year, Utah claims that estimates of revenues for that period are impossible.

Any person desiring to be heard or to protest should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 in accordance with Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before September 27, 1973. Protests will be considered by the Commission in determining the appropriate action but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-8388]

## WESTERN MASSACHUSETTS ELECTRIC CO.

### Notice of Cancellation

SEPTEMBER 18, 1973.

Take notice that on September 5, 1973, Western Massachusetts Electric Co. of West Springfield, Massachusetts (Company), tendered for filing notice of cancellation of its Rate Schedules FPC Nos. 22, 24, 25, 33, 45 and 67. The Company states that such cancellation is made pursuant to the terms of the rate schedule and the notice given thereunder. The effective date of cancellation for each Rate Schedule is September 30, 1973, except for Rate Schedule F.P.C. No. 67 which has an effective cancellation date of August 31, 1973.

In its letter of transmittal, the Company states that it intends to offer customers affected by these cancellations new long-term contracts. Pending completion of the development of proposals for such contracts, the Company is offering to continue service to the affected wholesale customers on a month-to-month basis following the cancellation date if such customers wish to receive service following that date.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 9, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

## NATIONAL GAS SURVEY

### Order Designating Survey Coordinating Representative and Secretary

SEPTEMBER 14, 1973.

The Federal Power Commission by Order issued December 21, 1971, established the Technical Advisory and Coordinating Committee Task Forces of the National Gas Survey.

1. FPC Survey Coordinating Representative and Secretary. A new FPC Survey Coordinating Representatives and Secretary to the Supply-Technical Advisory Task Forces on Natural Gas Supply, Reformer Gas, Liquefied Natural Gas (LNG), Natural Gas Technology, Synthetic Gas-Coal, and Regulation and Legislation, as selected by the Chairman of the Commission with the approval of the Commission, is as follows:

Frederick W. Lawrence, Technical Director, National Gas Survey, Bureau of Natural Gas, Federal Power Commission.

Mr. Lawrence has resigned his membership on the Supply-Technical Advisory Task Force-Natural Gas Supply as a representative of the Environmental Protection Agency. He is to fill the positions on the Supply-Technical Advisory Task Forces vacated by the resignation of Dr. Paul J. Root, Federal Power Commission, from these Task Forces.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20401 Filed 9-24-73;8:45 am]

## NATIONAL GAS SURVEY TECHNICAL ADVISORY COMMITTEE-SUPPLY

### Order Designating Survey Coordinating Representative and Secretary

SEPTEMBER 14, 1973.

The Federal Power Commission by Orders issued April 6, 1971, and February 23, 1973, respectively, the Commission established and renewed the Technical Advisory Committees of the National Gas Survey.

1. FPC Survey Coordinating Representative and Secretary. The new FPC Survey Coordinating Representative and Secretary to the Technical Advisory Committee-Supply, as selected by the Chairman of the Commission with the approval of the Commission, is as follows:

Frederick W. Lawrence, Technical Director, National Gas Survey, Bureau of Natural Gas, Federal Power Commission.

Mr. Lawrence has resigned his membership on the Technical Advisory Committee-Supply as a representative of the Environmental Protection Agency. He will fill the position vacated by the resignation of Dr. Paul J. Root, Federal Power Commission, from this Committee.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20402 Filed 9-24-73;8:45 am]

## NATIONAL GAS SURVEY COORDINATING COMMITTEE

### Order Designating Member

SEPTEMBER 14, 1973.

The Federal Power Commission by Orders issued May 10, 1971, and April 16, 1973, respectively, the Commission established and renewed a Coordinating Committee of the National Gas Survey.

1. Membership. A new member to the Coordinating Committee, as selected by the Chairman of the Commission with the approval of the Commission, is as follows:

Frederick W. Lawrence, Technical Director, National Gas Survey, Bureau of Natural Gas, Federal Power Commission.

Mr. Lawrence is to fill the position vacated by the resignation of Dr. Paul J. Root, Federal Power Commission, from this Committee.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20403 Filed 9-24-73;8:45 am]

## NATIONAL GAS SURVEY COORDINATING TASK FORCE

### Order Designating Alternate Survey Coordinating Representative and Secretary

SEPTEMBER 14, 1973.

The Federal Power Commission by Order issued December 21, 1971, established the Technical Advisory and Coordinating Committee Task Forces of the National Gas Survey.

V 38-185 SEP 25 73 XUM

1. Alternate FPC Survey Coordinating Representative and Secretary. The new Alternate FPC Survey Coordinating Representative and Secretary to the Coordinating Task Force, as selected by the Chairman of the Commission with the approval of the Commission, is as follows:

Frederick W. Lawrence, Technical Director, National Gas Survey, Bureau of Natural Gas, Federal Power Commission.

Mr. Lawrence is to fill the position vacated by the resignation of Dr. Paul J. Root, Federal Power Commission, from this Task Force.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.73-20404 Filed 9-24-73;8:45 am]

## FEDERAL RESERVE SYSTEM

### CHASE MANHATTAN CORP.

#### Acquisition of Bank

The Chase Manhattan Corp., New York, New York, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The First National Bank of Canton, Canton, New York. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The Chase Manhattan Corp. is also engaged in the following nonbank activities: Mortgage servicing and servicing the Shapiro Factors Division of the Chase Manhattan Bank. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 2, 1973.

Board of Governors of the Federal Reserve System, September 17, 1973.

[SEAL] THEODORE E. ALLISON, *Assistant Secretary of the Board.*

[FR Doc.73-20309 Filed 9-24-73;8:45 am]

### COMBANKS CORP.

#### Acquisition of Bank

Combanks Corp., Winter Park, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 98.8 percent of the voting shares of Combank/Longwood, Longwood, Florida, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than October 1, 1973.

Board of Governors of the Federal Reserve System, September 17, 1973.

[SEAL] THEODORE E. ALLISON, *Assistant Secretary of the Board.*

[FR Doc.73-20310 Filed 9-24-73;8:45 am]

### FBT BANK

#### Order Approving Application for Consolidation of Banks

FBT Bank, Fremont, Michigan, a proposed State member bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)), of the consolidation of that bank with Fremont Bank and Trust Company, Fremont, Michigan, under the name of Fremont Bank and Trust Co.

As required by the Act, notice of the proposed transaction, in form approved by the Board, has been published, and reports on competitive factors have been requested from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corp. This Reserve Bank has considered the application in light of the factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Order of this date by the Federal Reserve Bank of Chicago, relating to the application of Old Kent Financial Corp. for acquisition of 100 percent of the voting shares of the successor by consolidation with Fremont Bank and Trust Co., provided that said transaction shall not be consummated (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago, pursuant to delegated authority.

By order of the Federal Reserve Bank of Chicago acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System effective September 12, 1973.

[SEAL] ROBERT P. MAYO, *President.*

[FR Doc.73-20311 Filed 9-24-73;8:45 am]

### OLD KENT FINANCIAL CORP.

#### Order Approving Acquisition of Fremont Bank and Trust Co., Fremont, Michigan

Old Kent Financial Corp., Grand Rapids, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of the successor by consolidation to Fremont Bank and Trust Co., Fremont, Mich. (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and this Reserve Bank has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls two banks with deposits of $696.3 million, representing 2.7 percent of the total deposits in commercial banks in Michigan, and is the seventh largest banking organization in the State.[1] Consummation of the proposed acquisition of Bank, with deposits of $14.4 million, would not significantly increase Applicant's share of commercial bank deposits in Michigan and result in only a nominal increase in the concentration of banking resources in that section of the State approximated by the adjacent Grand Rapids and Fremont banking markets.

Bank is the smaller of two banks in Fremont. Bank's sole office is located approximately 45 Road miles northwest of Applicant's largest and closest subsidiary, Old Kent Bank and Trust Co. (deposits $680.8 million) in Grand Rapids, Michigan. There is no meaningful competition between Bank and Applicant's present subsidiary banks in either Cadillac or Grand Rapids, Michigan, nor does there seem to be any serious competition between Bank and Applicant's proposed subsidiary in Holland, Michigan.[2] Therefore, the proposed acquisition of Bank would foreclose no substantial present competition in any relevant market and have no undue adverse effect on competing banks. However, the Fremont market is adjacent to, if it does not adjoin, the Grand Rapids market, where Applicant is the dominant banking organization. In addition, Applicant has the managerial and financial expertise to enter the Fremont market de novo. The effect of the proposed transaction on potential competition is thought to be only slightly adverse, however, since Applicant is acquiring the smaller of the two banks located in Fremont and because there is no evidence that the city of Fremont, with a population of 3,465,[3] is attractive for de novo entry.

[1] Banking data are as of December 31, 1972, adjusted to reflect holding company formations and acquisitions approved through August 1, 1973.

[2] Applicant has a pending application before the Board to acquire Peoples State Bank of Holland, Holland, Michigan.

[3] Population data is based on 1970 census.

The financial and managerial resources of Applicant, its subsidiary banks and Bank are satisfactory and support approval of the application, particularly in view of Applicant's injection of $120,000 of equity capital of Bank through the consolidation. Applicant also proposes to assist Bank in providing new or improved services with respect to such areas as Mortgages, Farm Loans, Installment lending, and trust services. Considerations relating to the convenience and needs of the communities involved are thus regarded as lending some weight toward approval and as outweighing any slight anticompetitive effects which may result from the proximities of Applicant's lead bank and Bank. It is this Reserve Bank's judgment that the proposed transaction is on balance, in the public interest and should be consummated.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Federal Reserve Bank of Chicago acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective September 12, 1973.

[SEAL] ROBERT P. MAYO, *President.*

[FR Doc.73-20312 Filed 9-24-73;8:45 am]

### WEST FLORIDA BANK HOLDING CO., INC.

#### Acquisition of Bank

West Florida Bank Holding Co., Inc., Panama City, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of Panama City National Bank, Panama City, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than September 24, 1973.

[SEAL] THEODORE E. ALLISON, *Assistant Secretary of the Board.*

[FR Doc.73-20313 Filed 9-24-73;8:45 am]

## GENERAL SERVICES ADMINISTRATION

### NATIONAL HEALTH RESOURCES ADVISORY COMMITTEE

#### Notice of Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act, P.L. 92-463, that the next meeting of the Presidentially-appointed National Health Resources Advisory Committee will be held October 11–12, 1973, at the O'Hare Inn, 6600 North Mannheim Road, Rosemont, IL 60018.

The subject of the meeting will be Airport/Community Emergency Medical Preparedness. It will review the current status nationwide of joint airport/community planning designed to ensure an adequate emergency medical response to the needs created by emergencies at airports and in their environs and will evaluate the progress made since Federal Air Regulation 139.

Officials of Federal, State, and local governments will participate in the meeting as well as representatives of major related agencies and associations in the private sector.

The meeting will be open to the public from 9 a.m. to 3 p.m. on October 11, 1973, and from 9 a.m. to 12 Noon on October 12, 1973.

Due to airport restrictions and space limitations, a demonstration at O'Hare Airport from 3 p.m. to 5 p.m. on October 11, 1973, cannot be open to the public. Executive Session from 1 p.m. to 3 p.m. on October 12, 1973, will not be open to the public.

In order to assure adequate seating arrangements for the portions of the meeting which are open to the public, persons planning to attend are asked to notify Frederick J. Haase, Staff Director, telephone 202/395-3100 as soon as possible.

EDWARD R. SAUNDERS, JR., *Acting Director, Office of Preparedness, General Services Administration.*

SEPTEMBER 13, 1973.

[FR Doc.73-20416 Filed 9-24-73;8:45 am]

[GSA Bulletin FPMR E-121]

### CONSERVATION OF PAPER PRODUCTS

#### Recommended Procedures and Solicitation of Cooperation

SEPTEMBER 24, 1973.

1. *Purpose.* This bulletin solicits the cooperation of Federal agencies in reducing paper product usage and furnishes information on actions being taken by GSA to maintain essential levels of supply in light of current critical shortages.

2. *Expiration date.* This bulletin contains information of a continuing nature and remains in effect until canceled.

3. *Background.* Paper shortages are having a serious effect on the GSA supply system and difficulty is being experienced in obtaining various types of paper used by Federal agencies. Indications are that this situation will prevail for at least two years and the current results of our product solicitations indicate a potential fluctuation in the availability of various types of paper for different uses. For example, uncoated offset book paper (FSC 9310) is in critically short supply, whereas current requirements for bond and other writing paper (FSC 7530) are being met. As a means of reducing requirements, and thereby effecting conservation of paper products, there are a number of actions which should be taken by Federal agencies. The following actions, in concert with those steps being taken by GSA in the procurement and supply of paper products, will materially assist in alleviating this shortage.

4. *Recommended agency action.* a. Publicize the need for conservation of paper products and encourage employees to reduce the usage of paper to the maximum extent.

b. Assure that adequate safeguards and controls are established in conformance with the requirements for proper use of consumable or low cost items as provided in § 101–25.107. Further, all requisitions should be screened so that only essential requirements are ordered, thereby avoiding accumulation of obsolete or unneeded items.

c. Institute strict conservation practices in the generation and distribution of copies of documents, especially where the internal reproduction of copies is involved.

d. Select the least expensive stock available commensurate with maintaining a suitable level of quality.

e. Use both sides of the sheet of writing paper when drafting material.

f. Print and duplicate on both sides of paper whenever possible.

g. Give extensive consideration to the feasibility of substituting bond or other writing paper (FSC 7530) where such use may be appropriate because of the severe shortage of uncoated offset book paper (FSC 9310) referred to in paragraph 3.

h. Examine ways and means to ease existing specifications for packaging requirements, such as the use of polyurethane foam cushioning instead of cellulose material.

5. *GSA action.* a. Deviations from Federal specifications are being authorized in the procurement of paper when the product does not differ substantially from the specification item and will serve the intended purpose.

b. Substitute items which serve the same functional purpose are being procured. As a case in point, there is currently a critical shortage of lightweight manila file folders. GSA is procuring kraft folders as an alternative item. Legal size (8½'' x 14'') pads are being procured both in yellow and white because of the severity in the shortage of yellow paper. Agencies may receive either color against requisitions for this item.

c. Allocation of shipments to agencies is not contemplated at this time; however, it may become necessary to make incremental deliveries on large volume orders.

M. J. TIMBERS, *Commissioner, Federal Supply Service.*

## NATIONAL SCIENCE FOUNDATION

### ADVISORY PANEL FOR ASTRONOMY

#### Notice of Public Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given that a meeting of the Advisory Panel for Astronomy will be held at 9 a.m. on October 15 and 16, 1973, in Room 338 at 1800 G Street, NW., Washington, D.C. 20550. The purpose of this Panel is to provide advice and recommendations concerning support for research and research-related activities in astronomy.

The agenda for this meeting shall include discussions of the following topics:

1. Astronomical Research presently supported by the National Science Foundation.
2. Balloon and Rocket Payload support for infrared and X-ray Astronomy.
3. Development of Budgets at NSF.
4. Research review at the National Observatories.

The meeting shall be open to the public. Individuals who plan to attend should notify Mrs. Marvis M. Rush, Secretary to the Astronomy Section, by telephone (202-632-4196) or by mail (Room 305, 1800 G Street, NW., Washington, D.C. 20550) not later than close of business on October 12, 1973.

Persons who require further information concerning this Panel may contact Dr. Robert Fleisher, Head, Astronomy Section, Room 305, 1800 G Street, NW., Washington, D.C. 20550. Summary minutes of this meeting may be obtained from the Management Analysis Office, Room K-720, 1800 G Street, NW., Washington, D.C. 20550.

T. E. JENKINS,
*Assistant Director for Administration.*

SEPTEMBER 14, 1973.

### ADVISORY PANEL FOR ATMOSPHERIC SCIENCES

#### Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given that a meeting of the Advisory Panel for Atmospheric Sciences will be held at 9 a.m. on October 10 and 11, 1973, in Room 511 at 1800 G Street, NW., Washington, D.C. 20550. The purpose of this Panel is to advise the Foundation of the impact of its research support program on the scientific community in atmospheric sciences.

The agenda for this meeting shall include:

OCTOBER 10

MORNING

9:00—Introductory Remarks, Head, Atmospheric Sciences Section.
9:15—NSF Highlights, Division Director, Division of Environmental Sciences.
9:45—Review of NSF Atmospheric Sciences Activities since last Panel meeting (May 8 and 9, 1973), Head, Atmospheric Sciences Section.
10:15—Discussion of Proposal Review Process, Atmospheric Sciences Section staff and Panel members.
12:00—Recess for lunch.

AFTERNOON

1:00—Presentation of the Past, Present, and Future of Weather Modification—A Suggested Role for NSF, Panel members.

OCTOBER 11

MORNING

9:00—Discussions of issues concerning Upper and Lower Atmospheric Research Support:
Discussion of topics pertaining to Lower Atmosphere, Appropriate Panel members and Section staff (to be held in Room 511).
Discussion of topics pertaining to Upper Atmosphere, Appropriate Panel members and Section staff (to be held in Room 650).
12:00—Recess for lunch.

AFTERNOON

1:00—Reassembly of full Panel (Room 511); Panel Summary and Recommendations.
3:00—Adjournment.

The meeting shall be open to the public. Individuals who wish to attend this meeting should notify Dr. Fred D. White, Head, Atmospheric Sciences Section, by telephone (202-632-4198) or by mail (Room 312, 1800 G Street, NW., Washington, D.C. 20550) not later than close of business on October 10, 1973.

Persons who require further information concerning this Panel may contact Dr. Fred D. White, Head, Atmospheric Sciences Section, Room 312, 1800 G Street, NW., Washington, D.C. 20550. Summary minutes may be obtained from the Management Analysis Office, Room K-720, 1800 G Street, NW., Washington, D.C. 20550.

T. E. JENKINS,
*Assistant Director for Administration.*

### ADVISORY PANEL FOR EXPERIMENTAL R&D INCENTIVES, PUBLIC SECTOR SUBCOMMITTEE

#### Notice of Meeting

Pursuant to the Federal Advisory Committe Act (P.L. 92-463), notice is hereby given that a meeting of the Public Sector Subcommittee of the Advisory Panel for Experimental R&D Incentives will be held at 9 a.m. on October 9, 1973, in Room 550 at 1800 G Street, NW., Washington, D.C. 20550. The purpose of this Subcommittee is to review and evaluate program plans of the Public Sector Office, Office of Experimental R&D Incentives. The agenda for this meeting shall include:

MORNING

9:00—Introduction, Subcommittee Chairman.
9:30—Comments of Advisory Panel for Experimental R&D Incentives on FY 1973 Activities, Panel member:
1. Background and Definition studies.
2. Experiments.
10:45—Coffee break.
11:00—Review of Proposed FY 1974 Activities, Subcommittee Chairman.
11:45—Recess for lunch.

AFTERNOON

1:30—Comments of Advisory Panel for Experimental R&D Incentives on Proposed FY 1974 Activities, Panel member:
1. Proposed Target Areas for Experimental Activity.
2. Proposed Target Areas for Exploratory Study.
3:30—Coffee break.
3:45—Summary and Recommendations, Subcommittee Chairman.
4:30—Public Questions and Comments.
5:00—Adjournment.

The meeting shall be open to the public. Individuals who wish to attend this meeting should notify Mr. Elisha C. Freedman, Head, Public Sector Office, Office of Experimental R&D Incentives, by telephone (202-632-5778) or by mail (Room 549, 1800 G Street, NW., Washington, D.C. 20550) not later than close of business on October 4, 1973.

Persons who require further information concerning this Subcommittee may contact Mr. Elisha C. Freedman, Head, Public Sector Office, Office of Experimental R&D Incentives, Room 549, 1800 G Street, NW., Washington, D.C. 20550. Summary minutes of this meeting may be obtained from the Management Analysis Office, Room K-720, 1800 G Street, NW., Washington, D.C. 20550.

### ADVISORY PANELS FOR REGULATORY AND SYSTEMATIC BIOLOGY

#### Notice of Meetings

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of meetings of the following advisory panels including the individuals to contact for further information respecting each panel. The purpose of each of these advisory bodies is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

ADVISORY PANEL FOR REGULATORY BIOLOGY

Date and Time of Meeting: October 11 and 12, 1973; 9 a.m.

Location of Meeting: Room 321, 1800 G Street, NW., Washington, D.C. 20550

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For Further Information, Contact: Dr. John W. Mehl, Deputy Division Director, Division of Biological and Medical Sciences, Room 325, 1800 G Street, NW., Washington, D.C. 20550

ADVISORY PANEL FOR SYSTEMATIC BIOLOGY

Date and Time of Meeting: October 12 and 13, 1973; 9 a.m.

Location of Meeting: Room 338, 1800 G Street, NW., Washington, D.C. 20550

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For Further Information, Contact: Mr. William E. Sievers, Associate Program Director, Systematic Biology Program, Room 331, 1800 G Street, NW., Washington, D.C. 20550

These meetings are concerned with matters which are within the exemptions of the Freedom of Information Act, 5 U.S.C. 552(b) and will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated January 15, 1973, pursuant to the provisions of Section 10(d) of the Federal Advisory Committee Act.

T. E. JENKINS,
*Assistant Director for Administration.*

SEPTEMBER 13, 1973.

## CANAL ZONE POSTAL SERVICE

### CERTAIN POSTAGE RATES

#### Notice of Change

The Canal Zone Government hereby gives notice of certain changes in postage rates as set out in the schedule below. These rates will govern until such time as the permanent postage rates which have been prescribed by the U.S. Postal Service, effective September 9, 1973 (38 FR 24002. September 5, 1973; 37 FR 13148-50, July 1, 1972) are modified, superseded, revoked, or incorporated in Title 39 Code of Federal Regulations. The purpose of this notice is to advise of administrative action that will retain the established relationship between United States and Canal Zone postage rates.

SCHEDULE OF POSTAGE RATES

I. Domestic Postage Rates:

| Second class | Zones 1 and 2[1] (Cents) | Zone 8[2] (Cents) |
|---|---|---|
| Regular rate publications: | | |
| Nonadvertising portion (per pound) | 4.9 | 4.9 |
| Advertising portion (per pound) | 6.8 | 17.8 |
| Minimum-per-piece: | | |
| 5,000 copies per issue or more | 1.3 | 1.3 |

## SECURITIES AND EXCHANGE COMMISSION

[811-2029]

### CNA ASSOCIATION MEMBERS FUND, INC.

#### Notice of Filing of Application for Order Declaring Company Has Ceased To Be an Investment Company

SEPTEMBER 18, 1973.

Notice is hereby given that CNA Association Members Fund, Inc., 245 Park Ave., New York, New York 10017 (Applicant), an open-end, diversified management investment company registered under the Investment Company Act of 1940 (the Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment Company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant was organized as a Delaware corporation on February 13, 1970, and registered under the Act by filing a Form N-8A Notification of Registration on February 20, 1970.

Applicant represents that it never made a public offering of its shares, has no intention of making a public offering in the future, and at present has no shareholders. Applicant's registration statement under the Securities Act of 1933 was withdrawn on August 2, 1973, by order of the Commission.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than October 12, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

[File No. 1-7167]

### CHICAGO BOARD OPTIONS EXCHANGE, INC. AND CHICAGO BOARD OPTIONS EXCHANGE CLEARING CORP.

#### Notice of Application and Opportunity for Hearing

SEPTEMBER 17, 1973.

Notice is hereby given that Chicago Board Options Exchange, Incorporated (Exchange) and Chicago Board Options Exchange Clearing Corporation (Clearing Corp.), (both referred to as Applicant) have filed an application pursuant

V 38-185 SEP 25 73 XUM

to section 12(h) of the Securities Exchange Act of 1934, as amended, ("the Act"), for an order exempting them from the provisions of sections 13(a), 13(d), 13(e), 14(d), 15(d), and 16 of the Act.

Section 12(h) empowers the Commission to exempt, in whole or in part, any issuer or class of issuers from the registration, periodic reporting and proxy solicitation sections of the Act, if the Commission finds by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The application of the Exchange and the Clearing Corp. states in part:

Chicago Board Options Exchange Clearing Corp. is a wholly owned subsidiary of the Chicago Board Options Exchange, Incorporated. The Exchange is a registered national securities exchange under the Securities Exchange Act of 1934. The Clearing Corp. has registered under the Securities Act of 1933, call option contracts to be purchased or sold in transactions on the Exchange. The Clearing Corp. has also registered these option contracts under section 12(b) of the Securities Exchange Act of 1934.

Applicant points out that since securities that will be the subject of the call option contracts will be issued by persons other than and not affiliated with the Exchange or the Clearing Corporation and the underlying stocks will themselves all be registered under the provisions of Section 12 of this Act:

1. Those sections of the Act that require information on the financial condition and business of the Clearing Corporation as issuer do not furnish necessary information to the investor in the Options since the value of the Options does not depend upon the business of the Clearing Corporation but instead reflects the value of the underlying stock;

2. Those sections of the Act which provide full disclosure in connection with cash tender offers and other acquisitions of registered equity securities for the purpose of obtaining control of the issuer should not be applicable to the Chicago Board Options because these Options do not represent any possibility of control over the issuer thereof, the Clearing Corporation; and

3. The section of the Acts designed to prevent the improper use by an insider of nonpublic information should not be applicable since the holder of a Chicago Board Option cannot benefit from any inside information concerning the Clearing Corporation because the value of the option depends on the value of the underlying stock, not on the business of the Clearing Corporation.

For a more detailed statement of the information, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street NW., Washington, D.C.

Notice is further given that any interested persons not later than October 17, 1973, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549, and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

## HOME-STAKE PRODUCTION CO.

### Order Suspending Trading

SEPTEMBER 17, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $2.50 par value, and all other securities of Home-Stake Production Company being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

*It is ordered*, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from September 17, 1973, through September 26, 1973.

By the Commission.

[70-5389]

## MISSISSIPPI POWER CO.

### Notice of Proposed Agreement With State Authority for Construction of Pollution Control Facilities Financed by Sale of Revenue Bonds

SEPTEMBER 17, 1973.

Notice is hereby given that Mississippi Power Company, 2992 West Beach, Gulfport, Mississippi 39501 (Mississippi), an electric utility subsidiary company of The Southern Company, a registered holding company, has filed a declaration with this Commission designating sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 (Act) and Rule 50(a)(4) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Mississippi is engaged in building a steam electric generating plant (Plant) on or near the Pascagoula River in Jackson County, Mississippi. The Plant will initially consist of two 500 megawatt steam generating units which will require a significant supply of water for cooling and other purposes. Current thermal water pollution control requirements of the Mississippi Air and Water Pollution Control Commission prescribe maximum temperature limits for cooling water effluent, and would prohibit discharge into the Pascagoula River or any natural waterway of cooling water used in the Plan on a "once through" basis. In order to comply with the thermal discharge criteria, Mississippi has entered into a "Water Pollution Control Agreement", dated April 5, 1973, and an amendment thereto, dated August 28, 1973 (Agreement), with the Jackson County Port Authority, an agency of the State of Mississippi, and the Board of Supervisors of Jackson County, Mississippi (herein collectively called the "County").

Pursuant to the Agreement it is proposed, among other things, that the County will construct, operate and maintain thermal water pollution control facilities and a system (herein collectively referred to as the "Facilities") for the supply to Mississippi of cooling water for said units of the generating plant.

The total cost of these Facilities is estimated at approximately $17,250,000, which is to be financed from the proceeds of the issuance and sale by the County of its Water Pollution Control Revenue Bonds (Bonds), in an aggregate principal amount not exceeding $17,250,000. The Bond proceeds will be initially deposited with a trustee (Trustee) designated by the County in a resolution authorizing and creating the Bonds (the form of which will be filed by amendment); and may be withdrawn as needed for construction of the Facilities and the expenses of issuance.

The duration of the primary term of the Agreement (which will correspond to the term of the Bonds) will be supplied herein by amendment. During said primary term Mississippi will be obligated to pay monthly for water service rendered by the County in amounts sufficient (i) to pay the County's operating and maintenance costs of the Facilities, (ii) for the payment of principal and interest on the Bonds and the fees and expenses of the Trustee, (iii) to establish a reserve fund not to exceed $500,000 for maintenance, operation and repairs, and (iv) to provide a margin to the County in an amount equal to 3% of the County's operation and maintenance costs. The Agreement provides that under certain circumstances the County may provide service to third parties from the Facilities and that in any such event provision is made for reimbursement to Mississippi of a fair allocated portion of the amounts under (i) and (ii) above. The Agreement provides for up to two five-year renewal terms, each at Mississippi's option, and for payment during such terms of the County's operation and maintenance costs, plus 3 percent thereof as a margin and a reserve fund to be agreed upon.

It is stated that the Bonds will not constitute general obligations of the County, but will be revenue bonds, the principal of and interest on which will be payable solely out of funds paid by Mississippi pursuant to the Agreement. The Agreement may be pledged by the County as security for the payment of the Bonds; in addition, payment of principal and interest on the Bonds will be guaranteed by Mississippi under terms of a Guaranty Agreement among Mississippi, the County, and the Pascagoula-Moss Point Bank of Pascagoula, Mississippi, as trustee.

It is contemplated that, in accordance with its usual practice, the County will sell the Bonds at competitive bidding, and in this connection the County has engaged the services of Smith, Barney & Co. Incorporated, investment bankers, as its financial advisor. In accordance with the laws of the State of Mississippi, the interest rate or rates to be borne by the Bonds will be fixed by the Board of Supervisors of the County. While Mississippi will not be party to the underwriting arrangements for the Bonds, the Agreement provides that terms of the offering shall be satisfactory to Mississippi. It is stated that the Internal Revenue Service has ruled that interest on the Bonds will be exempt from Federal income taxation. Mississippi has been advised that the annual interest rates on obligations, interest on which is so tax exempt, historically have been, and can be expected at the time of the issue of the Bonds to be, 1½ percent to 2½ percent lower than the rates on obligations of like tenor and comparable quality, interest on which is fully subject to Federal income taxation.

Mississippi expects the proposed transactions to be consummated prior to December 31, 1973. For accounting and financial reporting purposes the proposed transactions will be capitalized by Mississippi.

It is stated that none of the proposed transactions are subject to the jurisdiction of any State commission or any Federal commission other than this Commission. A statement of the fees and expenses to be incurred in connection with the proposed transactions will be filed by amendment.

Notice is further given that any interested person may, not later than October 11, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

## SMALL BUSINESS ADMINISTRATION

[License No. 04/05-0011]

### VICKSBURG SMALL BUSINESS INVESTMENT COMPANY

#### Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that Vicksburg Small Business Investment Company (Vicksburg), 302 First National Bank Building, Vicksburg, Mississippi 39180, a Federal licensee under the Small Business Investment Act of 1958, as amended (Act), has filed an application with the Small Business Administration (SBA), pursuant to sec. 312 of the Act and covered by § 107.1004 of the SBA rules and regulations governing Small Business Investment Companies (13 CFR Part 107.1004(1973)), for approval of a conflict of interest transaction falling within the scope of the above section of the Act and regulations.

Subject to such approval, Vicksburg proposes to provide financing to River Barges, Inc. (River). River is an operator of river-going barges.

The proposed financing is brought within the purview of sec. 107.1004 of the Regulations since Raymond B. May (Raymond) is the brother of David May, a director and treasurer and owner of less than 10 percent of Vicksburg's stock. Raymond also owns approximately 25 percent of River's stock; is the owner of less than 10 percent of Vicksburg stock. The financing is no more favorable in regard to its terms and conditions than other financings provided by Vicksburg to other small concerns.

Notice is hereby given that interested persons may, not later than October 10, 1973, submit to SBA in writing, relevant comments on the proposed transaction. Any such communication should be addressed to the Associate Administrator for Finance and Investment, Small Business Administration, 1441 L Street NW., Washington, D.C. 20416. After expiration of the fifteen days, SBA may dispose of this application on the basis of the information contained in the application, the comments (if any) which are received, and other relevant data.

Dated September 17, 1973.

JAMES THOMAS PHELAN, *Deputy Associate Administrator for Investment.*

## TARIFF COMMISSION

[332-70]

### CONVERSION OF TARIFF SCHEDULES OF THE UNITED STATES INTO FORMAT OF BRUSSELS TARIFF NOMENCLATURE

#### Notice of Change in Deadline

On August 4, 1972, in response to a request by the President of the United States, the U.S. Tariff Commission instituted a study, under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)), for the preparation of a draft conversion of the Tariff Schedules of the United States (TSUS) to conform to the Brussels Tariff Nomenclature (BTN). The President has notified the Commission that the date for submission of the revised draft of the Tariff Schedules and a report on the probable economic effect on U.S. industries and trade if such revision were to be adopted has been extended from September 30, 1973, to September 30, 1974.

In due course the Commission will schedule public hearings in connection with the study. Appropriate public notice will be issued with respect to such hearings.

By order of the Commission.

Issued September 19, 1973.

### MOXEES SHOE CORP.

**Notice of Investigation and Hearing**

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962 by the Moxees Shoe Corp., Auburn, Maine, a wholly owned subsidiary of Multivisions Corporation, Bellows Falls, Vt., the United States Tariff Commission, on September 17, 1973, instituted an investigation under section 301(c)(1) of the said Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women and children (of the types provided for in items 700.20, 700.43, 700.45 and 700.55 of the Tariff Schedules of the United States) produced by the aforementioned firm or firms, are being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to such firm.

A public hearing in connection with this investigation will be held beginning at 10 a.m., e.d.t., on Tuesday, October 9, 1973, in the Hearing Room, U.S. Tariff Commission Building, Eighth and E Streets NW., Washington, D.C. Requests for appearances at the hearing should be received by the Secretary of the Tariff Commission, in writing, at his office in Washington, D.C., not later than noon, Thursday, October 4, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

By order of the Commission.

## DEPARTMENT OF LABOR

**Occupational Safety and Health Administration**

### BURD & FLETCHER CO.

**Variance Application; Interim Order**

I. *Notice of application.* Notice is hereby given that Burd & Fletcher Company, 321 W. Seventh Street, Kansas City, Missouri 64105, has made application pursuant to Section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596), and 29 CFR 1905.11 for a variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.-213(c)(1) concerning guards for circular hand-fed ripsaws.

The address of the place of employment that will be affected by the application is as follows:

Burd & Fletcher Company
321 West Seventh Street
Kansas City, Missouri 64105

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.213(c)(1) which sets the standard for the guarding of circular hand-fed ripsaws.

The applicant states that a manually adjustable clear plastic guard is used when cutting pieces 1 inch or larger. The blade is guarded on 2 sides and the top, rather than completely surrounded by the guard as required by 29 CFR 1910.-213(c)(1). With the guard in place, it is impossible to cut pieces less than 1 inch in width, so the guard is removed while making these cuts, and the piece is held in place with a pick.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Room 508, Washington, D.C. 20210, and at the following Regional and Area Offices:

*Regional Office*

U.S. Department of Labor
Occupational Safety and
Health Administration
823 Walnut Street
Waltower Bldg.—Rm. 300
Kansas City, Missouri 64106

*Area Office*

U.S. Department of Labor
Occupational Safety and
Health Administration
1627 Main Street—Rm. 1100
Kansas City, Missouri 64108

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance, not later than October 25, 1973.

In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application for a variance not later than October 25, 1973, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing shall be in quadruplicate, and shall be addressed to the Office of Standards, Room 504.

II. *Interim order.* Burd and Fletcher Company has requested an interim order to be effective pending a decision on the variance.

A. *Grant of interim order.* It appears from the application for a variance and interim order that an interim order is necessary to prevent undue hardship to the applicant pending a decision on the variance, by permitting the use of its present system in certain situations. Therefore, it is ordered, pursuant to authority in Section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 and 29 CFR 1905.11(c) that Burd and Fletcher Company be, and is hereby authorized to use its present system, including the manually adjustable guard described in its application, when making cuts on material 1 inch or greater in width. Burd and Fletcher Company shall give notice of the interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

*Effective date.* This interim order shall be effective as of September 25, 1973, and shall remain in effect until a decision is rendered on the application for variance by Burd and Fletcher Company.

B. *Denial of interim order.* It has been determined that the applicant has not shown that the method it uses to make cuts on material less than 1 inch in width, utilizing a pick to hold the material, is as safe as that required by 29 CFR 1910.213(c)(1).

Therefore, the applicant's request for an interim order is hereby denied for this situation, without prejudice to its application for a variance.

Signed at Washington, D.C., this 18th day of September 1973.

JOHN H. STENDER, *Assistant Secretary of Labor.*

### FISHER SCIENTIFIC CO.

**Notice of Application for Variance and Interim Order; Grant of Interim Order**

I. *Notice of application.* Notice is hereby given that Fisher Scientific Company, 711 Forbes Avenue, Pittsburgh, Pennsylvania 15219, has made application pursuant to Section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596), and 29 CFR 1905.11, for a permanent variance and for an interim order pending a decision on the applications, from the Occupational Safety and Health Standards prescribed in 29 CFR 1910.106(d)(5)(v), storage inside buildings.

The addresses of the places of employment affected by these applications are as follows.

Regional Distribution Center
Post Office Box 3400
Somerville, New Jersey 08876

Medford Distribution Branch
461 Riverside Avenue
Medford, Massachusetts 02155

Cincinnati Distribution Branch
5481 Creek Road
Cincinnati, Ohio 45242

Atlanta Distribution Branch
690 Miami Circle
Atlanta, Georgia 30324

Cleveland Distribution Branch
26401 Miles Avenue
Warrensville Heights
Cleveland, Ohio 44128

Pittsburgh Distribution Branch

St. Louis Distribution Branch
1241 Ambassador Boulevard
St. Louis, Missouri 63132

Chicago Distribution Branch
1458 North Lamon Avenue
Chicago, Illinois 60651

The applicant certifies that their employees have been informed of the application by giving a copy to the authorized representatives, posting a copy of the application at places where notices to employees are normally posted, and at employee meetings where they were informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.106(d)(5)(v) which limits the storage of flammable and combustible liquids.

The applicant requests a variance for each of the facility locations listed above to permit the storage of flammable liquids is accordance with their present procedures, which exceeds the requirements of 29 CFR 1910.106(d)(5)(v) Table H-14. For each facility, the applicant has provided information on the following items: Type and size of storage spaces; class of liquids involved; storage patterns within storage areas; construction characteristics of the building, storage vaults, roofs, walls, doors, sprinklers, electrical fixtures, drainage, ventilation; firefighting capabilities; material handling equipment; and architectural and structural considerations (rules, codes, and regulations).

The applicant states that their facilities are in conformity with the standards or code authorities referenced in the application and have provided employees safe working facilities, operating methods, and procedures.

The applicant further stated that no flammable liquid related accidents or fires of any type have occurred at any of the facilities listed in the application.

The applicant contends that the storage conditions, practices, methods and operations provide employment and places of employment to employees which are as safe and healthful as the requirements of 29 CFR 1910.106(d)(5)(v) from which a variance is sought.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street, NW., Room 504, Washington, D.C. 20210, and at the following Regional and Area Offices:

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance not later than October 25, 1973.

In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application for a variance not later than October 25, 1973, in conformity with the requirements of 29 CFR 1905.15. Submissions of written comments and requests for a hearing shall be in quadruplicate, and shall be addressed to the Office of Standards at the above address.

II. *Interim order.* It appears from the application for a variance and interim order; and supporting data that an interim order is necessary to avoid undue hardships pending the decision on the merits of the application. Therefore, it is ordered, pursuant to authority in Section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.11(c) that Fisher Scientific Company be, and is hereby authorized to continue the storage of flammable liquids in accordance with their present procedures at their facilities listed above.

Fisher Scientific Company shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

*Effective date.* This interim order shall be effective as of September 25, 1973, and shall remain in effect until a decision is rendered on the application for variance by Fisher Scientific Company.

Signed at Washington, D.C., this 18th day of September 1973.

JOHN H. STENDER,
*Assistant Secretary.*

## NEW MEXICO DEVELOPMENTAL PLAN

### Submission of Plan and Availability for Public Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and § 1902.11 of Title 29, CFR, notice is hereby given that an Occupational Safety and Health Plan for the State of New Mexico has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health for approval. A preliminary examination of the plan raises serious questions involving its enforcement and penalty provisions that put in issue not only the approval but possible disapproval of the plan. The questions are discussed below in this numbered paragraph. In order to insure that the public has an opportunity to discuss these issues and to identify and discuss any additional issues, interested persons are hereby invited to submit in writing data, views, and arguments on the Plan within the time provided under paragraph no. 3 of this notice.

The Plan designates the Environmental Improvement Agency of the State Health and Social Services Department as the agency responsible for administering and enforcing the Plan throughout the State. It defines the occupational safety and health issues as defined in 29 CFR 1902.2(c)(1).

Although New Mexico has enacted enabling legislation, the New Mexico Occupational Health and Safety Act, N.M.S.A. 59-14-1 et seq., the plan is still developmental. Steps remain which are intended to make the Plan as effective as the Federal program. The Plan contains a developmental schedule which anticipates full operation 30 months after approval. The Plan is accompanied by a statement of the Governor's support and an opinion by the Attorney General that the proposed Plan is consistent with the Constitution and laws of the State of New Mexico.

A preliminary examination of the New Mexico State Plan reveals several areas where its provisions differ substantially from the Federal Act. The Plan provides mandatory sanctions only in imminent danger situations, and not for other situations involving serious violations, the procedure for enforcement of civil penalties is different, and the limits on penalties themselves are in lesser amounts than those of the Federal Act. Public comments are particularly invited on these matters.

2. *Location of Plan for Inspection and Copying.* A copy of the Plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, 400 First Street, NW., Washington, D.C. 20210; Assistant Regional Director, Occupational Safety and Health Administration, Suite 600, Texaco Building, 1512 Commerce Street, Dallas, Texas 75201 and the Occupational Health and Safety Section, Environmental Improvement Agency, P.O. Box 2348, Santa Fe, New Mexico 87501.

3. *Public Participation.* Interested persons are hereby given until October 25, 1973, to submit to the Assistant Secretary written data, views, and arguments concerning the Plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Room 305, 400 First Street, NW., Washington, D.C. 20210. The written comments will be available for public inspection and copying at the above address.

Any interested person(s) may request an informal hearing concerning the proposed Plan, or any part thereof, whenever particularized written objections thereto are filed by October 25, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues involved.

The Assistant Secretary for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the Plan.

Signed at Washington, D.C., this 18th day of September 1973.

JOHN H. STENDER,
*Assistant Secretary of Labor.*

[FR Doc.73-20413 Filed 9-24-73;8:45 am]

## ROLLINS COLLEGE

### Notice of Application for Variance

*Notice of application.* Notice is hereby given that Rollins College, Winter Park, Florida, 32789 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596) and 29 CFR 1905.11 for a variance from the standards prescribed in 29 CFR 1910.37(i) concerning means of egress.

The address of the place of employment that will be affected by the application is as follows:

Eleven dormitories (Rollins, Hooker, Lyman, Gale, Pugsley, Mayflower, Cross, Strong, Corrin, Fox, Rex Beach) at Rollins College, Winter Park, Florida 32789.

The applicant certifies that employees who would be affected by the variance have been notified of the application by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by 29 CFR 1910.37(i) which sets the minimum ceiling height for means of egress at 7'6".

The applicant proposes to install acoustical ceilings in the corridors at a height of 7½". This ceiling will provide a cover for air conditioning pipes and a base for lighting and fire detectors. The clearance requirement of 6'8" for obstructions will be maintained. The corridors have a maximum travel distance to protected stairs or exists of 30 feet, with a maximum of 13 rooms opening onto a corridor. All functioning rooms have outside windows for alternate means of egress. The buildings are equipped with an automatic fire alarm system which has ionization detectors for very early warning. The system automatically relays alarms to the city fire department located within ½ mile of the buildings.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street NW., Room 508, Washington, D.C. 20210, and at the following Regional and Area Offices:

*Regional Office*

U.S. Department of Labor
Occupational Safety and Health Administration
1375 Peachtree Street, NE.
Suite 587
Atlanta, Georgia 30309

*Area Office*

U.S. Department of Labor
Occupational Safety and Health Administration
2809 Art Museum Drive
Suite 4
Jacksonville, Florida 32202

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance, not later than October 25, 1973.

In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application for a variance not later than October 25, 1973, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing shall be in quadruplicate, and shall be addressed to the Office of Standards, Room 504.

Signed at Washington, D.C., this 18th day of September 1973.

JOHN H. STENDER,
*Assistant Secretary of Labor.*

[FR Doc.73-20372 Filed 9-24-73;8:45 am]

## SPRAGUE

### Notice of Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of application.* Notice is hereby given that Sprague, L.P.G. Division, P.O. Box 327, Cedartown, Georgia 30125 has made application pursuant to Section 6(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594), and 29 CFR 1905.10 for a variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.107(c)(6), (7) concerning spray finishing using flammable and combustible materials.

The address of the place of employment that will be affected by the application is as follows:

Sprague
L.P.G. Division
811 West Avenue
Cedartown, Georgia 30125

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant states that a time extension until May 1, 1974 is needed to come into compliance with 29 CFR 1910.107(c)(6), (7) which sets standards for wiring motors and lamps within 20 feet of a spray finishing area.

The applicant states that it has electrical motors, wiring, and other equipment outside of, but within 20 feet of, the spraying area. Since this equipment cannot be moved, the applicant states that it is presently in compliance by using a water soluble paint. However, it is impossible to produce a satisfactory product with this type of paint. The applicant, therefore, requests a temporary variance to permit the use of flammable paints and enamels while a new facility is under construction.

The applicant states that plans have been drawn for a new building which will house all spraying operations in compliance with 29 CFR 1910.107. Construction of the new building will begin soon after September 15, 1973 and be completed by February 1, 1974. The new building will be fully operational by May 1, 1974.

In order to protect employees in the interim, the applicant states that all flammable liquids have been removed from the spraying area except what is actually involved in a spraying operation. The flammable liquids used in the spray booth will be placed in approved safety containers.

A copy of the application will be made available for inspection and copying upon request at the Office of Standards, U.S. Department of Labor, Railway Labor Building, 400 First Street, N.W., Room 504, Washington, D.C. 20210, and at the following Regional and Area Offices:

*Regional Office*

U.S. Department of Labor
Occupational Safety and Health Administration
1375 Peachtree Street, N.E.
Suite 587
Atlanta, Georgia 30309

*Area Office*

U.S. Department of Labor
Occupational Safety and Health Administration
1371 Peachtree Street, N.E.
Room 723
Atlanta, Georgia 30309

Interested persons, including affected employers and employees, are invited to submit written data, views, and arguments regarding the application for a variance, not later than October 25, 1973. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application for a variance not later than October 25, 1973, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing shall be in quadruplicate, and shall be addressed to the Office of Standards at the above address.

II. *Interim order.* It appears from the application for a variance and interim order, that an interim order is necessary to prevent undue hardship pending a decision on the variance application. Therefore it is ordered, pursuant to authority in Section 6(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.10(c) that Sprague be, and is hereby authorized to use paints and enamels in its spraying operations in the manner described in its application.

Sprague shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

*Effective date.*—This interim order shall be effective as of September 25, 1973, and shall remain in effect until a decision is redered on the application for variance by Sprague.

Signed at Washington, D.C., this 18th day of September 1973.

JOHN H. STENDER,
*Assistant Secretary of Labor.*

V 38-185 SEP 25 73 XUM

## INTERSTATE COMMERCE COMMISSION

[Notice No. 348]

### ASSIGNMENT OF HEARINGS

SEPTEMBER 20, 1973.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

Finance Docket No. 27438, National Railroad Passenger Corporation, Discontinuance of Trains Nos. 98 and 99 Between Norfolk/Newport News and Richmond, Virginia, now assigned October 24, 1973, at Newport News, Virginia, will be held in U.S. Post Office and Courthouse Bldg., Judge Hoffman's Courtroom, 101 25th Street; now assigned October 26, 1973, at Richmond, Virginia, will be held in Room 1035, 400 N. 8th Street.

No. 35863, Montana Intrastate Rail Freight Rates and Charges, 1973, now being assigned hearing November 28, 1973 (3 days), at Billings, Mont., in a hearing room to be later designated.

MC 128527 Sub 38, May Trucking Co., now being assigned hearing December 3, 1973 (1 week), at Boise, Idaho, in a hearing room to be later designated.

MC–F–11918, Lynden Transport, Inc.—Purchase—Alaska Transfer, Inc., now being assigned December 10, 1973 (2 days), at Seattle, Wash., in a hearing room to be later designated.

MC 114416 Sub 6, Elkins Transport Service, Inc., now being assigned hearing December 14, 1973 (3 days), at Seattle, Wash., in a hearing room to be later designated.

I&S No. 8863, Switching and Minimum Carload Charges, Houston, Texas, is continued to October 1, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 138237, Metro Heavy Hauling, Inc., now assigned October 1, 1973, at Olympia, Washington, is postponed indefinitely.

MC 263 Sub 204, Garrett Freightlines, Inc., now being assigned hearing November 26, 1973 (2 weeks), at Salt Lake City, Utah, in a hearing room to be later designated.

MC–29886 Sub 272, Dallas & Mavis Forwarding Co., application is dismissed.

MC–F–11851, Smith Transfer Corporation—Control—Brady Motorfrate, Inc., MC–F–11853, Lee Way Motor Freight, Inc.—Purchase (Portion)—Brady Motorfrate, Inc., MC–F–11876, Burgmeyer Bros., Inc.—Purchase (Portion)—Brady Motorfrate, Inc., now being assigned hearing November 26, 1973 (2 weeks), at Kansas City, Mo., in a hearing room to be later designated.

MC 97310 Subs 11 and 12, Bell Transfer Company, Inc., continued to October 29, 1973, will be held in the East Courtroom, U.S. Court of Appeals, 600 Camp Street, New Orleans, Louisiana.

MC 128944 Sub 10, Reliable Truck Lines, Inc., is continued to November 5, 1973, at Nashville, Tenn., Sheraton-Nashville Hotel, State Room, 920 Broadway.

MC 124692 Sub 108, Sammons Trucking, now being assigned hearing October 29, 1973 (2 weeks), at Portland, Oregon, will be held in Room 401, 450 Multnomah Bldg., 319 SW. Pine Street.

MC 113495 Sub 56, Gregory Heavy Haulers, Inc., now assigned October 4, 1973, at Chicago, Ill., is cancelled and application dismissed.

MC 71459 (Sub-No. 31), O. N. C. Freight Systems, now assigned continued hearing October 9, 1973, at Salt Lake City, Utah, is postponed to November 5, 1973, at Salt Lake City, Utah, in a hearing room to be later designated.

MC 128944 Sub 11, Reliable Truck Lines, Inc., MC 136678, Alabama-Tennessee Express, Inc., continued to December 3, 1973, at the Read House & Motor Inn, Broad and 9th Sts., Chattanooga, Tenn.

MC 111878 Sub 6, Babbitt Bros., Inc., Extension Stanley, Wis.; now assigned September 24, 1973, will be held in Court Room No. 3, Federal Building, 316 N. Robert St., St. Paul, Minn.

FD–24679, Spokane, Portland & Seattle Railway Company and Union Pacific Railroad Co.—Control—Peninsula Terminal Co., FD–24890, Southern Pacific Co.—Common Use of Terminal Facilities Peninsula Terminal Co., FD–24891 Southern Pacific Co.—Common Use of Certain Terminal Facilities—Union Pacific Railroad Co., now assigned October 9, 1973, will be held in Room 401, Multnomah Bldg., 319 SW. Pine Street, Portland, Oreg.

MC–124692 Sub 96, Sammons Trucking, now assigned October 1, 1973, will be held in Room 401, Multnomah Bldg., 319 SW. Pine Street, Portland, Oreg.

MC 82841 Sub 118, Hunt Transportation, Inc., now being assigned hearing November 5, 1973 (1 week), at Chicago, Ill., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[Notice No. 356]

### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 15, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74277. By order entered September 17, 1973, the Motor Carrier Board approved the transfer to Anthony P. Sparacino and Ralph Sparacino, a partnership, doing business as Sparacino Brothers, of the operating rights set forth in Certificates Nos. MC–7585 (Sub-No. 2), and MC–7585 (Sub-No. 4), issued by the Commission December 19, 1957, and April 22, 1971, respectively, to Anthony Sparacino, John Sparacino, and Ralph Sparacino, a partnership, doing business as Sparacino Bros., Scranton, Pa., authorizing the transportation of household goods, as defined by the Commission, between Scranton, Pa., and points within 25 miles of Scranton, on the one hand, and, on the other, points in New York, New Jersey, Connecticut, and Maryland; and used household goods, between specified counties in Pennsylvania, with certain restrictions—James J. Powell III, 700 Mears Building, Scranton, Pa. 18503, attorney for applicants.

No. MC–FC–74278. By order entered September 17, 1973, the Motor Carrier Board approved the transfer to Anthony P. Sparacino and Ralph Sparacino, a partnership, doing business as Sparacino Brothers, Scranton, Pa., of the operating rights set forth in Certificate No. MC–136104, issued by the Commission May 1, 1972, to Thomas J. Cerep, doing business as Richie Moving & Storage Co., Scranton, Pa., authorizing the transportation of household goods, between Ashland, Pa., and points within 25 miles of Ashland, on the one hand, and, on the other, points in Pennsylvania, Ohio, West Virginia, Virginia, New Jersey, New York, Maryland, Delaware, and the District of Columbia—James J. Powell III, 700 Mears Building, Scranton, Pa. 18503, attorney for applicants.

No. MC–FC–74566. By order of September 18, 1973, the Motor Carrier Board approved the transfer to Seco Trucking, Inc., Memphis, Tenn., of Certificate No. MC–133936 issued November 19, 1970, to Lesco, Inc., Memphis, Tenn., authorizing the transportation of: (1) New Furniture, (2) premiums, prizes, and (3) agricultural commodities otherwise exempt under Section 203(b)(6) of the Interstate Commerce Act when moving in mixed loads with commodities set forth in (1) and (2) above, from Camden, Ark., and Athens, Tenn., to Memphis, Tenn.; and from Memphis, Tenn., to points in Arkansas, Missouri, Mississippi, Kentucky, Tennessee, Louisiana, Alabama, and Georgia—Mr. Robert L. White, Suite 1031, 100 N. Main Building, Memphis, Tenn. 38103.

No. MC–FC–74577. By order of September 18, 1973, the Motor Carrier Board approved the transfer to Spears Trucking Co., Inc., Owens Cross Roads, Ala., of Permit Nos. MC–128581 and MC–128581 (Sub-No. 1), issued October 1, 1969, and December 22, 1969, respectively, to John E. Spears Trucking Co., Owens Cross Roads, Ala., authorizing the transportation of cinder blocks, concrete blocks, and bricks, from Huntsville, Ala., to points in Georgia, Kentucky, Mississippi, North Carolina, and Tennessee and from points in Georgia, Kentucky, Mississippi, North Carolina, and Tennessee, to Huntsville, Ala.—John Z. Higgs Jr., 401 Franklin Street, SE. Huntsville, Alabama 35801.

No. MC–FC–74642. By order of September 14, 1973, the Motor Carrier Board approved the transfer to Freeport Transport, Incorporated, Clearfield, Utah, of Permits Nos. MC–133065 (Sub-No. 8) and (Sub-No. 17) issued March 8, 1971, and April 10, 1973, respectively, to Eckley Trucking and Leasing, Inc., Mead, Nebr., authorizing the transportation of salvage rail track, salvage switches, salvage plates, salvage ties, salvage spikes, and related salvage materials between points in the United States (except Alaska and Hawaii)—Miss Irene Warr, Attorney at Law, 430 Judge Building, Salt Lake City, Utah 84111.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

V 38-185 SEP 25 73 XUM

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Office of Education

[ 45 CFR Part 167 ]

### SPECIAL PROJECTS AND TEACHER TRAINING IN ADULT EDUCATION

### Proposed Priorities for Fiscal Year 1974

Pursuant to the authority contained in the Adult Education Act (84 Stat. 159–164, 20 U.S.C. 1201–1211), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Part 167 of Title 45 of the Code of Federal Regulations by adding thereto an Appendix A. Appendix A of Part 167 would read as set forth below.

The proposed Appendix to Part 167 would contain the priorities for fiscal year 1974 preapplications and applications for special experimental demonstration projects and for teacher training.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed priorities to the Division of Adult Education, U.S. Office of Education, 7th and D Streets SW., Room 5056–ROB, Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection at the above office on Mondays through Fridays between 8:30 a.m. and 4:30 p.m.

All relevant material received not later than October 25, 1973, will be considered.

Dated August 10, 1973.

JOHN OTTINA,
*U.S. Commissioner of Education.*

Approved September 21, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

(Catalog of Federal Domestic Assistance No. 13.401, Adult Education—Special Projects and No. 13.402, Adult Education—Teacher Education.)

APPENDIX A

PRIORITIES FOR FISCAL YEAR 1974

This Appendix contains priorities for preapplications and applications only for fiscal year 1974. The priorities for future fiscal years will be published in the FEDERAL REGISTER and thereafter may be obtained from the Division of Adult Education, U.S. Office of Education, Washington, D.C. 20202. Projects proposed in accordance with these priorities are subject to applicable statutes, regulations and guidelines, including the Adult Education Act, the regulations contained in 45 CFR 167, and the appropriate guidelines. Preapplications and applications should indicate the priority and the special emphasis being addressed within the priority.

(a) *Special experimental demonstration projects.* Section 309(b) of the Adult Education Act authorizes the Commissioner to make grants for certain special experimental demonstration projects.

(1) *Appropriate adult population.* The Adult Education Act authorizes education services for adults with less than a high school education or the equivalent. This group encompasses a population of 66,500,000 adults 16 years or older. However, past experience and program evaluations and reports have indicated that the needs of the following groups should be more adequately addressed in fiscal year 1974:

(i) Those with a fourth grade or less capability in reading, writing, computational and communication skills;

(ii) Welfare recipients; and

(iii) Rurally situated adults.

(2) *Program component needs.* In relation to the above populations, past experience and program evaluations also indicate remaining needs in two component areas:

(i) Recruitment and retention of participants in programs; and

(ii) Instruction, including

(*a*) prescribing learning activities to meet individual needs;

(*b*) fostering student participation in setting objectives and evaluating learning activities;

(*c*) evaluating the overall instructional program;

(*d*) diagnosing student learning needs;

(*e*) using adult basic education teachers to counsel adults; and

(*f*) using small group instruction.

It is hoped that preapplications and applications for fiscal year 1974 will, when appropriate, specifically address the above groups and components.

(3) *Program priorities.* For fiscal year 1974, the Commissioner will accept preapplications and applications for special experimental demonstration projects in the following areas: adult career education; adult right to read effort; and improving State-administered adult education services. These program priorities are detailed below. Projects initiated under the program priorities of fiscal year 1973 may also be renewed, under circumstances which will be described below.

(i) *Adult career education.* Career education, in general, provides for the sequential development of occupational awareness, orientation, exploration, and specialization. Career education for educationally disadvantaged adults, particularly as distinguished from career education for children and youth, is in need of definition, development, and placement in the adult education program. Furthermore, adult career education programs offer a unique opportunity to combine adult education experimental and demonstration activities with vocational and technical and manpower development and training programs. Therefore, preapplications and applications addressing one or more of the following career education-related areas will be accepted:

(*a*) Demonstration projects involving approximately five employers, each of which would experiment with introducing models which have a common adult education component. Such models must involve 60 or more employees each, and be designed in concert with concerned employers and unions. The models must provide for modifications of the work and learning environments in specific ways to determine the effect of these changes on adult learning, job satisfaction, and, where appropriate, cost effectiveness;

(*b*) Demonstration projects which are jointly administered by a State-administered adult education program and another State agency or projects which are jointly administered by a local adult educational agency (funded under a State-administered adult education program) and an appropriate municipal agency. These projects must develop model career education programs for educationally disadvantaged public service employees or potential employees by bringing together appropriate career education components including the development of career ladders within the participating agencies. An instructional materials package must be developed and validated. Competency-based instruction, utilizing specific objective performance standards, may be incorporated into the package. Current relevant materials should be analyzed prior to the development of the project, including ERIC materials and the career education materials developed under Parts D and I of the Vocational Education Act. An example of the latter type of materials is "Dissemination of Career Education Materials for Summer of 1973." A plan for national distribution of the project design and materials should also be developed. Linkages with appropriate national, State, and local organizations should be established;

(*c*) Demonstration projects which experiment with supplementing a local adult education program which is funded under the State-administered adult education program with a model for adult career development. Such projects must provide needs assessment services and information on available careers, advice on educational and learning opportunities available, and placement assistance in new careers. The project may also link with skill centers, business, industry, unions, and community organizations and advise them on structuring new careers and sequential career-ladders and collaborate with them in developing educational opportunities designed to assure career opportunities and progression;

(*d*) A study of practices in industry which treat the employment structure itself as a part of an adult learning system. Such a project must survey and analyze a limited number of good examples in which the work environment and personnel policies and procedures have been structured to facilitate a program of adult learning and development. Criteria used by the applicant in evaluating such praactices must be specified. A state-of-the-art report of effective structures and practices might be the project outcome. Procedures and methodologies which were used and those which were abandoned by the applicant should be identified and analyzed in the final report on the project;

(*e*) Studies which analyze existing models of cooperative industry and State-administered adult education programs. These studies must identify four or five of the most successful joint programs. Each such program must be analyzed in depth and a comparative analysis would highlight common characteristics and differences and strengths and weaknesses. Emphasis should be placed on dissemination of the studies in order to encourage similar cooperative programs; and

(*f*) Studies which analyze several current industry- and labor-sponsored adult basic education programs which do not receive State or Federal assistance. Large amounts of money are spent by industry and unions on adult basic education. Public school adult education personnel need to know the current policies and practices of business and industry regarding adult education for employees with less than a high school education or its equivalent. After identifying and analyzing current practices, projects must be designed to create collaborative career education programs utilizing the adult education expertise of public education programs and the skills, instruction, and job training capabilities of industry and unions.

(ii) *Adult right to read effort.* (*a*) The experience of the past eight years of adult basic education, together with information compiled from surveys of State and local adult education directors, the analysis of various program reports, and evaluations of State-administered adult education programs lead to the following conclusions:

(*1*) State-administered adult education programs have not adequately addressed the needs of the hard-to-reach adult who either has not completed at least four years of formal schooling or who is not functioning at the fourth-year level;

(*2*) Curricula for this hard-to-reach group either have not been developed or, if developed, have failed to sustain the interest of this group;

(*3*) Reading materials in these curricula have failed to be of a level suitable for use with this group; and

(*4*) Males have been more difficult to recruit for State-administered adult education programs, especially those young males in large cities and those located in isolated rural areas.

(*b*) The emphasis of the adult basic education program is on the most severely impoverished, the most severely undereducated, the unemployed, and the underemployed. The development of programs to serve the needs of these persons remains one of the primary national objectives.

(*c*) To address this national objective and the above conclusions, the U.S. Office of Education will accept preapplications and applications for adult right to read programs which design and demonstrate adult basic education models which should include a majority of the following characteristics:

(*1*) Grade level structure 0–4;

(*2*) Motivation and recruitment provisions, including but not limited to the mass media, for attracting the young males and others of the target group;

(*3*) Curricula developed or to be tested which include reading, computational, communication, and social living skills. Emphasis should be on curricula for reading at the grade level 0–4 which has a high-interest level and is compatible with providing a remedial reading approach for grade level 0–4;

(*4*) Special program provisions for retaining the hard to reach once they enter the program. These provisions may involve special pre-service and in-service education programs designed specifically for teachers of the grade level 0–4 group;

(*5*) Special counseling programs designed to meet the particular needs of young males, minorities, and adults functioning at grade level 0–4;

(*6*) Coordination with other Federal, State, and local programs, particularly those seeking to reach the same target group;

(*7*) Coordination and cooperation with public library programs in reassessing the availability of appropriate reading materials for grade level 0–4 adults;

(*8*) Survey of the grade level 0–4 adult population in the area where the project is to be conducted;

(*9*) Controlled and non-controlled classes of the grade level 0–4 adult population;

(*10*) Pre- and post-testing of the target population with emphasis on informal, less structured testing methods and procedures;

(*11*) Formative and summative evaluation plans. Formative evaluation should provide information on a monthly basis for project modification, while summative evaluation data should provide evidence for determining the extent to which project goals or objectives have been accomplished; and

(*12*) Third-party evaluations to assess the overall planning and management of the program model.

Knowledge of the current activities and projected ten-year plan for the national right to read effort is essential.

(iii) *Improving State-administered adult education services.* Adult education services must be broadened in size and scope and made responsive to the needs and interests of adults as they perceive them. Furthermore, the advances in this direction made by State-administered adult education programs should be further disseminated, expanded, and coordinated with compatible efforts by agencies outside of the State and local educational agencies.

To address this national need, preapplications and applications for the following projects will be accepted:

(*a*) Projects which experiment with adding to a local program funded under a State-administered adult education program new supportive capabilities in assessing adult needs and in designing educational experiences to meet these needs. An example of such a project would be the creation of a community adult educational services unit. This unit would monitor the community to identify major problem areas (for example, specific types of crimes, unemployment, health, and inadequate community services), analyze how adult education and other community resources can contribute to solutions of the problem areas, and design adult learning experiences accordingly. Such a project would also demonstrate new delivery systems which foster access of adults to these learning experiences. It may also experiment with allowing recipient groups to actually operate educational programs for their peers, calling upon professional help as necessary.

(*b*) Projects which experiment with adding to a local project operated pursuant to a State-administered adult education program new capabilities to link the project with business and industry. The primary objective of these projects must be to link the local adult educational program, business, industry, unions, employees, and other related community groups in a planned and targeted adult education program. Such a project might, for example, create business and industry liaison and planning units which will seek to utilize the predictable and unpredictable periods of idleness in industry. Lay-offs occasioned by model change-overs, plant remodeling, and supply shortages present periods of opportunity for targeted and relevant adult education. Such industry liaison and planning units might survey industry to ascertain planned and possible periods of idleness, industry's assessment of employee training needs, and the workers' and their families' learning interests. The units might design special learning programs for workers and their families during such periods of idleness. Since business and industry facilities are usually available during such periods of idleness, industry and union contributions to these learning efforts might be solicited.

(*c*) Projects which systematically exchange public school adult education administrators and practitioners with personnel from community agencies, industry, unions, and other identified organizations. The primary objective of such projects would be to provide adult educators with broadened experience of adult learner needs. A secondary objective would be to provide avenues of communication and community contact normally outside the organization experience of the public education system. Objectives for the community exchange personnel would be to give them experience with the public education system and its possible uses as a community resource in meeting adult needs. Such experience would correspondingly open to the exchange personnel new avenues of communication with the public education system.

(iv) *Renewals.* Preapplications and applications under section 309(b) of the Act will also be accepted in accordance with those fiscal year 1973 priorities (as described in the "Open Letter" announcing the fiscal year 1973 priorities) which have not been continued for fiscal year 1974. However, such preapplications and applications will only be accepted from those applicants who received grants under such discontinued priorities in fiscal year 1973 and will be reviewed on a competitive basis with all other applications under section 309(b) of the Act.

(20 U.S.C. 1208(b); 45 CFR 167.4(a), 167.7 (b).)

(b) *Teacher training programs.* Section 309(c) of the Act authorizes the Commissioner to make grants to provide training for persons engaged, or preparing to engage, as personnel in adult education programs designed to carry out the purposes of the Act.

(1) *National adult education staff development program.* It is anticipated that approximately nine national adult education staff development programs (which were started in fiscal year 1972 and continued in fiscal year 1973) will be continued in fiscal year 1974. The purpose of the programs is to establish a more effective means of providing quality in-service education for adult education personnel while at the same time developing more effective systems of preservice education. To continue this effort, the U.S. Office of Education will award grants for the conduct of the third year of the national adult education staff development programs. Applications are requested for the continuation of such programs.

(2) *Adult education program for cultural and ethnic understanding.* (i) Preapplications and applications will be accepted for adult education programs for cultural and ethnic understanding. The purposes of the programs will be to provide leadership development for representatives of minority groups and to sensitize teachers and administrators to the needs and values of culturally and ethnically different adults. A problem frequently encountered in the preparation of teachers and counselors for adult education programs is that of developing staff awareness of the unique problems encountered by the adult student. A specific problem is the social distance that exists between the adult students of varied ethnic and cultural backgrounds and many public school teachers. To work effectively with adult students with different social and cultural perspectives, teachers must have understanding and appreciation of the point of view of the adult student. Minorities must also be adequately represented in leadership positions in adult education.

(ii) To address this national need, preapplications and applications are requested for programs which are designed to accomplish one or more of the following:

(*a*) Identify leaders and potential leaders who are engaged in or preparing to become engaged in leadership roles in the growing variety of adult education programs. Leaders should be representative of all segments of the minority population, including women and racial, ethnic, cultural, and social diversification within the adult education population;

(*b*) Provide effective cross-cultural training for teachers and administrators;

(*c*) Include the involvement and participation of the diverse minority groups represented in the adult education population in career development programs, along with majority group representation;

(*d*) Provide linkages with the national staff development programs as a direct strategy for incorporating programs for minority leadership development. This would serve as a first step in bringing minority leadership into State and local adult education systems. Emphasis should be placed on the involvement of teacher educators as strategic personnel in responding to the needs of minority groups;

(*e*) Provide linkages with other related special project activity to serve as a source

V 38 185 SEP 25 73 XUM

of information of minority leaders and leadership development techniques, and to provide ideas for other projects; and

(*j*) Include the development and dissemination of such publications as are needed to incorporate ethnic and cultural understanding concepts into ongoing adult education programs.

(3) *Support programs for the national adult education staff development program.* The U.S. Office of Education will also accept preapplications and applications for programs that would provide direct support to the national adult education staff development program. Preapplications and applications must be written in cooperation with projects funded under the above regional staff development effort, and needs should be jointly identified. Identified needs must be national or multi-regional in nature, and programs must be designed to provide services that cannot feasibly be implemented by the individual regional staff development projects. Such support programs could, for example, identify national resources, disseminate relevant adult education personnel training information, or provide specialized training activities on a multi-regional or national basis.

(20 U.S.C. 1208(c); 45 CFR 167.4(b), 167.7(c).)

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

# REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

### Rules Going Into Effect Today

page no. and date

NOTE: There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

### Next Week's Deadlines for Comments on Proposed Rules

**OCTOBER 1**

AEC—Special packaging form for shipping plutonium 20482; 8–1–73
AMS—Plant sanitation requirements for certain processed fruits and vegetables 13490; 5–22–73
—First published at 7466; 3–22–73
—Standards for grades of frozen concentrated apple juice; notice of proposed rulemaking 22406; 8–20–73
ANIMAL AND PLANT HEALTH INSPECTION SERVICE—Jar closures for meat and poultry food product; requirement for prevention of filth and insect accumulation 19690; 7–23–73
—Xanthan gum; approval for and restrictions on use in various products 19690; 7–23–73
FAA—Designation of Federal airways, area low routes, controlled airspace, and reporting points 23419, 8–30–73; 23536, 8–31–73
FCC—Antenna monitors in standard broadcast stations with directional antennas 18688; 7–13–73
—Ascertainment of community problems by broadcast applicants. 20275; 7–27–73
—Petroleum radio service; expanded use of tone and impulse signaling. 20278; 7–27–73
FDA—Filled milk products; common or usual names 20748; 8–2–73
—Restructured foods; establishment of common or unusual names. 20746; 8–2–73
—Sour cream and related products; establishment of definitions, and standards of identity 20627; 8–2–73
FMC—Port of New York; uniform rules and regulations governing free time on import containerized cargo. 23540; 8–31–73
FWS—Marine mammals 22143; 8–16–73
NOAA—Financial aid program procedures; statement of policy and intent 20338; 7–31–73
—Marine mammals; taking and importing 22133; 8–16–73
OSHA—Public disclosure of information; monitoring of certain hazards. 23413; 8–30–73
SBA—Disclosure of information. 23422; 8–30–73
—Retail mobile home dealers; small business size standards 23541; 8–31–73
USDA—Specifications for rural telephone facilities; equipment for automatic number identification and direct distance dialing 23413; 8–30–73
VA—Reports by schools; requirements. 32541; 8–31–73

**OCTOBER 3**

EPA—Advertised construction contracts; procurement forms 20267; 7–27–73

**OCTOBER 5**

AMS—Labeling policy for cured products 21648; 8–10–73
CIVIL AERONAUTICS BOARD—Classification and exemption of air taxi operators; reporting of certain data by commuter air carriers and other air taxi operators 22494; 8–21–73
COST ACCOUNTING STANDARDS BOARD—Cost accounting period; selection 21276; 8–7–73
DoT—Dangerous cargo regulations; marking of packages 23535; 8–31–73
FCC—Communications Satellite Co.; financial rules 20275; 7–27–73
NHTSA—Uniform tire quality grading. 21939; 8–14–73

### Next Week's Hearings

**OCTOBER 1**

COMMISSION ON REVISION OF THE FEDERAL COURT APPELLATE SYSTEM—Realinement of Federal judicial circuits, to be held in New York City, N.Y 25467; 9–13–73

**OCTOBER 2**

EPA—Consideration of home pesticide use of calcium cyanide, strychnine, sodium monofluoroacetate, and sodium cyanide 23010; 8–28–73
—Farm worker protection; occupational safety requirements for pesticides, to be held in Chicago, Ill 20362; 7–31–73
—Occupational safety requirements for pesticides 23557; 8–31–73
FAA—Air transportation of handicapped persons 23352; 8–29–73
HEW—Financial assistance for demonstration projects for reducing school dropouts 21788; 8–13–73

**OCTOBER 3**

CEQ—Atlantic Outer Continental Shelf and Gulf of Alaska oil and gas development; held at Mineola, N.Y. 24398; 9–7–73

**OCTOBER 4**

CEQ—Atlantic Outer Continental Shelf and Gulf of Alaska oil and gas development; held at Mineola, N.Y. 24398; 9–7–73
FAA—Air transportation of handicapped persons 23352; 8–29–73

FISH AND WILDLIFE SERVICE—Desirability of including a portion of the National Elk Refuge within the National Wilderness Preservation System, to be held in Wyoming. 21506; 8–9–73

### Weekly List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statutes citation. Subsequent lists will appear every Wednesday in the FEDERAL REGISTER. Copies of the laws may be obtained from the U.S. Government Printing Office.

H.J. Res. 695 Pub. Law 93–108
Johnny Horizon '76 Clean Up America Month, designation (Sept. 19, 1973; 87 Stat. 351)
S. 1165 Pub. Law 93–109
Little Cigar Act of 1973 (Sept. 21, 1973; 87 Stat. 352)
H.R. 6912 Pub. Law 93–110
To amend the Par Value Modification Act, and for other purposes (Sept. 21, 1973; 87 Stat. 352)
S. 1385 Pub. Law 93–111
Trust Territory of the Pacific Islands, continuance of civil government, provision (Sept. 21, 1973; 87 Stat. 354)

The President vetoed S. 1672, Small Business Act amendments. Message dated Sept. 22, 1973; Weekly Compilation of Presidential Documents, Vol. 9. No. 38.

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER Issue of each month.

## Title 5—Administrative Personnel

### CHAPTER I—CIVIL SERVICE COMMISSION

### PART 213—EXCEPTED SERVICE

#### General Services Administration

Section 213.3337 is amended to show that one additional position of Confidential Assistant to the Commissioner, Federal Supply Service, is excepted under Schedule C.

Effective on September 26, 1973, § 213.3337(c)(2) is amended as set out below.

## Title 7—Agriculture

### CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

### PART 56—VOLUNTARY GRADING OF SHELL EGGS AND U.S. STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

#### Miscellaneous Amendments

Under authority contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621–1627) the U.S. Department of Agriculture hereby amends the Regulations Governing the Grading of Shell Eggs and U.S. Standards, Grades, and Weight Classes for Shell Eggs (7 CFR Part 56).

STATEMENT OF CONSIDERATIONS

On August 3, 1973, a rulemaking proposal was published in the FEDERAL REGISTER (38 FR 20896) which would eliminate air cell movement as a quality factor in shell egg grading, provide a definition for "Nest run eggs," make some adjustments in the tolerances in the consumer and procurement grades, and require equipment to reduce excessive iron content in water used to wash eggs.

Thirty-six letters were received by the Hearing Clerk on the proposal. Thirty-two comments favored the proposal and only four comments were in opposition. One comment opposed all of the adjustments in tolerances as confusing and a lowering of the grade standards, while another cited the slight increase in the tolerance for checks as a health hazard. It is impossible to market eggs without tolerances. The Department has found that due to mechanization and rapid handling of eggs after lay, some adjustments are now necessary. For example, the more rapid handling of higher quality eggs makes 100 percent detection of some types of spots impossible at time of initial grading. Consequently, a slight change is being made to overcome this situation. The slight increase in checks in the procurement grades is consistent with a long-standing tolerance in the consumer grades which has caused no problems over the years.

Another comment opposed deletion of air cell movement on the basis that this indicates eggs had been handled roughly and that such movement may be caused by disease. Disease in flocks is reflected in factors other than the air cell, such as weak albumen and shell deformities, which would automatically downgrade the eggs. The Department is not aware of any disease that only affects the air cell. As mentioned in the proposed rulemaking, studies have shown that air cell movement is not indicative of quality.

Another comment opposed the definition of "Nest run eggs" based upon the belief that certain types of undergrade eggs, such as soft shells, could not be removed from the pack. This was a misunderstanding. The definition of "Nest run eggs" does permit the removal of obvious undergrade eggs at time of gathering.

There were other letters which supported the proposed changes and also asked for additional changes to be made in the regulations. These additional changes will not be considered at this time because they were not included as proposed rulemaking. However, the Department will make use of such recommendations in future rulemaking considerations.

In view of the widespread support for and the desirability of the amendments, the Department has decided to promulgate them as proposed, with the exception that wording is added to § 56.76(e)(8) to provide that the frequency of testing for water potability and iron content shall be at the discretion of the Administrator, and new testing is required when there is a change in the water source. This provision was suggested in several of the comments received by the Hearing Clerk.

The amendments are as follows:

1. In § 56.1, immediately following the definition for "National supervisor," a new definition for "Nest run eggs" is inserted to read:

**§ 56.1 Meaning of words and terms defined.**

• • • • • •

"Nest run eggs" means eggs which are packed as they come from the production facilities without having been washed, sized and/or candled for quality, with the exception that some Checks, Dirties, or other obvious undergrades may have been removed at the time of gathering.

• • • • • •

2. In § 56.3, the present text is designated paragraph (a) and a new paragraph (b) is added to read:

V 38 I 186 SEP 26 73 XUM

§ 56.3 Administration.

. . . . .

(b) The conduct of all services and the licensing of graders under these regulations shall be accomplished without discrimination as to race, color, religion, sex, or national origin.

3. In § 56.42, paragraph (b)(10) is amended to read:

§ 56.42 Requirements for eggs packaged under Fresh Fancy Quality grade mark or AA grade mark as shown in figures 4 and 5 of § 56.36.

. . . . .

(b) Minimum requirements at packaging plant.

. . . . .

(10) Graders shall examine samples of packaged product in accordance with the provisions of § 56.4 or as determined by the National supervisor. A tolerance of 15 percent is permitted in eggs that are of B quality with respect to shell. Within the 15 percent tolerance, 5 percent in any combination may be C quality due to shell, or meat or blood spots and Checks. In addition, 0.30 percent may be Leakers and Loss (due to meat or blood spots) in any combination. No Dirties or Loss other than as specified are permitted.

4. In § 56.43, paragraph (e) is amended to read:

§ 56.43 Requirements for eggs packaged under the U.S. grade A mark as shown in Figure 7 of § 56.36.

. . . . .

(e) A tolerance of 5 percent is permitted in any combination for C quality with respect to shell, meat or blood spots, and Checks. In addition, 0.30 percent may be Leakers and Loss (due to meat or blood spots) in any combination. No Dirties or Loss other than as specified are permitted.

5. In § 56.76, paragraph (e)(8) is amended to read:

§ 56.76 Minimum facility and operating requirements for shell egg grading and packing plants.

. . . . .

(e) *Shell egg cleaning operations.* . . .

(8) Only potable water may be used to wash eggs and each official plant shall submit certification to the National Office stating that their water supply is potable. An analysis of the iron content of the water supply, stated in parts per million, is also required and when the iron content exceeds 2 parts per million, equipment shall be provided to correct the excess iron content. Frequency of testing shall be determined by the Administrator, and when the water source is changed, new tests are required.

. . . . .

6. Section 56.201 is amended to read:

§ 56.201 AA Quality.

The shell must be clean, unbroken, and practically normal. The air cell must not exceed ⅛ inch in depth, may show unlimited movement, and may be free or bubbly. The white must be clear and firm so that the yolk is only slightly defined when the egg is twirled before the candling light. The yolk must be practically free from apparent defects.

7. Section 56.202 is amended to read:

§ 56.202 A Quality.

The shell must be clean, unbroken, and practically normal. The air cell must not exceed $^{3}/_{16}$ inch in depth, may show unlimited movement, and may be free or bubbly. The white must be clear and at least reasonably firm so that the yolk outline is only fairly well defined when the egg is twirled before the candling light. The yolk must be practically free from apparent defects.

8. Section 56.204 is amended to read:

§ 56.204 C Quality.

The shell must be unbroken, may be abnormal and may have slightly stained areas. Moderately stained areas are permitted if they do not cover more than ¼ of the shell surface. Eggs having shells with prominent stains or adhering dirt are not permitted. The air cell may be over ⅜ inch in depth, may show unlimited movement and may be free or bubbly. The white may be weak and watery so that the yolk outline is plainly visible when the egg is twirled before the candling light. The yolk may appear dark, enlarged, and flattened, and may show clearly visible germ development but no blood due to such development. It may show other serious defects that do not render the egg inedible. Small blood clots or spots (aggregating not more than ⅛ inch in diameter) may be present.

9. Section 56.209 is amended to read:

§ 56.209 Terms descriptive of the air cell.

(a) *Depth of air cell (air space between shell membranes, normally in the large end of the egg).* The depth of the air cell is the distance from its top to its bottom when the egg is held air cell upward.

(b) *Free air cell.* An air cell that moves freely toward the uppermost point in the egg as the egg is rotated slowly.

(c) *Bubbly air cell.* A ruptured air cell resulting in one or more small separate air bubbles usually floating beneath the main air cell.

10. In § 56.216, paragraphs (b), (c), and (d) are amended to read:

§ 56.216 Grades.

. . . . .

(b) *U.S. Grade AA.* (1) U.S. Consumer Grade AA (at origin) shall consist of eggs which are 85 percent AA quality. The maximum tolerance of 15 percent which may be below AA quality may consist of A or B quality in any combination, with not more than 5 percent C quality or Checks in any combination and not more than 0.50 percent Leakers or Loss (due to meat or blood spots) in any combination. No Dirties or Loss other than as specified are permitted. This grade is also applicable when the lot consists of eggs meeting the requirements set forth in § 56.42.

(2) U.S. Consumer Grade AA (destination) shall consist of eggs which are 80 percent AA quality. The maximum tolerance of 20 percent which may be below AA quality may consist of A or B quality in any combination with not more than 5 percent C quality or Checks in any combination and not more than 0.50 percent Leakers, Dirties, or Loss (due to meat or blood spots) in any combination, except that such Loss may not exceed 0.30 percent. Other types of Loss are not permitted. This grade is also applicable when the lot consists of eggs meeting the requirements set forth in § 56.42.

(c) *U.S. Grade A.* (1) U.S. Consumer Grade A (at origin) shall consist of eggs which are 85 percent A quality or better. Within the maximum tolerance of 15 percent which may be below A quality, not more than 5 percent may be C quality or Checks in any combination, and not more than 0.30 percent Leakers or Loss (due to meat or blood spots) in any combination. No Dirties or Loss other than as specified are permitted. This grade is also applicable when the lot consists of eggs meeting the requirements set forth in § 56.43.

(2) U.S. Consumer Grade A (destination) shall consist of eggs which are 80 percent A quality or better. Within the maximum tolerance of 20 percent which may be below A quality, not more than 5 percent may be C quality or Checks in any combination, and not more than 0.50 percent Leakers, Dirties, or Loss (due to meat or blood spots) in any combination, except that such Loss may not exceed 0.30 percent. Other types of Loss are not permitted. This grade is also applicable when the lot consists of eggs meeting the requirements set forth in § 56.43.

(d) *U.S. Grade B.* (1) U.S. Consumer Grade B (at origin) shall consist of eggs which are 85 percent B quality or better. Within the maximum tolerance of 15 percent which may be below B quality, not more than 10 percent may be Checks and not more than 0.30 percent Leakers or Loss (due to meat or blood spots) in any combination. No Dirties or Loss other than as specified are permitted.

(2) U.S. Consumer Grade B (destination) shall consist of eggs which are 80 percent B quality or better. Within the maximum tolerance of 20 percent which may be below B quality, not more than 10 percent may be Checks and not more than 0.50 percent Leakers, Dirties, or Loss (due to meat or blood spots) in any combination, except that such Loss may not exceed 0.30 percent. Other types of Loss are not permitted.

. . . . .

11. In § 56.217, Table I is amended to read:

§ 56.217 Summary of grades.

. . . . .

TABLE I.—*Summary of Consumer Grades for Shell Eggs*

| U.S. Consumer grade (origin) | Quality required [1] | Tolerance permitted [2] | |
|---|---|---|---|
| | | Percent | Quality |
| Grade AA or Fresh Fancy Quality | 85 percent AA | Up to 15 | A or B. |
| | | Not over 5 | C or Check. |
| Grade A | 85 percent A or better | Up to 15 | B. |
| | | Not over 5 | C or Check. |
| Grade B | 85 percent B or better | Up to 15 | C. |
| | | Not over 10 | Checks. |

| U.S. Consumer grade (destination) | Quality required [1] | Tolerance permitted [3] | |
|---|---|---|---|
| | | Percent | Quality |
| Grade AA or Fresh Fancy Quality | 80 percent AA | Up to 20 | A or B. |
| | | Not over 5 | C or Check. |
| Grade A | 80 percent A or better | Up to 20 | B. |
| | | Not over 5 | C or Check. |
| Grade B | 80 percent or better | Up to 20 | C. |
| | | Not over 10 | Checks. |

[1] In lots of two or more cases or cartons, see Table II of this section for tolerances for an individual case or carton within a lot.
[2] For the U.S. Consumer grades (at origin), a tolerance of 0.30 percent Leakers or Loss (due to meat or blood spots) in any combination is permitted. No Dirties or other type Loss are permitted.
[3] For the U.S. Consumer grades (destination), a tolerance of 0.50 percent Leakers, Dirties, or Loss (due to meat or blood spots) in any combination is permitted, except that such Loss may not exceed 0.30 percent. Other types of Loss are not permitted.

12. In § 56.221, paragraphs (a) and (b) are amended to read:

§ 56.221 Grades.

(a) *U.S. Procurement Grade I.* (1) U.S. Procurement Grade I (at origin) shall consist of eggs which are 85 percent A quality or better. Within the maximum tolerance of 15 percent which may be below A quality, not more than 5 percent may be C quality or Checks in any combination and not more than 0.30 percent may be Dirties, Leakers, and Loss combined. Loss, other than meat or blood spots, shall not exceed 0.15 percent.

(2) U.S. Procurement Grade I (destination) shall consist of eggs which are 80 percent A quality or better. Within the maximum of 20 percent which may be below A quality not more than 5 percent may be C quality or Checks, in any combination and not more than 0.50 percent may be Dirties, Leakers, and Loss combined. Loss, other than meat and blood spots shall not exceed 0.20 percent.

(b) *U.S. Procurement Grade II.* (1) U.S. Procurement Grade II (at origin) shall consist of eggs which are 65 percent A quality or better. Within the maximum tolerance of 35 percent which may be below A quality, not more than 10 percent may be C quality or Checks in any combination, except that Checks may not exceed 5 percent and not more than 0.30 percent may be Dirties, Leakers, and Loss combined. Loss, other than meat and blood spots shall not exceed 0.15 percent.

(2) U.S. Procurement Grade II (destination) shall consist of eggs which are 60 percent A quality or better. Within the maximum tolerance of 40 percent which may be below A quality, not more than 10 percent may be C quality or Checks, in any combination, except that Checks may not exceed 5 percent and not more than 0.50 percent may be Dirties, Leakers, and Loss combined. Loss, other than meat and blood spots, shall not exceed 0.20 percent.

. . . . .

13. In § 56.522, Table I is amended to read:

§ 56.522 Summary of grades.

. . . . .

TABLE I.—*Summary of U.S. Procurement Grades for Shell Eggs*

| U.S. procurement grade (origin) | A quality or better (lot average) at least [1] (percent) | Maximum tolerance permitted (lot average) [2] | |
|---|---|---|---|
| | | Percent | Quality |
| I | 85 | Up to 15 | B. |
| | | Not over 5 | C, Check. |
| II | 65 | Up to 35 | B. |
| | | Not over 10 | C, Check. |

| U.S. procurement grade (destination) | A quality or better (lot average) at least [1] (percent) | Maximum tolerance permitted (lot average) [3] | |
|---|---|---|---|
| | | Percent | Quality |
| I | 80 | Up to 20 | B. |
| | | Not over 5 | C, Check. |
| II | 60 | Up to 40 | B. |
| | | Not over 10 | C, Check. |

[1] Individual cases may not exceed 10 percent less A quality eggs than permitted for the lot average.
[2] For U.S. Procurement Grades (at origin), a maximum of 5 percent Checks is permitted and not more than 0.30 percent may be Dirties, Leakers, and Loss combined. Loss other than meat and blood spots shall not exceed 0.15 percent.
[3] For U.S. Procurement Grades (destination), a maximum of 5 percent Checks is permitted and not more than 0.50 percent may be Dirties, Leakers, and Loss combined. Loss, other than meat and blood spots, shall not exceed 0.20 percent.

V 38 1186 SEP 26 73 XUM

Done at Washington, D.C., this 20th day of September 1973.

To become effective October 29, 1973.

JOHN C. BLUM,
*Acting Administrator.*

## PART 201—FEDERAL SEED ACT REGULATIONS

### Certifying Agency Standards and Procedures To Assure Genetic Purity and Identity of Certified Seed

*Correction*

In FR Doc. 73-19355 appearing at page 25661 of the issue for Friday, September 14, 1973, make the following changes:

1. The last line of § 201.2(ii) reading "cross, a three-way, inbred lines." should read "cross, a three-way, or a top cross."

2. In the title of § 201.70, the word "certified" should be "Certified".

3. In the second line of § 201.75(a) insert "of" between the words "classes" and "certified".

4. In Table 5 of § 201.76 make the following changes:

a. The entry for "Clover (all kinds)" under "Registered Land", reading "3", should be preceded by footnotes 1 and 9.

b. The entry for "Flax" under "Foundation Land", reading "1", should be preceded by a footnote 7.

c. The following entry should be inserted between "Lespedeza" and "Millet":

| Crop kind | Foundation | | | | Registered | | | | Certified | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Land | Isolation | Field | Seed | Land | Isolation | Field | Seed | Land | Isolation | Field | Seed |
| Milk vetch | 1.5 | [4] (60) | 2,000 | 0.05 | [3] | [4] 300 | 1,000 | 0.1 | [2] | [4] 165 | 200 | 0.5 |

d. The entries for "Millet" under "Foundation isolation", "Registered isolation", and "Certified Isolation", reading 1,320, 1,320, and 660, respectively, should each be preceded by a footnote 41.

5. On page 25664, the following changes should be made to the footnotes to table 5:

a. In the first line of footnote 29, the parenthesis preceding "genetically" should be deleted.

b. The second line of footnote 32, now reading "pollinator rows in inter-planted blocks.", should read "pollinator plants in inter-planted blocks."

c. The word "seeds" at the end of the first sentence of footnote 38 should be "seed".

## Title 14—Aeronautics and Space

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION

## DEPARTMENT OF TRANSPORTATION

[Docket No. 73-EA-73; Amdt. 39-1725]

## PART 39—AIRWORTHINESS DIRECTIVE

### DeHavilland Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to deHavilland DHC-6 type floatplane class airplane.

There has been a report of a failure of a float to fuselage attachment bolt on the subject airplane which is believed to result from improper torquing. Since this deficiency can exist or develop on other airplanes of similar type and class design, an airworthiness directive is being issued which will require a replacement of the attachment bolts.

Since this deficiency poses a hazard to air safety requiring expeditious adoption of the amendment, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

DEHAVILLAND MODEL DHC-6: applies to deHavilland Model DHC-6 Twin Otter Floatplanes, all Series, certificated in all categories, equipped with Canadian Aircraft Products Model 12000A or 12000B Floats installed prior to Float Serial No. 71.

1. Compliance is required within the next ten hours in service from the effective date of this Airworthiness Directive, unless already accomplished.

To prevent loosening and subsequent pull-out failure of certain float to fuselage bolts, comply with accomplishment instruction of deHavilland Service Bulletin 6/296, Revision A, dated May 11, 1973, or an equivalent alteration approved by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

This amendment is effective October 3, 1973.

Issued in Jamaica, N.Y., on September 18, 1973.

LOUIS J. CARDINALI,
*Acting Director, Eastern Region.*

[FR Doc.73-20462 Filed 9-25-73;8:45 am]

[Airworthiness Docket No. 73-WE-17-AD; Amdt. 39-1724]

## PART 39—AIRWORTHINESS DIRECTIVES

### Hiller Model UH-12 and 12A, B, C, D, and E Helicopters

There have been cracks and failures of the main rotor hub on Hiller Model UH-12B, C, D, and E Helicopters that could result in separation of the main rotor from the helicopter. Since this condition is likely to exist or develop on other helicopters of the same type designs, an airworthiness directive was adopted by telegram on September 5, 1973, and made effective immediately by airmail letter, dated September 6, 1973, as to all known operators of Hiller Model UH-12B, C, D, and E Helicopters. This directive requires initial and repetitive dye penetrant inspection of the main rotor hub and replacement if necessary.

Since it was found that immediate action was required, notice and public procedure thereon was impracticable and contrary to public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Hiller Model UH-12B, C, D, and E Helicopters by individual airmail letter dated September 6, 1973. Subsequent to the issuance of the telegraphic AD, the agency has determined that Models 12 and 12A should be added to the applicability of the AD; that additional dash numbers identifying the hub are in service; and that the inspection required may be limited to the inside of the main rotor hub. The AD, as published in the FEDERAL REGISTER, reflects these substantive changes.

The conditions which necessitated issuance of the telegraphic AD still exist and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following airworthiness directive to make it effective to all persons.

HILLER AVIATION. Applies to Hiller Model UH-12, UH-12A, UH-12B, UH-12C, UH-12D, and UH-12E Helicopters certificated in all categories.

Compliance required within the next 5 hours time in service after the effective date of this AD, unless already accomplished on receipt of the telegraphic AD dated September 6, 1973, and thereafter at intervals not to exceed 50 hours time in service from the last inspection.

To detect cracks in the main rotor hub P/N's 51437, 51437-6, 51437-7, 51437-8, 51437-9, 51437-11, 51437-901, and 51437-11-911, accomplish the following: Conduct dye penetrant inspection of the main rotor hubs P/N's 51437, 51437-6, 51437-7, 51437-8, 51437-9, 51437-11, 51437-901, 51437-11-911, inside the hub in the area opposite the control rotor trunnion attachments. If cracks are found, replace with a new part before further flight and continue the 50 hour interval dye penetrant inspections. Report cracks found, model and serial number, and total time in service on the main rotor hub, to Chief, Aircraft Engineering Division, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009. (Reporting approved by the Bureau of the Budget under B.O.B. No. 04-R0174).

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).)

This amendment is effective on October 30, 1973.

Issued in Los Angeles, California on September 18, 1973.

ARVIN O. BASNIGHT,
*Director, FAA Western Region.*

[Airspace Docket No. 73-GL-30]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES CONTROLLED AIRSPACE, AND REPORTING POINTS

### Designation of Transition Area

On pages 18470 and 18471 of the FEDERAL REGISTER dated July 11, 1973, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Wilmington, Ohio.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., November 8, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois, on September 5, 1973.

LYLE K. BROWN,
*Director, Great Lakes Region.*

In § 71.181 (38 FR 435), the following transition area is added:

WILMINGTON, OHIO

That airspace extending upward from 700 feet above the surface within a 10 mile radius of the Wilmington Industrial Airport (latitude 30°25'45" N., longitude 83°48'00" W.).

[FR Doc.73-20463 Filed 9-25-73;8:45 am]

## Title 32—National Defense

## CHAPTER VII—DEPARTMENT OF THE AIR FORCE

## SUBCHAPTER B—SALES AND SERVICES

## PART 818b—LEGAL ASSISTANCE PROGRAM

### Provision of Services

Subchapter B of Chapter VII of Title 32 of the Code of Federal Regulations is amended by adding a new Part 818b. This part describes services provided by the Air Force legal assistance program and specifies who is entitled to them. Part 818b is added to read as follows:

Sec.
818b.0 Purpose.
818b.1 Program responsibilities.
818b.2 Persons entitled to legal assistance.
818b.3 Legal assistance services provided.
818b.4 Limitation on services.

AUTHORITY: 10 U.S.C. 8012.

### § 818b.0 Purpose.

(a) This part prescribes an Air Force-wide legal assistance program whereby all military personnel, their dependents, and certain civilian personnel may obtain competent advice and assistance in resolving personal civil legal problems.

(b) Part 806 of this chapter states that basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

### § 818b.1 Program responsibilities.

(a) Responsibility for the efficient and proper functioning of the legal assistance program within the Air Force extends to all commands.

(b) Under the Chief of Staff, United States Air Force, staff supervision of the legal assistance program is assigned to The Judge Advocate General of the Air Force. He maintains liaison with the American Bar Association and other civilian bar organizations that he deems advisable.

### § 818b.2 Persons entitled to legal assistance.

(a) Services provided for in this part are given to the following personnel and their dependents:

(1) All members (including those confined in foreign penal institutions) on active duty with the Armed Forces of the United States, including the United States Coast Guard.

(2) Members of Allied Armed Forces serving in the United States, or its possessions. (The Judge Advocates General of the United States and the Canadian Forces have informally agreed that personnel of their respective establishments will render legal assistance to the members of the other's forces while such members are performing military duties in their country.)

(b) To the extent personnel and facilities are available, extend legal assistance to:

(1) Retired Regular and retired Career Reserve personnel of the United States forces and their dependents.

(2) Dependent survivors of military personnel, including those retired.

(3) Civilian employees of United States Armed Forces at an isolated installation or an installation in a foreign area.

### § 818b.3 Legal assistance services provided.

Personnel rendering legal assistance under the program will do the following:

(a) After proper consultation with their client, they will give advice, assistance, and counsel on all person civil legal problems.

(b) Normally, they will refer cases involving specialized areas of law—such as trusts, deeds, complicated wills, estate planning, mortgages, etc.—as provided in paragraph (d) of this section. Such cases will only be handled by legal assistance personnel when the staff judge advocate determines that workload and experience level permit.

(c) Due to the severe difficulty in locating witnesses to wills, all wills executed should have the name of the witness printed or typed below his signature, along with his social security number and the most permanent mailing address possible.

(d) When proper, a client seeking legal assistance on legal matters beyond the scope and availability of activities of the legal assistance program will be referred to a lawyer of the client's choice, or to such bar organizations as may be available and appropriate, for advice and action.

(1) Insofar as practicable, the client will be advised to consult his usual civilian attorney.

(i) If, for any reason, this is impracticable or not desired by the client, he may be referred to a cooperating bar organization for assistance in retaining competent counsel.

(ii) As a temporary measure in the absence of an organized local bar, or upon failure of the local bar association to set up a committee or designate an individual to accept referrals, the legal assistance officer will prepare a list to be used for referral of local attorneys who have evidenced through their previous handling of servicemen's cases a willingness to give prompt and careful attention to such cases. Except under the most unusual circumstances, and then only with advance permission of his staff judge advocate, will a legal assistance officer refer clients to a list of less than three civilian attorneys or to a named civilian attorney.

(iii) In overseas commands, the senior staff judge advocate serving in a foreign country, if deemed appropriate after consultation with appropriate consular officials and any cooperating local or national bar association or similar agency, will prepare a list of local civilian attorneys which may be used as set out in this section.

(2) Indigent clients needing civilian counsel are referred to the appropriate legal aid organization or representative of the local bar designated to handle such referrals.

V 38 I 186
SEP 26 73
XUM

NOTE.—Once a civilian attorney has been retained, the legal assistance officer, as required by professional ethics, will refrain from advising the client on that particular matter.

(e) In domestic relations cases, the problem should be fully explored, with the objective of preventing separation and divorce. With the knowledge and consent of both parties, both parties may be consulted without impropriety and advised of their legal rights and obligations to each other, their children, and society.

(f) On complaints of discrimination, complainant should be advised concerning:

(1) Application of the Civil Rights Act of 1964;

(2) Procedures as set forth in pertinent Air Force regulations for processing such complaints; and

(3) Rights of individuals to pursue remedies through civilian channels without recourse to procedures prescribed in Air Force regulations.

**§ 818b.4 Limitation on services.**

Legal assistance is limited to services furnished to the client, such as advice, preparation of documents, etc. Legal assistance personnel, in such capacity, will not:

(a) Appear in person or by pleadings before domestic or foreign civil courts, tribunals, or Government agencies, unless authorized pursuant to AFR 110–3 (Taxation, Legal and Administrative Actions, and Legal Process) or by the Office of The Judge Advocate General, nor before courts-martial or military board proceedings.

(b) Sign letters on his client's behalf without the express permission of the client concerned and the staff judge advocate.

(c) Receive confidences in any case in which the person requesting assistance is or probably will be the subject of civilian criminal action (except minor traffic violations), nor offer him any assistance regarding such case other than to advise him that:

(1) As the legal assistance program is limited to civil (as distinguished from criminal) legal problems, legal assistance personnel (as such) may not receive confidences relating to such matters.

(2) He has a right to consult civilian counsel.

(3) He will follow § 818b.3(d) of this part, in the event referral assistance is requested.

(e) Receive confidences in any case in which the person requesting assistance is or probably will be the subject to court-martial investigation or charges, other disciplinary action, or administrative board proceedings, unless the staff judge advocate has determined that the legal assistance officer is available to enter into an attorney-client relationship with and to serve as military counsel for the individual seeking assistance. As soon as a legal assistance officer ascertains that the request for assistance involves a matter within the scope of this section, he advises the individual in accordance with § 818b.3(d)(1) through (d)(3) of this part and, further, that he may receive advice as to his rights to military counsel from the staff judge advocate. With the concurrence of the staff judge advocate, the legal assistance officer himself may furnish the individual with the appropriate advice concerning his rights to military counsel. An individual who is entitled to military counsel and who requests that such counsel be appointed for him will be assisted in establishing contact with a lawyer whom the staff judge advocate determines is available to serve as counsel.

(f) Receive confidences nor assist in regard to official or military problems since they are not within the scope of the Legal Assistance Program. Such problems are generally within the jurisdiction of other staff offices or Federal agencies, and the individual will be referred to the appropriate staff office or agency, or given such information or advice as the staff judge advocate determines appropriate as a staff function.

(g) Make available, on matters arising from or connected with business endeavors or outside employment, any legal assistance services other than advice on relief afforded by the Soldiers' and Sailors' Civil Relief Act and referral to a civilian attorney, as provided herein.

(h) Act as a collection agency or lend aid to defeat the fair collection of any just debt or obligation. However, he may advise clients as to their legal liability for a debt or legal remedies for the collection of a debt, or refer them to civilian counsel for such advice. If appropriate, he should also counsel clients as to the Air Force's policy with regard to private indebtedness (Part 818 of this chapter) and the conditions under which the Air Force may extend assistance to creditors in the collection of debts from its members. All official correspondence is handled outside the legal assistance program as a command function in accordance with prescribed Air Force directives.

NOTE.—With express consent of the client, complaints of unfair business practices which appear to be valid will be referred to the local commander for processing.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,
*Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.*

SUBCHAPTER I—MILITARY PERSONNEL

## PART 883—MILITARY JUSTICE

### Court Martial Manual; Partial Implementation

Subchapter I, Chapter VII of Title 32 of the Code of Federal Regulations is amended by adding a new Part 883. This part implements a portion of the Manual for Courts-Martial, 1969 (Revised Edition) within the Department of the Air Force. Part 883 is added to read as follows:

Sec.
883.1 Purpose.
883.2 Suspension of counsel.
883.3 Application of relief under Article 69.
883.4 Petitions for new trial.

AUTHORITY: 10 U.S.C. 836, 869, 940, 8012; E.O. 11476, 3 CFR, 1966–1967 Comp., p. 787; paragraphs 43 and 110A, MCM US 1969 (Rev.).

**§ 883.1 Purpose.**

(a) This part contains Department of the Air Force implementation of a portion of the Manual for Courts-Martial, 1969 (Revised Edition). NOTE.—The complete text of the "Manual for Courts-Martial, United States, 1969 (Revised Edition)" appears at 34 FR 10503, June 28, 1969. The Manual was also published by the Department of Defense and may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the Air Force directives referenced herein.

**§ 883.2 Suspension of counsel.**

(a) *General.* This section implements the provisions of paragraph 43, Manual for Courts-Martial (MCM), 1969 (Rev.). When a person, military or civilian, has, pursuant to paragraph 43, MCM, 1969 (Rev.), and this section, has been suspended from acting as counsel before Air Force courts-martial and the Air Force Court of Military Review, he shall not, during the period of the suspension, be eligible to so act. Such suspension is separate and distinct from any matter involving contempt, discussed in paragraphs 10 and 118, MCM, 1969 (Rev.), and from withdrawal of certification made pursuant to Articles 26 and 27, Uniform Code of Military Justice (UCMJ) (10 U.S.C. 826, 827).

(b) *Grounds for suspension.* Suspension action may be initiated when a person has demonstrated by his personal or professional conduct that he is so lacking in competency, integrity, or ethical or moral character as to be unacceptable as counsel before an Air Force court-martial or the Air Force Court of Military Review. Specific grounds for suspension include, but are not limited to:

(1) Demonstrated incompetence while acting as counsel during pretrial, trial, or post-trial stages of a court-martial;

(2) Preventing or obstructing justice, including the deliberate use of frivolous or unwarranted dilatory tactics;

(3) Using, at trial, any papers or evidence which are known to be fabrications, or otherwise practicing fraud upon an Air Force court-martial or the Air Force Court of Military Review;

(4) Tampering with a witness or court member;

(5) Abusive conduct toward the court-martial, the Court of Military Review, the military judge, or opposing counsel;

(6) Flagrant or repeated violations of any specific rules of conduct prescribed for counsel (see paragraphs 42, 44, 46, and 48, MCM 1969 (Rev.));

(7) Conviction of an offense involving moral turpitude or conviction of a violation of Article 48, UCMJ; or

(8) Mental incompetency as declared by appropriate authorities.

(c) *Automatic suspension.* When a person has been disbarred by a Federal or State court, or suspended from acting as counsel before courts-martial and Courts of Military Review by another service, The Judge Advocate General, United States Air Force, may, upon receipt of evidence of such disbarment or suspension, take suspension action by notifying the disbarred or suspended person, in writing, that he is ineligible to act before courts-martial or administrative boards in the Air Force, or before the Air Force Court of Military Review during the period of the disbarment or suspension. Under this procedure the disbarred or suspended person is not entitled to a hearing as hereinafter prescribed.

(d) *Standards of professional ethics.* Action to suspend should not be initiated because of personal prejudice or hostility toward counsel, nor should such action be initiated because counsel has presented an aggressive, zealous, or novel defense, or when his conduct stems from inexperience in the performance of legal duties. The Code of Professional Responsibility of the American Bar Association is considered to be generally applicable as the criterion of professional conduct for persons acting as counsel before Air Force courts-martial and the Air Force Court of Military Review.

(e) *Action to suspend.*—(1) *General.* Action to suspend a person from acting as counsel before Air Force courts-martial and the Air Force Court of Military Review will be initiated only when other remedial measures, including punitive action, have failed to induce proper behavior or are inappropriate. Full consideration will be given at each stage of the proceedings toward the effectiveness and appropriateness of other measures such as warnings, admonition instructions, proceedings in contempt or other punitive action, before suspension action is processed.

(2) *Report of grounds of suspension.* When information as to the occurrence or existence of any ground for suspension comes to the attention of a member of an Air Force court-martial, a military judge, staff judge advocate, appointed counsel, a commander, or member of the Air Force Court of Military Review, such information shall be reported, together with supporting information, to the officer exercising general court-martial jurisdiction over the command of such reporting officer. Upon receipt of such report, the officer exercising general court-martial jurisdiction will refer it to his staff judge advocate for review and recommended action. He will then forward the report with his recommendation through the major commander, if any, to The Judge Advocate General. The major commander will likewise refer the matter to his staff judge advocate for review and recommendations before forwarding it with his recommendations. If the alleged disqualifying conduct occurs during trial of a particular case and involves counsel for the accused, action may be deferred pending completion of the trial.

(3) *Hearing.* If The Judge Advocate General is of the opinion that there is probable cause to believe that a ground for suspension exists, and that other remedial measures are not appropriate or will not be effective, he shall appoint a Board of Officers consisting of not less than three Air Force officers who are designated as military judge or certified counsel (competent to act before general courts-martial pursuant to Article 26 or 27, UCMJ), and who are, if practical, senior in grade to the person being considered for suspension if that person is a member of the military. He shall also appoint a judge advocate as a non-voting recorder. The Board shall cause notice to be given to the lawyer involved, informing him of the misconduct or other disqualifying matters alleged and affording him the opportunity to appear before it for a hearing. The lawyer involved may be represented by counsel. If the lawyer involved is a member of the Air Force, he may have military counsel appointed for him or he may obtain civilian counsel at his own expense. If the lawyer involved is not a member of the Air Force, military counsel will not be provided him; however, he may obtain other civilian counsel at his own expense. The lawyer involved shall be permitted at least 5 days subsequent to notice to prepare for the hearing. Failure to appear on a set date subsequent to notice will constitute a waiver of appearance. Upon ascertaining the facts relevant to the alleged disqualifying measures, after notice and hearing, the Board will report its findings and recommendations based thereon to The Judge Advocate General. If the Board recommends suspension, it will also recommend whether the suspension will be indefinite or temporary. The procedures of Part 866 will be used as a guide in the conduct of hearings for suspension of counsel.

(4) *Action by The Judge Advocate General.* Upon receipt of the report of a Board, The Judge Advocate General shall determine whether the person involved shall be suspended as counsel and whether such suspension shall be for a stated term or indefinite, and he shall issue an appropriate order implementing such determination, a copy of which will be furnished the person involved. The Judge Advocate General may, upon petition of the person who has been suspended, and upon good cause shown, or upon his own motion, modify or revoke any prior order of suspension.

(5) *Effect upon other action.* Notwithstanding this part, The Judge Advocate General may in his discretion withdraw any certification of qualification to act as military judge or as counsel before general courts-martial made pursuant to Article 26 or 27, UCMJ.

**§ 883.3 Application for relief under Article 69.**

(a) Article 69 of the UCMJ (10 U.S.C. 869) permits The Judge Advocate General to vacate of to modify, in whole or in part, the findings or sentence or both in a court-martial case which has been finally reviewed, but has not been reviewed by the Court of Military Review (see MCM, 1969 (Rev.), paragraph 110A). An application for action under Article 69 will be made in writing, will be under oath or affirmation, and will be signed by the accused or his legal representative. The application will contain:

(1) The name, social security account number, and present mailing address of the accused.

(2) The date and place of trial and kind of court.

(3) The sentence of the court of approved or affirmed and any subsequent reduction by clemency or otherwise.

(4) A statement of the specific grounds on which relief is requested and the specific relief requested.

(5) Any documentary or other evidence which the applicant believes pertinent to the facts asserted under the specific grounds alleged, including copies of court-martial orders, if available.

(b) Applications will be submitted to the general court-martial authority when the case was tried by summary court-martial or by a special court-martial where the approved sentence did not include a bad conduct discharge and the applicant is still in the command in which the case was tried. All other applications will be forwarded directly to HQ USAF/JAJ. When an application is received by an officer exercising general court-martial jurisdiction, he will forward the application, together with the original record of trial and copies of all relevant orders and other documents, to HQ USAF/JAJ. In forwarding an application, neither the officer exercising general court-martial jurisdiction nor his staff judge advocate is required to make any recommendation as to the disposition of the case; however, either is permitted to include such comments or recommendations as may be appropriate in the particular case.

**§ 883.4 Petitions for new trial.**

Petitions for new trial will be prepared and processed in accordance with MCM, 1969 (Rev.), paragraph 109. A petition for new trial may be submitted on the grounds of newly discovered evidence or fraud on the court in any kind of court-martial (general, special, or summary) within 2 years after approval of the sentence by the convening authority.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY.
*Colonel, USAF Chief, Legislative Division, Office of The Judge Advocate General.*

V 38 I 186 SEP 26 73 XUM

## Title 38—Pensions, Bonuses, and Veterans' Relief

### CHAPTER I—VETERANS ADMINISTRATION

### PART 3—ADJUDICATION

### Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

ANNUAL INCOME; SUPPLEMENTAL SECURITY INCOME

On page 21188 of the FEDERAL REGISTER of August 6, 1973, there was published a notice of proposed regulatory development to amend §§ 3.261 and 3.262 to exclude the new supplemental security income benefit in the computation of income for determining entitlement to benefits under programs administered by the Veterans Administration. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

*Effective date.* These VA regulations are effective January 1, 1974.

Approved September 20, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
*Deputy Administrator.*

1. In § 3.261(a), subparagraph (17) is amended to read as follows:

**§ 3.261 Character of income; exclusions and estates.**

* * * * *

| | Dependency (parents) | Dependency and indemnity compensation (parents) | Pension; protected (veterans, widows and children) | Pension; Public Law 86-211 (veterans, widows and children) | See |
|---|---|---|---|---|---|
| (a) *Income:* | | | | | |
| * * * | * * * | * * * | * * * | * * * | |
| (17) Social security benefits: Old age and survivors, and disability insurance. | Included | Included | Included | Included | § 3.262(f). |
| Charitable programs | Excluded | Excluded | do | Excluded | |
| Lump sum death payments | Included | do | do | do | |
| Supplemental security income | Excluded | Excluded | do | do | |
| * * * | * * * | * * * | * * * | * * * | |

2. In § 3.262, paragraph (f) is amended to read as follows:

**§ 3.262 Evaluation of income.**

* * * * *

(f) *Social security benefits.* Old age and survivor's insurance and disability insurance under title II of the Social Security Act will be considered income as a retirement benefit under the rules contained in paragraph (e) of this section. Benefits received under noncontributory programs, such as old age assistance, aid to dependent children, and supplemental security income are subject to the rules contained in paragraph (d) of this section applicable to charitable donations. The lumpsum death payment under title II of the Social Security Act will be considered as income except in claims for dependency and indemnity compensation and for pension under Public Law 86-211 (73 Stat. 432).

## Title 45—Public Welfare

### CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### PART 205—GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

### Cost Allocation Plans

Notice of proposed regulations was published in the FEDERAL REGISTER on June 15, 1973 (38 FR 15738), for the programs administered under Titles I, IV-A, X, XIV, XVI and XIX of the Social Security Act with respect to required submittal of cost allocation plans whenever requested by the Regional offices, Social and Rehabilitation Service, and submittal of cost data and other information necessary for evaluation of allocation methods. Title IV-B, omitted in error, is now included. Both IV-A as well as IV-B are included in a State's cost allocation plan.

The major concerns expressed in public comments were the delegation of authority to the Regional Commissioners to approve the effective date of the cost allocation plans, 3 months requirement to submit cost allocation plans, use of estimated costs to determine the validity of allocation methods and cost allocation plan requirements are too detailed.

The authority of the Regional Commissioner to request, approve and determine the effective date of a cost allocation plan relieves the State of an undue burden of an annual submission. The availability of technical assistance from the Regional Office will help States prepare their cost allocation plans within the specified period. The use of estimated costs in evaluating methods of allocating indirect cost pools or elements allows the use of an allocation method which departs from strict equity where dollar impact is not significant.

The purpose of a cost allocation plan is to describe a method of allocating costs of administering various State programs or activities among those programs or activities on an equitable basis. The detail required is necessary to determine the validity of the allocation methods used by the State.

Section 205.150 of Part 205, Chapter II, Title 45, of the Code of Federal Regulations is revised to read as set forth below:

**§ 205.150 Cost allocation.**

(a) *State plan requirements.* A State plan under title I, IV-A, IV-B, X, XIV, XVI, or XIX of the Social Security Act must provide that the single State agency will establish and maintain methods and procedures for properly charging the costs of administration, services (excluding those purchased), and training activities under the plan in accordance with Federal requirements (Office of Management and Budget Circular No. A-87 and Department and Social and Rehabilitation Service regulations and instructions). Such methods and procedures must include those for:

(1) Allocating all such administrative costs of the State department in which the State agency is located between Federal and non-Federal programs;

(2) Identifying, of the costs applicable to more than one of the Federal programs, those applicable to each of the separate programs, in accordance with program classifications specified by the Secretary; and

(3) Segregating costs in paragraph (a)(2) of this section by service and income maintenance functions, where applicable, and by such other classifications as are found necessary by the Secretary.

(b) *Federal financial participation.* As a condition for receipt of Federal financial Participation, a State must submit for approval a revised cost allocation plan within 3 months after being requested by the SRS Regional Commissioner. These requests will be made by the Regional Commissioner when it has been determined that the existing cost allocation plan is outdated due to significant organizational changes within the State agency, changes in Federal regulations, and other similar factors.

(1) The cost allocation plan shall include descriptions of the methods referred to in paragraph (a) of this section; the functions and activities by organizational units; estimated costs for the fiscal year by organizational unit (unless specifically waived by the Regional Commissioner); the basis used for allocating the various pools of costs to programs or activities (with justification for each); and such other information as may be necessary to document the validity of the cost allocation method. The estimated costs are included solely to permit evaluation of the methods of allocation. Approval of the cost allocation plan shall not be considered as approval of these estimated costs for use in calculating claims for FFP.

(2) Where a revised cost allocation plan is received within the 3 month period the State will continue to receive Federal financial participation under the old plan subject to any adjustments based on the revised cost allocation plan using the effective date designated by the SRS Regional Commissioner. Adjustments will be made when the revised plan is approved by the SRS Regional Commissioner.

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302)) (Catalog of Federal Domestic Assistance Program Nos. 13.707, Child Welfare Services; 13.714, Medical Assistance Program; 13.724, Public Assistance—State and Local Training; 13.748, Work Incentive Program—Child Care; 13.754, Public Assistance—Social Services; 13.761, Public Assistance—Maintenance Assistance (State Aid))

*Effective date.* This regulation is effective on November 26, 1973.

Dated August 21, 1973.

JAMES S. DWIGHT, Jr.,
*Administrator, Social and Rehabilitation Service.*

Approved: September 21, 1973.

CASPAR W. WEINBERGER,
*Secretary.*

[FR Doc.73-20498 Filed 9-25-73;8:45 am]

## Title 49—Transportation

### SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1-79]

### PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

### Miscellaneous Amendment

The purpose of this amendment is to delete from 49 CFR 1.48(b)(1) reference to Chapter 5 of 23 U.S.C., since Chapter 5, Highway Relocation Assistance, was repealed January 2, 1971, Public Law 91-646, § 220(a)(10), 84 Stat. 1903. The subject matter of Chapter 5 is now covered by Chapter 61 of Title 42, The Public Health and Welfare (42 U.S.C. 4601 et seq.).

Since this amendment relates to Departmental management, practices, and procedures, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, subparagraph (1) of paragraph (b) of section 1.48 of Part 1 of Title 49, Code of Federal Regulations, is revised to read as follows:

**§ 1.48 Delegations to Federal Highway Administrator.**

* * * * *

(b) * * *

(1) Chapters 1 (except sections 134 (b) and 138), 2 and 3 of Title 23, United States Code, including the apportionment of funds for Federal-Aid Highways once Congress approves estimates submitted by the Secretary.

(Section 9(e), Department of Transportation Act, 49 U.S.C. 1657(e); sec. 1.59(m), Regulations of the Office of the Secretary of Transportation, 49 CFR 1.59(m).)

*Effective date.* This amendment is effective September 26, 1973.

Issued in Washington, D.C., on September 21, 1973.

J. THOMAS TIDD,
*Acting General Counsel.*

[FR Doc.73-20501 Filed 9-25-73;8:45 am]

## CHAPTER X—INTERSTATE COMMERCE COMMISSION

### SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Corrected 3rd Revised S.O. 1121; Amdt. 1]

### PART 1033—CAR SERVICE

### Demurrage and Free Time at Ports

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 18th day of September 1973.

Upon further consideration of Corrected Third Revised Service Order No. 1121 (38 FR 18660), and good cause appearing therefor:

*It is ordered,* That: § 1033.1121 *Service Order No. 1121* (Demurrage and free time at ports) corrected Third Revised Service Order No. 1121 be, and it is hereby, amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) *Expiration date.* The provisions of this order shall expire at 6:59 a.m., April 1, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

*Effective date.* This amendment shall become effective at 6:59 a.m., October 1, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended (49 U.S.C. 1, 12, 15, and 17(2)); Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911 (49 U.S.C. 1(10-17), 15(4), and 17(2)))

*It is further ordered,* That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[FR Doc.73-20520 Filed 9-25-73;8:45 am]

[2nd Rev. S.O. 1124; Amdt. 1]

### PART 1033—CAR SERVICE

### Demurrage and Free Time on Freight Cars

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 19th day of September 1973.

Upon further consideration of Second Revised Service Order No. 1124 (38 FR 18251), and good cause appearing therefor:

*It is ordered,* That: § 1033.1124 *Service Order No. 1124,* (Demurrage and free time on freight cars).

Second Revised Service Order No. 1124 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* This order shall expire at 6:59 a.m., April 1, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

*Effective date.* This amendment shall become effective at 6:59 a.m., October 1, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended (49 U.S.C. 1, 12, 15, and 17(2)); Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911 (49 U.S.C. 1(10-17), 15(4), and 17(2).))

*It is further ordered,* That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD,
*Secrctary.*

[FR Doc.73-20521 Filed 9-25-73;8:45 am]

### SUBCHAPTER D—TARIFFS AND SCHEDULES

[Ex Parte 272]

### C.O.D. AND FREIGHT-COLLECT SHIPMENTS

### Limitations of Carrier Service; Correction

In a report and order (reported at 343 I.C.C. 692), decided July 16, 1973, and served August 9, 1973, the Interstate Commerce Commission prescribed certain regulations to become effective at a later date. Notice of the Commission's order appeared in the FEDERAL REGISTER on August 14, 1973 (38 FR 21931-21933). It has come to the Commission's attention that certain inadvertent errors appear in its report at pages 784, 891, and 892. Consequently, appropriate corrections should be made on those pages of its report and in the references to the Code of Federal Regulations which appear on page 21933 of the FEDERAL REGISTER:

### PART 1304—EXPRESS COMPANIES SCHEDULES AND CLASSIFICATIONS

### PART 1307—FREIGHT RATE TARIFFS, SCHEDULES, AND CLASSIFICATIONS OF MOTOR CARRIERS

(1) The last sentence in the paragraph designated § 1304.4(k)(3), which sentence reads "Such service includes service on c.o.d., freight-collect, and order-notify shipments, including such services on shipments transported under combinations of rates," should be deleted. That same sentence should be in-

V 38 186 SEP 26 73 XUM

serted at the end of the paragraph designated § 1307.27(k)(3) on that same page; and

**PART 1309—TARIFFS AND CLASSIFICATIONS OF FREIGHT FORWARDERS**

(2) The three paragraphs designated §§ 1309.6(k) (1), (2), and (3) should be modified by deleting the words "(k) *Operating authority.*" and redesignating those paragraphs §§ 1309.6 (a), (b), and (c), respectively. The reference in paragraph (2) to "§ 1309.6(k)(1)" should be corrected to read "§ 1309.6(a)."

ROBERT L. OSWALD,
*Secretary.*

[FR Doc.73-20522 Filed 9-25-73;8:45 am]

## Title 20—Employees' Benefits

**CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

[Reg. No. 4, further amended]

**PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950-.....)**

**Subpart H—Evidence**

**Certification of Evidence**

The amendment to Regulations No. 4 of the Social Security Administration set forth below provides that a copy of a record, document, or other evidence, or an excerpt of information therefrom will be accepted as evidence in lieu of the original if certified as a true and exact copy or excerpt by an authorized employee of the Department of State where the original records of such evidence originates from outside the United States. The purpose of the amendments is to facilitate the submission of evidence in support of claims under title II of the Social Security Act (42 U.S.C. 401 et seq.).

In as much as this revision is merely technical in nature and further relieves individuals from hardships resulting from permanent surrender of original records or documents in support of claims, it should be made effective promptly to accomplish its purpose in the public interest. Accordingly, under the rulemaking provisions of the Administrative Procedure Act, 5 U.S.C. 553, notice and other public proceedings with respect to this revision are unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

(Catalog of Federal Domestic Assistance Program Nos. 13.802, Social Security—Disability Insurance; 13.803, Social security—Retirement Insurance; 13.804, Social Security—Special Benefits for Persons Aged 72 and Over; 13.805, Social Security—Survivors Insurance.)

Dated September 6, 1973.

ARTHUR E. HESS,
*Acting Commissioner of Social Security.*

Approved: September 21, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

Subparagraph (g)(4) of § 404.701 is revised to read as follows:

**§ 404.701 Evidence as to right to receive monthly benefits and lump-sum death payments, and to establishment of period of disability.**

* * * * *

(g) *Certification of evidence by authorized individual.* In cases where a copy of a record, document, or other evidence, or an excerpt of information therefrom, is acceptable as evidence in lieu of the original, such copy or excerpt shall, except as may otherwise clearly be indicated, be certified as a true and exact copy or excerpt by:

* * * * *

(4) A U.S. Consular Officer or authorized employee of the Department of State where such evidence originates from outside the United States.

(Secs. 205 and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended; 67 Stat. 18, 631; 42 U.S.C. 405 and 1302.)

*Effective date.* This amendment shall become effective September 26, 1973.

[FR Doc.73-20499 Filed 9-25-73;8:45 am]

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF THE INTERIOR

**Geological Survey**

**[ 30 CFR Parts 270, 271 ]**

**GEOTHERMAL RESOURCES**

**Operations on Public, Acquired and Withdrawn Lands and Unit Plan Regulations; Extension of Comment Period**

The purpose of this notice is to extend the time for public comment on proposed geothermal regulations published on pages 19765-19779 of the July 23, 1973 FEDERAL REGISTER.

The period for submitting written comments, suggestions, or objections, is hereby extended to a date 24 days after the final environmental impact statement regarding the development of the geothermal resource is filed with the Council on Environmental Quality in accordance with section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). Notice of the availability of the statement and final date for receipt of comments on the proposed regulations will be published in the FEDERAL REGISTER. It is anticipated that the statement will become available in early October.

Interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Geothermal Coordinator, Department of the Interior, Washington, D.C. 20240.

LAURENCE E. LYNN, JR.,
*Assistant Secretary of the Interior.*

SEPTEMBER 21, 1973.

[FR Doc.73-20524 Filed 9-25-73;8:45 am]

## DEPARTMENT OF AGRICULTURE

**Agricultural Marketing Service**

**[ 7 CFR Part 944 ]**

**GRAPEFRUIT IMPORT REGULATIONS**

**Notice of Proposed Rule Making**

This proposal would continue, after October 14, 1973, current grade and size restrictions applicable to imported grapefruit as follows: imported seeded grapefruit—U.S. No. 1: $3^{14}/_{16}$ inches in diameter; seedless grapefruit—Improved No. 2: $3^{9}/_{16}$ inches in diameter. The requirements are the same as those applicable to grapefruit produced in Florida and regulated pursuant to Marketing Order No. 905.

Notice is hereby given that the Department is considering a proposal, as hereinafter set forth, which would limit the importation of any grapefruit into the United States, pursuant to Part 944—Fruits, Import Regulations (7 CFR Part 944).

The proposal is as follows:

*Order.* In § 944.110 (Grapefruit Regulation 14; 38 FR 26108) the provisions of paragraph (a) preceding subparagraph (1) thereof are amended to read as follows: (The provisions of paragraph (a)(1) and (a)(2) are included for purposes of clarity.)

**§ 944.110 Grapefruit Regulation 14.**

(a) On and after October 15, 1973, the importation into the United States of any grapefruit is prohibited unless such grapefruit is inspected and meets the following requirements:

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of a size not smaller than $3^{14}/_{16}$ inches in diameter, except that a tolerance for seeded grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in § 51.761 of the United States Standards for Florida Grapefruit; and

(2) Seedless grapefruit shall grade at least Improved No. 2 and be of a size not smaller than $3^{9}/_{16}$ inches in diameter, except that a tolerance for seedless grapefruit smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in § 51.761 of the United States Standards for Florida Grapefruit. ("Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.)

* * * * *

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 2, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: September 19, 1973.

**[ 7 CFR Part 944 ]**

**ORANGE IMPORT REGULATIONS**

**Notice of Proposed Rule Making**

This notice proposes the issuance of an import regulation for oranges on October 16, 1973, similar to the one currently in effect. It would require imported oranges to grade U.S. No. 2 or better, and be $2^{6}/_{16}$ inches in diameter or larger. The proposed requirements are the same as those proposed for oranges grown in Texas.

The proposed regulation would be issued pursuant to section 8e of the Agricultural Marketing Agreement Act, as amended (7 U.S.C. 601-674). The act requires that whenever specified commodities, including oranges, are regulated under a Federal Marketing Order the imports of that commodity must meet the same or comparable requirements as those in effect for the domestically produced commodity. This proposed import regulation is the same as the proposed domestic grade and size regulation for oranges, issued pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906) regulating the handling of oranges and grapefruit grown in Texas.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 1, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). Such proposal reads as follows:

**§ 944.308 Orange Regulation 9.**

(a) On and after October 16, 1973, the importation into the United States of any oranges is prohibited unless such oranges are inspected and grade U.S. Fancy, U.S. No. 1, U.S. No. 1 Bright, U.S. No. 1 Bronze, U.S. Combination with not less than 60 percent, by count, of the oranges in any lot thereof grading at least U.S. No. 1 grade; or U.S. No. 2; and be of a size not smaller than $2^{6}/_{16}$ inches in diameter, except that a tolerance for oranges smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions of § 51.689 *Tolerances* of the United States Standards for Grades of Oranges (Texas and States other than Florida, California, and Arizona).

(b) The Federal or Federal-State Inspection Service, Fruit and Vegetable Di-

V 38-186 SEP 26 73 XUM

vision, Agricultural Marketing Service, United States Department of Agriculture, is hereby designated as the governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of oranges that are imported into the United States. Inspection by the Federal or Federal-State Service with appropriate evidence thereof in the form of an official inspection certificate, issued by the respective service, applicable to the particular shipment of oranges, is required on all imports of oranges. Such inspection and certification services will be available upon application in accordance with the rules and regulations governing inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51) but, since inspectors are not located in the immediate vicinity of some of the small ports of entry, such as those in southern California, importers of oranges should make arrangements for inspection, through the applicable one of the following offices, at least the specified number of days prior to the time when the oranges will be imported:

| Ports | Office | Advance Notice |
|---|---|---|
| All Texas points. | L. M. Denbo, 506 S. Nebraska St., San Juan, Tex. 78589 (Phone—512-787-4091) | 1 day. |
| | or Charles E. Farragon, Room 516, U.S. Courthouse, El Paso, Tex. 79901 (Phone—915-543-7723). | Do. |
| All New York points. | Frank J. McNeal, Room 28A Hunts Point Market, Bronx, N.Y. 10474 (Phone—212-991-7668 and 7669) | Do. |
| | or Charles D. Renick, 176 Niagara Frontier Food Terminal, Room 8, Buffalo, N.Y. 14206 (Phone—716-824-1585). | Do. |
| All Arizona points. | B. O. Morgan, 225 Terrace Ave., Nogales, Ariz. 85621 (Phone—602-287-2902). | Do. |
| All Florida points. | Lloyd W. Boney, 1350 Northwest 12th Ave., Room 438, Miami, Fla. 33136 (Phone—305-371-2517) | Do. |
| | or Hubert S. Flynt, 775 Warner Lane, Orlando, Fla. 32814 (Phone—305-894-9511) | Do. |
| | or Johnnie E. Corbitt, Unit 46, 3335 North Edgewood Ave., Jacksonville, Fla. 32205 (Phone—904-351-5983). | Do. |
| All California points. | Daniel P. Thompson, 784 South Central Ave., 206 Wholesale Terminal Bldg., Los Angeles, Calif. 90021 (Phone—213-622-8756). | 3 days. |
| All Louisiana points. | Pascal J. Lamarca, 5027 Federal Office Bldg., 701 Loyola Ave., New Orleans, La. 70113 (Phone—504-527-6741 and 6742). | 1 day. |
| All other points. | D. S. Matheson, Fruit and Vegetable Division, AMS—U.S. Department of Agriculture, Washington, D.C. 20250 (Phone—202-447-5870). | 3 days. |

(c) Inspection certificates shall cover only the quantity of oranges that is being imported at a particular port of entry by a particular importer.

(d) The inspection performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (7 CFR Part 51). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each inspection certificate issued with respect to any oranges to be imported into the United States shall set forth, among other things:

(1) The date and place of inspection;

(2) The name of the shipper, or applicant;

(3) The commodity inspected;

(4) The quantity of the commodity covered by the certificate;

(5) The principal identifying marks on the container;

(6) The railroad car initials and number, the truck and the trailer license number, the name of the vessel, or other identification of the shipment; and

(7) The following statement if the facts warrant: Meets U.S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended.

(f) Notwithstanding any other provision of this regulation, any importation of oranges which, in the aggregate does not exceed five 1⅗ bushel boxes, or equivalent quantity, may be imported without regard to the restrictions specified herein.

(g) It is hereby determined that imports of oranges, during the effective time of this regulation, are in most direct competition with oranges grown in the State of Texas. The requirements set forth in this section are the same as those being made effective for oranges grown in Texas.

(h) No provisions of this section shall supersede the restrictions or prohibitions on oranges under the Plant Quarantine Act of 1912.

(i) Nothing contained in this regulation shall be deemed to preclude any importer from reconditioning prior to importation any shipment of oranges for the purpose of making it eligible for importation.

(j) The terms used herein relating to grade and diameter shall have the same meaning as when used in the United States Standards for Oranges (Texas and States other than Florida, California and Arizona) (7 CFR 51.680–51.714). Importation means release from custody of the United States Bureau of Customs.

(k) Orange Regulation 8 (§ 944.307) is hereby terminated at the effective time hereof.

Dated: September 20, 1973.

CHARLES R. BRADER,
*Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

### [ 7 CFR Part 301 ]

### CITRUS BLACKFLY

#### Notice of Hearing and Proposed Federal Quarantine

Under the administrative procedure provisions of 5 U.S.C. 553, sections 8 and 9 of the Plant Quarantine Act of 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), notice is hereby given of a public hearing and proposed rulemaking proceeding to determine whether to establish a Federal quarantine on account of the citrus blackfly. The Administrator of the Animal and Plant Health Inspection Service has information that dangerous infestations of the citrus blackfly, *Aleurocanthus woglumi* Ashby, an insect, not widely prevalent or distributed within and throughout the United States, have been found in portions of Hidalgo and Cameron Counties, Texas. The citrus blackfly inflicts serious damage on citrus trees causing nonproductivity. An infestation was discovered in a limited portion of Brownsville, Texas, on April 7, 1971. It became necessary to adopt emergency plant pest regulations (7 CFR 331.2), effective April 21, 1971, governing interstate movement of certain products and articles in an effort to prevent the spread of the infestation to noninfested areas. It is now proposed to quarantine the State of Texas and to establish regulations to prevent the spread of the citrus blackfly infestation. The proposed quarantine and regulations would be applied to the interstate movement of the following products, articles, or means of conveyance from areas regulated within the State of Texas:

(1) Leaves, attached or unattached, of citrus, mango, persimmon, Japanese persimmon, pear, quince, coffee, myrtle, cherimoya, black sapote, and sweet-sop;

(2) Any other products, articles, or means of conveyance, of any character whatsoever, not covered by paragraph (1) above, when it is determined by an inspector that they present a hazard of spread of the citrus blackfly infestation and the person in possession thereof has been so notified.

If it is decided that a Federal quarantine and regulations should be established, it is further proposed that, with the exceptions noted below, restrictions would apply to the regulated articles from regulated areas only if they would be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, transported, moved, or allowed to be moved by any means, interstate. Regulated areas would be restricted to portions of the State in which infestations have been found or in which there is reason to believe that infestations are present or which it is deemed necessary to regulate because of their proximity to infestation. Less than the entire State would be designated as a regulated area only if the State is undertaking sufficient quarantine action to prevent the intrastate spread of the citrus blackfly infestation and if the regulation of less than the entire State would otherwise be sufficient to prevent the interstate spread of the pest. Effective and practical treatments or other procedures have been developed to allow the interstate movement of regulated articles from regulated areas. The only restriction which would apply to the interstate movement of regulated articles from nonregulated portions of the quarantined State would relate to proof of origin of the regulated articles and to safeguarding the articles from infestation if they traverse a regulated area.

In the event it is determined in the best interest of the public to establish a Federal quarantine, the emergency regulations would be terminated.

The public hearing to consider the above proposal will be held before a representative of the Animal and Plant Health Inspection Service on October 30, 1973, at 10 a.m. in Room 591, San Antonio Federal Building, 615 East Houston Street, San Antonio, Texas. Any interested person may appear and be heard either in person or by attorney.

Any interested person who desires to submit written data, views, or arguments on the proposal may do so by filing the same with the Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Maryland 20782, on or before October 29, 1973, or with the presiding officer at the hearing. All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business, unless the person making the submission requests that it be held confidential and the Administrator determines that there is a basis for such confidential treatment under the provisions in 7 CFR 1.27(c). If such a determination is made, the material will be held confidential; otherwise, notice will be given of denial of such a request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential as provided in 7 CFR 1.27(c).

After consideration of all information presented at the hearing or otherwise available to the Department, a determination will be made as to whether to establish a citrus blackfly quarantine.

Done at Washington, D.C., this 21st day of September 1973.

F. J. MULHERN,
*Administrator, Animal and Plant Health Inspection Service.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

### [ 21 CFR Part 130 ]

### DIETHYLSTILBESTROL

#### Use as Postcoital Contraceptive; Patient Labeling

The Commissioner of Food and Drugs has concluded that the information now available supports the effectiveness of diethylstilbestrol for use as a postcoital contraceptive. The agency considers this use of the drug to be safe as an emergency treatment only, and not as a routine method of birth control. Repeated courses of therapy are to be avoided. Because of the nature of the circumstances surrounding such use, the possible adverse effects on the fetus should the patient be pregnant, possible side effects of the drug, and alternative measures available and their hazards, the physician is the proper person to fully discuss such aspects with the patient so that she may participate in an informed way in the decision to use the drug. To further assure that the patient is fully informed, it is concluded that each package of the drug should contain only the number of tablets required for that one occasion, and should contain a printed leaflet, directed to the patient, describing specifically how to use the drug, limitations on its use, precautions, contraindications, and possible adverse effects.

Diethylstilbestrol intended for this use is regarded as a new drug requiring an approved new drug application for marketing. At present there are no approved new drug applications for this use. The Food and Drug Administration will entertain new drug applications under the conditions described in the proposal below.

Diethylstilbestrol for this indication was not reviewed in the Drug Efficacy Study. Appearing elsewhere in this issue of the FEDERAL REGISTER are notices concerning the indications for diethylstilbestrol and other estrogen preparations which were reviewed in the Drug Efficacy Study and for which the initial Drug Efficacy Study Implementation announcement was published in the FEDERAL REGISTER of November 10, 1971 (36 FR 21537).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 502 (a) and (f), 505, 701(a), 52 Stat. 1050–1053, as amended, 1055, as amended; 21 U.S.C. 352 (a) and (f), 355, 371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs proposes to amend Part 130 in § 130.45 by revising the section heading; redesignating paragraph (a) as subparagraph (1) and adding a new paragraph heading for paragraph (a); redesignating paragraph (b) as subparagraph (2) and adding a new paragraph (b); and redesignating the remainder of the existing paragraphs, subparagraphs, and subdivisions with no change in the existing text. Section 130.45 is revised to read as follows:

§ 130.45 Preparations for contraception; labeling directed to the patient.

(a) *Oral contraceptives.* (1) The Food and Drug Administration is charged with assuring both physicians and patients that drugs are safe and effective for their intended uses. The full disclosure of information to physicians concerning such things as the effectiveness, contraindications, warnings, precautions and adverse reactions is an important element in the discharge of this responsibility. In view of this, the Administration has reviewed the oral contraceptive products, taking into account the following factors: The products contain potent steroid hormones which affect many organ systems; they are used for long periods of time by large numbers of women who, for the most part, are healthy and take them as a matter of choice for prophylaxis against pregnancy, in full knowledge of other means of contraception; and there is no present assurance that persons for whom the drugs are prescibed or dispensed are uniformly being provided the necessary information for safe and effective use of the drugs.

(2) In view of the foregoing, it is deemed in the public interest to present to users of the oral contraceptives a brief notice of the nature of the drugs, the fact that continued medical supervision is needed for safe and effective use, that the drugs may cause side effects and are contraindicated in some cases, that the most important complication is abnormal blood clotting which can have a fatal outcome, that the physician recognizes an obligation to discuss the potential hazards of taking the drugs with the patient, that he has available for the patient written material discussing the effectiveness and the hazards of the drugs, and that users of the oral contraceptives should notify their physicians if they notice any unusual physical disturbance or discomfort.

(3) The Commissioner agrees that the physician is the proper person for providing use information to his patients,

V 38-186
SEP 26 73
XUM

and these regulations will provide him a balanced discussion of the effectiveness and the risks attendant upon the use of oral contraceptives for his use in discussing the drugs with his patients.

(4) The oral contraceptives are restricted to prescription sale, and their labeling is required to bear information under which practitioners licensed to administer the drugs can use them safely and for the purpose for which they are intended. In addition, in the case of oral contraceptive drugs, the Commissioner conclude that it is necessary in the best interests of users that the following printed information for patients be included in or with the package dispensed to the patient:

(Patient Package Information)

ORAL CONTRACEPTIVES

(Birth Control Pills)

Do Not Take This Drug Without Your Doctor's Continued Supervision

The oral contraceptives are powerful and effective drugs which can cause side effects in some users and should not be used at all by some women. The most serious known side effect is abnormal blood clotting which can be fatal.

Safe use of this drug requires a careful discussion with your doctor. To assist him in providing you with the necessary information, ---------- has prepared a booklet (or other form) written in a style understandable to you as the drug user. This provides information on the effectiveness and known hazards of the drug including warnings, side effects and who should not use it. Your doctor will give you this booklet (or other form) if you ask for it and he can answer any questions you may have about the use of this drug.

(Firm name)

Notify your doctor if you notice any unusual physical disturbance or discomfort.

(5) Providing the patient package information to users may be accomplished by including it in each package of the type intended for the user as follows:

(i) If such package includes additional printed materials for the patient (e.g., dosage schedules), the text of the information in subparagraph (4) of this paragraph shall be an integral part of the printed material and be in boldface type set out in a box, preceding all other printed text.

(ii) If such package does not include other printed material for the patient, the text of the information in subparagraph (1) of this paragraph shall be provided as a printed leaflet in boldface type.

(iii) Include in each bulk package intended for multiple dispensing, a sufficient number of the patient package information leaflet, with instructions to the pharmacist to include one with each prescription dispensed.

(6) Written, printed, or graphic materials on the use of a drug that are disseminated by or on behalf of the manufacturer, packager, or distributor and are intended to be made available to the patient, are regarded as labeling. The commissioner also concludes that it is necessary that information in lay language, concerning effectiveness, contraindications, warnings, precautions, and adverse reactions be incorporated prominently in the beginning of any such materials, and that such labeling must be made available to physicians for all patients who may request it. Such labeling shall be substantially as follows, based on the approved package insert for prescribers of the oral contraceptives, and shall include the following points:

(i) A statement that the drug should be taken only under continued supervision of a physician.

(ii) A statement regarding the effectiveness of the product.

(iii) A warning regarding the serious side effects with special attention to thromboembolic disorders and stating the estimated morbidity and mortality in users vs nonusers. Other serious side effects to be mentioned include mental depression, edema, rash, and jaundice. The possibility of infertility following discontinuation of the drug should be mentioned.

(iv) A statement of contraindications.

(v) A statement of the need for special supervision of some patients including those with heart or kidney disease, asthma, high blood pressure, diabetes, epilepsy, fibroids of the uterus, migraine, mental depression or history thereof.

(vi) A statement of the most frequently encountered side effects such as spotting, breast changes, weight changes, skin changes, and nausea and vomiting.

(vii) A statement of the side effects frequently reported in association with the use of oral contraceptives, but not proved to be directly related such as nervousness, dizziness, changes in appetite, loss of scalp hair, increase in body hair, and increased or decreased libido.

(viii) A statement regarding metabolic effects such as on blood sugar and cholesterol setting forth our current lack of knowledge regarding the long term significance of these effects.

(ix) Instructions in the event of missed menstrual periods.

(x) A statement cautioning the patient to consult her physician before resuming the use of the drug after childbirth, especially if she intends to breastfeed the baby, pointing out that the hormones in the drug are known to appear in the milk and may decrease the flow.

(xi) A statement regarding production of cancer in certain animals. This may be coupled with a statement that there is no proof of such effect in human beings.

(xii) A reminder to the patient to report promptly to her physician any unusual change in her general physical condition and to have regular examinations.

Optionally, the booklet may also contain factual information on family planning, the usefulness and hazards of other available methods of contraception, and the hazards of pregnancy. This material shall be neither false nor misleading in any particular and shall follow the material presented above.

(7) The marketing of oral contraceptives may be continued if all the following conditions are met within 90 days of the date of publication of this section in the FEDERAL REGISTER.

(i) The labeling of such preparations shipped within the jurisdiction of the Act is in accord with paragraphs (a) (4) and (5), and (6) of this section.

(ii) The holder of an approved new-drug application for such preparation submits a supplement to his new-drug application under the provisions of § 130.9(d) to provide for labeling as described in paragraphs (a) (5) and (6) of this section. Such labeling may be put into use without advance approval of the Food and Drug Administration.

(iii) Existing stocks may be shipped without the package insert for a period of 90 days, provided the labeling booklet is prepared and disseminated as promptly as possible.

(b) *Oral postcoital contraceptives.* (1) Diethylstilbestrol orally for postcoital contraception. Studies conducted with this drug have shown its effectiveness in contraception when administered under restricted conditions. The Commissioner, having considered comments by members of the Food and Drug Administration's Obstetrics and Gynecology Advisory Committee, concludes that the drug is safe and effective as an emergency treatment only, and not as a routine method of birth control. Repeated courses of therapy are to be avoided. The effectiveness of diethylstilbestrol in preventing pregnancy depends upon the time lapse after coitus and administration of the drug. The recommended dosage is one 25 milligram tablet twice a day, for 5 consecutive days beginning, preferably, within 24 hours and not later than 72 hours after exposure. When this dosage is given within the specified time interval, the drug is highly effective in preventing conception. Its use, however, will not terminate pregnancy.

(2) There is at present no positive evidence that the restricted use of diethylstilbestrol for postcoital contraception carries a significant carcinogenic risk either to the mother or the fetus. However, because existing data support the possibility of delayed appearance of carcinoma in females whose mothers have been given diethylstilbestrol later in pregnancy, and because teratogenic and other adverse effects on the fetus with the very early administration recommended are not well understood, failure of postcoital treatment with the drug deserves serious consideration of voluntary termination of pregnancy. For these reasons, as well as possible adverse effects in the patient, the drug should not be used as a routine method of birth control. A pregnancy test should be performed prior to use of the drug as a postcoital contraceptive. If the test is positive, the drug should not be used.

(3) Because of the nature of the conditions surrounding this use of diethylstilbestrol, the Commissioner concludes that it is in the best interests of the patient that, in addition to receiving specific instructions from her physician, she also receives with her package of the drug a printed leaflet describing how to use the drug, limitations on its use, its potential for serious effects on the fetus in the event she is pregnant, and possible adverse effects, contraindications and precautions.

(4) Diethylstilbestrol for use as a postcoital contraceptive shall be packaged in containers of 10 tablets, each tablet to contain 25 milligrams diethylstilbestrol. Each drug package of ten tablets shall contain, in addition to information under which the practitioner licensed to administer the drug can use it safely and for the purpose for which it is intended, a brief leaflet for the user to read as follows:

(Patient package information)

Your doctor has prescribed these tablets which contain estrogen (female hormone) as an emergency measure to prevent pregnancy. To be effective the treatment must be started within three days of sexual intercourse and preferably within one day. Also, you must take the full course of tablets (one twice a day for five days) even if some nausea and vomiting occurs. These symptoms are common in patients receiving this medicine.

You should use this drug only under the direction of your physician. This treatment is not recommended for routine or frequent use as a method of contraception because there is no evidence of safety for this relatively large amount of estrogen taken repeatedly. Before prescribing this drug, your physician will determine whether or not you may be pregnant.

This treatment is highly effective in preventing pregnancy if used as described above. However, this drug will not cause an abortion if you are already pregnant. An important reason for not taking the drug if you are already pregnant is that such usage exposes the fetus to an unnecessary hazard. There is some evidence that, if the growing fetus is a female and the mother is given this drug during pregnancy, the child may have an increased risk of developing cancer of the vagina or cervix later in life. If this drug is not successful in preventing pregnancy, it is recommended that you consult with your physician regarding continuation of the pregnancy. There is no evidence that the mother herself (you) will have an increased risk of developing cancer from this treatment.

These tablets which contain estrogen may cause certain side effects, most of which are not serious. The most common side effects are nausea, vomiting, breast tenderness and swelling. The most serious side effect of estrogens, which is rare but can at times be fatal, is abnormal blood clotting, the symptoms of which may be severe leg or chest pain, coughing up of blood, difficulty in breathing, sudden severe headaches, dizziness or fainting, disturbances in vision or speech or weakness or numbness of an arm or leg. If any of these occur, you should stop taking the tablets and notify your doctor as soon as possible.

Women who have or have had blood clotting disorders, serious liver conditions, cancer of the breast or womb, or undiagnosed vaginal bleeding in the past should not take these tablets. Furthermore, you should inform your physician if you have or have had a special health problem, such as migraine, mental depression, fibroids of the uterus, heart or kidney disease, asthma, high blood pressure, diabetes or epilepsy. He may wish to make sure that it is suitable for you to take these tablets.

(5) Diethylstilbestrol for use as a postcoital contraceptive may be marketed only on the basis of an approved new drug application (abbreviated applications, § 130.4(f), will be acceptable), except that full information described under items 7 and 8 (composition and methods, facilities, and controls) of the new drug application Form FD-356H (§ 130.4(c)) is required. Guidelines for labeling directed to the physician are available from the Food and Drug Administration, Bureau of Drugs, Division of Metabolic and Endocrine Drug Products (BD-130), 5600 Fishers Lane, Rockville, MD 20852.

Interested persons may, on or before November 26, 1973, file with the Hearing Clerk, Food and Drug Administration, Rm 6-86, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours Monday through Friday.

Dated: September 12, 1973.

A. M. SCHMIDT,
*Commissioner of Food and Drugs.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

### [ 14 CFR Parts 25, 121, 135 ]

[Docket No. 12881; Reference Notice No. 73-16]

### AIR TRANSPORTATION OF HANDICAPPED PERSONS

### Notice of Public Hearing; Correction

In the August 29, 1973, issue of the FEDERAL REGISTER (38 FR 23352), the Federal Aviation Administration published a notice of public hearings announcing that it would hold a series of six public hearings in order to receive the views of all interested persons regarding the safety aspects of the air carriage of handicapped persons and, in particular, concerning Advance Notice of Proposed Rulemaking No. 73-16 (39 FR 14757; June 5, 1973), which concerns the air carriage of handicapped persons.

The notice included a schedule of dates and locations at which the hearings would be conducted.

This document corrects that schedule with respect to the place of the public hearing to be conducted in the areas of Washington, D.C., and Chicago, Illinois, as follows:

(1) The hearing scheduled for Rosemont, Illinois will be conducted on October 10, 1973, at the O'Hare Non-Commissioned Officers Club, SSE, O'Hare International Airport, Chicago, Illinois 60666.

(2) The hearing scheduled for Washington, D.C., will be conducted on October 18, 1973, at the Department of Transportation, Buzzards Point Building, 2100 2d Street SW., Washington, D.C. 20590.

The hearings will begin at 9:00 in the morning. In all other respects, the August 29, 1973, notice of public hearing remains the same.

Issued in Washington, D.C., on September 19, 1973.

C. R. MELUGIN, Jr.,
*Acting Director,*
*Flight Standards Service.*

### [ 14 CFR Part 39 ]

[Docket No. 73-WE-18-AD]

### AIRESEARCH MODEL TPE331 AND TSE331 SERIES ENGINES

### Proposed Air Worthiness Directives

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to AiResearch Model TPE331 and TSE331 Series engines. There have been failures of the fuel pump drive on the Model TPE331 and TSE331 Series engines that result in the complete loss of engine power.

Since this condition is likely to exist or develop in other engines of the same type design, the proposed airworthiness directive would impose a recurring inspection and lubrication procedure on the fuel pump drive of the Model TPE331 and TSE331 Series engines.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, Attention: Rules Docket, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009. All communications received on or before October 31, 1973 will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

*AiResearch Manufacturing Company of Arizona.* Applies to Model TPE331-1, -2, -3, -5, -6, -25, -29, -43, -45, -47, -51, -55, -57, -61 and TSE331-3 Series engines certificated in all categories.

Compliance required as indicated.

To detect abnormal wear of the fuel pump shaft internal drive splines and coupling shaft external splines, accomplish the following after the effective date of this AD:

(a) Clean, visually inspect, and lubricate the pump and coupling shaft drive splines of all engines with more than 200 hours time

V 38 186 SEP 26 73 XUM

in service, within the next 25 hours additional time in service, unless previously accomplished within the last 375 hours, and at intervals not to exceed 400 hours time in service thereafter, per the instructions and procedures described in AiResearch Service Bulletin TPE331–72–0027, Revision 2, dated August 31, 1973, or later FAA-approved revisions. If the extent of wear is observed to exceed .003 inch, either replace the shaft with a new P/N 869911–3, or perform the additional dimensional inspection described in the Service Bulletin. If the latter inspection indicates wear beyond .005 inch, the shaft must be replaced prior to further flight. (Note: Drive Couplings, P/N 869911–1 or –2 and 895216–1, found in a serviceable condition, may be continued in service).

(b) For engines with less than 200 hours time in service since new or overhaul, clean, visually inspect and lubricate the engines by the procedures described in (a), above, within 25 hours time in service after the effective date of this AD or, prior to exceeding 200 hours time in service, whichever occurs later, and at intervals not to exceed 400 hours time in service. Replace shafts as required by the inspections.

(c) If either the fuel pump, oil pump, or couplings defined in (a) above are replaced for any reason, a serviceable Drive Coupling, P/N 869911–3, must be installed.

(d) Equivalent procedures may be approved by the Chief, Aircraft Engineering Division, Western Region, upon submission of adequate substantiating data.

Issued in Los Angeles, California, on September 17, 1973.

ARVIN O. BASNIGHT,
*Director, FAA Western Region.*

**[ 14 CFR Part 71 ]**

[Airspace Docket No. 73–GL–39]

**TRANSITION AREA**

**Proposed Alteration**

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Hayward and Cable, Wisconsin.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before October 26, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

Two new approach procedures have been developed to the Hayward Municipal Airport, Hayward, Wisconsin. In addition, the criteria for designation of transition areas have been changed. Accordingly, it is necessary to alter the Hayward and Cable transition area to adequately protect the aircraft executing the new approach procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is amended to read:

HAYWARD AND CABLE, WISCONSIN

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Hayward Municipal Airport (latitude 46°01'00" N., longitude 91°27'00" W.) and within 8-mile radius of Cable Union Airport (latitude 46°11'30" W., longitude 91°15'00" W.), and within 4½ miles each side of the 206° bearing from the Hayward Airport extending from the 7-mile radius to 11 miles southwest of the airport and within 4½ miles east and 9½ miles west of the 023° bearing from the Hayward Airport extending from the 7-mile radius to 18½ miles northeast of the airport; and that airspace extending upward from 1,200 feet above the surface within 9½ miles northeast and 6 miles southeast of the 026° bearing from the Hayward Airport, extending from 3 miles northeast to 27½ miles northeast of the airport; and within 9½ miles southeast and 4½ miles northwest of the 228° bearing from Cable Union Airport, extending from 5 miles southwest to 27½ miles southwest of the airport; and within 4½ miles southeast and 9½ miles northwest of the 206° bearing from the Hayward Airport extending from the airport to 18½ miles southwest of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Des Plaines, Illinois, on August 21, 1973.

R. O. ZIEGLER,
*Acting Director,*
*Great Lakes Region.*

[FR Doc.73-20465 Filed 9-25-73;8:45 am]

---

**[ 14 CFR Part 71 ]**

[Airspace Docket No. 73–SW–53]

**VOR FEDERAL AIRWAYS**

**Proposed Alteration**

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter VOR Federal Airways Nos. 13, 17, 20 and 163 in the vicinity of Brownsville, Tex., Harlingen, Tex., McAllen, Tex., and Corpus Christi, Tex.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before October 26, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

It is proposed to amend Part 71 of the Federal Aviation Regulations as follows:

1. V–13 would be extended south of Corpus Christi from McAllen via Harlingen; INT of Harlingen 032° T (023° M) and Corpus Christi 177° T (168° M) radials; to Corpus Christi, including a west alternate from Harlingen via INT of Harlingen 008° T (359° M) and Corpus Christi 192° T (183° M) radials to Corpus Christi. Between Corpus Christi and a point 37 miles south, the main airway would be reduced to a width of 7 miles—3 miles on the east and 4 miles on the west side of centerline. Between Corpus Christi and a point 37 miles south, the alternate airway would be reduced to a width of 7 miles—3 miles on the west side and 4 miles on the east side of centerline.

2. V–17 would be extended east of McAllen from Brownsville via Harlingen to McAllen.

3. V–20 between McAllen and Corpus Christi would be realigned from McAllen via INT of McAllen 038° T (029° M) and Corpus Christi 177° T (168° M) radials; to Corpus Christi. Between Corpus Christi and a point 37 miles south, this airway would be reduced to a width of 7 miles—3 miles on the east and 4 miles on the west side of centerline.

4. V–163 between Brownsville and Corpus Christi would be realigned from Brownsville via INT of Brownsville 358° T (349° M) and Corpus Christi 177° T (168° M) radials; to Corpus Christi, including a west alternate from Brownsville via INT of Brownsville 340° T (331° M) and Harlingen 008° T (359° M) radials; INT of Harlingen 008° T (359° M) and Corpus Christi 192° T (183° M) radials; to Corpus Christi. Between Corpus Christi and a point 37 miles south, the main airway would be reduced to a width of 7 miles—3 miles on the east and 4 miles on the west side of the centerline. Between Corpus Christi and a point 37 miles south, the alternate airway would be reduced to a width of 7 miles—3 miles on the west side and 4 miles on the east side of centerline.

The proposed amendment would provide a bypass routing for aircraft operating between Corpus Christi and Harlingen/McAllen/Brownsville, and would eliminate air traffic control problems of opposite bound aircraft climbing and descending on a single airway. Delays caused by the existing airway alignment would be reduced, and the additional flexibility permitted in assigning requested altitudes would be of economic value to users.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 17, 1973.

H. B. HELSTROM,
*Chief, Airspace and Air*
*Traffic Rules Division.*

[FR Doc.73-20467 Filed 9-25-73;8:45 am]

---

**[ 14 CFR Part 71 ]**

[Airspace Docket No. 73–GL–41]

**TRANSITION AREA**

**Proposed Designation**

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Staples, Minnesota.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before October 26, 1973 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public use instrument approach procedure has been developed for the Staples Municipal Airport, Staples, Minnesota. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedures by designating a transition area at Staples, Minnesota. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (38 FR 435), the following transition area is added:

STAPLES, MINN.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Staples Municipal Airport (latitude 46°22'48" N., longitude 94°48'08" W.), and within 3 miles each side of the 311° bearing from Staples Municipal Airport, extending from the 5-mile radius to eight miles northwest of the 311° bearing from the airport, tending upward from 1200 feet above the surface within 4½ miles east and 9½ miles west of the 311° bearing from the airport, extending to 18½ miles northwest of the airport, excluding that portion south of latitude 46°30'00" N.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Des Plaines, Illinois, on August 21, 1973.

LYLE K. BROWN,
*Director, Great Lakes Region.*

[FR Doc.73-20466 Filed 9-25-73;8:45 am]

---

## ATOMIC ENERGY COMMISSION

**[ 10 CFR Parts 31, 32 ]**

**CARBON-14 IN VITRO CLINICAL OR LABORATORY TESTING**

**Proposed General License for Use**

By letter dated January 24, 1973, Johnston Laboratories, Inc. of Cockeysville, MD, filed a petition for rule making (PRM 32–1) with the Atomic Energy Commission requesting amendment of § 32.19 of the Commission's regulation, 10 CFR Part 32, "Specific Licenses to Manufacture, Distribute, or Import Exempted and Generally Licensed Items Containing Byproduct Material." Section 32.19 includes a number of conditions applicable to specific licenses issued under § 32.18 which authorize the licensee to manufacture, process, produce, package, repackage, import, or transfer quantities of byproduct material for commercial distribution to persons exempt from specific licensing requirements under the provisions of § 30.18 of the Commission's regulation, 10 CFR Part 30, "Rules of General Applicability to Licensing of Byproduct Material," or exempt under equivalent regulations of an Agreement State.

In § 32.19(a), each license issued under § 32.18 is subject to the condition that no more than 10 exempt quantities of byproduct material set forth in § 30.71, Schedule B, shall be sold or transferred in any single transaction. The Commission considers a purchase order or standing order to be a single transaction. Thus, there is a limit of 10 times an exempt quantity that a commercial supplier may sell or transfer against any one purchase order or standing order.

Johnston Laboratories' petition requested that the words "or shipment" be added at the end of the first sentence of § 32.19(a) so that it would read: "No more than 10 exempt quantities set forth in § 30.71 Schedule B of this chapter shall be sold or transferred in any single transaction or shipment." This amendment of § 32.19(a) was requested to permit hospitals exempted from licensing requirements pursuant to § 30.18 to issue a purchase order on a standing basis for an annual supply of exempt quantities of carbon-14 to be delivered by a commercial supplier at a rate not exceeding 10 exempt quantities set forth in § 30.71, Schedule B, per shipment. Hospitals use vials containing 1.5 microcuries of carbon-14 (a fraction of an exempt quantity) in large numbers when operating an automated system for detecting bacteria in blood and other fluids.

The Commission has given careful consideration to the petition and is proposing, instead of the amendment of § 32.19(a) requested by Johnston Laboratories, amendments of the general license in § 31.11[1] of the Commission's regulation, 10 CFR Part 31, "General Licenses for Byproduct Material." As amended, the general license would authorize any physician, clinical laboratory, or hospital to use carbon-14 in units not exceeding 10 microcuries each, in in vitro clinical or laboratory tests, subject to the conditions set out in § 31.11(b), (c), (d), (e), and (f). Under the provisions of the general license, the general licensee could issue a purchase order on a standing basis for a supply of carbon-14 in prepackaged units to be delivered at any rate of shipment.

The general license as amended would in no way affect transactions involving exempt quantities subject to § 32.19, nor would it relax any radiological safety controls over the use of carbon-14 in in vitro clinical or laboratory tests.

The general licensee would be required to register with the Commission and receive an acknowledgement of his registration and a registration number before receiving carbon-14 pursuant to the general license. The objectives of the registration requirement are to (1) provide a means of identifying the general licensee, (2) provide assurance that the general licensee is aware of the terms and conditions of the general license prior to receipt of carbon-14 for use under the general license, and (3) facilitate communication with the general licensee.

Section 32.71, which is intended to assure that general licensees receive properly packaged products which are labeled to identify the radioactive contents and to specify that use is restricted to in vitro clinical or laboratory tests, would be amended to include requirements for issuance of specific licenses to manufacture or distribute carbon-14 for use under the general license in § 31.11.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR

[1] By letter dated May 25, 1973, Johnston Laboratories withdrew its request for amendment of § 32.19(a).

V 38 186 SEP 26 73 XUM

Parts 31 and 32 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, by Nov. 12, 1973. Copies of comments on the proposed amendments may be examined at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

## PART 31—GENERAL LICENSES FOR BYPRODUCT MATERIAL

1. In 10 CFR Part 31, § 31.11 is amended by amending the title of the section, adding a new paragraph (a)(3), and amending paragraph (d)(1) to read as follows:

**§ 31.11 General license for use of byproduct materials for certain in vitro clinical or laboratory testing.**

(a) A general license is hereby issued to any physician, clinical laboratory or hospital to receive, acquire, possess, transfer, or use, for any of the following stated tests, in accordance with the provisions of paragraphs (b), (c), (d), (e), and (f) of this section, the following byproduct materials in prepackaged units:

. . . . . .

(3) Carbon-14, in units not exceeding 10 microcuries each for use in in vitro clinical or laboratory tests not involving internal or external administration of byproduct material, or the radiation therefrom, to human beings or animals.

. . . . . .

(d) The general licensee shall not receive, acquire, possess, or use byproduct material pursuant to paragraph (a) of this section:

(1) Except as prepackaged units which are labeled in accordance with the provisions of a specific license issued under the provisions of § 32.71 of this chapter or in accordance with the provisions of a specific license issued by an Agreement State, which authorizes manufacture and distribution of iodine-125, iodine-131, or carbon-14 for distribution to persons generally licensed by the Agreement State.

. . . . . .

## PART 32—SPECIFIC LICENSES TO MANUFACTURE, DISTRIBUTE, OR IMPORT EXEMPTED AND GENERALLY LICENSED ITEMS CONTAINING BYPRODUCT MATERIAL

2. In 10 CFR Part 32, § 32.71 is amended by adding a new paragraph (b)(3) to read as follows:

**§ 32.71 Manufacture and distribution of byproduct materials for certain in vitro clinical or laboratory testing under general license.**

An application for a specific license to manufacture or distribute byproduct material for use under the general license of § 31.11 of this chapter will be approved if:

. . . . . .

(b) The byproduct material is to be prepared for distribution in prepackaged units of:

. . . . . .

(3) Carbon-14 in units not exceeding 10 microcuries each.

(Secs. 81, 161, Pub. Law 83-703, 68 Stat. 935, 948 (42 U.S.C. 2111, 2201))

Dated at Washington, D.C., this 20th day of September 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,
*Secretary of the Commission.*

[FR Doc.73-20588 Filed 9-25-73;8:45 am]

## [ 10 CFR Part 50 ]

## LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

### Export of Production and Utilization Facilities

The Atomic Energy Commission is considering the adoption of amendments to its regulation, "Licensing of Production and Utilization Facilities," 10 CFR Part 50, which would specify the contents of applications for licenses to export utilization facilities such as power, test, and research reactors and critical facilities, and would also indicate the conditions under which reexport, resale, or other disposal or disposition of items exported under such licenses would be permitted. The proposed amendments would also provide general guidance pertaining to the submission of applications for licenses to export production facilities. The amendments would not, however, contain detailed information concerning the contents of applications for production facility export licenses.

Although, under the provisions of the Atomic Energy Act of 1954, as amended, an AEC license is required for the export of production and utilization facilities, including nuclear reactors,[1] the Commission regulations do not presently specify the contents of applications for licenses authorizing export only of production or utilization facilities, the standards for issuing such licenses, and the conditions of such licenses. The Commission is now considering incorporating such provisions in Part 50.

[1] This license requirement is unaffected by the fact that export of the facility may be made in multiple shipments or that some of the facility parts may be supplied by foreign sources.

Byproduct material, source material and special nuclear material are not included in any facility export licenses issued by the AEC. Separate applications should be made to the AEC for authority to export these radioactive materials. Exports of technical data are also not included in the facility export license. Questions related to the export of technical data should be directed to the Director, Division of International Security Affairs, USAEC.

The proposed amendments would facilitate preparation of an application for a license to export a utilization facility by permitting the applicant to identify items proposed for export by appropriate category titles in lieu of an item-by-item list if the specific items to be exported fall within categories of structures, systems and components which the proposed amendments would identify as those normally associated with the construction, maintenance and operation of a utilization facility. The applicant would only be required to itemize in his application those structures, systems and components of the utilization facility proposed for export which do not fall within one of the recognized categories. Under the proposed amendments, this item-by-item list would be set out in a special section of the application entitled "Other structures, systems and components." The AEC would review all the items listed in this section of the application, would determine for each item whether it is or is not associated with the construction, maintenance or operation of the utilization facility, and would exclude from the AEC export license those items which it determines are not associated with the construction, maintenance or operation of the utilization facility. Applicants would apply directly to the Department of Commerce for export licenses for the excluded items.

No reexports, resale, retransfer or other such disposal or disposition could be made of items exported to specified ultimate consignee under an AEC facility export license unless such reexport, resale, retransfer or other such disposal or disposition was included in the application and approved by the AEC in its issuance of the export facility license, or unless specific written authorization were received from the AEC subsequent to the issuance of the export license.

The AEC recognizes that certain equipment or tools are related to startup, testing, and repair of a facility and are not intended by the applicant to be left with the facility. Authority to reexport such equipment and tools could also be requested in the initial export license application. The application should specify which items in the category of Equipment or Tools are intended to be reexported, the name and address of the ultimate consignees of the reexport, and the end use of equipment and tools. These items could not be otherwise retransferred or disposed of without written authorization of the AEC but must be returned to the United States upon conclusion of the use, or in any event before expiration of the term of the facility export license under which they were originally exported.

Pursuant to the Atomic Energy Act of 1954, as amended, and section 553 of Title 5 of the United States Code, notice is hereby given that adoption of the following amendments to 10 CFR Part 50 is contemplated. All interested persons who desire to submit written comments or suggestions for consideration in connection with the proposed amendments should send them to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff by November 25, 1973. Copies of comments received may be examined in the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C.

§ 50.30 [Amended]

1. Paragraph (c)(1) of § 50.30 is amended by substituting a period for the semicolon at the end of subdivision (iii) and by deleting subdivision (iv).

§ 50.44 [Removed]

2. Section 50.44 is deleted.

3. An undesignated center head "Export Licenses" and a new § 50.65 are added to 10 CFR Part 50 following § 50.60 to read as follows:

### EXPORT LICENSES

**§ 50.65 Export of production and utilization facilities.[2]**

(a) *Filing of application.* (1) Each application for a license to export a production or utilization facility, or amendment thereof, should be filed with the Director of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545. Communications, reports, and applications may be delivered in person at the Commission's offices at 1717 H Street, NW., Washington, D.C.; at 7920 Norfolk Avenue, Bethesda, Maryland; or at Germantown, Maryland.

(2) Each application for a license to export a production or utilization facility, or amendment thereof, should be executed in three signed originals by the applicant or duly authorized officer thereof, under oath or affirmation.

(3) Each filing of an application for a license to export a production or utilization facility, or amendment thereof, should include three copies in addition to the three signed originals.

(b) *Contents of applications: general information.* Each application for a license to export a production or utilization facility shall state:

(1) Name of applicant;

(2) Address of applicant;

(3) Description of business or occupation of applicant;

(4)(i) If applicant is an individual, state citizenship;

(ii) If applicant is a partnership, state name, citizenship and address of each partner and the principal location where the partnership does business;

(iii) If applicant is a corporation or an unincorporated association, state (A) the State where it is incorporated or organized and the principal location where it does business; and (B) whether it is owned, controlled, or dominated by an alien, a foreign corporation, or foreign government, and if so, give details;

(iv) If the applicant is acting as agent or representative of another person in filing the application, identify the principal and furnish information required under this paragraph with respect to such principal;

(5) Name and address of persons or organizations who are arranging for export, if different from the applicant;

(6) Name and address of ultimate consignee;

(7) Name and address of intermediate consignee(s) or parties to export;

(8) Date of proposed first shipment;

(9) Date of proposed completion of shipment;

(10) Proposed criticality date or date of start of operation;

(11) Proposed expiration date of export license;

(12) Total value of all items to be exported from the United States under the license being applied for.

(c) *Contents of application; additional information for utilization facilities.* Each application for a license to export a utilization facility shall contain the following:

(1) General information:

(i) Type of facility,

(ii) Design power level, if a nuclear reactor, in terms of thermal and (where appropriate) electrical watts or kilowatts,

(iii) Name by which the facility is or will be known.

(iv) Location where the facility is to be installed or built.

(2) A list of items proposed to be exported which are associated with the construction, maintenance and operation of a utilization facility by the following categories:

(i) Reactor coolant pressure boundary—Those structures, systems, and components of a nuclear reactor located within or forming a part of the reactor coolant pressure boundary as defined in § 50.2(v).

(ii) Instrumentation—Instrumentation systems for indication, control, and protection of a nuclear reactor, including their associated equipment, which are directly associated with structures, systems, and components located within or forming part of the reactor coolant pressure boundary and which are normally required for routine startup, power operation, or shutdown of the reactor, or for periodic testing. Portions of other instrumentation systems of the facility mounted in a common panel with the covered systems are included in this category.

(iii) Fuel handling equipment—Fuel handling equipment used to load new or recycled fuel into a reactor core, to unload fuel from a reactor core, or to transfer fuel within a reactor facility and place it into a facility provided for onsite storage or into fuel shipping equipment.

(iv) Experimental facilities—Experimental facilities whose primary purpose is the irradiation or activation of material by radiation from a nuclear reactor, or which are used with a reactor to provide a source of nuclear radiation for tests or experiments.

(v) Spare or replacement components—Spare or replacement components or parts for items in categories (i) through (iv), which are furnished during duration of the export license as part of the initial purchase or under a warranty from the vendor.

(vi) Equipment or tools—Special equipment or tools needed to service, maintain, or replace items in categories (i) through (v). Equipment or tools falling under this category which are not intended by the applicant to remain with the facility being exported but are intended to be reexported, resold, retransferred, disposed of, or returned to the United States shall be identified and their proposed disposal or retransfer described. Complete names and addresses of parties outside of the United States other than the ultimate consignee named in the application, to whom resale, reexport, retransfer, or other such disposal or disposition of equipment and tools exported in connection with the proposed facility export license is intended, shall be included. The end use and uses of such equipment or tools by each consignee shall be described.

(3) A list of other structures, systems or components associated with the utilization facility for which the export license application is made which are not included in the categories listed in paragraph (c)(2) of this section. The itemized list should reflect the commodity control list numbers set forth in the regulations of the Office of Export Control, U.S. Department of Commerce (see 15 CFR Part 399). The Commission will determine, for each listed item, whether its export should be licensed by the Commission.

(d) *Standards for licenses authorizing export only.* A license authorizing the export of production or utilization facilities may be issued by the Commission upon determining that:

(1) The issuance of the license to the applicant for export of the facility involved is within the scope of and consistent with the terms of an agreement for cooperation with the nation to which the facility is to exported, and the export would not be inconsistent with U.S. obligations under any treaty or other international agreement.

(2) The application complies with the requirements of the Atomic Energy Act, as amended, and AEC regulations set forth in this chapter.

(e) *Conditions of licenses.* The following shall be deemed to be conditions in each facility export license:

(1) No authority to export special nuclear material, by product material, or source material shall be conferred by the license.

(2) Neither the license, nor any right thereunder, shall be transferred, assigned, or disposed of in any manner, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to any person, unless the Commission shall, after securing full information, find that the transfer is in accordance with the pro-

[2] For other provisions of Part 50 relating to requirements for export licenses, ineligibility of certain applicants for export licenses and jurisdictional limitations see §§ 50.10, 50.21, 50.22, 50.38, and 50.53.

V 381186 SEP 26 73 XUM

visions of the Act and gives its consent in writing.

(3) The license shall be subject to revocation, suspension, modification, or amendment for cause as provided in the Act and Commission regulations, in accordance with procedures provided by the Act and the regulations in this chapter.

(4) The license shall be subject to the provisions of the Act now or hereafter in effect and to all rules, regulations, and orders of the Commission. The terms and conditions of the license shall be subject to amendment, revision, or modification, by reason of amendments of the Act or by reason of rules, regulations, and orders issued in accordance with the terms of the Act.

(5) No items shall be exported under the license unless specifically required for the facility licensed for export.

(6) No items exported under the license shall be reexported or otherwise disposed of by the licensee or used by the licensee for any purpose other than that stated in the application, unless the Commission approves in writing of the disposition or use.

## SECURITIES AND EXCHANGE COMMISSION

**[ 17 CFR Parts 270, 275 ]**

[Release Nos. IA-391, IC-8000, File No. 4-149]

### EXEMPTIONS FOR CERTAIN INSURANCE COMPANY ACCOUNTS AND ADVISERS

**Notice of Proposed Rulemaking**

Notice of proposal to amend rule 3c-4 under the Investment Company Act of 1940 and rule 202-1 under the Investment Advisers Act of 1940 to condition the exemptions afforded by those rules for insurance company separate accounts issuing variable life insurance contracts and their advisers on a determination by the Commission that applicable State laws or regulations provide protections substantially equivalent to relevant protections afforded by the Investment Company Act and the Investment Advisers Act.

Notice is hereby given that the Securities and Exchange Commission has under consideration the adoption of amendments to Rule 3c-4 [17 CFR 270.3c-4] under the Investment Company Act of 1940 and Rule 202-1 [17 CFR 275.202-1] under the Investment Advisers Act of 1940 (hereinafter together referred to as the "Rules"). The proposed amendments are designed to condition further the exemptions afforded through the Rules to variable life insurance separate accounts and their advisers. The proposed amendments to the Rules would be adopted pursuant to the authority granted to the Commission in sections 6(c) and 38(a) of the Investment Company Act [15 U.S.C. 80a-6(c), 80a-37(a)] and in sections 202(a)(11), 206A and 211(a) of the Investment Advisers Act [15 U.S.C. 80b-2(a)(11), 80b-6a, 80b-11].

On January 31, 1973,[1] in response to a petition for exemptive rules with respect to specified types of variable life insurance contracts from the federal securities laws, the Commission determined that:

1. A public offering of variable life insurance contracts in the form proposed in the Petition would involve an offering of securities required to be registered under the Securities Act.

2. Persons selling such variable life contracts would generally be required to register as broker-dealers under the Securities Exchange Act.

3. A company, including a separate account of an insurance company, primarily engaged in issuing and selling such variable life insurance contracts would be an investment company required to be registered under the Investment Company Act.

4. An insurance company or other person rendering investment advice to a separate account issuing and funding such variable life insurance contracts would be required to register as an investment adviser under the Investment Advisers Act.

The Commission did not adopt proposed rules which would have exempted variable life insurance contracts having certain specified characteristics from the registration requirements of the Securities Act of 1933 and which would have exempted such contracts and persons selling them from certain provisions of the Securities Exchange Act of 1934. The Commission did adopt Rule 3c-4 under the Investment Company Act of 1940 and Rule 202-1 under the Investment Advisers Act of 1940 to exempt from those statutes separate accounts used for the offer and sale of such contracts and advisers to such separate accounts [38 FR 4317].

In connection with the adoption of Rule 3c-4 under the Investment Company Act, the Commission stated that while some of the protections of the Act would be relevant to variable life insurance, variable life insurance separate accounts should be exempted from the Act "[i]n deference * * * to the established Congressional policy of preserving state regulation of insurance." Indeed, as a condition to such exemption, Rule 3c-4 requires in subparagraph (b)(4) that the "variable life insurance policy" issued by an exempt separate account:

* * * in its entirety is a life insurance contract subject to regulation under the insurance laws of any State in which such policy is offered, including all required approvals by the insurance commissioner of such State.

In determining to provide this exemption, the Commission recognized the difficulty of reconciling the Act with state regulation of insurance. Further, the Commission stated:

* * * application of the Investment Company Act to variable life insurance would create complex administrative problems, since substantial exemptions from the Act would be required in order to make the operation of a separate account to fund variable life insurance contracts feasible.

Noting the active participation by the National Association of Insurance Commissioners (N.A.I.C.) in the proceeding which led to adoption of the Rules, and emphasizing the need for the states to adopt regulations appropriate to the operation of variable life insurance separate accounts, the Commission also stated:

Consistent with the representations made by the National Association of Insurance Commissioners, we expect the states to move expeditiously to develop, refine and adopt regulations with respect to variable life insurance. Further, we expect that such regulations will provide material protections to purchasers substantially equivalent to the relevant protections that would be available under the Investment Company Act. In particular, we believe it important that the regulations provide for the valuation of portfolio securities in a uniform manner; that they assure that contractholders be furnished annual statements containing information similar in nature to the information that would be provided by a registered investment company through annual reports and proxy statements; that they provide protection against unauthorized or improper changes in investment policies and against excessive management, administrative and sales charges; and that transactions with affiliates be restricted in a manner similar to section 17 (15 U.S.C. 80a-17) of the Investment Company Act and the rules thereunder. The Commission will closely monitor the development of state law in this area to assure its adequacy in providing these protections and, if in the future it appears that substantial deficiencies exist and are not likely to be remedied, the Commission will then consider whether it is necessary or appropriate to modify or rescind Rule 3c-4.

With respect to Rule 202-1 under the Investment Advisers Act, the Commission also noted its expectation that the states would provide adequate protection and its intention to monitor closely developments under state law.

On August 2, 1973,[2] the Commission noted that, because of the absence of legislation or regulation, variable life insurance contracts could not be approved in some states. The Commission stated that a Securities Act registration statement with respect to variable life insurance would not be accepted for filing unless the variable life policy had been approved for sale in a state in which it is intended to be sold.[3] A few states have already approved policies for sale and adopted enabling legislation. At the present time, eleven registration statements have been filed for contracts issued by variable life insurance separate accounts, although none has yet become effective.[4]

Since the adoption of the exemptive rules, some states have taken steps to develop regulations applicable to variable life insurance contracts. The N.A.I.C. Variable Annuities and Other Contracts (C4) Subcommittee, which was authorized to prepare regulations for adoption by the states, has met several times in this capacity.[5] Although the Subcommittee has made commendable progress, we understand that a proposed draft of model regulations will not be submitted to the full N.A.I.C. for approval until December of this year at the earliest. Assuming such approval, individual states might then adopt the proposal in whole or in part, or reject it and develop their own scheme of regulation.

In light of these developments, the Commission is concerned that variable life insurance contracts, for which Securities Act registration statements have already been and may in the future be filed, might be sold to the public prior to the development of appropriate state regulation. After giving further consideration to the Rules and the comments received in the earlier comment period, we believe that this situation should be avoided. Accordingly, the Commission proposes that the exemptions afforded in Rules 3c-4 and 202-1 be specifically conditioned upon a Commission determination that the state laws or regulations affecting the operations of such separate accounts provide investor protections substantially equivalent to the relevant protections of the Investment Company Act and the Investment Advisers Act. The Commission believes that this modified approach will assure investors that they will be protected against the possibility that variable life insurance contracts will be sold prior to the time the states have adopted regulations consistent with the relevant protections of these statutes.

The proposed amendments are consistent with the conclusions expressed in the Commission's earlier release announcing the adoption of Rules 3c-4 and 202-1. As indicated by that release, it is the Commission's view that insurance companies occupy an unusual, if not unique, position in relation to federal law. Their activities extend over many states, they play a substantial role in the national economy, and yet they have been regulated almost exclusively by the states. In its enactment of the McCarran-Ferguson Act[6] and section 12(g)(2)(G) of the Securities Exchange Act,[7] Congress has demonstrated a desire to preserve this long tradition of state regulation relating to insurance. The enactment of section 12(d)(2)(G) is particularly pertinent to the instant situation because there, just as here, certain investor-related activities of insurance companies were exempted from the federal securities laws in favor of state regulation. The proposed amendments adhere to this Congressional policy of deference to state regulation of insurance.

In our earlier release, we also referred to the difficulty of reconciling the Investment Company Act with state insurance regulation and, in addition, noted that the policy of deferring to state regulation was buttressed here by the fact that application of the Act to variable life insurance would have created complex administrative problems because of the difficulties that would have been encountered in fashioning appropriate exemptions from the Act to make the operation of variable life insurance feasible. Although the Commission's experience in providing exemptions from the Act for variable annuities would have been of some aid in fashioning exemptions here, variable life insurance would have presented exemptive problems different from those of variable annuities.

A feature present in variable life insurance, but not in variable annuities, is the guaranteed minimum death benefit, which results in a different combination of investment and insurance elements than that found in variable annuities. Because of the different mix of these elements, and because of the obligations incurred by the insurance company under the death benefit provision, various exemptive approaches followed with respect to variable annuities would have had to be reconsidered to determine their feasibility and appropriateness in the case of variable life insurance. In instances where those approaches would have been found unacceptable for variable life insurance, new exemptive techniques would have had to be devised; and, as new forms of variable life insurance were developed, still further study and analysis would have been required and additional exemptive solutions would have had to be considered. This could have been particularly burdensome because of the anticipated greater activity with respect to variable life insurance. While the proceeds in 1971 from the sale of variable annuities—a product which has been sold for about a decade—were less than 3 percent of the amount of life insurance premiums collected in 1971, it has been estimated that within ten years variable life insurance will account for 20–40 percent of all insurance sales.[8] Accordingly, difficulties and problems would likely have occurred on a much broader scale in the case of variable life insurance than they have in the case of variable annuities.

An example of the kind of exemptive problem which would have arisen in attempting to accommodate variable life insurance to the Investment Company Act involves the redeemability requirement in section 27(c)(1) of the Act [15 U.S.C. 80a-27(c)(1)]. With respect to the feasibility and appropriateness of redeemability, variable life insurance involves complexities not present in either the pay-in or the pay-out periods of variable annuities, since variable life insurance provides a combination of a cash value benefit together with a death benefit which is many times greater than the premiums paid in the early years of the contract. Accordingly, although the Commission has adopted exemptive rules concerning redeemability with respect to variable annuities,[9] the approach taken in those rules would not necessarily have been suitable for variable life insurance.

Difficult exemptive problems would also have arisen with respect to sales charges. The report on variable life insurance by our Division of Investment Management Regulation discusses the kinds of problems that occur in this area.[10] These problems probably would have made some form of exemptive action appropriate. Although we have adopted exemptive rules in this area for variable annuity separate accounts, the contracts issued by those accounts and the problems they present differ from the variable life insurance contracts because of the death benefit.

Still another area which could have raised difficult exemptive problems is the valuation of assets. Section 2(a)(41) of the Act prescribes the manner in which the assets of a separate account must be

---

[1] Securities Act Release No. 5360, issued also as Investment Company Act Release No. 7644, 38 FR 4316.

[2] As we stated in that release:

* * * In the Commission's view, section 6(a) of the Securities Act [15 U.S.C. 77f(a)] generally contemplates that at the time of the filing of a registration statement the registrant must have a present intention to commence selling when the registration statement is ordered effective; and section 5(b) of that Act [15 U.S.C. 77e(b)] contemplates that at the time of filing there must be a reasonable certainty that the securities being offered can be legally sold upon effectiveness. It is the Commission's opinion that such reasonable certainty does not exist if the absence of enabling legislation, regulations or the approval of a policy by sate insurance authorities would prevent the sale of a policy in the jurisdiction in which it is intended to be sold. Accordingly, a registration statement covering the offer and sale of a policy which cannot be sold because of the above limitations will not be accepted for filing under the Securities Act.

[3] Securities Act Release No. 5413, 38 FR 22121.

[4] The first such registration statement was filed on May 25, 1973.

[5] A member of the staff of our Division of Investment Management Regulation has been designated to provide liaison between the Commission and the N.A.I.C. and has attended meetings of the Subcommittee with other staff members of that Division and our Division of Corporation Finance.

[7] Section 12(g)(2)(G) (15 U.S.C. 78 *l*(g)(2)(G), Public Law No. 88-467, 78 Stat. 565) grants exemption from the registration, reporting, proxy and insider trading requirements of the Securities Exchange Act with respect to any security issued by an insurance company meeting specified conditions, including the conditions that such insurance company be subject to certain state regulation and, in part, that such regulation conform to that prescribed by the N.A.I.C.

valued. A state insurance commissioner, however, might exercise authority to value the assets of a separate account in a manner different from that provided in section 2(a)(41) of the Act.

It would also have been difficult, for example, to apply certain provisions of the Act relating to shareholder voting. If the assets of the variable life insurance separate account become inadequate to support the minimum death benefit, state insurance regulation might require the deficiency to be made up from the insurance company's general account. Accordingly, there is a question whether an insurance company would be willing to maintain a separate account for variable life insurance if, because of contract-holder voting, the insurance company could not be certain it would continue to supervise and manage the account's activities.

The proposed modification to Rule 202-1, which exempts the investment adviser to the variable life insurance separate account from the Investment Advisers Act, is also consistent with the policy of deference to state regulation. Insofar as the Advisers Act applies to advisers to investment companies, it, just as the Investment Company Act, provides a regulatory structure relating to the operations and management of investment companies. The Investment Company Act and the Investment Advisers Act differ in this respect from the Securities Act and the Securities Exchange Act—from which the Commission did not exempt variable life insurance—for these other statutes deal primarily with the securities distribution process. Under the proposed modification to the rule under the Advisers Act, once the appropriate state laws or regulations exist, the relevant protections afforded by the regulatory structure of that Act with respect to those insurance companies which act as investment advisers to variable life separate accounts, would be administered by the states.

The Commission hopes that the procedure contemplated by the proposed amendments will enable it to reach a single determination with respect to the adequacy of protections afforded by state insurance law. The model variable life insurance regulations now being developed by the N.A.I.C., if adequate, could form the basis of a Commission determination pursuant to the amended Rules. As indicated in the proposed Rule amendments, the standard will not be whether a model law and regulations are identical to the relevant provisions of the Investment Company Act and the Investment Advisers Act, but whether they provide protections substantially equivalent to those provisions. A model law and regulations would be desirable from a practical standpoint. Following a Commission determination with respect to such law and regulations, the contracts could be sold in any state which adopts provisions identical to the model. It is contemplated that the Commission would initially reach such a determination with respect to a comprehensive regulatory system to be proposed by the N.A.I.C. containing minimum protections which could be adopted by all states in which variable life insurance contracts are sold. Of course, individual states would be free to adopt legislation or regulations which differ from those contained in the model. Under such circumstances, the Commission would stand ready to consider applications or petitions filed by interested persons, setting forth information and reasons in support of a further Commission determination that such other law or regulations provide for protections substantially equivalent to the relevant protections of the Investment Company Act and the Investment Advisers Act.

As noted, paragraph (b)(4) of the present Rule 3c-4 provides in part that a "variable life insurance policy" must be "subject to regulation under the insurance laws of any State in which such policy is offered." It is proposed that Rule 3c-4 be amended by adding a new paragraph (c) to the Rule.

In addition to the enumerated provisions of the proposed amendment to Rule 3c-4, which are the areas of investor protection specifically discussed in our earlier release of January 31, 1973, the Commission is considering whether the Rule should require as a condition for exemption that applicable state law or regulations include provision for other areas of concern under the Investment Company Act, which would also be set forth in Rule 3c-4. Accordingly, the Commission particularly requests comments as to the appropriateness and relevance of requirements with respect to state law in other areas, including the following: (1) Protection against unfair contract provisions with respect to redemption of contractholder interests; (2) protections relating to insider trading with respect to portfolio securities; (3) protections against improper lending of the separate account's assets to controlling persons or persons under common control with the separate account; (4) prohibitions against breaches of fiduciary duty involving personal misconduct and against larceny and embezzlement; (5) provision for written advisory contracts; (6) prohibitions against persons serving as employees of such insurance companies in connection with the operation of the separate account who have been convicted of certain crimes or who have willfully violated the federal securities laws; (7) provision for custodianship of cash and portfolio securities of the separate account and bonding of persons with access to such cash and securities; (8) provisions relating to the capacity of the separate account to invest in investment companies, insurance companies, broker-dealers, underwriters and investment advisers; (9) provision for independent review of the operations of the separate account, by a state insurance commissioner or otherwise, similar to that provided by directors of a registered investment company; (10) provision for review of the financial statements of the separate account by independent certified public accountants; and (11) private rights of action with respect to such investor protection provisions for contractholders.

In addition to the proposed amendment to Rule 202-1 under the Investment Advisers Act, the Commission is considering whether that rule should require, as a condition for exemption, that applicable state law or regulations include provision for specified areas of concern which would be expressly set forth in Rule 202-1. Accordingly, the Commission also particularly requests comment as to the appropriateness and relevance of requirements with respect to state law in such areas under the Investment Advisers Act as the following: (1) prohibitions against persons who have committed certain crimes or violations of the federal securities laws from acting as investment advisers of variable life insurance separate accounts or as associated persons of such advisers; (2) prohibitions against the payment of unfair or inequitable advisory fees; (3) provisions for adequate recordkeeping; (4) prohibitions against fraudulent and improper conduct; and (5) private rights of action with respect to such investor protection provisions for contract holders.

*Commission Action.* The Securities and Exchange Commission, pursuant to authority granted to it in sections 6(c) and 38(a) of the Investment Company Act of 1940 and sections 202(a)(11), 206A and 211(a) of the Investment Advisers Act, proposes to amend Parts 270 and 275 of Chapter II of Title 17 of the Code of Federal Regulations as indicated below:

## PART 270—RULES AND REGULATIONS UNDER THE INVESTMENT COMPANY ACT OF 1940

Section 270.3c-4 is proposed to be amended by adding a new paragraph (c) reading as follows:

**§ 270.3c-4 Definition of "Insurance Company" for purposes of section 3(c)(3) of the Act.**

* * * * *

(c) For the purpose of paragraph (b)(4) of this section "regulation under the insurance laws of any State" shall mean laws, rules or regulations which the Commission shall have determined, by rule or order, provide for investor protections substantially equivalent to those which are provided by the Investment Company Act of 1940, with respect to (1) the valuation of portfolio securities in a uniform manner; (2) the annual reporting to contract holders of information similar in nature to the information that would be provided by a registered investment company to its shareholders through annual reports and proxy statements; (3) prohibitions against unauthorized or improper changes in investment policies; (4) protection against excessive management fees, administrative fees and sales charges; and (5) protections similar to those afforded by section 17 of the Act relating to transactions with affiliates.

## PART 275—RULES AND REGULATIONS UNDER THE INVESTMENT ADVISERS ACT OF 1940

As proposed to be amended, revised § 275.202-1 would read as follows:

**§ 275.202-1 Exclusion of issuers of variable life insurance policies and of interests or participations thereunder.**

The term "investment adviser," in section 202(a)(11) of the Act, shall not include an insurance company, or any affiliated company thereof as defined in section 2(a)(2) of the Investment Company Act of 1940, to the extent that performance of advisory services is incidental to the conduct of the business of issuing any variable life insurance policy, as defined in section 270.3c-4 of this Chapter under the Investment Company Act of 1940, or of issuing any interest or participation in a separate account, as referred to in said section, issued in connection with such a policy, provided that the laws, rules or regulations of each State in which such policies or interests are offered shall provide investor protections which the Commission shall have determined, by rule or order, are substantially equivalent to relevant protections provided by the Investment Advisers Act.

After consideration of all of the comments received on both rule proposals, the Commission may include in the rules, as amended, requirements in the listed areas of concern as well as other areas that may be suggested.

All interested persons are invited to submit their written views and comments on the proposed rule amendments to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549 on or before 5:30 P.M. Tuesday, October 23, 1973. All communications in this regard should refer to File No. 4-149, and will be available for public inspection.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

# Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF STATE

[Public Notice CM-69]

### U.S. ADVISORY COMMISSION ON INTERNATIONAL EDUCATIONAL AND CULTURAL AFFAIRS

#### Notice of Meeting

The United States Advisory Commission on International Educational and Cultural Affairs will meet in open session on Friday, October 5, 1973, at the Department of State, Room 1408, from 2 p.m. to 3 p.m. The agenda will include a presentation of the content and design of the Commission's quarterly publication, Exchange. For purposes of fulfilling building security requirements, anyone wishing to attend the open session must advise the Staff Director by telephone in advance of the meeting. Telephone: 632-2764.

From 9 a.m. to 12 noon the Advisory Commission will meet in closed session, as provided for by 5 U.S.C. 552(b)(1).

Dated September 19, 1973.

MARGARET G. TWYMAN,
*Staff Director,*
*Commission Secretariat.*

[FR Doc.73-20453 Filed 9-25-73;8:45 am]

## DEPARTMENT OF THE TREASURY

### Comptroller of the Currency

### REGIONAL ADVISORY COMMITTEE ON BANKING POLICIES AND PRACTICES OF THE FOURTH NATIONAL BANK REGION

#### Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a closed meeting of the Comptroller of the Currency's Regional Advisory Committee on Banking Policies and Practices of the Fourth National Bank Region will be held at 9:00 a.m. on October 5, 1973, at the French Lick—Sheraton Hotel in French Lick, Indiana.

The purpose of this meeting is to assist the Regional Administrator and Comptroller of the Currency in a continuing review of bank regulations and policies. The meeting will also apprise agency officials of current conditions and problems banks are experiencing in the Fourth National Bank Region.

It is hereby determined pursuant to section 19(d) of Public Law 92-463 that the meeting is concerned with matters listed in section 552(b) of Title 5 of the United States Code and particularly with exceptions (3), (4) and (8) thereof, and is therefore exempt from the provisions of section 10(a)(1) and (a)(3) of the Act (Public Law 92-463) relating to open meetings and public participation therein.

Dated September 20, 1973.

[SEAL] JAMES E. SMITH,
*Comptroller of the Currency.*

## DEPARTMENT OF DEFENSE

### Department of the Air Force

### AERONAUTICAL SYSTEMS DIVISION, INDUSTRY ADVISORY GROUP ON AIRCRAFT STRUCTURAL INTEGRITY PROGRAM

#### Notice of Meeting

SEPTEMBER 20, 1973.

A meeting of the Aeronautical Systems Division (ASD), Aircraft Structural Integrity Program, Industry Advisory Group will be held at Wright-Patterson Air Force Base, Ohio on October 23 and 24, 1973.

This Advisory Group is established to advise the ASD Commander on all matters incident to the development and refinement of (1) service life prediction techniques for aircraft structures and (2) design criteria to obtain programmed service life.

This meeting is for the purpose of providing advice to the ASD Commander regarding formulation of requirements, determination of procedures and discussion of current industry activities in assuring structural integrity of current and future Air Force systems.

Under the authority of Secretary of the Air Force memorandum of March 22, 1973, the ASD Commander has determined that portions of this meeting will involve matters which fall within section 552(b) (1) and (4) of title 5, United States Code. Accordingly, with the exception of the afternoon session on October 24, 1973, the meeting will be closed to the public. Advisory Group Chairman is Mr. W. B. Miller, ASD/ENF, Wright-Patterson Air Force Base, Ohio 45433 (513-255-5312).

JOHN W. FAHRNEY,
*Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.*

### Office of the Secretary

### NATIONAL COMMITTEE FOR EMPLOYER SUPPORT OF THE GUARD AND RESERVE

#### Notice of Meeting

Pursuant to the provisions of section 10, Public Law 92-463, effective January 5, 1973, notice is hereby given that a meeting of the National Committee for Employer Support of the Guard and Reserve Executive Committee will be held on October 3, 1973, at the Key Bridge Marriott Motor Hotel, Arlington, Virginia.

The purpose of the meeting is to increase the knowledge and understanding of the members of the Executive Committee on matters relative to enlisting Employer Support for the Guard and Reserve.

A transcript of the meeting will be available to anyone desiring information about the meeting.

Additional information concerning these meetings may be obtained by contacting the Assistant to the National Chairman, National Committee for Employer Support of the Guard and Reserve, Room 3A29, 400 Army-Navy Drive, Arlington, Virginia 22202.

MAURICE W. ROCHE,
*Director, Correspondence and Directive OASD(C).*

## DEPARTMENT OF AGRICULTURE

### Forest Service

### FLATHEAD WILD AND SCENIC RIVER PROPOSAL

#### Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Flathead Wild and Scenic River Proposal, Report Number USDA-FS-DES(Leg) 74-30.

The environmental statement concerns a proposal to include 219 miles of the Flathead River in the National Wild and Scenic Rivers System. The river flows through Flathead and Powell Counties, Montana. The proposal provides the means to preserve and enhance the river in its free-flowing status and to minimize adverse environmental effects to the river and adjacent lands. The impacts of development and increased recreation use will be controlled on the basis of the capability of the river and its environment to support these uses and activities rather than on projected trends and demands.

This draft environmental statement was filed with CEQ on September 20, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. and Independence Ave, SW., Washington, D.C. 20250.
USDA, Forest Service, Region 1, Northern Region, 200 East Broadway, Missoula, Montana 59801.
USDA, Forest Service, Flathead National Forest, 290 North Main, Kalispell, Montana 59901.

Copies are also available at the six ranger districts on the Flathead National Forest.

A limited number of single copies are available upon request to Edsel L. Corpe, Forest Supervisor, Flathead National Forest, 290 North Main, Kalispell, Montana 59901.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Edsel L. Corpe, Forest Supervisor, Flathead National Forest, 290 North Main, Kalispell, Montana 59901. Comments must be received by Nov. 29, 1973, in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
*Deputy Chief, Forest Service.*

[Region 5]

### MODOC NATIONAL FOREST GRAZING ADVISORY BOARD

#### Notice of Meeting

The Modoc National Forest Grazing Advisory Board will meet at 10 a.m., October 16, 1973, in the Forest Supervisors Office, 441 N. Main, Alturas, California.

The purpose of this meeting is to discuss grazing matters and other resource management problems which affect grazing on the Modoc National Forest.

The meeting will be open to the public. Persons who wish to attend should notify Don Bolander, Box 611, Alturas, California 96101, Telephone 916-233-3521. Written statements may be filed with the committee before or after the meeting.

The committee has established the following rules for public participation: Public members may speak up at meeting after the regular board meeting is completed.

DONALD H. BOLANDER,
*Acting Forest Supervisor.*

## DEPARTMENT OF COMMERCE

### Domestic and International Business Administration

### COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

### Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a meeting of the Safeguards Subgroup of the Computer Systems Technical Advisory Committee will be held Friday, October 5, 1973, at 9:30 a.m., in Conference Room C, Main Commerce Building, 14th and Constitution Avenue, Washington, D.C.

Members advise the Office of Export Control, Bureau of East-West Trade, with respect to questions involving technical matters, worldwide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer systems, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

Agenda items are as follows:

1. Opening remarks and review of purpose of subgroup by Robert D. Klages, Chairman.
2. Presentation of papers or comments by the public.
3. Discussion and modification of report on safeguards prepared by members of the subgroup.
4. Executive session: Continuation of discussion and modification of report prepared by members of the subgroup.
5. Adjournment.

The public will be permitted to attend the discussion of agenda items 1-3, and a limited number of seats will be available to the public for these agenda items. To the extent time permits, members of the public may present oral statements to the subgroup. Interested persons are also invited to file written statements with the subgroup.

With respect to agenda item 4, "Executive Session," the Assistant Secretary of Commerce for Administration, on July 17, 1973, determined, pursuant to section 10(d) of Public Law 92-463, that this agenda item should be exempt from the provisions of sections 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the meeting will be concerned with matters listed in 5 USC 552(b)(1).

Further information may be obtained from Robert D. Klages, Chairman of the subgroup, Univac, 1019 19th Street NW., Washington, D.C. 20036 (A/C 202—293-7720).

Minutes of those portions of the meeting which are open to the public will be available 30 days from the date of the meeting upon written request addressed to: Central Reference and Records Inspection Facility, U.S. Department of Commerce, Washington, D.C. 20230.

Dated September 21, 1973.

JOHN T. CONNOR, JR.,
*Acting Director,*
*Bureau of East-West Trade.*

## Maritime Administration

[Report No. 123]

### LIST OF FREE WORLD AND POLISH FLAG VESSELS ARRIVING IN CUBA SINCE JANUARY 1, 1963

SECTION 1. The Maritime Administration is making available to the appropriate Departments the following list of vessels which have arrived in Cuba since January 1, 1963, based on information received through August 31, 1973, exclusive of those vessels that called at Cuba on U.S. Government-approved noncommercial voyages and those listed in section 2. Pursuant to established U.S. Government policy, the listed vessels are ineligible to carry U.S. Government-financed cargoes from the United States.

* Added to Report No. 122 appearing in the FEDERAL REGISTER issue of March 26, 1973.

** Ships appearing on the list which have made no trips to Cuba under their present registry.

NOTE.—The French flag ship Nelle has been removed from this list since it is the same ship as the Nelee, the name having been misspelled.

SEC. 2. In accordance with approved procedures, the following vessels listed in this section which called at Cuba after January 1, 1963, have reacquired eligibility to carry U.S. Government-financed cargoes from the United States by virtue of the persons who control the vessels having given satisfactory certification and assurance:

(a) That such vessels will not, thenceforth, be employed in the Cuban trade so long as it remains the policy of the U.S. Government to discourage such trade; and

(b) That no other vessels under their control will thenceforth be employed in the Cuban trade, except as provided in paragraph (c); and

(c) That vessels under their control which are covered by contractual obligations, including charters, entered into prior to December 16, 1963, requiring their employment in the Cuban trade shall be withdrawn from such trade at the earliest opportunity consistent with such contractual obligations.

## National Bureau of Standards

### EXPANDED VINYL FABRICS FOR APPAREL USE

#### Withdrawal of Commercial Standard

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the withdrawal of Commercial Standard CS 258-63, "Expanded Vinyl Fabrics for Apparel Use."

This action is taken in furtherance of the Department's announced intentions as set forth in the public notice appearing in the FEDERAL REGISTER of July 2, 1973 (38 FR 17520), to withdraw this standard.

The effective date for the withdrawal of this standard will be November 26, 1973. This withdrawal action terminates the authority to refer to this standard as a voluntary standard developed under the Department of Commerce Procedures.

Dated September 19, 1973.

RICHARD W. ROBERTS,
*Director.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

[DESI 740; Docket No. FDC-D-664; NDA 4-038, etc.]

### CERTAIN ESTROGENS FOR ORAL OR PARENTERAL USE

#### Drugs for Human Use; Drug Efficacy Study Implementation; Follow-Up Notice

In a notice published in the FEDERAL REGISTER of November 10, 1971 (36 FR 21537), the Commissioner of Foods and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on the following drugs:

1. *Preparations containing dienestrol.* a. Restrol tablets; The Central Pharmacal Co., 116-128 East Third Street, Seymour, IN 47274 (NDA 6-428). (Two reports.)

b. Synestrol tablets; White Laboratories, Inc., Kenilworth, N.J. 07033 (NDA 5-991).

2. *Preparations containing diethylstilbestrol.* a. Diethylstilbestrol Enseals and Tablets; Eli Lilly and Co., Post Office Box 618, Indianapolis, IN 46204 (NDA 4-039 and 4-041 (previously stated to be 4-040)). (Three reports.)

b. Diethylstilbestrol tablets; Vale Chemical Co., Inc., 1201 Liberty Street, Allentown, PA 18102 (NDA 4-638).

c. Diethylstilbestrol (Stilbestrol) Tablets; Rexall Drug Co., 3901 North Kingshighway Boulevard, St. Louis, MO 63115 (NDA 6-603).

d. Diethylstilbestrol tablets; S. F. Durst and Co., Inc., 5317 North Third Street, Philadelphia, PA 19120 (NDA 4-297).

e. Stilbestrol tablets; High Chemical Co., 1760 North Howard Street, Philadelphia, PA 19122 (NDA 5-233).

f. Stilbetin tablets and enteric coated tablets; E. R. Squibb and Sons, Inc., Georges Road, New Brunswick, N.J. 08903 (NDA 4-056).

g. Diethylstilbestrol Perles; The Upjohn Co., 7171 Portage Road, Kalamazoo, MI 49002 (NDA 4-073).

h. Diethylstilbestrol in oil injections; Eli Lilly and Co. (NDA 4-038 (previously stated to be 1-221)).

i. Diethylstilbestrol in ethyl oleate injection; Eli Lilly and Co. (NDA 7-844).

3. *Preparations containing other diethylstilbestrol derivatives.* a. D.S.D. tablets and enteric coated tables, containing diethylstilbestrol dipropionate; The Blue Line Chemical Co., 302 South Broadway, St. Louis, MO 63102 (NDA 5-159).

b. Stilphostrol ampoules and tablets, containing diethylstilbestrol diphosphate; Dome Laboratories, Division of Miles Laboratories, Inc., 400 Morgan Lane, West Haven, CT 06516 (NDA 10-010).

4. *Preparation containing promethestrol dipropionate.* a. Meprane Dipropionate tablets; Reed and Carnrick Pharmaceuticals, 30 Boright Avenue, Kenilworth, N.J. 07033 (NDA 6-042).

The notice stated that these drugs were regarded as effective, probably effective, possibly effective, and lacking substantial evidence of effectiveness for their various indications.

No data were submitted in support of any of the less than effective indications and the drugs are now regarded to either lack substantial evidence of effectiveness or are not shown to be safe for those indications.

Accordingly, with respect to these products, the revised effectiveness classification and marketing status are as follows:

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that, except for oral dosage forms containing 25 milligrams or more of diethylstilbestrol per tablet and parenteral dosage forms containing 25 milligrams or more of diethylstilbestrol per milliliter, the drugs are effective for those indications described as effective in the notice of November 10, 1971. Dosage forms containing 25 milligrams or more of diethylstilbestrol per tablet or milliliter are either regarded as contraindicated or inappropriate dosages for the indications claimed in the labeling and raise a question of safety. Appearing elsewhere in this issue of the FEDERAL REGISTER is a notice of opportunity for hearing on the proposal to withdraw approval of those parts of new drug applications providing for such dosage form strengths.

The drugs lack substantial evidence of effectiveness for all of their other labeled indications.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under the conditions described herein.

1. *Form of drug.* These preparations are in tablet, enteric coated tablet, or capsule form suitable for oral administration; or are sterile preparations in a form suitable for parenteral administration.

2. *Labeling conditions.* The labeling conditions are the same as those described in the notice of November 10, 1971, except that the probably effective and possibly effective indications are no longer allowable. Complete labeling guidelines are available upon request.

3. *Marketing status.* Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 FR 11273), as follows:

a. For holders of "deemed approved" new drug applications (i.e., an application which became effective on the basis of safety prior to October 10, 1962), the submission of a supplement for revised labeling and an abbreviated supplement for updating information as described in paragraphs (a)(1)(i) and (iii) of the notice of July 14, 1970.

b. For any person who does not hold an approved or effective new drug application, the submission of an abbreviated new drug application as described in paragraph (a)(3)(i) of that notice.

c. For any distributor of the drug, the use of labeling in accord with this announcement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

C. *Notice of opportunity for a hearing.* Notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto providing for indications lacking substantial evidence of effectiveness referred to in paragraph A of this notice on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn.

On or before October 26, 1973, the applicant(s) and any other interested person may file with the Hearing Clerk, Food and Drug Administration, Room 6-86, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within the specified time will constitute an election by him not to avail himself of the opportunity for a hearing. No extension of time may be granted.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s) which have not been supplemented to delete the indication(s) lacking substantial evidence of effectiveness.

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before October 26, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific acts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claim(s) involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order making findings and conclusions on such data and withdrawing approval of application(s) not supplemented to delete the claim(s) involved.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after October 26, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Communications forwarded in response to this notice should be identified with the reference number DESI 740, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Office of Scientific Evaluation (BD-100), Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Generic Drug Staff (BD-69), Office of Scientific Evaluation, Bureau of Drugs.

Request for Hearing (identify with Docket number): Hearing Clerk (CC-20), Room 6-86, Parklawn Building.

Requests for Academy's report: Drug Efficacy Study Information Control (BD-65), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Manager (BD-101), Bureau of Drugs.

Received requests for a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355), and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated September 12, 1973.

A. M. SCHMIDT,
*Commissioner of Food and Drugs.*

[FR Doc.73-20442 Filed 9-21-73;8:45 am]

[DESI 740; Docket No. FDC-D-660; NDA 4-039, etc.]

### CERTAIN ESTROGENS FOR ORAL OR PARENTERAL USE

#### Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

In a notice (DESI 740) published in the FEDERAL REGISTER of November 10, 1971 (36 FR 21537), the Commissioner of Foods and Drugs announced his conclusions pursuant to evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group concerning certain orally and parenterally administered estrogens. Appearing elsewhere in this issue of the FEDERAL REGISTER is a followup notice describing the conditions under which certain of those products are regarded to be effective:

The following new drug applications referenced in the notice provide for oral dosage forms containing 25 mg. or more of diethylstilbestrol and a parenteral dosage form (1 ml. ampule) containing 25 mg. of diethylstilbestrol. Such large single dosages of diethylstilbestrol are regarded as either contraindicated (e.g., for accidents of pregnancy), and/or are in excess of the amounts recognized as appropriate for the indications claimed in the labeling reviewed by the Academy, thus raising a question of safety for use for the indications claimed.

NDAs 4-039 and 4-041: Those parts of the NDA's providing for Diethylstilbestrol Tablets and Enseals containing 25 mg. diethylstilbestrol; Eli Lilly and Co., Post Office Box 618, Indianapolis, IN 46206.

NDA 6-603: Those parts of the NDA providing for a tablet containing 25 mg.

V 38 186 SEP 26 73 XUM

diethylstilbestrol; Rexall Drug Company, 3901 North Kingshighway, St. Louis, MO 63115.

NDA 4-056: Those parts of the NDA providing for tablets containing 25 and 100 mg. diethylstilbestrol; E. R. Squibb and Sons, Lawrenceville-Princeton Road, Post Office Box 4000, Princeton, N.J. 08540.

NDA 7-844: Diethylstilbestrol Ampoules (1 ml.), containing 25 mg. diethylstilbestrol in ethyl oleate; Eli Lilly and Co. This dosage form had been labeled only for use in certain types of accidents of pregnancy. Lilly discontinued this product in 1966 and approval of the NDA was withdrawn February 8, 1972 (37 FR 2851), on grounds that the applicant had failed to make reports under section 505(j) of the Act (21 U.S.C. 355(j)) and § 130.13 or § 130.35(e) and (f) of the new drug regulations (21 CFR 130.13 and 130.35). In view of that, this product is included in this notice only for the purpose of informing interested persons of the conclusions reached in the Drug Efficacy Study concerning it.

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)) withdrawing approval of pertinent parts of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s) shows that the drugs are not shown to be safe for use under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 F.R. 23185, October 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before October 26, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Food and Drug Administration, Room 6-86, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within the specified time will constitute an election by him not to avail himself of the opportunity for a hearing. No extension of time may be granted.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of pertinent parts of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before October 26, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14 (b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that the drugs are safe for use for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after October 26, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355) and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated September 12, 1973.

A. M. SCHMIDT,
*Commissioner of Food and Drugs.*

### Office of Education

### NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

#### Notice of Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), that the next meeting of the National Advisory Council on Indian Education will be held on October 23-24, 1973, from 9:00 a.m. to 5:00 p.m., at the Northern Hotel, Billings, Montana.

The National Advisory Council on Indian Education is established under section 401 of the Indian Education Act (P.L. 92-318, Title IV). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 318 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering Indian Education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other general laws relating to Indian Education activities and services). The President shall transmit each such report to the Congress together with its comments and recommendations.

The meeting of the Council, under the authority of Section 10(b) of the Federal Advisory Committee Act (P.L. 92-463) and section 552(b) of Title 5 of the United States Code, will be partially closed to the public during the selection of nominees for the position of Deputy Commissioner of Indian Education. The proposed agenda includes:

Executive Director's Report.
Committee Reports.
Selection of nominees for Deputy Commissioner of Indian Education.
Review of Title IV Indian Education.
Indian Education Inter-Change.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th Street, NW., Pennsylvania Bldg., Washington, D.C. 20004).

Signed at Washington, D.C., on September 20, 1973.

DWIGHT A. BILLEDEAUX,
*Executive Director, National Advisory Council on Indian Education.*

[FR Doc.73-20450 Filed 9-25-73;8:45 am]

### NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION (SEARCH COMMITTEE)

#### Notice of Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), that the next meeting of the National Advisory Council on Indian Education (Search Committee) will be held on October 5-6, 1973, from 9:00 a.m. to 5 p.m., at the Wort Hotel, Jackson Hole, Wyoming.

The National Advisory Council on Indian Education is established under section 401 of the Indian Education Act (P.L. 92-318, Title IV). The Council is directed to:

Advise the Commissioner in the preparation of general regulations and with respect to policy matters arising in the administration of this title, including policies and procedures governing the approval of State plans under section 318 and policies to eliminate duplication, and to effectuate the coordination of programs under this title and other programs offering Indian Education activities and services.

The Council shall review the administration and effectiveness of programs under this title, make recommendations with respect thereto, and make annual reports to the President of its findings and recommendations (including recommendations for changes in this title and other Federal laws relating to Indian Education activities and services). The President shall transmit each such report to the Congress together with its comments and recommendations.

The meeting of the Council shall be closed to the public, under the authority of section 10(d) of the Federal Advisory Committee Act (P.L. 92-463) and section 552(b) of Title 5 of the United States Code. The proposed agenda includes:

Viewing new applications for the position of Deputy Commissioner of Indian Education.
Reviewing previous applications for the Deputy Commissioner's position.
Preparing a report for the full Council meeting in Billings, Montana on October 23 and 24. This report will include the recommendation for the nominees for Deputy Commissioner.

Records shall be kept of all Council proceedings (and shall be available for public inspection at the Office of the National Advisory Council on Indian Education located at 425 13th Street, NW., Pennsylvania Bldg., Washington, D.C. 20004).

Signed at Washington, D.C. on September 20, 1973.

DWIGHT A. BILLEDEAUX,
*Executive Director, National Advisory Council on Indian Education.*

### PROJECTS FOR EDUCATIONALLY DEPRIVED CHILDREN

#### Comparability of Services Data; FY 1974 Deadline

Section 141(a)(3)(C) of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 241e(a)(3)(C)), requires that a State educational agency approve a project application only upon its determination that the services the applicant local educational agency is providing in project areas with State and local funds are at least comparable to the services that agency is providing in areas not designated for projects under Title I. Regulations governing such determinations are provided at 45 CFR 116.26 as revised and published in the FEDERAL REGISTER on June 28, 1973.

The data required for such determinations of comparability are set forth in paragraph (b) of § 116.26. The same paragraph also provides that for fiscal year 1974 and succeeding fiscal years the Commissioner of Education will specify the date, not later than November 1, as of which such data must be secured. Accordingly, I hereby designate October 1 as the date for this purpose for fiscal year 1974.

(Catalog of Federal Domestic Assistance Program No. 13.428, Educationally Deprived Children-Local Educational Agencies (Title I, ESEA))

Dated September 21, 1973.

JOHN OTTINA,
*U.S. Commissioner of Education.*

## CIVIL AERONAUTICS BOARD

[Docket No. 23755; Order 73-9-74]

### ALL AIR TRANSPORT INC. ET AL.

#### Order Deferring Action

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 19th day of September, 1973. In the matter of joint application of All Air Transport, Inc. and Air Overseas, et al. for disclaimer of jurisdiction or other relief under section 408 and for approval under section 412 of the Federal Aviation Act of 1958, as amended, pertaining to the formation of a joint-load corporation.

Application has been filed pursuant to section 408 of the Federal Aviation Act of 1958, as amended, (the Act) for approval of the common control by All Air Transport, Inc., and 18 other air freight forwarders [1] of Air Services Corporation (ASCO), which is to be owned by, and operated on behalf of, the several applicants. An agreement has also been filed pursuant to section 412 of the Act, providing for an international joint-load arrangement among the applicants, with ASCO as the principal vehicle for coordinating and carrying out such operations.

In general terms, ASCO would do the following: (a) act as a clearing house for information regarding traffic available for joint loading, (b) establish joint loads on the basis of such information and designate an individual forwarder to act as master loader for each joint load,[2] (c) prepare documentation and receive, route[3] and expedite delivery of freight to appropriate terminals for joint loading, (d) pay the direct air carrier (as agent for the master loader), (e) bill each participant for his share of the shipment cost,[4] and (f) establish an escrow fund or bonding arrangement to assure payment by members. To carry out these functions, ASCO would maintain such staff and facilities as might be necessary.[5]

Each applicant will contribute $1,000 to the initial capital of ASCO, and will receive one share of the corporation's stock, entitling it to one vote at shareholders' meetings and to one representative on ASCO's Board of Directors. Three-quarters of the total membership shall constitute a quorum to transact business, and a three-quarters vote of those present shall be required to carry a resolution. Membership shall be open to all air freight forwarders willing to abide by the rules of the corporation. To withdraw, a member need only notify ASCO and the Board in writing, whereupon it will receive its initial capital contribution plus or minus any profits, losses or amounts due for services provided.

In addition to the initial capital contribution, members agree to a "special assessment" which will be utilized from time to time to provide necessary capital on the basis of the prior quarter's par-

[1] Other air forwarders are Air Overseas Corporation; Associated Air Freight, Inc.; Air-Sea Forwarders, Inc.; Bruce Duncan Co., Inc., d/b/a Bruce Duncan Cargo; Berklay Air Services Corp. (Bernard Klainberg d/b/a); Cal-Air Forwarders, Inc.; Globe Shipping Co., Inc.; Hemisphere Air Freight, Inc.; Hensel, Bruckmann & Lorbacher, Inc.; Imperial Air Freight Service, Inc.; Karr, Ellis & Co., Inc.; Mark IV Air Freight, Inc.; H. G. Ollendorff, Inc.; Panalpina Airfreight, Inc., d/b/a Panalpina Airfreight System; Randy International Ltd.; WITS, Inc., d/b/a WITS Air Cargo Service; Petry & Co.'s Foreign Express; and Intra-Mar Shipping Corporation.

[2] The participating forwarder contributing the greatest weight to the joint load on any given consolidation will be usually designated as the master loader; however, every participant shall be designated master loader over a period of every six months approximately in the same ratio as the volume of weight tendered by it bears to the total over the same period.

[3] Upon notification of each routing selection, the master loader may approve the routing chosen by ASCO or itself select another routing. Where there will be no substantial delay in the movement of freight and the services are otherwise equal, U.S.-flag carriers will be preferred.

[4] The charges shall contain (1) a flat charge per shipment covering and reasonably related to the cost of handling, and (2) a remaining charge based on the weight and or cube of traffic tendered by each. Failure to pay amounts billed within the time specified above shall be grounds for expulsion as a party to this agreement.

[5] Applicants anticipate a staff of probably three people including a working manager and at least one secretary. Space rented would include a small office equipped with typewriters, phones, paper, and bookkeeping supplies.

V 38 I 186 SEP 26 73 XUM

ticipation of each member.[6] Also, ASCO may establish a bonding procedure or escrow fund to insure the payment by members for services obtained through ASCO.

Although it is initially anticipated that operations will be restricted to the conduct of joint-load shipments of international air freight, the application requests that ASCO not be precluded from domestic joint-load activities or chartering of aircraft should the circumstances warrant.

No requests for a hearing have been received.

ASCO will act solely as agent for its member/participants in conducting operations exclusively related to the transportation of air freight. We therefore conclude that it is a person engaged in a phase of aeronautics within the meaning of section 408 of the Act,[7] and that its acquisition and control by several air freight forwarders requires prior Board approval pursuant to section 408(a)(6). Based upon our understanding that ASCO will act in no capacity other than as agent for member/participant air freight forwarders, and that membership is open to all air freight forwarders who wish to participate,[8] we tentatively find that the parties to the agreement should be relieved from section 408 of the Act, pursuant to section 101(3) thereof, and that the agreement should be approved pursuant to section 412 of the Act.

Turning first to the concept itself, the common ownership of ASCO by the air freight fowarders served is in many respects similar to the arrangement approved in Order E–1086, All American Aviation, Inc., et al., December 31, 1947; Air Cargo, Inc., Agreement, Petitions, 9 CAB 468 (1948), wherein various direct air carriers utilized a commonly owned corporation (Air Cargo, Inc.) in the performance of certain ground terminal operations in connection with air transportation of air cargo.[9] However, Air Cargo, Inc. provides services incidental to the direct carriage of freight by air, whereas the instant arrangement would provide services of far greater consequence relative to the class of air carriers it serves. Our proposed authorization of this arrangement is based on the belief that it should enable smaller forwarders to better compete with the larger ones and that ASCO's services, properly operated, would serve, at least partially, to meet a growing demand by air freight forwarders for a more economical means of procuring direct air transportation.

Our authorization of this proposal should have no detrimental impact on direct air carriers or on the shipping public.[10] More efficient consolidation of freight should simply increase the benefits now available to applicants and other participating forwarders through joint-load agreements less efficiently operated. Savings achieved through aggregated purchase potential are largely those gained through the preloading of smaller freight shipments into more easily handleable containers. Furthermore, more efficient joint-load operations, and the resultant cost reductions, should enable pass reduced shipping costs on to customers.

Although we believe the basic proposal embodied in ASCO, properly limited, would be consistent with the public interest, ASCO's basic operational structure appears to require some refinement. Specifically, we question the arrangements for the transfer of stock, the repurchase of stock from retiring members, the raising of funds by special assessment, the distribution of dividends, and the establishment of an escrow fund or bonding procedure. In the absence of a further showing of justification for these provisions, the Board considers that the public interest would require the revisions indicated below.

ASCO's proposed By-Laws provide for the distribution of dividends based on the number of shares outstanding. Irrespective of whether such dividends will actually be declared, it is apparent that any distribution of excess profits on a pro rata basis (each member will hold only one share, regardless of the extent of his participation in the joint load activities of ASCO) will provide a member a return on his investment through[11] an ownership interest in the activities of other forwarders, rather than on individual participation. This is particularly so in light of the "special assessment" method of capital contribution. We believe the disbursement of cash dividends disproportionate to participation is undesirable, and we intend to so condition our final action herein. Applicants should address an alternative method of dividend distribution in their response to this order.

Looking to the prohibition expressed in the joint-load agreement to the effect that a member/participant may hold no more than one share of ASCO's capital stock, we note as a preliminary matter that this prohibition is not reflected in ASCO's By-Laws. This provision is fundamental to equitable participation and influence of individual forwarders, and both the By-Laws and the Articles of Incorporation should specifically provide for this limitation. Specific treatment will be so required as a requisite to final action.

Of somewhat greater concern is the provision in the By-Laws allowing for a transfer of stock from a member/participant to another air freight forwarder.[12] The redemption value of each share of stock is contingent upon the good standing of the particular holder,[13] and therefore may under certain circumstances have no worth and possess no participation rights. We do not believe individual members should be able to negotiate the sale or transfer of shares which may have no practical value. Eliminating transfer rights of members should prevent abuses and confusion. The sale or redemption of shares by ASCO itself should adequately serve members' needs, as well as serving Board supervision of the "open-access" aspect of the ASCO arrangement.

Before final action is taken herein, we will expect applicants to submit a clarification of certain questions raised with respect to the "special assessment" to be used to supplement the paid-in capital as may be necessary from time to time. This "special assessment," based on the proportionate share of traffic jointly loaded by each member during the preceding quarter, may be invoked to cover the costs of rebuying the shares of retiring members, or to cover deficit operational costs during a particular period. However, it presents potential for inequitable financial participation by individual members, based on a floating membership, and raises a question as to whether the initial members will be inclined to require a new member to share in the initial start-up costs raised through "special assessment" contributions by the original members. If so, the manner in which they attempt to prorate those initial costs may indirectly affect the ability or incentive of other air freight forwarders to join ASCO. If subsequent members are not required to share in initial start-up costs raised through "special assessment," still other questions are presented. Is there any limit to the nature of items for which "special assessment" can be invoked? In this connection, is it intended that any monies raised through special assessment have no limit as to amount which may in toto be assessed other than as may be determined by a three-quarters vote of those present at a meeting of the Board of Directors? Applicants should resolve these questions in their responses hereto.

A reserve of original paid-in capital, to be supplemented if necessary by invocation of the special assessment, is to be maintained to buy out those forwarders who wish to terminate their participation in the arrangement. The "either/or" designation of source of funds, the obvious need in any corporation for initial start-up capital, plus the somewhat precarious merits of the special assessment, as discussed above, appear to require a more definitive plan for the establishment and maintenance of this fund. This appears necessary for the protection of individual member/participants as well as for the viable operational ability of ASCO. Applicants should address this problem in their response.

Furthermore, the need for a bonding procedure or escrow fund is not clear in light of the stated intention of the applicants to use a portion of the initial capital contribution of each member as security against nonpayment. Applicants have stated that ASCO will normally receive monies due individual members on collect shipments, and that such monies can be used as a credit against obligations due ASCO. Thus, while the establishment of a bonding procedure or escrow arrangement is not in itself objectionable, applicants should clarify the purposes and interrelations of the various capital projects.[14]

A different question is posed with respect to the officers of ASCO who need not be officers or directors of a member/participant. To allow the Board to properly monitor ASCO's activities, its officers will be required to file reports conforming to the substantive requirements and filing dates as are otherwise set forth in Part 245 A of the Board's regulations (14 CFR 245 A) and to delineate additionally any relationships between persons so reporting and any carrier not otherwise specifically within the scope of the Regulation.

As the use of ASCO will shift a certain degree of managerial decision-making away from each member/participant, we will also require that ASCO keep such records and documents as are required to be kept by individual air freight forwarders pursuant to Subpart B of Part 249 of the Board's Regulations. These records must be opened to Board inspection upon request.

It is also recognized that the addition of new members to ASCO will create new control relationships which have not been specifically set forth herein. However, the nature of the proposal is similar to that involved in the Air Cargo case, wherein we concluded that since the participating group of carriers is well defined, no new or significant issues are raised by the addition of new participants. Therefore, the action contemplated herein will permit greater or fewer participants, subject to a provision that additions to ASCO's membership shall be reported to the Board within 10 days after admittance.

Based on the foregoing and subject to the receipt of comments, as provided for below, we have tentatively concluded that Agreement CAB 22661 is not adverse to the public interest or in violation of the Act and should therefore be approved under section 412 of the Act. We have further concluded tentatively that it is in the public interest to exempt the applicants' control of ASCO from section 408(a)(6) of the Act pursuant to section 101(3) thereof.[15] As indicated above, we contemplate that any final approval herein will be subject to at least the following conditions:

1. Jurisdiction in this proceeding shall be generally retained for the purposes of reexamining the relationships herein involved and for imposing such further terms and conditions as from time to time may be in the public interest;

2. ASCO shall file, pursuant to the provisions of section 412, all agreements between itself and any air carrier, foreign air carrier, or other carrier;

3. ASCO shall file with the Board in Docket 23755, upon commencement of operations, a description of the physical facilities utilized, and shall not without prior Board approval expand the scope or nature of services provided to encompass procurement and utilization of separate dock facilities, provision of pick-up and delivery services, establishment of branch offices, domestic joint load operations, chartering of aircraft, warehousing operations, investment activities or other expansions of services beyond those initially approved herein;

4. Officers of ASCO shall file reports conforming to the substantive requirements and filing dates as are otherwise set forth in Subpart A of Part 245 of the Board's Economic regulations, (14 CFR 245 A), and setting forth additionally any positions or stock interests held in any "carrier";

5. ASCO shall keep such records and documents as are required to be kept by air freight forwarders pursuant to Subpart B of Part 249 of the Board's regulations (14 CFR 249 B);

6. The Board shall at all times have access to all lands, buildings, and equipment of ASCO and to all accounts, records, and memoranda, including all documents, papers, and correspondence, now or hereafter existing, and kept or required to be kept by subparagraph (5) above;

7. ASCO shall report to the Board the names of new members within 10 days of acceptance; additionally, ASCO shall file with the Board, contemporaneously with the reports to be submitted pursuant to condition 9, infra, a report describing the refusal, termination, or suspension of membership with respect to any air freight forwarder, setting forth additionally any justification for such action;

8. ASCO's membership shall be open to the participation of all U.S. air freight forwarders, as a matter of right; and

9. ASCO shall submit, within 45 days after the end of each second and fourth calendar quarter of each year, a report in the form set forth in the appendix to this order[16] describing, by point of origin, (1) the number of joint-load consolidations achieved, (2) the number of times each member served as master loader, and (3) the number of shipments and the total tonnage of shipments contributed by each member/participant over the preceding half-year.

*Accordingly, it is ordered,* That:

1. Action on Agreement CAB 22661 be and it hereby is deferred; provided that the air carrier-parties and other interested persons are hereby afforded a period of 30 days from the date of service of this order within which to file the statements indicated above and other comments on the actions contemplated herein;[17] and

2. A copy of this order be furnished upon All Air Transport, Inc., all persons listed in footnote 1, supra, and the Attorney General of the United States.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[Docket No. 25252]

## TEXAS INTERNATIONAL AIRLINES, INC.

### Postponement of Prehearing Conference

In the matter of application for deletion of Lufkin, Tex.

The applicant, Texas International Airlines, Inc., by letter dated Septem-

[6] The parties agree to advance on an equal basis for the first quarter, subject to an apportionment of actual expenses based on actual tonnages joint loaded, such amounts as may be necessary to cover all necessary expenses of ASCO.

After the first quarter, such advances as may be necessary shall be made on the basis of the parties' proportionate share of traffic joint loaded in the preceding quarter, subject to the apportionment of actual expenses as in the first quarter.

[7] See International Relationships, Patterson, et al., 3 CAB 711 (1942).

[8] To this end, exemption will be conditioned upon a requirement that ASCO file a report detailing the circumstances attending the refusal to admit into membership any air freight forwarder.

[9] In our reconsideration order we noted that cooperative efforts of air carriers to reduce cargo handling costs were to be encouraged, but only in a manner consistent with anti-trust principles. In the latter respect, the Board imposed a specific condition that all certificated carriers be authorized to participate, i.e., all members of the same class of carrier.

[10] Flying Tiger Line Inc., has submitted a letter indicating concern over the possible scope of ASCO's services, particularly relating to the chartering of aircraft. However, our proposed authorization would require prior Board approval of any expanded activities by ASCO, including the chartering of aircraft, and the issue need not be considered at this time.

[11] Article V, section 3 of the proposed By-Laws provides, in part, "Upon surrender to the corporation or the transfer agent of the corporation of a certificate for shares duly endorsed or accompanied by proper evidence of succession, assignment or authority to transfer, it shall be the duty of the corporation to issue a new certificate to the person entitled thereto, and to cancel the old certificate * * *."

[12] Failure by a participant member to pay his obligations within one week would result in its immediate suspension from participation in ASCO's activities, the immediate offsetting of its capital investment on the books of the corporation to that extent and, if the capital account is not sufficient to cover the amount, the immediate expulsion of such member from the corporation.

[12] Our final action will be conditioned to require proper inclusion in ASCO's Articles of Incorporation and By-Laws of a provision restricting the scope of permissible operational and investment activities to those "performed solely on behalf of, and as agent for, its member/participants." Also, we will require prior Board approval of any expansion of activity, including domestic joint loading and chartering of aircraft. Furthermore, because we view ASCO's activities as essentially reflecting joint activity among the several air freight forwarder owners, we find that ASCO is an air carrier for purposes of section 412, and we will require that any agreements between ASCO and any air carrier, foreign air carrier, or other carriers be filed in this docket pursuant to the provisions of section 412.

[14] Upon exemption of the control of ASCO by the several air freight forwarders, any interlocking relationships arising by virtue of the representation of such forwarders on the Board of Directors of ASCO would fall within the exemption from section 409 of the Act afforded by § 287.2 of the Board's regulations.

[15] Filed as part of the original document.

[16] Comments so filed shall conform to the requirements of the Board's Rules of Practice (14 CFR 302).

V 38 I 186 SEP 26 73 XUM

ber 19, 1973, has requested that the prehearing conference scheduled for September 26, 1973, be postponed indefinitely. It reported that the postponement was required to enable the carrier to conduct a six-month service experiment in a further effort by the carrier to test Lufkin's ability to generate sufficient traffic to justify the continuation of service. The proposed experiment is to commence after the opening of the new airport at Dallas, Texas, and the transfer of the applicant's service at that point from Love Field to the new facility.

The applicant reports that its request is supported by the Lufkin parties. BOR advised by telephone that it has no objections.

Notice is hereby given that the conference in the above-entitled proceeding set for September 26, 1973, is postponed indefinitely to permit the test of the service proposed and the evaluation thereof by the parties.

Dated at Washington, D.C., September 20, 1973.

## CIVIL SERVICE COMMISSION

### FEDERAL PREVAILING RATE ADVISORY COMMITTEE

#### Notice of Meetings

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, October 4, 1973.
Thursday, October 18, 1973.
Thursday, October 25, 1973.

The meetings will convene at 10:00 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Public Law 92-392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public under a determination to do so, made under the provision of section 10(d) of Public Law 92-463.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street NW., Washington, D.C.

DAVID T. ROADLEY,
*Chairman, Federal Prevailing Rate Advisory Committee.*

SEPTEMBER 21, 1973.

## COMMISSION ON CIVIL RIGHTS

### FLORIDA STATE ADVISORY COMMITTEE

#### Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting of the Florida State Advisory Committee will convene at 7:30 p.m. on September 28, 1973, at the Jacksonville Hilton Hotel, 565 South Main Street, Jacksonville, Florida 32207.

Persons wishing to attend this meeting should contact the Committee Chairman, or the South..rn Regional Office of the Commission, Room 362, Citizens Trust Bank Building, 75 Piedmont Avenue, North East, Atlanta, Georgia 30303.

The purpose of this meeting shall be to discuss and develop plans for a open meeting on Minority Police Community Relations in Jacksonville, Florida.

This meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, D.C., September 20, 1973.

ISAIAH T. CRESWELL, Jr.,
*Advisory Committee Management Officer.*

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### CERTAIN COTTON, WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF KOREA

#### Entry or Withdrawal From Warehouse for Consumption

SEPTEMBER 24, 1973.

On May 25, 1972, there was published in the FEDERAL REGISTER (37 FR 10605) a letter of May 19, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, prohibiting entry into the United States for consumption and withdrawal from warehouse for consumption of cotton, wool and man-made fiber textile products produced or manufactured in the Republic of Korea and exported from the Republic of Korea thirty (30) days following publication for which the Republic of Korea had not issued a visa. One of the requirements of the administrative mechanism specifies that the category classification of the goods must appear on the visa.

The purpose of this notice is to announce that, effective as soon as possible and until further notice, this requirement will be waived for Judo and/or Karate suits of cotton, wool and man-made fiber textiles produced or manufactured in the Republic of Korea.

Accordingly, there is published below a letter of September 24, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs further amending the administrative mechanism.

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

COMMISSIONER OF CUSTOMS,
*Department of the Treasury, Washington, D.C. 20229.*

SEPTEMBER 24, 1973.

DEAR MR. COMMISSIONER: This letter further amends, but does not cancel, the directive of May 19, 1972 from the Chairman, Committee for the Implementation of Textile Agreements, that directed you to prohibit, effective 30 days after publication of notice in the FEDERAL REGISTER, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1-64; wool textile products in Categories 101-126, 128, and 131-132; and man-made fiber textile products in Categories 200-243, produced or manufactured in the Republic of Korea for which the Republic of Korea had not issued a visa. The directive of May 19, 1972, was previously amended on December 21, 1972; July 17, 1973; July 18, 1973; and August 8, 1973.

Under the provisions of the Bilateral Cotton Textile Agreement of December 30, 1971 and the Bilateral Wool and Man-Made Fiber Textile Agreement of January 4, 1972, between the Governments of the United States and the Republic of Korea, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, the directive of May 19, 1972 is further amended, effective as soon as possible and until further notice, to waive the requirement that a category classification be shown on visas accompanying shipments of Judo and/or Karate suits of cotton, wool and man-made fiber textiles from the Republic of Korea.

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textiles from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553.

This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements and Deputy Assistant Secretary for Resources and Trade Assistance.*

## FEDERAL MARITIME COMMISSION

### FARRELL LINES INC., AND BARBER LINES A.S.

#### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 16, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Hans Unterwiener, Manager, Freight Documentation and Inward Freight, Farrell Lines Incorporated, One Whitehall Street, New York, New York 10004.

Agreement No. 10088, between Farrell Lines Incorporated and Barber Lines A.S., establishes a through billing arrangement for the transportation of all cargo moving in the trade between the Liberian ports of Buchanan, Sinoe and Lofa River and United States Atlantic ports with transshipment at Monrovia, Liberia, under terms and conditions set forth in the agreement. Agreement No. 10088 will, upon approval, cancel and supersede Agreement No. 9530, as amended.

By order of the Federal Maritime Commission.

Dated September 21, 1973.

FRANCIS C. HURNEY,
*Secretary.*

### LAVINO SHIPPING CO. ET AL.

#### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before October 9, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## MATSON NAVIGATION CO. ET AL.

### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif.

By order served April 20, 1973, in Docket No. 73-21 the Commission instituted an investigation to determine whether Agreement No. DC-57, an agreement among Matson Navigation Company, Seatrain Lines, California, and United States Lines, Inc., authorizing the signatories to confer with one another with respect to any and all matters contained in the individual FMC tariffs of the parties in the Hawaii trade, should be approved, disapproved, or modified pursuant to section 15 of the Shipping Act, 1916. Agreement No. DC-57-1, the subject agreement, will also be included in Docket No. 73-21. Persons who desire to become parties to this proceeding and to participate herein, shall promptly file a petition to intervene with the Secretary, Federal Maritime Commission, Washington, D.C. 20573.

Matson Navigation Company
Seatrain Lines, California
and
United States Lines, Inc.

Notice of agreement filed by:

David F. Anderson, Esq., General Counsel, Matson Navigation Company, 100 Mission Street, San Francisco, California 94105.

Agreement No. DC-57-1 amends the basic agreement among the parties by adding language providing that the parties are not authorized under the agreement to either agree upon rates, charges, classifications, rules, practices, or other tariff matters with respect to cargo moving under contracts with Military Sealift Command or exchange any cost data or other information concerning the carriage of cargo under such Military Sealift Command contracts.

By order of the Federal Maritime Commission.

Dated September 21, 1973.

## UNITED STATES ATLANTIC COAST/BRAZIL SOUTHBOUND POOLING AGREEMENT

### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before October 16, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

J. D. Straton, Manager
Rates and Conferences
Moore-McCormack Lines, Incorporated
2 Broadway
New York, New York 10004

Agreement No. 9847-2, among Moore-McCormack Lines, Incorporated; Companhia de Navegacao Lloyd Brasileiro; and Companhia de Navegacao Maritima Netumar S/A, modifies the approved basic pooling and sailing agreement covering southbound cargo from the United States Atlantic Coast ports to ports in Brazil within the Fortaleza/Porto Alegre range, both inclusive, by amending: (1) Article 1 to provide that Companhia de Navegacao Lloyd Brasileiro and Companhia de Navegacao Maritima Netumar S/A will participate and operate as individual carriers thereunder, rather than as a single party as at present; (2) Article 5 to increase the minimum number of sailings of Moore-McCormack Lines, Incorporated from sixteen to eighteen per pool period of six months, and to increase the minimum number of sailings of Companhia de Navegacao Lloyd Brasileiro and Companhia de Navegacao Maritima Netumar S/A from sixteen jointly to nine each per pool period of six months; (3) Article 7 to set the "Carrying rate" at fifty percent, rather than sixty percent; and (4) Article 17 to extend the term of the agreement for four years from January 1, 1974.

In addition thereto, certain other articles are being amended to conform to the foregoing amendments, and to amend, for example, such other articles as those pertaining to sailing deficiencies (Article 6); calculation of revenues from pooled cargo (Article 7); and pool accounting and settlement (Article 9).

By order of the Federal Maritime Commission.

Dated September 21, 1973.

FRANCIS C. HURNEY,
*Secretary.*

# FEDERAL RESERVE SYSTEM

## CHASE MANHATTAN CORP.

### Proposed Acquisition of Dial Financial Corp.

The Chase Manhattan Corporation, New York, New York, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Dial Financial Corporation, ("DFC"), Des Moines, Iowa. Notice of the application was published on various dates in newspapers circulated in the communities in which the approximately 436 offices of subsidiaries of DFC are located. Those offices are located in every State other than Alaska, Arkansas, Delaware, Georgia, Illinois, Maryland, Michigan, Montana, New Jersey, New York, North Dakota, South Dakota, Vermont, Virginia, West Virginia, and Wyoming.

Applicant states that the proposed subsidiary would engage through its subsidiaries in the activities of making direct consumer installment loans, secured and unsecured, to individuals in most instances, by direct customer contact, in some instances, by mail; selling credit life, and credit health and accident insurance policies to those individuals; underwriting (in Missouri only) or reinsurance of such insurance to those individuals on items (other than automobiles) in which a subsidiary of DFC has a security interest; purchasing installment sales finance contracts from retailers; providing data processing services, including computerized general accounting services, computerized billing services, and computerized deliquent list preparation, and the use of computer time, to its subsidiaries and other consumer credit companies. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b). Consumer loan, insurance sales, and sales finance operations are conducted by DFC subsidiaries operating under the names, Dial Finance Company, Dial Financial Corporation, Inc., Dial Loan and Investment Company, Dial Industrial Finance Company, Dial Credit Company, Dial Consumer Discount Company, Dial Finance Acceptance Company, Dial Industrial Loan Company, and variations thereof. The insurance underwriting and reinsurance activities of DFC are conducted by its wholly owned subsidiary Consumers Life Insurance Company from DFC's home office in Des Moines, Iowa. The data processing service operations are conducted by DFC from its home office in Des Moines, Iowa.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 14, 1973.

Board of Governors of the Federal Reserve System, September 18, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20458 Filed 9-25-73;8:45 am]

## FIRST INTERNATIONAL BANCSHARES, INC.

### Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent (less directors' qualifying shares) of the voting shares of the successor by merger to Citizens National Bank in Abilene, Abilene, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Texas, presently controls 12 banks[1] with aggregate deposits approximating $2.6 billion,[2] representing 7.4 per cent of the total commercial bank deposits in the State. Acquisition of Bank would increase Applicant's share of State deposits by 0.25 per cent and would not result in a significant increase in the concentration of banking resources in the State.

Bank (approximately $87 million in deposits) is the second largest of 15 banks in the Abilene banking market (approximated by the Abilene SMSA) and controls 26.4 per cent of the deposits in commercial banks in the market. Applicant's subsidiary closest to Bank is located in Dallas, 178 miles away, and no meaningful present competition exists between any of Applicant's subsidiary banks and Bank. Moreover, there appears to be little likelihood for the development of any significant amount of future competition between these institutions in view of the distances involved and Texas' restrictive branching law. The market appears relatively unattractive for de novo entry due to the recent decline in the population of the Abilene SMSA and the market's below-average population to banking offices ratio. Thus, the proposed acquisition would not appear to have a significant adverse effect on potential competition. The Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Bank, and of Applicant and its present subsidiary banks, are regarded as satisfactory. Considerations relating to the banking factors are consistent with approval of the application. Although there is no evidence in the record to indicate that the banking needs of the residents of the Abilene banking market are not currently being met, the proposed affiliation is likely to result in expansion of the range of services presently offered by Bank. In addition, affiliation with Applicant would give Bank access to considerable financial resources which will enable it to provide an increased lending capacity. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

[1] In addition to its 12 subsidiary banks, Applicant indirectly controls interests of less than 25 per cent in five banks, with aggregate deposits of $67.2 million (as of December 31, 1972).

[2] All banking data are as of December 31, 1972, and reflect holding company formations and acquisitions approved through August 31, 1973.

subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b). Consumer loan, insurance sales, and sales finance operations are conducted by DFC subsidiaries operating under the names, Dial Finance Company, Dial Financial Corporation, Inc., Dial Loan and Investment Company, Dial Industrial Finance Company, Dial Credit Company, Dial Consumer Discount Company, Dial Finance Acceptance Company, Dial Industrial Loan Company, and variations thereof. The insurance underwriting and reinsurance activities of DFC are conducted by its wholly owned subsidiary Consumers Life Insurance Company from DFC's home office in Des Moines, Iowa. The data processing service operations are conducted by DFC from its home office in Des Moines, Iowa.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 14, 1973.

Board of Governors of the Federal Reserve System, September 18, 1973.

## LANDMARK BANKING CORP. OF FLORIDA

### Order Approving Acquisition of Banks and Acquisition of Mortgage Banking Business

Landmark Banking Corporation of Florida, Fort Lauderdale, Florida (formerly Consolidated Bankshares of Florida, Inc.), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under sections 3(a)(3) and 4(c)(8) of the Act (12 U.S.C. 1842 (a)(3) and 1843(c)(8)) to acquire 80 per cent or more of the voting shares of North American Mortgage Corporation, St. Petersburg, Florida ("North American"), a registered bank holding company, and to acquire as an incident thereto 98 per cent of the voting shares of The American Bank, St. Petersburg, Florida, and 87 per cent of the voting shares of American National Bank of Clearwater, Clearwater, Florida. Applicant would also acquire the mortgage banking business of North American, an activity that has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1)).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with sections 3 and 4 of the Act (38 FR 10675 and 23437). The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842 (c)), and the considerations specified in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, the eighth largest multi-bank organization in Florida, controls nine banks with aggregate deposits of $534 million, representing approximately 2.7 per cent of the total commercial bank deposits in Florida. (All banking data are as of December 31, 1972, unless otherwise indicated, and reflect holding company acquisitions approved through August 15, 1973.) North American, the 31st largest multi-bank organization in the State, controls two banks with deposits of $18.7 million, representing 0.1 per cent of the commercial bank deposits in Florida. Consummation of the proposed acquisition would increase Applicant's control of Statewide deposits to approximately 2.8 per cent, which is regarded as no significant increase in the concentration of banking resources in Florida, and would not change Applicant's ranking among Florida multi-bank organizations.

In addition to controlling a banking subsidiary in St. Petersburg and one in Clearwater, North American (total assets of $3.8 million) engages primarily in mortgage banking activities. Through offices located in Pinellas, Sarasota, and Orange Counties, North American originated $10 million in residential mortgage loans in 1972 and at the end of December, 1972, was servicing a mortgage loan portfolio of $120 million.

Applicant's only subsidiary bank in the South Pinellas County banking market is located in St. Petersburg and is the second largest of the 28 banks (18 banking organizations) there, controlling (as of June 30, 1972) 16 per cent of the market deposits. North American's St. Petersburg banking subsidiary (deposits of $3 million) is one of five new banks which opened in the South Pinellas market since June 1972, and is located in a suburban area somewhat removed from the downtown location of Applicant's subsidiary. The South Pinellas market is not highly concentrated with the five largest organizations controlling only 65 per cent of the total market deposits. There has been considerable new entry into the market recently, and several de novo applications have been filed. In light of these factors, the elimination of the slight degree of competition that exists between Applicant's and North American's banking subsidiaries would cause no significant adverse effects.

Applicant's St. Petersburg bank is also a minor competitor of North American for mortgages on one-to-four-unit residences in Pinellas County. In 1972 Applicant originated 0.3 per cent of such loans in that market while North American (through offices in Clearwater and St. Petersburg) originated 3.5 per cent. Since there are at least 23 mortgage companies and 10 savings and loan associations in addition to 25 banking organizations in Pinellas County and since Applicant and North American have such a small combined share of the residential mortgage loan market, removal of competition between the two will not be significant. Likewise, although Applicant possesses the resources to enter the mortgage banking business in Pinellas County by establishing a mortgage banking company or to expand the mortgage lending activities of its St. Petersburg subsidiary bank, foreclosure of Applicant as a de novo entrant is unlikely to have significant adverse competitive effects in this attractive, competitive market which has been marked by rapid growth and ease of entry.

The likelihood of North American's expansion of its mortgage banking operations into markets served by Applicant's banking subsidiaries is small. Although these markets are attractive, North American's resources do not appear to be sufficient for extensive geographic expansion.

There are no other markets in which Applicant's subsidiary banks presently compete with any office of North American or any of North American's banking subsidiaries. Since Applicant's nearest subsidiary bank is 26 miles away, there is no competition between any of Applicant's subsidiary banks and North American's Clearwater bank. Nor does Applicant have a subsidiary located in the Sarasota market where North American has a branch office engaging in mortgage banking. Although Applicant has recently received approval to acquire a subsidiary bank in Orange County (Orlando), this new subsidiary does not compete with North American's mortgage banking office in Orange County because the latter's office is a collection office only and does not originate loans. The Board concludes that the acquisition would have no significant adverse effects on the competitive situation or the concentration of banking resources in any relevant area.

The financial and managerial aspects and future prospects of Applicant and its subsidiary banks and North American and its subsidiary banks are generally satisfactory and consistent with approval of the application. Applicant has recently provided additional capital for several of its subsidiary banks and has made a commitment of a capital injection into its only banking subsidiary where the equity capital base is somewhat low.

There is no evidence in the record that the primary banking needs of the markets in which North American banking subsidiaries operate are not being adequately served by existing banks, but North American's banking subsidiaries will have access to larger lending limits and expertise in several banking fields through affiliation with Applicant. Moreover, North American's mortgage banking business will have better access to capital which will permit it to expand and to compete more effectively. This increased capability is a positive factor in terms of public needs and convenience. Considerations relating to the convenience and needs of the communities involved lend some weight for approval of the applications. There is no evidence in the record indicating that consummation of the proposed acquisitions would result in undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects.

Applicant has indicated that it does not seek to acquire North American's insurance business, North American Insurance Agency, Inc., which engages in the sale of casualty, fire, life, health and accident insurance policies. This business will remain in the hands of North American's present stockholders. This spin-off or separation of the insurance agency from the parent North American Mortgage Corporation will occur prior to consummation of the acquisition. It is the Board's judgment that the balance of public interest factors the Board is required to consider under section 4(c)(8) is favorable and the proposed acquisition (not including insurance activities) should be approved.

[1] Voting for this action: Vice Chairman Mitchell and Governors Daane, Bucher, and Holland. Absent and not voting: Chairman Burns and Governors Brimmer and Sheehan.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to authority delegated herewith.

This determination is additionally subject to the conditions set forth in § 225.4 (c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective September 18, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-20455 Filed 9-25-73;8:45 am]

## NORTRUST CORP.

### Proposed Acquisition of Nortrust Datacorp, Inc.

Nortrust Corporation, Chicago, Illinois, has applied, pursuant to section 4 (c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4 (b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Nortrust Datacorp, Inc., Chicago, Illinois. Notice of the application was published on July 21, 1973 in Chicago Tribune a newspaper circulated in Chicago, Illinois.

Applicant states that the proposed subsidiary would engage in the activities of providing bookkeeping and data processing services for the internal operations of Nortrust Corporation and its subsidiaries, and storing and processing other banking, financial, or related economic data, such as performing payroll, accounts receivable or payable, or billing services for customers, and particularly the providing of computer output microfilm services. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 1, 1973.

Board of Governors of the Federal Reserve System, September 17, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

## U.S. BANCORP

### Proposed Acquisition of Nortrust Datacorp, Inc.

U.S. Bancorp, Portland, Oregon, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire nonvoting shares of Nortrust Datacorp, Inc., Chicago, Illinois. The acquisition of voting shares of Nortrust Datacorp, Inc., are the subject of the 4(c)(8) application of Nortrust Corporation, Chicago, Illinois, a separate application. Notice of the application was published on July 21, 1973 in The Chicago Tribune, a newspaper circulated in Chicago, Illinois.

Applicant states that the proposed subsidiary would engage in the activities of providing bookkeeping and data processing services for the internal operations of Nortrust Corporation, Chicago, Illinois (and its subsidiaries) and storing and processing other banking, financial or related economic data. Applicant alleges that all proposed activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 14, 1973.

Board of Governors of the Federal Reserve System, September 18, 1973.

## INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

### CONSOLIDATION COAL CO.

#### Application for Renewal Permit; Opportunity for Hearing

Application for Renewal Permit for Noncompliance with the Interim Mandatory Dust Standard (2.0 mg/m³) has been received as follows:

ICP Docket No. 20051, CONSOLIDATION COAL COMPANY, Hillsboro Mine, MINE ID NO. 1100605 0, COFFEEN, ILLINOIS 62017.
- Section ID No. 003 (2nd N.E. off Main East),
- Section ID No. 006 (1st S.E. off Main East),
- Section ID No. 015 (3rd R.T. off 1st North East),
- Section ID No. 016 (9th L.T. off 2nd North East),
- Section ID No. 017 (9th L.T. off 2nd North East),
- Section ID No. 018 (1st R.T. off 1st South),
- Section ID No. 019 (2nd R.T. off 1st South).

In accordance with the provisions of section 202(b)(4) (30 U.S.C. 842(b)(4)) of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742, et seq., Public Law 91-173), notice is hereby given that requests for public hearing as to an application for renewal may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 Fed. Reg. 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel on request.

A copy of the application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street, N.W., Washington, D.C. 20006.

GEORGE A. HORNBECK,
*Chairman,*
*Interim Compliance Panel.*

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 73-74]

### NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON RESEARCH

#### Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Research will meet on October 31 and Novem-

[1] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Sheehan, Bucher, and Holland. Absent and not voting: Governor Brimmer.

V 38 I 186 SEP 26 73 XUM

ber 1, 1973, at the Headquarters of the National Aeronautics and Space Administration, Washington, D.C. 20546. The meeting will be held in Room 625, in Federal Office Building 10B, 600 Independence Avenue SW., Washington, D.C. 20546. Members of the public will be admitted to the meeting beginning at 8:30 a.m. on both days and on a first-come first-served basis up to the seating capacity of the room, which is about 40 persons.

The NASA Research and Technology Advisory Council, Committee on Research serves in an advisory capacity only. In this capacity, the Committee is concerned with program goals, trends, content, scope and technical balance for OAST basic research in the physical, mathematical and life sciences as related to OAST aeronautics, space and nuclear missions. The current Chairman is Professor Abraham Hertzberg. There are 12 members. The following sets forth the approved agenda and schedule for the October 31 and November 1, 1973, meeting of the Research Committee. For further information, please contact Dr. H. H. Kurzweg: Area code 202, 755-2306.

OCTOBER 31, 1973

| Time | Topic |
|---|---|
| 8:30 a.m.–5:00 p.m. | Technical Presentation and Discussion "Review of NASA Basic Research in Energetics and Lasers"<br>(Purpose: To assess the quality and the adequacy of our basic research program in energetics and lasers.)<br>The following presentations will be made by speakers from NASA's Headquarters and Ames, Langley and Lewis Research Centers, from the Jet Propulsion Laboratory and from the Universities of Florida, Maryland and Washington:<br>1. Overview Presentations on High Energy Laser and Energetics Research.<br>2. Fundamental Photonics.<br>a. Electron Impact Spectroscopy.<br>b. Molecular Interactions, Ion Cyclotron Resonance.<br>c. Superfluid He UV-Laser.<br>d. Flowing Afterglow Ion Laser.<br>e. Nuclear Zeeman Laser.<br>f. Space Gas Release Experiment.<br>g. Uranium Plasma Focus.<br>h. Uranium Plasma Research on Nuclear Pumped Lasers (Univ. of Fla., Univ. of Ill., N.C. State Univ.).<br>i. Uranium Plasma Stability.<br>j. Laser Power Conversion, and Laser Fusion Research.<br>3. Plasmadynamics.<br>a. High Temperature Plasma Research—Superconducting Magnetic Mirror Apparatus (SUMMA) — Bumpy Torus.<br>b. Magnetohydrodynamics 3. |

## SECURITIES AND EXCHANGE COMMISSION

[70-5386]

### METROPOLITAN EDISON CO.

#### Proposed Issue and Sale of Cumulative Preferred Stock

SEPTEMBER 12, 1973.

Notice is hereby given that Metropolitan Edison Company ("Met-Ed"), 2800 Pottsville Pike, Mulhenberg Township, Berks County, Pennsylvania 19605, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Met-Ed proposes to issue and sell for cash, subject to the competitive bidding requirements of Rule 50 under the Act, 150,000 additional shares of its cumulative preferred stock (the "New Preferred Stock"). The New Preferred Stock will constitute a further series of Met-Ed's cumulative preferred stock of which there are outstanding 1,243,912 shares issued in nine series. The dividend rate and redemption prices of the New Preferred Stock will be determined by competitive bidding. In all other respects the New Preferred Stock will be similar to the outstanding series. The bidding procedures which Met-Ed will use with respect to the New Preferred Stock will require that (1) the price per share specified in the bids shall not be not less than $100 (the par value of the New Preferred Stock) or more than $102.75 and (2) the dividend rate for the New Preferred Stock, which shall be specified in such bids, shall be a multiple of 1/25th of 1 percent. Prior to October 1, 1978, none of the shares of the New Preferred Stock may be redeemed at the option of Met-Ed if the moneys for such redemption are obtained by Met-Ed directly or indirectly from or in anticipation of borrowings by or for the account of Met-Ed or the proceeds of any issue of any stock ranking prior to or on a parity with the New Preferred Stock at an interest or dividend cost less than the dividend cost of this issue, subject to certain exceptions.

The proceeds ($15,000,000, exclusive of premium and accrued dividends, if any) from the sale of the New Preferred Stock will be used for the payment of all or a portion of Met-Ed's short-term bank loans expected to be outstanding at the time of sale of the New Preferred Stock or for construction purposes or to reimburse Met-Ed's treasury for funds previously expended therefrom for construction purposes. The presently estimated cost of Met-Ed's 1973 construction program is approximately $145,000,000 (including allowance for funds used during construction).

The fees and expenses to be paid by Met-Ed in connection with the issue and sale of the New Preferred Stock are estimated to total $100,000, including legal fees of $26,500. The fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Pennsylvania Public Utility Commission has jurisdiction over the proposed issuance and sale of the New Preferred Stock by Met-Ed and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than October 5, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at

the above-stated address, and proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

[FR Doc.73-20452 Filed 9-25-73;8:45 am]

## SMALL BUSINESS ADMINISTRATION

[License No. 03/03-0001]

### FRANKFORD GROCERY SMALL BUSINESS INVESTMENT CO.

#### Notice of License Surrender

Notice is hereby given that Frankford Grocery Small Business Investment Company (Frankford), G Street and Erie Avenue, Philadelphia, Pennsylvania 19124, has surrendered its license to operate as a small business investment company pursuant to Section 107.105 of the Small Business Administration's Rules and Regulations governing small business investment companies (13 CFR § 107.105 (1973).

Frankford was licensed as a small business investment company on December 23, 1959, to operate solely under the Small Business Investment Act of 1958 (the Act), as amended (15 U.S.C. 661 et seq.), and the Regulations promulgated thereunder.

Under the authority vested by the Act and pursuant to the cited Regulation, the surrender of the license is hereby accepted and rights, privileges and franchises therefrom are cancelled.

Dated: September 18, 1973.

JAMES THOMAS PHELAN,
*Deputy Associate Administrator for Investment.*

[FR Doc.73-20448 Filed 9-25-73;8:45 am]

## TARIFF COMMISSION

### COMMITTEE FOR STATISTICAL ANNOTATION OF TARIFF SCHEDULES

#### Collection of F.O.B. and C.I.F. Data on Imports

Recision of amendment to general statistical headnote 1 of the Tariff Schedules of the United States Annotated (TSUSA) and of provision for its interim application.

Notice is hereby given that the amendment of general statistical headnote 1 of the TSUSA published in the FEDERAL REGISTER of August 7, 1973 (38 FR 21323), and the provision for interim application of the amended headnote published in the FEDERAL REGISTER of September 17, 1973 (38 FR 26030), are rescinded. General statistical headnote 1 of the TSUSA therefore reads as it did before the amendment published in the FEDERAL REGISTER of August 7, 1973.

Issued September 25, 1973.

For the Committee.

[SEAL] A. F. PARKS,
*Chairman.*

[FR Doc.73-20683 Filed 9-25-73;8:45 am]

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

### INDIANA

#### Modifications to Developmental Plan

1. *Submission of modifications.* Pursuant to section 18(c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and § 1902.12 of Title 29, Code of Federal Regulations, notice is hereby given that modifications to the Occupational Safety and Health Plan for the State of Indiana have been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The State made these modifications in response to public comments received pursuant to the notice of submission of the Indiana Plan and its availability for public comment which appeared at 38 FR 10049.

The public comments from groups representing employers and workers included requests for a hearing on the plan on the basis of particularized objections to certain recordkeeping and reporting requirements, right of entry and subpoena power of the Commissioner of Labor, employee sanctions, toxic substances, coverage of public employees, and penalties for violation of posting requirements, among others. The clarifications and modifications submitted by the State seem to cure the alleged inadequacies of the Plan, and accordingly there appears to be no outstanding objection which warrants a hearing. Consequently, the several requests for a hearing are hereby denied. However, it is appropriate to afford under § 1902.12 of Title 29, Code of Federal Regulations, an additional opportunity for public comment on the modifications of the Plan.

The modifications to which comments should be addressed include the following: revised provisions for the adoption of temporary emergency standards; the application, in the legislation, of penalties only to employees; additions to and clarification of certain recordkeeping requirements and regulations; hearing notification time limit; procedures for judicial review; right of the Commissioner of Labor to enter "without delay"; provision for subpoena power; provisions for on-site consultations; clarification of the State's legal notice requirement; job descriptions for safety education consultants; revision of certain personnel budgets; a letter of legal opinion stating that the proposed legislation is consistent with the State's Constitution and that it meets the requirements of the Occupational Safety and Health Act of 1970; and a letter from the governor reaffirming his support of the Plan as modified. Comments submitted on the modifications will be considered in the Assistant Secretary's decision on the Plan.

Included in the modifications are also proposals for the following amendments to the State's legislation: amendment of the definition of the term "employment" to cover all services; an addition to the general duty clause requiring employers to comply with all safety and health standards, rules and regulations; provision that the Federal standards shall be adopted by the State 60 days following the effective date of the Federal standards; requirement that standards subsequent to promulgation be published in a newspaper of general circulation; provision that standards developed shall not unduly burden interstate commerce; requirement that temporary emergency standards be effective until publication of a permanent standard; provision for employee notification of exposure to toxic substances at certain levels; provision for the issuance of interim orders; provision for entry without delay for inspection purposes; provision that violation of posting requirements will incur mandatory penalties; provision that civil penalties may be collected through use of the court system; elimination of the employee sanctions in the legislation and inclusion of a penalty for willful violations of the Act not covered by other penalty clauses; and provision that the Federal recordkeeping and reporting requirements may be used.

2. *Location of plan for inspection.* A copy of the plan with modifications, may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Railway Labor Building, Room 305, 400 First Street NW., U.S. Department of Labor, Washington, D.C. 20210; Regional Administration, Department of Labor, 300 S. Wacker Drive, Room 1201, Chicago, Illinois 60606; and State of Indiana Department of Labor, Room 1013, State Office Building, Indianapolis, Indiana 46202.

3. *Public participation.* Interested persons are hereby given until October 26, 1973, to submit to the Assistant Secretary written data, views, and arguments concerning the modifications of the Plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Occupational Safety and Health Administration, Railway Labor Building, Room 305, 400 First Street, NW., Washington, D.C. 20210. The written comments will be available for public inspection and copying at the above address.

After consideration has been given to all material submitted, a final decision

V 38 I 186 SEP 26 73 XUM

as to approval or disapproval of the modified Plan will be issued.

Signed at Washington, D.C., this 20th day of September 1973.

JOHN H. STENDER,
*Assistant Secretary of Labor.*

[FR Doc.73-20491 Filed 9-25-73;8:45 am]

## Wage and Hour Division

## FULL-TIME STUDENTS

### Certificates Authorizing Employment at Special Minimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR, Part 519), and Administrative Order No. 621 (36 F.R. 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates were issued to variety-department stores and provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

Younker Brothers, Inc., 7-31-74: North Grand Shopping Center, Ames, IA; 2500 South Center, Marshalltown, IA.

The following certificates issued to variety-department stores permitted to rely on the base-year employment experience of others were either the first full-time student certificates issued to the establishment, or provide standards different from those previously authorized. The certificates permit the employment of full-time students at rates of not less than 85 percent of the applicable statutory minimum in the classes of occupations listed, and provide for the indicated monthly limitations on the percentage of full-time student hours of employment at rates below the applicable statutory minimum to total hours of employment of all employees.

Ben Franklin Store, U.S. Highway 16 East and Ferguson Hill Road, Burnsville, NC; salesclerk, stock clerk; 10 to 45 percent; 7-17-74.

S. S. Kresge Co., for the occupations of salesclerk, checker, 11 to 22 percent, except as otherwise indicated: No. 3082, Dothan, AL, 7-24-74; No. 3140, Clearwater, FL, 7-22-74 (salesclerk, 7 to 10 percent); Nos. 3081 and 3090, Jackson, MS, 7-22-74; No. 4237, Durham, NC, 7-26-74 (salesclerk); No. 3128, Enid, OK, 7-31-74 (salesclerk, 7 to 27 percent); No. 7012, Clute, TX, 8-15-74 (salesclerk, stock clerk, office clerk, cashier, customer service, maintenance, 7 to 27 percent).

G. McNew Store, No. 23, Belle Glade, FL; salesclerk, stock clerk, office clerk, porter; 11 to 32 percent; 7-16-74.

Rose's Stores, Inc., No. 240, Raleigh, NC; salesclerk; 7 to 13 percent; 7-29-74.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annuled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before October 26, 1973.

Signed at Washington, D.C., this 20th day of September 1973.

DONALD T. CRUMBACK,
*Authorized Representative of the Administrator.*

## INTERSTATE COMMERCE COMMISSION

[Notice 349]

### ASSIGNMENT OF HEARINGS

SEPTEMBER 20, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC-114273 Sub 139, Cedar Rapids Steel Transportation, Inc., now being assigned hearing November 7, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC-118989 Sub 90, Container Transit, Inc., is continued to November 5, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC-123048 Sub 253, Diamond Transportation System, Inc., now being assigned hearing November 6, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC-126428 Sub 5, Zibert Transport Co., Extension-Marseilles, Ill., now being assigned hearing November 8, 1973 (2 days), at Chicago, Ill., in a hearing room to be later designated.

MC 125820 Sub-7, Elk Valley Freight Line, Inc., now being assigned hearing October 29, 1973, at Montgomery, Ala., in a hearing room to be later designated.

MCC-8089, Cloquet Transfer Company *v.* Century Motor Freight, Inc., et al., now being assigned hearing November 5, 1973 (2 days), at St. Paul, Minn., in a hearing room to be later designated.

MC 97699 Sub 36, Barber Transportation Company, now being assigned hearing (1 week), November 5, 1973, at Rapid City, S. Dak., in a hearing room to be later designated.

W-522 Sub 15, American Commercial Barge Line Co., & W-654 Sub 8, Warrior & Gulf Navigation Co., Extension-Tug & Barge, now assigned October 29, 1973, at New Orleans, La., is postponed to December 3, 1973, at New Orleans, La., in a hearing room to be later designated.

MC 9325 Sub 66, K Lines, Inc., now being assigned hearing November 5, 1973 (1 week), at Olympia, Washington, in a hearing room to be later designated.

MC 63792 Sub 16, Tom Hicks Transfer Company, Inc., application dismissed.

FF-397, Japan Line, Ltd., now being assigned November 5, 1973 (1 week), at Chicago, Ill., in a hearing room to be later designated.

MC-C-8101, Belknap Van & Storage of San Antonio, Inc., Belknap Warehouse Corp., Burnham Van Service, Inc., and U.S. Van Lines, Inc.—Investigation of Operations, now assigned October 23, 1973, MC 83835 Sub 99, Wales Transportation, Inc., now assigned October 24, 1973, FF-C-52, Darrell J. Sekin & Company, Inc. and Regional International Services, Inc.—Investigation of Operations, now assigned October 25, 1973, and MC 138378, Dale's Enterprises, Inc., Dba Southwest Mobile Homes, now assigned October 29, 1973, at Dallas, Tex., will be held in Room 5A15-17, Federal Office Bldg., 1100 Commerce Street.

MC-F-11893, Overnite Transportation Company—Purchase—Spade Continental Express, Inc., now being assigned hearing November 5, 1973 (1 week), at Columbus, Ohio, in Room 228, Federal Bldg., 85 Marconi Blvd.

MC-263 Sub 205, Garrett Freightlines, Inc., now assigned October 1, 1973, Denver, Colo., will be held in Radisson Denver Hotel, 1790 Grant Street, instead of Room B-230, New Custom House, 19th and Stout Street.

MC-C-8105, Leavitts Freight Service, Inc. *v.* Contract Carrier Service, Inc., now assigned October 4, 1973, at Portland, Oreg., is postponed indefinitely.

W-1266, Marine Exploration Company, Inc., now assigned November 5, 1973, at Miami, Fla., will be held in Room 208, Federal Bldg., 51 S.W. First Avenue.

MC-F-11896, Crouse Cartage Company—Purchase—Marc Truck Lines, Inc., and MC 123389 Sub 15, Crouse Cartage Company, now being assigned hearing November 5, 1973 (1 week), at Chicago, Ill., in a hearing room to be later designated.

MC-C-8093, Phillip Transit Lines, Inc. *v.* Daniel Hamm Drayage Company, now being assigned November 6, 1973 (1 day), at Jefferson City, Mo., in a hearing room to be later designated.

MC 29642 Sub 9, Five Transportation Company, now being assigned hearing November 26, 1973 (1 week), at Atlanta, Ga., in a hearing room to be later designated.

MC 138565, Transportes Monterrey Cadereyta Reynosa S.A. de C.V., now being assigned November 27, 1973 (3 days), at Brownsville, Tex., in a hearing room to be later designated.

MC 117565 Sub 86, Motor Service Company, Inc., now being assigned hearing November 26, 1973 (1 day), at Columbus, Ohio, in a hearing room to be later designated.

MC-C-8088, Point Express, Inc.—Investigation and revocation of Certificates—now being assigned hearing November 27, 1973 (2 days), at Columbus, Ohio, in a hearing room to be later designated.

MC 119789 Sub 155, Caravan Refrigerated Cargo, Inc., now being assigned hearing November 29, 1973 (2 days), at Columbus, Ohio, in a hearing room to be later designated.

MC-F-11778, T.I.M.E.-DC, Inc.—Control and Merger—Husman Express Co., MC 35320 Sub 135, T.I.M.E.-DC, Inc. now being assigned hearing December 3, 1973 (1 week), at Columbus, Ohio, in a hearing room to be later designated.

MC-28478 Sub 41, Great Lakes Express Co., now being assigned hearing November 28, 1973 (1 week), will be held in Room No. 1, Public Utilities Commission of Ohio, 111 North High Street, Columbus, Ohio.

MC 97699 Sub 35, Barber Transportation Co., now being assigned hearing November 26, 1973 (2 weeks), at Cheyenne, Wyo., in a hearing room to be later designated.

MC-113459 Sub 77, H. J. Jeffries Truck Line, Inc., now being assigned hearing November 26, 1973 (2 weeks); at Chicago, Ill., in a hearing room to be later designated.

MC 101186 Sub 13, Arledge Transfer, Inc., now being assigned November 27, 1973 (3 days), at Des Moines, Iowa, in a hearing room to be later designated.

MC 59856 Subs 49 and 51, Salt Creek Freightways, now being assigned hearing November 26, 1973 (1 week), at Helena, Mont., in a hearing room to be later designated.

*Secretary.*

[FR Doc.73-20509 Filed 9-25-73;8:45 am]

### FOURTH SECTION APPLICATION FOR RELIEF

SEPTEMBER 21, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before October 11, 1973. FSA No. 42749—*Returned shipments of newsprint paper winding cores to Sheldon, Tex.* Filed by Southwestern Freight Bureau Agent (No. B-431), for interested rail carriers. Rates on cores, newsprint paper winding, returned, in carloads, as described in the application, from points in Illinois Freight Association and western trunkline territories, to Sheldon, Tex.

Grounds for relief—Carrier competition.

Tariff—Supplement 60 to Southwestern Freight Bureau, Agent, tariff 306-E, ICC 4965. Rates are published to become effective on October 20, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[No. 35863]

### MONTANA INTRASTATE RAIL FREIGHT RATES AND CHARGES, 1973

#### Assignment for Hearing and Directing Special Procedure

*It appearing*, That by order dated July 16, 1973, the Commission, Division 2, instituted the above-entitled investigation;

*It is ordered*, That the above-entitled proceeding be, and it is hereby, referred to an Administrative Law Judge for hearing and for an initial decision.

*It is further ordered*, That on or before October 9, 1973, the respondents and any persons in support thereof shall file with the Commission three copies of the verified statements of their witnesses, in writing, together with any studies to be offered at the hearing, with a statement where the underlying work papers to such studies will be available for inspection by parties to the proceeding and at the same time, serve a copy of such prepared material upon all parties listed in Appendix A attached hereto and any additional persons who make known their desire to actively participate in the proceeding on or before October 3, 1973.

V 38 I 186 S
SEP 26 73
XUM

*It is further ordered*, That on or before November 9, 1973, protestants shall file with the Commission, three copies of reply verified statements of their witnesses, in writing, and at the same time, serve a copy of such prepared material upon all persons listed in Appendix A hereto and any additional persons who make known their desire to actively participate on or before October 3, 1973. Attached hereto as Appendix A is a list of all known persons who have indicated their desire to actively participate in the proceeding. Any additional persons who desire to actively participate and receive copies of the prepared material to be served shall notify the Commission, in writing, on or before October 3, 1973, as well as all persons listed in Appendix A attached hereto. Otherwise, any interested persons desiring to participate in this proceeding may make his appearance at the hearing.

*It is further ordered*, That parties desiring to cross-examine witnesses who have submitted verified statements shall give notice to that effect, in writing, to the affiant and his counsel, if any, on or before November 19, 1973, a copy of such notice to be filed simultaneously with the Commission, together with a request for any underlying data that the witnesses will be expected to have available for immediate reference at the hearing. All verified statements and attachments as to which no cross-examination is requested will be considered as offered in evidence and received unless challenged for good cause. Any witness who has been requested to appear for cross-examination but fails to do so, subjects his verified statement to a motion to strike.

*It is further ordered*, That a hearing will be held commencing on November 28, 1973, at 9:30 a.m. United States Standard Time, at Billings, Montana, in a hearing room to be later designated, for the purpose of hearing cross-examination of witnesses so requested; to afford opportunity to present evidence in opposition to the cross-examination; and such other pertinent evidence which the Judge deems necessary to complete the record.

*And it is further ordered*, That a copy of this order be served upon the respondents and protestants; that the State of Montana be notified of this proceeding by sending a copy of this order by certified mail to the Governor of Montana, Helena, Mont., and a copy to the Public Service Commission of Montana, Helena, Mont.; and that further notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of this Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, Washington, D.C., for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 19th day of September 1973.

By the Commission, Commissioner Brown.

[Notice 22]

## MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

SEPTEMBER 21, 1973.

The following letter-notices of proposals to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-1515 (Deviation No. 664) (Cancels Deviation No. 552), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, Ohio 44113, filed September 7, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express, and newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From the junction of the Ohio Turnpike and Interstate Highway 80 at Interchange No. 15 over Interstate Highway 80 to junction of Interstate Highways 80 and 280 and U.S. Highway 46 near Pine Brook, N.J., thence over Interstate Highway 280 to junction New Jersey County Highway 508 near Newark, thence over New Jersey County Highway 508 to junction New Jersey Turnpike (Exit 15W), and (2) from the junction of the Ohio Turnpike and Interstate Highway 80 at Interchange No. 15 over Interstate Highway 80 to junction Interstate Highway 95, thence over Interstate Highway 95 to junction New Jersey Highway 3 (Lincoln Tunnel Interchange), with the following access routes: (a) from the junction of U.S. Highway 46 and New Jersey Highway 23 near Singac, N.J., over New Jersey Highway 23 to junction Interstate Highway 80, and (b) from Youngstown, Ohio, over Ohio Highway 193 to junction Interstate Highway 80, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over pertinent service routes as follows: (1) From the junction of Interstate Highway 80 and the Ohio Turnpike at Exit 15 over the Ohio Turnpike to junction the Pennsylvania Turnpike at the Ohio-Pennsylvania State line, thence over the Pennsylvania Turnpike to junction the New Jersey Turnpike at Interchange No. 6, thence over the New Jersey Turnpike to junction New Jersey County Highway 508, near Newark, N.J. (Exit 15W), and (2) from the Lincoln Tunnel Interchange of the New Jersey Turnpike over the New Jersey Turnpike to the Delaware Memorial Bridge Interchange, and return over the same routes.

No. MC-1515 (Deviation No. 665) (Cancels Deviation No. 612), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, Ohio 44113, filed September 7, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) From the junction of the New Jersey Turnpike and New Jersey County Highway 508 (Exit 15W), over New Jersey County Highway 508 to junction Interstate Highway 280, at Newark, N.J., thence over Interstate Highway 280 to junction U.S. Highway 46 and Interstate Highway 80 west of Pine Brook, N.J., thence over Interstate Highway 80 to junction Interstate Highway 380, thence over Interstate Highway 380 to junction Pennsylvania Highway 307 near Scranton, Pa., and (2) from the junction of New Jersey Highway 3 and the New Jersey Turnpike (Interchange No. 17) near New York, N.Y., over the New Jersey Turnpike to junction Interstate Highway 95, thence over Interstate Highway 95 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction U.S. Highway 46 and Interstate Highway 280 west of Pine Brook, N.J., thence over Interstate Highway 80 to junction Interstate Highway 380, thence over Interstate Highway 380 to junction Pennsylvania Highway 307 near Scranton, Pa., with the following access routes: (a) From the junction of U.S. Highway 46 and New Jersey Highway 23 near Singac, N.J., over New Jersey Highway 23 to junction Interstate Highway 80, (b) from Dover, N.J., over New Jersey Highway 15 to junction Interstate Highway 80, (c) from the junction of U.S. Highway 46 and New Jersey County Highway 517 near Hackettstown, N.J., over New Jersey County Highway 517 to junction Interstate Highway 80, (d) from Stroudsburg, Pa., over U.S. Highway 611 to junction Interstate Highway 80, (e) from Scotrun, Pa., via unnumbered access highway to junction Interstate Highway 80, (f) from Tobyhanna, Pa., over Pennsylvania Highway 423 to junction Interstate Highway 380, and (g) from the junction of U.S. Highway 611 and Pennsylvania Highway 507 over Pennsylvania Highway 507 to junction Interstate Highway 380, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over pertinent service routes as follows: (1) from New York, N.Y., via the Lincoln Tunnel to junction New Jersey Highway 3, thence over New Jersey Highway 3 to junction U.S. Highway 46, thence over U.S. Highway 46 to junction U.S. Highway 611 near Columbia, N.J., thence over U.S. Highway 611 to junction Pennsylvania Highway 307, thence over Pennsylvania Highway 307 to Scranton, Pa., and (2) from the Lincoln Tunnel Interchange of the New Jersey Turnpike, over the New Jersey Turnpike to the Delaware Memorial Bridge Interchange, and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.73-20513 Filed 9-25-73;8:45 am]

[Notice 31]

## MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

SEPTEMBER 21, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-75320 (Deviation No. 39), CAMPBELL "66" EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801, filed September 12, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Kansas City, Mo., over U.S. Highway 60 to junction Interstate Highway 35, thence over Interstate Highway 35 to junction Interstate Highway 35E, thence over Interstate Highway 35E to Dallas, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Vinita, Okla., over U.S. Highway 66 to Tulsa, Okla., thence over Interstate Highway 44 to junction Oklahoma Highway 18, thence over Oklahoma Highway 18 to junction U.S. Highway 177, thence over U.S. Highway 177 to junction U.S. Highway 70, thence over U.S. Highway 70 to junction Oklahoma Highway 79, thence over Oklahoma Highway 79 to the Oklahoma-Texas State line, thence over Texas Highway 79 to Wichita Falls, Tex., thence over U.S. Highway 281 to junction U.S. Highway 180 at or near Mineral Wells, Tex., thence over U.S. Highway 180 to Fort Worth, Tex., thence over Texas Highway 183 to Dallas, Tex. (also from Fort Worth, Tex., over the Dallas-Fort Worth Turnpike to Dallas, Tex., and return), and return over the same route.

No. MC-75320 (Deviation No. 40), CAMPBELL "66" EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801, filed September 12, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Kansas City, Mo., over Interstate Highway 35 (U.S. Highway 50 where Interstate Highway 35 is not completed) to junction U.S. Highway 82, thence over U.S. Highway 82 to junction U.S. Highway 75, thence over U.S. Highway 75 to Dallas, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Kansas City, Mo., over U.S. Highway 50 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction Kansas Highway 26 (formerly Kansas Highway 96), thence over Kansas Highway 26 to junction U.S. Highway 66, thence over U.S. Highway 66 to junction Interstate Highway 44, thence over Interstate Highway 44 to junction Oklahoma Highway 18, thence over Oklahoma Highway 18 to junction U.S. Highway 177, thence over U.S. Highway 177 to junction U.S. Highway 70, thence over U.S. Highway 70 to junction Oklahoma Highway 79, thence over Oklahoma Highway 79 to the Oklahoma-Texas State line, thence over Texas Highway 79 to Wichita Falls, Tex., thence over U.S. Highway 281 to junction U.S. Highway 180 at or near Mineral Wells, Tex., thence over U.S. Highway 180 to Fort Worth, Tex., thence over Texas Highway 183 to Dallas, Tex. (also from Fort Worth, Tex., over the Dallas-Fort Worth Turnpike to Dallas, Tex., and return) and return over the same route.

No. MC-75320 (Deviation No. 41), CAMPBELL "66" EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801, filed September 12, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Kansas City, Mo., over Interstate Highway 70 to junction Interstate Highway 35, thence over Interstate Highway 35 to junction Interstate Highway 35W, thence over Interstate Highway 35W to Fort Worth, Tex., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized

V 38-186 SEP 26 73 XUM

to transport the same commodities over a pertinent service route as follows: From Kansas City, Mo., over U.S. Highway 50 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction Kansas Highway 26 (formerly Kansas Highway 96), thence over Kansas Highway 26 to junction U.S. Highway 66, thence over U.S. Highway 66 to junction Interstate Highway 44, thence over Interstate Highway 44 to junction Oklahoma Highway 18, thence over Oklahoma Highway 18 to junction U.S. Highway 177, thence over U.S. Highway 177 to junction U.S. Highway 70, thence over U.S. Highway 70 to junction Oklahoma Highway 79, thence over Oklahoma Highway 79 to the Oklahoma-Texas State line, thence over Texas Highway 79 to Wichita Falls, Tex., thence over U.S. Highway 281 to junction U.S. Highway 180 at or near Mineral Wells, Tex., thence over U.S. Highway 180 to Fort Worth, Tex., and return over the same route.

No. MC–59583 (Deviation No. 45), THE MASON AND DIXON LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662, filed September 10, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Shamokin Dam, Pa., over U.S. Highway 15 to Rochester, N.Y., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follows: (1) From Bristol, Tenn., over U.S. Highway 11 to Harrisburg, Pa., thence over U.S. Highway 22 to junction New Jersey Highway 28, thence over New Jersey Highway 28 to junction New Jersey Highway 439, thence over New Jersey Highway 439 to New York, N.Y., serving all intermediate points and the off-route points of Gate City, Glasgow, Shenandoah, and Fort Royal, Va., High Bridge, N.J., and points in Hudson, Essex, Bergen, Passaic, Union, and Middlesex Counties, N.J., and points in the New York, N.Y., commercial zone, (2) from Harrisburg, Pa., over Pennsylvania Highway 147 to Clarks Ferry, Pa., thence across the Susquehanna River to Juniata Bridge, thence over U.S. Highway 11 to Scranton, Pa., thence over U.S. Highway 611 to Philadelphia, Pa., serving all intermediate points, (3) from Binghamton, N.Y., over U.S. Highway 11 via Clarks Summit and West Pittston, Pa., to Kingston, Pa., thence over Pennsylvania Highway 115 to Wilkes-Barre, Pa., serving the intermediate and off-route points of Hop Bottom, Nicholson, Clarks Summit, Scranton, Pittston, Kingston, Tunkannack, Plymouth, Old Forge, Luzerne, Nanticoke, and Dunmore, Pa., and those in Dickinson and Fenton Townships, Broome County, N.Y., and (4) from Buffalo, N.Y., over New York Highway 33 to Rochester, N.Y., thence over New York Highway 96 to junction New York Highway 332, thence over New York Highway 332 to Canandiagua, N.Y., thence over U.S. Highway 20 to Geneva, N.Y., thence over New York Highway 96A to Ovid, N.Y., thence over New York Highway 96 to Oswego, N.Y., thence over New York Highway 17 to Binghamton, N.Y., serving the intermediate and off-route points of Elmira, Oswego, Batavia, Rochester, Canandiagua, Geneva, Ithaca, Niagara Falls, Tonawanda, North Tonawanda, and North Collins, N.Y., those in Dickinson and Fenton Townships, Broome County, N.Y., and all intermediate points between Ithaca and Binghamton, N.Y., and return over the same routes.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 75]

## MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

SEPTEMBER 21, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new special rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

### MOTOR CARRIERS OF PROPERTY

No. MC 116092 (sub-No. 5) (Notice of filing of petition for Modification of certificate), filed September 7, 1973. Petitioner: E. J. PERSONS TRANSPORT, LTD., 785 Main Street, Cowansville, Province of Quebec, Canada. Petitioner's representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Petitioner presently holds a motor *common carrier* certificate in No. MC–116092 (sub-No. 5) issued December 12, 1972, authorizing transportation, by motor vehicle, over irregular routes, of *rough lumber*, between ports of entry on the United States-Canada Boundary line at or near Champlain and Ogdensburg, N.Y., and Norton Mills, Derby Line, and Richford, Vt., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania, restricted against transportation of traffic originating at points in Maine. By the instant petition, petitioner seeks to transport all types of lumber, in lieu of the single commodity rough lumber. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 124554 (sub-No. 5) (Notice of Filing Petition for Territorial Expansion), filed September 7, 1973. Petitioner: LANG CARTAGE CORP., 338 South 17th Street, Milwaukee, Wis. 53233. Petitioner's representative: Richard C. Alexander, 710 North Plankinton Ave., Milwaukee, Wis. 53203. Petitioner presently holds a motor *contract carrier* permit in No. MC 124554 (sub-No. 5) issued August 5, 1964, authorizing transportation, over irregular routes, of *general commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, from Milwaukee, Wis., to dealers of Stanley Home Products, Inc., located at points in Door, Oconto, Shawano, Brown, Dodge, Racine, Outagamie, Winnegago, Manitowoc, Calumet, Waukesha, Kawaunee, Fond du Lac, Sheboygan, Washington, Ozaukee, Milwaukee, Waupaca, Kenosha, Jefferson, Walworth, Rock, Marquette, Waushara, Portage, Columbia, Green Lake, Menomonie, Marathon, and Langlade Counties, Wis., with no transportation for compensation on return except as otherwise authorized, restricted to a transportation service to be performed, under a continuing contract, or contracts, with Stanley Home Products, Inc., of Westfield, Mass. By the instant petition, petitioner seeks to modify its territorial description to include Dane, Green and Sauk Counties, Wis., as destinations points. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

### APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

### MOTOR CARRIERS OF PROPERTY

No. MC–F–11986. Authority sought for purchase by LIGON SPECIALIZED HAULER, INC., P.O. Box L, Madisonville, Ky. 42431, of a portion of the operating rights of WEBB TRANSFER LINE, INC., JOHN C. RYAN, Trustee, 403 West Main St., Frankfort, Ky. 40601, and for acquisition by HERBERT ARNOLD LIGON, JR., also of Madisonville, Ky. 42431, of control of such rights through the purchase. Applicants' attorneys: Robert M. Pearce, P.O. Box E, Bowling Green, Ky. 42101, and Robert H. Kinker, P.O. Box 464, Frankfort, Ky. 40601. Operating rights sought to be transferred: *Household goods* as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, as a common carrier, over irregular routes, between points in Shelby County, Ky., on the one hand, and, on the other, points in Kentucky, Illinois, Indiana, Ohio, West Virginia, Virginia, Tennessee, and Georgia, traversing Maryland for operating convenience only; *commodities*, which because of size or weight require the use of special equipment, between Middletown, Ohio, on the one hand, and, on the other, Fort Knox, Ky., Fort Benjamin Harrison, Ind., and sites of Civilian Conservation Corps Camps in Indiana and Kentucky; livestock, from Shelbyville, Ky., to Cincinnati, Ohio, service is authorized from points in Shelby County, Ky., restricted to pick-up only; emigrant movables, as defined in *Herb Malchow Extension of Operations-Special Commodities*, 47 M.C.C. 299, between points in Shelby County, Ky., on the one hand, and, on the other, points in Kentucky, Illinois, Indiana, Ohio, West Virginia, Virginia, Tennessee, and Georgia, traversing Maryland for operating convenience only; *building materials and supplies* (except commodities in bulk), from the plantsite of Tech-Panel Corp. at or near Springfield, Ky., to points in the United States (except Alaska and Hawaii); *hardboard*, from New Orleans, La., and Wilmington, N.C., to the plantsite of Tech-Panel Corporation at or near Springfield, Ky., with restriction. Vendee is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC–F–11987. Authority sought for purchase by OLIVER TRUCKING COMPANY, INC., P.O. Box 53 (Lexington Road), Winchester, Ky. 40391, of a portion of the operating rights of WEBB TRANSFER LINE, INC., JOHN C. RYAN, Trustee, 403 West Main St., Frankfort, Ky. 40601, and for acquisition by RALPH OLIVER, also of Winchester, Ky. 40391, of control of such rights through the purchase. Applicants' attorneys: Louis J. Amato, P.O. Box 53, Winchester, Ky. 40391, and Robert H. Kinker, P.O. Box 464, Frankfort, Ky. 40601. Operating rights sought to be transferred: *Homogenized, reconstituted, or reconstructed tobacco*, as a *common carrier* over irregular routes, from Spottswood, N.J., and Ancram, N.Y., to Louisville, and Lexington, Ky., between Louisville and Lexington, Ky., on the one hand, and, on the other, Danville and Richmond, Va., and Greensboro, Durham, and Reidsville, N.C.; *plywood*, from the plantsite of General Plywood Corp., at New Albany, Ind., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Kentucky, Louisiana, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee (except Nashville and points in its commercial zone as defined by the Commission), Virginia, Vermont, West Virginia, and the District of Columbia, with restriction. Vendee is authorized to operate as a *common carrier* in Kentucky, Pennsylvania, West Virginia, Tennessee, North Carolina, Georgia, Alabama, Mississippi, Illinois, Indiana, Michigan, Missouri, Ohio, South Carolina, Virginia, Wisconsin, Arkansas, Delaware, Florida, Iowa, Louisiana, Maryland, Minnesota, New Jersey, New York, Connecticut, Maine, Massachusetts, New Hampshire, Oklahoma, Rhode Island, Texas, Vermont, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11988. Authority sought for purchase by O'NAN TRANSPORTATION COMPANY, INCORPORATED, P.O. Box 308, Carrollton, Ky. 41008, of a portion of the operating rights of WEBB TRANSFER LINE, INC., JOHN C. RYAN, Trustee, 403 West Main St., Frankfort, Ky. 40601, and for acquisition by ROBERT O'NAN, also of Carrollton, Ky. 41008, of control of such rights through the purchase. Applicants' attorney: Robert M. Pearce, P.O. Box E, Bowling Green, Ky. 42101. Operating rights sought to be transferred: *Such materials, supplies, and equipment* as are necessary to the maintenance and operation of Civilian Conservation Corps camps, as a *common carrier* over regular routes, between Fort Benjamin Harrison, Ind., and Fort Knox, Ky., between Jeffersonville, Ind., and Fort Knox, Ky., service is not authorized to or from intermediate points, with restriction; *materials, supplies, and equipment*, used in the operation and maintenance of Civilian Conservation Corps camps, over irregular routes between Fort Benjamin Harrison, Ind., and Civilian Conservation Corps camps in Kentucky; *general commodities*, except commodities which because of size or weight require the use of special equipment, between Middletown, Ohio, on the one hand, and, on the other, Fort Knox, Ky., Fort Benjamin Harrison, Ind., and sites of Civilian Conservation Corps camps in Indana and Kentucky. Vendee is authorized to operate as a common carrier in Kentucky, Indiana, Ohio, and Tennessee. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11989. Authority sought for purchase by CECIL O'NAN, doing business as O'NAN TRANSFER CO., Defoe, Ky. 40017, of a portion of the operating rights of WEBB TRANSFER LINE, INC., JOHN C. RYAN, Trustee, 403 West Main Street, Frankfort, Ky. 40601, and for acquisition by CECIL O'NAN, also of Defoe, Ky. 40017, of control of such rights through the purchase. Applicants' attorney: Robert M. Pearce, P.O. Box E, Bowling Green, Ky. 42101. Operating rights sought to be transferred: *Redried tobacco*, in containers other than hogsheads, as a *common carrier* over irregular routes, between points in Kentucky, Florida, Indiana, Ohio, Tennessee, West Virginia, and Missouri, on the one hand, and, on the other, points in Georgia, North Carolina, South Carolina, and Virginia; *empty tobacco containers*, knocked down or assembled, and *tobacco handling and testing equipment*, between points in Kentucky, Florida, Indiana, Ohio, Tennessee, West Virginia, Missouri, Georgia, North Carolina, South Carolina, and Virginia except between Lake City and Live Oak, Fla., on the one hand, and, on the other, points in North Carolina and Virginia; *general commodities*, with certain exceptions, as a *contract carrier* over irregular routes, from U.S. Government installations in Alabama, Arkansas, Delaware, Georgia, Indiana, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Florida and the District of Columbia, from points in these States with certain exceptions from U.S. Government installations and holding agencies for U.S. Government property in Arizona, California, Colorado, Connecticut, Delaware, Florida, Idaho, Iowa, Kansas, Louisiana, Maine, Massachusetts, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, Oklahoma, Oregon, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, Wisconsin, and Wyoming, to points in Kentucky, with restrictions. Vendee holds no authority from this Commission. However, he is affiliated with CECIL O'NAN, doing business as TRI-STATE EXPRESS, Defoe, Ky. 40017 (MC–14624), which is authorized to operate as a *common carrier* in Indiana, Kentucky, and Ohio. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11990. Authority sought for control by LIGON SPECIALIZED HAULER, INC., Highway 85 East, P.O. Drawer L, Madison, Ky. 42431, of LUMBER TRANSPORT, INC., P.O. Box 6181 South Station, Fort Smith, Ark. 72901, and for acquisition by HERBERT A. LIGON, JR., also of Madisonville, Ky. 42431, of control of LUMBER TRANSPORT, INC., through the acquisition by LIGON SPECIALIZED HAULER, INC. Applicants' attorney: Ronald E. Butler, of Madisonville, Ky. 42431. Operating rights sought to be controlled: *Lumber and lumber mill products*, as a *common carrier* over irregular routes, from points in New Mexico to points in Oklahoma; *salvaged used pipe*, from certain specified points in Illinois, to points in Kansas, Oklahoma, New Mexico, Texas, Louisiana, and Arkansas; clay pipe, from the plantsites of United Clay Pipe Co., at or near Seminole, Okla., to points in Arkansas, Colorado, Kansas, Missouri, New Mexico, and Texas; *composition board*, from Miami, Okla., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Colorado, and New Mexico; *wood chips and wood waste*, from points in Texas, Louisiana, Arkansas, Missouri (except

V 38 186 SEP 26 73 XUM

Belle and Ellis Spur, near Bland), Kansas, Mississippi, and Tennessee, to Miami, Okla.; *clay products*, from points in Seminole County, Okla., to points in Alabama, Arizona, Illinois, Kentucky, Louisiana, Mississippi, Nebraska, Tennessee, Utah, and Wyoming; *charcoal* (except commodities in bulk), from Paris, Ark., to points in the United States (except Alaska, Arkansas, Hawaii, and Oklahoma). LIGON SPECIALIZED HAULER, INC., is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC-F-11991. Authority sought for purchase by ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Akron, Ohio 44309, of a portion of the operating rights of ENGLAND TRANSPORTATION COMPANY, INC., P.O. Box 47054, Dallas, Tex. 75247, and for acquisition by GALEN J. ROUSH, also of Akron, Ohio 44309, of control of such rights through the purchase. Applicants' attorneys and representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, D.C. 20036, Douglas W. Faris, P.O. Box 471, Akron, Ohio 44309, and Drew L. Carraway, 618 Perpetual Building, Washington, D.C. 20004. Operating rights sought to be purchased: *General commodities*, with certain exceptions, as a *common carrier* over irregular routes, between New Orleans, La., and points within 10 miles of the corporate limits of New Orleans, on the one hand, and, on the other, to certain specified points in Louisiana. Vendee is authorized to operate as a *common carrier* in Ohio, Texas, Oklahoma, Connecticut, Michigan, Missouri, Indiana, Massachusetts, Pennsylvania, Kansas, Illinois, Kentucky, Rhode Island, Alabama, Georgia, North Carolina, Tennessee, South Carolina, New Jersey, New York, Virginia, Delaware, Maryland, West Virginia, Wisconsin, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-11992. Authority sought for purchase by YELLOW FREIGHT SYSTEM, INC., P.O. Box 7270, Shawnee Mission, Kans. 66207, of the operating rights of SHANE TRUCK LINE, INC., P.O. Box 267, Clovis, Calif. 93612, and for acquisition by GEORGE E. POWELL, JR., 1040 West 57th Street, Kansas City, Mo. 64113, of control of such rights through the purchase. Applicants' attorney: Allan C. Zuckerman, 39 South La Salle Street, Chicago, Ill. 60603. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC-120859 (Sub-No. 1), covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of California. Vendee is authorized to operate as a *common carrier* in Illinois, Kansas, Oklahoma, Texas, Missouri, Indiana, Kentucky, Michigan, Ohio, Nebraska, Georgia, Arizona, New Mexico, Minnesota, South Carolina, Colorado, California, Tennessee, Wyoming, South Dakota, Utah, Pennsylvania, Maryland, Virginia, Alabama, Delaware, New Jersey, New York, and Massachusetts. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC-112713 (Sub-No. 155), is a directly related matter.

TRANSFER APPLICATION TO BE ASSIGNED FOR ORAL HEARING

No. MC-FC-35454. (Republication.) Authority sought by lessee, MIDDLE & WESTERN FARMS COOPERATIVE ASSOCIATION, 513 Waverly Court, Deerfield, Ill. 60015, to lease the operating rights of lessor, B. J. McADAMS, Inc., Route 6, Box 15, North Little Rock, Ark. 72118. Applicants' representative: L. C. Cypert, Route 6, Box 15, North Little Rock, Ark. 72118. Operating rights in certificates Nos. MC-134922, MC-134922 (sub-No. 1), MC-134922 (sub-No. 6), MC-134922 (sub-No. 10), MC-134922 (sub-No. 11), MC-134922 (sub-No. 13), MC-134922 (sub-No. 19), and MC-134922 (sub-No. 22) sought to be leased: *Edible meats, canned goods, gelatins, tails, vegetable oils, and vegetable oil shortenings* (except commodities in bulk), in vehicles equipped with mechanical refrigeration, from Eau Claire, Wis., Worthington, Minn., and points in the Minneapolis-St. Paul, Minn., commercial zone as defined by the Commission, including Minneapolis and St. Paul, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia; *dairy products* (except in bulk), in vehicles equipped with mechanical refrigeration, from points in the Minneapolis-St. Paul, Minn., commercial zone as defined by the Commission, including Minneapolis and St. Paul, and from St. Cloud, Worthington, St. Charles, Albert Bea, Fairbault, and Twin Lakes, Minn., and Portage, Marshfield, and Monroe, Wis., to points in the above-named states; *foodstuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from Fairmont, Minn., to points in the above-named states; *frozen foods*, from the facilities of Kitchens of Sara Lee, Inc., located at or near Deerfield and Chicago, Ill., to points in Pennsylvania, New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, Connecticut, and the District of Columbia; *meats, meat products and meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk), from the plantsite of Armour & Co., at Huron, S. Dak., to points in Georgia, Florida, North Carolina, South Carolina, and Tennessee; *nonfrozen milk food products*, from Mitchell, S. Dak., to points in New Mexico, Arizona, Colorado, Nevada, California, Utah, Washington, Oregon, Idaho, and Montana; *charcoal briquettes*, in bags, from Cotter, Ark., to points in Oklahoma, Tennessee (except Memphis, Tenn., and points in its commercial zone), Illinois (except East St. Louis, Ill., and points in its commercial zone), Missouri (except Kansas City, Springfield, and St. Louis, Mo., and points in their respective commercial zones), Kansas, Nebraska, Iowa, Colorado, Arizona, Mississippi, Louisiana, Texas, and California; *yarn*, from Rome, Ga., to points in Texas; *frozen foods*, from the facilities of Kitchens of Sara Lee, Inc., at New Hampton, Iowa, to points in Washington, Oregon, Wyoming, Utah, Montana, Idaho, Nevada, North Carolina, South Carolina, Tennessee, Kentucky, Louisiana, Mississippi, Georgia, Florida, and Alabama; and *frozen bakery products and frozen milk and cream substitutes*, from Appleton, Wis., to points in Oklahoma, Texas, and Arkansas.

Pursuant to an order of the Commission, Division 3, dated June 7, 1973, the above-described lease application under section 212(b) of the Interstate Commerce Act is to be assigned for hearing at a time and place to be fixed, for the purpose of determining, among other things, whether lessee under section 1132.3 of the rules and regulations governing transfers of operating rights is fit to acquire the rights proposed for lease. Interested parties have 30 days from the date of this republication in which to file petitions for leave to intervene. Such petitions should state the reason or reasons for the sought intervention, the place where the petitioner wishes the hearing to be held, the number of witnesses to be presented, and the estimated time required for presentation of its evidence. The Bureau of Enforcement has been directed to participate as a party in the proceeding for the purpose of introducing evidence and otherwise developing the record.

NOTE.—The purposes of this republication are to describe with particularity the scope of operating rights involved in the transaction and to indicate that the decision to assign the proceeding for hearing was made by Division 3. The prior publication was made in the FEDERAL REGISTER issue of June 20, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 357]

## MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR, Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before October 16, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74452. By order of September 17, 1973, the Motor Carrier Board on reconsideration approved the transfer to Metropolitan Van Lines, Inc., New London, Conn., of the operating rights in certificates Nos. MC-133272 and MC-133272 (sub-No. 1) issued July 17, 1970, and September 4, 1969, respectively, to Whaling City Trucking, Inc., New London, Conn., authorizing the transportation of used household goods, from New London and Bridgeport, Conn., to points in Connecticut and Massachusetts, restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, or decontainerization of such traffic; new furniture, from Providence, R.I., to points in Massachusetts and those in that part of Connecticut on and east of a line beginning at New London and extending along Connecticut Highway 32 to Norwich, thence along Connecticut Highway 169 to the Connecticut-Massachusetts State line; household goods, as defined by the Commission, between points in Rhode Island, on the one hand, and, on the other, points in Massachusetts and Connecticut, and household goods, between points in Rhode Island, on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, New York, New Jersey, and Pennsylvania. John E. Fay, 630 Oakwood Avenue, West Hartford, Conn. 06110, attorney for applicants.

No. MC-FC-74658. By order of September 19, 1973, the Motor Carrier Board approved the transfer to R. & S. Transfer, Inc., Forest, Ohio, of the operating rights in Permit No. MC-134353 (sub-No. 2) issued July 14, 1972, to Pfeifer Transfer Co., a corporation, Upper Sandusky, Ohio, authorizing the transportation of fabricated structural steel and iron, from the plant site of Carter Steel and Fabricating Company at Bellefontaine, Ohio, to points in Ohio, Indiana, Illinois, Kentucky, West Virginia, Virginia, Pennsylvania, Tennessee, Maryland, New York, Wisconsin, and Michigan, and from points in that part of Michigan south of Michigan Highway 21 and from points in each of the above-indicated states to the plantsite of Carter Steel and Fabricating Co., Bellefontaine, Ohio. Edward R. Kirk, Suite 1660, 88 East Broad Street, Columbus, Ohio 43215, attorney for applicants.

No. MC-FC-74692. By order of September 18, 1973, Motor Carrier Board approved the transfer to Silver Fleet Motor Express, Inc., Los Angeles, Calif., of the certificate of registration in No. MC-98890 (sub-No. 3), issued April 14, 1964, to Culy Transportation Co., Inc., doing business as Cal-Canadian Motor Express, Los Angeles, Calif., authorizing transportation corresponding in scope to common carrier certificate No. 62224, dated June 30, 1961, issued by the Public Utilities Commission of California. Donald Murchison, Esq., 9454 Wilshire Blvd., Beverly Hills, Calif. 90212, attorney for applicants.

[Notice 127]

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 18, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 35807 (sub-No. 41 TA), filed August 13, 1973. Applicant: WELLS FARGO ARMORED SERVICE CORPORATION, P.O. Box 4313 (Box Zip 30302), 210 Baker Street NW., Atlanta, Ga. 30313. Applicant's representative: Melvin E. Ballet (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *United States bonds*, between points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: General Services Administration, Federal Supply Service, Building 4, Crystal Mall, Washington, D.C. 20406. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, Ga. 30309.

No. MC 50307 (sub-No. 65 TA), filed September 5, 1973. Applicant: INTERSTATE DRESS CARRIERS, INC., 247 West 35th Street, New York, N.Y. 10001. Applicant's representative: Arthur Liberstein, One World Trade Center, New York, N.Y. 10048. Authority sought to operate at a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials, supplies, and equipment* used in the manufacture thereof, between Kutztown, Pa., on the one hand, and, on the other, Phillipsburg and Alpha, N.J., for 150 days. Supporting shipper: Katos Sportswear, Inc., 240 Broad Street, Kutztown, Pa. Send protests to: Paul W. Assenza, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 67234 (sub-No. 15 TA), filed September 10, 1973. Applicant: UNITED VAN LINES, INC., No. 1 United Drive, Fenton, Mo. 63026. Applicant's representative: John H. Bradford (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commercial and institutional fixtures and laboratory equipment*, from Albuquerque, N. Mex., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Mississippi, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, for 180 days. ## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 19, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of assigned original and six copies.

A copy of the application is on file, and can be examined at the office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 106644 (sub-No. 159 TA), filed August 30, 1973. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road NW., P.O. Box 916 (Box Zip 30301), Atlanta, Ga. 30321. Applicant's representative: W. Randall Tye, 1500 Candler Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heating, cooling, humidifying, and dehumidifying machinery and equipment* along with *parts, attachments, and accessories*, for use in the installation and operation of the above named commodities, with the commodities and accessories having a combined weight in excess of 15,000 pounds, from the plantsite of Temperature Control, Inc., at or near Norcross, Ga., to the plantsite of Pepperidge Farms, Inc., at or near Richmond, Utah, for 180 days. ## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 20, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its atuhorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 730 (sub-No. 353 TA), filed September 10, 1973. Applicant: PACIFIC INTERMOUNTAIN EXPRESS CO., 1417 Clay Street, P.O. Box 958, Oakland, Calif. 94612. Applicant's representative: R. N. Cooledge (same address as applicant). ## NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

SEPTEMBER 21, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a) (6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FED-

V 38 186 SEP 26 73 XUM

ERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. A 53972, filed August 31, 1973. Applicant: AIR CARTAGE ASSOCIATES, INC., 1332 Marsden Road, Burlingame, Calif. 94040. Applicant's representative: Philip J. Bovero, 1181 Old Oakland Road, San Jose, Calif. 95112. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except as hereinafter provided, between all points and places in and within 5 miles of points in the San Francisco territory, which is described as follows: San Francisco territory includes all the city of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Co. right-of-way at Arastradero Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to East Parr Avenue; easterly along East Parr Avenue to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific Co. right-of-way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbor Drive, and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Oakland-Berkeley boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Except that applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10–C of Minimum Rate Tariff No. 4–A; (2) Automobiles, trucks, and buses, viz.: New and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis; (3) Livestock, viz.: Bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags, or swine; (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles; (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks; (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit; (7) Cement; (8) Logs; (9) Trailer coaches and campers, including integral parts and contents are within the trailer coach or camper; (10) Dangerous articles; (11) Shipments, in vehicles equipped with mechanical refrigeration systems, requiring temperature control service; and (12) Commodities of unusual or extraordinary value.

*HEARING.*—Date, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

California Docket No. 54298, filed September 4, 1973. Applicant: CABS UNLIMITED INC., 997 West Dana Street, Mountain View, Calif. 94042. Applicant's representative: Philip J. Bovero, 1181 Old Oakland Road, San Jose, Calif. 95112. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except as hereinafter provided, between all points and places in and within 5 miles of points in the San Francisco territory, which is described as follows: San Francisco territory includes all the city of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Co. right-of-way at Arastradero Road; southeasterly along the Southern Pacific Co. right-of-way to Pollard Road, including industries served by the Southern Pacific Co. spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to West Parr Avenue; easterly along West Parr Avenue to Capri Drive; southerly along Capri Drive to East Parr Avenue; easterly along East Parr Avenue to the Southern Pacific Co. right-of-way; southerly along the Southern Pacific Co. right-of-way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbor Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Oakland-Berkeley boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the city of Richmond; southwesterly along the highway extending from the city of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco waterfront at the foot of Market Street; westerly along said waterfront and shoreline to the Pacific Ocean; southerly along the shoreline of the Pacific Ocean to point of beginning. Except that applicant shall not transport any shipments of: (1) Used household goods and personal effects not packed in accordance with the crated property requirements set forth in paragraph (d) of Item No. 10–C of Minimum Rate Tariff No. 4–A; (2) Automobiles, trucks and buses, viz.: New and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis; freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis; (3) Livestock, viz.: Bucks, bulls, calves, cattle, cows, dairy cattle, ewes, goats, hogs, horses, kids, lambs, oxen, pigs, sheep, sheep camp outfits, sows, steers, stags, or swine; (4) Liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers, or a combination of such highway vehicles; (5) Commodities when transported in bulk in dump trucks or in hopper-type trucks; (6) Commodities when transported in motor vehicles equipped for mechanical mixing in transit; (7) Cement; (8) Logs; (9) Trailer coaches and campers, including integral parts and contents are within the trailer coach or camper; (10) Dangerous articles; (11) Shipments, in vehicles equipped with mechanical refrigeration systems, requiring temperature control service; and (12) Commodities of unusual or extraordinary value.

*HEARING.*—Date, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

Michigan Docket No. C–239, filed May 30, 1973. Applicant: INTER-CITY TRUCKING SERVICE, INC., 14333 Goddard Street, Detroit, Mich. 48212. Applicant's representative: E. W. Klein, 14333 Goddard Street, Detroit, Mich. 48212. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *empty equipment*, over the following routes: I. Between Flint and Lansing via M–78; II. Between Lansing and Jackson via U.S. 127; and III. Between junction of I–96 and M–59 (near Howell), and junction of M–59 with U.S. 23, via M–59.

Hearing: October 17, 1973, at the Michigan Public Service Commission, Transportation Division, Suite 15, 1000 Long Commerce Park, Lansing, Mich., at 9:30 a.m. Requests for procedural information should be addressed to the Michigan Public Service Commission, Transportation Division, Suite 15, 1000 Long Commerce Park, Lansing, Mich. 48913, and should not be directed to the Interstate Commerce Commission.

Michigan Docket No. L–15147, filed May 15, 1973. Applicant: LIPIN-ROBINSON WAREHOUSE, INC., 22150 Trolley Industrial Drive, Taylor, Mich. 48180. Applicant's representative: Frank J. Kerwin, Jr., 1961 Guardian Building, Detroit, Mich. 48226. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *hospital supplies and such commodities* as are dealt in by retail department stores, from Detroit, Mich., and it's commercial zone to various Michigan points with return of refused, damaged or overstocked merchandise, restricted to movement to or from the Lipin-Robinson Warehouse at or near Taylor, Mich., over irregular routes.

*HEARING.*—October 3, 1973, at the Michigan Public Service Commission, Transportation Division, Suite 1000 Long Commerce Park, Lansing, Mich., at 9:30 a.m. Requests for procedural information should be addressed to Michigan Public Service Commission, Transportation Division, Suite 1000 Long Commerce Park, Lansing, Mich. 48913, and should not be directed to the Interstate Commerce Commission. By the Commission

Oklahoma Docket No. MC 29362 (sub-No. 2), filed September 6, 1973. Applicant: WESTERN MOTOR FREIGHT, INC., 1430 West Sheridan, Oklahoma City, Okla. 73106. Applicant's representative: Rufus H. Lawson, 2400 Northwest 23d Street, P.O. Box 75124, Oklahoma City, Okla. 73107. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of General Commodities (except classes A and B explosives), between Oklahoma City, Okla., and Snyder, Okla., serving the intermediate points of Cache and Indiahoma, Okla.; from Oklahoma City, Okla. via U.S. 62 and H. E. Bailey Turnpike to Lawton, Okla., thence U.S. 62 to Snyder, Okla., and return over the same route; between Oklahoma City, Okla., and Frederick, Okla., serving the intermediate points of Faxon and Chattanooga, Okla., and the off-route points of Grandfield, Follister, Manitou, Tipton, and Davidson, Okla.; from Oklahoma City, Okla. via U.S. 62 and H. E. Bailey Turnpike to its intersection with S. H. 36, thence via S. H. 36 to its intersection with S. H. 5, thence via S. H. 5 to Frederick, Okla., and return over the same route; between Oklahoma City, Okla., and Hobart, Okla., serving the intermediate points of Fort Cobb, Carnegie, Mountain View, and Gotebo, Okla., and the off-route point of Cooperton, Okla.; from Oklahoma City, Okla., via U.S. 62 and H. E. Bailey Turnpike to Chickasha, Okla., thence via S. H. 9 and S. H. 9–A to Hobart, Okla., and return over the same route.

*HEARING.*—October 22, 1973, at 300 Jim Thorpe Office Building, Oklahoma City, Okla., at 9 a.m. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Oklahoma Corporation Commission, 300 Jim Thorpe Office Building, Oklahoma City, Okla. 73105, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*

Title 20—Employees' Benefits

## CHAPTER VI—EMPLOYMENT STANDARDS ADMINISTRATION, DEPARTMENT OF LABOR

### SUBCHAPTER A—LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

On January 26, 1973, at 38 FR 2650 et seq., the Secretary of Labor promulgated as Subchapter A of 20 CFR Ch. VI his regulations governing the administration of the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 901 et seq., as amended by Public Law 92-576, 86 Stat. 1261. For the reasons set forth at 38 FR 2650, the regulations were published in final form, the provisions of 5 U.S.C. 553 for notice, public procedure and delayed effective date being found inapplicable.

Notwithstanding such publication in final form, comments, arguments, and suggestions were invited. In response thereto, many comments and suggestions were received. After careful consideration, it was determined that a number of changes were desirable. Subchapter A of Chapter VI of Title 20, Code of Federal Regulations, is accordingly revised as set forth below.

The most significant change is in §§ 702.301 through 702.319, governing adjudication of claims by the deputy commissioners. As changed, the procedure is much more informal, and is in keeping with the manner in which such problems have actually been handled over the years. Several other sections were changed to conform technically to that change. Another change of significance is that with respect to appeals, § 702.391 et seq. Since the initial publication of these regulations, new regulations of the Benefits Review Board were published in Part 802 of this title. Section 702.391 et seq., are changed to conform thereto. Otherwise, typographical errors were corrected, definitions of certain terms were added, and minor editorial changes were made.

These amendments shall be effective September 26, 1973.

As revised, Subchapter A of Chapter VI, 20 CFR, reads as follows:

## PART 701—GENERAL; ADMINISTERING AGENCY; DEFINITIONS AND USE OF TERMS

RULES IN THIS SUBCHAPTER

Sec
701.101 Scope of this subchapter and Subchapter B.
701.102 Organization of this subchapter.

OFFICE OF WORKMEN'S COMPENSATION PROGRAMS

701.201 Establishment of Office of Workmen's Compensation Programs.
701.202 Transfer of functions.
701.203 Historical background.

TERMS USED IN THIS SUBCHAPTER

701.301 Definitions and use of terms.

AUTHORITY: 5 U.S.C. 301; Reorganization plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 939; 36 D.C. Code 501; 42 U.S.C. 1651; 43 U.S.C. 1331; 5 U.S.C. 8171; Secretary's Order No. 13-71, 36 FR 8755.

RULES IN THIS SUBCHAPTER

### § 701.101 Scope of this subchapter and Subchapter B.

This subchapter contains the regulations governing the administration of the Longshoremen's and Harbor Workers' Compensation Act (LHWCA) and its direct extensions, the Defense Base Act (DBA), the District of Columbia Workmen's Compensation Act (DCCA), the Outer Continental Shelf Lands Act (OCSLA), and the Nonappropriated Fund Instrumentalities Act (NFIA), and such other amendments and extensions as may hereinafter be enacted. The regulations governing administration of the Black Lung Benefits Program are in Subchapter B of this chapter.

### § 701.102 Organization of this subchapter.

This Part 701 is intended to provide a general description of the regulations in this subchapter, information as to the persons and agencies within the Department of Labor authorized by the Secretary of Labor to administer the Longshoremen's and Harbor Workers' Compensation Act and its extensions and the regulations in this subchapter, and guidance as to the meaning and use of specific terms in the several parts of this subchapter. Part 702 of this subchapter contains the general administrative regulations governing claims filed under the LHWCA, and Part 703 of this subchapter contains the regulations governing authorization of insurance carriers, authorization of self-insurers, and issuance of certificates of compliance with said insurance regulations, as required by sections 32 and 37 of the LHWCA, 33 U.S.C. 932, 937. Inasmuch as the extensions of the LHWCA (see § 701.101) incorporate by reference nearly all of the provisions of the LHWCA, such that the regulations governing the latter apply to the extensions with very few exceptions, it has been determined that no useful purpose would be served by repeating the same provisions for each of the extensions. Accordingly, the regulations in Parts 702 and 703 shall apply to the administration of the extensions (DBA, DCCA, OCSLA, and NFIA), unless otherwise noted. The exceptions to the general applicability of Parts 702 and 703 are set forth in succeeding parts in this subchapter. Part 704 contains the exceptions for the DBA, the DCCA, the OCSLA, and the NFIA.

OFFICE OF WORKMEN'S COMPENSATION PROGRAMS

### § 701.201 Establishment of Office of Workmen's Compensation Programs.

The Assistant Secretary of Labor for Employment Standards, by authority vested in him by the Secretary of Labor in Secretary's Order No. 13-71, 36 FR 8755, has established in the Employment Standards Administration (ESA) an Office of Workmen's Compensation Programs (OWCP). The Assistant Secretary has further designated as the head thereof a Director who, under the general supervision of the Deputy Assistant Secretary for Employment Standards/Wage-Hour Administrator and the Deputy Administrator, shall administer the programs assigned to that office by the Assistant Secretary.

### § 701.202 Transfer of functions.

Pursuant to the authority vested in him by the Secretary of Labor, the Assistant Secretary for Employment Standards has transferred from the Bureau of Employees' Compensation to the Office of Workmen's Compensation Programs all functions of the Department of Labor with respect to the administration of benefits programs under the following statutes:

(a) The Longshoremen's and Harbor Workers' Compensation Act, as amended and extended, 33 U.S.C. 901 et seq.;

(b) Defense Base Act, 42 U.S.C. 1651 et sq.;

(c) District of Columbia Workmen's Compensation Act, 36 D.C. Code 501 et seq.;

(d) Outer Continental Shelf Lands Act, 43 U.S.C. 1331;

(e) Nonappropriated Fund Instrumentalities Act, 5 U.S.C. 8171 et seq.;

(f) Title IV of the Federal Coal Mine Health and Safety Act, 83 Stat. 742, as amended by the Black Lung Benefits Act of 1972, 86 Stat. 150.

### § 701.203 Historical background.

Administration of the Longshoremen's and Harbor Workers' Compensation Act (and the Federal Employees' Compensation Act, formerly known as the U.S. Employees' Compensation Act), was initially vested in an independent establishment known as the U.S. Employees' Compensation Commission. By Reorganization Plan No. 2 of 1946 (3 CFR 1943-1949 Comp., p. 1064; 60 Stat. 1095, effective July 16, 1946), the Commission was abolished and its functions were transferred to the Federal Security Agency to be performed by a newly created Bureau of Employees' Compensation within such Agency. By Reorganization Plan No. 19 of 1950 (15 FR 3178, 64 Stat. 1263) said Bureau was transferred to the Department of Labor, and the authority formerly vested in the Administrator, Federal Security Agency, was vested in the Secretary of Labor. By Reorganization Plan No. 6 of 1950 (15 FR 3174, 64 Stat. 1263), the Secretary of Labor was authorized to make from time to time such provisions as he shall deem appropriate, authorizing the performance of any of his functions by any other officer, agency or employee of the Department of Labor.

TERMS USED IN THIS SUBCHAPTER

### § 701.301 Definitions and use of terms.

(a) As used in this subchapter, except where the context clearly indicates otherwise:

(1) "Act" means the Longshoremen's and Harbor Workers' Compensation Act, as amended (33 U.S.C. 901 et seq.), also referred to in this subchapter as LHWCA,

and includes the provisions of any statutory extension of such Act (see § 701.101) pursuant to which compensation on account of an injury is sought.

(2) "Secretary" means the Secretary of Labor, United States Department of Labor, or his authorized representative.

(3) "Employment Standards Administration" means the Employment Standards Administration in the United States Department of Labor, headed by the Assistant Secretary of Labor for Employment Standards.

(4) "Administrator" means the Deputy Assistant Secretary for Employment Standards in the Employment Standards Administration who also is Administrator of the Wage and Hour Division, and includes the Deputy Administrator for Wage and Compensation Programs.

(5) "Office of Workmen's Compensation Programs", or "OWCP", or "the Office", means the Office of Workmen's Compensation Programs in the Department of Labor, described in § 701.201 of this part.

(6) "Director" means the Director, OWCP, or his authorized representative.

(7) "Deputy Commissioner" means a person appointed as provided in sections 39 and 40 of the LHWCA or his designee, authorized by the Director to perform functions with respect to the processing and determination of claims for compensation under such Act and its extensions as provided therein and in this subchapter.

(8) "Administrative Law Judge" means an administrative law judge appointed as provided in 5 U.S.C. 3105 and Subpart B of 5 CFR Part 930 (see 37 FR 16737), who is qualified to preside at hearings under 5 U.S.C. 557 and is empowered by the Secretary to conduct formal hearings whenever necessary in respect of any claim for compensation arising under the LHWCA and its extensions.

(9) "Chief Administrative Law Judge" means the Chief Judge of the Office of Administrative Law Judges, United States Department of Labor.

(10) "Board" or "Benefits Review Board" means the Benefits Review Board established by section 21 of the LHWCA (33 U.S.C. 921) as amended and constituted and functioning pursuant to the provisions of Chapter VII of this Title 20 and Secretary of Labor's Order No. 38-72 (38 FR 90).

(11) "Department" means the United States Department of Labor.

(12) "Employee" includes any employee to whom an injury, as defined in section 2(3) of the LHWCA, may be the basis for a compensation claim under the LHWCA as amended, or any of its extensions.

(13) "Employer" includes any employer who may be obligated as an employer under the provisions of the LHWCA as amended or any of its extensions to pay and secure compensation as provided therein.

(14) "Carrier" means an insurance carrier or self-insurer meeting the requirements of section 32 of the LHWCA as amended and of this subchapter with respect to authorization to provide insurance fulfilling the obligation of an employer to secure the payment of compensation due his employees under the LHWCA as amended or a statutory extension thereof.

(15) The terms "wages", "national average weekly wage", "injury", "disability", "death", and "compensation" shall have the meanings set forth in section 2 of the LHWCA.

(16) "Claimant" includes any person claiming compensation or benefits under the provisions of the LHWCA as amended or a statutory extension thereof on account of the injury or death of an employee.

(b) The definitions contained in paragraph (a) of this section shall not be considered to derogate from any definitions or delimitations of terms in the LHWCA as amended or any of its statutory extensions in any case where such statutory definitions or delimitations would be applicable.

(c) As used in this subchapter, the singular includes plural and the masculine includes the feminine.

## PART 702—ADMINISTRATION AND PROCEDURES

### Subpart A—General Provisions

ADMINISTRATION

Sec.
702.101 Establishment of compensation districts.
702.102 Establishment of suboffices and jurisdictional areas.
702.103 Effect of establishment of suboffices and jurisdictional areas.
702.104 Transfer of individual cases.

RECORDS

702.111 Employer's records.
702.112 Records of the OWCP.
702.113 Inspection of records of the OWCP.
702.114 Copying of records of OWCP.

FORMS

702.121 Forms.

REPRESENTATION

702.131 Representation of parties in interest.
702.132 Fee for services.
702.133 Unapproved fees; solicitation of claimants; penalties.
702.134 Payment of claimant's attorney's fees in disputed claims.
702.135 Payment of claimant's witness fees and mileage in disputed claims.

INFORMATION AND ASSISTANCE FOR CLAIMANTS

702.136 Requests for information and assistance.

COMMUTATION OF PAYMENTS AND SPECIAL FUND

702.141 Commutation of payments; generally.
702.142 Commutation of payments; aliens not residents or about to become nonresidents.
702.143 Establishment of special fund.
702.144 Purpose of the special fund.
702.145 Use of the special fund.
702.146 Sources of the special fund.
702.147 Enforcement of special fund provisions.
702.148 Insurance carriers' and self-insured employers' responsibility.

LIENS ON COMPENSATION

702.161 Liens on compensation authorized under special circumstances.

### Subpart B—Claims Procedures

EMPLOYER'S REPORTS

Sec.
702.201 Reports from employers of employee's injury or death.
702.202 Employer's report; form and contents.
702.203 Employer's report; how given.
702.204 Employer's report; penalty for failure to furnish.
702.205 Employer's report; effect of failure to report upon time limitations.

NOTICE

702.206 Notice of employee's injury or death.
702.207 Notice; when given.
702.208 Notice; by whom given.
702.209 Notice; form and contents.
702.210 Notice; how given.
702.211 Effect of failure to give notice.

CLAIMS

702.212 Claims for compensation; time limitations.
702.213 Claims; time limitations; exceptions.
702.214 Claims; time limitations; time to object.
702.215 Claims; notification of employer of filing by employee.
702.216 Withdrawal of a claim.

NONCONTROVERTED CLAIMS

702.231 Noncontroverted claims; payment of compensation without an award.
702.232 Payments without an award; when; how paid.
702.233 Penalty for failure to pay without an award.
702.234 Report by employer of commencement and suspension of payments.
702.235 Report by employer of termination of payments.
702.236 Penalty for failure to report termination of payments.

AGREED SETTLEMENTS

702.241 Agreed settlements; monetary benefits.
702.242 Agreed settlements; medical benefits.

CONTROVERTED CLAIMS

702.251 Employer's controversion of the right to compensation.
702.252 Action by deputy commissioner upon receipt of notice of controversion.

CONTESTED CLAIMS

702.261 Claimant's contest of actions taken by employer or carrier with respect to the claim.
702.262 Action by deputy commissioner upon receipt of notice of contest.

### Subpart C—Adjudication Procedures

GENERAL

702.301 Scope of this subpart.

ACTION BY DEPUTY COMMISSIONERS

702.311 Handling of claims matters by deputy commissioners; informal conferences.
702.312 Informal conferences; called by and held before whom.
702.213 Informal conferences; how called; when called.
702.314 Informal conferences; how conducted; where held.
702.315 Conclusion of conference; agreement on all matters with respect to the claim.
702.316 Conclusion of conference; no agreement on all matters with respect to the claim.

V 38 186 SEP 26 73 XUM

Sec.
702.317 Preparation and transfer of the case for hearing.
702.318 The record; what constitutes; non-transferability of the administrative file.
702.319 Obtaining documents from the administrative file for reintroduction at formal hearings.

FORMAL HEARINGS

702.331 Formal hearings; procedure initiating.
702.332 Formal hearings; how conducted.
702.333 Formal hearings; parties.
702.334 Formal hearings; representative of parties.
702.335 Formal hearings; notice.
702.336 Formal hearings; new issues.
702.337 Formal hearings; change of time or place for hearings; postponements.
702.338 Formal hearings; general procedures.
702.339 Formal hearings; evidence.
702.340 Formal hearings; witnesses.
702.341 Formal hearings; depositions; interrogatories.
702.342 Formal hearings; witness fees.
702.343 Formal hearings; oral argument and written allegations.
702.344 Formal hearings; record of hearing.
702.345 Formal hearings; consolidated issues; consolidated cases.
702.346 Formal hearings; waiver of right to appear.
702.347 Formal hearings; termination.
702.348 Formal hearings; preparation of final decision and order; content.
702.349 Formal hearings; filing and mailing of compensation orders; disposition of transcripts.
702.350 Finality of compensation orders.
702.351 Withdrawal of controversion of issues set for formal hearing; effect.

INTERLOCUTORY MATTERS, SUPPLEMENTARY ORDERS, AND MODIFICATIONS

702.371 Interlocutory matters.
702.372 Supplementary compensation orders.
702.373 Modification of awards.

APPEALS

702.391 Appeals; where.
702.392 Appeals; what may be appealed.
702.393 Appeals; time limitations.
702.394 Appeals; procedure.

**Subpart D—Medical Care and Supervision**

702.401 Medical care defined.
702.402 Employer's duty to furnish; duration.
702.403 Employee's right to choose physician; limitation.
702.404 Physician defined.
702.405 Selection of physician; emergencies.
702.406 Change of physicians; non-emergencies.
702.407 Supervision of medical care.
702.408 Evaluation of medical questions; impartial specialists.
702.409 Evaluation of medical questions; results disputed.
702.410 Duties of employees with respect to special examinations.
702.411 Special examinations; nature of impartiality of specialists.
702.412 Special examinations; costs chargeable to employer or carrier.
702.413 Fees for medical services; prevailing community charges.
702.414 Fees for medical services; unresolved disputes on prevailing charges.
702.415 Fees for medical services; unresolved disputes on charges; procedure.
702.416 Fees for medical services; disputes; hearings; necessary parties.
702.417 Fees for medical services; disputes; effect of adverse decision.

MEDICAL PROCEDURES

702.418 Procedure for requesting medical care; employee's duty to notify employer.
702.419 Action by employer upon acquiring knowledge or being given notice of injury.
702.420 Issuance of authorization; binding effect upon insurance carrier.
702.421 Effect of failure to obtain initial authorization.
702.422 Effect of failure to report on medical care after initial authorization.

**Subpart E—Vocational Rehabilitation**

702.501 Vocational rehabilitation; objective.
702.502 Vocational rehabilitation; action by deputy commissioners.
702.503 Vocational rehabilitation; action by adviser.
702.504 Vocational rehabilitation; referrals to State Employment Agencies.
702.505 Vocational rehabilitation; referrals to other public and private agencies.
702.506 Vocational rehabilitation; training.
702.507 Vocational rehabilitation; maintenance allowance.
702.508 Vocational rehabilitation; confidentiality of information.

AUTHORITY: 5 U.S.C. 301; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 939; 42 U.S.C. 1651 et seq.; 36 D.C. Code 501 et seq.; 43 U.S.C. 1331; 5 U.S.C. 8171 et seq.; Secretary of Labor's Order No. 13-71, 36 FR 8755.

## Subpart A—General Provisions

ADMINISTRATION

### § 702.101 Establishment of compensation districts.

Pursuant to section 39(b) of the Longshoremen's and Harbor Workers' Compensation Act, the following compensation districts have been established:

District No. 1. Comprises the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut; with headquarters at Boston, Massachusetts.
District No. 2. Comprises the States of New York and New Jersey; with headquarters at New York, N.Y.
District No. 3. Comprises the States of Pennsylvania, Delaware, and West Virginia; with headquarters at Philadelphia, Pennsylvania.
District No. 4. Comprises the State of Maryland and the District of Columbia; with headquarters at Baltimore, Maryland.
District No. 5. Comprises the State of Virginia; with headquarters at Norfolk, Virginia.
District No. 6. Comprises the States of North Carolina, Kentucky, Tennessee, South Carolina, Georgia, Florida; Alabama, except that part of the State south of 31° north latitude; and Mississippi, except that part of the State south of 31° north latitude; with headquarters at Jacksonville, Florida.
District No. 7. Comprises the States of Arkansas, Louisiana, that part of the State of Alabama south of 31° north latitude, and that part of the State of Mississippi south of 31° north latitude; with headquarters at New Orleans, Louisiana.
District No. 8. Comprises the States of Texas, Oklahoma, and New Mexico; with headquarters at Galveston, Tex.
District No. 9. Comprises the States of Ohio, Indiana, and Michigan; with headquaters at Cleveland, Ohio.
District No. 10. Comprises the States of Illinois, Missouri, Kansas, Nebraska, Iowa, Minnesota, and Wisconsin; with headquarters at Chicago, Ill.
District No. 13. Comprises the States of California, Arizona, and Nevada; with headquarters at San Francisco, Calif.
District No. 14. Comprises the States of Washington, Oregon, Alaska, Idaho, Montana, Wyoming, Utah, Colorado, North Dakota, and South Dakota; with headquarters at Seattle, Wash.
District No. 15. Comprises the State of Hawaii; with headquarters at Honolulu, Hawaii.

### § 702.102 Establishment of suboffices and jurisdictional areas.

(a) As administrative exigencies from time to time may require, the Director may, by administrative order, establish special areas outside the continental United States, Alaska, and Hawaii, or change or modify any areas so established, notwithstanding their inclusion within an established compensation district. Such areas shall be designated "jurisdictional areas." The Director shall also designate which of his deputy commissioners shall be in charge thereof.

(b) To further aid in the efficient administration of the OWCP, the Director may from time to time establish suboffices within compensation districts or jurisdictional areas, and shall designate a person to be in charge thereof.

### § 702.103 Effect of establishment of suboffices and jurisdictional areas.

Whenever the Director establishes a suboffice or jurisdictional area, those reports, records, or other documents with respect to processing of claims that are required to be filed with the deputy commissioner of the compensation district in which the injury or death occurred, may instead be required to be filed at the suboffice, or office established for the jurisdictional area.

### § 702.104 Transfer of individual cases.

At any time after a claim is filed, the deputy commissioner having jurisdiction thereof may, with the prior or subsequent approval of the Director, transfer such case to the deputy commissioner in another compensation district for the purpose of taking such action as may be necessary or appropriate to further develop the claim. The deputy commissioner making the transfer may by letter to the deputy commissioner to whom the case is transferred give advice, comments, suggestions, or directions if appropriate to the particular case. The transfer of cases shall be by registered or certified mail.

RECORDS

### § 702.111 Employer's records.

Every employer shall maintain adequate records of injury sustained by employees while in his employ, and which shall also contain information of disease, other impairments or disabilities, or death relating to said injury. Such records shall be available for inspection by the OWCP or by any State authority.

### § 702.112 Records of the OWCP.

All reports, records, or other documents filed with the OWCP with respect to claims are the records of the OWCP. The Director shall be the official custodian of those records maintained by the OWCP at its national office, and the deputy commissioner shall be the official custodian of those records maintained at the headquarters office in each compensation district.

### § 702.113 Inspection of records of the OWCP.

Any party in interest may be permitted to examine the record of the case in which he is interested. The official custodian of the record sought to be inspected shall permit or deny inspection in accordance with the Department of Labor's regulations pertaining thereto (see 29 CFR Part 70). The original record in any such case shall not be removed from the office of the custodian for such inspection. The custodian may, in his discretion, deny inspection of any record or part thereof which is of a character specified in 5 U.S.C. 552(b) if in his opinion such inspection may result in damage, harm, or harassment to the beneficiary or to any other person. For special provisions concerning release of information regarding injured employees undergoing vocational rehabilitation, see § 702.508.

### § 702.114 Copying of records of OWCP.

Any party in interest may request copies of records he has been permitted to inspect. Such requests shall be addressed to the official custodian of the records sought to be copied. The official custodian shall provide the requested copies under the terms and conditions specified in the Department of Labor's regulations relating thereto (see 29 CFR Part 70).

FORMS

### § 702.121 Forms.

The Director may from time to time prescribe, and require the use of, forms for the reporting of any information required to be reported by the regulations in this subchapter, or by the Act or any of its extensions.

REPRESENTATION

### § 702.131 Representation of parties in interest.

Claimants, employers and insurance carriers may be represented in any proceeding under the Act by an attorney or other person previously authorized in writing by such claimant, employer or carrier to so act.

### § 702.132 Fees for services.

An attorney or other representative seeking a fee for services performed on behalf of a claimant with respect to claims filed under the Act shall make application thereof to the persons, administrative body, or court before whom the services were performed (see 33 U.S.C. 928(c)). The application shall be supported by a complete statement of the extent and character of the necessary work done. Any fee approved shall be reasonably commensurate with the actual necessary work performed, and shall take into account the capacity in which the representative has appeared, the amount of benefits involved and the financial circumstances of the claimant. No contract for a stipulated fee or for a fee on a contingent basis shall be recognized.

### § 702.133 Unapproved fees; solicitation of claimants; penalties.

Under the provisions of section 28(e) of the Act, 33 U.S.C. 928(e), any person who receives any fees, other consideration, or any gratuity on account of services rendered as a representative of a claimant, unless such consideration or gratuity is approved under § 702.132, or who makes it a business to solicit employment for an attorney, or for himself in respect of any claim under the Act, shall upon conviction thereof, for each offense be punished by a fine of not more than $1,000 or by imprisonment for not more than 1 year, or by both fine and imprisonment.

### § 702.134 Payment of claimant's attorney's fees in disputed claims.

(a) If the employer or carrier declines to pay any compensation on or before the 30th day after receiving written notice from the deputy commissioner of a claim for compensation having been filed, on the ground that there is no liability for compensation within the provisions of this Act, and the person seeking benefits shall thereafter have utilized the services of an attorney at law in the successful prosecution of his claim, there shall be awarded, in addition to the award of compensation, in a compensation order, a reasonable attorney's fee against the employer or carrier in an amount approved by the person, administrative body or court before whom the service was performed, which shall be paid directly by the employer or carrier to the attorney for the claimant in a lump sum after the compensation order becomes final (Act, section 28(a)).

(b) If the employer or carrier pays or tenders payment of compensation without an award pursuant to § 702.231 and section 14 (a) and (b) of this Act, and thereafter a controversy develops over the amount of additional compensation, if any, to which the employee may be entitled, the deputy commissioner, administrative law judge, or Board shall set the matter for an informal conference and following such conference the deputy commissioner, administrative law judge, or Board shall recommend in writing a disposition of the controversy. If the employer or carrier refuses to accept such written recommendation, within 14 days after its receipt by them, they shall pay or tender to the employee in writing the additional compensation, if any, to which they believe the employee is entitled. If the employee refuses to accept such payment or tender of compensation, and thereafter utilizes the services of an attorney at law, and if the compensation thereafter awarded is greater than the amount paid or tendered by the employer or carrier, a reasonable attorney's fee based solely upon the difference between the amount awarded and the amount tendered or paid shall be awarded in addition to the amount of compensation. The foregoing sentence shall not apply if the controversy relates to degree or length of disability, and if the employer or carrier offers to submit the case for evaluation by physicians employed or selected by the deputy commissioner, as authorized by section 7(e) of the Act and § 702.408, and offers to tender an amount of compensation based upon the degree or length of disability found by the independent medical report at such time as an evaluation of disability can be made. If the claimant is successful in review proceedings before the Board or court in any such case an award may be made in favor of the claimant and against the employer or carrier for a reasonable attorney's fee for claimant's counsel in accord with the above provisions. In all other cases any claim for legal services shall not be assessed against the employer or carrier (see Act, section 28(b)).

### § 702.135 Payment of claimant's witness fees and mileage in disputed claims.

In cases where an attorney's fee is awarded against an employer or carrier there may be further assessed against such employer or carrier as costs, fees and mileage for necessary witnesses attending the hearing at the instance of claimant. Both the necessity for the witness and the reasonableness of the fees of expert witnesses must be approved by the hearing officer, the Board, or the court, as the case may be. The amounts awarded against an employer or carrier as attorney's fees, costs, fees and mileage for witnesses shall not in any respect affect or diminish the compensation payable under this Act (see Act, section 28(d)).

INFORMATION AND ASSISTANCE FOR CLAIMANTS

### § 702.136 Requests for information and assistance.

(a) *General assistance.* The Director shall, upon request, provide persons covered by the Act with information and assistance relating to the Act's coverage and compensation and the procedures for obtaining such compensation including assistance in processing a claim.

(b) *Legal assistance to claimants.* The Secretary may, upon request, provide a claimant with legal assistance in processing a claim under the Act. Such assistance may be made available to a claimant in the discretion of the Solicitor of Labor or his designee at any time prior to or during which the claim is being processed and shall be furnished without charge to the claimant. Legal representation of the claimant in adjudicatory proceedings may be furnished in cases in which the Secretary's interest in the case is not adverse to that of the claimant.

V 38 I 186 SEP 26 73 XUM

(c) *Other assistance.* The deputy commissioners and their staff, as designees of the Director, shall promptly and fully comply with the request of a claimant receiving compensation for information about, and assistance in obtaining, medical, manpower, and vocational rehabilitation services (see also Subparts D and E of this part).

COMMUTATION OF PAYMENTS AND SPECIAL FUND

**§ 702.141 Commutation of payments; generally.**

(a) Pursuant to section 14(j) of the Act, 33 U.S.C. 914(j), the deputy commissioner may determine that, in the interest of justice, the liability of the employer for compensation, or any part thereof, may be discharged by the payment of a lump sum equal to the present value of future payments commuted, computed at 4 per centum true discount compounded annually.

(b) Applications for commutation of future benefits shall be made to the deputy commissioner, on a form prescribed by the Director, OWCP, for that purpose. Applications shall be supported with a statement of the reasons for such application, together with such pertinent data as may lend support thereto.

(c) Applications for commutation of payments in disability cases will be accepted only when a compensation order has been filed in which the quality of the disability is found to be permanent and the duration of such disability is fixed by said order. Applications for commutation of payments in death cases will be approved only when it is shown that the rights of all probable and potential beneficiaries have been determined and after a compensation order has been filed fixing the rights of the beneficiary making the application or on whose behalf such commutation is sought.

(d) Commutations of payments shall be considered by the deputy commissioner, but no final action shall be taken in any case without the prior approval of the Director, OWCP.

(e) The probability of the happening of any contingency of any nature whatsoever affecting the amount of duration of compensation to be commuted shall not be considered excepting:

(1) The probability of the death of the injured employee or other person entitled to compensation before the expiration of the period during which he is entitled to compensation shall be determined in accordance with the American Experience Table of Mortality; and

(2) The probability of the remarriage of the surviving wife shall be determined in accordance with the remarriage tables of the Dutch Royal Insurance Institution.

**§ 702.142 Commutation of payments; aliens not residents or about to become nonresidents.**

(a) Pursuant to section 9(g) of the Act, 33 U.S.C. 909(g), compensation paid to aliens not residents, or about to become nonresidents, of the United States or Canada shall be in the same amount as provided for residents except that dependents in any foreign country shall be limited to surviving wife and child or children, or if there be no surviving wife or child or children, to surviving father or mother whom the employee has supported, either wholly or in part, for the period of 1 year prior to the date of injury, and except that the Director, OWCP, may, at his option, or upon the application of the insurance carrier he shall, commute all future installments of compensation to be paid to such aliens by paying or causing to be paid to them one-half of the commuted amount of such future installments of compensation as determined by the Director.

(b) Applications for commutation under this section shall be made in writing to the deputy commissioner having jurisdiction, and forwarded by the deputy commissioner to the Director, for final action.

(c) Applications for commutations shall be made effective, if approved by the Director, on the date received by the deputy commissioner, or on a later date if shown to be appropriate on the application.

(d) Commutations shall not be made with respect to a person journeying abroad for a visit who has previously declared an intention to return and has stated a time for returning, nor shall any commutation be made except upon the basis of a compensation order fixing the right of the beneficiary to compensation.

**§ 702.143 Establishment of special fund.**

Congress, by section 44 of the Act, 33 U.S.C. 944, established in the U.S. Treasury a special fund, to be administered by the Secretary. The Treasurer of the United States is the custodian of such fund, and all monies and securities in such fund shall be held in trust by the Treasurer and shall not be money or property of the United States. The Treasurer shall make disbursements from such funds only upon the order of the Director, OWCP, as delegee of the Secretary. The Act requires that the Treasurer give bond, in an amount to be fixed and with securities to be approved by the Secretary of the Treasury and the Comptroller General of the United States, conditioned upon the faithful performance of his duty as custodian of such fund.

**§ 702.144 Purpose of the special fund.**

This special fund was established to give effect to a congressional policy determination that, under certain circumstances, the employer of a particular employee should not be required to bear the entire burden of paying for the compensation benefits due that employee under the Act. Instead, a substantial portion of such burden should be borne by the industry generally. Section 702.145 describes this special circumstance under which the particular employer is relieved of some of his burden. Section 702.146 describes the manner and circumstances of the input into the fund.

**§ 702.145 Use of the special fund.**

(a) *Under section 10 of the Act.* This section provides for initial and subsequent annual adjustments in compensation and continuing payments to beneficiaries in cases of permanent total disability or death which commenced or occurred prior to enactment of the 1972 Amendments to this Act (Public Law 92-576, approved Oct. 27, 1972). At the discretion of the Director, such payments may be paid directly by him to eligible beneficiaries as the obligation accrues, one-half from the special fund and one-half from appropriations, or he may require insurance carriers or self-insured employers already making payments to such beneficiaries to pay such additional compensation as the amended Act requires. In the latter case such carriers and self-insurers shall be reimbursed by the Director for such additional amounts paid, in the proportion of one-half the amount from the special fund and one-half the amount from appropriations. To obtain reimbursement, the carriers and self-insurers shall submit claims for payments made by them during previous periods at intervals of not less than 6 months. A form has been prescribed for such purpose and shall be used. No administrative claims service expense incurred by the carrier or self-insurer shall be included in the claim and no such expense shall be allowed. The amounts reimbursed to such carrier or self-insurer shall be limited to amounts actually due and previously paid to beneficiaries.

(b) *Under section 8(f) of the Act (Second Injuries).* In any case in which an employee having an existing permanent partial disability suffers injury, the employer shall provide compensation for such disability as is found to be attributable to that injury, based upon the average weekly wages of the employee at the time of injury. If, following an injury falling within the provisions of section 8(c)(1)-(20), the employee with the preexisting permanent partial disability becomes permanently and totally disabled after the second injury, but such total disability is found not to be due solely to his second injury, the employer (or carrier) shall be liable for compensation as provided by the provisions of section 8(c)(1)-(20) of the Act, 33 U.S.C. 908(c)(1)-(20), or for 104 weeks, whichever is greater. In all other cases of a second injury causing permanent total disability (or death), wherein it is found that such disability (or death) is not due solely to the second injury, and wherein the employee had a preexisting permanent partial disability, the employer (or carrier) shall first pay compensation under section 8 (b) or (e) of the Act, 33 U.S.C. 908 (b) or (e), if any is payable thereunder, and shall then pay 104 weeks compensation for such total disability or death, and none otherwise. If the second injury results in permanent partial disability, and if such disability is compensable under section 8(c)(1)-(20) of the Act, 33 U.S.C. 908(c)(1)-(20), but the disability so compensable did not result solely from such second injury, and the disability so compensable is materially and substantially greater than that which would have resulted from the second injury alone, then the employer (or carrier) shall only be liable for the amount of compensation provided for in section 8(c)(1)-(20) that is attributable to such second injury, or for 104 weeks, whichever is greater. In all other cases wherein the employee is permanently and partially disabled following a second injury, and wherein such disability is not attributable solely to that second injury, and wherein such disability is materially and substantially greater than that which would have resulted from the second injury alone, and wherein such disability following the second injury is not compensable under section 8(c)(1)-(20) of the Act, then the employer (or carrier) shall be liable for such compensation as may be appropriate under section 8 (b) or (e) of the Act, 33 U.S.C. 908 (b) or (e), if any, to be followed by a payment of compensation for 104 weeks, and none other. The term "compensation" herein means money benefits only, and does not include medical benefits. The procedure for determining the extent of the employer's (or carrier's) liability under this paragraph shall be as provided for in the adjudication of claims in Subpart C of this Part 702. Thereafter, upon cessation of payments which the employer is required to make under this paragraph, if any additional compensation is payable in the case, the deputy commissioner shall forward such case to the Director for consideration of an award to the person or persons entitled thereto out of the special fund. Any such award from the special fund shall be by order of the Director or Acting Director.

(c) *Under sections 8(g) and 39(c)(2) of the Act.* These sections, 33 U.S.C. 908(g) and 939(c)(2), respectively, provide for vocational rehabilitation of disabled employees, and authorize, under appropriate circumstances, a maintenance allowance for the employee (not to exceed $25 a week) in additional to other compensation benefits otherwise payable for his injury-related disability. Awards under these sections are made from the special fund upon order of the Director or his designee. The deputy commissioners may be required to make investigations with respect to any case and forward to the Director their recommendations as to the propriety and need for such maintenance.

(d) *Under section 39(c)(2) of the Act.* In addition to the maintenance allowance for the employee discussed in paragraph (c), the Director is further authorized to use the fund in such amounts as may be necessary to procure the vocational training services.

(e) *Under section 7(e) of the Act.* This provision, 33 U.S.C. 907(e), authorizes payment by the Director from the special fund for special medical examinations, i.e., those obtained from impartial specialists to resolve disputes, when such special examinations are deemed necessary under that statutory provision. The Director has the discretionary power, however, to charge the cost of such examination to the insurance carrier or self-insured employer.

(f) *Under section 18(b) of the Act.* This section, 33 U.S.C. 918(b), provides a source for payment of compensation benefits in cases where the employer is insolvent, or other circumstances preclude the payment of benefits due in any case. In such situations, the deputy commissioner shall forward the case to the Director for consideration of an award from the special fund, together with evidence with respect to the employer's insolvency or other reasons for nonpayment of benefits due. Benefits, as herein used, means medical care or supplies within the meaning of section 7 of the Act, 33 U.S.C. 907, and Subpart D of Part 702 of these regulations, as well as monetary benefits. Upon receipt of the case, the Director shall promptly determine whether an award from the special fund is appropriate and advisable in the case, having due regard for all other current commitments from the special fund. If such an award is made, the employer shall be liable for the repayment into the fund of the amounts paid therefrom, as provided in 33 U.S.C. 918(b).

**§ 702.146 Sources of the special fund.**

(a) All amounts collected as fines and penalties under the several provisions of the Act shall be paid into the special fund (Act, section 44(c)(3)). Civil penalties provided for in the Act shall be collected by civil suits brought by, and in the name of, the Secretary of Labor.

(b) Whenever an employee dies under circumstances creating a liability on an employer to pay death benefits to the employee's beneficiaries, and whenever there are no such beneficiaries entitled to such payments, the employer shall pay $5,000 into the special fund (Act, section 44(c)(1)). In such cases, the compensation order entered in the case shall specifically find that there is such liability and that there are no beneficiaries entitled to death benefits, and shall order payment by the employer into the fund. Compensation orders shall be made and filed in accordance with the regulations in Subpart C of this Part 702, except that for this purpose the deputy commissioner settling the case under § 702.315 shall formalize the memorandum of conference in a compensation order, and shall file such order as provided for in § 702.349.

(c) The Director annually shall assess an amount against insurance carriers and self-insured employers authorized under the Act and Part 703 of this subchapter to replenish the fund. The total amount to be charged all carriers and self-insurers to be assessed shall be based upon his estimate of the probable expenses of the fund during the calendar year. The assessment against each carrier and self-insurer shall be based upon the amount each paid during the prior calendar year, for compensation and medical benefits, in relation to the amount all such authorized carriers or self-insurers paid during that period for compensation and medical benefits. If no amount was paid during the prior year, no assessment shall be made. The resulting percentage each paid out for such benefits the prior year shall be the percentage each shall pay into the fund under the current assessment (see Act, section 44(c)(2).) The Director may, in his discretion, condition renewal of authorization under Part 703 of this subchapter upon prompt payment of the assessment. However, no action suspending or revoking such authorization shall be taken without affording such carrier or self-insurer a hearing before the Director or his designee.

**§ 702.147 Enforcement of special fund provisions.**

(a) As provided in section 44(d)(1) of the Act, 33 U.S.C. 944(d)(1), for the purpose of making rules, regulations, and determinations under the special fund provisions in section 44 and for providing enforcement thereof, the Director may investigate and gather appropriate data from each carrier and self-insured employer, and may enter and inspect such places and records (and make such transcriptions of records), question such employees, and investigate such facts, conditions, practices, or other matters as he may deem necessary or appropriate.

(b) Pursuant to section 44(d)(3) of the Act, 33 U.S.C. 944(d)(3), for the purpose of any hearing or investigation related to determinations or the enforcement of the provisions of section 44 with respect to the special fund, the provisions of 15 U.S.C. 49 and 50 as amended (the Federal Trade Commission Act provisions relating to attendance of witnesses and the production of books, papers, and documents) are made applicable to the jurisdiction, powers, and duties of the Director, OWCP, as the Secretary's delegatee.

**§ 702.148 Insurance carriers' and self-insured employers' responsibility.**

Each carrier and self-insured employer shall make, keep, and preserve such records, and make such reports and provide such additional information as the Director prescribes or orders, which he considers necessary or appropriate to effectively carry out his responsibilities.

LIENS ON COMPENSATION

**§ 702.161 Liens on compensation authorized under special circumstances.**

Pursuant to section 17(b) of the Act, 33 U.S.C. 917(b), where a trust fund which complies with section 302(c) of the Labor-Management Relations Act of 1947 (29 U.S.C. 186(c)) established pursuant to a collective bargaining agreement in effect between an employer and an employee entitled to compensation under this Act has paid disability benefits to an employee which the employee is legally obligated to repay by reasons of his entitlement to compensation under this Act, the Director or his designee may authorize a lien on such compensation in favor of the trust fund for the amount of such payments.

V 38 I 186 SEP 26 73 XUM

## Subpart B—Claims Procedures

### Employer's Reports

**§ 702.201 Reports from employers of employee's injury or death.**

Within 10 days from the date of an employee's injury or death, or 10 days from the date an employer has knowledge of an employee's injury or death, including any disease or death proximately caused by the employment, the employer shall furnish a report thereof to the deputy commissioner for the compensation district in which the injury or death occurred, and shall thereafter furnish such additional or supplemental reports as the deputy commissioner may request.

**§ 702.202 Employer's report: form and contents.**

The employer's report of an employee's injury or death shall be in writing and on a form prescribed by the Director for this purpose, and shall contain:

(a) The name, address, and business of the employer;

(b) The name, address, and occupation of the employee;

(c) The cause, nature, and other relevant circumstances of the injury or death;

(d) The year, month, day, and hour when, and the particular locality where, the injury or death occurred;

(e) Such other information as the Director may require.

**§ 702.203 Employer's report; how given.**

The employer's report, an original and one copy, may be furnished by delivering it to the appropriate office of the deputy commissioner, or by mailing it to said office.

**§ 702.204 Employer's report; penalty for failure to furnish.**

Any employer who fails or refuses to furnish any report required by § 702.201 shall be subject to a civil penalty not to exceed $500 for each such failure or refusal, 33 U.S.C. 930(e).

**§ 702.205 Employer's report; effect of failure to report upon time limitations.**

Where the employer, or agent in charge of the business, or carrier has been given notice or has knowledge of an employee's injury or death, and fails, neglects, or refuses to file a report thereof as required by § 702.201, the time limitations provisions with respect to the filing of claims for compensation for disability or death (33 U.S.C. 913(a), and see § 702.212) shall not begin to run until such report shall have been furnished as required herein.

### Notice

**§ 702.206 Notice of employee's injury or death.**

Every person claiming compensation under this Act shall first notify the deputy commissioner for the compensation district in which the injury or death occurred, and the injured or deceased employee's employer, of the fact of such injury or death. If the employer is a partnership, notice may be given to any partner, or if a corporation, to any authorized agent or officer thereof, or to the person in charge of the business at the place where the injury occurred.

**§ 702.207 Notice; when given.**

Notice shall be given within 30 days after the date of the injury or death, or within 30 days after the date the employee or beneficiary is aware, or in the exercise of reasonable diligence should have been aware, of a relationship between the injury or death and the employee's employment.

**§ 702.208 Notice; by whom given.**

Notice shall be given by the injured employee or someone on his behalf, or in the case of death, by the deceased employee's beneficiary or someone on his behalf.

**§ 702.209 Notice; form and contents.**

Notice shall be in writing on a form prescribed by the Director for this purpose; such form shall be made available to the employee or beneficiary by the employer. The notice shall be signed by the person authorized to give notice, and shall contain the name and address of the employee and a statement of the time, place, nature and cause of the injury or death.

**§ 702.210 Notice; how given.**

Notice shall be given by delivering it to the deputy commissioner and the employer, or by sending it by mail.

**§ 702.211 Effect of failure to give notice.**

Failure to give timely notice shall not bar any claim for compensation if: (a) The employer or carrier had knowledge of the injury or death and the deputy commissioner determines that the employer or carrier was not prejudiced thereby; or (b) the deputy commissioner excuses such failure on the ground that for some satisfactory reason such notice could not be given. The employer or carrier may not raise as a defense to a claim the failure to file a timely notice unless such defense is raised at the first hearing held on the claim.

### Claims

**§ 702.212 Claims for compensation; time limitations.**

Claims for compensation for disability or death shall be in writing and shall be filed with the deputy commissioner in the compensation district in which the injury or death occurred. Such claims may be filed anytime after the first 7 days of disability following an injury, or at anytime after death. However, the right to such compensation shall be barred unless a claim therefor is filed within 1 year of such injury or death.

**§ 702.213 Claims; time limitations; exceptions.**

(a) Where the claim is founded on a causal relationship between the disease or death and the employment, the 1-year time limitation specified in § 702.212 shall not begin to run until the employee or beneficiary is aware, or in the exercise of reasonable diligence should have been aware, of such relationship.

(b) Where payments of compensation have been made without an award on account of such injury or death, a claim shall be timely if filed within 1 year after the date of the last payment.

(c) Where a person entitled to compensation under the Act is mentally incompetent or a minor, the time limitation provision of § 702.212 shall not apply to a mentally incompetent person so long as such person has no guardian or other authorized representative, but § 702.212 shall be applicable from the date of appointment of such guardian or other representative. In the case of a minor who has no guardian before he becomes of age, time begins to run from the date he becomes of age.

(d) Where a person brings a suit at law or in admiralty to recover damages in respect of an injury or death, and recovery is denied plaintiff because he was an employee and defendant was an employer within the meaning of the Act, and such employer had secured compensation to such employee under the Act, the 1-year time limitation in § 702.212 shall not begin to run until the date of termination of such suit.

**§ 702.214 Claims; time limitations; time to object.**

Notwithstanding the requirements of § 702.212, failure to file a claim within the period prescribed in such section shall not be a bar to such right unless objection to such failure is made at the first hearing of such claim in which all parties in interest are given reasonable notice and opportunity to be heard.

**§ 702.215 Claims; notification of employer of filing by employee.**

Within 10 days after the filing of a claim for compensation for injury or death under the Act, the deputy commissioner shall give written notice thereof to the employer or carrier, served personally or by certified mail.

**§ 702.216 Withdrawal of a claim.**

(a) *Before adjudication of claim.* A claimant (or an individual who is authorized to execute a claim on his behalf) may withdraw his previously filed claim provided that:

(1) He files with the deputy commissioner with whom the claim was filed a written request stating the reasons for withdrawal;

(2) The claimant is alive at the time his request for withdrawal is filed;

(3) The deputy commissioner approves the request for withdrawal as being for a proper purpose and in the claimant's best interest; and

(4) The request for withdrawal is filed on or before the date the OWCP makes a determination on the claim.

(b) *After adjudication of claim.* A claim for benefits may be withdrawn by a written request filed after the date the OWCP makes a determination on the claim, provided that:

(1) The conditions enumerated in paragraph (a) (1) through (3) of this section are met; and

(2) There is repayment of the amount of benefits previously paid because of the claim that is being withdrawn or it can be established to the satisfaction of the Office that repayment of any such amount is assured.

(c) *Effect of withdrawal of claim.* Where a request for withdrawal of a claim is filed and such request for withdrawal is approved, such withdrawal shall be without prejudice to the filing of another claim, subject to the time limitation provisions of section 13 of the Act and of the regulations in this part.

### Noncontroverted Claims

**§ 702.231 Noncontroverted claims; payment of compensation without an award.**

Unless the employer controverts his liability to pay compensation under the Act, he shall pay periodically, promptly, and directly to the person entitled thereto the benefits prescribed by the Act.

**§ 702.232 Payments without an award; when; how paid.**

The first installment of compensation shall become due on the 14th day after the employer has knowledge of the injury or death, on which date all compensation then due shall be paid. Compensation shall thereafter be paid in semimonthly installments, unless the deputy commissioner determines otherwise.

**§ 702.233 Penalty for failure to pay without an award.**

If any installment of compensation payable without an award is not paid within 14 days after it becomes due, there shall be added to such unpaid installment an amount equal to 10 per centum thereof which shall be paid at the same time as, but in addition to, such installment unless the employer files notice of controversion in accordance with § 702.261, or unless such nonpayment is excused by the deputy commissioner after a showing by the employer that owing to conditions over which he had no control such installment could not be paid within the period prescribed for the payment.

**§ 702.234 Report by employer of commencement and suspension of payments.**

Immediately upon making the first payment of compensation, and upon the suspension of payments once begun, the employer shall notify the deputy commissioner having jurisdiction over the place where the injury or death occurred of the commencement or suspension of payments, as the case may be.

**§ 702.235 Report by employer of termination of payments.**

Within 16 days after the final payment of compensation has been made, the employer shall notify the deputy commissioner in writing thereof, stating that such final payment has been made, the total amount of compensation paid, the name and address of the person to whom payments were made, the date of the injury or death and the name of the injured or deceased employee, and the dates during which compensation was paid.

**§ 702.236 Penalty for failure to report termination of payments.**

Any employer failing to notify the deputy commissioner of termination of payments in accordance with § 702.235 shall be assessed a civil penalty in the amount of $100.

### Agreed Settlements

**§ 702.241 Agreed settlements; monetary benefits.**

(a) Whenever the deputy commissioner determines that it is for the best interests of an injured employee entitled to compensation he may approve agreed settlements of the interested parties discharging the liability of the employer for such compensation notwithstanding the provisions of section 15(b) and section 16 of the Act, 33 U.S.C. 915(b) and 916. If the employee should die from causes other than the injury after the deputy commissioner has approved an agreed settlement, the sum so approved shall be payable in the manner herein prescribed, to and for the benefit of the persons enumerated in section 8(d) of the Act, 33 U.S.C. 908(d).

(b) Application for approval of an agreed settlement under section 8(i) of the Act, 33 U.S.C. 908(i), shall be made in writing to the deputy commissioner by the parties in interest. The application shall set forth fully all facts necessary to disclose the status of the case and the reason for seeking approval of an agreed settlement under said section of the Act as well as the specific terms of such agreed settlement, and shall be accompanied by a medical report of examination of the employee, if a recent report is not of record in the office of the deputy commissioner.

(c) If the deputy commissioner determines that the injured employee is entitled to compensation and that the proposed agreed settlement according to such application is for the best interests of such employee, he shall file a compensation order making necessary findings of fact relative to the character and quality of disability and the effect of same with respect to the employee's wage-earning capacity prior to approving such settlement and discharging the employer's liability for compensation payments. If such course is not practical the deputy commissioner shall determine the probable character and quality of disability according to the most recent evidence received. With such determination the deputy commissioner shall consider such other information as he may have upon the advisability of approving the agreed settlement and thereupon make his decision.

(d) This section is not intended to furnish generally a basis for the settlement of claims or as a mere convenience in disposing of cases.

**§ 702.242 Agreed settlements; medical benefits.**

(a) Whenever the Director or his designee determines that it is for the best interests of an injured employee entitled to medical benefits he may approve agreed settlements of the interested parties discharging the liability of the employer for such medical benefits, notwithstanding the provisions of section 16 of the Act, 33 U.S.C. 916. If the employee should die from causes other than the injury after an agreed settlement has been approved, the sum so approved shall be payable in the manner herein prescribed to, and for the benefit of, the persons enumerated in section 8(d) of the Act, 33 U.S.C. 908(d).

(b) Applications for approval of an agreed settlement with respect to medical benefits shall be made in writing and shall be submitted to the deputy commissioner by the parties in interest. The application shall set forth fully all facts necessary to disclose the status of the case and the reason for seeking approval of an agreed settlement, as well as the specific terms of the agreed settlement. Such application shall be accompanied by a report of a recent medical examination pertaining to the employee's condition and to his future need for medical attention relating to the injury. Applications, including all supporting papers, shall be submitted in duplicate.

(c) Upon receipt of such application, the deputy commissioner, after appropriate consultation with the interested parties, shall forward such application, together with his comments and recommendations, as to the character and quality of disability and such other information as may be pertinent to the appropriateness of approving the agreed settlement, to the Director, OWCP, for such action as the Director considers appropriate including the entry of a compensation order if it is deemed to be in the best interest of the injured employee.

### Controverted Claims

**§ 702.251 Employer's controversion of the right to compensation.**

Where the employer controverts the right to compensation after notice or knowledge of the injury or death, or after receipt of a written claim, he shall give notice thereof, stating the reasons for controverting the right to compensation, using the form prescribed by the Director. Such notice, or answer to the claim, shall be filed with the deputy commissioner within 14 days from the date the employer receives notice or has knowledge of the injury or death. The original notice shall be sent to the deputy commissioner having jurisdiction, and a copy thereof shall be given or mailed to the claimant.

**§ 702.252 Action by deputy commissioner upon receipt of notice of controversion.**

Upon receiving the employer's notice of controversion, the deputy commissioner shall forthwith commence proceedings for the adjudication of the

V 38-186 SEP 26 73 XUM

claim in accordance with the procedures set forth in Subpart C of this part.

CONTESTED CLAIMS

**§ 702.261 Claimant's contest of actions taken by employer or carrier with respect to the claim.**

Where the claimant contests an action by the employer or carrier reducing, suspending, or terminating benefits, including medical care, he should immediately notify the office of the deputy commissioner having jurisdiction, in person or in writing, and set forth the facts pertinent to his complaint.

**§ 702.262 Action by deputy commissioner upon receipt of notice of contest.**

Upon receipt of the claimant's notice of contest, the deputy commissioner shall forthwith commence proceedings for adjudication of the claim in accordance with the procedures set forth in Subpart C of this part.

## Subpart C—Adjudication Procedures

GENERAL

**§ 702.301 Scope of this subpart.**

The regulations in this subpart govern the adjudication of claims in which the employer has filed a notice of controversion under § 702.251, or the employee has filed notice of contest under § 702.261. In the vast majority of cases, the problem giving rise to the controversy results from misunderstandings, clerical or mechanical errors, or mistakes of fact or law. Such problems seldom require resolution through formal hearings, with the attendant production of expert witnesses. Accordingly, by § 702.311 et seq., the deputy commissioners are empowered to amicably and promptly resolve such problems by informal procedures. Where there is a genuine dispute of fact or law which cannot be so disposed of informally, resort must be had to the formal hearing procedures as set forth beginning at § 702.331. Supplementary compensation orders, modifications, and interlocutory matters are governed by regulations beginning with § 702.371. Thereafter, appeals from compensation orders are discussed beginning with § 702.391 (the regulations of the Benefits Review Board are set forth in full in Part 802 of this title).

ACTION BY DEPUTY COMMISSIONERS

**§ 702.311 Handling of claims matters by deputy commissioners; informal conferences.**

The deputy commissioner is empowered to resolve disputes with respect to claims in a manner designed to protect the rights of the parties and also to resolve such disputes at the earliest practicable date. This will generally be accomplished by informal discussions by telephone or by conferences at the deputy commissioner's office. Some cases will be handled by written correspondence. The regulations governing informal conferences at the deputy commissioner's office with all parties present are set forth below. When handling claims by telephone, or at the office with only one of the parties, the deputy commissioner and his staff shall make certain that a full written record be made of the matters discussed and that such record be placed in the administrative file. When claims are handled by correspondence, copies of all communications shall constitute the administrative file.

**§ 702.312 Informal conferences; called by and held before whom.**

Informal conferences shall be called by the deputy commissioner or his designee assigned or reassigned the case and held before that same person, unless such person is absent or unavailable. When so assigned, the designee shall perform the duties set forth below assigned to the deputy commissioner.

**§ 702.313 Informal conferences; how called; when called.**

Informal conferences may be called upon not less than 10 days' notice to the parties, unless the parties agree to meet at an earlier date. The notice may be given by telephone, but shall be confirmed by use of a written notice on a form prescribed by the Director. The notice shall indicate the date, time and place of the conference, and shall also specify the matters to be discussed. For good cause shown conferences may be rescheduled. A copy of such notice shall be placed in the administrative file.

**§ 702.314 Informal conferences; how conducted; where held.**

(a) No stenographic report shall be taken at informal conferences and no witnesses shall be called. The deputy commissioner shall guide the discussion toward the achievement of the purpose of such conference, recommending courses of action where there are disputed issues, and giving the parties the benefit of his experience and specialized knowledge in the field of workmen's compensation.

(b) Conferences generally shall be held at the deputy commissioner's office. However, such conferences may be held at any place which, in the opinion of the deputy commissioner, will be of greater convenience to the parties or to their representatives.

**§ 702.315 Conclusion of conference; agreement on all matters with respect to the claim.**

(a) Following an informal conference at which agreement is reached on all issues, the deputy commissioner shall embody the agreement in a formal compensation order, to be filed and mailed in accordance with § 702.349. Where the problem was of such nature that it was resolved by discussion by telephone or by exchange of written correspondence, the parties shall be notified by the same means that agreement was reached and then the deputy commissioner shall proceed to prepare, file and mail the formal compensation order. In either instance, when the employer or carrier has agreed to pay, reinstate or increase monetary compensation benefits, or to restore or appropriately change medical care benefits, such action shall be commenced immediately upon becoming aware of the agreement, and without regard to the receipt of the formal compensation order.

(b) Where there are several conferences or discussions, the provisions of paragraph (a) of this section do not apply until the last conference. The deputy commissioner shall, however, prepare and place in his administrative file a short, succinct memorandum of each preceding conference or discussion.

**§ 702.316 Conclusion of conference; no agreement on all matters with respect to the claim.**

When it becomes apparent during the course of the informal conference that agreement on all issues cannot be reached, the deputy commissioner shall bring the conference to a close and afterward prepare a memorandum of conference setting forth only the issue or issues in dispute, such pertinent background as may be appropriate thereto, and his recommendations for resolution of the dispute. Copies of this memorandum shall then be sent by certified mail to each of the parties or their representatives, who shall then have 14 days in which to signify in writing to the deputy commissioner whether they agree or disagree with his recommendations. If they agree, the deputy commissioner shall proceed as in § 702.315(a). If they disagree (Caution: See § 702.134(b)), then the deputy commissioner may schedule such further conference or conferences as, in his opinion, may bring about agreement or, if he is satisfied that any further conference would be unproductive or if any party has requested a hearing, he shall prepare the case for transfer to the Office of the Chief Administrative Law Judge (see § 702.331 et seq.).

**§ 702.317 Preparation and transfer of the case for hearing.**

The case is prepared for transfer by the preparation by the deputy commissioner of a separate memorandum in which he shall set forth those facts pertinent to the claim that are not in dispute, those issues upon which the parties agree, and then those facts, if any, in dispute as well as the issue or issues of law in dispute. The deputy commissioner shall briefly restate the position of the parties with respect to the matters in dispute, but he shall not in this transmittal indicate or suggest his opinions or recommendations previously offered with respect thereto. This memorandum shall then be forwarded to the Office of the Chief Administrative Law Judge.

**§ 702.318 The record; what constitutes; nontransferability of the administrative file.**

For the purpose of any further proceedings under the Act, the formal record of proceedings shall consist of the hearing record made before the administrative law judge (see § 702.344). When transferring the case for hearing pursuant to § 702.317, the deputy commissioner shall not transfer the administrative file under any circumstances.

**§ 702.319 Obtaining documents from the administrative file for reintroduction at formal hearings.**

Whenever any party considers any document in the administrative file essential to any further proceedings under the Act, it is the responsibility of such party to obtain such document from the deputy commissioner and reintroduce it for the record before the administrative law judge. The type of document that may be obtained shall be limited to documents previously submitted to the deputy commissioner, including documents or forms with respect to notices, claims, controversions, contests, progress reports, medical services or supplies, etc. The work products of the deputy commissioner or his staff shall not be subject to retrieval. The procedure for obtaining documents shall be for the requesting party to inform the deputy commissioner in writing of the documents he wishes to obtain, specifying them with particularity. Upon receipt, the deputy commissioner shall cause copies of the requested documents to be made and then: (1) Place the copies in the file together with the letter of request, and (2) promptly forward the originals to the requesting party. The handling of multiple requests for the same document shall be within the discretion of the deputy commissioner and with the cooperation of the requesting parties.

FORMAL HEARINGS

**§ 702.331 Formal hearings; procedure initiating.**

Formal hearings are initiated by transmitting to the Office of the Chief Administrative Law Judge the memorandum from the deputy commissioner as provided for in § 702.317.

**§ 702.332 Formal hearings; how conducted.**

Formal hearings shall be conducted by the administrative law judge assigned the case by the Office of the Chief Administrative Law Judge in accordance with the provisions of the Administrative Procedure Act, 5 U.S.C. 554 et seq. All hearings shall be transcribed.

**§ 702.333 Formal hearings; parties.**

(a) The necessary parties for a formal hearing are the claimant and the employer or insurance carrier, and the administrative law judge assigned the case.

(b) The Solicitor of Labor or his designee may appear and participate in any formal hearing held pursuant to these regulations on behalf of the Director as an interested party.

**§ 702.334 Formal hearings; representatives of parties.**

The claimant and the employer or carrier may be represented by persons of their choice.

**§ 702.335 Formal hearings; notice.**

The Office of the Chief Administrative Law Judge shall notify, on a form prescribed for this purpose, the parties (see § 702.333) of the scheduling of a formal hearing not less than 10 days in advance thereof. The notice shall specify the time and place at which the hearing is to be conducted. Attached thereto shall be a copy of the deputy commissioner's memorandum listing the issues to be resolved.

**§ 702.336 Formal hearings; new issues.**

(a) If, during the course of the formal hearing, the evidence presented warrants consideration of an issue not previously considered, the hearing shall be expanded to include such new issue. The parties shall, however, be given a reasonable time in which to prepare for such new issue.

(b) At any time prior to the filing of the compensation order in the case, the administrative law judge may in his discretion, upon the application of a party or upon his own motion, give notice that he will consider any new issue. The parties shall be given not less than 10 days' notice of the hearing on such new issue. The parties may stipulate that the issue may be heard at an earlier time and shall proceed to a hearing on the new issue in the same manner as on an issue initially considered.

**§ 702.337 Formal hearings; change of time or place for hearings; postponements.**

The Chief Administrative Law Judge or the administrative law judge assigned the case may change the time and place for the hearings, or postpone or temporarily adjourn a hearing, on his own motion or for good cause shown by a party. The parties shall be given not less than 10 days' notice of the new time and place of the hearing, unless the parties agree to such change without such notice. The Chief Administrative Law Judge may also reassign a case to another administrative law judge by reason of changes of time and place for the hearing, or by reason of postponements, or for other good cause.

**§ 702.338 Formal hearings; general procedures.**

All hearings shall be attended by the parties or their representatives and such other persons as the administrative law judge deems necessary and proper. The administrative law judge shall inquire fully into the matters at issue and shall receive in evidence the testimony of witnesses and any documents which are relevant and material to such matters. If the administrative law judge believes that there is relevant and material evidence available which has not been presented at the hearing, he may adjourn the hearing or, at any time, prior to the filing of the compensation order, reopen the hearing for the receipt of such evidence. The order in which evidence and allegations shall be presented and the procedures at the hearing generally, except as these regulations otherwise expressly provide, shall be in the discretion of the administrative law judge and of such nature as to afford the parties a reasonable opportunity for a fair hearing.

**§ 702.339 Formal hearings; evidence.**

In making an investigation or inquiry, or conducting a hearing, the administrative law judge shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, except as provided by 5 U.S.C. 554 and these regulations; but may make such investigation or inquiry or conduct such hearing in such a manner as to best ascertain the rights of the parties.

**§ 702.340 Formal hearings; witnesses.**

(a) Witnesses at the hearing shall testify under oath or affirmation. The administrative law judge may examine the witnesses and shall allow the parties or their representatives to do so.

(b) No person shall be required to attend as a witness in any proceeding before an administrative law judge at a place more than 100 miles from his place of residence, unless his lawful mileage and fees for one day's attendance shall be paid or tendered to him in advance of the hearing date.

**§ 702.341 Formal hearings; depositions; interrogatories.**

The testimony of any witness may be taken by deposition or interrogatory according to the rules of practice of the Federal District Court for the judicial district in which the case is pending.

**§ 702.342 Formal hearings; witness fees.**

Witnesses summoned in a formal hearing before an administrative law judge or whose depositions are taken shall receive the same fees and mileage as witnesses in courts of the United States (33 U.S.C. 925).

**§ 702.343 Formal hearings; oral argument and written allegations.**

The parties, upon their request, shall be allowed a reasonable time for the presentation of oral argument or for the filing of briefs or other written statements of allegations as to facts or law. Copies of any brief or other written statement shall be filed with the administrative law judge and served on all parties in interest by the party submitting the statement.

**§ 702.344 Formal hearings; record of hearing.**

All formal hearings shall be open to the public and shall be stenographically reported. All evidence upon which the administrative law judge relies for his final decision shall be contained in the transcript of testimony either directly or by appropriate reference. All medical reports, exhibits, and any other pertinent document or record, in whole or in material part, shall be incorporated into the record either by reference or as an appendix.

**§ 702.345 Formal hearings; consolidated issues; consolidated cases.**

(a) When one or more additional issues are raised by the administrative law judge pursuant to § 702.336, such issues may, in the discretion of the administrative law judge, be consolidated for hear-

V 38 186 SEP 26 73 XUM

ing and decision with other issues pending before him.

(b) When two or more cases are transferred for formal hearings and have common questions of law or which arose out of a common accident, the Chief Administrative Law Judge may consolidate such cases for hearing.

**§ 702.346 Formal hearings; waiver of right to appear.**

If all parties waive their right to appear before the administrative law judge or to present evidence or argument personally or by representative, it shall not be necessary for the administrative law judge to give notice of and conduct an oral hearing. A waiver of the right to appear and present evidence and allegations as to facts and law shall be made in writing and filed with the Chief Administrative Law Judge or the administrative law judge. Where such a waiver has been filed by all parties, and they do not appear before the administrative law judge personally or by representative, the administrative law judge shall make a record of the relevant written evidence submitted by the parties, together with any pleadings they may submit with respect to the issues in the case. Such documents shall be considered as all of the evidence in the case and the decision shall be based on them.

**§ 702.347 Formal hearings; termination.**

Formal hearings are officially terminated when all the evidence has been received, witnesses heard, pleadings and briefs submitted to the administrative law judge, and the transcript of the proceedings has been printed and delivered to the administrative law judge.

**§ 702.348 Formal hearings; preparation of final decision and order; content.**

Within 20 days after the official termination of the hearing as defined by § 702.347, the administrative law judge shall have prepared a final decision and order, in the form of a compensation order, with respect to the claim, making an award to the claimant or rejecting the claim. The compensation order shall contain appropriate findings of facts and conclusions of law with respect thereto, and shall be concluded with one or more paragraphs containing the order of the administrative law judge, his signature, and the date of issuance.

**§ 702.349 Formal hearings; filing and mailing of compensation orders; disposition of transcripts.**

The administrative law judge shall, within 20 days after the official termination of the hearing, deliver by mail, or otherwise, to the office of the deputy commissioner having original jurisdiction, the transcript of the hearing, other documents or pleadings filed with him with respect to the claim, together with his signed compensation order. Upon receipt thereof, the deputy commissioner, being the official custodian of all records with respect to such claims within his jurisdiction, shall formally date and file the transcript, pleadings, and compensation order (original) in his office. Such filing shall be accomplished by the close of business on the next succeeding working day, and the deputy commissioner shall, on the same day as the filing was accomplished, send by certified mail a copy of the compensation order to the parties and to representatives of the parties, if any. Appended to each such copy shall be a paragraph entitled "proof of service" containing the certification of the deputy commissioner that the copies were mailed on the date stated, to each of the parties and their representatives, as shown in such paragraph.

**§ 702.350 Finality of compensation order.**

Compensation orders shall become effective when filed in the office of the deputy commissioner, and unless proceedings for suspension or setting aside of such orders are instituted within 30 days of such filing, shall become final at the expiration of the 30th day after such filing, as provided in section 21 of the Act 33 U.S.C. 921. If any compensation payable under the terms of such order is not paid within 10 days after it becomes due, section 14(f) of the Act requires that there be added to such unpaid compensation an amount equal to 20 percent thereof which shall be paid at the same time as, but in addition to, such compensation unless review of the compensation order is had as provided in such section 21 and an order staying payment has been issued by the Benefits Review Board or the reviewing court.

**§ 702.351 Withdrawal of controversion of issues set for formal hearing; effect.**

Whenever a party withdraws his controversion of the issues set for a formal hearing, the administrative law judge shall halt the proceedings upon receipt from said party of a signed statement to that effect and forthwith notify the deputy commissioner who shall then proceed to dispose of the case as provided for in § 702.315.

INTERLOCUTORY MATTERS, SUPPLEMENTARY ORDERS, AND MODIFICATIONS

**§ 702.371 Interlocutory matters.**

Compensation orders shall not be made or filed with respect to interlocutory matters of a procedural nature arising during the pendency of a compensation case.

**§ 702.372 Supplementary compensation orders.**

(a) In any case in which the employer or insurance carrier is in default in the payment of compensation due under any award of compensation, for a period of 30 days after the compensation is due and payable, the person to whom such compensation is payable may, within 1 year after such default, apply in writing to the deputy commissioner for a supplementary compensation order declaring the amount of the default. Upon receipt of such application, the deputy commissioner shall institute proceedings with respect to such application as if such application were an original claim for compensation, and the matter shall be disposed of as provided for in § 702.315, or if agreement on the issue is not reached, then as in § 702.316 et seq.

(b) If, after disposition of the application as provided for in paragraph (a) of this section, a supplementary compensation order is entered declaring the amount of the default, which amount may be the whole of the award notwithstanding that only one or more installments is in default, a copy of such supplementary order shall be forthwith sent by certified mail to each of the parties and their representatives. Thereafter, the applicant may obtain and file with the clerk of the Federal district court for the judicial district where the injury occurred or the district in which the employed has his principal place of business or maintains an office, a certified copy of said order and may seek enforcement thereof as provided for by section 18 of the Act, 33 U.S.C. 918.

**§ 702.373 Modification of awards.**

(a) Upon his own initiative, or upon application of any party in interest, the deputy commissioner may review any compensation case in accordance with the procedure in Subpart C of this part, and after such review of the case under § 702.315, or review at formal hearings under the regulations governing formal hearings in Subpart C of this part, file a new compensation order terminating, continuing, reinstating, increasing or decreasing such compensation, or awarding compensation. Such new order shall not affect any compensation previously paid, except that an award increasing the compensation rate may be made retroactive from the date of injury, and if any part of the compensation due or to become due is unpaid, an award decreasing the compensation rate may be made effective from the date of the injury, and any payment made prior thereto in excess of such decreased rate shall be deducted from any unpaid compensation, in such manner and by such method as may be determined by the deputy commissioner or the administrative law judge.

(b) Review of a compensation case under this section may be made at any time prior to 1 year after the date of the last payment of compensation, whether or not a compensation order has been issued, or at any time prior to 1 year after the rejection of a claim.

(c) Review of a compensation case may be had only for the reason that there is a change in conditions or that there was a mistake in the determination of facts.

APPEALS

**§ 702.391 Appeals; where.**

Appeals may be taken to the Benefits Review Board, U.S. Department of Labor, Washington, D.C. 20210, by filing a notice of appeals with the office of the deputy commissioner for the compensation district in which the decision or order appealed from was filed and by submitting to the Board a petition for review of such decision or order, in accordance with the provisions of Part 802 of this Title 20.

**§ 702.392 Appeals; what may be appealed.**

An appeal raising a substantial question of law or fact may be taken from a decision with respect to a claim under the Act. Such appeals may be taken from compensation orders when they have been filed as provided for in § 702.349.

**§ 702.393 Appeals; time limitations.**

The notice of appeal (see § 702.391) shall be filed with the deputy commissioner within 30 days of the filing of the decision or order complained of, as defined and described in § 802.205 and § 802.206 of this title. A petition for review of the decision or order is required to be filed within 30 days after receipt of the Board's acknowledgment of the notice of appeal, as provided in 20 CFR 802.210.

**§ 702.394 Appeals; procedure.**

The procedure for appeals to the Benefits Review Board shall be as provided by the Board in its Rules of Practice and Procedure, set forth in Part 802 of this title.

**Subpart D—Medical Care and Supervision**

**§ 702.401 Medical care defined.**

Medical care shall include medical, surgical, and other attendance or treatment, nursing and hospital services, laboratory, X-ray and other technical services, medicines, crutches, or other apparatus and prosthetic devices, and any other medical service or supply, including the reasonable and necessary cost of travel incident thereto, which is recognized as appropriate by the medical profession for the care and treatment of the injury or disease.

**§ 702.402 Employer's duty to furnish; duration.**

It is the duty of the employer to furnish appropriate medical care for the employee's injury, and for such period as the nature of the injury or the process of recovery may require.

**§ 702.403 Employee's right to choose physician; limitation.**

The employee shall have the right to choose his attending physician from among those authorized by the Director, OWCP, to furnish such care and treatment. However, unless authorized by the deputy commissioner having jurisdiction, the employee's choice shall be limited to those physicians having offices within 25 miles of the employee's home or principal place of work. This exception shall not apply when the employee is hospitalized and the physician is on the staff of, or has privileges at, such hospital.

**§ 702.404 Physician defined.**

The term physician shall mean all duly qualified physicians, to include surgeons and osteopaths within the scope of their practice as defined by State law. Chiropractors, naturopaths, podiatrists (chiropodists), psychologists, optometrists, faith healers, and other practitioners of the healing arts are not recognized as physicians as that term is used in this part.

**§ 702.405 Selection of physician; emergencies.**

Whenever the nature of the injury is such that immediate medical care is required and the injured employee is unable to select a physician, the employer shall select a physician. Thereafter the employee may change physicians when he is able to make a selection. Such changes shall be made upon obtaining written authorization from the employer or, if consent is withheld, from the deputy commissioner.

**§ 702.406 Change of physicians; nonemergencies.**

Whenever the employee has made his initial, free choice of an attending physician, he may not thereafter change physicians without the prior written consent of the employer (or carrier) or the deputy commissioner. Such consent shall be given in cases where an employee's initial choice was not of a specialist whose services are necessary for, and appropriate to, the proper care and treatment of the compensable injury or disease. In all other cases, consent may be given upon a showing of good cause for change.

**§ 702.407 Supervision of medical care.**

The Director, OWCP, through the deputy commissioners and their designees, shall actively supervise the medical care of an injured employee covered by the Act. Such supervision shall include:

(a) The requirement that periodic reports on the medical care being rendered be filed in the office of the deputy commissioner, the frequency thereof being determined by order of the deputy commissioner or sound judgment of the attending physician as the nature of the injury may dictate;

(b) The determination of the necessity, character and sufficiency of any medical care furnished or to be furnished the employee;

(c) The determination of whether a change of physicians, hospitals or other persons or locales providing treatment should be made or is necessary;

(d) The further evaluation of medical questions arising in any case under the Act, with respect to the nature and extent of the covered injury, and the medical care required therefor.

**§ 702.408 Evaluation of medical questions; impartial specialists.**

In any case in which medical questions arise with respect to the appropriate diagnosis, extent, effect of, appropriate treatment, and the duration of any such care or treatment, for an injury covered by the Act, the Director, OWCP, through the deputy commissioners having jurisdiction, shall have the power to evaluate such questions by appointing one or more especially qualified physicians to examine the employee, or in the case of death to make such inquiry as may be appropriate to the facts and circumstances of the case. The physician or physicians, including appropriate consultants, should report their findings with respect to the questions raised as expeditiously as possible. Upon receipt of such report, action appropriate therewith shall be taken.

**§ 702.409 Evaluation of medical questions; results disputed.**

Any party who is dissatified with such report may request a review or reexamination of the employee by one or more different physicians employed by or selected by the Director, and such review or reexamination shall be granted unless it is found that it is clearly unwarranted. Such review shall be completed within 2 weeks from the date ordered unless it is impossible to complete the review and render a report thereon within such time period. Upon receipt of the report of this additional review and reexamination, such action as may be appropriate shall forthwith be taken.

**§ 702.410 Duties of employees with respect to special examinations.**

For any special examination required of an employee by §§ 702.408 and 702.409, the employee shall submit to such examination at such place as is designated in the order to report, but the place so selected shall be reasonably convenient for the employee. Failure to submit to such lawfully ordered examinations shall result in the suspension of proceedings, and no compensation otherwise payable shall be paid for any period during which the employee may refuse to submit to such examination.

**§ 702.411 Special examinations; nature of impartiality of specialists.**

(a) The special examinations required by § 702.408 shall be accomplished in a manner designed to preclude prejudgment by the impartial examiner. No physician previously connected with the case shall be present, nor may any other physician selected by the employer, carrier, or employee be present. The impartial examiner shall not have been made aware, by any party or by the OWCP, of the opinions, reports, or conclusions of any prior examining physician with respect to the nature and extent of the impairment, its cause, or its effect upon the wage-earning capacity of the injured employee, unless the deputy commissioner determines that, for good cause, such opinions, reports, or conclusions should be made available. In the event the latter exception is invoked, the name of the examining physician, and any material in the text which could identify the examining physician offering such opinion, report, or conclusion, shall first be removed.

(b) The impartiality of the specialists shall not be considered to have been compromised if the deputy commissioner deems it advisable to, and does, apprise the specialist by memorandum of those

V 38 186 SEP 26 73 XUM

undisputed facts pertaining to the nature of the employee's employment, of the nature of the injury, of the post-injury employment activity, if any, and of any other facts which are not disputed and are deemed pertinent to the type of injury and/or the type of examination being conducted.

(c) No physician selected to perform impartial examinations shall be, or shall have been for a period of 2 years prior to the examination, an employee of an insurance carrier or self-insured employer, or who has accepted or participated in any fee from an insurance carrier or self-insured employer, unless the parties in interest agree thereto.

**§ 702.412 Special examinations; costs chargeable to employer or carrier.**

The Director or his designee ordering the special examination shall have the power, in the exercise of his discretion, to charge the cost of the examination or review to the employer, to the insurance carrier, or to the special fund established by section 44 of the Act, 33 U.S.C. 944.

**§ 702.413 Fees for medical services; prevailing community charges.**

All fees charged by physicians for the care of persons covered by this Act, or any other charges for medical treatment or supplies within the purview of this Act, shall be limited to such charges for similar treatment, services or supplies as prevail in the community in which the physician, medical facility or supplier is located.

**§ 702.414 Fees for medical services; unresolved disputes on prevailing charges.**

The Director or his designee may, or upon the written complaint of an employer or carrier shall, investigate any fee for medical treatment, services or supplies that appears to be not in line with prevailing community charges for similar treatment, services or supplies. If, upon appropriate investigation, the Director or his designee determines that the fee or cost of service or supplies does not conform to prevailing community charges, the person claiming the fee or cost charge shall be informed of the discrepancy and given the opportunity to adjust the fee or cost charge within permissible limits.

**§ 702.415 Fees for medical services; unresolved disputes on charges; procedure.**

If, after investigation and ascertainment under § 702.414 that a fee or charge is not in accordance with prevailing community charges and the person claiming the fee or cost charge refuses to make the necessary adjustment, the matter shall then be referred by the Director to the Office of the Chief Administrative Law Judge for formal hearing in accordance with the procedures in Subpart C of this part.

**§ 702.416 Fees for medical services; disputes; hearings; necessary parties.**

At formal hearings held pursuant to § 702.415, the necessary parties shall be the person whose fee or cost charge is in question and the Director, or their representatives. The employer or carrier may also be represented, and other parties, or associations having an interest in the proceedings, may be heard, in the discretion of the administrative law judge.

**§ 702.417 Fees for medical services; disputes; effect of adverse decision.**

If the final decision and order upholds the finding of the Director that the fee or charge in dispute was not in accordance with prevailing community charges, the person claiming such fee or cost charge shall be given 30 days after filing of such decision and order to make the necessary adjustment. If such person still refuses to make the required readjustment, such person shall not be authorized to conduct any further treatments or examinations (if a physician) or to provide any other services or supplies (if by other than a physician). Any fee or cost charge subsequently incurred for services performed or supplies furnished shall not be a reimbursable medical expense under this subpart. This prohibition shall apply notwithstanding the fact that the services performed or supplies furnished were in all other respects necessary and appropriate within the provision of these regulations. Further, this prohibition shall extend to all other cases arising under this Act and shall not be limited to the case which gave rise to the adverse decision. Such debarred person shall remain debarred until such time as there is demonstrated to the satisfaction of the Director that fees will be charged in accordance with the prevailing community standards.

MEDICAL PROCEDURES

**§ 702.418 Procedure for requesting medical care; employee's duty to notify employer.**

As soon as practicable, but within 30 days after occurrence of an injury covered by the Act, or within 30 days after an employee becomes aware, or in the exercise of reasonable diligence should be aware, of the relationship between an injury or disease and his employment, the injured employee or someone on his behalf shall give written notice thereof to the deputy commissioner having jurisdiction over the place where the injury occurred and to the employer. If a form has been prescribed for such purpose it shall be used, if available and practicable under the circumstances. Notices filed under Subpart B of this part, if on the form prescribed by the Director for such purpose, satisfy the written notice requirements of this subpart.

**§ 702.419 Action by employer upon acquiring knowledge or being given notice of injury.**

Whenever an employer acquires knowledge of an employee's injury, through receipt of a written notice or otherwise, said employer shall forthwith authorize, in writing, appropriate medical care. If a form is prescribed for this purpose it shall be used whenever practicable.

**§ 702.420 Issuance of authorization; binding effect upon insurance carrier.**

The issuance of an authorization for treatment by the employer shall bind his insurance carrier to furnish and pay for such care and services.

**§ 702.421 Effect of failure to obtain initial authorization.**

An employee shall not be entitled to recover for medical services and supplies unless he shall have first requested authorization from his employer therefor. This prohibition shall not apply in emergency situations, nor shall it apply in cases where the employer (including the superintendent, foreman, or other person having charge of the work and having knowledge of the injury) refuses or neglects to authorize such care when requested by the employee.

**§ 702.422 Effect of failure to report on medical care after initial authorization.**

(a) Notwithstanding that medical care is properly obtained in accordance with these regulations, the employer and his insurance carrier shall not be liable for the expense thereof unless the physician rendering such initial care or services furnishes a report thereon to the employer and to the deputy commissioner having jurisdiction. The report required by this section shall be furnished within 10 days following the date of first treatment. The report shall be upon a form prescribed by the Director for such purpose.

(b) For good cause shown, the deputy commissioner or administrative law judge may excuse the failure to file the report within 10 days, and further, may make an award for the reasonable value of such medical care.

## Subpart E—Vocational Rehabilitation

**§ 702.501 Vocational rehabilitation; objective.**

The objective of vocational rehabilitation is the return of permanently disabled persons to gainful employment commensurate with their physical or mental impairments, or both, through a program of reevaluation or redirection of their abilities, or retraining in another occupation, or selective job placement assistance.

**§ 702.502 Vocational rehabilitation; action by deputy commissioners.**

All injury cases which are likely to result in, or have resulted in, permanent disability, and which are of a character likely to require review by a vocational rehabilitation adviser on the staff of the Director, shall promptly be referred to such adviser by the deputy commissioner or his designee having charge of the case. A form has been prescribed for such purpose and shall be used. Medical data and other pertinent information shall accompany the referral.

**§ 702.503 Vocational rehabilitation; action by adviser.**

The vocational rehabilitation adviser, upon receipt of the referral, shall promptly consider the feasibility of a vocational referral or request for cooperative services from available resources or facilities, to include counseling, vocational survey, selective job placement assistance, and retraining. Public or private agencies may be utilized in arranging necessary vocational rehabilitation services under the Federal Vocational Rehabilitation Act, 29 U.S.C. 31 et seq.

**§ 702.504 Vocational rehabilitation; referrals to State Employment Agencies.**

Vocational rehabilitation advisers will arrange referral procedures with State Employment Service units within their assigned geographical districts for the purpose of securing employment counseling, job classification, and selective placement assistance. Referrals shall be made to State Employment Offices based upon the following:

(a) Vocational rehabilitation advisers will screen cases so as to refer only those disabled employees who are considered to have employment potential;

(b) Only employees will be referred who have permanent, compensable disabilities resulting in a significant vocational handicap and loss of wage earning capacity;

(c) Disabled employees, whose initial referral to former private employers did not result in a job reassignment or in a job retention, shall be referred for employment counseling and/or selective placement unless retraining services consideration is requested;

(d) The vocational rehabilitation advisers shall arrange for employees' referrals if it is ascertained that they may benefit from registering with the State Employment Service;

(e) Referrals will be made to appropriate State Employment Offices by letter, including all necessary information and a request for a report on the services provided the employee when he registers;

(f) The injured employee shall be advised of available job counseling services and informed that he is being referred for employment and selective placement;

(g) A followup shall be made within 60 days on all referrals to assure uniform reporting by State agencies on cases referred for a vocational survey.

**§ 702.505 Vocational rehabilitation; referrals to other public and private agencies.**

Referrals to such other public and private agencies providing assistance to disabled persons such as public welfare agencies, Public Health Services facilities, social services units of the Veterans Administration, the Social Security Administration, and other such agencies, shall be made by the vocational rehabilitation adviser, where appropriate, on an individual basis when requested by disabled employees. Such referrals do not provide for a service cost reimbursement by the Department of Labor.

**§ 702.506 Vocational rehabilitation; training.**

Vocational rehabilitation training shall be planned in anticipation of a short, realistic, attainable vocational objective terminating in remunerable employment, and in restoring wage-earning capacity or increasing it materially. The following procedures shall apply in arranging for or providing training:

(a) The vocational rehabilitation adviser shall arrange for and develop all vocational training programs;

(b) Training programs shall be developed to meet the varying needs of eligible beneficiaries, and may include courses at colleges, technical schools, training at rehabilitation centers, on-the-job training, or tutorial courses. The course shall be pertinent to the occupation for which the employee is being trained.

(c) Training may be terminated if the injured employee fails to cooperate with the Department of Labor or with the agency supervising his course of training. The employee shall be counseled before training is terminated.

(d) Reports shall be required at periodic intervals on all persons in approved training programs.

**§ 702.507 Vocational rehabilitation; maintenance allowance.**

(a) An injured employee who, as a result of injury, is or may be expected to be totally or partially incapacitated for a remunerative occupation and who, under the direction of the Director is being rendered fit to engage in a remunerative occupation, shall be paid additional compensation necessary for this maintenance, not exceeding $25 a week. The expense shall be paid out of the special fund established in section 44 of the Act, 33 U.S.C. 944. The maximum maintenance allowance shall not be provided on an automatic basis, but shall be based on the recommendation of a State agency that a claimant is unable to meet additional costs by reason of being in training.

(b) When required by reason of personal illness or hardship, limited periods of absence from training may be allowed without terminating the maintenance allowance. A maintenance allowance shall be terminated when it is shown to the satisfaction of the Director that a trainee is not complying reasonably with the terms of the training plan or is absenting himself without good cause from training so as to materially interfere with the accomplishment of the training objective.

**§ 702.508 Vocational rehabilitation; confidentiality of information.**

The following safeguards will be observed to protect the confidential character of information released regarding an individual undergoing rehabilitation:

(a) Information will be released to other agencies from which an injured employee has requested services only if such agencies have established regulations assuring that such information will be considered confidential and will be used only for the purpose for which it is provided;

(b) Interested persons and agencies have been advised that any information concerning rehabilitation program employees is to be held confidential;

(c) A rehabilitation employee's written consent is secured for release of information regarding disability to a person, agency, or establishment seeking the information for purposes other than the approved rehabilitation planning with such employee.

## PART 703—INSURANCE REGULATIONS

Sec.
703.001 Scope of part.
703.002 Forms.

AUTHORIZATION OF INSURANCE CARRIERS

703.101 Types of companies which may be authorized by the OWCP.
703.102 Applications for authority to write insurance; how filed; evidence to be submitted; other requirements.
703.103 Stock companies holding Treasury certificates of authority.
703.104 Applicants currently authorized to write insurance under the extensions of the LHWCA.
703.105 Copies of forms of policies to be submitted with application.
703.106 Certificate of authority to write insurance.
703.107 Period of certificate of authority.
703.108 Applications for reauthorization.
703.109 Longshoremen's endorsement; see succeeding parts for endorsements for extensions.
703.110 Other forms of endorsements and policies.
703.111 Submission of new forms of policies for approval; other endorsements.
703.112 Terms of policies.
703.113 Marine insurance contracts.
703.114 Notice of cancellation.
703.115 Discharge by the carrier of obligations and duties of employer.
703.116 Report by carrier of issuance of policy or endorsement.
703.117 Report; by whom sent.
703.118 Agreement to be bound by report.
703.119 Report by employer operating temporarily in another compensation district.
703.120 Name of one employer only shall be given in each report.

AUTHORIZATION OF SELF-INSURERS

703.301 Employers who may be authorized as self-insurers.
703.302 Application for authority to become a self-insurer; how filed; information to be submitted; other requirements.
703.303 Decision upon application of employer; deposit of negotiable securities or indemnity bond.
703.304 Filing of agreement and undertaking.
703.305 Decision upon application of employer; furnishing of indemnity bond or deposit of negotiable securities required.
703.306 Kinds of negotiable securities which may be deposited; conditions of deposit; acceptance of deposits.
703.307 Deposits of negotiable securities with Federal Reserve banks or the Treasurer of the United States; authority to sell such securities; interest thereon.
703.308 Substitution and withdrawal of negotiable securities.
703.309 Increase or reduction in the amount of indemnity bond or negotiable securities.
703.310 Reports required of self-insurers; examination of accounts of self-insurer.
703.311 Period of authorization as self-insurer; renewals.

ISSUANCE OF CERTIFICATES OF COMPLIANCE

703.501 Issuance of certificates of compliance.
703.502 Same; employer operating temporarily in another compensation district.
703.503 Return of certificates of compliance.

AUTHORITY: 5 U.S.C. 301; Reorganization Plan No. 6 of 1950, 15 FR 3174, 64 Stat. 1263; 33 U.S.C. 932, 937, 939; 42 U.S.C. 1651 et seq.; 36 D.C. Code 501 et seq.; 43 U.S.C. 1331; 5 U.S.C. 8171 et seq.; Secretary of Labor's Order No. 13-71, 36 FR 8755.

### § 703.001 Scope of part.

This Part 703 contains the regulations of the OWCP governing the authorization of insurance carriers, the authorization of self-insurers, and the issuance of certificates of compliance. Such provisions are required by the LHWCA, but in almost every instance apply, and hereby are applied, to the extensions of the LHWCA. In those few instances where a separate provision is required, tailored to meet the specific requirements of one of the extended acts, such separate provisions are placed in the succeeding parts of this subchapter.

### § 703.002 Forms.

Any information required by the regulations in this part to be submitted to the OWCP shall be submitted on such forms as the Director may deem appropriate and may authorize from time to time for such purpose.

AUTHORIZATION OF INSURANCE CARRIERS

### § 703.101 Types of companies which may be authorized by the OWCP.

The OWCP will consider for the granting of authority to write insurance under the Longshoremen's and Harbor Workers' Compensation Act and its extensions the application of any stock company, mutual company or association, or any other person or fund, while authorized under the laws of the United States or of any State to insure workmen's compensation. The term "carrier" as used in this part means any person or fund duly authorized to insure workmen's compensation benefits under said Act, or its extensions.

### § 703.102 Applications for authority to write insurance; how filed; evidence to be submitted; other requirements.

An application for authority to write insurance under this Act shall be made in writing, signed by an officer of the applicant duly authorized to make such application, and transmitted to the Office of Workmen's Compensation Programs, U.S. Department of Labor, Washington, D.C. 20211. Such application shall be accompanied by full and complete information regarding the history and experience of such applicant in the writing of workmen's compensation insurance, together with evidence that it has authority in its charter or form of organization to write such insurance, and evidence that the applicant is currently authorized to insure workmen's compensation liability under the laws of the United States or of any State. The statements of fact in each application and in the supporting evidence shall be verified by the oath of the officer of the applicant who signs such application. Each applicant shall state in its application the area or areas in which it intends to do business. In connection with any such application the following shall be submitted, the Office reserving the right to call for such additional information as it may deem necessary in any particular case:

(a) A copy of the last annual report made by the applicant to the insurance department or other authority of the State in which it is incorporated, or the State in which its principal business is done.

(b) A certified copy from the proper State authorities of the paper purporting to show the action taken upon such report, or such other evidence as the applicant desires to submit in respect of such report, which may obviate delay caused by an inquiry of the OWCP of the State authorities relative to the standing and responsibility of the applicant.

(c) A full and complete statement of its financial condition, if not otherwise shown, and, if a stock company, shall show specifically its capital stock and surplus.

(d) A copy of its charter or other formal outline of its organization, its rules, its bylaws, and other documents, writings, or agreements by and under which it does business, and such other evidence as it may deem proper to make a full exposition of its affairs and financial condition.

### § 703.103 Stock companies holding Treasury certificates of authority.

A stock company furnishing evidence that it is authorized to write workmen's compensation insurance under the laws of the United States or of any State, which holds a certificate of authority from the Secretary of the Treasury as an acceptable surety on Federal bonds, unless requested to do so, need not transmit to the Office with its application copies of such financial reports as are on file in the Department of the Treasury. The acceptance by that Department of such a company will be considered by the Office in conjunction with the application of such company, provided there has been compliance with the other requirements of the regulations in this part.

### § 703.104 Applicants currently authorized to write insurance under the extensions of the LHWCA.

Any applicant currently authorized by the Office to write insurance under any extension of the LHWCA need not support its application under the LHWCA or any other LHWCA extension with the evidence required by the regulations in this part, except the form of policy and endorsement which it proposes to use, unless specifically requested by the Office, but instead its application may refer to the fact that it has been so authorized.

### § 703.105 Copies of forms of policies to be submitted with application.

With each application for authority to write insurance there shall be submitted for the approval of the Office copies of the forms of policies which the applicant proposes to issue in writing insurance under the LHWCA, or its extensions, to which shall be attached the appropriate endorsement to be used in connection therewith.

### § 703.106 Certificate of authority to write insurance.

No corporation, company, association, person, or fund shall write insurance under this Act without first having received from the OWCP a certificate of authority to write such insurance. Any such certificate issued by the Office, after application therefor in accordance with these regulations, may authorize the applicant to write such insurance in a limited territory as determined by the Office. Any such certificate may be suspended or revoked by the Office prior to its expiration for good cause shown, but no suspension or revocation shall affect the liability of any carrier already incurred. Good cause shall include, without limitation, the failure to maintain in such limited territory a regular business office with full authority to act on all matters falling within the Act, and the failure to promptly and properly perform the carrier's responsibilities under the Act and these regulations, with special emphasis upon lack of promptness in making payments when due, upon failure to furnish appropriate medical care, and upon attempts to offer to, or urge upon, claimants inequitable settlements. A hearing may be requested by the aggrieved party and shall be held before the Director or his representative prior to the taking of any adverse action under this section.

### § 703.107 Period of certificate of authority.

No certificate of authority to write insurance under said Act and the regulations in this part shall be issued by the Office for a period in excess of 18 months. The expiration date which shall be stated in the certificate of authority, shall fall on the 30th day of June.

### § 703.108 Applications for reauthorization.

Any carrier holding an unexpired certificate of authority and desiring reauthorization to write insurance for the period of a year from the expiration of such certificate shall apply to the OWCP by letter over the signature of an authorized officer for such a certificate of authority. No evidence of the financial condition of such carrier need be furnished unless requested by the Office after the application is received. The Office may require such carrier to submit, for Office consideration in connection with such reauthorization, evidence or explanation relating to the experience and practice of such carrier in the conduct of its affairs with respect to the said Act, or with reference to the fidelity and punctuality

of the performance by such carrier of its past or current obligations under the law. Such application, to avoid a break in the period of authorization of the carrier to write such insurance, should be filed with the Office not later than June 1 of each year.

### § 703.109 Longshoremen's endorsement; see succeeding parts for endorsements for extensions.

(a) The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy, shall be used, if required by the OWCP, with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ------.

The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 901 et seq., and all laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of this Act, and all lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, U.S. Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said Act.

This endorsement shall not be cancelled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Deputy Commissioner and to this employer.

All terms, conditions, requirements, and obligations, expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

### § 703.110 Other forms of endorsements and policies.

Where the form of endorsement prescribed by § 703.109 is not appropriate when used in conjunction with a form of policy approved for use by the Office no modification thereof shall be used unless specifically approved by the Office. Where the form of policy is designed to include therein the obligations of the insurer under said Act without the use of the appropriate endorsements, the policy shall contain the provisions required to be included in any of the endorsements. Such a policy, however, shall not be used until expressly approved by the Office.

### § 703.111 Submission of new forms of policies for approval; other endorsements.

No new forms of policies or modification of existing forms of policies shall be used by an insurer authorized by the Office under the regulations in this part to write insurance under said Act except after submission to and approval by the Office. No endorsement altering any provisions of a policy approved by the Office shall be used except after submission to and approval by the Office.

### § 703.112 Terms of policies.

A policy or contract of insurance shall be issued for the term of not less than 1 year from the date that it becomes effective, but if such insurance be not needed except for a particular contract or operation, the term of the policy may be limited to the period of such contract or operation.

### § 703.113 Marine insurance contracts.

A longshoremen's policy, or the longshoremen's endorsement provided for by § 703.109 for attachment to a marine policy, may specify the particular vessel or vessels in respect of which the policy applies and the address of the employer at the home port thereof. The report of the issuance of a policy or endorsement required by § 703.116 to be made by the carrier shall be made to the deputy commissioner for the compensation district in which the home port of such vessel or vessels is located, and such report shall show the name and address of the owner as well as the name or names of such vessel or vessels.

### § 703.114 Notice of cancellation.

Cancellation of a contract or policy of insurance issued under authority of said Act shall not become effective otherwise than as provided by 33 U.S.C. 936(b); and notice of a proposed cancellation shall be given to the deputy commissioner and to the employer in accordance with the provisions of 33 U.S.C. 912(c), 30 days before such cancellation is intended to be effective.

### § 703.115 Discharge by the carrier of obligations and duties of employer.

Every obligation and duty in respect of payment of compensation, the providing of medical and other treatment and care, the payment or furnishing of any other benefit required by said Act and in respect of the carrying out of the administrative procedure required or imposed by said Act or the regulations in this part upon an employer shall be discharged and carried out by the carrier except that the prescribed report of injury or death shall be sent by the employer to the deputy commissioner and to the insurance carrier as required by 33 U.S.C. 930. Such carrier shall be jointly responsible with the employer for the submission of all reports, notices, forms, and other administrative papers required by the deputy commissioner or the Office in the administration of said Act to be submitted by the employer, but any form or paper so submitted where required therein shall contain in addition to the name and address of the carrier, the full name and address of the employer on whose behalf it is submitted. Notice to or knowledge of an employer of the occurrence of the injury or death shall be notice to or knowledge of such carrier. Jurisdiction of the employer by a deputy commissioner, the Office, or appropriate appellate authority under said Act shall be jurisdiction of such carrier. Any requirement under any compensation order, finding, or decision shall be binding upon such carrier in the same manner and to the same extent as upon the employer.

### § 703.116 Report by carrier of issuance of policy or endorsement.

Each carrier shall report to the deputy commissioner assigned to a compensation district each policy and endorsement issued by it to an employer who carries on operations in such compensation district. The report shall be made in such manner and on such form as the district or the Office may require.

### § 703.117 Report; by whom sent.

The report of issuance of a policy and endorsement provided for in § 703.116 shall be sent by the home office of the carrier, except that any carrier may authorize its agency or agencies in any compensation district to make such reports to the deputy commissioner, provided the carrier shall notify the deputy commissioner in such district of the agencies so duly authorized.

### § 703.118 Agreement to be bound by report.

Every applicant for authority to write insurance under the provisions of this Act, or for the renewal of that authority, shall be deemed to have included in its application an agreement that the acceptance by the deputy commissioner of a report of the issuance of a policy of insurance, as provided for by § 703.116, shall bind the carrier to full liability for the obligations under this Act of the employer named in said report, and every certificate of authority to write insurance under this Act shall be deemed to have been issued by the Office upon consideration of the carrier's agreement to become so bound. It shall be no defense to this agreement that the carrier failed or delayed to issue the policy to the employer covered by this report.

### § 703.119 Report by employer operating temporarily in another compensation district.

Where an employer having operations in one compensation district contemplates engaging in work subject to the Act in another compensation district, his carrier may submit to the deputy commissioner of such latter district a report pursuant to § 703.116 containing the address of the employer in the first mentioned district with the additional notation "No present address in ------ compensation district. Certificate requested when address given."

### § 703.120 Name of one employer only shall be given in each report.

A separate report of the issuance of a policy and endorsement, provided for by § 703.116, shall be made for each employer covered by a policy. If a policy is issued insuring more than one employer, a separate report for each employer so covered shall be sent to the deputy com-

V 38 1186 SEP 26 73 XUM

missioner concerned, with the name of only one employer on each such report.

AUTHORIZATION OF SELF-INSURERS

**§ 703.301 Employers who may be authorized as self-insurers.**

The Office will consider for the granting of authority to secure by self-insurance the payment of compensation under the Longshoremen's and Harbor Workers' Compensation Act, or its extensions, any employer who, pursuant to the regulations in this part, furnishes to the Office satisfactory proof of such employer's ability to pay compensation directly. The succeeding regulations relating to self-insurers require the deposit of security in the form either of an indemnity bond or negotiable securities (at the option of the employer) of a kind and in an amount determined by the Office, and prescribe the conditions under which such deposit shall be made. The term "self-insurer" as used in these regulations means any employer securing compensation in accordance with the provisions of 33 U.S.C. 932(a)(2) and with these regulations.

**§ 703.302 Application for authority to become a self-insurer; how filed; information to be submitted; other requirements.**

Application for authority to become a self-insurer may be made by any employer desiring such privilege and shall be addressed to the OWCP and be made on a form provided by the Office. Such application shall contain: (a) A statement of the employer's payroll report for the preceding 12 months; (b) a statement of the average number of employees engaged in employment within the purview of the LHWCA or any of its extensions for the preceding 12 months; (c) a statement of the number of injuries to such employees resulting in disability of more than 7 days' duration, or in death, during each of 3 years next preceding the date of the application; (d) an itemized statement of the assets and liabilities of the employer; (e) a description of the facilities maintained or the arrangements made for the medical and hospital care of injured employees; and (f) a statement describing the provisions and maximum amount of any excess or catastrophic insurance. The Office may in its discretion require the applicant to submit such further information or such evidence as the Office may deem necessary to have in order to enable it to give adequate consideration to such application. Such application shall be signed by the applicant over his typewritten name and if the applicant is not an individual, by an officer of the applicant duly authorized to make such application over his typewritten name and official designation and shall be sworn to by him. If the applicant is a corporation, the corporate seal shall be affixed. The application shall be filed with the OWCP national office in Washington, D.C. The regulations in this part shall be binding upon each applicant hereunder and the applicant's consent to be bound by all requirements of the said regulations shall be deemed to be included in and a part of the application, as fully as though written therein.

**§ 703.303 Decision upon application of employer; deposit of negotiable securities or indemnity bond.**

The decision of the Office to grant an application of an employer for authority to pay compensation under said Act as a self-insurer will be transmitted to the applicant on a form prescribed by the Office. Such grant shall be conditioned upon a deposit of security in the form of an indemnity bond or of negotiable securities in an amount fixed by the Office, and the execution and filing of an agreement and undertaking in the form prescribed by the Office, as required by § 703.304.

**§ 703.304 Filing of agreement and undertaking.**

The applicant for the privilege of self-insurance shall as a condition precedent to receiving authorization to act as a self-insurer, execute and file with the Office an agreement and undertaking in a form prescribed and provided by the Office in which the applicant shall agree: (a) To pay when due, as required by the provisions of said Act, all compensation payable on account of injury or death of any of its employees injured within the purview of said Act; (b) in such cases to furnish medical, surgical, hospital, and other attendance, treatment and care as required by the provisions of said Act; (c) to deposit with the Office an indemnity bond in the amount which the Office shall fix, or to deposit negotiable securities as provided for by the regulations in this part in the amount which the Office shall fix, accordingly as elected in the application; (d) to authorize the Office to sell such negotiable securities so deposited or any part thereof and from the proceeds thereof to pay such compensation, medical, and other expenses and any accrued penalties imposed by law as it may find to be due and payable; and (e) to obtain and maintain, if required by the Office, excess or catastrophic insurance, in amounts to be determined by the Office.

**§ 703.305 Decision upon application of employer; furnishing of indemnity bond or deposit of negotiable securities required.**

The applicant for the privilege of self-insurance, as a condition precedent to receiving authorization to act as a self-insurer, shall give security for the payment of compensation and the discharge of all other obligations under the said Act, in the amount fixed by the Office, which may be in the form of an indemnity bond with sureties satisfactory to the Office, or of a deposit of negotiable securities as provided in the regulations in this part. The amount of such security so to be fixed and required by the Office shall be such as the Office shall deem to be necessary and sufficient to secure the performance by the applicant of all obligations imposed upon him as an employer by the Act. In fixing the amount of such security the Office will take into account the financial standing of the employer, the nature of the work in which he is engaged, the hazard of the work in which the employees are employed, the payroll exposure, and the accident experience as shown in the application and the Office's records, and any other facts which the Office may deem pertinent. Additional security may be required at any time in the discretion of the Office. The indemnity bond which is required by these regulations shall be in such form, and shall contain such provisions, as the Office may prescribe: *Provided*, That only surety companies approved by the United States Treasury Department under the laws of the United States and the rules and regulations governing bonding companies may act as sureties on such indemnity bonds.

**§ 703.306 Kinds of negotiable securities which may be deposited; conditions of deposit; acceptance of deposits.**

An applicant for the privilege of self-insurance electing to deposit negotiable securities to secure his obligations under said Act in the amount fixed by the Office under the regulations in this part shall deposit any negotiable securities acceptable as security for the deposit of public monies of the United States under regulations issued by the Secretary of the Treasury. (See 31 CFR 203.7 and 203.8.) The approval, valuation, acceptance, and custody of such securities is hereby committed to the several Federal Reserve Banks and the Treasurer of the United States when authorized under the regulations in this part to receive deposits of such securities.

**§ 703.307 Deposits of negotiable securities with Federal Reserve banks or the Treasurer of the United States; authority to sell such securities; interest thereon.**

Deposits of securities provided for by the regulations in this part shall be made with any Federal Reserve bank or any branch of a Federal Reserve bank designated by the Office, or the Treasurer of the United States, and shall be held subject to the order of the Office with power in the Office, in its discretion in the event of default by the said self-insurer, to collect the interest and the principal as they may become due, to sell the securities or any of them as may be required to discharge the obligations of the self-insurer under said Act and to apply the proceeds to the payment of any compensation or medical expense for which the self-insurer may be liable. The Office may, however, whenever it deems it unnecessary to resort to such securities for the payment of compensation, authorize the self-insurer to collect interest on the securities deposited by him.

**§ 703.308 Substitution and withdrawal of negotiable securities.**

No substitution or withdrawal of negotiable securities deposited by a self-insurer shall be made except upon authorization by the Office. A self-insurer

discontinuing business, or discontinuing operations within the purview of said Act, or providing security for the payment of compensation by insurance under the provisions of said Act may apply to the Office for the withdrawal of securities deposited under the regulations in this part. With such application shall be filed a sworn statement setting forth: (a) A list of all outstanding cases in each compensation district in which compensation is being paid, with the names of the employees and other beneficiaries, giving a description of causes of injury or death, and a statement of the amount of compensation paid; (b) a similar list of all pending cases in which no compensation has as yet been paid; and (c) a similar list of all cases in which injury or death has occurred within 1 year prior to such application or in which the last payment of compensation was made within 1 year prior to such application. In such cases withdrawals may be authorized by the Office of such securities as in the opinion of the Office may not be necessary to provide adequate security for the payment of outstanding and potential liabilities of such self-insurer under said Act.

**§ 703.309 Increase or reduction in the amount of indemnity bond or negotiable securities.**

Whenever in the opinion of the Office the principal sum of the indemnity bond filed or the amount of negotiable securities deposited by a self-insurer is insufficient to afford adequate security for the payment of compensation and medical expenses under said Act, the self-insurer shall, upon demand by the Office, file such additional indemnity bond or deposit under the regulations in this part such additional amount of negotiable securities as the Office may require. At any time upon application of a self-insurer, or on the initiative of the Office, when in its opinion the facts warrant, the principal sum of an indemnity bond required to be given or the amount of negotiable securities required to be deposited may be reduced. A self-insurer seeking such reduction shall furnish such information as the Office may request relative to his current affairs, the nature and hazard of the work of his employees, the amount of the payroll of his employees engaged in maritime employment within the purview of the said Act, his financial condition, his accident experience, and such other evidence as may be deemed material, including a record of payments of compensation made by him.

**§ 703.310 Reports required of self-insurers; examination of accounts of self-insurer.**

At such times as the Office may require or prescribe, each self-insurer shall submit such of the following reports as may be requested:

(a) A sworn itemized statement of the self-insurer's assets and liabilities, or a balance sheet.

(b) A sworn statement showing by classifications the payroll of employees of the self-insurer who are engaged in employment within the purview of the LHWCA or any of its extensions.

(c) A sworn statement covering the 6 months' period preceding the date of such report, listing by compensation districts all death and injury cases which have occurred during such period, together with a report of the status of all outstanding claims, showing the particulars of each case.

Whenever it deems it to be necessary, the Office may inspect or examine the books of account, records, and other papers of a self-insurer for the purpose of verifying any financial statement submitted to the Office by self-insurer or verifying any information furnished to the Office in any report required by this section, or any other section of the regulations in this part, and such self-insurer shall permit the Office or its duly authorized representative to make such an inspecton or examination as the Office shall require. In lieu of this requirement the Office may in its discretion accept an adequate report of a certified public accountant.

**§ 703.311 Period of authorization as self-insurer; renewals.**

No initial authorization as a self-insurer shall be granted for a period in excess of 18 months, and the expiration date thereof shall fall on the 30th day of June. A self-insurer who has made an adequate deposit of negotiable securities as required by the Office under the regulations in this part will be reauthorized for the ensuing fiscal year without additional security if the Office finds that his experience as a self-insurer warrants such action. A self-insurer who currently has on file an indemnity bond, will receive from the Office on or about May 10 of each year a bond form for execution in contemplation of reauthorization, and the submission of such bond duly executed in the amount indicated by the Office will be deemed and treated as such self-insurer's application for reauthorization for the ensuing fiscal year; the privilege of such self-insurer will, however, terminate with the termination of his current authorization unless such duly executed indemnity bond be submitted not later than June 30.

**§ 703.312 Revocation of privilege of self-insurance.**

The Office may for good cause shown suspend or revoke the authorization of any self-insurer. Failure by a self-insurer to comply with any provision or requirement of law or of the regulations in this part, or with any lawful order or communication of the Office, or the failure or insolvency of the surety on his indemnity bond, or impairment of financial responsibility of such self-insurer, shall be deemed good cause for such suspension or revocation.

ISSUANCE OF CERTIFICATES OF COMPLIANCE

**§ 703.501 Issuance of certificates of compliance.**

Every employer who has secured the payment of compensation as required by 33 U.S.C. 932 and by the regulations in this part may request a certificate from the deputy commissioner in the compensation district in which he has operations, and for which a certificate is required by 33 U.S.C. 937, showing that such employer has secured the payment of compensation. Only one such certificate will be issued to an employer in a compensation district, and it will be valid only during the period for which such employer has secured such payment. An employer so desiring may have photocopies of such a certificate made for use in different places within the compensation district. Two forms of such certificates have been provided by the Office, one form for use where the employer has obtained insurance generally under these regulations, and one for use where the employer has been authorized as a self-insurer.

**§ 703.502 Same; employer operating temporarily in another compensation district.**

A deputy commissioner receiving a report of the issuance of a policy of insurance with the notation authorized by § 703.119, will file such report until he receives from the insured employer named therein a request for certificate of compliance, giving the address of the employer within the compensation district of such deputy commissioner. Upon receipt of such a request the deputy commissioner will send the proper certificate of compliance to such employer at such address.

**§ 703.503 Return of certificates of compliance.**

Upon the termination by expiration, cancellation or otherwise, of a policy of insurance issued under the provisions of law and these regulations, or the revocation or termination of the privilege of self-insurance granted by the Office, all certificates of compliance issued on the basis of such insurance or self-insurance shall be void and shall be returned by the employer to the deputy commissioner issuing them with a statement of the reason for such return. An employer holding certificate of compliance under an insurance policy which has expired, pending renewal of such insurance need not return such certificate of compliance if such expired insurance is promptly replaced. An employer who has secured renewal of insurance upon the expiration of policy under said Act or whose self-insurance thereunder is reauthorized without a break in the continuity thereof need not return an expired certificate of compliance.

(d) Nonappropriated Fund Instrumentalities Act (NFIA).

**§ 704.002 Scope of part.**

The regulations governing the administration of the LHWCA as set forth in Parts 702 and 703 of this subchapter govern the administration of the LHWCA extensions (see § 704.001) in nearly every respect, and are not repeated in this Part 704. Such special provisions as are necessary to the proper administration of each of the extensions are set forth in this Part 704. To the extent of any inconsistency between regulations in Parts 702 and 703 of this subchapter and those in this Part 704, the latter supersedes those in Part 702 and 703 of this subchapter.

DEFENSE BASE ACT

**§ 704.101 Administration; compensation districts.**

For the purpose of administration of this Act areas assigned to the compensation districts established for administration of the Longshoremen's and Harbor Workers' Compensation Act as set forth in Part 702 of this subchapter shall be extended in the following manner to include:

(a) Canada, east of the 75th degree west longitude, Newfoundland, and Greenland are assigned to District No. 1.

(b) Canada, west of the 75th degree and east of the 110th degree west longitude, is assigned to District No. 10.

(c) Canada, west of the 110th degree west longitude, and all areas in the Pacific Ocean north of the 45th degree north latitude are assigned to District No. 14.

(d) All areas west of the continents of North and South America (except coastal islands) to the 60th degree east longitude, except for Iran, are assigned to District No. 15.

(e) Mexico, Central and South America (including coastal islands); areas east of the continents of North and South America to the 60th degree east longitude, including Iran, and any other areas or locations not covered under any other district office, are assigned to District No. 2.

**§ 704.102 Commutation of payments to aliens and nonresidents.**

Authority to commute payments to aliens and nonnationals who are not residents of the United States and Canada, section 2(b) of the Defense Base Act, 42 U.S.C. 1652(b), though separately stated in this Act, is identical in language to section 9(g) of the Longshoremen's Act. Thus, except for the different statutory citation, the LHWCA regulation at § 702.142 of this subchapter shall apply.

**§ 704.103 Removal of certain minimums when computing or paying compensation.**

The minimum limitation on weekly compensation for disability established by section 6 of the LHWCA, 33 U.S.C. 906, and the minimum limit on the average weekly wages on which death benefits are to be computed under section 9 of the LHWCA, 33 U.S.C. 909, shall not apply in computing compensation and death benefits under this Act; section 2(a), 42 U.S.C. 1652(a).

**§ 704.151 DBA endorsement.**

The following form of endorsement applicable to the standard workmen's compensation and employers' liability policy shall be used, if required by the OWCP, with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ------,

The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, as extended by the provisions of the Defense Base Act, and all laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The Company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the Company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The Company agrees to abide by all the provisions of said Acts and all lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said Acts.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Deputy Commissioner and to this employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

DISTRICT OF COLUMBIA WORKMEN'S COMPENSATION ACT

**§ 704.201 Administration; compensation districts.**

For the purpose of administration of this Act, the District of Columbia shall be the compensation district and is designated as District No. 40.

**§ 704.251 DCCA endorsement.**

The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy shall be used, if required by the OWCP, with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ------,

The obligations of the policy include the District of Columbia Workmen's Compensation Act, and the applicable provisions of the Longshoremen's and Harbor Workers' Compensation Act, and all laws amendatory of either of said Acts or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of said District of Columbia Workmen's Compensation Act and all lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said Act.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Deputy Commissioner for the District of Columbia and to this employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

OUTER CONTINENTAL SHELF LANDS ACT

**§ 704.301 Administration; compensation districts.**

For the purpose of administration of this Act, the compensation districts established under the Longshoremen's and Harbor Workers' Compensation Act as set forth in Part 702 of this subchapter shall administer this Act, and their jurisdiction for this purpose is extended, where appropriate, to include those parts of the Outer Continental Shelf adjacent to the State or States in such districts having adjacent shelf areas.

**§ 704.351 OCSLA endorsement.**

The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy shall be used, if required by the OWCP, with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ------,

The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, as extended by the Outer Continental Shelf Lands Act, and all the laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of said laws and all the lawful rules, regulations, orders and decisions of the Office of Workmen's Compensation Programs, Department of Labor, until set aside, modified, or reversed by appropriate appellate authority as provided for by said Acts.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Deputy Commissioner and to his employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

NONAPPROPRIATED FUND INSTRUMENTALITIES ACT

**§ 704.401 Administration; compensation districts.**

For the purpose of administration of this Act within the continental United States, Hawaii, and Alaska, the compensation districts established for administration of the Longshoremen's and Harbor Workers' Compensation Act as set forth in Part 702 are established as the administrative districts under this Act. For the purpose of administration of this Act outside the continental United States, Alaska, and Hawaii, the compensation districts established for such overseas administration of the Defense Base Act as set forth in § 704.101 are established as the administrative districts under this Act.

**§ 704.451 NFIA endorsement.**

The following form of endorsement applicable to the standard workmen's compensation and employer's liability policy shall be used, if required by the OWCP, with the form of policy approved by the Office for use by an authorized carrier:

For attachment to Policy No. ------,

The obligations of the policy include the Longshoremen's and Harbor Workers' Compensation Act, as extended by the Nonappropriated Fund Instrumentalities Act, and all the laws amendatory thereof or supplementary thereto which may be or become effective while this policy is in force.

The company will be subject to the provisions of 33 U.S.C. 935. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the policy.

The company agrees to abide by all the provisions of said Acts and all the lawful rules, regulations, orders, and decisions of the Office of Workmen's Compensation Programs, Department of Labor, unless and until set aside, modified, or reversed by appropriate appellate authority as provided for by said Acts.

This endorsement shall not be canceled prior to the date specified in this policy for its expiration until at least 30 days have elapsed after a notice of cancellation has been sent to the Deputy Commissioner and to the within named employer.

All terms, conditions, requirements, and obligations expressed in this policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

Signed at Washington, D.C. this 19th day of September 1973.

BERNARD E. DELURY,
*Assistant Secretary for Employment Standards.*

## Water Pollution Control

## REIMBURSEMENT GRANTS

No. 186—Pt. III——1

V 38 186 SEP 26 73 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER D—GRANTS

PART 35—STATE AND LOCAL ASSISTANCE

## Reimbursement Grants; Eligibility Requirements

Notice is hereby given that the Environmental Protection Agency is amending Part 35 of Title 40 to include regulations for reimbursement grants, pursuant to section 206 (a) through (e) of the Federal Water Pollution Control Act Amendments of 1972.

The regulations require that eligibility for reimbursement be limited to those State approved public sewage treatment works projects on which construction was initiated after June 30, 1956 but before July 1, 1972, provided further that such projects are found to meet the requirements of section 8 of Public Law 84–660, as amended.

Application for reimbursement of eligible costs shall be made in writing and must be received by the appropriate Regional Administrator prior to October 18, 1973.

The regulations give priority for initial allocations from funds available under Public Law 92–399 to those projects on which construction was initiated between July 1, 1966 and June 30, 1972 and which (1) were certified or endorsed by appropriate State agencies; (2) were approved for reimbursement under Public Law 84–660; and (3) did not receive the full amount for which they were eligible under Public Law 84–660. Funds remaining after the first allocation will be made available to those State approved projects which received, prior to October 18, 1972, a qualifying State matching grant, retroactive from the federally approved effective date of the State's matching grant program. Funds remaining after a second allocation will be made available for other projects under construction during the 1966–72 period and receiving less than 50 55 percent Federal grants. Should funds remain after the third allocation, a fourth allocation is provided for projects under construction during the 1956–66 period which received less than 30 percent Federal grants.

The reimbursement grant shall not exceed the difference between the amount actually received and the amount for which the project was eligible, as validated as of September 30, 1973, under Public Law 84–660 (as amended). In addition, for those projects on which construction was initiated during the 1966–72 period, reimbursement from all Federal grant sources may not exceed 80 percent of the eligible project cost.

Allocations from funds available under Public Law 92–399 will be made after October 18, 1973. Initial payments will be based upon the amount earned (construction-in-place) as of September 30, 1973.

On June 26, 1973, notice of this proposed rulemaking was published in the FEDERAL REGISTER (40 CFR Part 35). Written comments were invited and received from interested parties and are on file with the Environmental Protection Agency. The Agency has carefully considered all submitted comments. Certain of these comments have been adopted or substantially satisfied by editorial changes in, or additions to, the regulations. The major comments received and principal changes made in the regulations are discussed below.

The largest number of comments (21)—out of a total of 68—were concerned with § 35.855 (Project Eligibility). These respondents were generally concerned with the fact that no provision was made for projects falling within the purview of section 206(b) which allows reimbursement for projects initiated between June 30, 1956 and June 30, 1966. The second largest number of comments (14) dealt with § 35.875 (Priority for Funds appropriated by P.L. 92–399). The comments expressed, in the main, opposition to the establishment of priority system for fund allocation.

Other comments were, for the most part, either of a general nature or specific to a point aimed at changing certain wordings in the regulation which would enable projects, of interest to the respondent, to be eligible for first priority funding.

Essentially, two changes were made in the regulations proposed. One was the inclusion of projects, on which construction was initiated during the 1956–66 period, as eligible for reimbursement after projects in the 1966–72 period have been reimbursed. The other was the designating of September 30, 1973, as the cutoff date for establishing project costs used in determining reimbursement allocations from the $1.9 billion appropriation.

Since nearly 5000 copies of the regulation were formally distributed by E.P.A., and a mere 38 responses were received—including eleven States—this Agency concludes that the proposed regulation was considered as satisfactorily interpreting the intent of section 206 of P.L. 92–500. This conclusion is further supported by the fact that, prior to the publication of the proposed regulation, intensive and widespread interest had been expressed regarding the disposition of the regulations on reimbursable projects.

In view of the above, and since the reimbursement provisions were incorporated in P.L. 92–500 primarily to indemnify the Federal governments' liability to specific projects—i.e., those on which construction was initiated under P.L. 84–660 as amended, with a less-than-eligible grant and with the understanding that, as soon as additional appropriations became available, they would be reimbursed with the balance of the Federal share—EPA is confident that the regulations provide just and equitable implementing guidelines which are in keeping with the intent of the laws.

Because of statutory provisions permitting designated categories of sewage treatment projects to receive reimbursement funds to bring their existing Federal assistance to certain legislated levels of grant support, and because funds have been appropriated to carry out these provisions, the Administrator finds good cause to declare these regulations effective September 26, 1973.

RUSSELL E. TRAIN,
*Administrator.*

SEPTEMBER 18, 1973.

A new subpart D is herewith added to 40 CFR, part 35 to read as set forth below.

### SUBPART D—REIMBURSEMENT GRANTS

Sec.
35.850 Purpose
35.855 Project eligibility
35.860 Eligible costs
35.865 Applications
35.870 Allocations generally
35.875 Priority for funds appropriated by Public Law 92–399
35.880 Grant amount
35.885 Obligation and payment schedule
35.890 Initiation of construction
35.895 Disputes

AUTHORITY.—Sec. 206, Federal Water Pollution Control Act Amendments of 1972.

### § 35.850 Purpose.

This subpart governs all grants pursuant to section 206 (a) through (e) of the Federal Water Pollution Control Act as amended by Public Law 92–500, Oct. 18, 1972) for reimbursement of State or local funds used for publicly owned sewage treatment works.

### § 35.855 Project eligibility.

(a) Grants may be made for reimbursement of State or local funds used for public sewage treatment works projects on which construction was initiated after June 30, 1966, but before July 1, 1972, *Provided*, That construction of such project was approved by the State Water Pollution Control Agency and provided further that the Administrator finds that such project met the requirements of section 8 of the Federal Water Pollution Control Act (Public Law 84–660, as amended) in effect at the time of initiation of construction of the project.

(b) Grants may be made for reimbursement of State or local funds used for public sewage treatment works projects on which construction was initiated between June 30, 1956, and June 30, 1966, *Provided*, That construction of such project was approved by the State Water Pollution Control Agency and provided further that the Administrator finds that such project met the requirements of section 8 of the Federal Water Pollution Control Act (Public Law 84–660, as amended) in effect prior to enactment of the Federal Water Pollution Control Act Amendments of 1972 (Public Law 92–500).

### § 35.860 Eligible costs.

Eligible cost of construction shall include costs of preliminary planning to determine the economic and engineering feasibility of treatment works, the engineering, architectural, legal, fiscal, and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures, and other action necessary to the construction of

treatment works; and the erection, building, acquisition, alteration, remodeling, improvement, or extension of treatment works; and the inspection and supervision of the construction of treatment works.

### § 35.865 Applications.

(a) No grant under this section shall be made for any project unless an application for such grant is received by the appropriate Regional Administrator prior to October 18, 1973. Applications for reimbursement shall be made in writing (if mailed, a return receipt should be requested) and shall contain the following information:

(1) Brief description of project.

(2) Total eligible cost of project.

(3) Total amount of any Federal assistance received to date.

(4) Amount of additional Federal financial assistance requested under this section.

(5) The dates (actual or estimated) of initiation and completion of construction.

(6) Date of approval by State agency. The applicant must furnish such other information as may be required for determination of entitlement or quantum under this Subpart.

### § 35.870 Allocation generally.

Except as otherwise provided in § 35.875, funds available from appropriations for reimbursement grants for projects eligible under § 35.855 will be allocated in fiscal year 1974, subsequent to October 18, 1973, to each project in an amount which bears the same ratio to the unpaid balance of the reimbursement due such project (not to exceed 100 percent) as the total of such funds for such year bears to the total unpaid balance of reimbursement due all such projects on the date of enactment of such appropriation.

### § 35.875 Priority for funds appropriated by Public Law 93–399.

(a) Initial allocations from funds available under Public Law 92–399 (August 22, 1972) will be made to those projects which meet the requirements of § 35.855(a) of this subpart, and which (1) were endorsed or certified for reimbursement by the respective State agencies; (2) were approved for reimbursement pursuant to section 8(c) of Public Law 84–660 (as amended), and (3) did not receive the full amount for which they were eligible under section 8(c) of Public Law 84–660, as amended. Such projects will be due reimbursement from funds appropriated under Public Law 92–399 in an amount not to exceed their eligibility under Public Law 84–660, as amended.

(b) Funds remaining after the allocation described in paragraph (a) of this section will be available for allocation among all projects which (1) were endorsed or certified for reimbursement by the respective State agencies; and (2) received, prior to October 18, 1972, a State matching grant, retroactive from the federally approved effective date of the State's matching grant program, in an amount sufficient to qualify the project for increased Federal assistance.

(c) Funds remaining after the allocation described in paragraph (b) of this section will be available for allocation among all other projects eligible under § 35.855(a) of this subpart.

(d) Funds remaining after the allocation described in paragraph (c) of this section will be available for allocation among all projects eligible under § 35.855 (b) of this subpart.

### § 35.880 Grant amount.

(a) For projects described in § 35.855 (a) of this subpart, the grant amount shall not exceed a total amount equal to the difference between the amount of Federal financial assistance, if any, received under Public Law 84–660 (as amended) for such project, and, where eligible, 50 percent of the allowable costs of such project (or 55 percent of such costs where the Administrator determines that project construction was undertaken in conformity with a comprehensive metropolitan treatment plan); provided, that reimbursement for project costs from all Federal grant sources may not exceed 80 percent of the costs of the project. No project described in §35.875(a) of this subpart, shall receive a grant in an amount greater than the difference between the grant amount received and the amount for which the project was eligible under section 8(c) of Public Law 84–660 (as amended).

(b) For projects described in § 35.855 (b) of this subpart, the grant amount shall not exceed a total amount equal to the difference between the amount of Federal financial assistance, if any, received under Public Law 84–660 (as amended) for such project and 30 percent of the allowable costs of such project.

(c) The eligible project cost, upon which the eligible grant amount is computed, will be based on project costs as they are validated as of September 30, 1973.

(d) A reimbursement grant will be rounded downward to the nearest hundred dollars. Reimbursement grants will not be awarded to projects entitled to reimbursement of less than $1,000.

### § 35.885 Obligation and payment schedule.

(a) Allocations from the funds available under Public Law 92–399 will be made in accordance with §§ 35.870, 35.875, and 35.880. The obligation of reimbursable grant awards to the eligible projects will commence thereafter.

(b) The initial payment request from recipients of reimbursement grant awards will be based on the amount earned (construction-in-place) on each individual project as of September 30, 1973.

### § 35.890 Initiation of construction.

The phrase "initiation of construction," as used in this subpart, means the issuance to a construction contractor of a notice to proceed, or, if no such notice is required, the execution of a construction contract.

### § 35.895 Disputes.

Final determinations by the Regional Administrator concerning applicant eligibility, the amount to which an applicant is entitled, or allowability of costs shall be conclusive unless appealed within 30 days in accordance with the "Disputes" article (Article 7) of the EPA General Grant Conditions (Appendix A, Subchapter B of this title).

## WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

This unique service makes available transcripts of the President's news conferences; messages to Congress; public speeches, remarks, and statements; and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. It includes an Index of Contents and a system of cumulative indexes. Other finding aids include lists of laws approved by the President and of nominations submitted to the Senate, a checklist of White House releases, and a digest of other White House announcements.

This systematic publication of Presidential items provides users with up-to-date information and a permanent reference source concerning Presidential policies and pronouncements.

# List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER Issue of each month.

## Title 32—National Defense

## CHAPTER VII—DEPARTMENT OF THE AIR FORCE

### SUBCHAPTER I—MILITARY PERSONNEL

### PART 881—APPOINTMENT IN COMMISSIONED GRADES—RESERVE OF THE AIR FORCE AND UNITED STATES AIR FORCE (TEMPORARY)

This revision provides for waiver of retirement eligibility provisions for appointment of chaplains and certain categories of medical service personnel when a critical requirement exists; revises military service obligation, age, and education requirements for appointment of nonextended active duty Reserve airmen; stipulates that Department of State Form FS-240 is acceptable as proof of citizenship for persons born abroad of American parents; restates basic educational requirements; clarifies the maximum amount of constructive service credit awardable upon appointment in grade of second lieutenant; adds AF Form 2061, to the list of forms comprising the application; provides for the commissioning of medical service personnel for assignment to Ready Reserve units of the United States Air Force Reserve and Air National Guard of the United States prior to completion of a National Agency Check; revises the certificate containing conditions for retention of commission which must be signed by chaplain candidate applicants; updates Air Force Specialty Codes for officers appointed to undergo training in various health fields; defines the types of internships required for appointment as a dietitian; updates criteria for commissioning under the Dietetic Training Program; updates the educational requirements for appointment as a medical entomologist or clinical psychologist; updates the educational and experience requirements for appointment as a biomedical laboratory officer or a social worker; changes biomedical "therapist" to biomedical "specialist"; and updates references and terminology throughout the part.

Part 881, Subchapter I of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Subpart A—General Information

Sec.
881.1 Purpose.
881.2 Statutory authority.
881.3 Duration of appointment.
881.4 Temporary appointments.
881.5 Procurement objectives.

Subpart B—Eligibility Requirements

881.10 Persons eligible for appointment.
881.11 Persons ineligible for appointment.
881.12 Former officers of the Regular Air Force.
881.13 Former officers of any of the services.
881.14 Reserve officers of other Armed Forces of the United States.
881.15 Former rated officers.
881.16 School of Military Sciences, Officer (SMSO), and AFROTC graduates.
881.17 Appointment as a ResAF officer for assignment to the Retired Reserve and placement of name on the U.S. Air Force Reserve Retired List.
881.18 Appointment as a ResAF upon removal from the Temporary Disability Retired List (TDRL) (10 U.S.C. 1211).
881.19 Posthumous appointments.
881.20 Appointment of USAFR airmen not on extended active duty.
881.21 Appointment for entry on active duty.
881.22 Eligibility requirements.
881.23 Awards of constructive service.
881.24 U.S. Air Force (Temporary) appointments.

Subpart C—Application and Processing Procedures

881.30 How to apply.
881.31 Examining boards.
881.32 Processing and testing.
881.33 Selection of applicants.
881.34 Personnel security investigations.
881.35 Appointment and notification.
881.36 Validity of oaths of office and acceptances.

Subpart D—Appointment of Judge Advocate Officers

881.40 Submitting applications.
881.41 Professional qualifications.
881.42 Appointment and reappointment.

Subpart E—Appointment of Chaplains

881.50 Application for the Air Force chaplaincy.
881.51 Compensatory professional considerations.
881.52 Ecclesiastical endorsement.
881.53 The Chaplain Candidate Program.

Subpart F—Appointments of Physicians (Includes Osteopath), Dentists, Veterinarians, and Nurses

881.60 How to apply.
881.61 Submission of DD Form 62, Statement of Acceptability.
881.62 General qualifications for appointment.
881.63 Doctors of medicine (MD).
881.64 Doctors of osteopathy (DO).
881.65 Doctors of dentistry (DDS and DDM).
881.66 Doctors of veterinary medicine (DVM).
881.67 Appointment of nurses.

Subpart G—Appointment of Officers in the Medical Service Corps

881.70 Application, processing and selection.
881.71 Health services administrator (AFSC 9021).
881.72 Other applicants.

Subpart H—Appointment of Officers in the Biomedical Science Corps

881.80 Application, processing and selection.
881.81 Dietitian (AFSC 9216A).
881.82 Occupational therapist (AFSC 9226).
881.83 Physical therapist (AFSC 9236).
881.84 Appointment for training.
881.85 Pharmacy officer (AFSC 9241).
881.86 Optometry officer (AFSC 9251).
881.87 Bioenvironment engineer (AFSC 9121).
881.88 Medical entomologist (AFSC 9131).
881.89 Biomedical laboratory officer (AFSC 9151).
881.90 Aerospace physiologist (AFSC 9161).
881.91 Health physicist (AFSC 9171).
881.92 Clinical psychologist (AFSC 9181).
881.93 Social worker (AFSC 9191).
881.94 Biomedical specialist (AFSC 9261).

AUTHORITY.—10 U.S.C. 591, 1211, 8012, 8067, 8353, 8359, and 9411 and chapter 103.

### Subpart A—General Information

**§ 881.1 Purpose.**

(a) This part states the policies and procedures governing the direct appointment of commissioned officers as Reserves of the United States Air Force or as commissioned officers in the United States Air Force. It explains the method of application, eligibility requirements, and where to apply for appointment.

(b) Part 806 of this chapter states the basic policies and instructions governing the disclosure of records and tells members of the public what they must do to inspect or obtain copies of the material referenced herein.

**§ 881.2 Statutory authority.**

The statutory authority for appointments tendered according to this part is contained in 10 U.S.C., sections 591, 593, 1211, 8067, 8353, 8358, 8359, 8444, and 9411 and chapter 103.

**§ 881.3 Duration of appointment.**

All Reserve of the Air Force (ResAF) appointments are for an indefinite term. All U.S. Air Force (Temporary) appointments effected during a war or National Emergency will continue for the duration of such war and for six months thereafter, unless sooner terminated.

**§ 881.4 Temporary appointments.**

(a) Appointments in the U.S. Air Force without component (Temporary) will be made only according to special instructions issued by Headquarters U.S. Air Force, except as stated in paragraph (b) of this section.

(b) Physicians and dentists who are resident aliens or conscientious objectors normally do not qualify for Reserve appointments; however, such persons who have a liability for training and service under the Military Selective Service Act may be appointed, if otherwise qualified, as follows:

(1) Applicants who are 26 years of age or over at time of appointment will be

V 38 I 187 SEP 27 73 XUM

tendered temporary appointments in the grades specified. Temporary appointments made under this authority terminate upon appointee's release from active duty.

(2) Applicants, including participants in the Armed Forces Physicians' Appointment and Residency Consideration Program (Berry Plan), who must be appointed on a date that will require acceptance of commission before age 26 will be initially tendered Reserve appointments. The provisions of §§ 881.11 (f) and 881.22(b) are waived in this instance.

(3) Noncitizen applicants must possess a valid Immigration and Naturalization Service (INS) Alien Registration Receipt Card (which may be obtained from the local Immigration and Naturalization Office), as evidence of lawful entry into the United States for permanent residence. Since reproduction of this form is prohibited, the applicant must submit the following statement signed by an officer, notary public or other person authorized to administer oaths:

I certify that I have this date seen INS Form I-151 issued to ---------- (name of applicant) indicating lawful entry into the United States for permanent residence on ---------- (date)

---------- (Signature) ---------- (Date)

(c) Nondeclarant aliens who are appointed to commissioned status may place their present citizenship in jeopardy by executing the Oath of Office (Military Personnel). If a nondeclarant alien indicates, while being processed for a commission, that he does not desire to take the oath of allegiance prescribed by Air Force Regulation 36-39, he may be administered the following oath of service and obedience in the same manner as the Oath of Office (Military Personnel).

I ----------, a citizen of (typed printed name) ----------, and without intention of surrendering such citizenship, having been appointed a ---------- do solemnly swear (or affirm) that I will serve the United States against all its enemies whomsoever, and that I will honestly and faithfully discharge the duties of the office upon which I am about to enter, So Help Me God.

(d) Noncitizen physicians and dentists who receive temporary appointments may be tendered Reserve appointments upon request and submission of proof of citizenship as outlined in this part.

### § 881.5 Procurement objectives.

(a) Appointments will be made by grade and category in numbers required and authorized by Headquarters U.S. Air Force. Appointments will be made only to meet procurement objectives in the categories for which appointments are currently authorized and within the grade ceilings established by law. Reserve and temporary appointments above the grade of major are made at the direction of the President, by and with the advice and consent of the Senate.

(b) Persons selected for appointment must be fully qualified according to criteria in this part and/or other Air Force directives. Appointment is not assured merely by reason of meeting the established requirements. Only persons who are best qualified will be appointed.

(c) Appointments normally will be made to fill authorized Ready Reserve position vacancies or active duty requirements.

(d) Outstanding persons in business, scientific, professional, or technical fields who do not meet eligibility criteria, but who have demonstrated through their civilian occupation that they are outstanding in their field, may be appointed upon approval of the Secretary of the Air Force. Generally, they must have attained such prominence in their field or specialty as to be nationally known.

## Subpart B—Eligibility Requirements

### § 881.10 Persons eligible for appointment.

A person with or without prior military service may apply unless he is ineligible under § 881.11. This authorization includes airmen and warrant officers who are Reserves of the Air Force or members of the Regular Air Force or the United States Air Force (Temporary).

### § 881.11 Persons ineligible for appointment.

(a) A commissioned officer of the Armed Forces serving on active duty, except as provided by this part. However, the Air Force does have provisions for interservice transfer of officers on active duty.

(b) An enlisted member or warrant officer of the Army, Navy, Marine Corps, or Coast Guard serving in the active service of the United States.

(c) An officer, warrant officer, or enlisted member in the Reserve Forces of the U.S. Army, Navy, Marine Corps, Coast Guard, National Oceanic and Atmospheric Administration, and Health Services and Mental Health Administration, unless he has obtained a conditional release from his appointment or enlistment and is not on active duty or under orders to report for active duty.

(d) A person who has previously applied for appointment under this part, but was not selected, or who was selected and declined appointment is ineligible to apply for six months from the date of notification of previous rejection or declination.

(e) A person disenrolled or eliminated from a training program leading to a commission as an officer for the following reasons unless prior approval is obtained from Headquarters U.S. Air Force:

(1) Resignation or dismissal from an officer training program of the Army, Navy, Air Force, Coast Guard, or Merchant Marine, because of military inaptitude, indifference, undesirable traits of character, disciplinary reasons, evasion of a contractual agreement, or declination of a proffered commission. Superintendents of military academies and commanders of officer training programs may recommend waivers only in exceptional cases worthy of consideration.

(2) Elimination from an officer training program of the Army, Navy, Air Force, Coast Guard, or Merchant Marine for lack of academic progress or breaches of the honor code.

(3) Elimination from a civilian operated military institution by the educational authorities because of violations of the institution's honor code.

NOTE.—Requests for determination of the eligibility of applicants disenrolled or eliminated for any of the reasons stated above will be made only in rare cases of sufficient merit to justify consideration. The applications, together with the record of disenrollment from officer candidate type training will be reviewed by the Air Force Military Personnel Center before appointment. If approved, normally an individual will not be appointed until after the date of graduation of the class from which eliminated.

(f) A conscientious objector.

(g) A person who admits or whose records show that he has at any time engaged in any of the activities in Air Force Regulation 35-62 (Security Program) or who is reasonably believed to have done so.

(h) A person who intentionally fails or refuses to accomplish the Armed Forces Security Questionnaire, in its entirety. If a medical or dental applicant for appointment is subject to induction and intentionally fails or refuses to accomplish this questionnaire, he will not be appointed; his induction will be handled by the Selective Service System.

(i) A person with a record of conviction (for other than minor traffic violation) by any type of military or civil court. However, he may request the appointing authority to grant a waiver for other minor violations that are nonrecurrent and are not considered prejudicial to peformance of duty as an officer. The applicant must include a request for waiver with his application, stating fully the circumstances of the case. Each request for waiver will be considered on its own merit and evaluated in connection with the National Agency Check (NAC) or other appropriate security investigation.

(j) A former officer, warrant officer, or enlisted member of any of the Armed Forces who has been or is being released from active duty or discharged from the service for one of the following reasons:

(1) Conditions other than honorable.

(2) Unsatisfactory service or failure to meet standards of performance prescribed by the Secretary concerned.

(3) Resignation in lieu of court-martial, reclassification, elimination, or any form of corrective or disciplinary action.

(4) Court-martial or board action initiated because of his inefficiency or misconduct, or for security reasons.

(5) Failure of selection for promotion.

(6) Dropped from the rolls of the service concerned because of confinement to a State or Federal penitentiary or correctional institution, or absence without authority for a period of three months.

(7) Failure to meet minimum Reserve participation requirements.

(8) Failure to respond to official correspondence.

NOTE.—Waivers may be granted for subparagraphs (7) and (8) of this paragraph on an individual basis for former rated officers applying under § 881.15 and for former line officers applying under Subpart F of this part.

(9) Elimination from the Inactive Status List Reserve Section (ISLRS).

(10) Physical disability.

(11) Any condition for which severance pay is received.

(12) Hardship or national health, safety, or interest reasons.

(13) Any other reason, when appointment would not be in the best interest of the service.

(k) A person on the retired roll of any of the Armed Forces, Health Service and Mental Health Administration, Coast Guard, or National Oceanic and Atmospheric Administration.

(l) A cadet of any of the service academies, including the Coast Guard and Merchant Marine, and persons enrolled in a course of training or instruction leading to a commission in any of the Armed Forces.

(m) An officer who is a deferred officer as defined in 10 U.S.C. 8368 or who has had his name removed from the recommended list under 10 U.S.C. 8377.

(n) A person who will not be available for active duty within 30 days:

(1) From date of acceptance of appointment, when appointment depends upon immediate entry on active duty.

(2) From date of issuance of the order calling him to active duty in time of war or National Emergency hereafter declared by the President or by Congress, or when otherwise authorized by law, if appointment is based upon Air Force Reserve requirements and not upon immediate entry on active duty.

(3) Because he is principally engaged or employed in a key position in an essential civilian or government activity related to the defense effort.

(4) Because he is undergoing apprenticeship training in a critical civilian occupation.

(o) A person who has been ordered to report for preinduction medical examination or other appropriate processing usually conducted immediately preceding induction under the Military Selective Service Act or who is classified 1-A unless he obtains statement from his Selective Service Board that he is not scheduled for induction within the following 120 days. A person who has applied and is later classified 1-A may remain eligible for consideration until the date he is notified to report for induction, at which time he becomes ineligible for further consideration or appointment.

(p) A person who cannot qualify for retirement under 10 U.S.C. 8911 (active duty retirement) or 10 U.S.C. 1331 (Reserve retirement), before or upon removal from an active status unless he acknowledges in writing that retention for retirement is not possible.

NOTE.—Current laws require the termination of active status of Reserve officers who reach age 60 and those in grades of lieutenant colonel and below who are not on a recommended list for promotion to colonel upon completion of 28 total years of service computed from total years service date (TYSD). Current laws also allow the Secretary of the Air Force to approve, on an individual basis, the retention of certain medical service officers and chaplains until age 60 regardless of total years of service.

### § 881.12 Former officers of the Regular Air Force.

(a) An officer of the Regular Air Force (RegAF) who is honorably separated by reason of unqualified resignation and has a remaining military service obligation (MSO) or unfulfilled contractual agreement may be separated contingent upon his acceptance of a Reserve appointment in the grade to which entitled.

(b) A former officer of the RegAF who has no MSO or unfulfilled contractual agreement and is honorably separated by reason of unqualified resignation may, at the time he renders his resignation, request an appointment as a ResAF officer. Appointment as a ResAF will be made by a letter of appointment, and acceptance must be accomplished after discharge from the RegAF.

(c) A RegAF officer who does not request a Reserve appointment at the time of his resignation may apply direct to AFMPC/DPMAJB1, Randolph Air Force Base, Texas 78148, and be considered up to one year from the date of his discharge.

(d) Appointment may be made in the permanent or temporary grade in which serving at time of discharge. Constructive service appropriate for the grade will be awarded based on length of active Federal commissioned service and education, where applicable. Constructive service will also be awarded for prior service in an active status as a Reserve officer not on extended active duty for the years in which minimum participation requirements for retention and retirement were satisfied.

(e) Air Force policy is to appoint as ResAF officers only individuals who normally may be expected to participate in Reserve activities and who will be available for immediate active service. Under current laws, an individual who is preparing for the ministry in a recognized theological or divinity school may not be required to serve on active duty or to participate in active duty training service, active duty for training, or inactive duty training. Accordingly, an officer of the RegAF who resigns to enter seminary training is not eligible for appointment as a ResAF officer. He may, however, apply for appointment as a Chaplain upon meeting specified requirements as issued in pertinent Air Force regulations.

(f) In addition to other requirements, a former chaplain of the RegAF must submit a current ecclesiastical endorsement for appointment as a ResAF. A former chaplain may not be appointed in any other category.

### § 881.13 Former officers of any of the services.

Except for those who are ineligible under § 881.11, former officers of any of the services may be appointed for duty in any specialty for which they are qualified and for which there is a procurement quota. Former officers may not be tendered appointments based solely on prior service, except as prescribed by Air Force directives.

### § 881.14 Reserve officers of other Armed Forces of the United States.

A Reserve officer of another Armed Service of the United States not on active duty may be appointed as a ResAF in any grade (or equivalent permanent grade) held as a Reserve of the Armed Forces concerned, without appearing before an examining board.

Exception: Appointment may be made in a lower or higher grade only when the Reserve commission held in the other Armed Force is in other than a professional category (medical, dental, legal, etc.) and the applicant desires and qualifies for appointment in a professional category in the Air Force for which a procurement authorization exists. He will be awarded a permanent Reserve grade and date of rank as determined by the appointment laws in effect for the U.S. Air Force.

### § 881.15 Former rated officers.

Former rated officers of any of the services (including RegAF officers who did not apply for a Reserve commission within one year after resignation) may be appointed in a grade held at time of discharge, not above O-4, to fill rated positions in the Ready Reserve.

### § 881.16 School of Military Sciences, Officer (SMSO), and AFROTC graduates.

(a) *SMSO graduates.* Applicants must have successfully completed the prescribed course and be recommended for appointment by a faculty board.

(b) *AFROTC graduates.* Applicants must have successfully completed the prescribed academic military training requirements.

### § 881.17 Appointment as a ResAF officer for assignment to the Retired Reserve and placement of name on the U.S. Air Force Reserve Retired List.

An individual who qualifies for membership in the Retired Reserve and does not hold a Reserve commission may be appointed under this section for the sole purpose of assignment to the Retired Reserve. Appointment will be made in the highest grade he has satisfactorily held or is eligible for by law. Former members separated for reasons involving

V 38 187 SEP 27 73 XUM

moral or professional dereliction normally will not be tendered an appointment. Eligibility for appointment under this section is not governed by the other conditions outlined in this part.

**§ 881.18 Appointment as a ResAF upon removal from the Temporary Disability Retired List (TDRL) (10 U.S.C. 1211).**

If a member is removed from the TDRL following a finding that he is physically fit, he will be appointed the day following discharge from the TDRL. Reappointment will normally be in the Reserve grade with promotion service date held at the time he was placed on the TDRL.

**§ 881.19 Posthumous appointments.**

A posthumous appointment as a ResAF may be issued in the name of a member of the Air Force who was selected for appointment or had successfully completed an officer training school and been recommended for appointment by the school's commander, but was unable to accept appointment because of death in the line of duty. (AFROTC cadets are ineligible for posthumous appointments.)

(a) No financial benefits will accrue as a result of a posthumous appointment.

(b) Authority: 10 U.S.C., chapter 77.

**§ 881.20 Appointment of USAFR airmen not on extended active duty.**

Direct appointment of qualified and deserving airmen not on extended active duty to officer status and a concurrent Ready Reserve assignment may be made under the quotas and criteria as prescribed by the U.S. Air Force.

**§ 881.21 Appointment for entry on active duty.**

Persons who are eligible and who meet recall criteria may be appointed for immediate recall to active duty. Appointments in grades above captain will be made only when vacancies exist. Appointments may be made under this authority only in skills listed on current recall requirements listings.

**§ 881.22 Eligibility requirements.**

(a) *Moral requirements.* Applicant must possess high moral character and personal qualifications.

(b) *Citizenship requirements.* A person appointed as a Reserve of the Air Force under this part must at the time of appointment be a citizen of the United States. An individual who is not a citizen by birth must submit the statement in subparagraph (1) of this paragraph, signed by an officer, notary public, or other person authorized by law to administer oaths. In no circumstances will facsimiles or copies (photographic or otherwise) of naturalization certificates, declarations of intention, certificates of citizenship, or alien registration receipt cards be made. Title 18 U.S.C. 1426(h) provides that "whoever, without lawful authority, prints, photographs, makes or executes a print or impression in the likeness of a certificate of arrival, declaration of intention to become a citizen, or certificate of naturalization or citizenship, or any part thereof, shall be fined not more than $5,000 or imprisoned not more than 5 years, or both." Submission of the document in subparagraph (2) of this paragraph is acceptable as proof of citizenship for persons born of American parent(s) outside the United States.

(1) For persons who are not citizens by birth:

I certify that I have this date seen the original certificate of citizenship No. ---------- (or certified copy of the court order establishing citizenship) stating that ---------- ---------- was admitted to United States citizenship by the court of at ----------
(District or county)
---------- on ----------
(City and State) (Date)

---------- ----------
(Signature) (Date)

(2) For persons born of American parent(s) outside the United States. Authenticated copy of Department of State Form FS-240, Report of Birth Abroad of a Citizen of the United States of America. This form is referred to as the Consular Report of Birth and may be obtained from the Authentication Officer, Department of State, Washington, D.C. 20520.

NOTE.—Burden of proof is upon the applicant.

(c) *Medical requirements.* All applicants must be medically qualified, or medically acceptable with waiver for Air Force commission. A report of medical examination will be accomplished not more than 90 days before the date of application. Except for women applicants, medical examinations will be without expense to the Government. Women applicants for commission may be examined by qualified civilian physicians where no military examining capability exists. Funds provided for the operation of the U.S. Air Force Recruiting Service will be used for this purpose. Travel performed in connection with medical examination will be without expense to the Government.

(d) *Age, education, experience, and grade requirements*—(1) *Age.* By law, no person under the age of 18 years will be appointed as a Reserve of the Air Force. Age criteria for commissioning through AFROTC and SMSO are contained in directives relating to such programs.

(2) *Education.* Only education above high school level gained at accredited institutions will be acceptable for the purposes of this part. Institutions recognized for credit must have national or regional accreditation as listed in the current issue of the Education Directory, Higher Education, published by the Office of Education, Department of Health, Education, and Welfare, or from a college or university not so accredited but listed in the directory. An applicant whose credits are from a school which is neither accredited nor listed in the education directory must present a statement or transcript indicating that his credits are acceptable for unconditional admission into the graduate school of, or for full transfer to, a nationally or regionally accredited college or university, except as otherwise provided by Air Force directives.

(3) *Experience.* (i) Only experience gained through full-time employment in a responsible position directly related to the specialty of appointment is acceptable for making grade determination and the award of constructive service credit. Any additional education or training in a field allied to nursing (includes anesthesia training) attained after graduation from a school of nursing will be credited as experience. Normally an applicant must have completed at least 12 months of employment before his experience is acceptable. If an applicant's record of experience is questionable, a statement must be obtained from his employer.

(ii) Unless otherwise provided, only experience gained after applicant attained the appropriate degree is creditable as service in an active status for appointment to duty in one of the applicable specialties.

(5) *Grade.* Grade is determined by the combined education and experience constructive credits the applicant possesses. If on date of his application an applicant possesses experience pertinent to his specialty that is in excess of that required for appointment as second lieutenant, it will be converted to constructive service credits by year, month, and day on a day-to-day basis.

**§ 881.23 Award of constructive service.**

The award of constructive service to reflect an applicant's combined years of education and experience was originally authorized by Section 201 of the Reserve Officer Personnel Act of 1954 (ROPA), now codified as 10 U.S.C. 8353. ROPA became effective on July 1, 1955, and contains no retroactive provisions. Accordingly, persons appointed before the effective date of the law (July 1, 1955) are not eligible for any constructive service credit.

(a) The constructive service credit possessed by an applicant is the amount of education and experience credited for grade determination. Constructive credit in excess of that required for the next higher grade, will be awarded as promotion service in grade.

(b) The award of constructive service credit will be limited to the minimum amount required for appointment in the determined grade.

(c) The amount of constructive service awarded for education will be as specified by the U.S. Air Force regardless of the actual time spent in acquiring the degree. At time of appointment, the following conditions must be met:

(1) The degree must have been conferred; or

(2) An authorized official of the educational institution awarding the degree must certify that the applicant has completed all of the requirements for the degree which will be conferred at a later specified date; and

(3) The degree must relate to the specialty in which appointment is being made.

(d) Persons who earn a degree for which constructive service is allowable, but who do so while in a commissioned status may, upon an authorized reappointment, be credited with either constructive service or their commissioned time for total years service date, but not both.

(e) Persons commissioned during a portion of the time spent in earning a degree may, upon an authorized reappointment, be awarded constructive service credit for education for the time not duplicated by commissioned service.

**§ 881.24 U.S. Air Force (Temporary) appointments.**

Total year service date and promotion service date will not be computed for officers holding only U.S. Air Force (Temporary) appointments.

**Subpart C—Application and Processing Procedures**

**§ 881.30 How to apply.**

(a) Except for procedures that apply only to SMSO and AFROTC, the documents in subparagraphs (1) through (22) of this paragraph, properly completed, constitute the application. Documents required by subparagraphs (3) through (6), (9), (11), (12), (14), and (16) of this paragraph are not required for officers on extended active duty applying for reappointment as judge advocates under Subpart D. Officers already designated as judge advocates or assignment to the Judge Advocate General's Department who apply for reappointment under Subpart D need not submit documents previously submitted if they are still current. Line of the Air Force officers desiring reappointment to the Medical Service Corps or the Biomedical Science Corps should submit application by letter. Airmen on active duty need not submit documents required by subparagraphs (4) through (6) of this paragraph if a personnel security investigation has been completed.

(1) AF Form 24, Application for Appointment as Reserves of the Air Force or USAF Without Component.

(2) Original or photostat of honorable discharge certificate or certificate of service, a copy of the order effecting discharge, and statement of service, when applicable. Applicants with prior active military service will submit a photostatic copy of DD Form 214, Report of Separation from Active Duty. For judge advocate appointees, a copy of the individual's certificate of graduation from an accredited law school and a copy of his certificate of admission to the bar of a Federal court or the highest court of a State, as applicable, will be submitted.

(3) Standard Form SF 88, Report of Medical Examination, and SF 93, Report of Medical History.

(4) DD Form 398, Statement of Personal History.

(5) DD Form 98, Armed Forces Security Questionnaire.

(6) FD Form 258, FBI Fingerprint Card.

(7) Transcripts of college work as evidence of educational level. Graduates of recognized colleges of dentistry, medicine, optometry, pharmacy, and veterinary medicine, and applicants for appointment in the Medical Service Corps may submit a photostatic copy of college diploma in lieu of a transcript.

(8) Conditional release from another Armed Force or component in which appointment is currently held, if applicable.

(9) A certificate similar to the following, except for women and chaplain applicants:

I certify that I have not been ordered to report for induction under the Military Selective Service Act. After submitting application for appointment as a Reserve of the Air Force, I understand that any appointment, enlistment, or order to active military service in a branch of the service other than the Air Force automatically renders me ineligible to accept an appointment as a Reserve of the Air Force.

---------- ----------
(Signature) (Date)

(10) Any other documents or information the applicant may desire to submit as evidence of his qualifications for appointment.

(11) For a civilian employee of the Federal Government, a "Certificate of Availability of Federal Employee."

(12) DD Form 1644, Ready Reserve Service Agreement, for persons whose appointment is contingent upon assignment to a Ready Reserve unit or mobilization augmentation position.

(13) Persons applying under Subparts, D, E, F, G, or H of this part must submit the additional documents listed in those subparts.

(14) Men applicants, other than chaplains, physicians, dentists, and veterinarians, who have not attained their 26th birthday and who have had no prior military status must submit the following statement:

If I am tendered an appointment as a Reserve of the Air Force, I understand that upon acceptance of appointment I am required by law to serve on active duty and in a Reserve component for a total of 6 years unless sooner discharged in accordance with regulations and standards prescribed by the Secretary of Defense. I understand that although the appointment is tendered and accepted for an indefinite term, my obligated service will be for a period of 6 years. I understand that I may qualify for transfer to the Standby Reserve on completion of a combination of active duty and satisfactory Ready Reserve participation totaling at least 5 years or upon completion of a combination of my military service obligation, whichever is earlier. I further understand that if my appointment is contingent upon concurrent Ready Reserve assignment, I will be required to meet the participation requirements of the unit to which assigned. I understand that while I am serving in a draft-deferred status, I am subject to mandatory assignment. I have been counseled and understand that I will become subject to involuntary order to active duty for up to 24 months if I fail to satisfactorily perform training requirements.

---------- ----------
(Signature)

(15) Men physicians, dentists, and veterinarians, including those who have reached age 26 or over, whose appointments are contingent upon concurrent assignment to a Ready Reserve position must sign the following statement and have it witnessed:

If I am tendered an appointment as a Reserve of the Air Force, I understand and agree to accept Ready Reserve status for a period of 5 years, or until age 35, whichever occurs first, effective on the date of my appointment. Provided that I satisfactorily participate as a member of a Ready Reserve unit, I will not be liable, as provided under 50 U.S.C.A. App. 454(1) (1) for active military service as the result of special draft calls.

I understand that I must participate in 48 inactive duty training periods or assemblies and up to 15 days' active duty training annually, or 30 days of active duty training annually or as required by my Reserve assignment, unless excused therefrom by proper authority.

I understand that if I fail or refuse to participate satisfactorily as determined by the Secretary of the Air Force I may be discharged or referred to the appropriate Selective Service Board for induction, as appropriate.

Witnessed by:

---

---
(Date)

---
(Signature of applicant)

---
(Date)

(16) For persons whose appointments are for inactive duty, AF Form 1288, Application for Reserve Assignment, and a statement from the commander of the Ready Reserve unit that a vacancy exists within the unit and the appointment of the applicant is requested to fill the vacancy.

(17) For an applicant who has been eliminated from a course of training leading to a commission, the commander or activity responsible for the preliminary processing of the application will obtain and attach DD Form 785, Record of Disenrollment from Officer Candidate Type Training.

(18) Appropriate certificate required by § 881.22(b), when applicable.

(19) For airmen applicants on extended active duty, the servicing Consolidated Base Personnel Office (CBPO) will furnish an AF Form 47, Certificate of Eligibility and Record of Personnel Security Clearance, as evidence of completed security investigation.

(20) For those seeking appointment as a judge advocate, a report of interview by an active duty career judge advocate, prepared according to separate instructions issued by the Judge Advocate General, USAF.

(21) AF Form 2061, USAF Drug Abuse Certificate (Appointment/Officer Training Applicants Only), an AF Form 2031,

V 38-187
SEP 27 73
XUM

Drug Abuse Circumstances (when applicant requests an individual evaluation on AF Form 2061).

(22) All applicants for commission in the medical services for assignment to USAFR Ready Reserve units or mobilization autmentee positions must sign the following statement and have it witnessed:

I agree to attend Medical Service Officers Orientation Course, MOBMO 104–1, as soon as possible but not later than 1 year after I receive my commission as an officer of the Medical Service.

Witnessed by:

---

(Signature of applicant)

---

(Date)

(b) Physicians and allied medical specialists allocated to the Air Force under special draft calls will be processed as follows:

(1) DD Form 1548, Preinduction Processing and Commissioning Date—Medical, Dental, and Allied Specialists Categories constitutes the application for appointment and active duty.

(2) Standard Forms 88 and 93, Report of Medical Examination and Report of Medical History will be submitted with the DD Form 1548. Reports of medical examinations are acceptable for 2 years from date of examination.

(3) Graduates of foreign medical schools must furnish evidence of permanent certification by the Educational Council for Foreign Medical Graduates.

### § 881.31 Examining boards.

(a) Examining boards will be appointed to make recommendations for individuals who have not held an appointment and are being considered above the grade of major under 10 U.S.C. 594.

(b) Examining boards will be composed of an uneven number of officers totaling not less than three, the majority of whom are Reserve and all of whom are in a grade equal to or higher than the grades for which applicants are being considered. When a woman applicant is being considered, one of the board members will be a woman officer. Reserve officers appointed to these boards may or may not be on active duty.

(c) Any person who receives a notice of induction under the Military Selective Service Act and is allocated to the Air Force, and is otherwise qualified for appointment as a physician or dentist in a grade higher than major, will be appointed in such grade without referral to a board of officers.

### § 881.32 Processing and testing.

(a) Within 15 workdays after the application has been received from the major command, the applicant will be notified of the time and place he must appear for processing and testing. Applicants not in the active military service must provide for travel, quarters, and meals at their own expense. Applicants will be scheduled so that, as far as practical, they will not have to spend more than 2 days at the place of processing. If an applicant fails to report for processing on the scheduled date, every reasonable attempt will be made to determine reasons for failure to report. A new reporting date will be established, if the applicant desires it.

(b) Testing. (1) Unless exempt, each applicant will be administered the Air Force Officer Qualifying Test (AFOQT). No minimum qualifying scores are established. The test will be conducted according to current and appropriate instructions for administering and scoring the AFOQT battery to derive the following:

(i) Officer quality.
(ii) Verbal aptitude.
(iii) Quantitative aptitude.

(2) The following categories are exempt: (i) Former Officers.

(ii) Officers of any of the services except those applying for entry into pilot or navigator training who must meet the established requirements.

(iii) Individuals applying under Subparts E, F, G of this part (§ 881.72), and Subpart H of this part.

(3) Testing requirements for AFROTC students and individuals enrolled in the School of Military Sciences, Officer, are outlined in directives relating to those programs.

(4) The AFOQT will be administered by a test control officer or authorized personnel of the Recruiting Service.

(c) Medical examination. Each applicant will be given a medical examination, if applicable.

(d) Fingerprinting. Examining centers will fingerprint each applicant. FD Form 258, FBI Fingerprint Card will be used.

### § 881.33 Selection of applicants.

Applicants will be selected through the use of a quality-oriented system including, but not limited to factors such as education, experience, test scores, potential and motivation.

### § 881.34 Personnel security investigations.

| Rule | A<br>If an applicant— | B<br>Then he may not be tendered an appointment until (note 1)— |
|---|---|---|
| 1 | Is an immigrant alien physician or dentist | A report of a background investigation (BI) under AFR 205-32, USAF Personnel Security Program, has been completed and a favorable report rendered. |
| 2 | Has a father, mother, sisters, brothers, spouse, or children residing in one of the countries listed in AFR 205-32, atch 6. | |
| 3 | Is a U.S. citizen and has resided or traveled in a country listed in AFR 205-32, atch 6, for 30 or more continuous days after dates indicated (note 2). | |
| 4 | Made entries on DD Form 98 that provide reasons for belief that the appointment may not be clearly consistent with the interest of National security. | |
| 5 | Is not listed in rules 1–4 | A National Agency Check (NAC) has been completed and a favorable decision rendered. |
| 6 | Is an Air Force member under consideration for appointment with a Limited National Agency Check (LNAC). | A NAC has been completed and a favorable decision rendered if the break in service or employment exceeds 1 year. |
| 7 | Has a break in service or employment after a prior investigation under AFR 205-32. | |

NOTE–1. Individuals applying for appointment in any of the corps of the medical services for assignment to Ready Reserve units (USAFR and ANG (US) may be appointed prior to completion of the appropriate personnel security investigation provided the following Certificate of Understanding is submitted with the application.

I understand that my appointment as a commissioned officer in the Reserve of the Air Force is being accomplished prior to completion of the required security investigation. I further understand that if as a result of completion of the postcommissioning investigative procedures I am determined unacceptable for appointment as a commissioned officer, I will be discharged from the United States Air Force and that I will receive an Honorable Discharge Certificate.

2. Travel or residence in these countries under the auspices of the U.S. Government will not be considered.

### § 881.35 Appointment and notification.

(a) Appointments will be made by letter or administrative orders.

(1) The Air Force Specialty Code (AFSC) reflecting the appointee's education and experience which were considered in making the appointment will be shown in all appointment letters (except those for graduates of the AFROTC program).

(2) Graduates of the School of Military Sciences, Officer, will be notified by administrative orders instead of letters of appointment.

(3) Each applicant will be notified of his appointment or nonselection.

(b) Appointments will be issued as of current date and will be effective from the date of acceptance.

(c) When an appointee fails to accept an appointment, the appointing authority will cancel the appointment by reason of nonacceptance and notify the appointee.

### § 881.36 Validity of oaths of office and acceptances.

(a) When an individual is elected or appointed to an office of honor or trust under the Government of the United States, he is required, before entering upon the duties of the office, to take and subscribe to an oath of office or an oath of service and obedience under specified conditions without reservations or modifications. Appointment of any individual who does not desire to execute the oath of office or the oath of service and obedience without reservation will

be canceled. In the situations described in paragraphs (b) and (c) of this section, when an acceptance is established by other means, submission of a properly executed oath of office is a prerequisite for entitlement to full pay and allowances.

(b) Execution and return of the oath of office constitute a formal acceptance of appointment. No other evidence is needed or required. An acceptance may be "expressed," as by formal acceptance in writing, or "implied," as by entering upon the performance of the duties of the office pursuant to an order of competent authority. If an appointee enters on active duty before execution of the oath of office, the date of entry on active duty will be recorded as the implied or constructive date of acceptance. An oath of office is still required, however, and will be obtained as soon as possible. Such oath will be executed as of current date and when received by the appointing authority will be annotated as follows:

Date of entry on duty on ---------- pursuant to Special Order ---------- HQ ----------, dated ----------, constitutes constructive acceptance of appointment. Acceptance officially recorded as of

---

(Date of extended active duty).

(c) An oath of office properly dated and signed by an appointee but not administered by an authorized offical, or one taken before a person believed authorized but actually not authorized to adminster oaths, is ineffective. However, it is valid as an acceptance and will be recorded as such. In such instances, a valid oath of office will be obtained and will be dated as of the date actually executed.

## Subpart D—Appointment of Judge Advocate Officers

### § 881.40 Submitting applications.

Applicants for appointment as ResAF, Judge Advocate General's Department must submit in adition to the documents required by § 881.30(a):

(a) A certificate from the proper court clerk indicating original date of admission and present standing at the bar of a Federal court or of the highest court of a State.

(b) An affidavit from the applicant containing a chronological statement of his full legal experience. Legal experience may include governmental, judicial, teaching (in accredited law schools), and military experience and private practice.

(c) For officers applying for reappointment as judge advocates, a statement that the applicant understands that:

(1) Upon reappointment his current Reserve commission will be vacated;

(2) His service credit will be subject to recomputation;

(3) His total years service date and promotion service date will be adjusted accordingly; and

(4) The additional constructive service credit awarded counts toward mandatory transfer to the Retired Reserve under 10 U.S.C., chapter 863, as well as for appointment and promotion purposes under 10 U.S.C., chapter 837.

### § 881.41 Professional qualifications.

Applicants possessing the professional qualifications listed in this section for the grade concerned and who are otherwise qualified may apply for appointment as a ResAF, Judge Advocate General's Department.

(a) *First lieutenant.* For appointment as first lieutenant, the applicant must meet the age for grade requirements established by Air Force regulations and be a graduate of an accredited law school and a member of the bar of a Federal court or of the highest court of a State. A graduate of an accredited law school may apply for appointment before admission to the bar, provided appointment will not be tendered until he submits documentary evidence of admission to the bar. A senior attending an accredited law school may apply for appointment on the basis of his current transcript but not more than 90 days before his scheduled date of graduation. Final transcript must be submitted as soon as possible. In no event will he be tendered an appointment until he graduates from law school and submits both his final transcript and evidence of admission to the bar.

(b) *Grade above first lieutenant.* For appointment in grades above first lieutenant, applicant must possess all the qualifications specified in paragraph (a) of this section and meet the age and legal experience requirements. Normally, appointments will not be made in field grades. Exception: When the applicant has had the type of legal experience that, in the opinion of the Judge Advocate General, qualifies him to satisfactorily perform judge advocate duties in the grade sought and in a legal specialty critically required by the Air Force.

### § 881.42 Appointment and reappointment.

(a) *Appointment.* Original appointments in this specialty are contingent upon the applicants' consent to immediately enter extended active duty for 4 years, except for Air National Guard (ANG) applicants.

(b) *Reappointment.* Subject to the applicable provisions of the Air Force, ResAF officers who are not in a deferred status under 10 U.S.C. 8368 may apply for reappointment as judge advocates under the following conditions:

(1) Reappointment is limited to officers below the permanent or temporary grade of major who qualify for appointment as judge advocates but are not designated as judge advocates or assigned to the Judge Advocate General's Department.

(2) Officers reappointed under provisions of this section will be credited with constructive service under 10 U.S.C. 8353. This service counts for appointment and promotion and toward mandatory transfer to the Retired Reserve under 10 U.S.C., chapter 863.

(3) If not in Career Reserve status, applicants on extended active duty must obtain approved dates of separation that are at least 4 years from date of designation as judge advocates.

(4) Reappointment of nonextended active duty USAFR applicants who have not served on extended active duty as commissioned officers is authorized to fill extended active duty requirements. Applicants complete AF Form 125, Application for Extended Active Duty with the USAF. Selection to enter active duty is made on a competitive basis within authorized recall quotas for judge advocates.

(5) Officers, except second lieutenants, holding Reserve grades lower than those to which they would be entitled by virtue of the additional constructive service credit are not eligible for reappointment.

## Subpart E—Appointment of Chaplains

### § 881.50 Application for the Air Force chaplaincy.

(a) *General.* Applicants will be considered for appointment only when military and denominational authorizations exist within the Reserve quotas allocated.

(b) *Application procedures.* Applications must include all applicable documents listed in this subpart, plus the following:

(1) Ecclesiastical endorsement.
(2) Certified scholastic transcripts.

(c) *Qualification and requirements.* (1) Age and grade: 34 years for first lieutenant, and less than 40 years for captain.

(ii) In time of National emergency or war, or when a continuing serious shortage of Air Force chaplains exist, age waivers may be granted not to exceed the maxmum age of appointment by more than 3 years.

(2) Minimal education requirements: (1) Applicant must possess 120 semester hours of undergraduate credit from an accredited college or university.

(ii) Applicant must possess 90 semester hours of credit or an appropriate graduate degree from a theological seminary or from a graduate school of theology that is a component part of a university. The seminary or school of theology must be accepted as an accredited or associate member of the American Association of Theological Schools or meet the established criteria.

(3) Appointment in the grade of first lieutenant. Applicants may be initially appointed in the grade of first lieutenant if they are less than 34 years of age; have completed 3 years of graduate study or have a graduate theological degree from an accredited or recognized theological seminary; have attained full ecclesiastical ordination status; and have the professional experience required by their denomination.

(4) Appointment in the grade of captain. Applicants may be initially appointed in the grade of captain if they are less than 40 years of age and can qualify under one of the following constructive service credit categories:

V 38-187 SEP 27 73 XUM

(i) Have completed 3 years of graduate study in an accredited or recognized theological seminary; have attained full ecclesiastical ordination status; and have had a minimum of 4 years of full-time active professional experience as a minister, priest, or rabbi, following completion of undergraduate study.

(ii) Have completed an additional year of graduate study in an accredited or recognized theological seminary beyond the regular seminary course or first seminary degree; have attained full ecclesiastical ordination status; and have had a minimum of 3 years of full-time active professional experience as a minister, priest, or rabbi, following completion of undergraduate study.

**§ 881.51 Compensatory professional considerations.**

Applicants from religious denominations that do not operate accredited or recognized theological seminaries may be considered if they:

(a) Meet the requirements of § 881.50 (c)(2)(i).

(b) Have earned a minimum of 90 semester hours of graduate credit in the social sciences, the humanities, or theology (or a combination of all three) at an accredited or recognized institution of learning.

(c) Have attained full ordination status as required by their particular denomination.

(d) Are actively engaged full-time in their religious vocation at the time of appointment and have had the professional experience required by their denomination.

**§ 881.52 Ecclesiastical endorsement.**

Applicants must request an endorsement from their ecclesiastical endorsing agency. When the endorsement has been received by the appropriate agency, application forms with instructions will be forwarded to the applicant provided there is a quota vacancy for his denomination.

(a) The ecclesiastical endorsement will be considered valid only if it has been issued by a religious endorsing agency that has been formally recognized by the Armed Forces Chaplain's Board of the Department of Defense. The appropriate endorsing agency must certify in the endorsement that the applicant:

(1) Is a fully ordained minister, priest, or rabbi of the denomination the agency is legitimately authorized to represent, giving day, month, year, and place of applicant's ordination.

(2) Is professional qualified and authorized to be appointed as a Reserve of the Air Force with the specialty of chaplain.

(3) Is authorized to enter on extended active duty in the active establishment of the Air Force or to fill a Ready Reserve, Catagory A, or mobilization augmentee position.

(4) Is engaged in the full-time pursuit of his religious vocation.

(5) Is best qualified intellectually, emotionally, and psychologically for the Air Force chaplaincy.

**§ 881.53 The Chaplain Candidate Program.**

(a) *Eligibility criteria.* In addition to being otherwise qualified, applicants seekng appointment as chaplain candidates must:

(1) Meet the educational requirements as outlined in § 881.50(c)(2)(i).

(2) Apply after completing the first semester of the first year but before the beginning of the last semester of the final year of study while enrolled as a full-time student in an accredited or recognized theological seminary or school of religion as outlined in § 881.50(c)(2)(ii).

(3) Possess the potential professional qualifications required for chaplains in § 881.50.

(4) Obtain ecclesiastical approval to enter the Chaplain Candidate Program from the endorsing agency of the denomination under whose auspices he will qualify himself as a fully ordained minister, priest, or rabbi.

(5) Be less than 30 years of age at the time of appointment.

(b) *Procedure.* The application must include a statement of ecclesiastical approval signed by the applicant's ecclesiastical endorsing agent.

(c) *Appointment.* Appointment is contingent upon a military authorization and a denominational quota vacancy.

(1) Approved applicants will be commissioned in the grade of second lieutenant. At the time of appointment each applicant will sign the following certificate, which will become part of his permanent record:

I understand that to retain my commission as a Reserve of the Air Force I must earn a minimum of 90 semester hours of graduate credit or an appropriate theological degree from a theological school accepted as a member of the American Association of Theological Schools, or from a graduate school of religion which is a component part of a university accredited by an appropriate regional accrediting agency. I further understand that failure to complete this theological training satisfactorily will result in the termination of my commission as a Reserve of the Air Force (Authority: **AFM 35-3**, chapter 31). Upon meeting the qualifications outlined in AFR 36-15, paragraph 5-1c(3), I must submit an application for appointment as an Air Force chaplain and agree to attend the Chaplain Orientation Course at the USAF Chaplain School as soon as possible but not later than 1 year after I receive my commission as a chaplain. I agree to participate actively and satisfactorily in the Ready Reserve for a minimum of 3 years and accept a Category A or Mobilization Augmentation position when one is available; otherwise, I agree to accept an assignment to the Chaplain Area Representative Program (CHAPAR).

_____ _____
(Signature) (Date)

(2) On or before November 1 of each year the chaplain candidate must submit a certification by the registrar of the theological institution he is attending that he is a current student in good standing and has been accepted for enrollment for the ensuing academic year. The certification must include the estimated date of graduation.

(d) *Reappointment as chaplain.* A chaplain candidate applies for appointment as chaplain, first lieutenant, after he graduates from theological seminary and is fully ordained. An applicant will be approved for appointment if he is endorsed by this ecclesiastical endorsing agency and meets all requirements. He will be required to actively participate in the Ready Reserve for a minimum of 3 years unless selected by his endorsing agency to fill an active duty quota vacancy. If appointed as chaplain, he must agree to apply for the Chaplain Orientation Course as soon as possible, but no later than 1 year after date of reappointment. If no vacancy exists in a Category A Reserve unit or mobilization augmentation position, he will be assigned to CHAPAR.

(e) *Title of chaplain candidate.* A chaplain candidate, when in military status, will be addressed as "lieutenant." A chaplain candidate will not wear the chaplain insignia.

(f) *Termination of chaplain candidate status.* (1) The status of a chaplain candidate will be in force until his theological training has been completed, ordination rites have been conferred, and the candidate fully meets the requirements for appointment as an Air Force chaplain.

(2) A chaplain candidate's commission will be terminated if:

(i) He fails to complete the required theological studies;

(ii) He does not qualify as a chaplain according to § 881.50(c)(3);

(iii) He is not appointed as chaplain in the ResAF;

(iv) His ecclesiastical approval is withdrawn; or

(v) He fails to apply for reappointment as chaplain, first lieutenant, upon completion of the last semester of the final year of study and full ordination.

## Subpart F—Appointments of Physicians (Includes Osteopath), Dentists, Veterinarians, and Nurses

**§ 881.60 How to apply.**

In addition to the documents required by § 881.30(a), applicant must submit:

(a) Two photostats of license to practice, except when waivers are permitted. Nurses must have current registration in at least one State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States. Nurse anesthetists must submit documentary evidence of current certification by the American Association of Nurse Anesthetists.

(b) Nurses must submit one official copy of transcript of grades from all schools of nursing, colleges, or universities and of any postgraduate training, such as anesthesia.

**§ 881.61 Submission of DD Form 62, Statement of Acceptability.**

(This section applies only to physician applicants who are allocated to the Air Force under the Armed Forces Physicians' Appointment and Residence Consideration Program (Berry Plan).) DD Form 62, will be prepared for each physician only upon his being found medically qualified or medically acceptable with waiver of active military service. This form will be forwarded to the appropriate State Director, Selective Service System.

**§ 881.62 General qualifiecrtions for appointment.**

(a) Appointments will be based on criteria established for each specialty. Waiver of the maximum age requirement may be granted for persons concurrently requesting extended active duty.

(b) A Reserve first lieutenant or captain of the Medical or Dental Corps entering on active duty will be appointed to the grade of captain (temporary) effective the date of entry on active duty with the date of rank as of date of graduation from medical or dental school, as appropriate. Temporary appointment to the grade of captain is contingent upon the person's entry on active duty.

(c) Appointments may be tendered to draft-liable physicians for assignment to a Reserve unit, including the ANGUS except during the period a special physicians' draft call is being filled by the Selective Service System. Processing of appointees must be completed, except for security clearance, before the date Selective Service requisitioning begins.

**§ 881.63 Doctors of medicine (MD).**

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant, the applicant must:

(i) Be a graduate of a medical school approved by the Surgeon General, or of a foreign medical school and furnish evidence of permanent certification by the Educational Council for Foreign Medical Graduates, or permanent and unrestricted licensure of a State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States.

(ii) Have completed 1 year of postgraduate study and be engaged in the ethical practice of medicine.

(iii) Possess a license to practice medicine in a State or in the District of Columbia, or possess a diploma from the National Board of Medical Examiners.

(2) License and actual engagement in practice may be waived for graduates of approved medical schools and for those who have attained permanent certification by the Educational Council for Foreign Medical Graduates. Application for appointment must be made within 1 year after the completion of internship and residency training, provided formal postgraduate medical training has been continuous and uninterrupted since receipt of medical degree.

(b) *Reappointment as first lieutenant.* Regardless of the provisions of paragraphs (a)(1)(ii) and (iii) of this section, reappointment as first lieutenant will be tendered to persons who are participants in the Senior Medical Student Program, Early Commissioning Program, Medical Education Program, or Armed Forces Health Professions Scholarship Program upon receipt of the MD or Doctor of Osteopathy (DO) degree.

(c) *Appointment in higher grades.* Applicants must possess all of the qualifications specified in paragraph (a) of this section and must have had the minimum additional professional experience, including internship, residency, fellowship, or other graduate study at a hospital, public health agency, school of public health, research institute, laboratory, medical college, recognized teaching center, or similar institution.

**§ 881.64 Doctors of osteopathy (DO).**

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant, applicant must have completed:

(i) Three years of college work before entering a college of osteopathy.

(ii) A 4-year course and been awarded a degree of Doctor of Osteopathy from a school of osteopathy (approved by the Surgeon General) whose graduates are eligible for licensure to practice medicine or surgery in a majority of the States and be licensed to practice medicine, surgery, or osteopathy in a State or Territory of the United States or in the District of Columbia.

(iii) One year of postgraduate study and be engaged in the ethical practice of osteopathy.

(2) License and actual engagement in practice may be waived for graduates of approved schools of osteopathy provided application for appointment is made within 1 year after completion of internship or residency training. Formal postgraduate training must be continuous and uninterrupted since receipt of degree in osteopathy.

(b) *Appointment in higher grades.* Applicants must possess all of the qualifications specified in paragraph (a) of this section and have the minimum additional professional experience, including internship, residency, fellowship, or other graduate study at a hospital, public health agency, school of public health, research institute, laboratory, medical college, recognized teaching center, or similar institution.

**§ 881.65 Doctors of dentistry (DDS and DDM).**

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant, applicant must:

(i) Possess a degree of doctor of dental surgery (DDS) or doctor of dental medicine (DDM) from a school or dentistry acceptable to the Surgeon General, USAF.

(ii) Possess a license to practice dentistry in a State or in the District of Columbia.

(iii) Actually be engaged in the ethical practice of dentistry.

(2) Waiver of license and actual engagement in practice may be made for graduates of approved dental schools, if application for appointment is made within 1 year after graduation or while undergoing appropriate postgraduate instruction or engaged in a dental internship.

(3) Applications from dental students may be accepted and processed before receipt of the qualifying degree. The applicant must furnish a statement from the institution indicating he has completed all of the degree requirements or is expected to do so within 7 months. If otherwise qualified, the applicant will be tendered an appointment generally between 150 to 180 days before graduation. After appointment and following graduation, the officer must furnish evidence that the degree has been conferred and all other applicable requirements have been met. Officers so appointed who do not successfully complete their educational requirements or who fail to receive the qualifying degree will be discharged. At the time of application, each student must sign the following certificate which will become a part of his permanent file:

I understand that if appointed, continuation in the appointment is contingent upon my completing the requirements of the appropriate degree and that failure to receive my graduate degree on _____ will result in the termination of my appointment as a Reserve of the Air Force (Authority: AFM 35-3, chapter 31). Upon meeting the qualifications for appointment, I agree to serve a minimum of 2 full years on extended active duty unless sooner relieved by proper authority.

_____ _____
(Signature) (Date)

(b) *Reappointment as first lieutenant.* Regardless of the provisions of paragraphs (a)(1)(ii) and (iii) of this section, reappointment as first lieutenant will be tendered to persons who are participants in the Senior Dental Student Education Program, Early Commissioning Program, Dental Education Program, or Armed Forces Health Professions Scholarship Program upon receipt of the DDS or DDM degree.

(c) *Appointment in higher grades.* Applicants must possess all of the qualifications specified in paragraph (a) of this section for appointment to first lieutenant and must have the additional minimum experience or training in environments normally associated with high professional standards for the applicable grade.

(d) *Substituting graduate study for professional experience.* Graduate study, not to exceed 3 years, may be substituted for professional experience on a year-for-year basis.

**§ 881.66 Doctors of veterinary medicine (DVM).**

(a) *Appointment as first lieutenant.* (1) For appointment as first lieutenant applicant must:

(i) Be a graduate of a school of veterinary medicine or veterinary surgery approved by the Surgeon General, USAF.

(ii) Be licensed to practice veterinary mericine in a State or in the District of Columbia.

(iii) Be engaged in the ethical practice of veterinary medicine.

(2) Lieense and actual engagement in practice may be waived for graduates of

V 38 187 SEP 27 73 XUM

approved schools of veterinary medicine or surgery who are commissioned immediately upon graduation.

(3) Appointment of veterinary students before graduation may be made as prescribed for dental students in § 881.65(a)(3).

(b) *Reappointment as first lieutenant.* Regardless of the provisions of paragraph (a)(1)(ii) and (iii) of this section, reappointment as first lieutenant will be tendered to persons who are participants in the Early Commissioning Program, Veterinary Education Program, or Armed Forces Health Professions Scholarship Program upon receipt of the DVM degree.

(c) *Appointment in other grades.* Applicants must qualify under paragraph (a)(1) of this section and be qualified by minimum periods of acceptable professional experience as follows:

(1) *Captain.* (i) Be engaged in practice of veterinary medicine, with a major portion of the practice being in environments normally associated with high professional standards.

(ii) Have 4 years of actual experience.

(2) *Major.* (i) Give evidence of sufficient independent experience to indicate mature judgment and ability to function in the specialty without professional supervision.

(ii) Ordinarily must have been certified by an American Veterinary Specialty Board.

(iii) Have 11 years of actual experience.

(3) *Lieutenant colonel.* (i) Give evidence of having achieved an unequivocal prominence that makes him an authority in his particular field. (For example, a person who is an outstanding contributor to scientific research; an administrator and contributor to development of the specialty under consideration.)

(ii) Have 18 years of actual experience.

(4) *Colonel.* (i) Have achieved the type of background described in subparagraph (3)(i) of this paragraph.

(ii) Have 20 years of actual experience.

**§ 881.67 Appointment of nurses.**

(a) *Appointment as second lieutenant.* (1) Applicant must:

(i) Be a graduate of a school of nursing that is accredited by the national professional agency recognized by the National Commission on Accrediting and acceptable to the Surgeon General, USAF.

(ii) Have successfully passed the State Board Test Pool Examination in Nursing and possess current registration in at least one State, the District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States.

(iii) Be engaged in the ethical practice of nursing.

(2) An applicant who has a baccalaureate degree in nursing or an allied field may be granted 1 year of constructive service. However, if a year of constructive service is awarded for the degree, the same period of time may not be counted again as constructive experience.

(b) *Appointment in other grades.* Applicant must qualify under paragraph (a) of this section and be qualified by the indicated minimum number of years of professional experience and education requirements outlined in this paragraph. Constructive service in the amount of 1 year may be awarded to an applicant who has a baccalaureate degree; an additional year may be awarded for a master's degree. The period for which constructive service is granted for education may not again be counted toward meeting experience requirements. The period during which an applicant concurrently earns a degree and acquires experience may be counted as constructive service either for education or experience but not for both.

(1) *First lieutenant.* Must have constructive education and experience totaling 3 years in one of the following combinations:

(i) Three years' appropriate professional experience, of which at least 6 months were spent either in active nursing or pursuing additional education in a field allied to nursing within the 12-month period prior to appointment.

(ii) Two years' appropriate professional experience and a baccalaureate degree in nursing or a field allied to nursing.

(iii) One year's appropriate professional experience and a master's degree in nursing, a nursing specialty, or a field allied to nursing.

(iv) Two year's appropriate professional experience and at least 1 year of anesthesia training and subsequent qualification by examination as a nurse anesthetist by the American Association of Nurse Anesthetists (AANA).

(v) One year's appropriate professional experience, a baccalaureate degree in nursing or a nursing specialty, and at least 1 year of anesthesia training and subsequent qualification by examination as a nurse anesthetist by the AANA.

NOTE.—Applicants with more than 3 years of applicable experience who do not meet the qualifications for appointment in grade of captain will be given constructive service credit to which entitled under this part, except that in no case will the applicant be credited with more than 6 years.

(2) *Captain.* Must have constructive education and experience totaling 7 years in one of the following combinations:

(i) Six years' appropriate professional experience in addition to a baccalaureate degree in nursing or a field allied to nursing. (A minimum of 2 years of the required 6 years' professional experience must have been spent in public health, teaching, or an appropriate administrative position.)

(ii) Five years' appropriate professional experience plus a master's degree in nursing, a nursing specialty, or a field allied to nursing. Two years of the required 5 years' professional experience must have been spent teaching or in an appropriate administrative position.

(iii) Six years' appropriate professional experience and at least 1 year's anesthesia training and subsequent qualification by examination as a nurse anesthetist by the AANA. Applicant must have had at least 12 months' experience administering anesthetics within the 2-year period immediately prior to appointment.

(iv) Five years' appropriate professional experience, a baccalaureate degree in nursing or a nursing specialty, and at least 1 year's anesthesia training and subsequent qualification by examination as a nurse anesthetist by the AANA. Applicant must have at least 12 months' experience in administering anesthetics within the 2-year period immediately prior to appointment.

NOTE.—The maximum amount of constructive service that may be awarded upon appointment in grade of captain is 7 years.

(3) *Major and lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General, USAF, as requirements necessitate.

(c) *Appointment for training.* Applicants who meet appointment criteria may be appointed in the grade for which qualified and ordered to active duty for completion of final 12 months of educational requirements. After appointment and following graduation, the officer must furnish evidence that all applicable requirements have been met. Officers so appointed who do not successfully complete their educational requirements or who fail to receive the qualifying degree or certificate will, if eligible, be reassigned to an Air Force medical facility to fulfill the obligation incurred as a participant in the program. At the time of application, each student must sign the following statement which will be filed in the applicant's records as a permanent document:

I agree to remain on active duty for a minimum of 3 years after completion of training as evidenced by the degree or certificate. I have made no commitment which will prevent me from serving on active duty upon completion of my training. I assume full responsibility for payment of my tuition, fees, and other related training costs. I will not accept any monetary stipend paid to students receiving training in civilian institutions. Further I will not accept, without charge, quarters or meals from the training institution or its affiliates. I understand that if I fail to meet the standards of proficiency required and am eliminated from the course of training, I will be assigned to an Air Force medical facility to fulfill the obligation I incurred as a participant in this program.

## Subpart G—Appointment of Officers in the Medical Service Corps

**§ 881.70 Application, processing and selection.**

(a) In addition to documents required by § 881.30(a), each applicant must submit results of the AFOQT under § 881.32(b).

(b) Qualifying experience may include both active military and full-time civilian experience that is directly related to the specialty for which application is made. For appointment in grades higher than second lieutenant, the experience must have been gained after the qualifying degree was attained.

**§ 881.71 Health service administrator (AFSC 9021).**

(a) *Grade.* Appointments for duty in this specialty may be made in grades of second lieutenant through lieutenant colonel as determined under § 881.22.

(b) *Education.* The minimum educational requirement for qualification in this specialty is a baccalaureate degree in business administration, management, or a related or included field of administration or management. A master's degree in hospital administration or a related field is desirable.

(c) *Area of experience.* Qualifying experience must have been gained in administrative or management positions, including planning, organizing, and directing such activities as hospital administration, medical resignation, personnel, finance, evacuation and debarkation of patients, recreation, welfare, and installation maintenance.

**§ 881.72 Other applicants.**

Reserve appointment, reappointment, or promotion list transfer to the Medical Service Corps with AFSC indicated:

(a) Will be made for the following:

(1) Students pursuing courses of study as physicians, osteopaths, dentists, veterinarians, or optometrists who apply and are selected for commissioning under Part 906 of this chapter (AFSC 9021).

(2) Students selected for participation in the following programs with primary and duty AFSC indicated:

(i) The Senior Medical Student Program (AFSC 0101).

(ii) The Senior Optometry School Program (AFSC 0102).

(iii) The Senior Dental Student Program (AFSC 0102).

(iv) Other health or health related fields (AFSC 0102).

(3) Persons selected for advanced training in medicine, dentistry, or veterinary medicine under Part 908 of this chapter. Award primary and duty AFSCs of 0103, 0104, and 0105, respectively.

(4) Persons participating in the Armed Forces Health Professions Scholarship Program under AFR 36-17 (Air Force Health Professions Scholarship Program) (AFSC 9021).

(b) May be made under paragraph (a)(1) of this section only in the grade of second lieutenant and under paragraph (a)(2), and (3) of this section in grades not to exceed captain. Qualification for a grade higher than second lieutenant is based on prior commissioned service.

## Subpart H—Appointment of Officers in the Biomedical Science Corps

**§ 881.80 Application, processing, and selection.**

(a) In addition to documents required by § 881.30(a) each applicant must submit:

(1) One official copy of transcript of grades from college or university, plus one copy of certification in specialty, if applying for appointment as a dietitian, occupational therapist, or physical therapist.

(2) One photostat of license to practice if applying for appointment for duty in specialties requiring licensure, such as optometrists and pharmacists.

(b) Grades in which selected applicants are to be appointed will be determined according to the specific section that deals with the specialty and § 881.22.

(c) Qualifying experience may include both active military and full-time civilian experience that is directly related to the specialty for which application is made. For appointment in grades higher than second lieutenant, the experience must have been gained after the qualifying degree was attained.

(d) Biomedical specialist (podiatrist) and optometry officers who are not otherwise eligible for a higher grade shall be appointed in the temporary grade of first lieutenant effective on the date of entry on active duty.

**§ 881.81 Dietitian (AFSC 9216A).**

(a) *Appointment as second lieutenant.* Applicant must:

(1) Possess a bachelor's degree from an approved school, college, or university and have completed a hospital dietetic internship with equal emphasis on hospital food service administration and clinical dietetics, acceptable to the Surgeon General, USAF; or

(2) Have completed a coordinated degree/hospital dietetic internship program, acceptable to the Surgeon General, USAF, in which the intership is comparable to a hospital dietetic internship with equal emphasis on hospital food service administration and clinical dietetics.

(3) Current registration in the American Dietetic Association is desirable.

(b) *Appointment in higher grades.* Applicants must qualify under paragraph (a) of this section and be qualified by acceptable professional experience and training as follows:

(1) *First lieutenant.* At least 2 years' experience, exclusive of internship, one of which has been as dietitian in a hospital of 100 or more beds. Applicants with more than 3 years of applicable experience who do not meet the qualifications for appointment in grade of captain will be given constructive service credit to which entitled under this part, except that in no case will applicant be credited with more than 6 years of service.

(2) *Captain.* At least 6 years' experience, exclusive of internship, including 3 years in administration of a dietetic department of a hospital of 100 or more beds. The maximum amount of constructive service that may be awarded upon appointment to captain is 7 years.

(3) *Major and lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General USAF, as requirements necessitate.

**§ 881.82 Occupational therapist (AFSC 9226).**

(a) *Appointment as second lieutenant.* Applicant must:

(1) Possess a bachelor's degree from an approved school, college, or university and have completed an occupational therapy course acceptable to the Surgeon General, USAF; or

(2) Possess a bachelor's degree in occupational therapy from an approved school, college, or university.

(b) *Appointment in higher grades.* Applicant must possess all the qualifications in paragraph (a) of this section and be further qualified by acceptable professional experience and training as follows:

(1) *First lieutenant.* At least 2 years' professional experience in medical institutions following certification. Applicants with more than 3 years' applicable experience who do not meet the qualifications for appointment in the grade of captain will be given constructive service credit to which entitled under this part, except that in no case will the applicant be credited with more than 6 years' service.

(2) *Captain.* At least 6 years' professional experience in medical institutions following certification, 3 of which must have been in a supervisory or administrative capacity. The maximum amount of constructive service that may be awarded upon appointment as captain is 7 years.

(3) *Major or lieutenant colonel.* Appointees must possess outstanding qualifications for special positions determined by the Surgeon General, USAF, as requirements necessitate.

**§ 881.84 Appointment for training.**

Applicants who are not 28 years of age may be appointed as second lieutenants and ordered to active duty to complete training in one of the following courses:

(a) *Dietetic training.* (1) Applicant for the USAF Hospital Dietetic Internship must possess or be enrolled in the final year of a course leading to a baccalaureate degree from an accredited college or university, with a course emphasis which meets the academic requirements for entrance to a hospital/general dietetics internship approved by the American Dietetic Association. Through central screening procedures employed by the American Dietetic Association, the application must include evidence that the transcript of credits has been given this evaluation by the American Dietetic Association.

(2) Applicant for USAF-sponsored civilian hospital dietetic internship must possess or be enrolled in the final year of a coordinated degree/hospital dietetic internship program acceptable to the Surgeon General, USAF.

(3) At the time of application, each student must furnish the following signed certification, which will be filed in his Unit Personnel Record Group as a permanent document:

I understand that, if appointed, continuation in the appointment is contingent upon

V 38 I 187 SEP 27 73 XUM

my completing the requirements for (a baccalaureate degree and the USAF Hospital Dietetic Internship) (a baccalaureate degree and an approved hospital dietetic internship) (an approved coordinated degree/hospital dietetic internship program). Failure to complete requirements will result in the termination of my appointment as a Reserve of the Air Force (Authority: AFR 36-12). Upon being ordered to active duty, I agree to serve a minimum of 3 full years after completion of training unless sooner relieved by proper authority.

---------- ----------
(Signature) (Date)

(4) For the USAF-sponsored civilian hospital dietetic internship, the following signed certificate must be obtained from the civilian institution:

(Name of dietetic intern), who is an applicant for USAF sponsorship, has been accepted in our internship program. We understand that, to meet Air Force needs, USAF sponsorship of dietetic interns is limited to programs categorized as hospital dietetic internships with equal emphasis on hospital food service administration and clinical dietetics, or to coordinated degree/hospital dietetic internship programs with this equal emphasis. The program which will be given the intern cited above is of such category.

---------- ----------
(Official's signature) (Date)

(b) *Occupational therapy training.* Applicant must be enrolled in the final year of an approved course leading to a bachelor's degree in occupational therapy or possess a bachelor's degree and have completed all but the final year of an approved certificate course in occupational therapy.

(c) *Physical therapy training.* Applicant must possess a bachelor's degree and have been accepted for an approved certificate course in physical therapy or be enrolled in the final year of an approved course leading to a bachelor's degree in physical therapy.

(d) *Qualifying evidence.* After appointment and following graduation, each officer who has been appointed under paragraphs (b) and (c) of this section must furnish evidence that the applicable degree has been conferred and all other applicable requirements have been met. Officers so appointed who do not successfully complete their educational requirements, or who fail to receive the qualifying degree, will be discharged under AFR 36-12 (Administrative Separation of Commissioned Officers and Warrant Officers of the Air Force). At the time of application, each student must sign the following certificate, which will be filed in his records as a permanent document:

I understand that, if appointed, continuation in the appointment is contingent upon my completing the requirements for certification in (physical/occupational) therapy. Failure to meet certification requirements will result in the termination of my appointment as a Reserve of the Air Force (Authority: AFR 36-12). Upon being ordered to active duty, I agree to serve a minimum of 3 full years after completion of training unless sooner relieved by proper authority.

(Signature) (Date)

**§ 881.85 Pharmacy officer (AFSC 9241).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in pharmacy.

(c) *Area of experience.* Qualifying experience must have been gained in pharmacy positions, including conducting laboratory tests, manufacturing medications, and directing pharmacy personnel. A current license to practice pharmacy is mandatory except that licensure may be waived for individuals appointed within 1 year after date of graduation to fill an active duty requirement.

**§ 881.86 Optometry officer (AFSC 9251).**

(a) *Grade.* Appointment may be made in grades of second lieutenant through colonel as determined under § 881.22. Students may be appointed before they attain the qualifying degree in the same way that dental students are under § 881.65(a)(3).

(b) *Education.* The minimum educational requirement is a degree in optometry from an accredited school of optometry.

(c) *Area of experience.* Qualifying experience must have been gained in optometry positions, including conducting examinations of the eye to determine the presence of visual defects; prescribing lenses and orthoptic therapy to correct, conserve, or improve vision; and examining and testing lenses for workmanship and conformance to prescriptions. Must possess a current license to practice optometry in a State or the District of Columbia or certification of the successful passing of all parts of the examination of the National Board of Examiners in optometry except that licensure may be waived for individuals appointed within 1 year after date of graduation to fill an active duty requirement.

**§ 881.87 Bioenvironmental engineer (AFSC 9121).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through major as determined under § 881.22.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in civil, chemical, sanitary, electrical, mechanical, or industrial hygiene engineering.

(c) *Area of experience.* Qualifying experience must have been gained in a professional capacity, including design, management, investigation, or construction of works or program for water supply, treatment, and disposal of community wastes (that is, sanitary sewage, industrial wastes, and refuse including salvage and reclamation of useful components of such wastes); the control of pollution of surface waterways and ground waters, and of surface and subsurface soils, milk, and food facilities, housing, hospital, and institutional facilities; insect and vermin control or eradication; rural, camp, and recreation place facilities; the control of atmospheric pollution and air quality, and of light, noise, vibration, and toxic materials, including application to work spaces in industrial establishments; the prevention of radiation exposure; professional research and development work; and responsible teaching positions in engineering subjects in educational institutions of recognized standing.

**§ 881.88 Medical entomologist. (AFSC 9131).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined in § 881.22.

(b) *Education.* The minimum educational requirement for qualification in this specialty is a master's degree in entomology.

(c) *Area of experience.* Qualifying experience must have been gained in medical entomology positions, including formulating policies and procedures, directing personnel engaged in medical entomological activities, and conducting field and laboratory studies on development, testing, and application of insect control measures.

**§ 881.89 Biomedical laboratory officer (AFSC 9151).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* The minimum educational requirement for qualification in this specialty is a baccalaureate degree in medical technology or one of the following recognized field related to clinical laboratory work: chemistry, bacteriology, hematology, virology, toxicology, histology, parasitology, or pharmacology.

(c) *Area of experience.* Experience must be that gained in clinical laboratory positions, including analysis, development, and application of procedures in chemistry, bacteriology, hematology, virology, serology, and tissue pathology.

**§ 881.90 Aerospace physiologist (AFSC 9161).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* The minimum educational requirement is a baccalaureate degree in physiology, biophysics, biochemistry, or zoology. A master's degree with a major study in one of the referenced fields is desirable.

(c) *Area of experience.* Qualifying experience must have been gained in aviation physiological or related positions. Experience in physiological research and development of physiological aids for aircrew personnel is desrable.

**§ 881.91 Health physicist (AFSC 9171).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* The minimum educational requirement is a master's degree in health physics, nuclear physics, radiobiology, radiological physics, or biophysics.

(c) *Area of experience.* Qualifying experience must have been gained in controlling, shipping, and disposing of radiological materials; conducting radiological protection surveys; monitoring the treatment and disposal of radioactive wastes; calibrating instruments; instructing in health physics, and supervising and directing health physics programs.

**§ 881.92 Clinical psychologist (AFSC 9181).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* An applicant may qualify in either of two ways:

(1) A doctoral degree in psychology from an accredited university acceptable to the Surgeon General, USAF, and completion of a clinical internship.

(2) Persons with master's degree in clinical psychology who are doctoral candidates within 2 years of completing academic requirements toward the doctoral degree may be offered an appointment and sponsorship under the Air Force Institute of Technology (AFIT) program to complete requirements for the doctoral degree. Each person appointed under this program will be required to sign the following statement:

I understand that, if appointed, continuation in the appointment is contingent upon my completing the requirements for a doctorate degree and/or 1 year internship. Failure to complete these requirements may result in the termination of my participation in the program and may result in my being utilized in another career field to meet the Air Force requirements. (Authority: AFR 36-12). Upon being ordered to active duty, I will be required to serve 3 years following any Air Force-sponsored internship, or 2 months for each month of academic training, whichever is greater.

---------- ----------
(Signature) (Date)

(c) *Area of experience.* Qualifying experience must have been gained in clinically-oriented psychological positions and academic practice; administering, scoring and interpreting psychological procedures; counseling and guidance procedures; counseling and guidance; rehabilitation; or psychological research.

**§ 881.93 Social worker (AFSC 9191).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* The minimum educational requirement for qualification in this specialty is a master's degree from an approved school of social work.

(c) *Area of experience.* Qualifying experience must be that gained in professional social work programs.

**§ 881.94 Biomedical specialist (AFSC 9261).**

(a) *Grade.* Appointments may be made in grades of second lieutenant through colonel as determined under § 881.22.

(b) *Education.* For podiatrists (AFSC 9261A), the minimum educational requirement is a Doctor of Podiatry degree from a school or college of podiatry. For all other subspecialties (AFSC 9261B, Audiologist; AFSC 9261C, Speech Therapist; and AFSC 9261D, Special), the minimum educational requirement is a master's degree in the appropriate specialty. All degrees must be from accredited institutions of higher learning acceptable to the Surgeon General, USAF.

(c) *Area of experience.* Qualifying experience must have been gained in full-time positions as a podiatrist, audiologist, speech pathologist, rehabilitation therapist (including providing care and treatment for human ailments) or planning, directing, and conducting research in the pertinent professional area of practice. License to practice in the pertinent specialty, when appropriate, or registration or certification by the special national accreditation body is mandatory except that licensure, registration, or certification may be waived for individuals appointed within 1 year after date of graduation.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,
*Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.*

## Title 7—Agriculture

### CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

### PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

#### Inspection and Certification

*Correction*

In FR Doc. 73-19178 appearing at page 25165 in the issue for Wednesday, September 12, 1973, make the following changes:

1. In § 52.2, the reference to "Pack certification" in the first line of the second paragraph of column 2, should be enclosed in quotation marks.

2. In § 52.38, In Table II, the first lot size for Group 2 reading "1,201-4,802" should read "1,201-4,800".

3. The second paragraph in § 52.52, currently undesignated, should be designated paragraph (b).

4. In § 52.52(c)(1) the item reading "Inspector(s) in charge—$9.65 per hour", should be deleted, and "Inspectors aide—$5.30 per hour" put in its place.

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 451]

### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

#### Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period Sept. 28-Oct. 4, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

**§ 908.751 Valencia Orange Regulation 451.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues to improve. Prices f.o.b. averaged $3.72 per carton on a sales volume of 576 carlots during the week ended September 20, 1973, compared with $3.52 per carton on sales of 510 carlots a week earlier. Track and rolling supplies at 299 cars were up 41 cars from last week.

V 38 I 187 SEP 27 73 XUM

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 25, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period September 28, 1973, through October 4, 1973, are hereby fixed as follows:

(i) District 1: Unlimited;

(ii) District 2: 700,000 cartons;

(iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated September 25, 1973.

CHARLES R. BRADER,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[CCC Grain Price Support Regulations, 1973 Crop Corn Supplement]

## PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

### Subpart—1973 Crop Loan and Purchase Program

*Correction*

A correction to FR Doc. 73–18516 appearing at page 23935 for the issue of Wednesday, September 5, 1973, was made at page 26182 for the issue of Wednesday, September 19, 1973. In the correction document in the sixth line of paragraph 2, the entry for "Ellis" county Kansas reading "1.107" should read "1.07."

## Title 9—Animals and Animal Products

## CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

## PART 73—SCABIES IN CATTLE

### Area Released From Quarantine

This amendment releases Torrance County in New Mexico from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, do not apply to the excluded area, but will continue to apply to the quarantined areas described in § 73.1a. Further, the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 apply to the excluded area.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f), Part 73, Title 9, Code of Federal Regulations, restricting the interstate movement of cattle because of scabies, is hereby amended as follows:

In § 73.1a paragraph (c) relating to the State of New Mexico is amended to read:

**§ 73.1a Notice of quarantine.**

* * * * *

(c) Notice is hereby given that cattle in certain portions of the State of New Mexico are affected with scabies, a contagious, infectious, and communicable disease; and therefore, the following areas in such State are hereby quarantined because of said disease:

*New Mexico*

(1) Curry County.

(2) Roosevelt County.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

*Effective date.* The foregoing amendment shall become effective September 21, 1973.

The amendment relieves restrictions no longer deemed necessary to prevent the spread of cattle scabies, and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 21st day of September 1973.

F. J. MULHERN,
*Administrator, Animal and Plant Health Inspection Service.*

[FR Doc.73–20600 Filed 9–26–73;8:45 am]

## PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

### Areas Released From Quarantine

This amendments excludes portions of San Diego and Riverside Counties in California from the areas quarantined because of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the excluded areas.

Pursuant to the provisions of sections 1, 2, 3, and 4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4, 5, 6, and 7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 112, 113, 115, 117, 120, 123, 124, 125, 126, 134b, 134f), Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

In § 82.3, in paragraph (a) (1) relating to the State of California, subdivisions (ix) relating to San Diego County and (x) relating to Riverside County are deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f), 37 FR 28464, 28477; 38 FR 19141)

*Effective date.* The foregoing amendment shall become effective September 21, 1973.

The amendment relieves certain restrictions presently imposed but no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 21st day of September 1973.

F. J. MULHERN,
*Administrator, Animal and Plant Health Inspection Service.*

## Title 12—Banks and Banking

## CHAPTER II—FEDERAL RESERVE SYSTEM

### SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. G]

## PART 207—SECURITIES CREDIT BY PERSONS OTHER THAN BANKS, BROKERS, OR DEALERS

### "Single Credit Rule" in Stock Option and Stock Purchase Plans

Pursuant to section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g), the Board is issuing the following amendment to Part 207 by revising § 207.4(a)(2)(i). The change deletes the "single credit rule" in § 207.4(a)(2)(i) and substitutes the provision that each extension of credit pursuant to that section may be treated separately. This clarifies that withdrawal of collateral may be made after proper repayments have been made for at least three years and the deficiency as defined in § 207.4(a)(2)(ii) has been repaid with respect to each extension of credit. The revised § 207.4(a)(2)(i) is set forth below.

**§ 207.4 Miscellaneous provisions.**

(a) *Stock option and employee stock purchase plans.*

* * * * *

(2) * * *

(i) Each such credit extended to any officer or employee pursuant to this subparagraph (2) in connection with the exercise of rights under one or more plans or with the periodic exercise of rights under a single plan, when such credits shall be outstanding at the same time, may be treated separately from any other credit extended pursuant to this subparagraph (2) and shall be treated separately from any other credit extended pursuant to §§ 207.1 (c), (d) and (g) of this part: *Provided*, That the collateral with respect to each individual credit extended pursuant to such plan or plans shall be identified with, and shall have loan value only with respect to, such individual credit.

The requirement of section 553(b) of Title 5, United States Code, with respect to public participation was not followed in connection with this amendment since it relieves a restriction.

This amendment shall become effective October 29, 1973.

By order of the Board of Governors, September 14, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[Airspace Docket No. 72–WA–31]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Control Zone and Terminal Control Area at Chicago, Illinois

On January 5, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 890) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Chicago, Illinois, terminal control area (TCA) by expanding the area from 20 to 25 miles; eliminating Area D in the vicinity of Meigs Airport; reducing the size of Area D in the vicinity of Northbrook VORTAC; and redefining certain TCA boundaries by the use of VORTAC radials and DME arcs. Subsequent to the publication of the proposal, problems in distribution of the notice arose. Therefore, on February 2, 1973, the public comment period was extended to February 26, 1973, in order to insure ample opportunity for all interested persons to participate in the rulemaking.

Because of comments received in response to this notice, an alternate proposal was formulated, by an appointed working group made up of FAA and user representatives, that differed from the airspace configuration specified in the original NPRM.

On June 29, 1973, a Supplemental NPRM which reflected the planning carried out by the working group, was published in the FEDERAL REGISTER (38 FR 17251) with the revised airspace configuration that proposed to alter the Chicago, Illinois, TCA by redefining certain TCA boundaries by use of VORTAC radials and DME arcs; extending the TCA from a 20-mile to a 25-mile radius of the Chicago-O'Hare VORTAC in an area extending from the north-northeast to the south-southeast, and two "SPUR" extensions, one southwest and the other northwest of Chicago-O'Hare; adjusting the boundaries between Areas C and D north of Chicago-O'Hare; and lowering the TCA floor over the Meigs Airport to 3,000 feet.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. Forty comments were received in response to the Supplemental NPRM. Favorable comments were received from the U.S. Navy and the Air Transport Association. A total of thirty eight objections were received, thirty of which were from members of Sky Soaring, Inc., a glider club that operates out of AAVANG airport, which is located three miles east of Huntley, Illinois. On September 2, 1973, the FAA held a meeting with representatives of Sky Soaring, Inc., to resolve the club's objections to the addition of the northwest "SPUR" extension between 20–25 miles from the Chicago-O'Hare VORTAC. A compromise solution was reached, and the dimensions agreed upon at that meeting are reflected in this document.

Statements were made that noise, air pollution, and wake turbulence would result from jet aircraft using the northwest "SPUR" area. This "SPUR", and the other Area C and D additions, are necessary because present arrival patterns cannot be contained within the present TCA during heavy traffic periods. This action will contain the existing traffic flows, not introduce new ones. Therefore, there will be no significant changes in the existing environment.

Objections were made to the altitudes being used in the Crystal Lake area for Chicago-O'Hare Runway 14 arrivals, especially as they relate to the FAA's "KEEP-EM-HIGH" policy, and also to aircraft being vectored outside and below the outermost boundaries. The ATC procedures required for conducting simultaneous parallel ILS approaches require the use of the floor altitudes as proposed in the notice. This expansion of the existing TCA will contain these vector patterns and altitudes, thus reducing the possibility of arrivals having to exist the TCA. This was the primary objective of this rulemaking action.

Seven comments suggested raising the existing floor of the TCA airspace from 1,900 feet to 2,500 feet MSL in the vicinity of Schaumburg Airport. The existing airspace has been in effect since 1970 and experience gained during this period indicates that this airspace is necessary to accommodate departure and arrival operations at the Chicago-O'Hare airport.

Subsequent to the issuing of these notices, the Chicago O'Hare International

V 38 1187 SEP 27 73 XUM

Airport geographical position, from which a portion of the control zone is centered, has been recomputed. Accordingly, action is taken herein to amend the control zone to reflect the revised geographical position coordinates.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 8, 1973, as hereinafter set forth.

1. In § 71.171 (38 FR 351), the Chicago, Ill., (O'Hare International Airport) control zone is amended by deleting the coordinates "latitude 41°59'10" N., longitude 87°54'30" W." and substituting therefor the coordinates "latitude 41°58'57" N., longitude 87°54'25" W."

2. In § 71.401(a) (38 FR 622), the Chicago, Ill., terminal control area is amended as follows:

CHICAGO, ILL., TERMINAL CONTROL AREA

*A. PRIMARY AIRPORT*

Chicago-O'Hare International Airport (Lat. 41°58'57" N., Long. 87°54'25" W.)
Chicago-O'Hare VORTAC (Lat. 41°59'16" N., Long. 87°54'17" W.)

*b. Boundaries*—(1) *Area A.* That airspace extending upward from the surface to and including 7,000 feet MSL within the Chicago, Ill. (O'Hare International Airport), control zone and including that airspace within 2 statute miles northwest of the centerline extended of Runway 4L, and 2 statute miles southeast of the centerline extended of Runway 4R, extending from the 5-statute mile radius control zone to 2 statute miles southwest of the Pine Outer Marker.

(2) *Area B.* That airspace extending upward from 1,900 feet MSL to and including 7,000 feet MSL within a 10.5-mile radius of Chicago O'Hare VORTAC, excluding Area A previously described and that area bounded on the southeast by a line 2 miles northwest and parallel to the centerline extended of Runway 22R, on the south and southwest by the southwest boundary of Glenview, Ill., control zone, on the north by a 10.5-mile radius arc of the Chicago-O'Hare VORTAC, and excluding Area E described hereinafter.

(3) *Area C.* That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL, within a 25-mile radius of Chicago-O'Hare VORTAC excluding Areas A and B, previously described, Areas D and E described hereinafter, and excluding those areas between the 20 and 25-mile radii of Chicago-O'Hare VORTAC from a line 7 miles southwest of and parallel to the extended centerline of Runway 32L, clockwise to a line 7 miles southeast of and parallel to the extended centerline of Runway 4R and from a line 7 miles northwest of and parallel to the extended centerline of Runway 4L, clockwise to a line beginning at a point 7 miles southwest of the Runway 14R extended centerline on the 20-mile radius arc of the Chicago-O'Hare VORTAC, extending to a point 6 miles southwest of the Runway 14R extended centerline on the 25-mile radius of the Chicago-O'Hare VORTAC.

4. *Area D.* That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL north of Chicago bounded on the west by the Chicago-O'Hare VORTAC 321° radial, on the south by the Northbrook VORTAC 269° and 094° radials, on the east by the Chicago-O'Hare VORTAC 018° radial and on the north by a 25-mile radius arc of the Chicago-O'Hare VORTAC and an area southwest of Chicago bounded on the northwest by a line 2 miles southeast of and parallel to the extended centerline of Runway 4L, on the southwest by a 25-mile radius arc of Chicago-O'Hare VORTAC, on the southeast by a line 7 miles southeast of and parallel to the extended centerline of Runway 4R, on the northeast by a 20-mile radius arc of Chicago-O'Hare VORTAC and that portion of a 15-mile radius arc of Clow Airport which is north of a 20-mile radius arc of Chicago-O'Hare VORTAC.

(5) *Area E.* That airspace northeast of Chicago extending upward from 2,500 feet MSL to and including 7,000 feet MSL bounded on the northeast by a 10.5-mile radius arc of Chicago-O'Hare VORTAC, on the south by the extended centerline of Runway 9/27 at NAS Glenview and on the northwest by a line 2 miles northwest of and parallel to the extended centerline of Runway 22R at Chicago-O'Hare International Airport.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c).))

Issued in Washington, D.C., on September 20, 1973.

H. B. HELSTROM,

[Airspace Docket No. 73-SW-19]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of VOR Federal Airways; Correction

On July 10, 1973, FR Doc. 73-13875 was published in the FEDERAL REGISTER (38 FR 18363) which amends Part 71 of the Federal Aviation Regulations, effective 0901 G.m.t., November 8, 1973, by realigning several VOR Federal Airways in the vicinity of Monroe, La., simultaneously with the relocation of the Monroe VORTAC. However, the date for commissioning the relocated facility has been delayed and action is taken herein to amend the effective date for the realignment of the airways utilizing the VORTAC.

Since amending the effective date for the realignment of these airways is a minor editorial change on which the public would have no particular reason to comment, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, effective 30 days after publication, FEDERAL REGISTER document 73-13875 (38 FR 18363) is amended, as hereinafter set forth.

"Effective 0901 G.m.t., November 8, 1973," is deleted and "effective 0901 G.m.t., February 28, 1974," is substituted therefor.

(Sec. 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 19, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20592 Filed 9-26-73;8:45 am]

[Airspace Docket No. 73-RM-21]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## PART 73—SPECIAL USE AIRSPACE

### Designation of Restricted Area and Alteration of Continental Control Area

On July 27, 1973, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (38 FR 20097) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate a joint-use restricted area, R-6413, at Green River, Utah, and include it in the continental control area.

The NPRM stated that the missile impacts at the White Sands Missile Range (WSMR), N. Mex., would occur in Restricted Areas R-5107B and R-5103. These impact areas have subsequently been changed and they are included in the existing restricted areas at WSMR.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. No objections to the NPRM were received.

Since a situation exists wherein military operations require immediate adoption of these amendments, it is found that good cause exists for making these amendments effective in less than 30 days notice.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective September 27, 1973, as hereinafter set forth.

In § 73.64 (38 FR 670), the Green River, Utah, Restricted Area, R-6413 is added:

R-6413, GREEN RIVER, UTAH

*Boundaries.*
Beginning at Lat. 38°57'00"N., Long. 110°09'40"W.; thence to Lat. 38°46'03"N., Long. 110°06'00"W.; to Lat. 38°31'30"N., Long. 109°57'00"W.; to Lat. 38°31'30"N., Long. 109°51'00"W.; to Lat. 38°33'27"N., Long. 109°46'00"W.; to Lat. 38°49'15"N., Long. 109°57'02"W.; to Lat. 38°58'02"N., Long. 110°05'33"W.; thence to point of beginning.

*Designated altitudes.* Surface to unlimited.

*Time of designation.* As published by NOTAM issued 48 hours in advance of area activation.

*Controlling agency.* Federal Aviation Administration, Denver ARTC Center.

*Using agency.* Air Force Special Weapons Center, Air Force Systems Command, Kirtland AFB, New Mexico.

In § 71.151 (38 FR 341), R-6413, Green River, Utah, is added.

(Sec. 307(a) Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c).)

Issued in Washington, D.C., on September 19, 1973.

H. B. HELSTROM,
*Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20593 Filed 9-26-73;8:45 am]

[Airspace Docket No. 73-SW-29A]

## PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

### Alteration of Jet Routes

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to realign Jet Route No. 29 south of Brownsville, Tex., realign Jet Route No. 22 west of Laredo, Tex., and to change the numbered identifier of the jet route south of Tucson, Ariz., from J-11 to J-92.

At the request of the Mexican Government, minor changes are made herein to three jet routes which, effective October 11, 1973, will extend from navigational aids in the United States to the United States/Mexican border. Effective October 11, 1973, J-11 will extend from Tucson, Ariz., via the Tucson 185° radial to the United States/Mexican border. The numbered identifier of this route is changed herein from J-11 to J-92. Effective October 11, 1973, J-22 will extend from Laredo, Tex., to the United States/Mexican border via the direct routing between Laredo, Tex., and Monterrey, Mexico. The alignment of J-22 is changed herein to extend from Laredo, Tex., to the United States/Mexican border via the direct routing between Laredo, Tex., and Nuevo Laredo, Mexico. Effective October 11, 1973, J-29 will be aligned from Brownsville, Tex., to the United States/Mexican border via the direct routing between Brownsville and Tampico, Mexico. This portion of J-29 is changed herein to extend from Brownsville via the 187° radial to the United States/Mexican border.

Since this amendment is minor in nature and in response to a request from the Government of Mexico, notice and public procedure thereon are unnecessary. However, in order to allow sufficient time for these changes to be depicted on appropriate aeronautical charts, this amendment will become effective more than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., November 8, 1973, as hereinafter set forth.

Section 75.100 (38 FR 681, 24107, 19962) is amended as follows:

a. In J-11 "From the INT of the United States/Mexican border and the Tucson, Ariz., 185° radial via Tucson;" is deleted and "From Tucson, Ariz., via" is substituted therefor.

b. In J-22 "From Monterrey, Mexico," is deleted and "From Nuevo Laredo, Mexico," is substituted therefor.

c. In J-29 "From Tampico, Mexico, via Brownsville, Tex.;" is deleted and "From the INT of the United States/Mexican Border and the Brownsville, Tex., 187° radial via Brownsville;" is substituted therefor.

d. In J-92 "INT of Casa Grande 145° and Tucson 298° radials to Tucson, Ariz." is deleted and "INT of Casa Grande 145° and Tucson, Ariz., 298° radials; Tucson; to the INT of the Tucson 185° radial and the United States/Mexican border." is substituted therefor.

(Sec. 307(a) Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on September 20, 1973.

CHARLES H. NEWPOL,
*Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20595 Filed 9-26-73;8:45 am]

[Docket No. 13210; Amdt. No. 883]

## PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

### Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW, Washington, D.C. 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.21 is amended by originating, amending, or canceling the following L/MF SIAP's, effective November 8, 1973.

Anchorage, Alas.—Anchorage International Airport, LFR-A, Amdt. 12, canceled.
Anchorage, Alas.—Merrill Field, LFR-A, Amdt. 17, canceled.
Farewell, Alas.—Farewell Airport, LFR-A, Amdt. 17, canceled.
Skwentna, Alas.—Skwentna Airport, LFR-1, Original, canceled.

2. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAP's, effective November 8, 1973.

Bellingham, Wash.—Bellingham International Airport, VOR/DME A, Amdt. 2, canceled.
Bellingham, Wash.—Bellingham International Airport, VOR 1 Runway 16, Amdt. 3.
Bellingham, Wash.—Bellingham International Airport, VOR 2 Runway 16, Amdt. 3.
Bloomington, Ind.—Monroe County Airport, VOR Runway 6, Amdt. 9.
Bloomington, Ind.—Monroe County Airport, VOR Runway 17, Amdt. 4.
Bloomington, Ind.—Monroe County Airport, VOR Runway 24, Amdt. 2.
Bloomington, Ind.—Monroe County Airport, VOR Runway 35, Amdt. 4.
Burley, Ida.—Burley Municipal Airport, VOR-A, Amdt. 1.
Burley, Ida.—Burley Municipal Airport, VOR/DME A, Original, canceled.
Burley, Ida.—Burley Municipal Airport, VOR/DME B, Original.
Hartford, Wis.—Hartford Municipal Airport, VOR-A, Original.
International Falls, Minn.—Falls International Airport, VOR Runway 13, Amdt. 8.
International Falls, Minn.—Falls International Airport, VOR Runway 31, Amdt. 9.
Jacksonville, Fla.—Craig Municipal Airport, VOR-A, Amdt. 6.
Jacksonville, Fla.—Craig Municipal Airport, VOR Runway 31, Amdt. 1.
Kansas City, Mo.—Kansas City International Airport, VOR Runway 9, Amdt. 4.
Kansas City, Mo.—Kansas City International Airport, VOR Runway 27, Amdt. 3.
Kansas City, Mo.—Municipal Airport, VOR Runway 18, Amdt. 11.
Port Isabel, Tex.—Port Isabel—Cameron County Airport, VORTAC-A, Original.
Rio Vista, Cal.—Rio Vista Municipal Airport, VOR-1, Amdt. 1, canceled.
Rio Vista, Cal.—Rio Vista Municipal Airport, VOR-A, Original.
St. Petersburg-Clearwater, Fla.—St. Petersburg-Clearwater International Airport, VOR Runway 17, Amdt. 5.
Talladega, Ala.—Talladega Municipal Airport, VOR-A, Amdt. 5.
Talladega, Ala.—Talladega Municipal Airport, VOR/DME Runway 3, Amdt. 3.

• • • effective October 4, 1973:

Ewa, Hawaii—NAS Barbers Point, VOR-1, Original, canceled.
Marshalltown, Iowa—Marshalltown Municipal Airport, VOR/DME-A, Original, canceled.
Marshalltown, Iowa—Marshalltown Municipal Airport, VOR Runway 30, Original.

• • • effective September 27, 1973:

McAllen, Tex.—Miller International Airport, VOR-A, Amdt. 8.

• • • effective September 14, 1973:

Livermore, Cal.—Livermore Municipal Airport, VOR/DME-A, Amdt. 1.

3. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-LDA SIAPs, effective November 8, 1973:

International Falls, Minn.—Falls International Airport, LOC/DME (BC) Runway 13, Amdt. 1.

V 38 I 187 SEP 27 73 XUM

Kansas City, Mo.—Kansas City International Airport, LOC (BC) Runway 19, Amdt. 2, Canceled.
Kansas City, Mo.—Kansas City International Airport, LOC (BC) Runway 27, Amdt. 3.

• • • effective October 4, 1973:

Oshkosh, Wis.—Wittman Field, LOC/DME (BC) Runway 18, Original.
Somerset, Pa.—Somerset County Airport, LOC Runway 24, Amdt. 1.

• • • effective September 13, 1973:

St. Paul, Minn.—St. Paul Downtown Holman Field, LOC Runway 30, Amdt. 3.

4. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective November 8, 1973:

Anchorage, Alas.—Anchorage International Airport, NDB–A, Original.
Anchorage, Alas.—Merrill Field, NDB–B, Original.
Farewell, Alas.—Farewell Airport, NDB Runway 8, Original.
International Falls, Minn.—Falls International Airport, NDB Runway 31, Amdt. 2.
Juneau, Wis.—Dodge County Airport, NDB Runway 2, Amdt. 4.
Juneau, Wis.—Dodge County Airport, NDB Runway 20, Amdt. 2.
Kansas City, Mo.—Kansas City International Airport, NDB Runway 1, Amdt. 9.
Kansas City, Mo.—Kansas City International Airport, NDB Runway 9, Amdt. 3.
Latrobe, Pa.—Latrobe Airport, NDB Runway 23, Amdt. 5.
Sebring, Fla.—Sebring Air Terminal, NDB Runway 36, Original.
Sedalia, Mo.—Sedalia Memorial Airport, NDB Runway 23, Amdt. 2.
Skwentna, Alas.—Skwentna Airport, NDB–A, Original.
Trenton, Mo.—Trenton Municipal Airport, NDB Runway 17, Original.

• • • effective October 4, 1973:

Guam, Marianas Is.—Andersen AFB, ADF–1, Amdt. 3, Canceled.
Ogallala, Neb.—Searle Field, NDB Runway 8, Original.
Oshkosh, Wis.—Wittman Field, NDB Runway 36, Original.
Somerset, Pa.—Somerset County Airport, NDB Runway 24, Amdt. 1.

5. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective November 8, 1973:

International Falls, Minn.—Falls International Airport, ILS Runway 31, Amdt. 2.
Kailua-Kona, Hawaii—Ke-ahole Airport, ILS/DME Runway 17, Amdt. 1.
Kansas City, Mo.—Kansas City International Airport, ILS Runway 1, Amdt. 2.
Kansas City, Mo.—Kansas City International Airport, ILS Runway 9, Amdt. 4.
Kansas City, Mo.—Kansas City International Airport, ILS (BC) Runway 19, Original.
Latrobe, Pa.—Latrobe Airport, ILS Runway 23, Amdt. 5.
Lebanon, N.H.—Lebanon Regional Airport, ILS Runway 7, Amdt. 2.
North Bend, Ore.—North Bend Municipal Airport, ILS Runway 4, Amdt. 1.

effective October 18, 1973:

Atlanta, Ga.—The William B. Hartsfield Atlanta International Airport, ILS Runway 9R, Amdt. 3.

effective October 4, 1973:

New York, N.Y.—John F. Kennedy International Airport, ILS Runway 4L, Amdt. 1.
Oshkosh, Wis.—Wittman Field, ILS Runway 36, Original.

• • • effective September 18, 1973:

Atlanta, Ga.—Fulton County Airport, ILS Runway 8R, Amdt. 2.

6. Section 97.31 is amended by originating, amending, or canceling the following RADAR SIAPs, effective October 4, 1973:

Guam, Mariana Is.—Andersen AFB, RADAR–1, Amdt. 5, Canceled.

7. Section 97.33 is amended by originating, amending, or canceling the following RNAV SIAPs, effective November 8, 1973:

Burley, Ida.—Burley Municipal Airport, RNAV, Runway 20, Original.
Cleveland, Ohio—Cleveland-Hopkins International Airport, RNAV Runway 10L, Amdt. 3.
Cleveland, Ohio—Cleveland-Hopkins International Airport, RNAV Runway 18R, Amdt. 3.
Cleveland, Ohio—Cleveland-Hopkins International Airport, RNAV Runway 36L, Amdt. 3.
East Stroudsburg, Pa.—Stroudsburg-Pocono Airpark, RNAV Runway 26, Amdt. 1.
Jacksonville, Fla.—Craig Municipal Airport, RNAV Runway 31, Amdt. 2.
Kansas City, Mo.—Kansas City International Airport, RNAV Runway 1, Amdt. 1.
Pekin, Ill.—Pekin Municipal Airport, RNAV Runway 9, Original.
Springfield, Mo.—Springfield Municipal Airport, RNAV Runway 13, Amdt. 1.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1948 (49 U.S.C. 1438, 1354, 1421, 1510); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)) (5 U.S.C. 552(a)(1).)

Issued in Washington, D.C., on September 20, 1973.

JAMES M. VINES,
*Chief, Aircraft Programs Division.*

NOTE.—Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610) approved by the Director of the FEDERAL REGISTER on May 12, 1969.

[FR Doc.73-20590 Filed 9-26-73;8:45 am]

## CHAPTER II—CIVIL AERONAUTICS BOARD

### SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-823]

### PART 229—SPECIAL PROVISIONS UNDER PRICE STABILIZATION PROGRAM

#### Repeal of Part

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on September 21, 1973.

Part 229 of the Board's Economic Regulations has contained criteria for the Board's use in assessing increases in rates, fares, and charges for certain services subject to its jurisdiction during Phases II and III of the Economic Stabilization Program. The special provisions prescribed by Part 229, as amended, were imposed in compliance with Cost of Living Council and Price Commission directives. However, since § 150.56 of the Cost of Living Council's Phase IV Regulations (38 FR 21592), which are now in effect, exempts public utilities, including the air transportation industry, from coverage, the special provisions of Part 229 of our Economic Regulations are no longer necessary. The general provisions set forth in our § 221.165 will continue to be applicable to such rate changes. In the Board's judgment, these provisions, together with the ratemaking criteria established in such cases as the Domestic Passenger-Fare Investigation, Docket 21866, will ensure that the objectives of the price stabilization program are being met in the air transportation industry.

Since repeal of Part 229 reflects the exemption of the air transportation industry from the Economic Stabilization Program, which had necessitated the adoption and continuance of the special provisions set forth in the part, and such repeal imposes no burden on any one, the Board finds that notice and public procedure hereon are not necessary and the within repeal may be made effective immediately.

Accordingly, the Civil Aeronautics Board hereby repeals Part 229 of the Economic Regulations (14 CFR Part 229), effective September 21, 1973.

(Sec. 204 of the Federal Aviation Act of 1958, as amended 72 Stat. 743; (49 U.S.C. 1324).)

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

## Title 15—Commerce and Foreign Trade

## CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

### SUBCHAPTER B—EXPORT REGULATIONS

[13th Gen. Rev., Export Regs., Amdt.]

### PART 377—SHORT SUPPLY CONTROLS

### PART 399—COMMODITY CONTROL LIST AND RELATED MATTERS

#### Discontinuance of Short Supply Controls on Agricultural Commodities

The FEDERAL REGISTER issuances of June 27 and July 5, 1973 imposed validated license controls on exports of certain agricultural commodities to all foreign destinations, including Canada. These controls were imposed to assure adequate domestic availability of soybeans, cottonseed, and their oilcake and meals, as well as oils, protein feeds, and animal fats substitutable for those commodities. The availability of new crop soybeans in sufficient quantities for anticipated needs, both domestic and foreign, has made continuation of these controls unnecessary.

The purpose of this document is to announce discontinuance of short supply controls on all agricultural commodities as of October 1, 1973. The agricultural commodities listed below will no longer require a validated license for export to Canada and Country Groups Q, T, V, W, and Y. Effective 12:01 a.m., October 1, 1973, these commodities may be exported to the above named destinations under the provisions of General License G–DEST.

0(1a) Oil-cake and meal, the following only: cottonseed, soybean, linseed, sunflower, safflower, and peanut, classified under Schedule B Nos. 081.3020, 081.3030, 081.3040 and 081.3050.
0(1b) Corn gluten feed classified under Schedule B No. 081.2015.
0(1c) Meatmeal and tankage, and fish meal, inedible, classified under Schedule B Nos. 081.4020 and 081.4040.
0(1d) Animal feeds, prepared, the following only: feather meal classified under Schedule B No. 081.9910; poultry feeds classified under Schedule B No. 081.9920; dairy cattle feeds classified under Schedule B No. 081.9930; livestock feeds classified under Schedule B No. 081.9940; and alfalfa meals classified under Schedule B Nos. 081.9960 and 081.9970.
0(1a) Lard and grease classified under Schedule B Nos. 091.3010 and 091.3020.
22(1a) Safflower seed; sunflower seed; peanuts, shelled and unshelled, green; and cottonseed; classified under Schedule B Nos. 221.0510, 221.0520, 221.1010, 221.1020, and 221.6000.
22(1b) Soybeans and flaxseed (Linseed) classified under Schedule B Nos. 221.4000 and 221.5000.
29(1a) Bone meal classified under Schedule B No. 291.0075.
29(1b) Blood flour and blood meal, classified under Schedule B No. 291.0090.
4(1a) Vegetable oils and mixtures thereof, the following only: soybean oils classified under Schedule B Nos. 421.2010, 421.2020, and 431.2010; cottonseed oils classified under Schedule B Nos. 421.3010, 421.3020, 421.3030 and 431.2020; cottonseed and soybean oil mixtures classified under Schedule B No. 431.2030; peanut oils classified under Schedule B Nos. 421.4010 and 421.4020; sunflower seed oils classified under Schedule B Nos. 421.8010, 421.8020, and 421.8040; linseed oils classified under Schedule B Nos. 422.1000 and 431.1010; corn oils classified under Schedule B Nos. 422.9020 and 431.2030; safflower seed oil classified under Schedule B No. 422.9030; and fish oil, maize oil and peanut oil classified under Schedule B No. 431.2030.
4(1b) Tallow, edible and inedible, classified under Schedule B Nos. 411.3210 and 411.3220.
512(22a) Vegetable lecithin, soybean, classified under Schedule B No. 512.0965.

Accordingly, § 377.3 and the "Agricultural Commodities" portion of Supplement No. 1 to Part 377 of the Export Control Regulations are deleted, and the Commodity Control List (§ 399.1 of the Export Control Regulations) is revised to delete the above listed entries and to delete the word "other" from entries 0(1f), 22(1c), 29(1c), and 4(1c). Replacement pages for the Export Control Regulations will be published in a forthcoming Export Control Bulletin.

This action in no way modifies or affects the reporting requirements set forth in Part 376, which remain in full force and effect.

Effective date of action: 12:01 a.m. October 1, 1973.

RAUER H. MEYER,
*Director, Office of Export Control.*

### SUBCHAPTER B—FOOD AND FOOD PRODUCTS

### PART 121—FOOD ADDITIVES

### Subpart C—Food Additives Permitted in the Feed and Drinking Water of Animals or for the Treatment of Food-Producing Animals

### SUBCHAPTER C—DRUGS

### PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

#### Chlortetracycline, Sulfamethazine, and Penicillin

The Commissioner of Food and Drugs has evaluated a new animal drug application (91-668V) filed by Rachelle Labs., Inc., 700 Henry Ford Avenue, P.O. Box 2029, Long Beach, CA 90801, proposing the safe and effective use of chlortetracycline, sulfamethazine and penicillin in swine feed. The application is approved.

The provision for use of the product in swine feed in Part 121 of the food additive regulations is being deleted as part of this order and recodified in Part 135e.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 135e are amended as follows:

§ 121.203 [Amended]

1. Part 121 is amended in § 121.208(d) by deleting item 2. "chlortetracycline combined with penicillin, sulfamethazine" in Table 2 and reserving the item for future use.

2. Part 135e is amended by adding thereto a new section to read as follows:

§ 135e.61 Chlortetracycline, procaine penicillin, and sulfamethazine.

(a) *Specifications.* (1) Chlortetracycline is the antibiotic substance produced by growth of *Streptomyces aureofaciens* or the same antibiotic substance produced by any other means and, for the purpose of this section, refers to chlortetracycline or feed grade chlortetracycline as the specified salt.

(2) Procaine penicillin is the procaine salt of the antibiotic substance produced by the growth of *Pennicillium notatum* or *Penicillium chrysogenum* or the same antibiotic substance produced by any other means and, for the purposes of this section, refers to procaine penicillin or feed grade procaine penicillin.

(3) Sulfamethazine is the chemical N¹-(4,6-Dimethyl-2-pyrimidinyl) sulfanilamide.

(4) The antibiotic activities authorized are expressed in this section in terms of the weight of the appropriate antibiotic standards.

(5) Finished feed contains in each ton, 100 grams of chlortetracycline, 50 grams of penicillin as procaine penicillin, and 100 grams of sulfamethazine.

(b) *Approvals.* Premix level of 20 grams of chlortetracycline per pound, 4.4 percent of sulfamethazine, and procaine penicillin equivalent in activity to 10 grams of penicillin per pound has been granted; for sponsor see Code Nos. 004 and 071 in § 135.501(c) of this chapter.

(c) *Assay limits.* Finished feed must contain not less than 70 percent nor more than 130 percent of labeled amount of chlortetracycline and procaine penicillin and not less than 80 percent nor more than 120 percent of labeled amount of sulfamethazine.

(d) *Special considerations.* Finished feeds conforming to the requirements of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

(e) *Related tolerances.* See §§ 135g.8, 135g.12, and 135g.27 of this chapter.

(f) *Conditions of use.* (1) It is administered to swine in a complete feed for reduction of the incidence of cervical abscesses; treatment of bacterial swine enteritis (salmonellosis or necrotic enteritis caused by *Salmonella choleraesuis* and vibrionic dysentery); prevention of these diseases during times of stress; maintenance of weight gains in the presence of atrophic rhinitis; growth promotion and increased feed efficiency in swine weighing up to 75 pounds.

(2) Withdraw 7 days prior to slaughter.

*Effective date.* This order shall be effective on September 27, 1973.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated September 20, 1973.

C. D. VAN HOUWELING,
*Director, Bureau of Veterinary Medicine.*

### PART 135a—NEW ANIMAL DRUGS FOR OPHTHALMIC AND TOPICAL USE

#### Dimethyl Sulfoxide Gel, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (47-925V) filed by Syntex Laboratories, Inc., Stanford Industrial Park, Palo Alto, CA 94304 proposing the safe and effective use of dimethyl sulfoxide gel, veterinary for the treatment of horses. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135a is amended by adding a new section as follows:

§ 135a.49 Dimethyl sulfoxide gel, veterinary.

(a) *Specifications.* Dimethyl sulfoxide gel, veterinary contains 90 percent dimethyl sulfoxide in an aqueous gel.

(b) *Sponsor.* See code No. 036 in § 135.501(c) of this chapter.

V 38 N 187 SEP 27 73 XUM

(c) *Conditions of use.* (1) It is recommended for use on horses as a topical application to reduce acute swelling due to trauma.

(2) It is administered topically to the skin over the affected area. Liberal application should be administered 2 to 3 times daily. Total daily dosage should not exceed 100 grams. Total duration of therapy should not exceed 30 days.

(3) Not to be administered to horses that are to be slaughtered for food or intended for breeding purposes. For topical application only. Do not administer by any other route. No other medications should be present on the skin prior to application of the drug.

(4) Federal law restricts this drug to used by or on the order of a licensed veterinarian.

*Effective date.*—This order shall be effective on September 27, 1973.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated September 20, 1973.

C. D. VAN HOUWELING,
*Director,*
*Bureau of Veterinary Medicine.*

## PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

### Neostigmine Methylsulfate

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (8-097V) filed by Pitman-Moore, Inc., Washington Crossing, NJ 08560, proposing the safe and effective use of neostigmine methylsulfate for the treatment of cattle, horses, sheep and swine. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135b is amended by adding a new section as follows:

**§ 135b.97 Neostigmine methylsulfate injection, veterinary.**

(a) *Specifications.* Neostigmine methylsulfate injection, veterinary contains two milligrams of neostigmine methylsulfate in each milliliter of sterile aqueous solution.

(b) *Sponsor.* See code No. 066 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is intended for use for treating rumen atony; initiating peristalsis which causes evacuation of the bowel; emptying the urinary bladder; and stimulating skeletal muscle contractions. It is a curare antagonist.

(2) It is administered to cattle and horses at a dosage level of 1 milligram per 100 pounds of body weight subcutaneously. It is administered to sheep at a dosage level of 1 to 1½ milligrams per 100 pounds body weight subcutaneously. It is administered to swine at a dosage level of 2 to 3 milligrams per 100 pounds body weight intramuscularly. These doses may be repeated as indicated.

(3) The drug is contraindicated in mechanical, intestinal or urinary obstruction, late pregnancy, and in animals treated with other cholinesterase inhibitors.

(4) Not for use in animals producing milk, since this use will result in contamination of the milk.

(5) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

*Effective date.*—This order shall be effective on September 27, 1973.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated August 31, 1973.

FRED J. KINGMA,
*Acting Director,*
*Bureau of Veterinary Medicine.*

[FR Doc.73-20634 Filed 9-26-73;8:45 am]

## PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

### Phenylbutazone

The Commissioner of Food and Drugs has evaluated a new animal drug application (91-939V) filed by Norden Laboratories, Inc., Lincoln, NE 68501, proposing the safe and effective use of phenylbutazone tablets for the treatment of dogs. The application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135c is amended in § 135c.57 by adding a new paragraph (h) as follows:

**§ 135c.57 Phenylbutazone tablets and boluses.**

* * * * *

(h)(1) *Specifications.* The drug is in tablet form with each tablet containing 100 milligrams of phenylbutazone.

(2) *Sponsor.* See code No. 026 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) It is used for the relief of inflammatory conditions associated with the musculoskeletal system in dogs.

(ii) It is administered orally to dogs at a dosage level of 20 milligrams per pound of body weight in three divided doses daily given at 8 hour intervals with a maximum dosage level of 800 milligrams per day regardless of body weight.

(iii) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

*Effective date.*—This order shall become effective on September 27, 1973.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated August 31, 1973.

FRED J. KINGMA,
*Acting Director,*
*Bureau of Veterinary Medicine.*

### Title 28—Judicial Administration

### CHAPTER I—DEPARTMENT OF JUSTICE

[Order 540-73]

## PART 0—ORGANIZATION OF THE DEPARTMENT OF JUSTICE

### Civil Rights Issues Affecting American Indians

This order clarifies the assignment of matters regarding civil rights issues affecting American Indians. Matters arising under Title II of the Civil Rights Act of 1968, 82 Stat. 77; 25 U.S.C. 1301 et seq. (the Indian Bill of Rights) are assigned to the Civil Rights Division, and other Indian-related matters primarily involving natural resources issues will continue to be handled by the Land and Natural Resources Division.

By virtue of the authority vested in me by 28 U.S.C. 509, 510 and 5 U.S.C. 301, Chapter I of Part 0 of Title 28, Code of Federal Regulations, is amended as follows:

**§ 0.50 [Amended]**

1. Paragraph (a) of § 0.50 of Subpart J is amended by deleting the word "and" immediately before the word "housing" and by adding immediately after the word "housing," the phrase "and the constitutional and civil rights of Indians arising under 25 U.S.C. 1301 et seq."

**§ 0.65 [Amended]**

2. Paragraph (b) of § 0.65 of Subpart M is amended by adding at the end thereof: "(except matters involving the constitutional and civil rights of Indians assigned to the Civil Rights Division by Subpart J of this part)."

Dated September 19, 1973.

ELLIOT RICHARDSON,
*Attorney General.*

### CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

### SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-214]

## PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

### Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

**§ 1914.4 Status of participating communities.**

* * * * * * *

| State | County | Location | Map No. | State map repository | Local map repository | Effective date of authorization of sale of flood insurance for area |
|---|---|---|---|---|---|---|
| Texas | Harris | Houston, City of | | | | Sept. 14, 1973, Emergency. |

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408-410, Pub. L. 91-152, Dec. 24, 1969) (42 U.S.C. 4001-4127); and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969.)

Issued September 14, 1973.

GEORGE K. BERNSTEIN,
*Federal Insurance Administrator.*

### Title 26—Internal Revenue

### CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

### SUBCHAPTER A—INCOME TAX

[INCOME TAX REGULATIONS]

[T.D. 7286]

## PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### Time for Filing Application for Change of Annual Accounting Period

This document contains an amendment to the Income Tax Regulations (26 CFR Part 1) under sections 442 and 706 of the Internal Revenue Code of 1954. The amendment is designed to change the due date for filing an application for a change of a taxpayer's annual accounting period.

Section 442 of the Code provides that a taxpayer may change his annual accounting period ("taxable year") only if the permission of the Secretary of the Treasury or his delegate is obtained. Present regulations provide that a request for such permission must be filed not later than the last day of the month following the close of the short taxable period which would be created by the change of taxable year. In response to comments from the public, the regulations lengthen the period for filing the application to the 15th day of the second month following the close of the short taxable period. The change is effective for changes involving short periods ending after December 31, 1973.

A conforming change is made to the regulations under Code section 706, relating to application for change of taxable year of a partnership.

*Amendments to the regulations.* In order to lengthen the time for filing an application for change of annual accounting period the Income Tax Regulations (26 CFR Part 1) are amended as follows:

PARAGRAPH 1. Paragraph (b)(1) of § 1.442-1 is amended to read as follows:

**§ 1.442-1 Change of annual accounting period.**

* * * * *

(b) *Prior approval of the Commissioner*—(1) *In general.* In order to secure prior approval of a change of a taxpayer's annual accounting period, the taxpayer must file an application on Form 1128 with the Commissioner of Internal Revenue, Washington, D.C. 20224, to effect the change of accounting period. If the short period involved in the change ends after December 31, 1973, such form shall be filed on or before the 15th day of the second calendar month following the close of such short period; if such short period ends before January 1, 1974, such form shall be filed on or before the last day of the first calendar month following the close of such short period. Approval will not be granted unless the taxpayer and the Commissioner agree to the terms, conditions, and adjustments under which the change will be effected. In general, a change of annual accounting period will be approved where the taxpayer establishes a substantial business purpose for making the change. In determining whether a taxpayer has established a substantial business purpose for making the change, consideration will be given to all the facts and circumstances relating to the change, including the tax consequences resulting therefrom. Among the nontax factors that will be considered in determing whether a substantial business purpose has been established is the effect of the change on the taxpayer's annual cycle of business activity. The agreement between the taxpayer and the Commissioner under which the change will be effected shall, in appropriate cases, provide terms, conditions, and adjustments necessary to prevent a substantial distortion of income which otherwise would result from the change. The following are examples of effects of the change which would substantially distort income: (i) Deferral of a substantial portion of the taxpayer's income, or shifting of a substantial portion of deductions, from one year to another so as to reduce substantially the taxpayer's tax liability; (ii) causing a similar deferral or shifting in the case of any other person, such as a partner, a beneficiary, or a shareholder in an electing small business corporation as defined in section 1371 (b); or (iii) creating a short period in which there is either (*a*) a substantial net operating loss, or (*b*) in the case of an electing small business corporation, a substantial portion of amounts treated as long-term capital gain. Even though a substantial business purpose is not established, the Commissioner in appropriate cases may permit a husband or wife to change his or her taxable year in order to secure the benefits of section 1(a) (relating to tax in case of a joint return). See paragraph (e) of this section for special rule for newly married couples.

* * * * *

PAR. 2. Paragraph (b)(4)(i) of § 1.706-1 is amended to read as follows:

V 38 I 187 SEP 27 73 XUM

§ 1.706–1 **Taxable years of partner and partnership.**

. . . . . .

(b) *Adoption or change in taxable year.* . . .

(4) *Application for approval*—(i) *Change.* Application for a change in a taxable year shall be filed on Form 1128 with the Commissioner of Internal Revenue, Washington, D.C. 20224. If the short period involved in the change ends after December 31, 1973, such form shall be filed on or before the 15th day of the second calendar month following the close of such short period; if such short period ends before January 1, 1974, such form shall be filed on or before the last day of the first calendar month following the close of such short period.

. . . . . .

Because this Treasury decision merely lengthens the time period within which an application for change of annual accounting period may be filed, it is found unnecessary to issue it with notice and public procedure thereon under subsection (b) of section 553 of Title 5 of the United States Code.

(Section 7805 of the Internal Revenue Code of 1954 68A Stat. 917; (26 U.S.C. 7805).)

DONALD C. ALEXANDER,
*Commissioner of Internal Revenue.*

Approved September 20, 1973.

FREDERICK W. HICKMAN,
*Assistant Secretary of the Treasury.*

[Income Tax Regulations]

[T.D. 7287]

## PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

### Deductibility and Inclusion in Gross Income of Family Allowances

By a notice of proposed rule making appearing in the FEDERAL REGISTER for Friday, December 22, 1972 (37 FR 28302), amendments to the Income Tax Regulations (26 CFR Part 1) under sections 661 and 662 of the Internal Revenue Code of 1954 were proposed in order to conform the Income Tax Regulations to the decision of the Tax Court in *Estate of Laurence R. McCoy*, 50 T.C. 562 (1968). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed are adopted by this document without change.

Under the regulations adopted by this document, an amount paid, or required to be paid, by a decedent's estate as an allowance or award for the support of a beneficiary, who is the decedent's widow or dependent, is deductible by the estate in computing its taxable income and includible in the gross income of the beneficiary to the extent of the beneficiary's share of the estate's distributable net income. This treatment would apply to such amounts, commonly called a "widow's allowance" or "family allowance," paid by the estate from either income or corpus. The revised regulations apply to taxable years beginning after December 31, 1953 and ending after August 16, 1954.

Heretofore, the regulations provided that any such allowance was deductible by the estate, and includible in the gross income of the widow or other dependent, only to the extent payable out of and chargeable to income under the applicable order, decree, or local law providing for such allowance. Many comments by interested persons objected to the retroactive application of the proposed regulations. Accordingly, the Internal Revenue Service has set forth in a Revenue Procedure the circumstances under which the treatment of such allowances, in a manner consistent with the regulations prior to the amendment made by this document, will not be disturbed. (Rev. Proc. 73–4, 1973 Int. Rev. Bull. No. 6, at 32.) Generally, with respect to returns heretofore filed for taxable years ending before the date of approval of this document, such consistent treatment will not be disturbed unless the estate files a claim for refund based on a distribution deduction for a "widow's" or "family" allowance. However, if the estate has filed a claim for refund and does not withdraw it, the Internal Revenue Service will require the widow or other dependent to include such allowance in gross income.

Several comments were received indicating some possible confusion as to whether the regulations would apply to certain distributions which, in light of local law, would not be considered distributions of the estate. Because it is implicit in the regulations that their application is limited only to estate distributions, no amendment to the regulations was made as a result of the comments.

*Adoption of amendments to the regulations.* On Friday, December 22, 1972, notice of proposed rule making with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) under sections 661 and 662 of the Internal Revenue Code of 1954 in order to provide revised rules for the treatment of an amount paid, or required to be paid, by a decedent's estate as an allowance or award for the support of the decedent's widow or other dependent during the administration of the estate, was published in the FEDERAL REGISTER (37 FR 28302). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments of the regulations as proposed are hereby adopted effective for returns with respect to taxable years beginning after December 31, 1953, and ending after August 16, 1954.

(Section 7805 of the Internal Revenue Code of 1954 68A Stat. 917; (26 U.S.C. 7805).)

[SEAL] DONALD C. ALEXANDER,
*Commissioner of Internal Revenue.*

Approved September 21, 1973.

JOHN H. HALL,
*Deputy Assistant Secretary of the Treasury.*

In order to provide revised rules for the treatment of an amount paid, or required to be paid, by a decedent's estate as an allowance or award for the support of the decedent's widow or other dependent during the administration of the estate, the Income Tax Regulations (26 CFR Part 1) under sections 661 and 662 of the Internal Revenue Code of 1954 are amended to read as follows. These amendments are applicable to taxable years beginning after December 31, 1953, and ending after August 16, 1954.

PARAGRAPH 1. Section 1.661(a)–2 is amended by revising paragraph (e) to read as follows:

§ 1.661(a)–2 **Deduction for distributions to beneficiaries.**

. . . . . .

(e) The terms "income required to be distributed currently" and "any other amounts properly paid or credited or required to be distributed" include amounts paid, or required to be paid, during the taxable year pursuant to a court order or decree or under local law, by a decedent's estate as an allowance or award for the support of the decedent's widow or other dependent for a limited period during the administration of the estate. The term "any other amounts properly paid or credited or required to be distributed" does not include the value of any interest in real estate owned by a decedent, title to which under local law passes directly from the decedent to his heirs or devisees.

. . . . . .

PAR. 2. Section 1.662(a)–2 is amended by revising paragraph (c) to read as follows:

§ 1.662(a)–2 **Currently distributable income.**

. . . . . .

(c) The phrase "the amount of income for the taxable year required to be distributed currently" includes any amount required to be paid out of income or corpus to the extent the amount is satisfied out of income for the taxable year. Thus, an annuity required to be paid in all events (either out of income or corpus) would qualify as income required to be distributed currently to the extent there is income (as defined in section 643(b)) not paid, credited, or required to be distributed to other beneficiaries for the taxable year. If an annuity or a portion of an annuity is deemed under this paragraph to be income required to be distributed currently, it is treated in all respects in the same manner as an amount of income actually required to be distributed currently. The phrase "the amount of income for the taxable year required to be distributed currently" also includes any amount required to be paid during the taxable year in all events (either out of income or corpus) pursuant to a court order or decree or under local law, by a decedent's estate as an allowance or award for the support of the decedent's widow or other dependent for a limited period during the administration of the estate to the extent there is income (as defined in section 643(b)) of the estate for the taxable year not paid, credited, or required to be distributed to other beneficiaries.

. . . . . .

PAR. 3. Section 1.662(a)–3 is amended by revising paragraph (b) to read as follows:

§ 1.662(a)–3 **Other amounts distributed.**

. . . . . .

(b) Some of the payments to be included under paragraph (a) of this section are: (1) A distribution made to a beneficiary in the discretion of the fiduciary; (2) a distribution required by the terms of the governing instrument upon the happening of a specified event; (3) an annuity which is required to be paid in all events but which is payable only out of corpus; (4) a distribution of property in kind (see paragraph (f) of § 1.661(a)–2); (5) an amount applied or distributed for the support of a dependent of a grantor or a trustee or cotrustee under the circumstances specified in section 677(b) or section 678(c) out of corpus or out of other than income for the taxable year; and (6) an amount required to be paid during the taxable year pursuant to a court order or decree or under local law, by a decedent's estate as an allowance or award for the support of the decedent's widow or other dependent for a limited period during the administration of the estate which is payable only out of corpus of the estate under the order or decree or local law.

### Title 41—Public Contracts and Property Management

### CHAPTER 1—FEDERAL PROCUREMENT REGULATIONS

[FPR Amdt. 119]

### PART 1–1—GENERAL

### Subpart 1–1.7—Small Business Concerns

CERTIFICATE OF COMPETENCY PROGRAM

This amendment clarifies in Subpart 1–1.7, Small Business Concerns, the procedures for (1) resolving disagreements between contracting officers and the Small Business Administration (SBA) regional offices over the issuance of certificates of competency, (2) processing appeals by an agency to the SBA Central Office, and (3) conforming the procedures in the FPR to the actual practices followed by SBA.

1. Section 1–1.708–2 is amended by revising paragraph (d) and adding a new paragraph (e). As amended, the section reads as follows:

§ 1–1.708–2 **Applicability and procedure.**

. . . . . .

(d) After a contracting officer refers a negative finding regarding the capacity or credit of a small business concern to the SBA regional office, the SBA office shall notify the contracting officer if it plans to issue a certificate of competency or to refer the application to the SBA Central Office, Washington, D.C. The contracting officer shall also be informed of any new or additional facts in the case which have been developed. If these facts warrant, the contracting officer should consider a reversal of his negative finding. Every effort should be made to resolve the differences between SBA and the contracting agency through a complete exchange of preaward information.

(e) If agreement cannot be reached between the SBA regional office and the contracting officer, the contracting officer shall request the SBA regional office to suspend action and to forward the case to the SBA Central Office, Washington, D.C., for review. The SBA Central Office may decline to issue a certificate of competency and inform the contracting officer of this decision, or it may inform the contracting officer and higher authority within the procuring agency of the reasons for SBA's proposed affirmative action. The procuring agency shall notify the SBA Central Office within 10 workdays after receipt of written notification of SBA's proposed affirmative action whether a formal appeal will be made at the Central Office level. The appeal shall be presented within 10 workdays after the SBA Central Office is notified that an appeal will be made or at such later date as may be agreed upon by SBA and the procuring agency. Following the appeal, the SBA Associate Administrator shall make a determination relative to the certificate of competency action and his determination will be considered final.

2. Section 1–1.708–3 is revised to delete the last two sentences. As revised, the paragraph reads as follows:

§ 1–1.708–3 **Conclusiveness of certificate of competency.**

As provided in the Small Business Act (15 U.S.C. 637(b)(7)), procurement agencies are required to accept SBA certificates of competency as conclusive of a prospective contractor's responsibility as to capacity and credit.

(Sec. 205(c), 63 Stat. 390; (40 U.S.C. 486(c)).)

*Effective date.*—These regulations are effective on September 27, 1973.

Dated September 20, 1973.

### LATE BIDS AND PROPOSALS

This amendment of the Federal Procurement Regulations prescribes revised and new policies and procedures pertaining to the receipt and consideration for award of bids and proposals that have been received after the exact time set for opening or receipt in the solicitation document. In the future, bids will be considered timely if mailed by registered or certified mail 5 or more days before the time set for the opening of bids. In the case of negotiated procurement two procedures for handling late proposals are prescribed. The general procedure requires that late proposals shall be treated in essentially the same manner as late bids. An alternate procedure has been prescribed which allows for the consideration of late proposals if they are received prior to a determination of the competitive range and offer significant cost or technical advantages to the Government. This alternate procedure may be used only when the head of the agency, or his designee, determines that it is applicable to certain classes of procurements conducted by his agency.

### PART 1–2—PROCUREMENT BY FORMAL ADVERTISING

### Subpart 1–2.2—Solicitation of Bids

[FPR Amdt. 118]

Section 1–2.201 is amended to add a new paragraph (a)(31), as follows:

§ 1–2.201 **Preparation of invitations for bids.**

(a) . . .

(31) The following provision regarding the receipt and consideration of bids for award that are received after the exact time set for opening in the invitation for bids shall be placed in each solicitation:

LATE BIDS, MODIFICATIONS OF BIDS, OR WITHDRAWAL OF BIDS

(a) Any bid received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made and either:

(1) It was sent by registered or certified mail not later than the fifth calendar day prior to the date specified for the receipt of bids (e.g., a bid submitted in response to a solicitation requiring receipt of bids by the 20th of the month must have been mailed by the 15th or earlier); or

(2) It was sent by mail (or telegram if authorized) and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation.

(b) Any modification or withdrawal of a bid is subject to the same conditions as in (a), above. A bid may also be withdrawn in

V 38 1187 SEP 27 73 XUM

person by a bidder or his authorized representative, provided his identity is made known and he signs a receipt for the bid, but only if the withdrawal is made prior to the exact time set for receipt of bids.

(c) The only acceptable evidence to establish:

(1) The date of mailing of a late bid, modification, or withdrawal sent either by registered or certified mail is the U.S. Postal Service postmark on the wrapper or on the original receipt from the U.S. Postal Service. If neither postmark shows a legible date, the bid, modification, or withdrawal shall be deemed to have been mailed late. (The term "postmark" means a printed, stamped, or otherwise placed impression that is readily identifiable without further action as having been supplied and affixed on the date of mailing by employees of the U.S. Postal Service.)

(2) The time of receipt at the Government installation is the time-date stamp of such installation on the bid wrapper or other documentary evidence of receipt maintained by the installation.

(d) Notwithstanding (a) and (b) of this provision, a late modification of an otherwise successful bid which makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

* * * * *

### Subpart 1–2.3—Submission of Bids

1. Section 1–2.303–3 is revised to read as follows:

**§ 1–2.303–3 Mailed bids.**

A late bid, modification of bid, or withdrawal of bid shall be considered only if the circumstances set forth in the provision in § 1–2.201(a)(31) are applicable.

2. Section 1–2.303–4 is revised to read as follows:

**§ 1–2.303–4 Telegraphic bids.**

A late telegraphic bid received before award shall not be considered for award, regardless of the cause of the late receipt, including delays caused by the telegraph company, except for delays due to mishandling on the part of the Government in its transmittal to the office designated in the invitation for bids for the receipt of bids, as provided for bids submitted by mail (see § 1–2.303–3).

3. Section 1–2.303–6 is revised to read as follows:

**§ 1–2.303–6 Notification to late bidders.**

(a) When a late bid is received and it is clear from available information that under § 1–2.303–2 such late bid cannot be considered for award, the contracting officer, or his authorized representative, shall promptly notify the bidder that it was received late and will not be considered (see also § 1–2.303–7). However, when a late bid is transmitted by registered or certified mail and is received before award but it is not clear from available information whether it can be considered, the bidder shall be promptly notified substantially as follows:

Your bid in response to Invitation for Bids Number ------, dated ----------, was received after the time for opening specified in the Invitation. Accordingly, your bid will not be opened or considered for award unless there is received from you by ----------
(date)
the original post office receipt for registered or certified mail showing a date of mailing not later than the fifth calendar day prior to the date specified for opening (e.g., a bid submitted in response to a solicitation requiring receipt of bids by the 20th of the month must have been mailed by the 15th or earlier).

(b) When a late telegraphic bid is received and it is clear from available information that under § 1–2.303–2 such late bid cannot be considered, the contracting officer, or his authorized representative, shall promptly notify the bidder that his bid was received late and will not be considered (see also § 1–2.303–7).

---

## PART 1–3—PROCUREMENT BY NEGOTIATION

The table of contents for Part 1–3 is amended to include new entries in Subpart 1–3.8, as follows:

Sec.
1–3.802–1 Consideration of late proposals.
1–3.802–2 Alternate procedures for consideration of late proposals.

### Subpart 1–3.8—Price Negotiation Policies and Techniques

1. Section 1–3.802 is amended by revising paragraph (c). As revised, paragraph (c) reads as follows:

**§ 1–3.802 Preparation for negotiation.**

* * * * *

(c) *Requests for proposals.* Requests for proposals shall contain the information necessary to enable a prospective offeror to properly prepare a quotation or proposal. The request for proposals shall be as complete as possible with respect to: Item description or statement of work; specifications; Government-furnished property, if any; required delivery schedule; special provisions; cost or pricing data requirements (see § 1–3.807–3); and contract clauses. Requests for proposals shall specify a date and time for submission of proposals. Any extension of time granted to one prospective offeror shall be granted uniformly to all. Each request for proposals shall be released to all prospective offerors at the same time and no offeror shall be given the advantage of advance knowledge that proposals are to be requested. Requests for proposals shall be in writing except in those cases where the urgency of the procurement is such that there is not sufficient time to prepare a written request. In such cases oral requests are authorized.

2. Section 1–3.802 is amended to add new §§ 1–3.802–1 and 1–3.802–2, as follows:

**§ 1–3.802–1 Consideration of late proposals.**

(a) Except as provided in § 1–3.802–2, the following provision regarding the receipt and consideration of proposals for award that are received after the exact time set for receipt in the request for proposals shall be placed in each solicitation:

LATE PROPOSALS, MODIFICATIONS OF PROPOSALS, AND WITHDRAWALS OF PROPOSALS

(a) Any proposal received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made, and:

(1) It was sent by registered or certified mail not later than the fifth calendar day prior to the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th or earlier);

(2) It was sent by mail (or telegram if authorized) and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation; or

(3) It is the only proposal received.

(b) Any modification of a proposal, except a modification resulting from the Contracting Officer's request for "best and final" offer, is subject to the same conditions as in (a)(1) and (a)(2) of this provision.

(c) A modification resulting from the Contracting Officer's request for "best and final" offer received after the time and date specified in the request will not be considered unless received before award and the late receipt is due solely to mishandling by the Government after receipt at the Government installation.

(d) The only acceptable evidence to establish:

(1) The date of mailing of a late proposal or modification sent either by registered or certified mail is the U.S. Postal Service postmark on the wrapper or on the original receipt from the U.S. Postal Service. If neither postmark shows a legible date, the proposal or modification shall be deemed to have been mailed late. (The term "postmark" means a printed, stamped, or otherwise placed impression that is readily identifiable without further action as having been supplied and affixed on the date of mailing by employees of the U.S. Postal Service.)

(2) The time of receipt at the Government installation is the time-date stamp of such installation on the proposal wrapper or other documentary evidence of receipt maintained by the installation.

(e) Notwithstanding (a), (b), and (c), of this provision, a late modification of an otherwise successful proposal which makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(f) Proposals may be withdrawn by written or telegraphic notice received at any time prior to award. Proposals may be withdrawn in person by an offeror or his authorized representative, provided his identity is made known and he signs a receipt for the proposal prior to award.

(b) Proposals and modifications of proposals received in the office designated in the request for proposals after the exact time specified are late proposals and shall be considered for award only if the circumstances set forth in the provision in § 1–3.802–1(a), above, are applicable. When a late proposal or modification of proposal is received and it is clear from available information that it cannot be considered for award (e.g., when the postmark clearly shows that the proposal was mailed later than

the fifth day prior to the date specified), the contracting officer, or his authorized representative, shall promptly notify the offeror that it was received late and will not be considered for award. However, when a late proposal or modification of proposal is transmitted by registered or certified mail and it is received before award but it is not clear from the available information whether it can be considered, the offeror shall be promptly notified substantially in accordance with the notice in § 1–2.303–6, appropriately modified to relate to proposals. Disposition of late proposals that cannot be considered for award shall be in accordance with agency procedures.

(c) Where only one proposal is involved and it is received after the time specified, it may be evaluated and considered for award in accordance with agency procedures. As used in this section the term "only proposal received" means a proposal which is one submitted by (1) the only offeror responding to the request for proposals, (2) a sole source, or (3) an offeror who is offering proprietary items in response to a request for proposals which specifies that awards will be made on the basis of proprietary items identified by the offeror by brand name, model, type, or other identification. With respect to (3) of this paragraph (c), the term does not mean an offer which is based on a performance specification or a brand name product which is specifically identified in the request for proposals.

(d) The normal revisions of proposals by offerors selected for discussion during the usual conduct of negotiations with such offerors are not to be considered as late proposals or later modifications to proposals but shall be handled in accordance with § 1–3.805.

**§ 1–3.802–2 Alternate procedures for consideration of late proposals.**

(a) When the head of the agency, or his designee, determines that the procedures set forth in § 1–3.802–1 are not applicable to certain classes of negotiated procurement conducted by his agency, he may authorize the adoption of the following procedures for consideration of late proposals and modifications (except where the procurement of general purpose automated data processing equipment is involved unless use of the procedures set forth in this § 1–3.802–2 is expressly authorized by the Commissioner, Automated Data and Telecommunications Service, GSA).

(b) Requests for proposals that fall within a class of negotiated procurement for which it has been determined, in accordance with § 1–3.802–2(a), that the requirements of § 1–3.802–1 are not applicable shall contain the following provision:

LATE PROPOSALS, MODIFICATIONS OF PROPOSALS, AND WITHDRAWALS OF PROPOSALS

(a) Any proposal received at the office designated in the solicitation after the exact time specified for receipt will not be considered unless it is received before award is made, and:

(1) It was sent by registered or certified mail not later than the fifth calendar day prior to the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th day of the month must have been mailed by the 15th or earlier);

(2) It was sent by mail (or telegram if authorized) and it is determined by the Government that the late receipt was due solely to mishandling by the Government after receipt at the Government installation;

(3) It is the only proposal received; or

(4) It offers significant cost or technical advantages to the Government, and it is received before a determination of the competitive range has been made.

(b) Any modification of a proposal is subject to the same conditions as in (a) of this provision.

(c) The only acceptable evidence to establish:

(1) The date of mailing of a late proposal or modification sent either by registered mail or certified mail is the U.S. Postal Service postmark on the wrapper or on the original receipt from the U.S. Postal Service. If neither postmark shows a legible date, the proposal or modification of proposal shall be deemed to have been mailed late. (The term "postmark" means a printed, stamped, or otherwise placed impression that is readily identifiable without further action as having been supplied and affixed on the date of mailing by employees of the U.S. Postal Service.)

(2) The time of receipt at the Government installation is the time-date stamp of such installation on the proposal wrapper or other documentary evidence of receipt maintained by the installation.

(d) Notwithstanding (a) and (b) of this provision, a late modification of an otherwise successful proposal which makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(e) Proposals may be withdrawn by written or telegraphic notice received at any time prior to award. Proposals may be withdrawn in person by an offeror or his authorized representative, provided his identity is made known and he signs a receipt for the proposal prior to award.

(c) Proposals that are received in the office designated in the request for proposals before the time specified for their receipt shall be evaluated to determine which proposals are within the competitive range established for the procurement action. There may be cases where lateness due solely to a delay in the mails or mishandling after receipt at the Government installation results in a proposal being received by the contracting officer after the competitive range has been determined. In such cases the late proposal shall be evaluated, and, if found to be within the competitive range, shall be given the same consideration as other proposals within the competitive range.

(d) A late proposal that is delayed due to circumstances other than those set forth in the provision contaned in § 1–3.802–2(b) which offers significant cost or technical advantages to the Government shall be evaluated provided it is received before a determination of the competitive range has been made. Where the evaluation results in a determination that the proposal is within the competitive range, the proposal shall be given the same consideration as other proposals within the competitive range. However, where only one proposal is involved and it is received after the time specified, a determination of the competitive range is not to be made and the proposal may be evaluated and considered for award provided that the receipt of the proposal is prior to a decision made by the contracting officer to resolicit. See § 1–3.802–1(c) for the meaning of the term "only proposal received."

(e) Late proposals that are delayed under circumstances other than delays in the mails or mishandling at the Government installation which are received after a determination of the competitive range shall not be evaluated or considered for award. Also, where the request for proposals provides that award may be made without discussions with offerors, a late proposal shall not be evaluated or considered if it is received after the successful offeror has been selected and the contract has been awarded.

(f) Generally, contracting officers, assisted by audit or pricing personnel, will be able to make a determination of the significance of any reduction in cost to the Government offered by a late proposal. Determinations regarding significant technical advantages shall be made in accordance with agency procedures.

(g) Determination of the competitive range shall be made in accordance with agency procedures. All offerors shall be notified at the same time whether or not their proposals are within the competitive range, and the date of such notification shall be considered to be the date of the determination. Debriefings of unsuccessful offerors shall be conducted in accordance with agency procedures; however, debriefings should be conducted only after award has been made.

(h) An offeror who has submitted a late proposal that has not been accepted for consideration shall be notified in writing that the proposal was received late and will not be considered. The notification shall set forth the reason why the late proposal was not considered; e.g., did not offer significant cost or technical advantage, received after a determination of the competitive range, received after award.

(i) Modifications of proposals are categorized on the basis of time of receipt as: (1) Receipt prior to a determination of the competitive range, (2) receipt from offerors within the competitive range during negotiations, and (3) receipt at any time from an otherwise successful offeror. Modifications received prior to a determination of the competitive range shall be considered in the evaluation of the proposals which they modify. Modifications received after a determination of the competitive range shall be considered only if they modify proposals which are within the competitive range and are received prior to the date for completion of negotiations established by the contracting officer. All offerors within the competitive range shall be notified in writing of the date for completion of negotiations. Modifications received af-

V 38 I 187 SEP 27 73 XUM

ter the date set shall not be considered. However, a modification received from an otherwise successful offeror which is advantageous to the Government shall be considered at any time.

## PART 1–7—CONTRACT CLAUSES

### Subpart 1–7.1—Fixed-Price Supply Contracts

Section 1–7.103–23 is revised to read as follows:

**§ 1–7.103–23 Late offers and modifications or withdrawals.**

(a) Insert the provision set forth in § 1–2.201(a)(31) in all formally advertised solicitations.

(b) The provision set forth in § 1–3.802–1(b) shall be used in all negotiated solicitations except as provided by § 1–3.802–2(a).

(c) The provision set forth in § 1–3.802–2(b) may be used in negotiated solicitations under the conditions prescribed in § 1–3.802–2(a).

### Subpart 1–7.6—Fixed-Price Construction Contracts

Section 1–7.602–1 is revised to read as follows:

**§ 1–7.602–1 Late bids and modifications or withdrawals.**

(a) Insert the provision set forth in § 1–2.201(a)(31) in all formally advertised solicitations.

(b) The provision set forth in § 1–3.802–1(b) shall be used in all negotiated solicitations except as provided by § 1–3.802–2(a) (see also § 1–18.306).

(c) The provision set forth in § 1–3.802–2(b) may be used in negotiated solicitations under the conditions prescribed in § 1–3.802–2(a) (see also § 1–18.306).

## PART 1–16—PROCUREMENT FORMS

### Subpart 1–16.1—Forms for Advertised Supply Contracts

Section 1–16.101 is amended by revising paragraph (b). As revised, paragraph (b) reads as follows:

**§ 1–16.101 Contract forms.**

* * * * *

(b) Solicitation Instructions and Conditions (Standard Form 33A, March 1969 edition). Pending the publication of a new edition of the form, the Late Bids, Modifications of Bids, or Withdrawal of Bids provision prescribed by § 1–2.201(a)(31) shall be substituted for provision 8 entitled Late Offers and Modifications or Withdrawals whenever the form is used in the procurement of supplies or services by formal advertising, and the Late Proposals, Modifications of Proposals, and Withdrawals of Proposals provision prescribed by § 1–3.802–1(a) or the Late Proposals, Modifications of Proposals, and Withdrawals of Proposals prescribed by § 1–3.802–2(b) (when authorized by the head of the agency) shall be substituted for provision 8 entitled Late Offers and Modifications or Withdrawals whenever the form is used in procurement by negotiation.

* * * * *

### Subpart 1–16.4—Forms for Advertised Construction Contracts

Section 1–16.401 is amended by revising paragraph (f). As revised, paragraph (f) reads as follows:

**§ 1–16.401 Forms prescribed.**

* * * * *

(f) Instructions to Bidders (Construction Contract) (Standard Form 22, October 1969 edition). Pending the publication of a new edition of the form, the Late Bids, Modifications of Bids, or Withdrawal of Bids provision prescribed by § 1–2.201(a)(31) shall be substituted for provision 7 entitled Late Bids and Modifications or Withdrawals whenever the form is used in the procurement of construction by formal advertising; and the Late Proposals, Modifications of Proposals, and Withdrawals of Proposals provision prescribed by § 1–3.802–1(a) or the Late Proposals, Modifications of Proposals, and Withdrawals of Proposals prescribed by § 1–3.802–2(b) (when authorized by the head of the agency) shall be substituted for provision 7 entitled Late Bids and Modifications or Withdrawals whenever the form is used in procurement by negotiation.

* * * * *

(Sec. 205(c), 63 Stat. 390; (40 U.S.C. 486(c)).)

*Effective date.*—This amendment is effective with respect to invitations for bids and requests for proposals issued on and after October 25, 1973, but may be observed earlier.

Dated September 20, 1973.

ARTHUR F. SAMPSON,
*Administrator of General Services.*

## Title 45—Public Welfare

## CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## PART 233—COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

### Age and School Attendance in AFDC

Notice of proposed rulemaking for the program of Aid to Families with Dependent Children (AFDC) was published in the FEDERAL REGISTER on December 19, 1972 (37 FR 27637). The Notice included proposed regulations related to age and school attendance, in response to the Supreme Court decision in Townsend v. Swank.

There were no objections to the age and school attendance requirements, but one State asked for an additional requirement that children age 18 or over who are in school or training must be achieving passing grades or making satisfactory progress.

After consideration of the comments, the provisions regarding age and school attendance are adopted with clarifying changes in the provisions regarding Federal financial participation (§ 233.90(c)(1)(vi)).

Section 233.90, Part 233, Chapter II, Title 45 of the Code of Federal Regulations is amended by adding subparagraphs (2) and (3) to paragraph (b) and by revising paragraph (c)(1)(vi) as set forth below:

**§ 233.90 Factors specific to AFDC.**

* * * * *

(b) *Condition for plan approval.* (1) A child may not be denied AFDC either initially or subsequently "because of the conditions of the home in which the child resides", or because the home is considered "unsuitable", unless "provision is otherwise made pursuant to a State statute for adequate care and assistance with respect to such child". (Section 404(b) of the Social Security Act.)

(2) An otherwise eligible child who is under the age of 18 years may not be denied AFDC, regardless of whether he attends school or makes satisfactory grades.

(3) If a State elects to include in its AFDC program children 18 and over, it must include all children 18 years of age and under 21 who are students regularly attending a school, college, or university, or a course of vocational or technical training designed to fit them for gainful employment.

(c) *Federal financial participation.*

(1) * * *

(vi) *"Student regularly attending a school, college, or university, or regularly attending a course of vocational or technical training designed to fit him for gainful employment."* A child may be considered a student regularly attending a school or a training course:

(A) If he is enrolled in and physically attending a full-time (as certified by the school or institute attended) program of study or training leading to a certificate, diploma or degree; or

(B) If he is enrolled in and physically attending at least half-time (as certified by the school or institute attended) a program of study or training leading to a certificate, diploma or degree and is regularly employed in or available for and actively seeking part-time employment; or

(C) If he is enrolled in and physically attending at least half-time (as certified by the school or institute attended) a program of study or training leading to a certificate, diploma or degree and is precluded from full-time attendance or part-time employment because of a verified physical handicap.

Under this interpretation;

(D) Full-time and half-time attendance are defined, as set forth in Veterans Administration requirements:

(*1*) In a trade or technical school, in a program involving shop practice, full-time is 30 clock hours per week and half-time is 15 clock hours; in a program without shop practice, full-time is 25 clock hours and half-time is 12 clock hours;

(2) In a college or university, full-time is 12 semester or quarter hours and half-time is 8 semester or quarter hours;

(3) In a secondary school, full-time is 25 clock hours per week or 4 Carnegie units per year and half-time is 12 clock hours or 2 Carnegie units;

(4) In a secondary education program of cooperative training or in apprenticeship training, full-time attendance is as defined by State regulation or policy; and

(E) A child shall be considered in regular attendance in months in which he is not attending because of official school or training program vacation, illness, convalescence, or family emergency, and for the month in which he completes or discontinues his school or training program.

(Sec. 1102, Stat. 647 (U.S.C. 1302)).

*Effective date.*—These regulations in this section shall become effective on November 26, 1973.

Dated August 20, 1973.

JAMES S. DWIGHT, Jr.,
*Administrator, Social and Rehabilitation Service.*

Approved September 21, 1973.

## Title 50—Wildlife and Fisheries

## CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

## PART 32—HUNTING

### Bear River Migratory Bird Refuge, Utah

The following special regulation is issued and is effective September 27, 1973.

**§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.**

UTAH

BEAR RIVER MIGRATORY BIRD REFUGE

Public hunting of pheasants on the Bear River Migratory Bird Refuge, Utah, is permitted from November 10 through December 9, 1973, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 9,495 acres, is delineated on maps and shown as "Area A" which are available at refuge headquarters, Brigham City, Utah, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West 6th Avenue, Denver, Colo. 80215. Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants subject to the following special conditions:

(1) IRON SHOT. The exclusive use of 12 gage iron shot in Area A will be required on odd numbered days beginning November 11, 1973 and continue through the balance of the hunting season or until the refuge supply of iron shot is exhausted if this occurs first.

(2) ROADS. No hunting is permitted from roadways or within 100 yards of roadways.

(3) HUNTER CHECK STATION. Each hunter who enters Area A is required to register at the checking station and check out before leaving the refuge.

(4) PARKING. Hunters may park cars only at designated areas within the refuge.

(5) ROUTES OF TRAVEL. To reach open hunting area, travel is permitted on foot or bicycle from refuge checking station over roads between Units 1 and 2 and Units 2 and 3.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 9, 1973.

LLOYD F. GUNTHER,
*Refuge Manager, Bear River Migratory Bird Refuge, Brigham City, Utah.*

SEPTEMBER 18, 1973.

[FR Doc.73–20534 Filed 9–26–73;8:45 am]

## PART 32—HUNTING

### Salt Plains National Wildlife Refuge, Okla.

The following special regulation is issued and is effective September 27, 1973.

**§ 32.32 Special regulations; big game; for individual wildlife refuge areas.**

OKLAHOMA

SALT PLAINS NATIONAL WILDLIFE REFUGE

Public hunting of deer is permitted on the Salt Plains National Wildlife Refuge, Oklahoma, but only on the area designated by signs as open to hunting. This open area, comprising 2,347 acres, is delineated on maps available at refuge headquarters, Jet, Oklahoma, and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, P.O. Box 1306, Albuquerque, N. Mex. 87103. Participants are to be selected on the basis of a special drawing, and applications are to be submitted to the Oklahoma Department of Wildlife Conservation, 1801 North Lincoln, Oklahoma City, Okla. 73105. Application may be made by letter, and must contain the Applicant's name, address, and Oklahoma deer hunting license number. Application for bow hunting may be made between September 1 and September 30, 1973. Application for gun hunting may be made between September 15 and October 15, 1973. Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following special conditions:

(1) The bow hunting season is October 27, 28 and November 3, 4, 10 and 11, 1973.

(2) The gun hunting season is November 17, 18, 20, 21, 24 and 25, 1973.

(3) Hunters must check in at the refuge office prior to entering the assigned hunting area and must check out at the refuge office before leaving the area.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 25, 1973.

RONALD S. SULLIVAN,
*Refuge Manager, Salt Plains National Wildlife Refuge, Jct, Oklahoma.*

## Title 6—Economic Stabilization

## CHAPTER I—COST OF LIVING COUNCIL

## PART 150—COST OF LIVING COUNCIL; PHASE IV PRICE REGULATIONS

### Correction

In FR Doc. 73–20469 appearing at page 26611 for the issue of Monday, September 24, 1973, change the third paragraph of the preamble to read as follows:

"The present small business exemption in § 150.60 does not apply to firms engaged in construction operations. That section is being amended to exempt from the operation of Phase IV price regulations those small firms which are engaged in construction operations but have annual sales and revenues from construction operations of no more than $1 million."

Issued in Washington, D.C. on September 25, 1973.

WILLIAM N. WALKER,
*General Counsel,*
*Cost of Living Council.*

# Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

[ 26 CFR Part 1 ]

### INCOME TAX

### Medical Expense Deduction for Operation and Maintenance of Capital Assets

Notice is hereby given that the regulations set forth in tentative form in the attached appendix below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by October 29, 1973. Written comments or suggestions which are not exempt from disclosure by the Internal Revenue Service may be inspected by any person upon compliance with 26 CFR 601.702(d)(9). The provisions of 26 CFR 601.601(b) shall apply with respect to the designation of portions of comments or suggestions as exempt from disclosure. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by October 29, 1973. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the Federal Register, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917 (26 U.S.C. 7805)).

[SEAL] DONALD C. ALEXANDER,
*Commissioner of Internal Revenue.*

This document contains a proposed amendment to paragraph (e)(1)(iii) of § 1.213–1 of the Income Tax Regulations (26 CFR Part 1) to clarify the deduction for medical expenditures. Although capital expenditures do not generally qualify as deductible medical expenses, such expenditures are, however, deductible if their primary purpose is the medical care of the taxpayer, his spouse, or his dependent. If such expenditure does not result in the permanent improvement or betterment of property, the expenditure is fully deductible when paid. On the other hand, if such expenditure results in the betterment of property (such as an elevator or air conditioner in the taxpayer's home) and otherwise qualifies as a deductible medical expense, such expenditure is deductible as a medical expense only to the extent the expenditure exceeds the increase in the value of the related property. The amendment to the present regulations is to make clear that expenditures for the operation and maintenance of a capital asset are deductible medical expenses when such expenditures have as their primary purpose the medical care of the taxpayer, his spouse, or his dependent.

*Proposed amendments to the regulations.* In order to clarify the deduction for medical expenses, paragraph (e)(1)(iii) of § 1.213–1 of the Income Tax Regulations (26 CFR Part 1) is amended to read as follows:

§ 1.213–1 Medical, dental, etc. expenses.

* * * * *

(e) *Definitions*—(1) *General.* * * *

(iii) Capital expenditures are generally not deductible for Federal income tax purposes. See section 263 and the regulations thereunder. However, an expenditure which otherwise qualifies as a medical expense under section 213 shall not be disqualified merely because it is a capital expenditure. For purposes of section 213 and this paragraph, a capital expenditure made by the taxpayer may qualify as a medical expense, if it has as its primary purpose the medical care (as defined in subdivisions (i) and (ii) of this subparagraph) of the taxpayer, his spouse, or his dependent. Thus, a capital expenditure which is related only to the sick person and is not related to permanent improvement or betterment of property, if it otherwise qualifies as an expenditure for medical care, shall be deductible; for example, an expenditure for eye glasses, a seeing eye dog, artificial teeth and limbs, a wheel chair, crutches, an inclinator or an air conditioner which is detachable from the property and purchased only for the use of a sick person, etc. Moreover, a capital expenditure for permanent improvement or betterment of property which would not ordinarily be for the purpose of medical care (within the meaning of this paragraph) may, nevertheless, qualify as a medical expense to the extent that the expenditure exceeds the increase in the value of the related property, if the particular expenditure is related directly to medical care. Such a situation could arise, for example, where a taxpayer is advised by a physician to install an elevator in his residence so that the taxpayer's wife who is afflicted with heart disease will not be required to climb stairs. If the cost of installing the elevator is $1,000 and the increase in the value of the residence is determined to be only $700, the difference of $300, which is the amount in excess of the value enhancement, is deductible as a medical expense. If, however, by reason of this expenditure, it is determined that the value of the residence has not been increased, the entire cost of installing the elevator would qualify as a medical expense. Expenditures made for the operation or maintenance of a capital asset are likewise deductible medical expenses if they have as their primary purpose the medical care (as defined in subdivisions (i) and (ii) of this subparagraph) of the taxpayer, his spouse, or his dependent. Normally, if a capital expenditure qualifies as a medical expense, expenditures for the operation or maintenance of the capital asset would also qualify provided that the medical reason for the capital expenditure still exists. The entire amount of such operation and maintenance expenditures qualifies, even if none or only a portion of the original cost of the capital asset itself qualified.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[ 43 CFR Parts 3000, 3200 ]

### GEOTHERMAL RESOURCES

### Leasing on Public, Acquired and Withdrawn Lands; Extension of Time for Public Comment

The purpose of this notice is to extend the time for public comment on proposed geothermal regulations published on pages 19748–19765 of the July 23, 1973, FEDERAL REGISTER and amended by a notice published August 8, 1973 on page 21416.

The period for submitting written comments, suggestions, or objections, is hereby extended to a date 24 days after the final environmental impact statement regarding the development of geothermal resources is filed with the Council on Environmental Quality in accordance with section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332). Notice of the availability of the statement and final date for receipt of comments on the proposed regulations will be published in the FEDERAL REGISTER. It is anticipated that the statement will become available in early October.

Interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Geothermal Coordinator, Department of the Interior, Washington, D.C. 20240.

LAURENCE E. LYNN JR.,
*Secretary of the Interior.*

## DEPARTMENT OF LABOR

### Office of the Assistant Secretary for Labor-Management Relations

[ 29 CFR Parts 202, 206 ]

### GRANTING OFFICIAL TIME FOR ELECTIONS & HEARINGS

### Notice of Proposed Rulemaking

Notice is hereby given that pursuant to section 6(d) and 18(d) of Executive Order 11491 (34 FR 17605) as amended by Executive Order 11616 (36 FR 17319), the Assistant Secretary of Labor for Labor-Management Relations proposes to amend Parts 202 and 206 of Chapter II, Subtitle B, of Title 29 of the Code of Federal Regulations as set forth below.

These proposed amendments would authorize the granting of official time status to authorized representation election observers and to necessary employees participating in hearings held pursuant to the Assistant Secretary's authority under section 6(a) of Executive Order 11491 as amended.

Interested persons are invited to submit written comments, suggestions, or objections regarding this proposal to the Assistant Secretary of Labor for Labor-Management Relations, Attn: Office of Federal Labor-Management Relations, U.S. Department of Labor, Washington, D.C. 20216 not later than October 12, 1973.

All written materials or suggestions submitted in response to this notice of proposed rulemaking will be available for inspection at the Office of Federal Labor-Management Relations, U.S. Department of Labor, Room 418, 8757 Georgia Avenue, Silver Spring, Maryland during regular business hours.

Chapter II, Subtitle B, of Title 29 is proposed to be amended as follows:

1. Paragraph (f) of § 202.17 is proposed to be amended to read as follows:

**§ 202.17 Election procedure.**

* * * * *

(f) Any party may be represented at the polling place(s) by observers of its own selection, subject to such limitations as the Area Administrator may prescribe. Necessary employees in active duty status who are requested to serve as authorized representation election observers pursuant to an approved "Request for Appearance of Authorized Representation Election Observers" shall be on official time, which shall include the payment of any necessary transportation and per diem expenses by the employing agency or activity.

2. The title and text of § 206.7 is proposed to be amended as follows:

**§ 206.7 Requests for appearance of witnesses and production of documents at hearing and requests for authorized representation election observers.**

(a) Assistant Regional Directors for Labor-Management Services, Hearing Officers, or Administrative Law Judges, as appropriate, upon their own motion or upon the motion of any party to a proceeding, may issue a "Request for Appearance of Witnesses" or a "Request for Production of Documents" at a hearing or a "Request for Authorized Representation Election Observers" at a representation election supervised by a representative of the Assistant Secretary, pursuant to Parts 202, 203, 204, and 205 of this chapter.

(b) A party's motion to an Assistant Regional Director for Labor-Management Services shall be in writing and filed with the Assistant Regional Director for Labor-Management Services not less than ten (10) days prior to the opening of a hearing or the supervising of a representation election by a representative of the Assistant Secretary, pursuant to Parts 202, 203, 204, and 205 of this chapter. After the opening of a hearing, such motions shall be made to the Hearing Officer or Administrative Law Judge. All such motions shall name and identify the witnesses, documents, or authorized representation election observers sought, and state the reasons therefor. Copies shall be served on the other parties simultaneously with the filing of the motion with the Assistant Regional Director for Labor-Management Services, and a written statement certifying service shall also be filed with the Assistant Regional Director for Labor-Management Services.

* * * * *

(e) A motion shall be granted by the Assistant Regional Director for Labor-Management Services, Hearing Officer, or Administrative Law Judge after careful consideration of any objections and upon the determination (1) that the testimony, documents, or the presence of authorized representation election observers appears to be necessary to the matters involved and (2) that the motion describes with sufficient particularity the documents sought. Service of an approved "Request for Appearance of Witnesses", "Request for Authorized Representation Election Observers", or "Request for Production of Documents" is the responsibility of the requesting party. If any party, officer, or official of any party fails to comply with such a request or obstructs service of a request, the Assistant Regional Director for Labor-Management Services, Hearing Officer, Administrative Law Judge, or the Assistant Secretary may disregard all related evidence offered by the party failing to comply or to take such other action as may be appropriate.

* * * * *

(g) Necessary employees in active duty status, requested to attend a hearing as witnesses pursuant to an approved "Request for Appearance of Witnesses" in any case under Parts 202, 203, 204, or 205 of this chapter, shall be on official time, which shall include the payment of any necessary transportation and per diem expenses by the employing agency or activity.

Signed at Washington, D.C., this 21st day of September 1973.

PAUL J. FASSER, JR.,
*Assistant Secretary of Labor for Labor-Management Relations.*

## DEPARTMENT OF AGRICULTURE

### Rural Electrification Administration

[ 7 CFR Part 1701 ]

### REA SPECIFICATIONS FOR RURAL TELEPHONE FACILITIES

### Proposed Revision of Telephone System Construction Contract, Labor and Materials and Associated Specifications and Drawings

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), including the amendment thereto enacted by Pub. L. 93–32, REA proposes to issue REA Bulletin 381–2 to announce a revision of REA Forms 511, 511a, 511c, and 511d, as well as the introduction of new REA Forms 511f and 511g. REA Form 511 is entitled "Telephone System Construction Contract, Labor and Materials," while REA Forms 511a through 511g cover specifications and drawings for different classes of telephone plant construction. On issuance of REA Bulletin 381–2, Appendix A to Part 1701 will be modified accordingly.

Persons interested in the revision of REA Forms 511 and 511a through 511g may submit written data, views or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than October 29, 1973. All written submissions made pursuant to this notice will be available for public inspection at the Office of the Director, Telephone Operations and Standards Division during regular business hours.

A copy of the revision of each of the above mentioned REA Forms may be secured in person or by written request from the Director, Telephone Operations and Standards Division.

The text of REA Bulletin 381–2 announcing the revision of these forms is as follows:

REA BULLETIN 381–2

TELEPHONE SYSTEM CONSTRUCTION CONTRACT, LABOR AND MATERIALS REA FORM 511

I. *Purpose.* To announce a general revision of the Telephone System Construction Contract, Labor and Materials, REA Form 511; changes in REA Forms 511a, 511c, and 511d;

V 38 1187
SEP 27 73
XUM

and the introduction of new REA Forms 511f and 511g.

II. *General.* A. While references will be made in this bulletin to some of the changes, it is important that those who work with this document obtain a copy and become familiar with its contents. The revised REA Form 511 is available from the Superintendent of Documents, Public Documents Distribution Center, Pueblo Industrial Park, Pueblo, Colorado 81008. Orders for the purchase of REA Form 511 should be prepared on REA Form 33. Copies of Form 33 are available from REA upon request.

B. REA Forms 511a through 511g are set up to provide specifications and drawings for the different classes of construction. Each of these forms is available at no charge from REA upon request.

C. Borrowers' engineers are to use the newly revised REA Form 511 on all plans and specifications prepared for projects to be bid after January 1, 1974. This is not intended to restrict its use before January 1, 1974.

III. *Principal Changes in the Construction Contract.*—A. *REA Form 511 (10–73).* 1. Section 6 in the Notice and Instructions to Bidders and Section 14 in the Contractor's Proposal have been reworded to include reference to taxes on services or labor of installation of materials, supplies and equipment. The unit prices for assembly units include the cost of such taxes, if applicable.

2. The listing of REA Forms on page 9 has been revised by deleting the reference to REA Form 511b and by including additional references to REA Forms 511f and 511g. The title of REA Form 511a has also been changed. The reference to REA Splicing Standard PC–1 has also been deleted.

3. Provisions have been included for the engineer to specify salt type wood preservatives (CCA or ACA) for pole units in Section 1 of the Contractor's Proposal.

4. A provision on environmental protection, Article II, Section 1, (e), has been added relating to the contractor's responsibilities in performance of work under the contract.

B. *REA Form 511a (10–73).* 1. The title of this form has been changed from "Specifications and Drawings for Construction of Pole Lines, Aerial Cables and Wires, Buried Cables and Wires, and Station Installations," to read "Specifications and Drawings for Construction of Buried Cables and Wires."

2. The BW assembly units associated with the use of nonfilled buried distribution wire have been deleted.

3. New BWF assembly units covering one-pair, two-pair, and three-pair sizes of filled buried wire have been added.

4. New assembly units BDF, BGF, HBF and HCF have been added for the purpose of providing for compensation when working with filled cables and wires.

5. Provisions have been included for the use of the vibratory type of plow.

6. Provisions were included for the use of a rodent repellent applied in the soil during the burial of the cable and wire. Assembly unit BM74 has been established for this purpose.

C. *REA Form 511b (10–73).* 1. This form entitled "Specifications and Drawings for Open Wire Construction" will no longer be available from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. This type of construction is extremely limited. However, if a copy is desired in the future, it will be available at no charge from REA upon request.

D. *REA Form 511c (10–73).* 1. Minor changes in the description of the UD assembly unit have been made. This form entitled "Specifications and Drawings for Conduit and Manhole Construction" will bear a new date and be available at no charge from REA upon request.

E. *REA Form 511d (10–73).* 1. New assembly units UF and HUF have been included in this document to provide for compensation when working with filled cables. This form entitled "Specifications and Drawings for Underground Cable Installation" will bear a new date and be available at no charge from REA upon request.

2. New assembly units HCF for filled buried cable splicing, as well as UGF for filled cable plant loading coils, building out capacitors, and junction impedance compensators have also been included.

F. *REA Form 511e (11–70).* 1. This particular document has not been revised and bears its original issue date. This form entitled "Specifications and Drawings for Station Carrier Equipment Installation" will be available at no charge from REA upon request.

G. *REA Form 511f (10–73).* 1. This new document entitled "Specifications and Drawings for Construction of Pole Lines and Aerial Cable and Wires." Its contents were formerly in REA Form 511a. Copies will be available at no charge from REA upon request.

2. The CF assembly units covering the installation of Figure 8 cables were deleted.

3. Restrictions on the number of pairs and size of support wire messenger have been imposed under the DW assembly units.

4. All details relating to the installation of paper-insulated, lead-sheathed cables and the accessory items such as cable terminals, have been deleted.

H. *REA Form 511g (10–73).* 1. This is a new document entitled "Specifications and Drawings for Station Installations." Its contents were formerly in REA Form 511a. Copies will be available at no charge from REA upon request.

2. New BKBF assembly units were also added to provide for the use of filled buried wire for services.

Questions concerning the revised Contract and Specifications may be referred to the Chief, Outside Plant Branch, Telephone Operations and Standards Division, Rural Electrification Administration, United States Department of Agriculture, Washington, D.C. 20250, Area Code 202–447–2837.

Dated September 21, 1973.

C. R. BALLARD,
*Assistant Administrator, Telephone.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Social and Rehabilitation Service

### [ 45 CFR Part 250 ]

### FRAUD IN MEDICAL ASSISTANCE PROGRAM

### Notice of Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations implement sections 229(c), 235, and 242(c), of Pub. L. 92–603, Social Security Amendments of 1972, which relate to the medical assistance program administered under title XIX of the Social Security Act. The regulations prohibit Federal financial participation in Medicaid payments to providers who may not receive payments under Medicare because of a determination by the Secretary relating to false or excessive claims; require that Federally-matched mechanized claims processing and information retrieval systems include provision for notice to recipients of services furnished; and require States to notify providers and recipients of the Federal penalties for fraudulent acts and false reporting.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue, SW., Washington, D.C. 20201 on or before October 29, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 301 C Street, SW., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202–963–7361).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).)

Dated July 26, 1973.

JAMES S. DWIGHT, JR.,
*Administrator, Social and Rehabilitation Service.*

Approved September 19, 1973.

CASPER W. WEINBERGER,
*Secretary.*

Section 250.80 of Part 250, Chapter II, Title 45 of the Code of Federal Regulations is revised to read as set forth below:

**§ 250.80 Fraud in the medical assistance program.**

(a) *State plan requirements.* A State plan for medical assistance under title XIX of the Social Security Act must:

(1) Provide that the State agency will establish and maintain (i) methods and criteria for identifying situations in which a question of fraud in the program may exist, and (ii) procedures developed in cooperation with State legal authorities for referring to law enforcement officials situations in which there is valid reason to suspect that fraud has been practiced. The definition of fraud for purposes of this section will be determined in accordance with State law.

(2) Provide for methods of investigation of situations in which there is a question of fraud that do not infringe on the legal rights of persons involved and are consistent with principles recognized as affording due process of law.

(3) Provide that the State agency will designate positions that are responsible for referring situations involving suspected fraud to the proper authorities.

(4) Provide that the State agency will establish and maintain procedures for reporting promptly to the Social and Rehabilitation Service (i) by a numbering system which does not disclose identity of the provider (unless the Social and Rehabilitation Service specifically requests such disclosure) each case of suspected fraud by a provider which has been referred by the State or local agency to law enforcement officials for appropriate action and subsequently (ii) the disposition thereof by such law enforcement officials.

(5) (i) Provide for the following statements (or alternate wording approved by the Social and Rehabilitation Service Regional Commissioner) to be imprinted in boldface type on all provider claims forms above the claimant's signature:

(A) "This is to certify that the foregoing information is true, accurate, and complete."

(B) "I understand that payment and satisfaction of this claim will be from Federal and State funds, and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws"; or alternatively,

(ii) Provide for the following wording to appear on the reverse of checks (or warrants) payable to all providers above the claimant's endorsement:

I understand that endorsement hereon or deposit to the accounts of the within named payee is done with the understanding that payment will be from Federal and State funds and that any false claims, statements, or documents, or concealment of a material fact, may be prosecuted under applicable Federal or State laws.

(6) Provide for establishing a basis for verifying with recipients whether services billed by providers were actually received. Such basis may be by random sample of patients for each provider who is paid significant amounts under the program and for groups of providers, none of whom receive a significant amount, except that a State which under section 1903(a)(3)(B) of the Act receives Federal matching of expenditures for operation of a mechanized claims processing and information retrieval system must include in that system provision for prompt written notice to each individual who is furnished services covered by the State plan of the specific services so covered, the name of the provider furnishing the services, the date or dates on which the services were furnished, and the amount of the payment or payments made under the plan on account of the services.

(7) Provide for a method of notification to providers and recipients of medical care of the contents of section 1909 of the Social Security Act which provides Federal penalties for fraudulent acts and false reporting.

(b) *Federal financial participation.* There shall be no Federal financial participation in payment for services furnished under the State plan after December 31, 1972, by a provider or other person during any period with respect to which payments may not be made under title XVIII of the Social Security Act because of a determination by the Secretary pursuant to section 1862(d)(1) or section 1866(b)(2)(D), (E) or (F) of the Act (relating to false or excessive claims). The Social and Rehabilitation Service and the Social Security Administration will establish joint procedures for the prompt notification to the State agency of such providers or persons with respect to whose services payments may not be made under title XVIII of the Social Security Act.

## Social Security Administration

### [ 20 CFR Part 404 ]

### [Reg. No. 4]

### FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

### Disability Waiting Period Requirement

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in tentative form below are proposed by the Acting Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments reflect changes effected by section 116 of Pub. L. 92–603, which lowers the waiting period an individual must serve in order to receive benefits under title II of the Act on the basis of his disability and/or to establish a period of disability. The amendment is effective for benefits payable after December 1972 based on applications filed in or after October 1972, or applications filed prior to October 1972 on which notice of a final decision had not been given the applicant or a decision in a civil action commenced pursuant to section 205(g) of the Act had not become final before October 1972.

Prior to final adoption of the proposed amendments consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before October 29, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 205, 1102, 53 Stat. 1368, as amended, 49 Stat. 647, as amended; (42 U.S.C. 405, and 1302).

(Catalog of Federal Domestic Assistance Program No. 13.802 Social Security—Disability Insurance.)

Dated August 24, 1973.

ARTHUR E. HESS,
*Acting Commissioner of Social Security.*

Approved September 21, 1973.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

Regulations No. 4 of the Social Security Administration, as amended (20 CFR 404.1 et seq.), are further amended to read as follows:

1. Section 404.308 is amended by revising paragraph (a), redesignating paragraphs (b) and (c) as (c) and (d), respectively, and adding thereto a new paragraph (b), as follows:

**§ 404.308 Disability insurance benefits: waiting period.**

(a) *Benefits payable for months prior to January 1973.* An individual's waiting period for benefits payable prior to January 1973 is the earliest period of 6 full consecutive calendar months throughout which the individual has been under a disability (as defined in section 223(c) of the Act); however, an individual's "waiting period" can begin no earlier than the later of:

(1) The first month such individual is insured for disability insurance benefits (see § 404.116);

(2) The 18th month before the month in which such individual's application for disability insurance benefits is filed; or

(3) January 1, 1957.

For purposes of this paragraph, where the individual's disability begins on the first day of the month and continues through the last day of the month, such month is considered as a full calendar month.

(b) *Benefits payable for months after December 1972.* An individual's waiting period for benefits payable after December 1972 is the earliest period of 5 full consecutive calendar months throughout which he has been under a disability (as defined in section 223(c) of the Act); provided that:

(1) The application is filed:

(i) After September 1972; or

(ii) Before October 1972, and

(A) Notice of the final decision of the Secretary was not given to the applicant before October 1972; or

(B) Notice of the final decision of the Secretary was given to the applicant before October 1972 but a civil action with respect to such final decision is commenced under section 205(g) of the Act (whether before, in, or after October 1972) and the decision in such civil action did not become final before October 1972; however

(2) An individual's "waiting period" can begin no earlier than the later of:

(i) The first month such individual is insured for disability insurance benefits (see § 404.116); or

(ii) The 17th month before the month in which such individual's application for disability insurance benefits is filed.

For purposes of this paragraph, where the individual's disability begins on the first day of the month and continues through the last day of the month, such month is considered as a full calendar month.

V 38-187 SEP 27 73 XUM

§ 404.309 [Amended]

2. Paragraph (a) of § 404.309 is amended by adding "and (b)" to the parenthetical reference "(see § 404.308(a))" and by changing the parenthetical reference "(see § 404.308(c))" to "(see § 404.308(d))."

3. Paragraph (a)(4) of § 404.310 is revised to read as follows:

**§ 404.310 Period of disability; conditions of entitlement.**

(a) *General.* An individual is entitled to the establishment of a period of disability (beginning as described in § 404.311 and ending as described in § 404.311a) if:

* * * * *

(4) Except as provided in paragraph (d) of this section.

(i) Not less than 6 full consecutive calendar months have elapsed from the date on which a period of disability could begin (as determine under § 404.311) for such individual and before the date on which such period of disability could end (as determined under § 404.311a); or

(ii) Not less than 5 full consecutive calendar months have elapsed from the date on which a period of disability could begin (as determined under § 404.311) for such individual and before the date on which such period of disability could end (as determined under § 404.311a), provided an application is filed:

(A) After September 1972; or

(B) Before October 1972, and

(*1*) Notice of the final decision of the Secretary was not given to the applicant before October 1972; or

(*2*) Notice of the final decision of the Secretary was given to the applicant before October 1972 but a civil action with respect to such final decision is commenced under section 205(g) of the Act (whether before, in, or after October 1972) and the decision in such civil action did not become final before October 1972.

For purposes of this subparagraph (4) where the beginning date of the period of disability is the first day of a month and the disability continues through the last day of the month, such month is considered a full calendar month.

* * * * * *

4. Paragraph (e)(2) of § 404.328 is revised to read as follows:

**§ 404.328 Widow's insurance benefits; conditions of entitlement.**

* * * * *

(e) *Widow's entitlement based on disability.* * * *

(2) *"Waiting period" defined—(i) Benefits payable for months prior to January 1973.* The "waiting period," for purposes of entitlement of a widow or surviving divorced wife by virtue of a disability to benefits payable for months prior to January 1973, is the earliest period of 6 full consecutive calendar months throughout which she was under a disability and which began no earlier than the later of:

(A) The first day of the 18th month before the month in which she files application for widow's insurance benefits, or

(B) The first day of the sixth month before the month in which the period described in subparagraph (1) of this paragraph began.

(ii) *Benefits payable for months after December 1972.* (A) The "waiting period," for purposes of entitlement of a widow or surviving divorced wife by virtue of a disability to benefits payable for months after December 1972, is the earliest period of 5 full consecutive calendar months throughout which she was under a disability, provided the application is filed:

(*1*) After September 1972; or

(*2*) Before October 1972, and

(*i*) Notice of the final decision of the Secretary was not given to the applicant before October 1972; or

(*ii*) Notice of the final decision of the Secretary was given to the applicant before October 1972 but a civil action with respect to such final decision is commenced under section 205(g) of the Act (whether before, in, or after October 1972) and the decision in such civil action did not become final before October 1972.

(B) However, the waiting period can begin no earlier than the later of:

(*1*) The first day of the 17th month before the month in which she files application for widow's insurance benefits, or

(*2*) The first day of the fifth month before the month in which the period described in subparagraph (1) of this paragraph began. Months in which a widow was disabled before the month of the wage earner's death, and such months before the months of termination of entitlement to mother's insurance benefits may be counted as months in the waiting period if they otherwise meet the requirements of subdivisions (i)(A), (i)(B), or (ii)(B) of this subparagraph (2) as applicable. If the widow was previously entitled to a widow's insurance benefit based on disability, entitlement to which benefit terminated prior to the month in which she again becomes disabled, a waiting period is not required if she again becomes disabled and meets all other requirements for entitlement. For purposes of this subparagraph (2) where the widow's disability begins on the first day of the month and continues through the last day of the month, such month is considered as a full calendar month.

* * * * * *

5. Paragraph (c)(2) of § 404.331 is revised to read as follows:

**§ 404.331 Widower's insurance benefits; conditions of entitlement.**

* * * * *

(c) *Widower's entitlement based on disability.* * * *

(2) *"Waiting period" defined—(i) Benefits payable for months prior to January 1973.* The "waiting period," for the purposes of entitlement to a widow by virtue of a disability to benefits payable for months prior to January 1973, is the earliest period of 6 full consecutive calendar months throughout which he was under a disability and which began no earlier than the later of:

(A) The first day of the 18th month before the month in which he files application for widower's insurance benefits, or

(B) The first day of the sixth month before the month in which the period described in subparagraph (1) of this paragraph began.

(ii) *Benefits payable for months after December 1972.* (A) The "waiting period," for purposes of entitlement of a widower by virtue of a disability to benefits payable for months after December 1972, is the earliest period of 5 full consecutive calendar months throughout which he was under a disability, provided the application is filed

(*1*) After September 1972; or

(*2*) Before October 1972; and

(*i*) Notice of the final decision of the Secretary was not given to the applicant before October 1972; or

(*ii*) Notice of the final decision of the Secretary was given to the applicant before October 1972 but a civil action with respect to such final decision is commenced under section 205(g) of the Act (whether before, in, or after October 1972) and the decision in such civil action did not become final before October 1972.

(B) However, the waiting period can begin no earlier than the later of:

(*1*) The first day of the 17th month before the month in which he files application for widower's insurance benefits, or

(*2*) The first day of the fifth month before the month in which the period described in subparagraph (1) of this paragraph began. Months in which a widower was disabled before the month of the wage earner's death may be counted as months in the waiting period if they otherwise meet the requirements of subdivision (i)(A), (i)(B), or (ii)(B) of this subparagraph (2) as applicable. If the widower was previously entitled to a widower's insurance benefit based on disability, entitlement to which benefit terminated prior to the month in which he again becomes disabled, a waiting period is not required if he again becomes disabled and meets all other requirements for entitlement. For purposes of this subparagraph, where the widower's disability begins on the first day of the month and continues through the last day of the month, such month is considered a full calendar month.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

### Office of the Secretary

### [ 24 CFR Part 42 ]

[Docket No. R-73-241]

## RELOCATION PAYMENTS AND ASSISTANCE AND REAL PROPERTY ACQUISITION UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

### Notice of Proposed Rulemaking

Pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894 (42 U.S.C. 4601)), the Department proposes to amend Title 24, Part 42 of the Code of Federal Regulations to incorporate revisions in the Guidelines for Issuance of Regulations and Procedures Implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Office of Management and Budget Circular No. A-103) published on May 1, 1972. In addition, amendments are proposed to simplify and consolidate certain provisions and correct an error occurring in § 42.95(c)(2).

Principal provisions of the newly proposed amendments to Part 42 are summarized below:

Section 42.20 has been revised to incorporate changes in the definitions of "comparable replacement dwelling", "dwelling" and "person" and to include a definition of the term "family"; this section now also includes an expanded definition of the term "initiation of negotiations" as this relates to the low-rent housing program.

Section 42.25 has been expanded to include a statement of the applicability of these regulations to the low-rent housing program.

Section 42.55(b) has been redesignated § 42.55(d). Actual acquisition as a basis of eligibility for relocation benefits has been deleted. This requirement has been rewritten to include new qualifications on eligibility. Section 42.55 has also been expanded to include the eligibility requirements relating to the low-rent public housing program.

Section 42.65 has been extensively rewritten to incorporate new provisions dealing with the relocation payments for moving expenses in cases of improvements or alterations to structures or premises, self-moves, and temporary moves by displaced persons.

Section 42.70, dealing with actual direct losses of tangible personal property, has been revised in conformity with OMB Circular No. A-103.

Section 42.85(b)(3), relating to a requirement that businesses seeking a payment in lieu of moving and related expenses must contribute materially to the income of a displacee, has been deleted in conformity with OMB Circular A-103. Section 42.85 has been reviewed to include new eligibility requirements, and for greater clarity, as well.

Section 42.90 has been revised to cover cases of displacement by code enforcement activities in which substandard dwellings are not immediately demolished, and has been extensively rewritten to clarify the computation of the interest differential payment and the payment for incidental expenses. This section has also been expanded to include requirements relating to the low-rent public housing program.

Section 42.95 has been similarly revised and has been amended to include new subparagraphs (d) and (e) in accordance with OMB Circular No. A-103, and to include eligibility requirements for the low-rent public housing program. This section also included a revised concept "base monthly rental" and "ability to pay".

Section 42.120(c) has been redesignated as § 42.120(b). Section 42.120(c) has been amended to include requirements for temporary moves by displaced business concerns. Section 42.120(b)(4) has been revised to conform to the amendments to § 42.65(c)(2) relating to temporary moves.

Section 42.135 has been extensively rewritten to reflect the Department's policy on acquisition practices in greater detail.

Section 42.136 has been added to include the contents of the notice of land acquisition procedures.

Section 42.137 has been added to include the contents of the notice of the State agency's determination not to acquire.

Section 42.165 has been amended in conformity with OMB Circular No. A-103, and has been otherwise revised to indicate that the use of schedules for the computation of the replacement housing payment for homeowners and the replacement housing payment for tenants and certain others shall take place only in those cases in which a State agency is required to use such schedules by HUD.

A new section 42.166, dealing with the manner of notifying persons of impending displacement, has been added.

Section 42.180 has been amended in conformity with OMB Circular A-103.

The former § 42.185, relating to HUD approval of payment claims, has been deleted and the former § 42.190 has been deleted pending incorporation of the Department's proposed grievance procedures and the subsequent sections have been renumbered to reflect these deletions.

Interested persons are invited to participate in the making of the proposed rules by submitting written data, views, or statements. Communications should identify the proposed rule by above docket number and title, and should be filed in triplicate with the Rules Docket Clerk, Office of General Counsel, Room 10256, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. All relevant material received on or before October 29, 1973, will be considered before adoption of final rules. Copies of comments submitted will be available for examination during business hours at the above address.

Issued at Washington, D.C., September 21, 1973.

JAMES T. LYNN,
*Secretary of Housing and Urban Development.*

## PART 42—RELOCATION PAYMENTS AND ASSISTANCE AND REAL PROPERTY ACQUISITION UNDER THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970

### Subpart A—General

Sec.
42.1 Purpose.
42.5 Supersedure.
42.10 Statement of policy.
42.15 Statement of applicable law.
42.20 Definitions.
42.25 Applicability of regulations.
42.30 Assurances.
42.35 Federal share of costs of relocation payments and assistance.
42.40 Payments in condemnation proceedings and negotiated purchases.

### Subpart B—Relocation Payments

42.45 Purpose.
42.50 Relocation payments by State agency.
42.55 Basic eligibility conditions.
42.60 Filing of claims.
42.65 Actual reasonable moving expenses.
42.70 Actual direct losses of tangible personal property.
42.75 Actual reasonable expenses in searching for a replacement business or farm.
42.80 Alternate payments—individuals and families.
42.85 Alternate payments—businesses and farm operations.
42.90 Replacement housing payments for homeowners.
42.95 Replacement housing payments for tenants and certain others.

### Subpart C—Relocation Assistance Advisory Program and Assurance of Adequate Replacement Housing

42.100 Purpose.
42.105 Relocation assistance advisory program.
42.110 Eligibility for services.
42.115 Minimum requirements of relocation assistance advisory program.
42.120 Requirement of adequate replacement housing prior to displacement.
42.125 Coordination of relocation activities.

### Subpart D—Real Property Acquisition

42.130 Purpose.
42.135 Real property acquisition practices.
42.136 Notice of land acquisition procedures.
42.137 Notice of State agency's determination not to acquire.
42.140 Payments—expenses incidental to transfer of title.
42.145 Payments—litigation expenses.
42.150 Effect upon property acquisition.

### Subpart E—Administration

42.155 Purpose.
42.160 Schedules of comparable replacement dwellings.
42.165 Notice to persons in project area.
42.166 Manner of notice.
42.170 Review of claims.
42.175 Prompt payment.
42.180 Agency setoff against claim.
42.185 Accounts and records.
42.190 Payments not to be considered as income.

V 38 187 SEP 27 73 XUM

Sec.
42.195 Displacement in connection with more than one project.
42.200 Policies and requirements of HUD.
42.205 Waivers.

## Subpart A—General

### § 42.1 Purpose.

The purpose of this subpart is to set forth provisions of general applicability with respect to the regulations in this part. Such provisions relate to (a) the effect of the regulations in this part on previously issued regulations pertaining to relocation payments, (b) statements of applicable policy and law, (c) definitions of pertinent terms, (d) a description of the dates, and the entities or persons, on or to which the regulations in this part are applicable, and the assurances required in connection with such applicability, (e) the extent of Federal participation in the costs of relocation payments and assistance, and (f) the effect on payments provided under the regulations in this part of duplicate payments made in condemnation proceedings and negotiated purchases.

### § 42.5 Supersedure.

The regulations in this part supersede those appearing at Part 41 of this subtitle (35 FR 14307–14, effective September 10, 1970) to the extent that the regulations issued hereunder are, under § 42.25, applicable. The regulations in this part also supersede those appearing at Part 42 of this subtitle (36 FR 8785–98) effective May 13, 1971, as amended (37 FR 16603 effective August 17, 1972).

### § 42.10 Statement of policy.

The purpose of the regulations in this part is to carry out the following policies of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601); 84 Stat. 1899; Pub. L. 91–646) (hereinafter referred to as the "Act"):

(a) To insure that uniform, fair and equitable treatment be afforded persons displaced as a result of federally assisted projects in order that such persons shall not suffer disproportionate injuries as a result of programs designed for the benefit of the public as a whole, and

(b) In the acquisition of real property for a federally assisted project, to encourage and expedite acquisition by agreements with owners of such property, to avoid litigation and relieve congestion in courts, to assure consistent treatment for owners of real property to be so acquired, and to promote public confidence in Federal land acquisition.

### § 42.15 Statement of applicable law.

(a) Section 210 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1899; Pub. L. 91–646) requires satisfactory assurances from a State agency that specified relocation payments and relocation assistance will be provided, and replacement dwellings will be available to displaced persons as a condition to Federal approval of any grant or loan to, or contract or agreement with, such State agency under which Federal financial assistance will be made available to pay all or part of the cost of any program or project which will result in the displacement of any person on or after the effective date of the Act.

(b) Section 305 of the Act requires satisfactory assurances from a State agency that in acquiring real property it will be guided, to the greatest extent practicable under State law, by specified land acquisition policies, and that specified payments will be made to property owners, as a condition to Federal approval of any grant or loan to, or contract or agreement with, any State agency under which Federal financial assistance will be available to pay all or part of the cost of any program or project which will result in the acquisition of real property on and after the effective date of the Act.

(c) Section 211(c) of the Act provides that any grant to, or contract or agreement with, a State agency executed before the effective date of the Act under which Federal financial assistance will be available to pay all or part of the cost of any program or project which will result in the displacement of any person on or after such date, shall be amended to include the cost of providing payments and services under the Act.

(d) Section 211(a) of the Act provides that the cost to a State agency of providing such payments and assistance shall be included as part of the cost of a program or project for which Federal financial assistance is available to such State agency. Section 211(a) also provides that where the Federal financial assistance is by grant or contribution, the Federal Government shall pay the full amount of the first $25,000 of the cost of such payments and assistance so provided by the State agency to a displaced person on account of any acquisition or displacement occurring prior to July 1, 1972, and where such Federal financial assistance is by loan, the Federal agency shall loan the State agency the first $25,000 of such costs.

(e) Subject to section 221(c) of the Act, section 220(a) repealed the following provisions of law: Section 114 of the Housing Act of 1949 (42 U.S.C. 1465); paragraphs (7)(b)(iii) and (8) of section 15 of the United States Housing Act of 1937 (42 U.S.C. 1415, 1415(8)), except the first sentence of paragraph (8); section 404 of the Housing and Urban Development Act of 1965 (42 U.S.C. 3074); section 107 (b) and (c) of the Demonstration Cities and Metropolitan Development Act of 1966 (42 U.S.C. 3307). Subject to section 221(c) of the Act, section 306 repealed sections 401, 402, and 403 of the Housing and Urban Development Act of 1965 (42 U.S.C. 3071–3073). Sections 220(b) and 306 of the Act provide that any rights or liabilities existing under prior Acts shall not be affected by such repeals.

(f) Section 221 of the Act provides that the Act shall take effect on the date of its enactment (January 2, 1971) except that with regard to acquisitions or displacements occurring prior to July 1, 1972, sections 210 and 305 of said Act with respect to assurances required of State agencies shall be held applicable to a State only to the extent that such State was able under its laws to comply with these sections, and that certain repeals (specified in paragraph (e) of this section) made by sections 220(a) and 306 of the Act do not apply to any State so long as sections 210 and 305 were not applicable in such State prior to July 1, 1972.

### § 42.20 Definitions.

For the purpose of the regulations in this part, the following terms shall mean:

(a) *Business.* Any lawful activity, excepting a farm operation, conducted primarily: (1) For the purchase, sale, lease, and rental of personal and real property, and the manufacture, processing, or marketing of products, commodities, or any other personal property; (2) for the sale of services to the public; (3) by a nonprofit organization; or (4) solely for the purposes of payments under §§ 42.65, 42.70 and 42.75, for assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of an outdoor advertising display or displays, whether or not such display or displays are located on the premises on which any of the above activities are conducted.

(b) *Comparable replacement dwelling.* A dwelling which is (1) decent, safe and sanitary, and comparable to the acquired dwelling with respect to number of rooms, but in any event adequate to accommodate the displaced person; (2) in an area not subjected to unreasonable adverse environmental conditions from either natural or manmade sources, and not generally less desirable than the acquired dwelling with respect to public utilities, public and commercial facilities and reasonably accessible to the displaced person's present or potential place of employment; (3) available on the private market to the displaced person and available to all persons regardless of race, color, religion, or national origin in a manner consistent with title VIII of the Civil Rights Act of 1968; and which is available to all persons regardless of sex; (4) to the extent practicable; and where consistent with subparagraph (1) of this paragraph, functionally equivalent and substantially the same as the acquired dwelling, but not excluding newly constructed housing; and (5) within the financial means of the displaced person, provided that this subparagraph (5) shall be construed only in accordance with the intent to put such person in an equal or better position: *Provided*, That if housing meeting the requirements of this subparagraph (b) is not available, the State agency may, upon proper finding of the need therefor, consider available housing exceeding these basic criteria.

(c) *Decent, safe and sanitary housing.* Housing in sound, clean and weathertight condition, in conformance with local housing codes (or in the absence of local housing codes, or where the standards contained in any such code are determined by HUD to be inadequate, in conformance with standards established by HUD) and which meets the following minimum standards:

(1) Each housekeeping unit shall include a kitchen with a fully usable sink, a stove or connection for a stove, a separate and complete bathroom, hot and cold running water in both bathroom and kitchen, an adequate and safe wiring system for lighting and other electrical services, and heating as required by climatic conditions and local codes.

(2) Each nonhousekeeping unit shall be in conformance with local code standards for boarding houses, hotels and other dwellings for congregate living. If such local codes do not include requirements relating to space and sanitary facilities in this connection, standards shall be subject to the approval of HUD.

(3) Occupancy standards shall be in conformance with local codes or HUD-approved requirements, whichever of these is higher.

(d) *Displaced person.*

(1) A person as defined in § 42.20(1) who meets the basic eligibility requirements specified in § 42.55, and (except for the low-rent public housing program) as set out in general terms below:

(i) Such person moves from real property within the project area or moves his personal property from such real property on or after the applicable date specified in § 42.55 and either,

(ii) Such person is displaced as a result of (*a*) acquisition of such real property in whole or in part for a project, (*b*) the receipt of a written order from the acquiring agency to vacate such property for a project or (*c*) the receipt of a written notice from the acquiring agency of its intent to acquire such property for a project, or

(iii) Such person is displaced as a result of code enforcement, voluntary rehabilitation, improvement of private property, or demolition, as provided in paragraphs (c), (d), and (e) of § 42.55, or

(2) Solely for the purpose of qualifying for the payments specified in paragraph (a)(3) of § 42.55, a person who moves from real property, or who moves his personal property from real property on or after the applicable date specified in paragraph (a)(1) of § 42.55 as a result of such acquisition of or displacement from other real property on which such person conducts a business or farm operation.

(e) *Dwelling.* The place of permanent or customary and usual abode of a person, including a single-family dwelling, a single-family unit in a two-family, multifamily or multipurpose dwelling, a unit of a condominium or cooperative housing project; or any other residential unit, including a mobile home which is either considered to be real property under State law or which cannot be moved without substantial damage or unreasonable cost.

(f) *Family.* Two or more individuals who by blood, marriage, adoption, or mutual consent live together as a family unit.

(g) *Farm operation.* Any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use, and customarily producing such products or commodities.

(h) *Federal financial assistance.* A grant, loan, or contribution (except any Federal guarantee or insurance) made by HUD, including a grant, loan or contribution specified below:

(1) A loan, a grant, or a loan and grant, for an urban renewal project under title I of the Housing Act of 1949 (63 Stat. 413, 414, (42 U.S.C. 1450));

(2) A grant for concentrated code enforcement and public improvements under section 117 of the Housing Act of 1949 (79 Stat. 478 (42 U.S.C. 1468));

(3) A grant for the demolition of unsafe structures under section 116 of the Housing Act of 1949 (79 Stat. 477 (42 U.S.C. 1467));

(4) A grant for interim assistance to slums or blighted areas under section 118 of the Housing and Urban Development Act of 1949 (82 Stat. 525 (42 U.S.C. 1468a));

(5) A loan or annual contribution, made in connection with low-rent public housing projects under the U.S. Housing Act of 1937 (50 Stat. 888 (42 U.S.C. 1401 et seq.));

(6) A grant for open-space use or for a historic preservation or urban beautification project under title VII of the Housing Act of 1961 (75 Stat. 183 (42 U.S.C. 1500) as amended);

(7) A grant for a neighborhood facilities program under title VII of the Housing and Urban Development Act of 1965 (79 Stat. 489 (42 U.S.C. 3101));

(8) A public facility loan under title II of the Housing Amendments of 1955 (69 Stat. 642 (42 U.S.C. 1491));

(9) A water and sewer facilities grant under title VII of the Housing and Urban Development Act of 1965 (79 Stat. 489 (42 U.S.C. 3101));

(10) A grant for advance acquisition of land under title VII of the Housing and Urban Development Act of 1965 (79 Stat. 489 (42 U.S.C. 3101));

(11) A grant for the purpose of carrying out a comprehensive city demonstration program under title I of the Demonstration Cities and Metropolitan Development Act of 1966 (80 Stat. 1255 (42 U.S.C. 3301));

(12) Loans or grants to assist educational institutions in construction of housing and other educational facilities under title I of the Housing Act of 1950 (64 Stat. 48, 77 (12 U.S.C. 1749)) where such payments are made to a State agency;

(13) Loans for housing for the elderly or handicapped under section 202 of the Housing Act of 1959 (73 Stat. 654, 667 (12 U.S.C. 1701q)) where such loans are made to a State agency;

(14) Where contributions are made to a State agency and the performance by such State agency, or by a private body acting on behalf of such State agency and of undertakings necessary to enable it to receive such contributions will be the direct cause of displacement, the payment of contributions specified below.

(i) Assistance payments under section 235 and interest reduction payments under section 236 of the National Housing Act (48 Stat. 1246 (12 U.S.C. 1715z and 1715z–1)),

(ii) Below market interest rates provided under section 221(d)(3) of the National Housing Act (12 U.S.C. 1715–1),

(iii) Rent supplement payments under section 101 of the Housing and Urban Development Act of 1965 (79 Stat. 451 (12 U.S.C. 1701s)),

(iv) Grants under section 713(a) and loans under section 714(a) of title VII of the Housing and Urban Development Act of 1970 (Pub. L. 91–609, 84 Stat. 1791) to assist in financing new community development programs.

(i) *HUD.* The Secretary of Housing and Urban Development or an officer or employee duly authorized to perform the functions of the Secretary.

(j) *Initiation of negotiations.* Except as provided in § 42.90(b)(3) and § 42.95(b)(5), the initial written offer made by the acquiring agency to the owner of real property to be acquired for a project of the amount established as just compensation for such property in accordance with § 42.135.

(k) *Mortgage.* Such classes of liens as are commonly given to secure advances on, or the unpaid purchase price of, real property, under the laws of the State in which the real property is located, together with the credit instruments, if any, secured thereby.

(l) *Person.* Any individual, family, partnership, corporation, or association. For purposes of an alternate payment under § 42.80 and a replacement housing payment under §§ 42.90 and 42.95, two or more individuals (regardless of whether they are family members or not) living together in, and displaced from, a single dwelling, shall be regarded as one person.

(m) *Personal property (tangible personal property).* (1) Tangible property which is situated on the real property vacated or to be vacated by a displaced person and which is considered personal property and is noncompensable (other than for moving expenses) under the State law of eminent domain, and (2) in the case of a tenant, fixtures and equipment, and other property which may be characterized as real property under State or local law, but which the tenant may lawfully, and at his election determines to, move and for which the tenant is not compensated in the real property acquisition. In the case of an owner of real property, the determination as to whether an item of property is personal or real shall depend upon how it is identified in the acquisition appraisals and the closing or settlement statement with

V 38-187 SEP 27 73 XUM

respect to the real property acquisitions: *Provided*, That no item of property which is compensable under State and local law to the owner of real property in the real property acquisition may be treated as tangible personal property in computing actual direct losses of tangible personal property under § 42.70.

(n) *Plan.* (1) A duly approved formal plan, as exists from time to time, for any project as defined in this part and any action program implementing such plan, or (2) in the case of a project for which no formal plan is required, the application by the State agency as approved by HUD and modified from time to time.

(o) *Project.* Any undertaking which receives Federal financial assistance and to which the Act is applicable pursuant to § 42.25.

(p) *Project area.* An area which HUD has approved for the carrying out of project activities.

(q) *Relocation payment.* A payment specified under §§ 42.65 through 42.95.

(r) *State.* Any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any Territory or possession of the United States, the Trust Territory of the Pacific Islands, and any political subdivision thereof.

(s) *State agency.* The National Capital Housing Authority, the District of Columbia Redevelopment Land Agency, and any department, agency, or instrumentality of a State or of a political subdivision of a State or any department, agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States. Unless otherwise indicated in the context of a specific provision of these regulations, the term "State agency" as used in these regulations shall mean the particular State agency to which Federal financial assistance is made available for a specific project.

(t) *Voluntary rehabilitation.* Structural or other substantial repairs to, or alterations to, or demolition of, any building or other improvement on land within a project area, undertaken by an owner in order to conform to the property rehabilitation standards or other applicable provisions set forth in the applicable Plan.

### § 42.25 Applicability of regulations.

(a) *Applicability of the regulations in this part.* (1) Except as provided in subparagraph (2), these regulations are applicable to all acquisition and displacements occurring on or after January 2, 1971, and prior to July 1, 1972, to the extent that a State agency has furnished the Department of Housing and Urban Development with satisfactory assurances under § 42.30 of these regulations with respect to the federally assisted activity under which such acquisition or displacement takes place. The regulations in this part are fully applicable to all acquisition or displacements occurring on or after July 1, 1972.

(2) For the low-rent public housing program under the U.S. Housing Act of 1937, Subpart D of these Regulations (implementing Title III of the Act) is applicable to all acquisitions of real property by the State agency except: (i) Acquisitions by the turnkey method; (ii) acquisitions in connection with construction for leasing projects (i.e., leases or agreements to lease) where such acquisitions result from proposals submitted in response to public invitation; and (iii) leasing or acquisition of existing structures after rehabilitation where such leasing or acquisition results from proposals submitted in response to public invitation. For the purposes of this subparagraph (2), a lease is considered to be an "acquisition of real property" where the term, including options for extension, is for more than ten years.

(b) *Applicability of previously published regulations.* The regulations covering Relocation Payments appearing at Part 41 of this subtitle and at 35 FR 14307–14 (effective Sept. 10, 1970) shall apply to (1) displacement occurring on or after September 10, 1970, and prior to January 2, 1971, and (2) displacement occurring on or after January 2, 1971, and prior to July 1, 1972, to the extent that the regulations issued hereunder do not, pursuant to paragraph (a) of this section, apply.

(c) *Continuation of rights and liabilities.* Nothing in paragraph (a) or (b) of this section shall be deemed to affect any rights or liabilities in existence as of January 2, 1971, under any laws repealed by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

### § 42.30 Assurances.

(a) *Displacement.* As a condition to any grant, contract, or agreement approved by HUD on or after January 2, 1971, under which Federal financial assistance will be available to pay all or part of the cost of any undertaking which will result in the displacement of any person on or after such date, a State agency shall submit assurances (either separately or by contract) satisfactory to HUD that with respect to such displacement—

(1) Relocation payments shall be provided to displaced persons in accordance with §§ 42.65 through 42.95;

(2) Relocation assistance programs offering the services described in Subpart C shall be provided to such displaced persons;

(3) Within a reasonable period of time prior to displacement, decent, safe and sanitary replacement dwellings will be available to displaced persons in accordance with § 42.120;

(4) Affected persons will be adequately informed of the benefits, policies and procedures provided in these regulations; and

(5) The relocation process will be carried out in such a manner as to provide displaced persons with uniform and consistent services, and replacement housing under § 42.120 will be available and the same range of choices with respect to such housing will be offered to all displaced persons regardless of race, color, religion or national origin pursuant to title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d), title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3501 et seq.) and Executive Order 11063 (27 FR 11527) and which is available to all persons regardless of sex.

(b) *Acquisition.* As a condition to any grant, contract, or agreement approved by HUD on or after January 2, 1971, under which Federal financial assistance will be available to pay all or a part of the cost of any undertaking which will result in the acquisition of real property on or after such date the State agency shall, to the extent it is authorized under State law, submit assurances (either separately or by contract) satisfactory to HUD that with respect to such acquisition:

(1) It will, to the greatest extent practicable under State law, be guided by the land acquisition policies and provisions in § 42.135;

(2) Property owners will be paid or reimbursed for necessary expenses specified in §§ 42.140 and 42.145; and

(3) Affected persons will be adequately informed of the benefits, policies and procedures provided in the regulations in this part.

### § 42.35 Federal share of costs of relocation payments and assistance.

Payments made and assistance provided in accordance with Subparts B and C of this part and §§ 42.140 and 42.145, and pursuant to a grant, loan, contract, or agreement for Federal financial assistance for a project, shall be included as a part of the cost of such project and shared in the same manner and to the same extent as other program or project costs: *Provided*, That where such Federal financial assistance is by loan, HUD shall loan the full amount of the first $25,000 of the cost to the State agency for providing such payments and assistance to an eligible displaced person or a person from whom property is acquired, and where such Federal financial assistance is by grant or contribution HUD shall pay the first $25,000 of such costs with respect to an eligible displaced person or a person from whom property is acquired on account of displacement or acquisition occurring prior to July 1, 1972.

### § 42.40 Payments in condemnation proceedings and negotiated purchases.

No payment shall be made under the regulations in this part which would duplicate a payment received by a displaced person or owner under the State law of eminent domain, and which is included in an award in eminent domain or in the purchase price for any property acquired by negotiation, if such payment so received is determined by HUD to have the same purpose or effect as a payment under this part.

## Subpart B—Relocation Payments

### § 42.45 Purpose.

The purpose of this subpart is to set forth the types of, and specific eligibility criteria for, relocation payments to displaced persons.

### § 42.50 Relocation payments by State agency.

The State agency shall make relocation payments to or on behalf of eligible displaced persons in accordance with and to the full extent permitted by §§ 42.65 through 42.95.

### § 42.55 Basic eligibility conditions.

(a) *General.* The rules set forth in this paragraph shall apply to all displaced persons except those who move from real property or move personal property from real property as the result of activities undertaken pursuant to the low-rent housing or model cities programs. A person qualifies as a displaced person for purposes of establishing basic eligibility for a relocation payment if:

(1) Such person moves from real property within the project area or moves his personal property from such real property (i) on or after the date of the pertinent contract for Federal financial assistance for a project, or (ii) on or after the date of HUD approval of a budget for project execution activities resulting in displacement, provided that the contract for Federal financial assistance for the contemplated project is thereafter executed, and

(2) Such person is displaced as a result of (i) the acquisition of such real property, in whole or in part, for a project as further provided in paragraph (d) of this section, (ii) code enforcement, voluntary rehabilitation, improvement of private property, or demolition as provided in paragraphs (e), (f), and (g) of this section.

(b) *Model cities program.* A person qualifies as a displaced person for purposes of establishing basic eligibility for a relocation payment under the model cities program if:

(1) Such person moves from real property within the project area or moves his personal property from such real property (i) on or after the date of the pertinent contract for Federal financial assistance for a project or (ii) if the displacement occurs prior to the approval of the contract for Federal financial assistance, on or after the date approved by HUD for a specific undertaking upon the request of the State agency: *Provided*, That a contract of Federal financial assistance is thereafter executed: *And provided further*, That the comprehensive city demonstration program thereafter identifies the undertaking as one being carried out in connection with such program, and

(2) Such person is displaced as a result of (i) the acquisition of such real property, in whole or in part, for a project as further provided in paragraph (d) of this section, or (ii) code enforcement, voluntary rehabilitation, or demolition as provided in paragraphs (e), (f), and (g) of this section.

(c) *Low-Rent Public Housing Program.* A person qualifies as a displaced person for purposes of establishing basic eligibility for a relocation payment if such person moves, including a move of personal property, under the following circumstances:

(1) *Conventional bid, or acquisition of existing housing other than under paragraph (2) below.* If (i) such person moves from the project site on or after the date of the annual contributions contract, or the date of tentative site approval by HUD, if it is later, and (ii) the move is a displacement by acquisition as provided in paragraph (d) of this section: *Provided*, That an option agreement shall not be considered as a notice of intent to acquire or a firm offer to acquire as provided in paragraph (d)(3).

(2) *Turnkey new construction or rehabilitation.* If such person (i) moves from the project site, other than for cause, on or after the date of the Contract of Sale, or (ii) moves from the project site on or after the date of the annual contributions contract and prior to the date of the Contract of Sale, but in such case only if the move is the result of an order to vacate not based upon cause. "Cause", as used herein and in paragraph (3) below, means nonpayment of rent or other breach of an obligation of the tenancy.

(3) *Leasing.* If (i) such person moves from a dwelling on or after the date of an agreement to lease or lease of such dwelling to the State agency, and (ii) the move is not the result of: (a) Voluntary decision of occupant, (b) action by landlord for cause, or (c) other action by landlord clearly unrelated to leasing of the unit to the State agency.[1]

(d) *Displacement by acquisition.* Displacement as a result of the acquisition of real property includes displacement which is a result of:

(1) The obtaining by the acquiring agency of title to or the right to possession of such real property for a project;

(2) The written order of the acquiring agency to vacate such property for a project; or

(3) The issuance by the acquiring agency of a written notice to the owner of its intent to acquire the real property for such project; or, if no other written notice of intent to acquire the real property is issued, the issuance by the acquiring agency to the owner of a firm offer to acquire: *Provided*, That no person moving from real property after the State agency has served upon him the notice described in § 42.137 of this part shall be deemed eligible for any of the relocation assistance or relocation payments described in this part.

Displacement as a result of acquisition of real property in the urban renewal, neighborhood development, and model cities programs shall include displacement which is a result of the acquisition of real property by a State agency other than the State agency receiving Federal financial assistance as defined in § 42.20(h), to the extent that the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is not applicable to such other State agency in connection with such displacement, and if the acquisition is undertaken in accordance with the plan for the project, or, in the case of the model cities program, if the comprehensive city demonstration program identifies the acquisition as being carried out in connection with such program.

(e) *Displacement by code enforcement and voluntary rehabilitation.*—(1) *Urban renewal, neighborhood development, and code enforcement programs.* A person shall be deemed displaced by code enforcement or voluntary rehabilitation under the urban renewal, neighborhood development, and code enforcement programs if the vacation of the real property is the result of code enforcement, as further specified in paragraph (e)(3) of this section, or of voluntary rehabilitation, as further specified in paragraph (e)(4) of this section with respect to the property occupied and if such activities are undertaken in accordance with the plan.

(2) *Model cities program.* A person shall be deemed displaced by code enforcement or voluntary rehabilitation under the model cities program if the vacation of the real property is the result of code enforcement, as specified in paragraph (e)(3) of this section, or of voluntary rehabilitation activities, as further specified in paragraph (e)(4) of this section, with respect to the property occupied and if such activities are undertaken in accordance with the comprehensive city demonstration program which identifies the undertaking as being carried out in connection with such program.

(3) *Code enforcement*—(i) Tenants. A tenant shall be deemed to be displaced as a result of code enforcement if the vacating of real property occurs on or after:

(*a*) The receipt of a notice to vacate from the owner on the ground that code enforcement activities will be undertaken; or

(*b*) The commencement of code enforcement activities: *Provided*, That the State agency shall have concluded, in accordance with HUD policies and requirements, either:

(*1*) That the owner has increased the rent or has notified the tenant of an increase in rent amounting to not less than 25 percent in the case of a business concern and not less than 10 percent in the case of an individual or family: *Provided*, That in the case of an individual or family the increase shall also result in a rent exceeding the standards established by the State agency for the persons' ability to pay, or

(*2*) That the code enforcement could not reasonably be undertaken without the vacation of the real property by the tenant; or

(*c*) A notice from the owner or the State agency that code enforcement activities will be required: *Provided*, That the State agency shall have concluded, in accordance with HUD policies and

[1] See FR Doc. 73-13850 appearing at page 18262 in the issue for July 9, 1973.

V 38 I 187 SEP 27 73 XUM

requirements, that such tenant has moved in reasonable anticipation of such code enforcement activities and has made either of the findings required under paragraph (e)(3)(i) (b)(1) or (2) of this section.

(ii) Owners. An owner of real property shall be deemed displaced as a result of code enforcement if the vacating of the real property occurs on or after the receipt of notice from the State agency that code enforcement will be required and the State agency concludes, in accordance with HUD policies and requirements, that the code enforcement could not reasonably have been undertaken without the vacation of the real property by the owner.

(4) Voluntary rehabilitation—(i) Tenants. A tenant shall be deemed to be displaced as a result of voluntary rehabilitation if the vacating of real property occurs on or after:

(*a*) The receipt of a notice to vacate from the owner on the ground that voluntary rehabilitation will be undertaken; or

(*b*) The commencement of voluntary rehabilitation: *Provided*, That the State agency shall have concluded in accordance with HUD policies and requirements either:

(*1*) That the owner has increased the rent or has notified the tenant of an increase in rent amounting to not less than 25 percent in the case of a business concern and not less than 10 percent in the case of an individual or family: *Provided*, That the increase shall also result in a rent exceeding the standards established by the State agency for the person's ability to pay, or

(*2*) That the voluntary rehabilitation could not have reasonably been undertaken without the vacation of the real property by the tenant; or

(*c*) The receipt of a notice from the owner or the State agency that voluntary rehabilitation will be required: *Provided*, That the State agency shall have concluded, in accordance with HUD policies and requirements, that such tenant has moved in reasonable anticipation of such voluntary rehabilitation and has made either of the findings required under paragraph (e)(3)(i)(*b*) (*1*) or (*2*) of this section.

(ii) Owners. An owner of real property shall be deemed displaced as a result of voluntary rehabilitation if the vacating of the real property occurs on or after the commencement of voluntary rehabilitation and the State agency concludes, in accordance with HUD policies and requirements, that the voluntary rehabilitation could not reasonably have been undertaken without the vacation of the real property by the owner.

(f) *Displacement by improvement of private properties in the interim assistance program.* A person shall be deemed displaced by the improvement of private property under the interim assistance program if the vacating of the real property is the result of:

(1) Improvement with respect to the property occupied and undertaken in accordance with the plan; and

(2) Where the displaced person is a tenant, the vacating of real property occurs on or after:

(i) The receipt of a notice to vacate from the owner on the ground that such improvement will be undertaken, or

(ii) The commencement of such improvement: *Provided*, That the State agency shall have concluded, in accordance with HUD policies and requirements, either (*a*) that the owner has increased the rent or has notified the tenant of an increase in rent amounting to not less than 25 percent in the case of a business concern and not less than 10 percent in the case of an individual or family: *Provided*, That in the case of an individual or family the increase shall also result in a rent exceeding the standards established by the State agency for the person's ability to pay, or (*b*) that such improvement could not have reasonably been undertaken without the vacation of the real property by the tenant, or

(iii) A notice from the owner or the State agency that the improvement will be required: *Provided*, That the State agency shall have concluded, in accordance with HUD policies and requirements that such tenant has moved in reasonable anticipation of such improvement and has made the finding required under paragraph (f)(2)(ii) of this section, or

(3) Where the displaced person is an owner if the vacating of the real property occurs on or after the commencement of such improvement and the State agency concluded, in accordance with HUD policies and requirements, that the improvement could not reasonably have been undertaken without the vacation of the real property by the owner.

(g) *Displacement by demolition.* A person shall be deemed displaced as a result of demolition if the vacating of real property is the result of demolition undertaken in accordance with the plan for a project, and occurs on or after the date on which the State agency has ordered the real property to be vacated and demolished under State and local law on the ground that it is structurally unsound or unfit for human habitation.

(h) *Moves from dwellings as a result of displacement from a business or farm operation.* Notwithstanding any other provision of this Subpart, any person who moves from real property or moves his personal property from real property on or after the applicable date specified in paragraphs (a), (b), or (c) of this section as a result of displacement (as specified in paragraphs (a), (b), or (c) of this section) from other real property on which such person conducts a business or farm operation shall qualify as a displaced person for the purposes of establishing basic eligibility for the following payments and assistance: (1) Actual reasonable moving expenses under § 42.65, (2) actual direct losses of personal property under § 42.70, (3) actual reasonable expenses in searching for a replacement business or farm under § 42.75, (4) an alternate payment for individuals and families under § 42.80, and (5) relocation advisory assistance under Subpart C of this part.

### § 42.56 Displacement resulting from activities later included in the model cities program.

In all cases in which a comprehensive city demonstration program is amended to incorporate any of the activities specified in § 42.55 of this subpart which were carried out prior to the date of such amendment, and to recognize the eligibility of persons displaced by reason of any of such activities, a person so displaced shall qualify as a displaced person for purposes of establishing basic eligibility for a relocation payment: *Provided*, That the date of displacement for such person shall be deemed to be the date on which the comprehensive city demonstration program was amended to include the activity bringing about displacement: *And provided further*, That the regulations in effect at the time of such amendment shall be fully applicable to each such displacement.

### § 42.60 Filing of claims.

(a) *General.* All claims shall be submitted to the State agency on the appropriate HUD form, supported by such documentation as may be required by the specific provisions of the regulations in this part applicable to the payment claimed, and by such other documentation as may be required by the State agency.

(b) *Time for filing claims.* Any claim for a payment (other than a claim for a replacement housing payment for homeowners under § 42.90 or for an amount necessary to enable a displaced person to make a downpayment on a replacement dwelling under § 42.95(a)(2) of this part) shall be submitted to the State agency within a period of 6 months after displacement of a claimant. Any claim under § 42.90 or § 42.95(a)(2) shall be submitted to the State agency within a period of 18 months after the displacement of the claimant.

### § 42.65 Actual reasonable moving expenses.

(a) *General.* A State agency shall make a payment to a displaced person who satisfies the pertinent eligibility requirements of § 42.55 and the requirements of paragraph (b) of this section, for actual reasonable expenses specified below and subject to the limitations set forth in paragraph (c) of this section for moving himself, his family, business, farm operation or other personal property. In all cases the amount of a payment shall not exceed the cost of the least expensive feasible method of accomplishing the activity in connection with which a claim has been filed, as determined by the State agency. The moving and related expenses for which claims may be filed shall include:

(1) Transportation not to exceed a distance of 50 miles from the site from which displaced, except where the State agency determines in accordance with HUD policies and requirements that relocation beyond such distance of 50 miles is justified;

(2) Packing, crating, unpacking and uncrating personal property;

(3) Obtaining (including advertising for) bids or estimates for such transportation, packing, crating, unpacking and uncrating;

(4) Such storage of personal property, for a period generally not to exceed 12 months, as the State agency determines to be necessary in connection with relocation;

(5) Insurance of personal property while in storage or transit;

(6) Disconnecting, dismantling, removing, reassembling, reconnecting and reinstalling machinery, equipment or other personal property (including goods and inventory kept for sale) not acquired by the State agency;

(7) The cost, subject to the limitations imposed by this paragraph, of any addition, improvement, alteration or other physical change in or to any structure or its premises, whether in connection with the reassembling, reconnection, or reinstallation of machinery, equipment or other personal property or otherwise required, to render such structure or premises suitable for a displaced business. Claims for payment under this paragraph shall be subject to the following limitations:

(i) Reimbuseable costs shall be limited to 10 percent of a displaced person's entitlement pursuant to subparagraphs (1), (2), (3), (5), and (6) of this paragraph or $10,000, whichever is the greater amount;

(ii) The cost shall be found by the State agency to be required by law or ordnance or to be otherwise necessary to the reestablishment of a displaced business operation;

(iii) In any case in which costs exceed $1,000, the State agency shall obtain the concurrence of HUD before making payment;

(iv) The State agency shall determine that there is no suitable structure or premises available for the relocation of the displaced business concern which would not require such addition, improvement, alteration, or other physical change; and

(v) Under no circumstance shall this subparagraph be construed to authorize the inclusion in a claim for a relocation payment of the cost of substantial construction, completion, or rehabilitation of a replacement facility for any displaced business concern.

(8) The reasonable replacement value of property lost, stolen or damaged (not through the fault or negligence of the displaced person, his agent, or employee) in the process of moving, where insurance covering such loss, theft or damage is not reasonably available; and

(9) Where an item of personal property which is used in connection with any business or farm operation is not moved but is replaced with a comparable item, reimbursement in an amount not to exceed (i) the replacement cost, minus any proceeds received from the sale, or (ii) the estimated cost of moving, whichever is less.

(b) *Requirements—Moving a business or farm operation.* Except as provided in this paragraph, no payment for actual reasonable moving expenses shall be made to a displaced person for moving his business or farm operation unless:

(1) The State agency has received, at least 30 days (or such earlier date as the State agency may determine necessary, but not earlier than 90 days) prior to the moving date, written notice from such displaced person of his intention to move or dispose of personal property used in connection with such business or farm operation (which property shall be described generally in the notice), and the date of such intended move or disposition; and

(2) The displaced person has permitted, at all reasonable times, the inspection by or on behalf of the State agency of such property at the site from which the business or farm operation is displaced. For the purpose of this subsection, "moving date" shall mean the date on which the first item of such property is intended to be moved or disposed of. The State agency may make a relocation payment notwithstanding nonreceipt of such timely notice only if the agency has determined that there was reasonable cause for the failure of the displaced person to give such notice, and the agency has adequately verified the facts pertaining to the move or disposition and the requested relocation payment.

(c) *Special requirements and limitations.*

(1) *Temporary moves—individuals, families, and business concerns.* A displaced person (as defined in § 42.20(d) of this subpart) who moves into temporary housing or into a temporary business location (as defined in § 42.120(b) and (c) of this part) with HUD concurrence may be compensated for (i) the actual cost of moving to the temporary housing or business location; and (ii) in the case of a displaced person who rents the dwelling or business location from which he is being displaced the actual difference, if any, between the rental paid at such location and the rental paid at the temporary housing or temporary business location or; (iii) in the case of a displaced owner of a home or business the actual cost of the rental of such temporary location, including reasonable utility charges. Compensation for such expenses (which, in the case of displaced business concerns may also include claims for actual direct losses of personal property, as defined in § 42.70 of this subpart and for expenses in searching for a temporary replacement business or farm, as defined in § 42.75 of this subpart) shall be a part of the cost of the program but shall not be considered to be a relocation payment as defined in § 42.20(q) of this part. A person who is displaced after the applicable date of the regulations in this part as set forth in § 42.25 who moves into temporary housing or a temporary business location is eligible for full relocation payments and assistance under this part upon his subsequent move from such temporary location to a permanent location.

(2) *Businesses and farm operations—general limitation on moving expenses.* Except as provided in paragraph (c)(3) of this section, relating to business self-moves, payment to a displaced person for moving expenses in connection with moving a business or farm operation shall not exceed the amount of the low bid submitted in accordance with paragraph (d)(2) of this section.

(3) *Business and farm operations—self-moves.* A displaced person electing to self-move a business or farm operation may do so, unless the State agency concludes that such self-move is not warranted. In any case in which the claim for moving expenses in connection with a self-move is in an amount not exceeding the lowest of the bids obtained in accordance with paragraph (d)(2) of this section (or if no such bids can be obtained) no documentation of actual moving expenses shall be required by the State agency, which shall determine the amount of the payment on the basis of such factors as (i) the manner in which the move is accomplished, (ii) the relationship of the proposed move to the scope of work covered by the lowest received bid or estimate, if any (iii) the labor and the supervisory costs associated with the move and (iv) the cost of the use of equipment employed in the move. In all cases in which the amount claimed for moving expenses in connection with a self-move exceeds the amount of the lowest of the bids obtained in accordance with paragraph (d)(2) of this section, full documentation of such expenses shall be required.

(4) *Personal property of low value and high bulk—Business or farm operation.* Where, in the judgment of the State agency, the cost of moving any item of personal property of low value and high bulk which is used in connection with any business or farm operation would be disproportionate in relation to its value, the allowable reimbursement for the expense of moving such property shall not exceed the difference between the cost of replacing the same with a comparable item available on the market and the amount which would have been received for such property on liquidation. This subparagraph shall apply to such situations as the moving of junkyards, stockpiles, sand, gravel, minerals, and metals.

(d) *Documentation in support of a claim—*(1) *All claimants.* A claim for a payment under paragraph (a) of this section shall be supported by a bill or other evidence of expenses incurred. By prearrangement between the State agency, the site occupant, and the mover, evidenced in writing, the claimant or the mover may present an unpaid moving bill to the State agency, and the agency may pay the mover directly.

(2) *Businesses and farm operations.* Except in those situations in which the provisions of § 42.65(c)(3) are applicable and/or no such bids can be obtained, each claim in excess of $500 for the costs incurred by a displaced person for moving his business or farm operation shall be supported by bids submitted to the

V 38 I 187 SEP 27 73 XUM

State agency at least 15 days prior to the commencement of the move from three reputable firms covering the moving costs involved. Whenever it is not feasible to obtain three bids for any category of work, a lesser number of bids shall be submitted, together with a written justification by the displaced person; and no relocation payment shall be allowed in such cases unless the State agency has approved the justification. Where such bid requirement cannot be compiled with under State law, or where estimates in an amount of less than $500 were obtained in good faith by the displaced person, such claim shall be supported by estimates in lieu of bids.

**§ 42.70 Actual direct losses of tangible personal property.**

(a) *General.* A State agency shall make a payment to a displaced person who satisfies the eligibility requirements of § 42.65, and this section, for actual direct losses of tangible personal property as a result of moving or discontinuing a business or farm operation, in an amount determined by the State agency in accordance with the provisions of this section.

(b) *Determining actual direct loss of property.* Subject to the limitations provided in this section, the amount of actual direct loss shall be determined as follows:

(1) The fair market value of the property for continued use at its location prior to the displacement shall be ascertained by an appraisal either secured by the claimant and concurred in by the State agency, or secured by the State agency and concurred in by the claimant.

(2) If the value of the property is such as not to warrant the expense of an appraisal, its fair market value shall be computed by multiplying the original cost of the item to the claimant (exclusive of installation), by the figure obtained by dividing the period of the remaining useful life of the property at the date of displacement by the period of the normal useful life of the property at the date of its acquisition by the claimant.

(3) Wherever possible, the property shall be disposed of by a bona fide sale at the highest price offered after reasonable efforts have been made over a reasonable period of time to interested prospective purchasers. The displaced person shall be reimbursed for the reasonable costs incurred in arranging for such sale.

(4) If the amount realized from the sale, minus the reasonable expenses of the sale, is less than the fair market value for continued use of the property at its location, the difference between the net amount realized and the fair market value is the amount of actual direct loss.

(5) A trade-in of property may be considered a sale, and the trade-in allowance, exclusive of any amount of discount that would be allowed on the property being acquired in the absence of the trade-in, shall be the amount realized upon the sale.

(6) If a bona fide sale is not effected because no offer is received for the property, after reasonable efforts have been made over a reasonable period of time to sell it, its fair market value for continued use prior to displacement, ascertained as provided in this section, is the amount of actual direct loss of the property.

(c) *Limitations.* (1) When a business or farm operation is discontinued, the displaced person is entitled to the difference between the fair market value of the property for continued use at its location prior to displacement, and the sale proceeds, or the estimated costs of moving 50 miles, whichever is less.

(2) When a displaced person does not move his personal property, he shall be required to make a bona fide effort to sell it.

(3) When the property is abandoned after reasonable efforts to effect a bona fide sale, the displaced person is entitled to payment for the fair market value of the property for continued use at its location prior to displacement, or the estimated costs of moving 50 miles, whichever is less.

(4) In no case shall the payment for actual direct loss of any property exceed the amount as provided for herein, or the estimated amount that would have been required to relocate such property, whichever is less.

(5) No payment shall be made for any item of property sold or traded in and replaced with a substitute item, except as provided for in § 42.65 (a) (9).

(6) The cost of an initial appraisal to determine actual loss of property shall, notwithstanding § 42.35, be included as a project cost to the same extent as other project costs. No payment shall be made to a displaced person for the cost of an appraisal subsequent to the initial appraisal.

(d) *Documentation to support claim.* A claim for payment hereunder shall be supported by written evidence of loss which may include appraisals, certified prices, bills of sale, receipts, cancelled checks, copies of advertisements, offers to sell, auction records, and other records appropriate to support the claim.

**§ 42.75 Actual reasonable expenses in searching for a replacement business or farm.**

A displaced person who satisfies the pertinent eligibility requirements of § 42.65 with respect to actual reasonable moving expenses, is eligible for actual reasonable expenses, in an amount not to exceed $500 unless the State agency determines that a greater amount is justified, in searching for a replacement business or farm, including expenses incurred for: (a) Transportation; (b) meals and lodging away from home; (c) time spent in searching, based on the hourly wage rate of the salary or earnings of the displaced person or his representative, but not to exceed $10 per hour; and (d) fees paid to a real estate agent or broker to locate a replacement business or farm.

**§ 42.80 Alternate payments—individuals and families.**

(a) *General.* A person or family, who is displaced from a dwelling who is eligible for a payment for actual reasonable moving expenses under § 42.65, may elect to receive and shall be paid, in lieu of such payment: (1) A moving expense allowance not to exceed $300 and determined in accordance with approved Federal Highway Administration schedules established by the State in which the displacement occurred, and (2) a dislocation allowance of $200.

(b) *Limitations—joint occupants of single-family dwellings.* If individuals (regardless of whether they are family members, or not) who are joint occupants of a single-family dwelling submit more than one claim, an eligible claimant for a payment under paragraph (a) of this section may be paid only his reasonable prorated share (as determined by the State agency) of the total payment applicable to a single individual, and the total of alternate payments made to all such claimants moving from such dwelling shall not exceed the total fixed payment applicable to a single individual.

**§ 42.85 Alternate payments—businesses and farm operations.**

(a) *General.* A displaced person who is displaced from his place of business or farm operation and is eligible for payments under § 42.65, § 42.70, or § 42.75 and complies with the requirements set out in paragraph (b) of this section may elect to receive and shall be paid, in lieu of such payments, a payment equal to the average annual net earnings of the business or farm operation (but not including a business as defined in § 42.20(a)(4) of this part) as determined in accordance with paragraph (b) of this section, except that such payment shall be not less than $2,500 nor more than $10,000. For purposes of this section, the dollar limitation specified in the preceding sentence shall apply to a single business, regardless of whether it is carried on under one or more legal entities.

(b) *Requirements—businesses and farm operations.* No payment shall be made under this section unless the State agency determines that (1) the business cannot be relocated without a substantial loss of its existing patronage, based on a consideration of all pertinent circumstances including such factors as the type of business conducted, the nature of the clientele, and the relative importance to the displaced business of its present and proposed location; (2) the business is not part of a commercial enterprise having another establishment which is not being acquired for a project and which is engaged in the same or similar business; and (3) the displaced business or farm operation (i) had average annual gross receipts of at least $2,000 during the two taxable years prior to displacement; or (ii) the displaced business or farm operation had average annual net earnings of at least $1,000 during the two taxable years prior to displacement; or (iii) the displaced business or farm operation contributed at least 33⅓ percent of the total income of the owner(s) during each of the two taxable years prior to displacement: *Provided*, That if in any case the State agency determines that the two year period prior to displacement is not representative of average receipts, earnings or income, it may make use of a more representative period.

(c) *Determination of number of "businesses".* In determining whether one or more legal entites constitute a single business, the following factors, among others, shall be considered:

(1) The extent to which the same premises and equipment are shared;

(2) The extent to which substantially identical or intimately interrelated business functions are pursued and business and financial affairs are commingled;

(3) The extent to which such entities are held out to the public, and to those customarily dealing with such entities, as one business; and

(4) The extent to which the same person or closely related persons own, control or manage the affairs of the entities.

(d) *Requirements—farms.* In the case of a farm operation, no payment shall be made under this section unless the State agency determines that (1) the farm met the definition of a farm operation prior to its acquisition; and (2) if the displacement is limited to only part of the farm operation, the property remaining after the acquisition can no longer meet the definition of a farm operation.

(e) *Requirements—nonprofit organizations.* In the case of a nonprofit organization, no payment shall be made under this section unless the State agency determines that (1) the nonprofit organization cannot be relocated without a substantial loss of its existing patronage. (The term "existing patronage" as used in connection with a nonprofit organization includes the membership, persons, community, or clientele served or affected by the activities of the nonprofit organization); and (2) the nonprofit organization is not part of a commercial enterprise having at least one other establishment not being acquired which is engaged in the same or similar activity.

(f) *Net earnings.* The term "average annual net earnings" as used in this section means one-half of any net earnings of the business or farm operation, before Federal, State, and local income taxes, during the two taxable years immediately preceding the taxable year in which the business or farm operation moves from the real property acquired for such project, or during such other period as the head of the State agency determines to be more equitable for establishing such earnings, and includes any compensation paid by the business or farm operation to the owner, his spouse or his dependents during such period.

(g) *Determination of ownership.* The term "owner" as used in this section includes the sole proprietor in a sole proprietorship, the principal partners in a partnership, and the principal stockholders of a corporation, as determined by the State agency. For purposes of determining a principal stockholder, stock held by a husband, his wife and their dependent children shall be treated as one unit.

(h) *Documentation in support of a claim.* A claim for payment under paragraph (a) of this section shall be supported by such reasonable evidence of earnings as may be approved by HUD. If no other evidence is available, such claim shall be supported by copies of Federal income tax returns.

**§ 42.90 Replacement housing payments for homeowners.**

(a) *General.* A state agency shall make to a displaced person except those temporarily displaced within the meaning of § 42.65(c)(1) who is displaced from a dwelling and who satisfies the pertinent eligibility requirements of § 42.55 and the conditions of paragraph (b) of this section, a payment not to exceed a combined total of $15,000 for:

(1) The amount, if any, which when added to the acquisition cost of the dwelling acquired for the project equals the reasonable cost (as determined in accordance with paragraph (c)(1) of this section) of a comparable replacement dwelling: *Provided*, That such amount shall not exceed the difference between the acquisition price of the acquired dwelling and the actual purchase price of the replacement dwelling.

(2) The amount, if any, to compensate the displaced person for any increased interest costs, as determined in accordance with paragraph (c)(2) of this section, which such displaced person is required to pay for financing the acquisition of a replacement dwelling: *Provided*, That no such payment shall be made unless the dwelling acquired by the State agency was encumbered by a bona fide mortgage which was a valid lien on such dwelling for not less than 180 days prior to the initiation of negotiations for acquisition of such dwelling.

(3) Reasonable expenses, determined in accordance with paragraph (c)(3) of this section, incurred by the displaced person incident to the purchase of the replacement dwelling, but not including prepaid expenses.

(b) *Eligibility conditions.* (1) A displaced person is eligible for the payments specified in paragraph (a) of this section if such displaced person (i) is displaced from a dwelling that (*a*) is acquired for a project, or (*b*) in connection with a project and in accordance with local code, is demolished, is declared unfit for human habitation, or requires vacation for any other reason, such as overcrowding; (ii) has actually owned and occupied such dwelling for not less than 180 days prior to the initiation of negotiations for its acquisition; (iii) purchases and occupies a replacement dwelling which is decent, safe, and sanitary, within 1 year subsequent to the date on which he received final payment from the State agency of all costs of the acquired dwelling or the date on which he moves from the acquired dwelling, whichever is later.

(2) For the purpose of this paragraph (b), a person has "owned" a dwelling if he (i) held fee title, a life estate, a 99-year lease, or a lease with not less than 50 years to run from date of acquisition of the property for the project; (ii) held an interest in a cooperative housing project which includes the rights of occupancy of a dwelling unit therein, (iii) is the contract purchaser of any of the foregoing estates or interest, or (iv) has a leasehold interest with an option to purchase.

(3) The term "initiation of negotiations" shall mean, for the purposes of this paragraph (b), the following:

(i) In the case of code enforcement, voluntary rehabilitation, improvement of private property, or demolition in connection with a project, the date such person vacates the dwelling.

(ii) In the case of a low-rent public housing project carried out by means of the turnkey method (new construction or rehabilitation), the date of the letter from the State agency notifying a developer of his tentative selection in connection with such project, except: (*a*) For turnkey new construction cases where the State agency obtains control of the site prior to tentative selection of the developer, the date of the initial written offer to the owner by or on behalf of the State agency of the amount established as just compensation in accordance with § 42.135, and (*b*) for turnkey rehabilitation cases where the State agency enters into an agreement with a developer for unidentified properties, the date of the initial written offer for each property by the developer to the owner or the date of the contract between the developer and the State agency, whichever is later.

(4) The term "Purchases", for the purpose of this paragraph (b), includes the acquisition, construction or rehabilitation of a dwelling, the purchase and rehabilitation of a substandard dwelling, the relocation or relocation and rehabilitation of an existing dwelling, or the entering into a contract to purchase, or for the construction of, a dwelling to be constructed on a site to be provided by a builder or developer or on a site which the displaced person owns or acquires for such purpose. Where completion of construction, rehabilitation, or relocation of a replacement dwelling is delayed, for reasons beyond control of the displaced person, beyond the date by which occupancy is required under this paragraph (b), the State agency may determine the date of occupancy to be the date the displaced person enters into a contract for such construction, rehabilitation, or relocation or for the purchase, upon completion, of a dwelling to be constructed or rehabilitated, if, in fact, the displaced person occupies the replacement dwelling when the construction or rehabilitation is completed.

(5) Where, for reasons of hardship and beyond the control of the displaced person, such person is unable to occupy the replacement dwelling by the date by

V 38 I 187 SEP 27 73 XUM

which occupancy is required under this paragraph (b), the State agency may determine the date of occupancy to be the date on which the displaced person became entitled to possession of such dwelling: *Provided*, That the displaced person occupies the replacement dwelling within such reasonable period of time as shall be determined by HUD.

(c) *Computation of replacement housing payment.*—(1) *Cost of comparable replacement dwelling.* The cost of a comparable replacement dwelling for purposes of paragraph (a)(1) of this section, shall be determined by the method specified in paragraph (c)(1)(i) except as provided in paragraph (c)(1)(ii) or (iii);

(i) *Comparative method.* On a case-by-case basis by determining the sales price of one or more dwellings which have been selected by the State agency or by the displaced person with the approval of the State agency, and which are most representative of the acquired dwelling unit and meet the definition of "comparable replacement housing" set out in § 42.20(b);

(ii) *Schedule method.* In accordance with a schedule as specified in § 42.160 and only under the circumstances described therein;

(iii) *Alternative method.* Where the State agency determines that neither the schedule nor comparative method is feasible in a given situation, by the use of such other method as may be approved by HUD.

(2) *Interest payments.* Interest payments shall be equal to the difference between (i) the aggregate interest and other debt service cost of the amount of the principal of the mortgage on the acquired dwelling over its remaining term at the time of acquisition, and (ii) the aggregate interest and other debt service costs paid on the mortgage on the replacement dwelling: *Provided*, That the term and amount of the mortgage on the replacement dwelling for purposes of this paragraph shall be the lesser of (iii) the remaining term and amount of the mortgage on the acquired dwelling, or (iv) the actual term and amount of the mortgage on the replacement dwelling: *And provided further*, That the amount of the debt service cost with respect to the replacement dwelling shall be the lesser of (v) the debt service cost based on the amount of the mortgage remaining on the acquired dwelling, or (vi) the debt service cost based on the actual amount of the mortgage on the replacement dwelling: *And provided further*, That such differential shall be reduced to discounted present value. In making such computation, the aggregate interest and other debt service costs with respect to the replacement dwelling shall not exceed the prevailing interest rate currently charged by the mortgage lending institutions in the general area in which the replacement dwelling is located. The discount rate for computing the present worth of future payments of increased interest shall be computed at the prevailing interest rate paid on savings deposited by commercial banks in the general area in which the replacement dwelling is located. (An example of computation of payment for increased interest cost is set forth below in the Appendix to this part.)

(3) *Expenses incident to the purchase of the replacement dwelling.* Such payments shall be the amount necessary to reimburse the displaced person for actual costs incurred by him incident to the purchase of the replacement dwelling, including (i) legal, closing, and related costs including title search, preparing conveyance contracts, notary fees, surveys, preparing drawings or plats, and charges paid incident to recordation, (ii) Lender, FHA or VA appraisal, (iii) FHA or VA application fee, (iv) Certification of structural soundness, (v) Credit report, (vi) Owner's and mortgagee's evidence or assurance of title, (vii) Escrow agent's fee, (viii) Sales or transfer taxes: *Provided*, That no payment for any such expenses shall exceed the amount attributable to the purchase of a comparable dwelling, as defined by § 42.20(b) and selected in accordance with this section.

No reimbursement shall be made for any fee, cost, charge, or expense which is determined to be a part of the debt service or finance charge under Title I of the Truth in Lending Act (Pub. L. 90-321), and Regulation Z issued pursuant thereto by the Board of Governors of the Federal Reserve System.

(d) *Limitation-joint owner-occupants of single-family dwellings.* The total amount of payment under this section to individuals who were joint owner-occupants of a single-family dwelling acquired as a result of the project shall be subject to the limitation of § 42.80(b).

(e) *Descent and distribution of replacement housing payments.* A replacement housing payment computed in accordance with this section or with § 42.95 shall be personal to the displaced person claiming such payment, and shall not be paid to his heirs or assigns to the extent to which such payment, or any portion thereof, has not been disbursed prior to the death of such displaced person (except as to the amount attributable to such displaced person's actual period of occupancy of comparable replacement housing): *Provided*, That such payment shall be fully disbursed in any case in which the displaced person was a member of a family living with him in the dwelling or dwelling unit from which he was displaced, which continues to occupy together the comparable dwelling selected in accordance with the regulations in this part: *And provided further*, That so much of a replacement housing payment as will satisfy the legal obligation of an estate in connection with the selection of a comparable dwelling by or on behalf of a deceased displaced person shall be disbursed to the estate.

### § 42.95 Replacement housing payments for tenants and certain others.

(a) *General.* A state agency shall make to a displaced person except those temporarily displaced within the meaning of § 42.65(c)(1) who satisfies the eligibility requirements of § 42.55 and the conditions of paragraph (b) of this section, a payment not to exceed $4,000 for either:

(1) An amount, computed in accordance with paragraph (c)(1) of this section, necessary to enable such displaced person to lease or rent a comparable replacement dwelling for a period not to exceed 4 years; or

(2) An amount, computed in accordance with paragraph (c)(2) of this section, necessary to enable such displaced persons to make a downpayment (including incidental expenses described in § 42.90(a)(3)) on the purchase of a comparable dwelling: *Provided*, That if such amount exceeds $2,000, such displaced person shall equally match any such amount in excess of $2,000 in making the downpayment.

(b) *Eligibility conditions.* A displaced person is eligible for the payments specified in paragraph (a) of this section if such displaced person:

(1) Has actually and lawfully occupied the dwelling from which he is displaced for a period of not less than 90 days prior to the initiation of negotiation for acquisition of such dwelling; and

(2) Is not eligible to receive a replacement housing payment for homeowners under § 42.90; and

(3) Where such displaced person was the owner of the dwelling, such dwelling is (i) acquired for a project or (ii) in connection with a project and in accordance with local code, is demolished, is declared unfit for human habitation, or requires vacation for any other reason, such as over-crowding; and

(4) In cases in which a payment specified in paragraph (a)(2) of this section is sought such displaced person shall within one year from the date of displacement purchase a replacement dwelling. For purposes of this paragraph, the term "purchase" shall be defined in accordance with § 42.90(b)(4).

(5) The term "initiation of negotiations" shall mean, for the purposes of this paragraph (b), the following:

(i) In the case of code enforcement, voluntary rehabilitation, improvement of private property, or demolition in connection with a project, the date such person vacates the dwelling.

(ii) In the case of a low-rent public housing project carried out by means of the turnkey method (new construction or rehabilitation), the date of the letter from the State agency notifying a developer of his tentative selection in connection with such project, except: (*a*) For turnkey new construction cases where the State agency obtains control of the site prior to tentative selection of the developer, the date of the initial written offer to the owner by or on behalf of the State agency of the amount established as just compensation in accordance with § 42.135, and (*b*) for turnkey rehabilitation cases where the State agency enters into an agreement with a developer for unidentfied properties, the date of the

initial written offer for each property by the developer to the owner or the date of the contract between the developer and the State agency, which ever is later.

(c) *Computation of payment.*

(1) *Rentals.* The amount of payment necessary to lease or rent a comparable replacement dwelling, as specified under paragraph (a)(1) of this section, shall be computed by subtracting 48 times the base monthly rental of the displaced person (as determined in accordance with paragraph (c)(1)(i) of this section), from 48 times the comparable monthly rental for a replacement dwelling (as determined in accordance with paragraph (c)(1)(ii) of this section): *Provided*, That in no case may such amount exceed the difference between 48 times the base monthly rental as determined in accordance with this paragraph and 48 times the monthly rental actually required for the comparable dwelling occupied by the displaced person.

(i) *Base monthly rental.* The base monthly rental shall be the average monthly rental paid by the displaced person for the 3-month period prior to initiation of negotiations: *Provided*, That the base monthly rental shall be the average monthly rental during such 3-month period for similar dwellings in an area not generally less desirable than that of the dwelling from which such person was displaced (hereinafter referred to as the economic rent) the displaced person was the owner of the dwelling from which he was displaced; *And provided further*, That where necessary to satisfy the definition under § 42.20(b)(5) of comparable replacement housing as being within the financial means of the displaced person, the amount of such base monthly rental shall not exceed 25 percent of such person's monthly income.

(ii) *Comparable monthly rental.* The comparable monthly rental shall be the amount of rental determined by the State agency by the method specified in paragraph (a), except as provided in paragraph (b) or (c);

(*a*) *Comparative method.* On a case by case basis by determining the average month's rent for one or more dwellings which have been selected by the State agency or by the displaced person with the approval of the State agency, and which are most representative of the acquired dwelling and meet the definition of "comparable replacement dwelling" set out in § 42.20(b);

(*b*) *Schedule method.* In accordance with a schedule as specified in § 42.160, and only under the circumstances described therein;

(*c*) *Alternative method.* Where the State agency determines that neither the schedule nor comparative method is feasible in a given situation, by the use of such other method as may be approved by HUD.

(2) *Downpayment.* The downpayment for which a payment specified under paragraph (a)(2) of this section may be made, together with any matching share which may be required, shall not exceed (i) the amount ordinarily required for a downpayment for the purchase of a comparable dwelling where such purchase is financed by a conventional loan, and (ii) expenses incident to the purchase of a replacement dwelling computed in accordance with § 42.90(c)(3): *Provided*, That if the amount actually required of the displaced person as a downpayment for the purchase of a comparable dwelling is more than the amount specified in paragraph (c)(2)(i) of this section, such amount shall be the amount which the State agency determines to be necessary for such downpayment. The full amount of a downpayment under this section shall be applied to the purchase price of the replacement dwelling and shall be shown on the closing statement.

(d) *Limitation on payments and disbursement of payments.*—(1) *Joint occupants of single-family dwellings.* The total amount of payment under this section to individuals who were joint occupants of a single-family dwelling acquired for the project shall be subject to the limitation of § 42.80(b).

(2) *Rental replacement housing for displaced owner-occupant.* A displaced person who is not eligible for a replacement housing payment under § 42.90 because he elects to rent rather than purchase a replacement dwelling, and who meets the eligibility conditions specified in paragraph (b) of this section, is eligible for the payment specified in paragraph (a)(1) of this section.

(3) *Rental replacement housing payments for dependents.* Notwithstanding the provisions of paragraph (c) of this section, the amount of payments necessary to lease or rent a comparable replacement dwelling, as specified under paragraph (a)(1) of this section, shall, in the case of displaced persons designated dependents in accordance with this subparagraph, be limited to the difference between 48 times the rental actually paid for the unit previously occupied by the displaced person and 48 times the monthly rental actually required for the comparable dwelling presently occupied or to be occupied by the displaced person. For purposes of this subparagraph, a "dependent" shall be any person who derives fifty-one percent or more of his income in the form of gifts from another private person or from any academic scholarship or stipend. Full-time students and persons residing in hospitals, sanitariums and similar institutions shall be presumed to be dependents: *Provided*, That any displaced person presumed to be a dependent may rebut this presumption by demonstrating that fifty percent or more of his income is derived from sources other than gifts from another private person or academic scholarships or stipends.

(e) *Disbursement.* The Secretary shall have the authority to prescribe the manner for the disbursement of payments under this section and may from time to time establish procedures governing such disbursements.

## Subpart C—Relocation Assistance Advisory Program and Assurance of Adequate Replacement Housing

### § 42.100 Purpose.

The purpose of this subpart is to set forth requirements with respect to the development and implementation of a relocation assistance advisory program for the provision of specified services, and to prescribe the obligation of the State agency not to displace, or cause the displacement of any person from his dwelling without adequate notice and unless adequate replacement housing is available.

### § 42.105 Relocation assistance advisory program.

State agencies shall develop and implement a relocation assistance advisory program which satisfies the requirements of § 42.115 and of Title VI of the Civil Rights Act of 1964 and Title VIII of the Civil Rights Act of 1968. Such program shall be administered so as to provide advisory services which offer maximum assistance, to minimize the hardship of displacement, and to assure that (a) all persons displaced from their dwellings are relocated into housing meeting the criteria described in § 42.120, and (b) all persons displaced from their places of business or farm operations are assisted in reestablishing with a minimum of delay and loss of earnings.

### § 42.110 Eligibility for services.

Relocation assistance advisory services shall be available to:

(a) Any person who occupies property from which he will be displaced for a project or whose personal property will be so displaced;

(b) Any person who occupies property immediately adjacent to the project and who is determined by the State agency to be caused substantial economic injury or substantial injury or threat to his health or personal safety of the project; and

(c) Any person who moves from real property or moves his personal property from real property, because he is displaced from other real property on which he conducts a business or farm operation.

For purposes of § 42.110, any person or persons described in paragraphs (a) through (c) of this section shall be an "eligible person."

### § 42.115 Minimum requirements of relocation assistance advisory program.

Each relocation assistance advisory program undertaken pursuant to § 42.105 shall include, at a minimum, such measures, facilities or services as may be necessary or appropriate in order to:

(a) Fully inform eligible persons under this subpart at the earliest possible date as to the availability of relocation payments and assistance and the eligibility requirements therefor, as well as the procedures for obtaining such payments and assistance;

V 38 187 SEP 27 73 XUM

(b) Through direct personal interview, determine the extent of the need of each such eligible person for relocation assistance;

(c) Provide current and continuing information on the availability, prices and rentals of comparable sales and rental housing, and of comparable commercial properties and locations;

(d) Assure that, within a reasonable period of time prior to displacement, there will be available adequate replacement housing meeting the criteria described in § 42.120 equal in number to the number of, and available to, such eligible persons who will be displaced;

(e) Assist any such eligible person displaced from his business or farm operation in obtaining and becoming established in a suitable replacement location;

(f) Supply to such eligible persons information concerning Federal and State housing programs, disaster loan and other programs administered by The Small Business Administration, and other Federal or State programs, offering assistance to displaced persons;

(g) Provide other advisory services to such eligible persons, such as counselling and referrals with regard to housing financing, employment, training, health, welfare, and other assistance, in order to minimize hardships to such persons;

(h) Assist each such eligible person in completing any required applications and forms;

(i) Inform all persons who are expected to be displaced by acquisition as to the eviction policies to be pursued in carrying out the project;

(j) Insure adequate inspection of all relocation housing resources utilized by displaced persons prior to and subsequent to occupancy by such persons; and

(k) Provide any services required to insure that the relocation process does not result in different or separate treatment on account of race, color, religion, national origin, sex or source of income.

**§ 42.120 Requirement of adequate replacement housing prior to displacement; temporary moves; notices to displacees.**

(a) *Availability.* No person shall be required to move from his dwelling on account of a project unless within a reasonable period of time prior to displacement there are available to such person replacement dwellings which are:

(1) Decent, safe and sanitary;

(2) Demonstrated to be open to all persons regardless of race, color, religion, or national origin in a manner consistent with Title VIII of the Civil Rights Act of 1968, and available without discrimination based on sex or source of income;

(3) In an area not subjected to unreasonable adverse environmental conditions from either natural or manmade sources, and in an area not generally less desirable nor less accessible with regard to public utilities and services, schools, churches, recreation, transportation, and other public and commercial facilities; and

(4) Reasonably accessible to the displaced person's place of employment or potential employment;

(5) Adequate in size, facilities and amenities to accommodate the needs of the displaced person and his family; and

(6) Available on the market at a rental or price within the financial means of the displaced person, but not exceeding a rental equal to 25 percent of his income or a purchase price of 2 to 2½ times his annual income.

(b) *Use of temporary housing.* Subject to the prior approval of HUD, a person to be displaced from a dwelling for a project may be provided temporary housing (1) in cases of emergency or where such person is subject to economic hardship or conditions hazardous to his health or safety, or (2) in extraordinary situations where in the absence of such temporary move, the progress of the project would be substantially delayed, or (3) in cases in which the HUD-approved project plan anticipates moves back into permanent accommodations in the project or program area, or (4) where the displacement is caused by code enforcement activities which do not necessitate the permanent relocation of the business or non-profit organization.

(d) *Continuing obligations of State agency.* The State agency shall continue to furnish to all persons provided temporary housing or facilities under this section all relocation assistance provided for under this Subpart C.

(e) *Preservation of eligibility.* The eligibility of any person for a payment specified under any section of the regulations in this part shall not be affected by a move to temporary housing or facilities under this section.

(f) *Notice.* No person lawfully occupying real property shall be required to move from a dwelling or to move his business or farm operation, without at least 90 days' written notice from the State agency acquiring the real property or ordering its demolition: *Provided,* That a shorter period of notice may be given when the State agency determines, with HUD concurrence, that a 90-day period is impracticable. In addition, State agencies shall simultaneously notify each individual tenant to be displaced as well as each owner. Where persons are expected to be displaced by code enforcement, voluntary rehabilitation or the improvement of private properties as defined in § 42.55 (e) and (f), the State agency shall take all reasonable steps to urge and assure that owners of real property give tenants to be displaced at least 90 days' written notice that the activities will take place or that the premises must be vacated (except where the continued occupancy of the dwelling constitutes a substantial danger to the health or safety of the occupants). This policy shall be included by the State agency in all notices served on property owners requiring that code enforcement work be done.

(g) *Waiver.* The requirement in paragraph (a) of this section may be waived only by the Secretary of Housing and Urban Development under the following circumstances:

(1) When displacement is necessitated by a major disaster as defined in section 102(1) of the "Disaster Relief Act of 1970" (84 Stat. 1745, Pub. L. 91-606); or

(2) During periods of Presidentially declared national emergencies; or

(3) Such other extraordinary or emergency situations where immediate possession of real property is of crucial importance.

**§ 42.125 Coordination of relocation activities.**

State agencies shall contact other Federal, State, and local governmental

(iii) The State agency has determined that within 12 months of the date of the temporary move or such longer period as HUD may approve, replacement housing meeting the criteria specified in paragraph (a) of this section will be available for occupancy by such persons.

(iv) Prior to the temporary move, such person shall be given a written assurance that (*a*) replacement housing meeting the criteria specified in paragraph (a) of this section will be available at the earliest possible time, but in any event not later than the date provided under section (b)(4)(*a*)(2) of this paragraph; (*b*) to the extent practicable, such replacement housing will be made available to such person on a priority basis; and (*c*) such person may, notwithstanding the provisions of paragraph (b)(2) of this section and without prejudicing any rights under paragraph (b)(1) of this section with respect to available replacement housing, reject offers of replacement housing in the expectation of the availability of replacement housing by the time such person would have ordinarily been displaced in accordance with the construction or development schedule of the project.

(c) *Use of temporary facilities by business concerns and nonprofit organizations.* Subject to the prior approval of HUD, a person to be displaced from a business or nonprofit organization may be provided a temporary facility (1) in cases of emergency or where such person is subject to economic hardship or conditions hazardous to his health or safety, or (2) in extraordinary situations where in the absence of such temporary move, the progress of the project would be substantially delayed, or (3) in cases in which the HUD-approved project plan anticipates moves back into permanent accommodations in the project or program area, or (4) where the displacement is caused by code enforcement activities which do not necessitate the permanent relocation of the business or non-profit organization.

agencies to determine the extent of present and proposed governmental actions in or affecting the locality (or localities) which may affect the carrying out of their relocation assistance program and the availability of housing resources. State agencies shall be required to stage the project activities in a manner which assures the availability of a sufficient supply of adequate replacement housing meeting requirements of § 42.120(a), giving consideration to the relocation needs of other programs being carried out in a locality and the progress of construction or rehabilitation of replacement dwellings or other relocation accommodations. In addition, State agencies should cooperate with other displacing agencies to insure that relocation assistance and relocation payments will be administered in a manner consistent with the promotion of uniform treatment of displacees from all such programs.

## Subpart D—Real Property Acquisition

**§ 42.130 Purpose.**

The purpose of this subpart is to set forth the practices to be followed with respect to acquisition of real property for a project, and to provide for payments to property owners for expenses incidental to transfer of title and, in limited situations, payments for litigation expenses (see § 42.25(a)(2) for applicability of this Subpart to the lowrent public housing program).

**§ 42.135 Real property acquisition practices.**

In order to carry out the purpose of the regulations in this Part, as set out in § 42.10(b) with respect to the acquisition of real property, the State agency shall, to the greatest extent practicable under State law, be guided by the following policies in acquiring real property for any project:

(a) The State agency shall make every reasonable effort to acquire such real property expeditiously by negotiation.

(b) Real property shall be appraised before the initiation of negotiations, and the owner or his representative designated in writing shall be given an opportunity, by reasonable advance written notice or otherwise, to accompany the appraiser during his inspection of the property. The Secretary of HUD shall designate the minimum required number of appraisals to be so obtained.

(c) Before the initiation of negotiations for the acquisition of such real property, the State agency shall establish an amount it believes to be just compensation therefor. Such amount shall be (1) the State agency's review appraiser's determination of the fair market value of the property, or (2) if HUD concurrence is required, the fair market value as concurred in by HUD, or (3) if required by specific HUD program regulations, the amount determined by HUD to be just compensation. The date of valuation ordinarily will be the date of the appraisal review.

(d) Promptly after the amount of just compensation is established in accordance with this section, the State agency shall offer to acquire the property for the full amount so established, and shall provide the owner with a written Statement of the Basis for Determination of Just Compensation (the Statement), and summary of the basis for such amount. The Statement shall include, as a minimum, the following:

(1) An accurate legal description and location identification of the real property and the interest thereon to be acquired.

(2) An inventory identifying the buildings, structures, fixtures, and other improvements, including appurtenant removable building equipment, which are considered to be part of the real property for which the offer of just compensation is made, and an identification of the owner of each item of the inventory not owned by the owner of the land.

(3) A recital of the amount of the offer and a statement that such amount:

(i) Is the full amount believed by the State agency to be just compensation for the property;

(ii) Is not less than the approved appraisal of the fair market value of the property;

(iii) Is based on the State agency's inspection of the property and its consideration of a stated number of appraisals of the property made independently by competent professional appraisers, or is based on the amount determined by HUD to be just compensation.

(iv) Disregards any decrease or increase in the fair market value caused by the project for which the property is to be acquired, or by the likelihood that the property would be acquired for such project, other than that due to physical deterioration within the reasonable control of the owner;

(v) Does not reflect any consideration of or allowance for any relocation assistance and payments which the owner is entitled to receive under Title II of the Act or for the State agency's agreement to pay certain settlement costs.

(e) If only a portion of the property of an owner is to be acquired, the Statement shall also set forth the basis for the determination of just compensation, i.e., the amount by which the fair market value of the property in its entirety belonging to the owner exceeds the fair market value of the remainder. The recognized definition of the term "fair market value" shall be set forth by the State agency in the Statement.

(f) If only a portion of the property is to be acquired, an additional statement must be provided the property owner, to be identified as being for information purposes only and not constituting the basis for the determination of just compensation, which shall allocate the total estimated just compensation for the partial taking to: (1) an amount representing estimated just compensation for the real property to be acquired, which compensation shall be the amount considered to be the fair market value of the part or interest to be acquired as part of the whole property, and (2) an amount representing any net damages or benefits to the remaining property.

(g) If there are separately held interests in the real property to be acquired, the Statement shall include an apportionment of the total just compensation for each such interest to be acquired.

(h) If any buildings, structures, fixtures, or other improvements, comprising part of the real property, have been identified as being the property of a tenant notwithstanding the right or obligation to remove them at the expiration of his term, the total just compensation for the real property, including the property of such tenant, shall be apportioned to the land owner and to the tenant so that the amount apportioned to the tenant's improvements to the real propery will be the greater of:

(1) The amount which the tenant's improvements contribute to the fair market value of the real property to be acquired; or

(2) The fair market value of the tenant's improvements for removal from the real property.

An explanation of such apportionment shall be included in the statement.

(i) If the State agency acquires any interest in real property, it shall acquire at least an equal interest in all buildings, structures, fixtures, or other improvements located thereon and which it requires to be removed from the real property or which it determines will be adversely affected by the use to which the real property will be put.

(j) Payment under this section shall not result in duplication of any payments otherwise authorized by law. No such payment shall be made unless the owner of the real property involved disclaims all interest in the improvements of the tenant and the tenant assigns, transfers, and releases to the State agency all his right, title, and interest in and to such improvements. Nothing in this section shall deprive the tenant of the right to reject payment thereunder and to obtain payment of just compensation for his property interest as otherwise provided for by applicable law.

(k) An owner, or his written designee, shall be afforded an opportunity to accompany each appraiser during the inspection of the property.

(l) If the acquisition of any part of the property would leave an owner with an uneconomic remnant, the State agency shall offer to acquire the entire property.

(m) Construction or development of a project shall be so scheduled that no person lawfully occupying real property shall be required to move from a dwelling (assuming a replacement dwelling as required by § 42.120(a) will be available) or to move his business or farm operation, without at least 90 days' written notice from the State agency of the date by which such move is required: *Provided,* That shorter notice may be given

V 38 I 187 SEP 27 73 XUM

where HUD determines that such 90-day notice is impracticable.

(n) If arrangements are made to rent the property to the owner, or his tenant, for a short term, or for a period subject to termination by the State agency on short notice, the rental shall not exceed the lesser of:

(1) The fair rental value of the property to a short-term occupier;

(2) The pro rata portion of the fair rental value for a typical rental period; or

(3) If the owner or his tenant is an occupant of the property as a dwelling, twenty-five (25) percent of his income.

(o) The State agency shall make every reasonable effort to discuss with the owner its offer to purchase his real property, including all relevant terms and conditions. The owner shall be given reasonable opportunity to present material which he believes to be relevant as to the question of value and to suggest modification in the proposed terms and conditions of the purchase, and the State agency shall carefully consider the owner's presentation.

(p) If the evidence presented by an owner or a material change in the character on condition of the property indicates the need for new appraisal evidence, or if a significant delay has occurred since the time of an appraisal, the Agency shall have the appraisal updated or obtain a new appraisal. If a modification in the Agency's determination of just compensation is warranted, an appropriate price adjustment shall be made and the new amount determined to be just compensation shall be promptly offered in writing to the owner.

(q) No owner shall be required to surrender possession of real property before the State agency pays the agreed purchase price, or deposits with the court in which the State agency has instituted a condemnation proceeding for such property, for the benefit of the owner, an amount not less than the fair market value of such property, determined in accordance with paragraph (c) of this section, or the amount of the award of compensation in the condemnation proceeding for such property.

(r) In no event shall the State agency either advance the time of condemnation or defer negotiations or condemnation and the deposit of funds in court for the use of the owner, or take any other action which is coercive or misleading in nature (including the offer of payments under the regulations in this part) in order to compel or induce an agreement on the price to be paid for the property.

(s) If any interest in real property is to be acquired by exercise of the power of eminent domain, the State agency shall institute formal condemnation proceedings. No State agency shall intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his real property.

(t) In any case in which a notice is served by the State agency of its intention to acquire real property, initiation of negotiations shall occur within 90 days of the service of such notice of intention.

### § 42.136 Notice of land acquisition procedures.

(a) At the time the State agency notifies an owner of its intention to acquire the real property, it shall furnish him a written Notice of Land Acquisition Procedures, describing, in nontechnical terms, the State agency's acquisition procedures and the principal rights and options available to such owner.

(b) Such Notice shall include the following:

(1) A description of the basic objectives of the State agency's land acquisition program and a reference to the availability of the State agency's statement covering relocation benefits for which an owner-occupant may be eligible;

(2) A statement that the owner or his representative designated in writing shall be given the opportunity to accompany each appraiser during his inspection of the property;

(3) A statement that if the acquisition of any part of his real property would leave him with an uneconomic remnant, the agency will offer to acquire the entire property;

(4) A statement that if the owner is not satisfied with the State agency's offer of just compensation, he may refuse to accept it and that if he can provide evidence concerning value or damage that warrants a change in the State agency's determination of just compensation, the price will be adjusted accordingly, and that if a voluntary agreement cannot be reached, the State agency will institute a formal condemnation proceeding against the property, depositing in the court the full amount of the State agency's estimate of just compensation;

(5) A statement identifying settlement and related costs that will be paid by the State agency;

(6) A statement that construction or development of a project shall be so scheduled that no person lawfully occupying real property shall be required to move from a dwelling (assuming a replacement dwelling as required by § 42.120(a) will be available) or to move his business or farm operation, without at least 90 days' written notice from the State agency of the date by which such move is required: *Provided*, That shorter notice may be given where HUD determines that such 90-day notice is impracticable.

(7) A statement that if arrangements are made to rent the property to an owner or his tenant for a short term or for a period subject to temination by the Agency on short notice, the rental will not exceed the lesser of:

(i) The fair rental value of the property to a short-term occupier;

(ii) The prorata portion of the fair rental value for a typical rental period; or

(iii) If the owner or his tenant is an occupant of the property as a dwelling, twenty-five (25) percent of his income.

### § 42.137 Notice of State agency's determination not to acquire.

Whenever a State agency which has issued a written notice of its intent to acquire or a firm offer to acquire subsequently determines not to acquire said acquire or a firm offer to acquire said property, the State agency shall serve a written notice on the owner, all persons occupying the property and any other person potentially eligible for relocation payments and assistance. This notice shall state that the State agency has determined not to acquire the property and that any person moving from the premises thereafter will not be eligible for relocation payments and assistance. This notice shall be served no later than 10 days from the date of the State agency's determination not to acquire.

### § 42.140 Payments—expenses incidental to transfer of title.

(a) *General.* The State agency, as soon as practicable after the date of payment of the purchase price or the date of deposit in court of funds to satisfy the award of compensation in a condemnation proceeding to acquire real property, whichever is earlier, shall reimburse the owner, to the extent the State agency deems fair and reasonable, for expenses such owner necessarily incurred for:

(1) Recording fees, transfer taxes, and similar expenses incidental to conveying such real property to the State agency;

(2) Penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering such real property; and

(3) The pro rata portion of real property taxes paid which are allocable to a period subsequent to the date of vesting of title in the State agency, or the effective date of possession of such real property by the State agency, whichever is earlier.

(b) *Documentation in support of a claim.* If real property is acquired by condemnation, a claim for payment under paragraph (a) of this section shall be submitted to the State agency and supported by such documentation as my be required by the State agency. If the real property is acquired by purchase, payment shall be made at settlemay be required by the State agency. If ment of the acquisition and accounted for in the settlement statement, on the basis of such documentation as may be required by the State agency.

(c) *Time for filing claims.* Each such claim shall be submitted to the State agency within a period of six months after the acquisition of the property, the publication of the regulations in this part, or the filing of assurances in accordance with § 42.30, whichever is later.

### § 42.145 Payments—litigation expenses.

(a) *General.* The State agency shall reimburse the owner of any real proprety for the owner's reasonable costs, disbursements, and expenses of litigation, including attorney, appraisal, and

engineering fees, actually incurred because of condemnation proceedings, if:

(1) In a condemnation proceeding instituted by the State agency to acquire such real property for a project, the final judgment of the court having jurisdiction over such proceeding is that the State agency cannot acquire the real property by condemnation; or

(2) Such proceeding is abandoned by the State agency other than pursuant to an agreed-upon settlement of the proposed acquisition of the property by direct purchase; or

(3) A court of competent jurisdiction renders a judgment in favor of the owner as plaintiff in an inverse condemnation proceeding or the State agency effects a settlement of such proceeding.

(b) *Limitations.* No payment under paragraph (a) of this section shall be made unless HUD is satisfied that the costs involved are reasonable and directly and necessarily related to such condemnation proceedings.

(c) *Documentation in support of a claim.* A claim for a payment under paragraph (a) of this section shall be submitted to the State agency and HUD.

(d) *Time for filing claims.* Each claim shall be submitted to the State agency within a period of six months after final judgment in accordance with paragraph (a)(1) or (3) of this section, or the abandonment of a condemnation proceeding by a State agency, whichever is applicable.

### § 42.150 Effect upon property acquisition.

(a) The provisions of this Subpart D create no rights or liabilities and shall not affect the validity of any property acquisitions by purchase or condemnation.

(b) Nothing in these regulations shall be construed as creating in any condemnation proceedings brought under the power of eminent domain any element of value or of damage not in existence immediately prior to January 2, 1971, the date of enactment of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

## Subpart E—Administration

### § 42.155 Purpose.

The purpose of this subpart is to set forth the provisions relating to the overall administration of the regulations in this part.

### § 42.160 Schedules of prices of comparable replacement dwellings.

In order to promote the uniform administration of relocation payments where several federally-assisted projects or programs are causing displacement in a single locality, or in cases in which a State agency otherwise determines that the use of a schedule is desirable, it may, with HUD concurrence, make use of schedules of representative price ranges of comparable replacement dwellings in the locality. Such schedules shall be used for determining the amount of replacement housing payments under §§ 42.90 (a)(1) and (c)(1) and 42.95 (a)(2) and (c)(2) and a separate schedule for determining the amount of payments under §§ 42.95 (a)(1) and (c)(1) of this Part. In all cases in which the State agency is required to do so, it shall submit its schedules for HUD approval. The schedules shall be consistent with the regulations in Subpart C of this Part; shall be kept current; shall, to the maximum extent possible, reflect the costs set forth in schedules used by other State agencies in the locality; and shall be available in written form to all persons in the office of the State agency. If there is an insufficient supply of comparable replacement housing meeting the definition of § 42.20(b), new, rehabilitated or more recently constructed housing, including publicly assisted housing, shall be used in developing the schedules.

### § 42.165 Notice to persons in project area.

The State agency shall furnish, at the earliest possible date, to all persons who own or occupy property within a project area (or the area of the federally-assisted activities) and who are anticipated to be displaced, a notice or information statement advising them of (a) the availability of payments under these regulations to eligible persons, (b) the office where the conditions under which such payments will be made are available for inspection, and (c) the earliest date on which such persons may move and still qualify as a displaced person. The State agency shall take reasonable steps to publicize this information in language(s) and in a fashion most likely to be understood by the persons to be affected, such as by using the local media, posters in public places and other forms of public communication, and (d) such other information as may be prescribed by HUD.

### § 42.166 Manner of Notice.

Any notice required by this Part shall be personally served or sent by certified or registered first-class mail (return receipt requested).

### § 42.170 Review of claims.

The State agency is initially responsible for determining the eligibility of a claim for, and the amount of, any payment under the regulations in this part and shall maintain in its files complete and proper documentation supporting the determination. The determination on each claim shall be made or approved either by the governing body of the agency or by the principal executive officer of the agency or his duly authorized designee.

### § 42.175 Prompt payment.

A payment shall be made by the State agency as promptly as possible after a person's eligibility has been determined in accordance with the regulations in this part.

### § 42.180 Agency setoff against claim.

The State agency may set off against the claim of an otherwise eligible person any financial claim the agency may have against the person arising out of the use of the real property, subject to the qualification set forth below. Before taking any setoff action, the State agency shall notify the displaced person of its intention to setoff the claim and shall advise the person that he may within 30 days file a statement denying or disputing the claim. If such statement is filed by the person, the State agency may tentatively set off the claim if it institutes within 30 days and diligently prosecutes a judicial action to obtain a judgment for the claim. Once the State agency obtains a judgment for the claim, the setoff will be deemed final. If judicial proceedings are instituted and the State agency is denied a judgment or if the State agency does not institute and prosecute proceedings as set forth above, the State agency shall pay the full amount of the relocation claim if otherwise eligible. The cost of removal of personal property shall not be considered as an offsetting charge against the claim of an otherwise eligible person.

### § 42.185 Accounts and records.

Accounts and records shall be subject to inspection or audit at all reasonable times by HUD. Records pertaining to eligibility for payments, including all claims, receipted bills, or other documentation in support of a claim, and records pertaining to action on a claim, shall be retained by the State agency for not less than 3 years after the completion of the project. Timely and complete reports shall be submitted in accordance with HUD requirements.

### § 42.190 Payments not to be considered as income.

No payment received under these regulations by a displaced person shall be considered as income for the purposes of the Internal Revenue Code of 1954; or for the purposes of determining the eligibility or the extent of eligibility of any person for assistance under the Social Security Act or any other Federal law.

### § 42.195 Displacement in connection with more than one project.

No person shall be entitled to more than one payment under each of §§ 42.65–42.95 and §§ 42.140 and 42.145 on account of a single displacement or a single acquisition, notwithstanding that the displacement or acquisition is in connection with more than one Federal or federally assisted project.

### § 42.200 Policies and requirements of HUD.

All determinations or other actions by the State agency provided for under the regulations in this part shall be undertaken in accordance with the policies and requirements of HUD as issued from time to time.

### § 42.205 Waivers.

A waiver of any section of these regulations not required by law, may be

V 38 187 SEP 27 73 XUM

authorized only with respect to a particular claim and by the Secretary of Housing and Urban Development or his authorized designee after such claim has been reviewed by HUD: *Provided*, That the limitations provided in § 42.60 with respect to the time of filing of claims may be waived by the State agency for good cause.

APPENDIX A.—*Example of computation of payment for increased interest cost under § 42.90(c)(2)*[3]

| | |
|---|---|
| Dwelling to be acquired: | |
| Acquisition price | $12,000.00 |
| Existing mortgage: | |
| Interest rate (percent) | 6 |
| Remaining term (years) | 10 |
| Remaining principal balance | $7,295.93 |
| Monthly principal and interest payment | $81.02 |
| Owner's equity | $4,704.07 |
| Available comparable decent, safe, and sanitary dwelling: | |
| Price | $15,000.00 |
| Prevailing interest rate (percent) | 8 |
| Supplemental payment for replacement housing cost differential | $3,000.00 |
| Payment for increased interest cost | $700.00 |
| Computation of payment for increased interest cost: | |
| Monthly principal and interest cost for new mortgage of $7,295.93 for 10 years at 8 percent interest | $88.57 |
| Monthly principal and interest cost for existing mortgage of $7,295.93—for 10 years at 6 percent interest | $81.02 |
| Monthly interest difference | $7.55 |
| Present worth of $7.55 monthly interest difference for 10 years, discounted at the assumed interest rate paid on savings deposits, at 5 percent | $700.00 |
| Increased interest cost payment due property owner | $700.00 |

[3] The example of computation of payment for increased interest cost set out above appears on p. 10 of H. Rept. No. 91-1656, 91st Cong., 2d sess. (Report of the Committee on Public Works, House of Representatives accompanying S. 1, the proposed Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970).

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

### [ 33 CFR Part 117 ]

[CGD 73-214P]

### DRAWBRIDGES ACROSS NAVIGABLE WATERS IN LOUISIANA

### Notice of Proposed Rulemaking

The Coast Guard is considering amending the regulations for 31 highway drawbridges in Louisiana to allow closed periods from 9 p.m. to 5 a.m., however, the draws would open during this period if at least 12 hours notice is given. This is being considered because of limited openings during this period. All of these bridges are presently required to open on signal.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander (oan), Eighth Coast Guard District, Customhouse, New Orleans, Louisiana, 70130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons to the office of the Commander, Eighth Coast Guard District.

The Commander, Eighth Coast Guard District, will forward any comments received before October 30, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new § 117.545 immediately after § 117.540 to read as follows:

**§ 117.545 Bridges in Louisiana where constant attendance is not required.**

(a) The following bridges shall open on signal from 5 a.m. to 9 p.m.

U.S. 90 drawbridge, West Penn River, mile 7.9.
S-433 drawbridge, Liberty Bayou, mile 2.0.
S-433 drawbridge, Bonfouca Bayou, mile 7.0.
S-22 drawbridge, Amite River, mile 6.0.
U.S. 90 drawbridge, Houma Canal, mile 1.7.
S-631 drawbridge, Des Allemands Bayou mile 13.9.
S-58 drawbridge, Little (Petit) Caillou Bayou, mile 25.7.
S-24 drawbridge, Little (Petit) Caillou Bayou, mile 33.7.
S-3087 drawbridge, Terrebonne Bayou, mile 33.9.
U.S. 90 drawbridge, Lafourche Bayou, mile 58.2.
S-829-18 drawbridge, Vermilion River, mile 22.4.
S-14 drawbridge, Vermilion River, mile 25.4.
S-14 drawbridge, Vermilion River, mile 26.0.
S-92 drawbridge, Vermilion River, mile 37.6.
S-733 drawbridge, Vermilion River, mile 41.6.
S 3073 drawbridge, Vermilion River, mile 44.9.
S-3069 drawbridge, Teche Bayou, mile 1.72.
S-322 drawbridge, Teche Bayou, mile 19.8.
S-323 drawbridge, Teche Bayou, mile 22.3.
S-324 drawbridge, Teche Bayou, mile 32.5.
S-670 drawbridge, Teche Bayou, mile 37.0.
S-671 drawbridge, Teche Bayou, mile 41.8.
S-320 drawbridge, Teche Bayou, mile 48.7.
S-344 drawbridge, Teche Bayou, mile 62.5.
S-86 drawbridge, Teche Bayou, mile 69.0.
S-96 drawbridge, Teche Bayou, mile 75.2.
S-350 drawbridge, Teche Bayou, mile 82.0.
S-330 drawbridge, Tigre Bayou, mile 2.3.
S-82 drawbridge, Superior Oil Co. Canal.
S-83 drawbridge, Patout Bayou, mile 0.4.

(b) From 9 p.m. to 5 a.m. the draws of the bridges listed in paragraph (a) shall open on signal if at least 12 hours notice is given, however, constant attendance is not required from 9 p.m. to 5 a.m.

(c) In all other respects, the regulations contained in § 117.240 of this part shall govern the operation of these bridges.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)) 49(c)(5), 33 CFR.)

Dated September 19, 1973.

W. M. BENKERT,
*Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.*

[FR Doc.73-20584 Filed 9-26-73;8:45 am]

### [ 46 CFR Part 160 ]

[CGD 73-160P]

### INFLATABLE LIFERAFTS

### Notice of Proposed Rulemaking

The Coast Guard is considering amending the specifications for inflatable liferafts by outlining more explicitly the conditions under which they are tested to verify their inflation capability after exposure to various temperatures.

Interested persons may submit written data, views, or arguments concerning this notice to the Commandant (G-CMC/82), U.S. Coast Guard, Washington, D.C. 20590. Written comments should include the docket number of this notice (CGD 73-160), the name and address of the person submitting the comments, the section number of the proposal to which the comment is addressed, any specific wording recommended, and the reason for any recommended change.

Comments received on or before October 31, 1973, will be fully considered and evaluated before final action is taken on this proposal. Copies of all written communications received will be available for examination in Room 8234, Commandant (G-CMC/82), U.S. Coast Guard, Washington, D.C. both before and after the closing date for the receipt of comments. The proposal contained in this document may be changed in the light of the comments received. However, it is anticipated that the effective date of the final rule will be 1 July 1974.

For the past three years, the Coast Guard has been investigating the performance of marine liferafts at low temperatures. The investigation was initiated as part of a review of the in-service performance of liferafts and other lifesaving appliances. In anticipation of more service in cold regions together with consideration of proposals under study by the Intergovernmental Maritime Consultative Organization and several vessel operators and designers to fit only liferafts on vessels as primary lifesaving appliances, performance of the rafts at low temperatures was simulated in laboratory climatic chambers. These tests also were used to measure performance against the results of SOLAS 1960 for inflation at −22°F.

The first series of tests conducted by the Coast Guard in December 1970 offerred the following conclusions:

1. The effect of low temperature on the inflation of a $CO_2$ raft begins at a level between 15°F and 0°F.

2. The rafts presently approved will have to be altered if they are to fully comply with the intent of SOLAS 1960 or be used in polar regions.

A second series of tests conducted by the Coast Guard in March 1973 supplemented the above as follows:

1. For the rafts tested, the present inflation cylinder gas quantities and ratios are inadequate to achieve a satisfactory inflation at −22°F.

2. It is technically and economically feasible to achieve raft design shape in a period of 3 minutes by modifying existing installed raft cylinders.

3. The present accepted 24-hour period for the low temperature exposure of a raft is not sufficient in all cases. Either this period should be extended or thermocouples employed to achieve at the interior of a raft the −22°F temperature required in the SOLAS convention.

In view of the intended usage of liferafts and the results of the tests conducted by the U.S. Coast Guard, it is proposed to amend Subchapter Q, specifications, of Title 46, Code of Federal Regulations as follows:

1. Section 160.051-5(c)(4) is amended by revising the sixth sentence which follows the sentence ending with the words "required to be fully erect" and § 160.051-5 is amended by revising subparagraph (e)(11) to read as follows:

**§ 160.051-5 Inspections and tests.**

* * * * * * *

(c) * * *

(4) *Inflation Test.* * * * required to be fully erect. The specimen shall reach its designed working pressure with the canopy fully erect in not more than 1 minute 30 seconds after the first carbon dioxide inflation valve is operated, * * *

* * * * * * *

(e) * * *

(11) *Temperature Exposure.* (i) *General.* The packed raft must be exposed in a test chamber to a temperature of −22° F, inflated and then repacked and exposed to a temperature of 150° F and inflated.

(ii) *Procedure.* (*a*) Thermocouples or similar instrumentation must be located at the inflation cylinders and at the center of the packed raft. (*b*) The packed raft must remain exposed in the chamber until the test temperature has been reached. (*c*) Inflation must take place in the test chamber. However, for elevated temperature test, raft may be removed from chamber if inflation begins within one minute of its removal.

(iii) *Results.* (*a*) The raft must achieve design shape with its canopy erect within three minutes after exposure to the low temperature. (*b*) The raft fabric may not show signs of cracking, tackiness, or slipping seams and must be in all respects ready for use after exposure to the elevated temperature.

* * * * * * *

(46 U.S.C. 375, 416, 49 U.S.C. 1655(b)); 49 CFR 1.4(b) and 1.46(b).)

D. H. CLIFTON,
*Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.*

## Federal Aviation Administration

### [ 14 CFR Parts 25, 121 ]

[Docket No. 10460; Reference Notice 72-7]

### PILOT COMPARTMENT SECURITY: LARGE TURBOJET POWERED PASSENGER-CARRYING AIRPLANES

### Withdrawal of Notice of Proposed Rule Making

The purpose of this notice is to withdraw Notice 72-7, published in the FEDERAL REGISTER on March 17, 1972 (37 FR 5638), in which the FAA solicited comments on proposed amendments of Parts 25 and 121 of the Federal Aviation Regulations that would prescribe requirements to improve the security of the pilot compartment on all large turbojet powered passenger-carrying airplanes operated under Part 121. The FAA received nine comments favoring adoption of the proposed regulations and 20 comments in opposition to the proposal.

A number of the commentators supporting the proposals did so simply for the reason that they believe anything should be done that might possibly stop hijacking. Several airline captains indicated that they would like the added protection offered by the proposed regulations.

The Air Line Pilots Association (ALPA) stated that the proposals, with minor changes, would completely satisfy its requirements. The ALPA contended that, if the crew were able to communicate with a hijacker from a secure position, it might be able to dissuade him from completing the crime, but if it were unable to do so, it could comply with the hijacker's transportation demands more safely without him in the cockpit. It also expressed the view that the bulletproofing of the crew compartment would offer protection from the possibility of gunfire in the passenger cabin.

In general, the comments in opposition to the proposals asserted that the proposed changes in the crew compartment would not have prevented past aircraft hijackings, and, therefore, will not prevent or deter hijacking in the future. Most of these commentators were of the opinion that the only way to prevent aircraft hijacking is to keep the hijacker and his weapon off the airplane.

The Air Transport Association (ATA) in its comment asserted that the proposed requirements would not result in any improvement in inflight security, since hostages could continue to be used to gain entry to the crew compartment. The ATA expressed the view that any slight miscalculation on the part of the flight crew in attempting negotiation from a secured position could trigger violence; and that the risk of a hijacker firing into an unsecured crew compartment is minimal, since the hijacker needs the pilots to fly him to his destination. In the opinion of the ATA and other commentators, the proposed improvements in the physical security of the crew compartment would lead to more extensive use of explosives to threaten the crew. The ATA also believes that it would naturally tend to discourage desirable face-to-face negotiation between the flight crew and the hijacker.

A physician who commented on the proposed requirements expressed the view of several commentators that setting up obstacles in the path of a mentally incompetent individual, who is obsessed with a need to commit an act such as hijacking, may only make him modify his approach and increase his desperation, and that turning the crew compartment into a fortress may only serve as a challenge to certain mentally unbalanced individuals.

In light of the comments received and considering the various hijacking schemes used to date, it does not appear that a bulletproof crew compartment would make it possible to force a hijacker to remain in the passenger compartment while he is negotiating with the flight crew. Furthermore, the FAA believes that the possibility of injury or death to a hostage will cause most flight crewmembers to admit the hijacker to the crew compartment.

The FAA agrees with those commentators who believe that the greatest effort should be concentrated on apprehending any person intent on interfering with the operation of an airplane before he boards that airplane. Since the issuance of Notice 72-7, the FAA has amended the security programs of all Part 121 certificate holders subject to § 121.538 to provide that no such certificate holder may permit any passenger to board its aircraft unless all carry-on baggage items are inspected to detect weapons, explosives, or other dangerous objects, and each passenger is cleared by a detection device without indication of unaccounted-for metal on his person, or, in the absence of a detector, each passenger has submitted to a consent search prior to boarding. In addition, the FAA has amended Part 107 of the Federal Aviation Regulations to require that each airport operator subject to Part 107 amend its master security plan to provide for the presence of at least one law enforcement officer at the point of, and prior to and throughout, the final passenger screening process prior to boarding, for each flight conducted by a certificate holder required to have a security program under § 121.538 and by each foreign carrier that requests such law enforcement support.

By reason of the foregoing, the FAA has determined that further rule-making action on the proposed amendments is not appropriate at the present time, and that Notice 72-7 should be withdrawn. The withdrawal of this notice, however,

V 38-187 SEP 27 73 XUM

does not preclude the FAA from issuing similar notices in the future or commit the FAA to any course of action.

In consideration of the foregoing, the notice of proposed rulemaking published in the FEDERAL REGISTER on March 17, 1972 (37 FR 5638) and circulated as Notice 72-7, entitled "Pilot Compartment Security: Large Turbojet Powered Passenger-Carrying Airplanes" is hereby withdrawn.

(Sections 313(a), 601, 603, 604, and 605 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423, 1424, and 1425,) sec. 6(c). Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 13, 1973.

JAMES F. RANDOLPH,
*Director,*
*Flight Standards Service.*

[FR Doc.73-20596 Filed 9-26-73;8:45 am]

## [ 14 CFR Part 71 ]

[Airspace Docket No. 73-AL-10]

## SITKA, ALASKA CONTROL ZONE AND TRANSITION AREA

### Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Sitka, Alaska, Control Zone and Transition Area to comply with U.S. Standard for Terminal Instrument Procedures (TERPs) and revised criteria for establishment of terminal controlled airspace.

The proposed alteration would increase the length of the control zone northwest extension from 10 miles to 14 miles and the width from two miles to 2.5 miles each side of the localizer northwest course. The 700-foot transition area northwest extension would be redefined as within 2.5 miles each side of the localizer northwest course, extending from 14 miles to 22 miles northwest of the localizer. Additionally redefined coordinates of the Airport Reference Point (ARP) and minor editorial changes are contained in this docket.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before October 29, 1973, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW, Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting State, derived from ICAO, wherein air traffic services are provided and also whenever a contracting State accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting State accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting State, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

In consideration of the foregoing, it is proposed that Part 71 of the Federal Aviation Regulations be amended as hereinafter set forth:

1. In § 71.171 (38 FR 351) the Sitka, Alaska, Control Zone would be amended to read as follows:

SITKA, ALASKA

Within a 5-mile radius of the Sitka Airport (Lat. 57°02'55" N., Long. 135°21'45" W.); within 2 miles each side of the Biorka Island VORTAC 029°T (001°M) and 209°T (181°M) radials, extending from the 5-mile radius zone to 2 miles southwest of the VORTAC; within 2 miles each side of the Sitka RBN 027°T (359°M) and 207°T (179°M) bearings, extending from the 5-mile radius zone to 2 miles southwest of the RBN; and within 2.5 miles each side of the localizer northwest course, extending from the 5-mile radius zone to 14 miles northwest of the localizer.

2. In § 71.181 (38 FR 435) the Sitka, Alaska, 700-foot transition area would be amended to read as follows:

SITKA, ALASKA

That airspace extending upward from 700 feet above the surface within 3 miles northwest and 2 miles southeast of the Sitka RBN 207°T (179°M) bearing, extending from the RBN to 8 miles southwest of the RBN; within 2 miles each side of the Biorka Island VORTAC 148°T (120°M) radial, extending from the VORTAC to 8 miles southeast of the VORTAC; within 2 miles each side of the Sitka RBN 147°T (119°M) bearing, extending from the RBN to 8 miles southeast of the RBN; and within 2.5 miles each side of the localizer northwest course, extending from 14 miles northwest to 22 miles northwest of the localizer.

The 1,200-foot portion of the transition area would remain unchanged.

(Sec. 307(a), 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on September 19, 1973.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and Air Traffic Rules Division.*

[FR Doc.73-20597 Filed 9-26-73;8:45 am]

## National Highway Traffic Safety Administration

## [ 49 CFR Part 571 ]

[Docket No. 1-18; Notice 10]

## CONTROLS AND DISPLAYS

### Motor Vehicle Safety Standards

This notice proposes an amendment of Motor Vehicle Safety Standard No. 101 that would add certain foot-operated controls to those presently required to be operable by a restrained driver, and requirements for location, identification, and illumination of certain motor vehicle displays. The proposed effective date is September 1, 1975.

Properly located, effectively identified, and correctly illuminated controls and displays can reduce the amount of time a driver must divert his attention from the road, and increase his effectiveness as a safe vehicle operator. Standard No. 101 currently requires a number of hand-operated controls, if provided, to be operable by a driver restrained by belts provided in accordance with Standard No. 208. The NHTSA has tentatively decided that foot-operated controls should be added to this location requirement. They are: service brake, accelerator, clutch pedal, high beam switch, and windshield washer control.

Certain displays, if provided, should also be observable by a restrained driver, and not obscured by the steering wheel. They are: speedometer, odometer, turn signal indicator, gear position indicator, brake failure warning indicator, coolant temperature indicator, oil pressure indicator, high beam indicator, and electrical charge indicator. All these displays (except the turn signal indicator and high beam indicator, whose function is evident) should be identified in a consistent, simple manner, and the notice proposes such identification.

Displays should also be illuminated, and the NHTSA is proposing green for inside-mounted turn signal indicators and blue for high beam indicators. If lights are used instead of gauges, the color red would be used for any light indicating a hazard requiring immediate corrective action, such as a brake failure warning. The color yellow would be used for any light indicating a possible need for future corrective action, such as the initial warning of a low fuel level, if an early warning feature is incorporated in the system. Finally, green would be used for any light indicating information unrelated to any need for corrective action, such as the gear position indicator. If illumination of controls and displays not listed in the standard is provided, it should be variable in intensity in the same manner as that required by the standard.

The permissible symbols for headlamps and taillamps, and windshield wiping system would be modified slightly, to conform to those adopted by the International Standards Organization. Two new ISO symbols would also be adopted, those for a combination wipe-wash system and for the heating and air conditioning system fan control.

The proposed standard also incorporates interpretations previously published in a preamble to amendments, relating to appearance of identification to the driver, and color coding of heating and air conditioning controls (36 FR 8296).

In consideration of the foregoing, it is proposed that 49 CFR 571.101, Motor Vehicle Safety Standard No. 101 be amended as set forth below.

Interested persons are invited to submit written data, views, and arguments on this proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted. All comments received on or before the closing date indicated below will be considered and will be available in room 5221 for examination both before and after the closing date. To the extent possible comments filed after the closing date will be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The National Highway Traffic Safety Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

Comment closing date: November 26, 1973.

Proposed effective date: September 1, 1975.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 718, (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 501.8 and 1.51.)

Issued on September 20, 1973.

ROBERT L. CARTER,
*Associate Administrator,*
*Motor Vehicle Programs.*

### § 571.101 Standard No. 101: controls and displays. (Effective September 1, 1974).

S1. *Scope.* This standard specifies requirements for the location, identification, and illumination of motor vehicle controls and displays.

S2. *Purpose.* The purpose of this standard is to insure the accessibility of motor vehicle controls and displays and to facilitate their selection under daylight and nighttime conditions, in order to reduce the safety hazards caused by the diversion of the driver's attention from the driving task.

S3. *Application.* This standard applies to passenger cars, multipurpose passenger vehicles, trucks, and buses.

S4. *Requirements.* Each passenger car, multipurpose passenger vehicle, truck, and bus manufactured with any control listed in S4.1 or Column 1 of Table 1, or any display listed in S4.1 or Column 1 of Table 2, shall meet the requirements of this standard for the location, identification, and illumination of such control or display.

S4.1 *Location of controls and displays.* Each of the following hand-operated and foot-operated controls shall be operable, and each of the following displays shall be visible, under the conditions of S5, by the driver:

HAND-OPERATED CONTROLS

(a) Steering wheel.
(b) Horn control.
(c) Transmission shift lever, except transfer case.
(d) Ignition switch.
(e) Headlamp switch.
(f) Turn signal control.
(g) Illumination intensity control.
(h) Windshield wiper control.
(i) Windshield washer control.
(j) Manual choke.
(k) Driver's sun visor.

FOOT-OPERATED CONTROLS

(a) Service brake.
(b) Accelerator.
(c) Clutch pedal.
(d) High beam switch.
(e) Windshield washer control.

DISPLAYS

(a) Speedometer.
(b) Odometer.
(c) Turn signal indicator.
(d) Gear position indicator.
(e) Brake failure warning indicator.
(f) Fuel level indicator.
(g) Coolant temperature indicator.
(h) Oil pressure indicator.
(i) High beam indicator.
(j) Electrical charge indicator.

S4.2 *Identification of controls and displays.*

S4.2.1 If any control listed in Column 1 of Table 1 is hand-operated, the control shall be identified as a minimum by the word or abbreviation specified in Column 2. A control may, in addition, be identified by a symbol, but only a symbol shown in Column 3 shall be used. However, if the word "None" appears in Column 3, no symbol shall be provided. Identification shall be placed on or adjacent to the control, visible to the driver and shall appear to the driver in a perceptually upright position.

S4.2.2 Identification shall be provided for each function of any automatic vehicle speed system control and any heating and air conditioning system control, and for the extreme positions of any such control that regulates a function over a quantitative range. Color coding may be used as an aid to identification, e.g., red for hot, blue for cold.

*Example 1.* A slide level controls the temperature of the air in the vehicle heating system over a continuous range, from no heat to maximum heat. Since the control regulates a single function over a quantitative range, only the extreme positions require identification.

*Example 2.* A switch has three positions, for heat, defrost, and air conditioning. Since each position regulates a different function, each position must be identified.

S4.2.3 Any display listed in Column 1 of Table 2 shall be identified, as a minimum, by the word or abbreviation specified in Column 2. However, if the word "None" appears in Column 2, no word or abbreviation shall be provided. Identification shall be placed on or adjacent to the display, visible to the driver and shall appear perceptually upright.

S4.3 *Illumination of controls and displays.*

S4.3.1 Except for foot-operated controls or hand-operated controls mounted upon the floor, the steering column, or in the windshield header area, the identification of any control listed in Column 1 of Table 1, and accompanied by the word "Yes" in the corresponding space in Column 4, and any display listed in Column 1 of Table 2 shall be illuminated whenever the headlamps are activiated. The illumination color shall be green for an inside-mounted turn signal indicator, and blue for the high beam indicator. Control and display identification need not be illuminated when the headlamps are being flashed. Control identification for a heating and air-conditioning system need not be illuminated if the system does not direct air directly upon the windshield.

S4.3.2 If a light is provided instead of a gauge to indicate whether a vehicle system is functioning or malfunctioning, the color red shall be used for any light indicating a hazard requiring immediate corrective action, the color yellow for any light indicating a possible need for future corrective action, and the color green for any light, other than a high beam indicator, indicating information unrelated to any need for corrective action.

S4.3.3 A control shall be provided to adjust the intensity of control and display illumination continuously variable from a position at which either there is

V 38 I 187 SEP 27 73 XUM

no light emitted or the light emitted is barely discernible to a driver who has adapted to dark ambient roadway conditions, to a position providing illumination sufficient for the driver to identify the control or display readily under all daytime and nighttime conditions. If illumination of controls and displays not listed in paragraph S4.1 is provided, its intensity shall be variable in a manner that complies with this paragraph. The light intensity of the turn signal indicator, high beam indicator, and warning or caution lights shall not be variable.

S5. *Conditions.*

S5.1 Except as provided in S5.2, the driver is restrained by a nonextending Type 1 seat belt assembly fastened so that there is no slack between the belt and the pelvis.

S5.2 The driver of a passenger car (except for a convertible passenger car), or of any multipurpose passenger vehicle, truck, or bus required by Motor Vehicle Safety Standard No. 208 to have a Type 2 seat belt assembly installed at the driver's seating position, is restrained by a nonextending Type 2 seat belt assembly fastened so that the upper torso restraint can be moved 4 inches away from the sternum and there is no slack between the lap belt and the pelvis.

TABLE 1.—*Identification and illumination of hand operated controls*

| Column 1 | Column 2 | Column 3 | Column 4 |
|---|---|---|---|
| Motor vehicle equipment control | Word or abbreviation | Permissible symbol. | Illumination. |
| Engine start | Engine start [1] | None | |
| Engine stop | Engine stop [1] | None | Yes.[1] |
| Manual choke | Choke | None | |
| Hand throttle | Throttle | None | |
| Automatic vehicle speed control | (Mfr. option) | None | Yes. |
| Headlamps and taillamps | Lights [2] |  [4] | |
| Vehicular hazard warning signal | Hazard |  [4] | Yes. |
| Clearance lamps | Clearance lamps [3] or CL LPS |  | Yes. |
| Identification lamps | Identification lamps or ID LPS | None | Yes. |
| Windshield wiping system | Wiper or wipe |  | Yes. |
| Windshield washing system | Washer or Wash |  | Yes. |
| Windshield washing and wiping combined | Wash-Wipe |  | Yes. |
| Windshield defrosting and defogging system | Defrost or DEF | None | Yes. |
| Heating and air conditioning system | (Mfr. option) | None | Yes. |
| Heating and/or air conditioning fan | Fan |  | Yes. |

[1] Use when engine control is separate from the key locking system.
[2] Use also when clearance, identification, parking and/or side marker lamps are controlled with the headlamp switch.
[3] Use also when clearance lamps, identification lamps and/or side marker lamps are controlled with one switch other than the headlamp switch.
[4] Framed areas may be filled.

TABLE 2.—*Display identification*

| *Column 1.—Motor vehicle display* | *Column 2.—Word or abbreviation* |
|---|---|
| Speedometer | MPH. |
| Odometer | Miles. |
| Turn signal indicator | (None). |
| Automatic gear position indicator | PRND (+ numerals to indicate additional forward gear points, e.g. 2, 1). |
| Brake failure warning light | Brake. |
| Fuel level indicator | Fuel. |
| Coolant temperature indicator | Temp. |
| Oil pressure indicator | Oil. |
| High beam indicator | (None). |
| Electrical charge indicator | Amp. |

## FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Part 97 ]

[Docket No. 19759]

### CITIZENS RADIO SERVICE

**Proposed Creation of New Class and Reallocation of Frequencies; Extension of Time for Filing Comments**

In the matter of the creation of a new class of Citizens Radio Service and the reallocation of frequencies between 224 MHz and 225 MHz in the band 220–225 MHz now allocated for shared use by stations in the Amateur Radio Service and Government Radiolocation Stations for that purpose, Docket No. 19759, RM-1633, RM-1656, RM-1747, RM-1761, RM-1793, RM-1841.[1]

1. The Acting Chief, Safety and Special Radio Services Bureau on his own motion has under consideration a 30 day extension of the time in which to file comments and reply comments in Docket 19759.

2. The Commission on September 19, 1973, denied the American Radio Relay Leagues (ARRL) application for review filed in response to our denial of their petition for an extension of time in which to file comments. While we still find that a five month extension is unreasonable, we believe that a 30 day extension has become appropriate for the convenience of the parties who may wish to file comments. We note in this regard the inordinate delay in the release of the Order denying the EIA petition for an extension of time. Further, we note in regard to reply comments, that renovation of the Commission's public reference room potentially may create some difficulties for interested parties desiring to obtain and study the comments filed in this Docket. The date set for reply comments herein should alleviate any possible problem if interested parties promptly begin to examine the comments already on file in this Docket. Accordingly, we are ordering a 30 day extension for the filing of both original and reply comments.

3. *It is therefore ordered*, Pursuant to § 0.331(b)(4) of the Commission's rules, that the time for filing comments and reply comments in the above captioned proceeding is extended to October 19, 1973, and to November 23, 1973, respectively.

Adopted: September 19, 1973.

Released: September 20, 1973.

[SEAL] CHARLES A. HIGGINBOTHAM,
*Acting Chief, Safety and Special Radio Services Bureau.*

[FR Doc.73-20646 Filed 9-26-73;8:45 am]

[1] Published at 38 FR 15854, June 18, 1973.

## FEDERAL MARITIME COMMISSION

[ 46 CFR Ch. IV ]

### INTERMODAL CONTAINER TRANSPORT SERVICES

**Notice of Petition for Rulemaking**

On September 12, 1973, American Mail Line Ltd. and American President Lines, Ltd. petitioned the Commission for institution of a proposed rulemaking proceeding "in respect of intermodal service and tariffs." The petition was served on a large number of counsel for varying interested parties.

The Commission has determined to receive replies to the petition. Accordingly, replies may be filed on or before October 8, 1973.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
*Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[ 17 CFR Part 240 ]

[Release No. 34-10397; File No. S7-473]

### EXCHANGE TRANSACTIONS IN OPTIONS

**Request for Comments on the Chicago Board Options Exchange, Inc. Plan**

The Securities and Exchange Commission announced today the republication for comment of proposed Rule 9b-1 (17 CFR 240.9b-1) under the Securities Exchange Act of 1934 (the Act). As revised, the proposed rule would prohibit exchange transactions in puts, calls, straddles, and other options or privileges of buying or selling a security except in accordance with a plan established by the exchange that the Commission had declared to be effective as being necessary or appropriate in the public interest or for the protection of investors.

Proposed Rule 9b-1 (17 CFR 240.9b-1), in its original form, was released for public comment on January 9, 1973.[1] In view of the comments received by the Commission, the rule has been revised, primarily for purposes of simplicity and clarity. Following is a description of the revised proposal.

Rule 9b-1 (17 CFR 240.9b-1) would make it unlawful for an exchange to effect any transactions in options or to permit its facilities to be used to effect such transactions except in accordance with a plan regulating option trading declared effective by the Commission after consideration of such a plan in light of the statutory standards: The public interest and the protection of investors. The proposed rule also provides that the Commission, in order to implement these statutory standards, may require the exchanges to make changes in their plans. Pursuant to the rule, exchanges proposing to use their facilities for trading options would be required to file with the Commission copies of any amendments to the plan. The Commission would review and, if appropriate, disapprove such amendments prior to their becoming effective. In each of these situations—original approval of the plan and modification at the initiation of either the exchange or the Commission—interested persons, in accordance with the explicit rulemaking procedures of the Administrative Procedure Act, as codified, 5 U.S.C. 553, would be given notice of the proposal and have an opportunity to submit written data, views or arguments. Plans filed by exchanges pursuant to Rule 9b-1 would be required to include all rules, regulations, by-laws and other requirements of the exchange that relate solely or significantly to transactions in options, and would have to contain specific provisions relating to:

(1) The effectuation of transactions in options on the exchange by members thereof for their own account and the accounts of customers;

(2) The clearance and settlement of transactions in options;

(3) The endorsement and guarantee of performance of options;

(4) The reporting of transactions in options; and

(5) The listing and delisting of and the admission to and removal of trading privileges on the exchange for options.

As orignally proposed, Rule 9b-1 would have regulated the rules of an exchange relating to options indirectly by making it unlawful for members to trade on the exchange if the exchange had failed to comply with the provisions of the Rule. Rule 9b-1 as now proposed, would be applicable to exchanges, which would have to comply with specific requirements of the rule, as well as to the exchange's members. Rule 9b-1, as originally proposed, did not distinguish between exchange provisions of general applicability and provisions relating particularly to option trading. Rule 9b-1 as now proposed, would limit the scope of the plan exchanges must file with the Commission and have declared effective to those provisions of exchange rules that relate solely or significantly to transactions in options and lists various specific categories of exchange provisions to be included in a plan.

By proposing revised Rule 9b-1, the Commission does not wish to imply that it has made any definitive determination with respect to option trading on exchanges or that the rule, if adopted, will ultimately be found to be necessarily the best way to promote the public interest or to assure the protection of investors in connection with trading of options on exchanges. Nor has the Commission made any final decision with respect to the trading of options simultaneously on more than one exchange or on exchanges that also trade other forms of securities. The operation of the Chicago Board Options Exchange (CBOE) is presently on a pilot basis [2] and further evaluation will be required before these and other policy questions can be decided more definitively.

The Commission considers that the constitution and rules of the CBOE and its clearing corporation would constitute the CBOE's plan pursuant to Rule 9b-1, if adopted. In connection with the registration of the CBOE as a national securities exchange the Commission sought and obtained public comment on substantially the same constitution and rules as are now in effect and gave careful consideration to those comments before concluding that the rules of the exchange are just and adequate to insure fair dealing and to protect investors under section 6(d) of the Act, 15 U.S.C. 78f(d).[3] And the amendments adopted since that time have also been given close scrutiny. Accordingly, the Commission expects to be able to determine that the constitution and rules of the CBOE are necessary or appropriate in the public interest or for the protection of investors, as required by proposed Rule 9b-1 if adopted. If the Commission were to adopt Rule 9b-1, it would hope to be able to declare CBOE's plan effective simultaneously with the effectiveness of the rule, so as not to interrupt the operation of CBOE's experimental project. Interested persons are invited to submit their views and comments on whether this determination should be made.

*Statutory basis.* The Securities and Exchange Commission acting pursuant to the provisions of the Securities Exchange Act of 1934, and particularly sections 9(b), 9(c), and 23(a) thereof, and deeming it necessary and appropriate in the public interest and for the protection of investors proposes hereby to amend Part 240 of Chapter II of Title 17 of the Code of Federal Regulations by adopting § 240.9b-1 as set forth below.

**§ 240.9b-1 Prohibition of exchange transactions in options except pursuant to an effective plan.**

(a) It shall be unlawful for a national securities exchange, or for any member

V 38-187 SEP 27 73 XUM

thereof, to effect any transaction in an option, or to permit any transaction in an option to be effected, by the use of the facilities of the exchange, except in accordance with a plan regulating transactions in options on the exchange that is declared effective by the Commission pursuant to this rule.

(1) Before an exchange or a member may effect any transaction in options or permit any transaction in options to be effected by use of the facilities of the exchange, the exchange shall propose and file with the Commission a plan regulating transactions in options on the exchange. After appropriate notice and opportunity for interested persons to submit written data, views or arguments, the Commission shall declare the plan effective if it finds the plan to be necessary or appropriate in the public interest or for the protection of investors.

(2) The Commission shall give prompt notice of any proposal filed by an exchange to alter, amend, supplement, or rescind a plan in effect pursuant to paragraph (a)(1) of this section, and the proposed change shall become effective upon the 30th day after notice has been given by the Commission, or upon such earlier date as the Commission may allow, unless the Commission shall disapprove the change in whole or in part as being inconsistent with the public interest or the protection of investors. Interested persons may submit to the Commission written data, views or arguments with respect to any proposed change either before or after it has become effective.

(3) After appropriate notice and opportunity for submission by interested persons of written data, views or arguments, the Commission may require that an exchange alter, amend, supplement, or rescind its plan in the manner and to the extent that the Commission finds to be necessary or appropriate in the public interest or for the protection of investors.

(4) The Commission may take action under any provision of this paragraph (a) without notice and opportunity for interested persons to submit written data, views or arguments when the Commission, for good cause, finds that notice and public procedure thereon are impractical, unnecessary or contrary to the public interest; but in any such case, the Commission shall incorporate its finds and a brief statement of reasons therefor in a public announcement of the action taken.

(b) Plans filed pursuant to this rule contain those provisions of the regulations, rules, by-laws, constitutional provisions and other requirements of the exchange that relate solely or significantly to transactions in options on the exchange, and shall include provisions relating to:

(1) Effecting transactions in options on the exchange by members thereof for their own account and the accounts of customers;

(2) The clearance or settlement of transactions in options;

(3) The endorsement and guarantee of performance of options;

(4) The reporting of transactions in options; and

(5) The listing and delisting of, and the admission to and removal of trading privileges on the exchange for options.

(c) For purposes of this rule, the term "option" shall include any put or call, straddle or other option or privilege of buying or selling a security without being bound to do so, but shall not include any registered warrant, right or convertible security.

(d) An exchange shall file with the Commission three copies of any plan or any alternation, amendment, supplementation, or rescission of any plan submitted to the Commission pursuant to this rule, and may incorporate by reference material filed with the Commission.

All interested persons are invited to submit their views and comments on the proposed rule and CBOE's plan. Written statements of views and comments should be addressed to Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, on or before October 19, 1973. Reference should be made to file number S7-473. All such comments will be available for public inspection.

(Secs. 9(b), 9(c), 23(a); 48 Stat. 889, 901; as amended 49 Stat. 1379, (15 U.S.C. 78i(b), 78i(c), 78w(a)))

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

## VETERANS ADMINISTRATION

### [ 38 CFR Part 21 ]

### INDEPENDENT STUDY PROGRAM

### Payments

It is proposed to amend Part 21 to set forth provisions for payments to veterans and eligible persons who are enrolled in independent study programs leading to a standard college degree which may include an external degree awarded by an accredited college or university.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (27H), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All relevant material received before October 26, 1973, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is also given that it is proposed to make any regulations that are adopted effective the date of final approval.

1. In § 21.201, paragraph (j) is added to read as follows:

**§ 21.201 Types of courses.**

* * * * *

(j) *Independent study course leading to a degree.* A course pursued by independent study under the following conditions:

(1) The course is offered by an accredited college or university.

(2) The course leads to or is fully creditable toward a standard college degree which may include external degree programs given by accredited colleges and universities.

(3) The college or university evaluates the course in semester or quarter hours, or the equivalent, and prescribes a period for completion.

(4) Subsistence allowance is payable at the institutional rates prescribed in § 21.133. (If independent study subjects and subjects requiring class attendance are pursued concurrently and both are measured on a credit hour basis, the allowable rate shall be determined on the basis of the combined training load.)

2. In § 21.226(a), subparagraph (1) is amended to read as follows:

**§ 21.226 Training while a patient in a Veterans Administration hospital.**

(a) Subject to the provisions of other applicable Veterans Administration regulations, an eligible veteran may be entered or reentered into training prior to release from a Veterans Administration hospital when all the following conditions are met:

(1) The Veterans Administration hospital has determined that the proposed training will not materially interfere with the veteran's regime of medical treatment nor delay hospital discharge and that the disabled veteran will be able to spend a significant part of the day away from the hospital at the proposed training facility or in a program of independent study.

* * * * *

3. In § 21.261(b), subparagraph (4) is added to read as follows:

**§ 21.261 Ordinary leave.**

* * * * *

(b) *Charging of ordinary leave.* * * *

(4) For veterans in programs of independent study which are not on a semester or quarter basis, leave between designated periods of study may be authorized and will be charged on same basis as leave between terms.

4. In § 21.4131, paragraph (b) is amended to read as follows:

**§ 21.4131 Commencing dates.**

* * * * *

(b) *Certification by school; course leads to standard college degree.* (1) The date of registration, or the date of reporting where the student is required by

§ 21.1253 Accredited courses.

* * * * *

(e) *College level.* Under the provisions of paragraph (a)(1) of this section, any course at college level approved by the State approving agency as an accredited course will be accepted by the VA as an accredited course when all of the following conditions are met:

* * * * *

(3) Credit for the course is awarded in terms of standard semester or quarter hours or by recognition at completion by the granting of a standard college degree.

* * * * *

9. In § 21.4270, paragraphs (c) and (d) are amended to read as follows:

**§ 21.4270 Measurement of courses.**

Clock hours and class sessions mentioned in this table mean clock hours and class sessions per week.

| Kind of school | Kind of course | Full time | ¾ time | ½ time | Less than ½ but more than ¼ | ¼ time or less |
|---|---|---|---|---|---|---|
| | * | * | * | * | * | * |
| (c) Collegiate undergraduate. | Standard collegiate courses including cooperative and external degree programs. | 14 semester hours or equivalent.[3] | 10 thru 13 semester hours or equivalent. | 7 thru 9 semester hours or equivalent. | 4 thru 6 semester hours or equivalent. | 1 thru 3 semester hours or equivalent. |
| (d) Collegiate graduate. | Standard collegiate courses including law and external degree programs. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. |

10. Section 21.4280 is added to read as follows:

**§ 21.4280 Independent study leading to a standard college degree.**

(a) An eligible veteran or person may receive an educational assistance allowance for pursuit of an independent study course under the following conditions:

(1) The course is offered by an accredited college or university and is approved by the State approving agency; and

(2) The course leads to or is fully creditable toward a standard college degree which may include external degree programs given by accredited colleges and universities.

(b) The independent study program shall be measured as follows:

(1) If the college or university evaluates the course in semester or quarter-hours of credit and prescribes a period for completion, the course shall be measured in credit hours under § 21.4270 (c) or (d) with equivalency computed under § 21.4272(d) as appropriate; or

(e) Where the veteran or eligible person is enrolling for independent study leading to a standard college degree, the school's certification will include enrollment date, established charges for tuition and fees, and the ending date for completion of the study being certified. If the school has no prescribed maximum time for completion, the certification must include an ending date based on the school's estimate of the time for completion.

* * * * *

8. In § 21.4253(e), subparagraph (3) is amended to read as follows:

| Kind of school | Kind of course | Full time | ¾ time | ½ time | Less than ½ but more than ¼ | ¼ time or less |
|---|---|---|---|---|---|---|
| | * | * | * | * | * | * |
| (c) Collegiate undergraduate. | Standard collegiate courses including cooperative and external degree programs. | 14 semester hours or equivalent.[3] | 10 thru 13 semester hours or equivalent. | 7 thru 9 semester hours or equivalent. | 4 thru 6 semester hours or equivalent. | 1 thru 3 semester hours or equivalent. |
| (d) Collegiate graduate. | Standard collegiate courses including law and external degree programs. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. | As in paragraph (c) of this section or certified by resident school official of school. |

5. In § 21.4136, paragraph (a) is amended to read as follows:

**§ 21.4136 Rates; educational assistance allowance; 38 U.S.C. Ch. 34.**

(a) *Rates.* Educational assistance allowance is payable at the following monthly rates:

| Type of courses | Monthly rate | | | |
|---|---|---|---|---|
| | No dependent | One dependent | Two dependents | Additional for each additional dependent |
| Institutional: | | | | |
| Full time | $220 | $261 | $298 | $18 |
| ¾ time | 165 | 196 | 224 | 14 |
| ½ time | 110 | 131 | 149 | 9 |
| Less than ½ but more than ¼ time[1] | [2] 55 | | | |
| Cooperative, other than farm cooperative (full time only) | 177 | 208 | 260 | 14 |
| Apprentice or job (full time only but see footnote 4 below) | | | | |
| Payment designated training assistance allowance: | | | | |
| First 6 months | 160 | 179 | 196 | 5 |
| Second 6 months | 120 | 127 | 156 | 5 |
| Third 6 months | 80 | 99 | 110 | 5 |
| Fourth 6 months and succeeding periods | 40 | 60 | 70 | 5 |
| Correspondence | 90 per centum of the established charge for tuition and fees applicable to such course when completed by veteran and serviced by school.[4]—Allowance paid quarterly. | | | |
| Flight training | 90 per centum of the established charge for number of lessons completed by veteran and serviced by school.[4]—Allowance paid monthly based on actual flight training received. | | | |
| Farm Cooperative: | | | | |
| Full time | 177 | 208 | 260 | 14 |
| ¾ time | 133 | 156 | 177 | 11 |
| ½ time | 89 | 104 | 118 | 7 |

[1] If a veteran under chapter 34 or an eligible person under chapter 35 receiving benefits under § 21.4280(b)(2) completes his program before the designated completion time, his award will be recomputed to permit payment of tuition and fees not to exceed $110 per month if the maximum allowance was not initially authorized.

[2] See paragraph (b) of this section.

[3] See footnote 6 to § 21.4270(c) for measurement of full time and paragraph (b) of this section for proportionate reduction for less than full time.

[4] Established charge means the charge for the course or courses determined on the basis of the lowest extended time payment plan offered by the institution and approved by the appropriate State approving agency. The amount payable for the eligible veteran whichever is the lesser. Emolluments under 14 the lesser. Emolluments under January 1, 1974, will receive 100 percent of the established charge.

(38 U.S.C. 1677, 1682, 1780, 1787.)

* * * * *

6. In § 21.4200, paragraph (d) is amended to read as follows:

**§ 21.4200 Definitions.**

* * * * *

(d) *External degree.* This term means a standard college degree given by an accredited college or university based on satisfactory completion of a prescribed program of independent study. The program may require occasional attendance for a workshop or seminar and may include some regular residence course work.

7. In § 21.4203(b), subparagraph (4) is added to read as follows:

**§ 21.4203 Reports by school; requirements.**

* * * * *

(b) *Entrance or reentrance.* The certification must clearly specify the program objective. Upon receipt of a certification of enrollment, an official

V 38 1187 S
SEP 27 73
XUM

(2) If the college or university does not evaluate the course in standard semester or quarter-hours or the equivalent, the course shall be measured as less than one-half time training.

(c) An eligible veteran or person who is pursuing an independent study program shall be paid an educational assistance allowance at the institutional rate prescribed in § 21.4136(a). If independent study subjects and subjects requiring class attendance are pursued concurrently and both are measured on a credit hour basis, the allowable rate shall be determined on the basis of the combined training load. When measurement is different (i.e., class attendance on credit hour basis and independent study under paragraph (b)(2) of this section), the appropriate rate for each part shall be determined and the combined rates paid, but not to exceed the full time institutional allowance rate.

Approved September 20, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,
*Deputy Administrator.*

### Order Providing for Opening of National Forest Lands

SEPTEMBER 21, 1973.

By published notice (38 FR 10825-10826, May 2, 1973), the U.S. Geological Survey cancelled Power Site Classification No. 371 of October 31, 1944 as to the lands described below.

The purpose of this order is to restore to the operation of applicable public land laws the national forest lands involved in that notice.

1. The following described lands are hereby restored to such forms of disposition as may by law be made of national forest lands:

NEW MEXICO PRINCIPAL MERIDIAN

T. 24 N., R. 4 E.,
Sec. 11, lot 8 (formerly a portion of lot 4).

The land described aggregates 3.31 acres in Rio Arriba County.

### UTAH

### Notice of Proposed Exchange and Notice of Proposed Classification

Notice is hereby given that:

(1) Title to the national resource lands described below is proposed to be transferred to the State of Utah by exchange under the regulations in 43 CFR, Part 2200, and

(2) Those lands so designated in paragraphs (b) and (c) below are proposed to be classified for disposal through exchange under the regulations in 43 CFR 2200.0-8.

National resources lands which have been identified for selection by the State of Utah are situated in Castle Valley, approximately 18 miles northeast of Moab, Grand County, Utah, and are described as:

(a) Lands proposed for exchange under section 8(c) of the Taylor Grazing Act of June 28, 1934 (48 Stat. 1272; 43 U.S.C. 315g), for the benefit of the Corps of Engineers of the Department of the Army and the Bureau of Land Management of the Department of the Interior. The lands the State proposes to transfer to the United States through this exchange are located in the Green River Missile Base and in the Monticello BLM District. Under the terms of this act and the regulations in 43 CFR 2211.0-3(b)(2) classification action is not involved in the transfer of these lands.—Serial No. U-17864:

T. 25 S., R. 23 E., SLM, Utah
Sec. 9, SW¼NE¼;

Sec. 26, all;
Sec. 27, all;
Sec. 34, lots 1, 2, NW¼NE¼, NE¼NW¼;
Sec. 35, lots 1, 2, 4, N½, N½SE¼, SW¼SE¼.
T. 25 S., R. 24 E., SLM, Utah
Sec. 19, lot 4, SE¼SW¼;
Sec. 29, E½SW¼, SE¼;
Sec. 30, lots 1, 4, NE¼NW¼.
Containing 3,536.08 acres.

(b) Lands proposed for classification for exchange under the Canyonlands National Park Act of September 12, 1964 (78 Stat. 934), as amended by the Act of November 12, 1971 (85 Stat. 421), for the benefit of the National Park Service of the Department of the Interior. The lands the State proposes to transfer to the United States in this exchange are located in the extension to Canyonlands National Park.—Serial No. U-18018:

T. 25 S., R. 23 E., SLM, Utah
Sec. 6, N½SE¼, SE¼SE¼;
Sec. 9, E½NW¼, NW¼NW¼, S½;
Sec. 15, all;
Sec. 16, all;
Sec. 21, lots 1, 2, 3, 4, N½, E½SE¼;
Sec. 22, all;
Sec. 28, lots 1, 2, 3, 5, 6, SW¼NE¼.
Containing 3,247.32 acres.

(c) Lands proposed for classification for exchange under the Act of July 15, 1968 (16 U.S.C. 460L-22), for the benefit of the National Park Service of the Department of the Interior. The lands the State proposes to transfer to the United States in this exchange are located in Capitol Reef National Park and Natural Bridges National Monument.—Serial No. U-21328:

T. 25 S., R. 23 E., SLM, Utah
Sec. 14, NW¼, S½;
Sec. 23, N½, E½SE¼;
Sec. 24, W½, SE¼.
Containing 1,360.00 acres.
Total 8,143.40 acres.

All mineral rights are to be exchanged.

Maps showing these lands and files containing reports on the lands are available for review in the Utah State Office, Bureau of Land Management, Room 8339, Federal Building, 125 South State Street, P.O. Box 11505, Salt Lake City, Utah 84111, for use by all persons who wish to submit comments, suggestions, or objections to the undersigned officer at the above address in connection with this proposed classification on or before November 26, 1973.

A detailed environmental assessment has been prepared on these exchange

### Office of Hearings and Appeals

[Docket No. M 74-15]

### MOUNTAIN DRIVE COAL CO.

#### Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Mountain Drive Coal Co. has filed a petition to modify the application of 30 CFR 77.1605(k) to its Mine No. 1 located at Middlesboro, Kentucky.

30 CFR 77.1605(k) reads as follows:

(k) Berms or guards shall be provided on the outer bank of elevated roadways.

In support of its petition, petitioner states that the addition of berms or guardrails would make it impossible to maintain proper drainage and would hamper snow removal. The road would ice over during winter months and the grader now used for maintenance could no longer be used. Petitioner also states that additional man-hours and equipment would be needed for road maintenance which would result in an increased accident potential during snow and ice conditions.

As an alternative method petitioner wishes to continue maintaining its roads by its currently existing methods. Petitioner states that by using its current methods of maintenance, its roads are as safe as possible.

Petitioner contends that the application of the mandatory standard will result in a diminution of safety to miners in the affected area. Petitioner contends that berms and guardrails would create a drainage hazard by creating improper drainage which would cause washouts and hazardous conditions in wet weather. The road is too narrow to build berms, therefore, solid rock would have to be blasted, resulting in a highwall which would be a new hazard.

Persons interested in this petition may request a hearing on the petition or furnish comments by October 29, 1973. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Va. 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,

### AMISTAD RECREATION AREA

#### Notice of Intention To Issue a Concession Permit

Pursuant to the provision of section 5, of the Act of October 9, 1965, (79 Stat. 969 (16 U.S.C. 20)) public notice is hereby given that on or before October 29, 1973, the Department of the Interior, through the Superintendent, Amistad Recreation Area, proposes to renew the present concessions permit in the name of Ronald Lambert, Odessa, Texas, authorizing him to provide fishing guide service for the public at Amistad Recreation Area for the period Sept. 1, 1973 through August 31, 1977.

The foregoing concessioner has performed his obligations under the existing permit to the satisfaction of the National Park Service and, therefore, pursuant to the Act cited above, is entitled to be given preference for the renewal of the permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before October 29, 1973.

Interested parties should contact the Superintendent, Amistad Recreation Area, Post Office Box 1463, Del Rio, Texas 78840, for information as to the requirements of the proposed permit.

Dated: July 31, 1973.

COLEMAN L. NEWMAN,
*Superintendent,*
*Amistad Recreation Area.*

### GLEN CANYON NATIONAL RECREATION AREA

#### Notice of Intention To Issue a Concession Permit

Pursuant to the provisions of Section 5. of the Act of October 9, 1965 (79 Stat. 969 (15 U.S.C. 20)), public notice is hereby given that on or before October 29, 1973, the Department of the Interior, through the Superintendent, Glen Canyon National Recreation Area, proposes to issue a concession permit to Hite Marina, Inc., authorizing them to provide concession facilities and services for the public at Glen Canyon National Recreation Area for a period of five (5) years from January 1, 1974 through December 31, 1978.

The foregoing concessioner has performed his obligations under a prior permit to the satisfaction of the National Park Service and, therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before October 29, 1973.

Interested parties should contact the Superintendent, Glen Canyon National Recreation Area, PO. Box 1507, Page, Arizona 86040, for information as to the requirements of the proposed permit.

Dated July 31, 1973.

C. E. JOHNSON,
*Superintendent, Glen Canyon*
*National Recreation Area.*

### LAKE MEREDITH RECREATION AREA

#### Notice of Intention To Issue a Concession Permit

Pursuant to the provisions of Section 5. of the Act of October 9, 1965 (79 Stat. 969 (16 U.S.C. 20)) public notice is hereby given that on or before October 29, 1973, the Department of the Interior, through the Superintendent, Lake Meredith Recreation Area, proposes to issue a concession permit to Goodie Truck, a partnership, authorizing it to provide concession facilities and services for the public at Lake Meredith Recreation Area for a period of 5 years from January 1, 1974 through December 31, 1978. The foregoing concessioner has performed its obligations under a prior permit to the satisfaction of the National Park Service, and, therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before October 29, 1973.

Interested parties should contact the Superintendent, Lake Meredith Recreation Area, PO. Box 325, Sanford, TX 79078, for information as to the requirements of the proposed permit.

Dated June 4, 1973.

JAMES M. THOMSON,
*Superintendent, Lake Meredith*
*Recreation Area.*

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

[Marketing Agreement 146]

### PEANUTS; 1973 CROP

#### Outgoing Quality Regulation and Indemnification Amendment

Pursuant to the provisions of sections 32, 34, and 36 of the marketing agreement regulating the quality of domestically produced peanuts heretofore entered into between the Secretary of Agriculture and various handlers of peanuts (30 FR 9402) and upon recommendation of the Peanut Administrative Committee established pursuant to such agreement and other information, it is hereby found that the amendments hereinafter set forth to the Outgoing Quality Regulation and Terms and Conditions of Indemnification Applicable to 1973 Crop Peanuts (38 FR 19054) will tend to effectuate the objectives of the Agricultural Marketing Agreement Act of 1937, as amended, and of such agreement.

Amendment of paragraph (a) of the Outgoing Quality Regulation is necessary to change the requirements on percentage of whole kernels allowed in fall through on Runner and Virginia "with splits" so that such percentage will be the same as on U.S. Number One grade peanuts for those types of peanuts. Such change would increase from 2 percent to 3 percent the percentage of whole kernels allowed in such fall through. Likewise, amendment of the definition of Runner and Virginia "with splits" in the same paragraph is necessary to reflect the increase in the percentage of whole kernels allowed in the fall through for these grades and to change the screen size on Runner "with splits" from a $^{15}/_{64}$ x $^{3}/_{4}$ slot to a $^{16}/_{64}$ x $^{3}/_{4}$ slot to conform with Committee determinations.

Amendment of paragraph 7 of the Terms and Conditions of Indemnification is necessary to bring the provisions for paying indemnification into conformity with determinations of the Committee by eliminating the 4 percent penalty on unsuccessfully remilled peanuts that were to be custom blanched. Continued application of such penalty would restrict the use of custom blanching as a means of making peanuts wholesome and in turn increase indemnification costs. Amendment of the last paragraph of the Terms and Conditions of Indemnification is also necessary to bring the provisions from paying indemnification on Runners and Virginias "with splits" into conformity with changes being made in the Outgoing Quality Regulation by changing the allowable percentage of whole kernels from 2 percent to 3 percent on both categories and to add a provision prohibiting indemnification of peanuts which after failing to meet the Outgoing Quality Regulation are sold to another handler.

Therefore, the second sentence of paragraph (a) of the Outgoing Quality Regulation (38 FR 19054) is deleted and replaced by the following:

Fall through in such peanuts shall not exceed 4 percent except that fall through consisting of either split and broken kernels or whole kernels shall not exceed 3 percent and fall through of whole kernels in Runners or Virginias "with splits" shall not exceed 3 percent or 2 percent on Spanish "with splits".

In the same paragraph of the Outgoing Quality Regulation (38 FR 19054), the last sentence (which is in parentheses) is deleted and replaced by the following:

(Runners, Spanish or Virginias "with splits" means shelled peanuts which do not contain more than (a) 15 percent splits, (b) for Spanish 2.00 percent whole kernels which will pass through a $^{15}/_{64}$ x $^{3}/_{4}$ inch slot screen; for Runners 3.00 percent whole kernels which will pass through a $^{15}/_{64}$ x $^{3}/_{4}$ inch slot screen; and for Virginias 3.00 percent whole kernels which will pass through a $^{15}/_{64}$ x 1 inch slot screen, and (c) otherwise meet the specifications of U.S. No. 1 grade.)

In the seventh paragraph of the Terms and Conditions of Indemnification (38 FR 19054), the fourth and fifth sentences are deleted and replaced by the following:

On lots on which the remilling is not successful in making the lots wholesome as to aflatoxin and such lots of peanuts are declared for custom blanching, after remilling, the indemnification payment shall be the blanching costs, plus any temporary storage, the transportation costs from origin (whether handler or buyer premises) to point of blanching and on unsold lots from point of blanching to handlers premises and the indemnification value of the weight of reject peanuts removed from the lot.

Likewise, in the last paragraph of the Terms and Conditions of Indemnification, delete the entire last category Shelled peanuts "with splits" and the last sentence and replace with the following:

*Shelled peanuts "with splits"*—

(1) Runners with splits which do not contain more than 15 percent splits or 3 percent whole kernels which will pass through a $^{15}/_{64}$ x $^{3}/_{4}$ inch slot screen, 24 cents per pound.

(2) Spanish with splits which do not contain more than 15 percent splits or 2 percent whole kernels which will pass through a $^{15}/_{64}$ x $^{3}/_{4}$ inch slot screen, 24 cents per pound.

(3) Virginias with splits which do not contain more than 15 percent splits or 3 percent whole kernels which will pass through a $^{15}/_{64}$ x 1 inch slot screen, 24 cents per pound.

However, peanuts in any of the above categories shall not be eligible for indemnification if such peanuts: (1) Were milled from seed peanut residuals as referred to in the last sentence of paragraph (e) of the Incoming Quality Regulation and paragraph (i) of the Outgoing Quality Regulation for 1973 Crop Peanuts; (2) failed the Outgoing Quality Regulation for 1973 Crop Peanuts due to excessive damage and minor defects and such peanuts were subsequently blanched to remove such excess damage and minor defects pursuant to paragraph (h) of such regulation; (3) when shipped for human consumption outlets contained more than a total of 1.25 percent unshelled peanuts and damaged kernels or a total of 2.00 percent unshelled peanuts, damaged kernels and minor defect; and (4) were received or acquired from another handler pursuant to paragraph (i) of the Incoming Quality Regulation and were milled to meet requirements of the Outgoing Quality Regulation pursuant to paragraph (h) of such regulation.

The Peanut Administrative Committee has recommended that these amendments be issued as soon as possible so as to implement and effectuate the provisions of the marketing agreement dealing with the Outgoing Quality Regulation and Terms and Conditions of Indemnification. Marketing of the 1973 peanut crop is underway and such regulations and terms and conditions for actual operations under the agreement should therefore be modified and made effective as soon as possible, i.e., on the effective date specified herein. Handlers of peanuts who will be affected by such amendments have signed the marketing agreement authorizing the issuance of such regulations and terms and conditions, they are represented on the Committee which recommended such amendments and time does not permit prior notice of the proposed amendments to such handler.

The foregoing amendments of the Outgoing Quality Regulation and Terms and Conditions of Indemnification are hereby approved.

Dated September 24, 1973.

CHARLES R. BRADER,
*Deputy Director,*
*Fruit and Vegetable Division.*

### CLOUD PEAK PRIMITIVE AREA HEARING ANNOUNCEMENT

#### Notice of Public Hearing

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (78 Stat. 890, 892 (16 U.S.C. 1131, 1132)) that a public hearing will be held beginning at 9 a.m. on Thursday, November 8, 1973, at the WYO Theater, 46 North Main, Sheridan.

V 38-187 SEP 27 73 XUM

Wyoming, on proposed management alternatives for the Cloud Peak Primitive Area relative to recommendations by the President of the United States to the Congress concerning the Cloud Peak Primitive Area.

The Cloud Peak Primitive Area is located within the Bighorn National Forest, in Bighorn, Johnson, and Sheridan Counties, State of Wyoming.

A brochure and Environmental Statement containing maps and information about the area and the management alternatives under consideration may be obtained, after October 1, 1973, from the Forest Supervisor, Bighorn National Forest, Columbus Building, P.O. Box 2046, Sheridan, Wyoming 82801, or the Regional Forester, Building 85, Denver Federal Center, Denver, Colorado 80225.

Individuals or organizations may express their views by appearing at the hearing, or they may submit written comments for inclusion in the official record to the Regional Forester at the above address by December 10, 1973.

Dated September 19, 1973.

JOHN R. MCGUIRE,
*Chief, Forest Service.*

Soil Conservation Service

## LEONA RIVER WATERSHED PROJECT, TEXAS

### Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Leona River Watershed Project, Uvalde County, Texas, USDA-SCS ES-WS-(ADM)-74-13(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment measures on about 39,180 acres of rangeland, cropland, and pastureland, supplemented by four floodwater retarding structures and approximately 3.47 miles of channel work.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue, SW., Washington, D.C. 20250.

Soil Conservation Service, USDA, First National Bank Building, P.O. Box 648, Temple, Texas 76501.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please use name and number of statement when ordering. The estimated cost is $3.75.

Copies of the draft environmental statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments must be received on or before December 4, 1973 to be considered in the preparation of the final statement.

Dated September 20, 1973.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services.)

WILLIAM B. DAVEY,
*Deputy Administrator for Water Resources, Soil Conservation Service.*

## AD HOC COMMITTEE FOR REVIEW OF THE SPECIAL VIRUS CANCER PROGRAM

### Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Ad Hoc Committee for Review of the Special Virus Cancer Program, National Cancer Institute, October 3, 1973, 9:00 a.m., The Sloan-Kettering Institute for Cancer Research, Howard Building, Room 1302, 410 East 68th Street, New York, New York. This meeting will be open to the public from 9:00 a.m. to 9:30 a.m., to discuss the scheduling of events leading to culmination of committee activities in presentation of committee report to the National Cancer Advisory Board on November 26-28, 1973. Attendance by the public will be limited to space available. The meeting will be closed to the public from 9:30 a.m. to adjournment, for discussion and review of 37 contracts in the field of Viral Oncology, in accordance with the provisions set forth in section 552(b)4 of Title 5 U.S. Code, and section 10(d) of Pub. L. 92-463.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301/496-1911) will furnish summaries of the open/closed meeting and roster of committee members.

Dr. Maurice L. Guss, Executive Secretary, Building 37, Room 1B12, National Institutes of Health, Bethesda, Maryland 20014 (301/496-3323) will provide substantive program information.

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director, National Institutes of Health.*

## INFECTIOUS DISEASES COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Infectious Disease Committee, National Institute of Allergy and Infectious Diseases, October 18 and 19, 1973, 9:00 a.m. to 5:00 p.m., National Institutes of Health, Building 31, Conference Room 8. This meeting will be open to the public from 9:00 a.m. to 10:00 a.m., October 18, 1973 to review published data on the incidence of *Mycoplasma pneumoniae;* and closed to the public from 10:00 a.m. to 5:00 p.m. on October 18, 1973, and 9:00 a.m. to 5:00 p.m. on October 19, 1973, to review contracts in accordance with the provisions set forth in section 552(b)4 of Title 5 U.S. Code and 10(d) of Pub. L. 92–463. Attendance by the public will be limited to space available.

Mr. Robert Schreiber, Information Officer, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Building 31, Room 7A–34, phone 496–5717, will furnish summaries of the meeting and rosters of committee members.

Mrs. Martha J. Mattheis, Executive Secretary of the Infectious Disease Committee, National Institute of Allergy and Infectious Diseases, National Institutes of Health, Building 31, Room 7A–10, phone 496–5105, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13–301, National Institutes of Health.)

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

## MENTAL RETARDATION RESEARCH COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Mental Retardation Research Committee, National Institute of Child Health and Human Development, October 7–9, 1973, at 8:00 p.m., National Institutes of Health, Building 31, Conference Room 7. This meeting will be open to the public from 8:00 p.m. to 10:00 p.m., October 7, to discuss items relative to the committee's activities including announcements by the Associate Director for NICHD, the Head of the Mental Retardation Branch, and the Executive Secretary of the Committee. The meeting will be closed to the public from 8:30 a.m. to 5:00 p.m., October 8 and 8:30 a.m. to 5:00 p.m., October 9, to review grants in accordance with the provisions set forth in section 552(b)4 of Title 5 U.S. Code and 10(d) of Pub. L. 92–463. Attendance by the public will be limited to space available.

Ms. Patricia Newman, Information Officer, NICHD, Landow Building, Room A–804B, National Institutes of Health, 496–5133, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from Dr. Lyle Lloyd, Executive Secretary of the Committee, Room C–704A, Landow Building, National Institutes of Health, 496–1383.

(Catalog of Federal Domestic Assistance Program No. 13.317, National Institutes of Health.)

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

[FR Doc.73–20577 Filed 9–26–73;8:45 am]

## NATIONAL CANCER ADVISORY BOARD

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the National Cancer Advisory Board, National Cancer Institute, October 1–3, 1973, 9:00 a.m., National Institutes of Health, Building 31, Conference Room 6. This meeting will be open to the public from 9:00 a.m., to 5:00 p.m., October 1; 9:00 a.m., to 5:00 p.m., October 2; and 10:00 a.m., to 12:30 p.m., October 3, to review scientific research concerned with cancer biology; diagnosis; treatment; and special programs in the National Cancer Program. On the morning of October 3, there will be a discussion on the reduction of cancer risk in smokers; opportunities for early diagnosis; and projections in therapy, during a presentation on the lung cancer program. The meeting will be closed to the public from 9:00 a.m., to 10:00 a.m., October 3, to discuss the fiscal year 1975 budget in accordance with the provisions set forth in section 552(b)5 of Title 5 U.S. Code and 10(d) of Pub. L. 92–463. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Maryland 20014 (301–496–1911) will furnish summaries of the open/closed meeting and roster of committee members.

Dr. Richard A. Tjalma, Assistant Director for Board and Panel Affairs, NCI, Building 31, Room 11A44, National Institutes of Health, Bethesda, Maryland 20014 (301–496–5854) will provide substantive program information.

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

## PHARMACOLOGY-TOXICOLOGY PROGRAM COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Pharmacology-Toxicology Program Committee, National Institute of General Medical Sciences, October 1–2, 1973, 9 a.m., National Institutes of Health, Building 31C, Conference Room 8. This meeting will be open to the public from 8:30 a.m. to 3:00 p.m., October 1, 1973, for opening remarks and general discussion on objectives of the program, and closed to the public from 3:00 p.m. to 5:00 p.m., October 1, and from 8:30 a.m. to 5:00 p.m., October 2, 1973, to review, discuss, evaluate, and rank contract proposals in accordance with the provisions set forth in section 552(b) 4 of Title 5 U.S. Code for grants and contracts and 10(d) of Pub. L. 92–463. Attendance by the public will be limited to space available.

Mr. Paul Deming, Information Officer, NIGMS, Building 31, Room 4A46, Bethesda, Maryland 20014. Telephone: 301, 496–5676, will furnish a summary of the meeting and a roster of committee members.

Substantive program information may be obtained from Dr. George J. Cosmides, Executive Secretary, Westwood Building, Room 9A03, Telephone: 301, 496–7707.

(Catalog of Federal Domestic Assistance Program No. 13.335, General Medical Sciences-Research Grants.)

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

[FR Doc.73–20567 Filed 9–26–73;8:45 am]

## WORKING GROUP ON PATHOPHYSIOLOGY OF THE MULTIPLE SCLEROSIS AD HOC SCIENTIFIC ADVISORY COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Working Group on Pathophysiology of the Multiple Sclerosis ad hoc Scientific Advisory Committee, October 5, 1973, at 9:00 a.m., in Room 8A03, Building 31A, National Institutes of Health, Bethesda, Maryland. This meeting will be closed to the public to review, discuss and evaluate and/or rank research proposals on Multiple Sclerosis in accordance with the provisions set forth in section 552(b)4 of Title V, U.S. Code and section 10(d) of Pub. L. 92–463.

1. The Institute Information Officer who will furnish summaries of the meeting and rosters of committee members is: Mrs. Ruth Dudley, Building 31, Room 8A03, phone: 496–5751.

2. The Executive Director from who substantive program information may be obtained is: Dr. Harry M. Weaver, Room 8A11, Building 31A, NIH, phone: 496–3523.

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

[FR Doc.73–20572 Filed 9–26–73;8:45 am]

## THERAPEUTIC EVALUATIONS COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Therapeutic Evaluations Committee, National Heart and Lung Institute, October 3 and 4, 1973, 9:00 a.m., National Institutes of Health, Building 31, Conference Room 8. This meeting will be open to the public from 9:00 a.m. to 11:00 a.m., October 3, 1973, to discuss the minutes of the April 23–24 meeting and subsequent Council actions on Committee recommendations, an administrative report, interim report and committee activities. The balance of the meeting will be closed to the public from 11:00 a.m., October 3, until the adjournment on October 4 to review grants, in accordance with the provisions set forth in section 552(b) 4 of Title 5 U.S. Code and 10(d) of Pub. L. 92–463. Attendance by the public will be limited to space available.

Mr. Hugh Jackson, Information Officer, NHLI, NIH Landow Building, Room C918, phone 496–4236, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from the Executive Secretary, Dr. Eleanor M. K. Darby, NHLI, NIH Westwood Building, Room 554, phone 496–7445.

(Catalog of Federal Domestic Assistance Program No. 13.346, National Institutes of Health.)

Dated September 17, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

[FR Doc.73–20579 Filed 9–26–73;8:45 am]

## DIAGNOSTIC RADIOLOGY COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Diagnostic Radiology Committee, National Cancer Institute, October 10–11, 1973, at Airlie House, Warrenton, Virginia. This meeting will be open to the public from 9:00 a.m. to 5:00 p.m. and 7:00 p.m. to 9:00 p.m., October 10, 1973 and 9:00 a.m. to 12:00 p.m., October 11, 1973, to discuss radiological methods in the diagnosis of cancer. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Md. 20014 (301/496–1911) will furnish summaries of the open meeting and roster of committee members.

Dr. Kenneth B. Olson, Executive Secretary, Building 31, Room 3A06, National Institutes of Health, Bethesda, Md. 20014 (301/496–1591) will provide substantive program information.

Dated September 21, 1973.

JOHN F. SHERMAN,
*Deputy Director,*
*National Institutes of Health.*

[FR Doc.73–20533 Filed 9–26–73;8:45 am]

## POPULATION RESEARCH COMMITTEE

### Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given of the meeting of the Population Research Committee of the National Institute of Child Health and Human Development, October 19, 1973, at 9:00 a.m., National Institutes of Health, Building 31, Conference Room 6. This meeting will be open to the public from 9:00 a.m. to 10:30 a.m., October 19, to discuss program status and projections for Population Research Centers and Program Projects. The meeting will be closed to the public from 10:30 a.m. to 5:00 p.m., October 19 to review grants in accordance with the provisions set forth in section 552(b)4 of Title 5 U.S. Code and 10(d) of Pub. L. 92–463. Attendance by the public will be limited to space available.

Ms. Patricia Newman, Information Officer, NICHD, Landow Buillding, Room A–804B, National Institutes of Health, 496–5133, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from Dr. Bengt Liljeroot, Executive Secretary of the Committee, Room C–729, Landow Building, National Institutes of Health, 496–6515.

(Catalog of Federal Domestic Assistance Program No. 13.317, National Institutes of Health.)

Dated September 17, 1973.

# ATOMIC ENERGY COMMISSION

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS 162ND ACRS MEETING

### Notice of Meeting

SEPTEMBER 24, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards will hold a meeting on October 11–13, 1973, in Room 1046, 1717 H Street NW., Washington, D.C.

The following constitutes that portion of the Committee's agenda for the above meeting which will be open to the public:

(1) *Thursday, October 11, 1973:* 10:15 a.m.–12:30 p.m. and 1:30 p.m.–3:00 p.m.—*Donald C. Cook Nuclear Plant* (located in Lake Township near Benton Harbor, Michigan)—Review application for an operating license. The Committee will hear presentations by representatives and consultants of the AEC Regulatory Staff and the Indiana and Michigan Electric Company and will hold discussions with these groups.

The Committee will hold closed sessions during this period, if required, to discuss security plans for this facility and privileged information related to steam generator water chemistry control; fuel element design, fabrication, performance; and loss of coolant accident analysis.

It should be noted that, in addition to the agenda item noted above, the Committee will hold Executive Sessions not open to the public under the authority of section 10(d) of Pub. L. 92–463 (the Federal Advisory Committee Act), to consider the above applications and other matters. I have determined that it is necessary to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than October 4, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such written comments shall be based on materials related to the above agenda item, which materials are contained in the application for an operating license and related documents, on file and available for public inspection in the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and the St. Joseph Public Library, 500 Market Street, St. Joseph, Michigan 49085.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Committee. To the extent that the time available for the meeting permits, the Committee will receive

V 38 I 187 SEP 27 73 XUM

oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Committee.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Committee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on October 10, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m. e.d.t.

(e) Questions may be propounded only by members of the Committee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., on or after December 12, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
*Advisory Committee Management Officer.*

[FR Doc.73-20681 Filed 9-26-73;8:45 am]

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS WORKING GROUP ON PEAKING FACTORS

### Notice of Meeting

SEPTEMBER 24, 1973.

In accordance with the purposes of section 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards Working Group on Peaking Factors will hold a meeting on October 10, 1973, in Room 112, at 1717 H Street NW., Washington, D.C. The purpose of this meeting will be to discuss calculational techniques and plant operating conditions related to peaking factors, with reference to nuclear reactors designed by Westinghouse Electric Corporation.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

*Wednesday, October 10, 1973, 2:30-5:30 p.m.* Discussion with the AEC Regulatory Staff and Westinghouse.

In connection with the above agenda item, the Subcommittee will hold an executive session at approximately 5:30 p.m. to exchange opinions and formulate recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive session at the end of the meeting will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close this portion of the meeting to protect the free interchange of internal views and to avoid undue interference with Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than October 3, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon Westinghouse topical reports and various other related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 3:00 p.m. and 5:30 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time alloted, can be obtained by a prepaid telephone call on October 9, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, on or after December 10, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
*Advisory Committee Management Officer.*

[Docket No. 50-295]

## COMMONWEALTH EDISON CO.

### Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that, pursuant to an Order by the Atomic Safety and Licensing Board, dated September 20, 1973, the Atomic Energy Commission (the Commission) has issued Amendment No. 2 to Facility Operating License No. DPR-39 to Commonwealth Edison Company (Commonwealth Edison) for Zion Nuclear Power Station, Unit 1 (the facility). The facility is a pressurized, light water moderated and cooled reactor located at Commonwealth Edison's 250 acre site on the west shore of Lake Michigan in Zion, Lake County, Illinois. The facility is designed for operation at approximately 3,250 megawatts thermal.

The amended license authorizes Commonwealth Edison to perform operations at core power levels up to 1,700 megawatts thermal (about 52 percent of rated power), in accordance with the Technical Specifications issued on August 9, 1973.

The Director of Regulation has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Ch. I, which are set forth in the license. The application for the license complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Ch. I.

The amended license is effective as of the date of issuance and shall expire eighteen (18) months from said date unless extended for good cause shown or upon earlier issuance of a superseding licensing action. However, the authority to operate the facility as specified in Item 3.A. of the amended license is subpect to further orders of the Atomic Safety and Licensing Board designated to conduct a hearing on Commonwealth Edison Company's applications for full power licenses for Zion Units 1 and 2. In the event that the Atomic Safety and Licensing Board issues any further order

prohibiting further operation of Zion Unit 1 or limiting such operation to power levels below those authorized in the amended license Commonwealth Edison Company shall comply with such limitations as rapidly as compliance can be achieved in an orderly fashion, subject to any orders staying such decision which may be entered by the Atomic Safety and Licensing Appeal Board, the Atomic Energy Commission or a court of competent jurisdiction.

Copies of (1) the Board's Order dated September 20, 1973, (2) Amendment No. 2 to Facility Operating License No. DPR-39, and other relevant documents are available for public inspection in the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Waukegan Public Library, 128 N. County Street, Waukegan, Illinois. Copies of the amended license may be obtained upon request addressed to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 21st day of September 1973.

For the Atomic Energy Commission.

KARL R. GOLLER,
*Chief, Pressurized Water Reactors, Branch No. 3, Directorate of Licensing.*

[FR Doc.73-20587 Filed 9-26-73;8:45 am]

## ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, SUBCOMMITTEE ON RELIABILITY AND ACCIDENT PROBABILITIES

### Notice of Meeting

SEPTEMBER 26, 1973.

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Reliability and Accident Probabilities will hold a meeting on October 9, 1973, in Room 1062, at 1717 H Street NW., Washington, D.C. The subject scheduled for discussion is the background and tentative views regarding the AEC's Reactor Safety Study.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

*Tuesday, October 9, 1973, 1:00 pm-2:0[illegible] pm*

Discussion of background of Reactor Safety Study with Safety Study Representatives.

In connection with the above agenda item, the Subcommittee will hold a closed session at approximately 2:00 p.m. to discuss preliminary opinions and internal views of the AEC and its consultants, and an executive session at approximately 4:30 p.m. to exchange opinions and formulate recommendations to the ACRS.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the closed sssion beginning at approximately 2:00 p.m. and the executive session at the end of the meeting will consist of an exchange of preliminary opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close these portions of the meeting to protect the free interchange of internal views and to avoid undue interference with agency and Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than October 4, 1973 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Written statements shall be based on a prepared statement of the Director of the Reactor Safety Study, dated September 25, 1973 which is on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:00 p.m. and 4:30 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on October 9, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 am and 12:00 noon eastern daylight time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545 on or after December 9, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
*Advisory Committee Management Officer.*

## CIVIL AERONAUTICS BOARD

[Docket No. 13959; Order 73-9-82]

### DALLAS-FORT WORTH REGIONAL AIRPORT INVESTIGATION

### Order Terminating Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 21st day of September 1973.

This investigation was instituted by the Board on August 20, 1962 (Order E-18719, amended on December 19, 1962 by Order E-19117), to determine whether the public convenience and necessity require the alteration, amendment, or modification of the certificate or certificates of (1) all air carriers, (2) the local service carriers, (3) the trunkline carriers, or (4) any individual air carrier or air carriers authorized to serve either or both Dallas and Fort Worth, Texas, in such manner as to require that Dallas and Fort Worth be served through a single airport to be designated in this proceeding.

After due notice a public hearing was held before Administrative Law Judge Ross I. Newmann, who thereafter issued his initial decision on April 7, 1964, in which he concluded that it would not be in the public interest to designate either GSIA or Love Field as a regional airport to serve the Dallas-Fort Worth area. Judge Newmann recognized, however, that both cities would benefit if a fair and equitable solution to their problems could be worked out. As a possible solution, he suggested the creation of an Airport Authority which would assume full responsibility for the planning, development, and operation of all airports in the Dallas-Fort Worth area.

On September 30, 1964, the Board issued an order (E-21341) stating it was unanimously of the opinion that service to Dallas and Fort Worth should be required through a single airport which meets, without limitation, the present and future requirements for transcontinental passenger and cargo services. The order gave the two cities a period of 180 days within which to arrive at a voluntary agreement concerning the location of the airport to be used for the consolidated service and to submit such agreement to the Board.

When the two cities failed to reach an agreement, the Board issued Order E-22028 on April 13, 1965, stating that it was firmly of the view that a voluntary agreement on the part of both cities is the best solution to their airport problem and that the Board was prepared to

V 38-187 SEP 27 73 XUM

assist them in reaching such an agreement. The Board therefore remanded the case to the Administrative Law Judge with full authority to assist the parties in their efforts to reach a definitive agreement.

Following our order of remand, the Administrative Law Judge held a series of meetings with respresentatives of both cities in Washington, D.C., Fort Worth, and Dallas. As a result, the Dallas/Fort Worth Regional Airport Board was established on September 27, 1965, under Texas Revised Civil Statutes, and was given permanent status by the City Councils of Dallas and Fort Worth. On April 15, 1968, the cities signed a contract creating provisions for the construction and operation of the Dallas-Fort Worth Airport. Under the contract, the airport will be owned and operated by or on behalf of and under the control of the cities. The Board was authorized to plan, acquire, establish, develop, construct, operate, regulate, and police the airport, and was charged with the responsibility of exercising on behalf of the cities the powers of each with respect thereto.

In its ultimate development the Dallas-Fort Worth Airport will have six primary instrument runways capable of three simultaneous operations, and a ground capacity of 230 passenger-aircraft gates and 200 all-cargo gates. Under Phase I, which is to be opened this fall, the Dallas-Fort Worth Airport will provide a three-runway layout capable of simultaneous aircraft operations, with a total of 66 passenger gates and 12 cargo gates. Phase I cost is estimated at approximately $700 million.

In view of the foregoing, we find that the new Dallas-Fort Worth Airport will provide an adequate facility to accommodate the air transportation needs of Dallas and Fort Worth and the surrounding counties that constitute their tributary market-base region. We further find that the primary purpose and objective of this investigation has been accomplished.

*Accordingly, it is ordered,* That:

The investigation in Docket 13959 be and it hereby is terminated.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[Docket No. 23333; Order 73-9-77]

## INTERNATIONAL AIR TRANSPORT ASSOCIATION

### Order Regarding Specific Commodity Rates

Issued under delegated authority September 20, 1973.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA) and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names six additional specific commodity rates as set forth in the attachment hereto,[1] reflecting reductions from general cargo rates; and was adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated September 6, 1973.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act: *Provided,* That approval is subject to the conditions hereinafter ordered.

*Accordingly, it is ordered,* That:

1. Agreement C.A.B. 23926, R–1 through R–6 be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained herein for purposes of tariff publication: *Provided further,* That tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and

2. The findings and approval herein shall not be deemed to modify the findings and Order of the Board in its decision in Agreements Adopted by IATA Relating to North Atlantic Cargo Rates, Order 73–2–24 of February 6, 1973, as amended and finalized by Order 73–7–9 of July 5, 1973, and are subject to all provisions of such order.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[Docket No. 25908, etc.; Order 73-9-83]

## TRANSATLANTIC ROUTE PROCEEDING, ET AL.

### Order Regarding Certificate of Public Convenience and Necessity

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 21st day of September 1973.

Transatlantic Route Proceeding, Docket 25908; application of Pan American World Airways, Inc., for renewal of temporary authority in its certificates of public convenience and necessity for routes 132 and 133, Docket 24818; application of Trans World Airlines, Inc., for renewal of its certificate of public convenience and necessity for route 147, Docket 24816; application of Seaboard World Airlines, Inc., for renewal of temporary authority in its certificate of public convenience and necessity for route 119, Docket 24825; East Coast Points-Europe Service Investigation, Docket 19255.

Pan American World Airways, Inc., Trans World Airlines, Inc., and Seaboard World Airlines, Inc., hold substantial temporary transatlantic authority including numerous points in Western and Eastern Europe, the Near and Middle East, North Africa and points in the Far East.[3] By timely filed applications, Pan American,[4] TWA,[5] and Seaboard [6] have requested permanent renewal of their temporary transatlantic certificate authority,[6] invoking 5 U.S.C. 558(c), formerly section 9(b) of the Administrative Procedure Act, pursuant to which their respective temporary authorities have been automatically extended until final Board decision on their renewal applications.

In addition, six supplemental air carriers [8] have recently received renewed certificates of public convenience and necessity authorizing them to provide transatlantic supplemental air transportation between any point in any State of the United States or the District of Columbia, on the one hand, and points in Greenland, Iceland, the Azores, Europe, Africa, and Asia, as far east as (and including) India, on the other hand. By their terms these certificates expire on July 5, 1975.[7]

Upon cnsideration of the foregoing and other pertinent matters, we have determined to institute a proceeding, as discussed in detail below, to consider the renewal of the scheduled and supplemental carriers' temporary transatlantic authorities,[9] the possible certification of additional U.S. coterminal points, and the authorization of supplemental transatlantic cargo authority. Accordingly, we are consolidating for hearing in this proceeding the applications of Pan American, TWA, and Seaboard, in Dockets 24818, 24816, and 24825, respectively, insofar as those applications conform to the scope of the proceeding herein instituted.

In view of the increased congestion at many of the existing East Coast gateways, and the continued increase in transatlantic traffic, we believe it desirable that the issues in this proceeding embrace consideration of additional U.S. points for certification as scheduled U.S. coterminals.[10] However, in order to avoid expanding the case to unmanageable proportions, and to prevent delay in considering the renewal of the existing carriers' temporary authorities, it is our desire to limit the number of U.S. cities to be considered as possible U.S. coterminal points. Consequently, we have selected 16 additional cities for consideration as U.S. coterminals for transatlantic passenger and/or cargo service. Our selection was accomplished in a manner which gives due regard to the traffic-generating capability and geographical location of all cities which might be considered as possible domestic coterminals points.[10] Thus, with one exception—Hartford, Conn.—the cities we have selected rank in the top 25 U.S. cities in terms of domestic revenue passenger miles generated for the 12 months

---

[1] Filed as part of the original document.

[1] Order 73-8-70 dated August 14, 1973 and issued September 11, 1973 was incorrectly numbered and dated. It is now being reissued bearing a current date and number.

[2] Filed as part of the original document.

[1] Filed as part of the original document.

[1] With the exception of Pan American's authority at San Juan, the carrier's U.S. coterminal points are authorized on a permanent basis.

[2] Pan American's application for renewal of routes 132 and 133 was filed in Docket 24818. In addition to renewal of its temporary authority on routes 132 and 133, Pan American requests authority to allow stopover privileges at any coterminal point named in its certificate to any person traveling between any other coterminal, on the one hand, and any foreign point named in the certificate, on the other hand.

[3] TWA's application, as amended, for renewal of route 147, was filed in Docket 24816.

[4] Seaboard's application for renewal of its authority to carry property and mail only over route 119 was filed in Docket 24825.

[5] Appendix A contains a list of each carrier's temporary authority.

[6] Capitol International Airways, Inc., Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., and World Airways, Inc. Universal Airlines, Inc. initially received transatlantic charter authority by Order 71–5–132, which authority was suspended by Order 72–8–129. Although this authority was renewed along with other supplementals by Order 72–5–9, the Board subsequently stayed the effectiveness of the renewed certificate (Order 72–6–144).

[7] Order 72–5–9, served May 4, 1972.

[8] We shall not include in this investigation the renewal of TWA's temporary authority to serve the People's Republic of China. In view of the unique circumstances involved, we believe that consideration of the question of service to the People's Republic of China would unnecessarily delay and complicate the rest of this investigation and should not be considered at this time. TWA's existing authority will continue in effect pursuant to 5 U.S.C. 558(c).

[9] The following is a list of the existing domestic coterminal points:

Baltimore—Pan American, TWA, Seaboard (hyphenated with Washington)
Boston—Pan American, TWA, Seaboard
Chicago—Pan American, TWA, Seaboard
Cleveland—Seaboard
Detroit—Pan American, TWA, Seaboard
Los Angeles—Pan American, TWA, Seaboard
New York—Pan American, TWA, Seaboard
Philadelphia—Pan American, TWA, Seaboard
Portland—Pan American
San Francisco—Pan American, TWA, Seaboard
San Juan, P.R.—Pan American (temporary)
Seattle—Pan American
Washington, D.C.—Pan American, TWA, Seaboard (to be served through Dulles and hyphenated with Baltimore)

[10] The additional points to be considered for U.S. coterminal authority are as follows: Atlanta, Cleveland, Dallas/Ft. Worth, Denver, Hartford, Houston, Kansas City, Las Vegas, Miami, Minneapolis/St. Paul, New Orleans, Phoenix, Pittsburgh, St. Louis, San Diego, and Tampa.

V 38-187 SEP 27 73 XUM

ended December 31, 1971.[11] Similar criteria have proved workable in the past in enabling the Board to determine a manageable number of coterminal points to consider in a case of this sort.[12]

In addition, the issues in this proceeding will embrace consideration of transatlantic cargo charter authority. This is consistent with our previous expressions of intent to consider transatlantic supplemental cargo authority contemporaneously with our review of the renewal of the temporary transatlantic authority held by the scheduled carriers.[13]

We have determined that final Board action in this proceeding may constitute a major Federal action which might significantly affect the quality of the human environment within the meaning of section 102 of the National Environmental Policy Act of 1969. Accordingly, this proceeding will be conducted in accordance with the standards and procedures set forth in § 399.110 of the Board's Policy Statements.[14] In addition, we are directing the Director, Bureau of Operating Rights, to prepare and circulate a draft environmental impact statement prior to the hearing for consideration and comment by the parties, other environmentally concerned Federal agencies, and other interested persons.

Since a primary focus of this proceeding will be directed to the consideration of the renewal of the temporary scheduled and supplemental authority, we will not look with favor upon any requests to expand the scope of this proceeding to include consideration of (1) additional foreign points, or (2) requests for domestic "fill-up rights" between U.S. coterminal points. Consideration of these issues would unnecessarily complicate and delay this proceeding.[15]

We are herewith terminating the East Coast Points-Europe Service Investigation, Docket 19255, and dismissing all other pending applications for transatlantic authority, without prejudice to a full consideration of requests that new applications which conform to the scope of the instant proceeding be consolidated with the herein instituted transatlantic case.[16] The East Coast Points case was instituted in 1967 [17] to consider the authorization of transatlantic service from new East Coast gateways to relieve congestion at existing gateways—principally New York. In view of the changes in economic conditions since that time, and in view of the staleness of the pleadings in the East Coast Points case, we will terminate that case and invite consolidation of appropriate applications into this proceeding.

Finally, with the scope of the proceeding established by this order, it is our intention that this investigation will proceed expeditiously. Accordingly, we contemplate that the instant proceeding will be set promptly for prehearing conference, and that the Administrative Law Judge assigned will establish the most expeditious procedural schedule possible with due regard to the rights of the parties and the development of an adequate record, to which procedural schedule the parties will strictly adhere.

*Accordingly, it is ordered,* That:

1. A proceeding, to be known as the Transatlantic Route Proceeding, Docket 25908, be and it hereby is instituted and shall be set down for expeditious hearing before an Administrative Law Judge of the Board at a time and place hereafter designated;

2. The proceeding instituted by paragraph 1 above shall include consideration of:

(a) Whether the public convenience and necessity require the renewal of the temporary transatlantic certificate authority held by Pan American World Airways, Inc., in routes 132 and 133, Trans World Airlines, Inc., in route 147 (except at Canton and Shanghai), and Seaboard World Airlines, Inc., in route 119;

(b) Whether the public convenience and necessity require the certification of authority to provide transatlantic passenger, cargo (combination or all-cargo) and mail service, either on a temporary or permanent basis, to the foreign points considered in paragraph 2(a) above from the following U.S. points:

Atlanta, Ga., Baltimore, Md., Boston, Mass., Chicago, Ill., Cleveland, Ohio, Dallas/Ft. Worth, Tex., Denver, Colo., Detroit, Mich., Hartford, Conn., Houston, Tex., Kansas City, Mo., Las Vegas, Nev., Los Angeles, Calif., Miami, Fla., Minneapolis/St. Paul, Minn., New Orleans, La., New York, N.Y., Philadelphia, Pa., Phoenix, Ariz., Pittsburgh, Pa., Portland, Oreg., St. Louis, Mo., San Diego, Calif., San Francisco, Calif., San Juan, P.R., Seattle, Wash., Tampa, Fla., and Washington, D.C.;

(c) Whether the public convenience and necessity require the grant of stopover privileges at the domestic coterminal points in issue;

(d) Whether the public convenience and necessity require the renewal of the certificates of public convenience and necessity held by Capitol International Airways, Inc., Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., Universal Airlines, Inc., and World Airways, Inc., authorizing transatlantic supplemental air transportation;

(e) Whether the public convenience and necessity require the certification of transatlantic supplemental cargo authority on a temporary or permanent basis; and

(f) What will be the impact on the human environment of final Board action in this proceeding.

3. Insofar as they conform to the scope of this proceeding, as set forth in paragraph 2 above, the applications of Pan American World Airways, Inc., Docket 24818, Trans World Airlines, Inc., Docket 24816, and Seaboard World Airlines, Inc., Docket 24825, be and they hereby are consolidated with the proceeding instituted by paragraph 1 above; to the extent not consolidated, the foregoing applications be and they hereby are dismissed without prejudice;

4. The East Coast Points-Europe Service Investigation, in Docket 19255, be and it hereby is terminated;

5. The applications listed in Appendix B below, be and they hereby are dismissed without prejudice;

6. Petitions for reconsideration of this order and motions to consolidate appropriate applications shall be filed 20 days from the service date of this order and answers thereto shall be filed 10 days thereafter; and

7. A copy of this order shall be served on each certificated air carrier; the cities listed in Appendix B below; each city listed in paragraph 2(b) above; the Governor of each state listed in Appendix C below, the Governor of Puerto Rico, and the Mayor-Commissioner of the District of Columbia; the state environmental protection agencies listed in Appendix C below; each party to the East Coast Points-European Service Investigation; the Departments of Commerce, Health, Education, and Welfare, Interior, State, and Transportation; the Environmental Protection Agency; the Council on Environmental Quality; and the National Aeronautics and Space Administration.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE FEDERATIVE REPUBLIC OF BRAZIL

### Entry or Withdrawal From Warehouse for Consumption

SEPTEMBER 24, 1973.

On October 23, 1970, the United States Government, in furtherance of the objectives of, and under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of the Federative Republic of Brazil concerning exports of cotton textiles and cotton textile products from the Federative Republic of Brazil to the United States over a five-year period beginning on October 1, 1970, and extending through September 30, 1975. On May 9, 1972, the bilateral agreement was amended and extended through September 30, 1977. Among the provisions of the agreement, as amended, are those establishing an aggregate limit for the 64 categories, group limits, and within the group limits specific limits on Categories 1-4, 9, 18/19 and part of 26 (printcloth), 22/23, part of 26/27 (duck), part of 26/27 (other than printcloth and duck), part of 30/31, 50, 51, 55, and part of 64 for the fourth agreement year beginning October 1, 1973.

Accordingly, there is published below a letter of September 24, 1973, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textiles and cotton textile products in Categories 1-4, 9, 18/19 and part of 26 (printcloth), 22/23, part of 26/27 (duck), part of 26/27 (other than printcloth and duck), part of 30/31, 50, 51, 55, and part of 64, produced or manufactured in the Federative Republic of Brazil, which may be entered or

V 38-187 SEP 27 73 XUM

withdrawn from warehouse for consumption in the United States for the twelve-month period beginning October 1, 1973, and extending through September 30, 1974, be limited to the designated levels. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, as amended, but are designed to assist only in the implementation of certain of its provisions.

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
*Department of the Treasury,*
*Washington, D.C. 20229.*

SEPTEMBER 24, 1973.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of October 23, 1970, as amended, between the Governments of the United States and the Federative Republic of Brazil, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective October 1, 1973, and for the twelve-month period extending through September 30, 1974, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textiles and cotton textile products in Categories 1-4, 9, 18/19 and part of 26 (printcloth), 22/23, part of 26/27 (duck), part of 26/27 (other than printcloth and duck), part of 30/31, 50, 51, 55, and part of 64, produced or manufactured in the Federative Republic of Brazil, in excess of the following levels of restraint:

| Category: | *12-month levels of restraint* |
|---|---|
| 1-4 ---------- pounds-- | 7,549,728 |
| 9 ---------- square yards-- | 13,891,200 |
| 18/19 and part of 26 | |
| 18/19 and part of 26 do---- (printcloth).[1] | 12,154,800 |
| 22/23 ---------- do---- | 5,209,200 |
| Part of 26/27 (duck)[2] do---- | 2,894,000 |
| Part of 26/27 (other do---- than print cloth and duck)[1, 2] | 7,524,562 |
| Part of 30/31[3] --------pieces-- | 6,652,874 |
| 50 ---------- dozen-- | 45,531 |
| 51 ---------- do---- | 39,027 |
| 55 ---------- do---- | 15,889 |
| Part of 64 (only pounds-- T.S.U.S.A. Nos.: 366.6500 and 386.2500). | 251,652 |

[1] In Category 26, the T.S.U.S.A. numbers for printcloth are:

[2] The T.S.U.S.A. Nos. for duck are:

320.--01 through 04, 06, 08
321.--01 through 04, 06, 08
322.--01 through 04, 06, 08
326.--01 through 04, 06, 08
327.--01 through 04, 06, 08
328.--01 through 04, 06, 08

[3] All of Categories 30 and 31 except T.S.U.S.A. No. 366.2740.

| | | |
|---|---|---|
| 320.--34 | 322.--34 | 327.--34 |
| 321.--34 | 326.--34 | 328.--34 |

In carrying out this directive, entries of cotton textiles and cotton textile products in the above categories, produced or manufactured in the Federative Republic of Brazil, which have been exported to the United States from the Federative Republic of Brazil prior to October 1, 1973, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the period October 1, 1972 through September 30, 1973. In the event that the above levels of restraint for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter.

The levels of restraint set forth above are subject to adjustment pursuant to the provisions of the bilateral agreement of October 23, 1970, as amended, betweeen the Governments of the United States and the Federative Republic of Brazil which provide, in part, that within the aggregate limit and group limits, the limitations on specific categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements. Any appropriate adjustments pursuant to the provisions of the bilateral agreement referred to above, will be made to you by further letter.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on April 29, 1972 (37 FR 8802), as amended on February 14, 1973 (38 FR 4436).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Federative Republic of Brazil and with respect to imports of cotton textiles and cotton textile products from the Federative Republic of Brazil have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
*Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.*

## COUNCIL ON ENVIRONMENTAL QUALITY

### ENVIRONMENTAL IMPACT STATEMENTS

#### Notice of Public Availability

Environmental impact statements received by the Council on Environmental Quality from September 17 through September 21, 1973.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, 202-447-3965.

FOREST SERVICE

*Draft*

Recreation Cabins, Ketchikan Area, Tongass N.F., Alaska, September 19: Proposed is the construction and operation of seven recreation cabins on salt water access in roadless areas of the Ketchikan Area, Revillagigedo Island, Tongass National Forest. The cabins will primarily serve the boating public, providing shelter for both normal and emergency boating conditions. Impact will include the clearing of one-sixteenth acre of ground for each cabin, and pollution from cabin use (15 pages). (ELR Order No. 31525) (NTIS Order No. EIS 73 1525-D.)

Timber Sales, Sierra National Forest, Fresno County, Calif., September 13: Proposed is the continued preparation of the Home Camp, Line Creek, Billy Creek, and Bear Creek Timber Sales, to be advertised and awarded to the highest bidder. The 8,115 acre Study Area is located within the 23,020 acre Kaiser inventoried roadless area of the Sierra National Forest. There will be soil erosion, water sedimentation, noise and air pollution from logging activities. There is potential for stimulation of development of private property in Line Creek Basin (90 pages). (ELR Order No. 31499) (NTIS Order No. EIS 73 1499-D.)

*Final*

Vegetation Control, several counties in New Mexico, September 12: Proposed is the use of mechanical equipment and fire to control spreading Pinyon-Juniper and Sagebrush on lands of Apache, Gila, and Santa Fe National Forests, in Centron, Grant, Sandoval, Rio Arriba, and San Miguel Counties. There will be temporary adverse impact to air, soil, water and aesthetic qualities, and to wildlife, (140 pages). Comments made by: EPA, DOI, state and local agencies, and concerned citizens. (ELR Order No. 31495) (NTIS Order No. EIS 73 1495-F.)

SOIL CONSERVATION SERVICE

*Final*

Big Running Water Ditch Watershed, Lawrence and Randolph Counties, Ark., September 14: The proposed project involves protection of the 43,952 acre watershed. Project measures include land treatment and 82 miles of channel improvement. Five hundred acres of woodland will be committed to the action, with adverse effects to local wildlife populations (77 pages). Comments made by: USA, HEW, DOI, EPA, and state agencies. (ELR Order No. 31501) (NTIS Order No. EIS 73 1501-F.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202-693-7168.

*Draft*

Cave Run Lake, Licking River Basin, several counties in Kentucky, September 19: The statement refers to the proposed construction of the Cave Run Dam and related project works on the Licking River, for purposes of flood control, general recreation, water quality, and fish and wildlife recreation. Thirty-one thousand acres, 14,870 of which will be inundated, will be converted to public ownership as a result of the project. Fifty miles of free flowing stream with 21 miles of tributaries will be converted to slack water impoundment. An influx of visitors will affect the tranquility which presently prevails. (Louisville District) (33 pages). (ELR Order No. 31526) (NTIS Order No. EIS 73 1526-D.)

Flood Protection, Pottstown (2), Pa., September 18: The statement, a revised draft, refers to a flood control project which involves two miles of channel work on the Schuylkill River, and the removal of a constriction in Manatawny Creek. River bottom ecology will be disrupted by channel modification (Philadelphia District) (72 pages). (ELR Order No. 31515) (NTIS Order No. EIS 73 1515-D.)

Galveston Harbor and Channel, Tex., September 14: Proposed is the deepening of Galveston Channel from its previous authorized depth of 36 feet to its new authorized depth of 40 feet. Spoil will be deposited in leveed areas on Pelican and Galveston Islands. Dredging activities will have adverse impact to marine biota. (Galveston District) (21 pages). (ELR Order No. 31503) (NTIS Order No. EIS 73 1503-D.)

*Final*

Bushley Bayou Flood Control Project, Louisiana, September 20: The statement considers the advisability of providing backwater flood protection to the Bushley Bayou area by means of a loop levee, gravity floodgate, internal drainage canal and a 1,500 cubic-foot-per-second pumping station. Three thousand acres of suitable wildlife lands and water supply and control facilities will be acquired to mitigate project induced fish and wildlife losses. Adverse effects of the action are loss of 5,900 acres of bottomland hardwood forests, loss of fish and wildlife habitat and possible damage to Indian mounds of archeological value (Vicksburg District). Comments made by: USDA, EPA, DOI, DOT, HEW, and state agencies. (ELR Order No. 31528) (NTIS Order No. EIS 73 1528-F.)

South Fork Zumbro River, Olmstead County, Minn., September 19: The statement refers to the proposed modification of 10 miles of channel on the Zumbro, Bear Creek, and Cascade Creek, along with supplementary levee and pump station construction. The purpose of the action is that of flood control. There will be a disruption of greenbelt corridors and a loss of natural riparian habitat. The area provides an overwintering habitat for Canada geese and giant Canada geese which is of national importance; it would be adversely affected. Two residences and eight businesses would be displaced (St. Paul District) (87 pages). Comments made by: USDA, DOT, HEW, DOI, EPA, state agencies, and concerned citizens. (ELR Order No. 31524) (NTIS Order No. EIS 73 1524-F.)

NAVY

Contact: Mr. Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of the Navy, Washington, D.C. 20350, 202-697-0892.

*Draft*

Navy Family Housing Construction, Orange County, Fla., September 14: Proposed is the construction of 600 family housing units to accommodate servicemen and dependents from the Naval Training Center near Orlando. The project site is on the eastern portion of McCoy Air Force Base. Approximately 120 acres of unimproved, non-productive land will be converted into a residential community (31 pages). (ELR Order No. 31502) (NTIS Order No. EIS 73 1507-D.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202-755-0940.

*Draft*

Village Creek Facility, Fort Worth, Tex., September 17: The statement refers to the proposed construction of additional wastewater treatment facilities at the Village Creek Wastewater Treatment Facility, Fort Worth. Work includes the 51 MGD expansion of the existing 45 MGD facility. The proposed project is expected to increase water quality of the Trinity River and aid in the orderly development of member communities. There will be construction disruption, and increased odor and noise from the new project. (ELR Order No. 31505) (NTIS Order No. EIS 73 1505-D.)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426, 202-386-6084.

*Draft*

Parr Hydroelectric Project No. 1894, Fairfield and Newberry Counties, S.C., September 14: The proposed action is the approval of an application by the South Carolina Electric and Gas Co. for a new major license for its constructed Project No. 1894. Additionally, the applicant is seeking authorization for the construction of a new pumped storage project. The upper pool would then be used for cooling the Virgil C. Summer Nuclear Station's two 900 MW units, and possibly a third 900 MW unit. Adverse impact of the new project would include the inundation of 9,350 acres, with the elimination of farm land, timber crops, and wildlife habitat, and the displacement of 25 homes. (ELR Order No. 31500) (NTIS Order No. EIS 73 1500-D).

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL HIGHWAY ADMINISTRATION

*Draft*

Doolittle Drive (Route 61), Alameda County, Calif., September 17: The proposed project consists of widening a mile long portion of Route 61, Doolittle Drive, from two lanes to four lanes with parking. Increases in the peak noise level will occur (50 pages). (ELR Order No. 31506) (NTIS Order No. EIS 73 1506-D.)

U.S. 40, Routt County, Colo., September 17: The proposed project is the re-construction of a 10-mile segment of U.S. 40. The project will require an unspecified amount of land and will displace 2 or 3 families. A section 4(f) review will be filled to obtain one acre of land from Soda Spring. The facility will traverse a river causing an increase in siltation, and erosion. Increases in air pollution will occur (168 pages). (ELR Order No. 31507) (NTIS Order No. EIS 73 1507-D.)

US 54 and K-96, Butler County, Kans., September 19: The project involves the improvement of 13 miles of US-54 and K-96; to meet freeway standards. The facility will be a 4-lane highway with controlled access. Depending upon the alternate chosen, the project will require from 338 to 622 acres of land for right-of-way and displace 0 to 42 homes, 0 to 5 farms, 0 to 10 businesses and 1 nonprofit organization. Four to 14 land severances will occur. Adverse impacts are: loss of agricultural land, loss of wildlife, alterations or destruction of terraces, waterways and ponds resulting in erosion, and water pollution. Increases in noise pollution levels will occur (92 pages). (ELR Order 31522) (NTIS Order No. EIS 73 1522-D.)

*Final*

Perry Hill Road, Montgomery County, Ala., September 11: The project consists of improving a present 2-lane facility to a 4-lane facility. Length is 2.26 miles. An unspecified amount of land will be taken for right-of-way (36 pages). Comments made by: USDA, COE, DOC, DOI, EPA, HUD, HEW, and state agencies. (ELR Order No. 31484) (NTIS Order No. EIS 73 1484-F.)

Coosa River Bridge, Etowah County, Ala., September 19: The statement considers the proposed construction of a bridge across the Coosa River between Southside and Rainbow City. The project provides an additional bridge for southbound traffic and retains the existing bridge for northbound traffic. Approximately 32 acres of land are required for right-of-way will be displaced (47 pages). Comments made by: USDA, DOI, EPA, HEW, HUD, state, regional, and local agencies. (ELR Order No. 31517) (NTIS Order No. EIS 73 1517-F.)

State Route 86; Riverside County, Calif., September 11: Proposed is the construction of 22 miles of four lane freeway between the Imperial County line and near Indio to replace portions of existing 2 lane conventional State Routes 86 and 111. The project will traverse the Southern Coachella Valley. Twenty-four families will be displaced. Adverse effects to air basin and local air quality; changes in the ambient noise levels; and potential water pollution and erosion will occur (68 pages). Comments made by: COE, EPA, HEW, DOI, DOT, state, and local agencies. (ELR Order No. 31494) (NTIS Order No. EIS 73 1494-F.)

Mount Carmel Connector, Connecticut, September 18: The statement considers the proposed construction of a 1.8 mile section of new highway (relocation of Route 10) from Whitney Avenue to State Street and Dixwell Avenue. A strip of land approximately 350 feet wide will be required for right-of-way; a bridge will be constructed across the Mill River. Seven businesses will be displaced. A4(f) statement will be filed as a historic site would be affected (116 pages). Comments made by: USDA, DOC, HEW, HUD, DOI, OEO, state, and regional agencies. (ELR Order No. 31514) (NTIS Order No. EIS 73 1514-F.)

F.A.P. 406, Logan and Tazewell Counties, Ill., September 19: The proposed freeway is a four-lane, fully access controlled facility extending from north of Lincoln to Morton. Approximately 800 acres of agricultural land will be committed to the project, several residences will be displaced and some local land access patterns revised. Air, noise and water pollution will increase (155 pages). Comments made by: USDA, COE, DOI, DOT, EPA, HUD, state, and private agencies. (ELR Order No. 31519) (NTIS Order No. EIS 73 1519-F.)

US Highway 30, Hall County, Nebr., September 19: The statement refers to the proposed improvement and/or relocation of a segment of existing US 30 and the extension of First Street in Grand Island. The purpose of the project is to provide a highway facility which will extend the present one-way system and merge the traffic on the one-way system through the Central Business District of Grand Island back into the two-directional traffic on US 30. Adverse effects include acquisition of right-of-way and relocation impacts on wildlife (37 pages). Comments made by: USDA, COE, DOI, DOT, EPA, HUD, and state agencies. (ELR Order No. 31518) (NTIS Order No. EIS 73 1518-F.)

Forest Highway Route 12, Sandoval, Los Alamos, and Santa Fe Counties, Santa Fe, New Mexico, September 18: The project is the proposed reconstruction of 26 miles of Forest Highway Route 12 (State Route 126) from Fenton Lake to the abandoned community of Senorita, within the Santa Fe National Forest. (The draft statement filed by the Forest Service November 23, 1971, PB-204 377-D for a 15 mile segment of this route has been incorporated in this statement.) Adverse effects include stream pollution during construction and the crossing of a major elk migratory route (118 pages). Comments made by: USDA, DOT, HUD, FPC, HEW, DOC, AEC, DOI, state agencies, and Concerned citizens. (ELR Order No. 31510) (NTIS Order No. EIS 73 1510-F.)

SR 1215 and SR 1201, Cartaret County, N.C., September 19: The project consists of improving the existing secondary road of

V 38-187 SEP 27 73 XUM

Bogue Banks which connects Atlantic Beach and the New Bouge Sound Bridge. The facility is initially a two-lane road which will be expanded to a five lane facility. Project length is 17.3 miles. The project will displace 20 families and commit 53 acres of property to the facility. Soil erosion and increases in noise levels exceeding FHWA standards will occur (82 pages). Comments made by: USDA, COE, GSA, HEW, HUD, state, and regional agencies. (ELR Order No. 31520) (NTIS Order No. EIS 73 1520–F.)

I–95 Fayetteville Bypass, Cumberland County, N.C., September 19: The document, a revised draft, refers to the proposed construction of a 17 mile segment of I–95 to bypass the City of Fayetteville. Approximately 1600 acres of rural land which is suitable for wildlife habitat will be committed to the project. Thirty-five residences will be displaced. Minor stream siltation and construction disruption will occur. (The original statement, ELR Order No. 1603; NTIS Order No. PB–205 583–D, was filed January 12, 1972.) (300 pages.) Comments made by: USDA, COE, DOC, DOI, EPA, FPC, GSA, HEW, HUD, OEO, AHP, and state, and local agencies. (ELR Order No. 31527) (NTIS Order No. EIS 73 1527–F.)

LR 1022 (Traffic Route 219), Cambria County, Pa., September 18: Proposed is the relocation of approximately 15 miles of four-lane Traffic Route 219. Approximately 160 acres of farmland and 240 acres of woodland will be acquired for right-of-way. Eighteen residences, 2 businesses, one apartment building, and six barns will be displaced; 61 mobile homes will be affected (90 pages). Comments made by: USDA, EPA, DOI, and state agencies. (ELR Order No. 31509) (NTIS Order No. EIS 73 1509–F.)

Legislative Route 16034, Clarion County, Pa., September 18: Proposed is the construction of 2.7 miles of new four-lane roadway parallel to existing L.R. 16043 and L.R. 409. The project also includes reconstruction of 0.96 mile of U.S. Route 322 (L.R. Route 65) and the construction of an interchange with Route 322. The 50 acres of land required for right-of-way has already been purchased (78 pages). Comments made by: USDA, EPA, DOI, DOT, and state agencies. (ELR Order No. 31512) (NTIS Order No. EIS 73 1512–F.)

U.S. Highway 87, Hale and Lubbock Counties, Tex., September 11: The proposed project is the improvement of U.S. Highway 87 to interstate standards. The project is 25 miles in length. The facility will displace 10 families and 1 business, and require an unspecified amount of right-of-way. Utility adjustments will be required for 18 miles of power lines, 3 miles of telephone lines, 11 miles of underground telephone cable, 3 miles of natural gas line, 155 feet of high pressure oil lines and 675 feet of water lines. Increases in noise pollution will occur (35 pages). Comments made by: USDA, COE, DOI, EPA, HEW, state, and regional agencies. (ELR Order No. 31486) (NTIS Order No. EIS 73 1486–F.)

West Virginia Route 56, Jackson County, W. Va., September 19: The proposed project consists of the construction of approximately 2.7 miles of four-lane expressway connecting WVA Route 2 and I–77. The number of displacements and the amount of right-of-way required will depend upon the route selected. Temporary construction-related effects to the environment will occur (95 pages). Comments made by FPC, GSA, OEO, EPA, USDA, DOI, COE, HEW, and AHP. (ELR Order No. 31521) (NTIS Order No. EIS 73 1521–F.)

P.A.S. Route 145, Washington County, Wis., September 18: The project consists of the reconstruction of 3.1 miles of P.A.S. Route 145, C.T.H. "G". Twenty-three acres of land will be acquired for right-of-way; a 4(F) review will be filed to obtain 6 acres from the Jackson Marsh Wildlife Area. Cedar Creek will be traversed by the facility, causing erosion and siltation. Increases in air pollution levels will occur (42 pages). Comments made by: EPA, DOI, DOT, and state agencies. (ELR Order No. 31513) (NTIS Order No. EIS 73 1513–F.)

URBAN MASS TRANSPORTATION ADMINISTRATION

*Draft*

Archer Avenue Line, Queens, N.Y., September 19: The New York City Transit Authority has filed an application for Federal capital grant assistance to construct a rapid rail transit extension 2.5 miles in length on the Archer Avenue Line. The whole structure will be underground except for 0.2 mile. Displacements include 12 families and 11 businesses (200 employees). Increases in noise will occur (110 pages). (ELR Order No. 31523) (NTIS Order No. EIS 73 1523–D.)

Philadelphia Airport High Speed Rail Line, Pennsylvania, September 14: The action involves the filing of an application for Federal capital grant assistance to construct a rapid rail system between Suburban Station Penn Center, Philadelphia and the passenger terminal at the Philadelphia International Airport. The line will be 9 miles long. Aerial portion of the line will have severe visual and acoustical impact on the Tinicum Wildlife Preserve. One scrap metal establishment will be displaced, and portions of a playground and P.E. Company will be acquired. Adverse impacts will occur to fish and wildlife habitat in the Tinicum Wildlife Reserve (88 pages). (ELR Order No. 31504) (NTIS Order No. EIS 73 1504–D.)

The following statement was inadvertently deleted from its appropriate Federal Register Listing. It was received by the Council on August 10, 1973.

Tijeras Canyon Projects (I–40), Bernalillo County, N. Mex., August 10: Four projects to complete the remaining link of I–40 through Tijeras Canyon are encompassed in this statement. Total project length is 11.8 miles; 460 acres are required for new right-of-way. Twenty acres of Section 4(f) land will be taken from Cibola National Forest. Eighty-eight families and 11 businesses will be displaced. The water quality in the Canyon may be degraded (123 pages). Comments made by: USDA, COE, DOI, DOT, EPA, HUD, state, and local agencies. (ELR Order No. 31321) (NTIS Order No. EIS 73 1321–F.)

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 19754–19755; FCC 73R–331]

### BISBEE BROADCASTERS, INC. AND WRYE ASSOCIATES

#### Memorandum Opinion and Order Enlarging Issues

In regard to applications of Bisbee Broadcasters, Inc., Bisbee, Arizona, Docket No. 19754, File No. BPH–7873; William F. Wrye & Rose D. Wrye, d/b as Wrye Associates, Bisbee, Arizona, Docket No. 19755, File No. BPH–7944; for construction permits.

1. This proceeding involves the mutually exclusive applications of Bisbee Broadcasters, Inc. (BBI) and Wrye Associates (Wrye) for authorization to construct a new FM broadcast station to operate on 92.1 MHz in Bisbee, Arizona, and published at 38 FR 15380. Now before the Review Board is a petition to enlarge issues, filed July 12, 1973, by Wrye, requesting the addition of various issues against BBI.[1]

2. Wrye requests, first, that issues should be added against BBI for lack of candor and "to show cause why its application should not be rejected because of faulty engineering" because, petitioner alleges, its owner and general manager, Howard Waterhouse, falsely stated[2] that there were no other radio stations or transmitter antenna sites in the vicinity of its proposed tower locations. In fact, Wrye alleges, there are "approximately seven" other towers within 300 feet of BBI's proposed site, which raises the possibility of interference with other services and degradation of BBI's own signal. Wrye alleges that BBI used six-year old engineering data in its application, and that "a simple thirty minute drive" would have disclosed the existence of these other towers. Wrye also requests that a Rule 1.65 issue and a second candor issue be added since Waterhouse stated in the application that BBI is applying for an FM permit largely because it has not been allowed to raise the power of standard broadcast Station KSUN, licensed to BBI, to 1,000 watts.[3] According to Wrye, KSUN is in fact broadcasting at 1,000 watts during the day. Wrye asks acceptance of its petition despite its untimeliness, arguing that prompt filing was impossible because of business commitments and because the Commission failed, despite repeated requests, to send pertinent correspondence to Wrye's proper address.

3. In opposition, BBI argues that Wrye has not shown good cause for the untimeliness of its petition; has failed to provide a supporting affidavit and to make a showing of competence with respect to engineering matters, as required by § 1.229(c) of the Commission's rules; and has failed to serve the petition by air mail as required by § 1.47(f) of the Rules. In a supplement to its petition, Wyre submits an affidavit of William F. Wrye, its owner and general manager, verifying the petition and stating that he visited the BBI proposed site on two occasions and observed the towers mentioned in the petition.

4. In opposition, the Broadcast Bureau declares that Wrye's petition, despite its procedural deficiencies, raises a serious question as to whether BBI falsely answered questions on its application form regarding the presence of

[1] Also before the Board are the following related pleadings: (a) Oppositon, filed July 18, 1973, by BBI; (b) supplement to petition, filed July 19, 1973, by Wrye; (c) opposition, filed July 23, 1973, by the Broadcast Bureau; (d) reply to BBI's opposition, filed July 24, 1973, by Wrye; (e) letter, filed August 7, 1973, by BBI; (f) comments on letter of August 7, 1973, filed August 16, 1973, by the Broadcast Bureau; and (g) reply to comments, filed August 23, 1973, by BBI.

[2] Wrye cites BBI's application, Form 301, Section V–B paragraphs 10 and 16(a), and Section V–G, paragraph 6.

[3] Wrye cites nothing specific in BBI's application. References to KSUN's operating power appear therein at: Form 301, Section II, p. 5; Exhibit 1A, p. 1; Exhibit 1C, p. 1; Exhibit E–1, pp. 1–2; amendment of September 5, 1972, pp. 10, 12.

other towers or antennae in the vicinity of its proposed tower site, which, absent a satisfactory explanation, would warrant exploration at hearing. However, the Bureau urges the Board not to add an engineering issue to determine the effects of the towers' proximity, since, in its view, Wrye's allegations lack specificity and are unsupported by a showing of engineering competence. The Bureau also opposes the addition of issues relating to KSUN's operating power; it argues that BBI did not misrepresent the facts in this regard since "any reference to 250 watts in the FM application apparently refers to the nighttime power of the AM station."

5. Replying to BBI, Wrye asserts that the competence of William Wrye in engineering matters is set forth in Exhibit E–1 of Wrye's application, and requests official notice of these qualifications, including his "experience . . . as Chief Radio Measurements Engineer for the U.S. Air Force Atlantic Missile Range." With respect to § 1.47, Wrye contends that service of its initial petition was effected by air mail, but inadvertently not noted, and amends its certificate of service to reflect this.

6. In a letter dated August 7, 1973, BBI calls the Board's attention to an amendment to its application, tendered August 6, 1973, along with a petition for leave to amend. This amendment, according to BBI, contains the "required information" and explains that its absence from the subject FM application was the inadvertent result of copying information from an application submitted by a previous owner of BBI. Commenting upon this, the Broadcast Bureau points out that BBI apparently submitted the engineering information from the old application subsequent to the time of the erection of the other towers. Although it has no objection to the correction of BBI's application in this regard, the Bureau states that "numerous problems" are raised by BBI's letter. Specifically, the Bureau notes that BBI's explanation is actually contained in the petition for leave to amend, not in the amendment, and that the explanation is not supported by affidavit. Finally, the Bureau notes that the Commission has indicated its disapproval of the use of letters rather than pleadings in disputed matters. In reply to the above, BBI apologizes for its use of the letter form and states that it did not submit an affidavit with its amendment or "explanation" because it was referring to information already on file with the Commission. That is, BBI contends, its application apprised the Commission that its engineering derived from a previous application.

7. The Review Board is of the opinion that the procedural infirmities in Wrye's petition are not dispositive. Although good cause has not been shown for the lateness of the petition, certain questions raised therein are serious enough to warrant a decision on the merits. See The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 143, 8 RR 2d 611 (1966). Wrye's other procedural failures have either been corrected or are de minimis. BBI's letter of August 7 is subject to more serious objections. The Board has made plain its intention not to accept supplemental pleadings unless clearly justified. In re Filing of Supplemental Pleadings Before the Review Board, 40 FCC 2d 1026 (1973). Therefore, we will not consider BBI's letter in deciding the questions before us. However, since the amendment to BBI's application has been accepted by the Administrative Law Judge without objection from Wrye, it would serve no purpose to exclude the material contained therein, and in BBI's petition for leave to amend, from our deliberation. In the amendment, BBI concedes the presence of eleven other towers (including public safety, and utility operations) in the vicinity of its antenna site. We will therefore add an issue to determine the adverse effects, if any, which may result from the proximity of applicant's proposed tower and antenna system to other towers and antenna systems. We will not, however, add a lack of candor issue. While the information before us clearly indicates poor judgment and carelessness on Waterhouse's part in submitting information contained in a previous application without ascertaining its current accuracy, it does not demonstrate any intention or motive to conceal the existence of the towers from the Commission. Cf. Media, Inc., 27 FCC 2d 228, 20 RR 2d 1153 (1971). We also decline to add issues relating to KSUN's operating power. Although Waterhouse's statements in this regard are confusing, he does seem to have been particularly concerned with KSUN's nighttime power, which was and still is 250 watts. There is no indication that he intended to misrepresent either the authorized power of the AM station or his motives for wishing to acquire an FM construction permit, or that he failed to report significant information as required by § 1.65.

8. *Accordingly, it is ordered,* That the petition to enlarge issues, filed July 12, 1973, by Wrye Associates, is granted to the extent indicated below, and is denied in all other respects; and

9. *It is further ordered,* That the issues in this proceeding are enlarged to include the following issue:

To determine, with respect to the application of Bisbee Broadcasters, Inc., whether the proximity of applicant's proposed tower and antenna system to other towers and antenna systems will result in adverse effects either affecting applicant's qualifications or warranting the imposition of a condition on any grant to Bisbee Broadcasters, Inc.

10. *It is further ordered,* That the burden of proceeding with the introduction of evidence and the burden of proof under the issue specified shall be upon Bisbee Broadcasters, Inc.

Adopted: September 17, 1973.

Released: September 19, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Acting Secretary.*

## PANEL CHAIRMEN AND STEERING COMMITTEE OF THE CABLE TELEVISION TECHNICAL ADVISORY COMMITTEE

### Notice of Meeting

SEPTEMBER 19, 1973.

The Panel Chairmen and the Steering Committee of the Cable Television Technical Advisory Committee will hold an open meeting on Wednesday, October 3, 1973, at 10 a.m. The meeting will be held at the FCC Annex, 1229 20th Street, Washington, D.C., in Room A110. The agenda of the meeting will include:

(1) Report by Executive Committee.
(2) Report of New Executive Secretary.
(3) Review of Solicitation Progress.
(4) Report by Panel Chairmen.
(5) Coordination of Reporting Procedures.
(6) Setting of Meeting Dates.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
*Acting Secretary.*

## CANADA-U.S.A. TV AGREEMENT OF 1952

### Amendment of Table A

SEPTEMBER 20, 1973.

Amendment of table A of the Canada-U.S.A. TV Agreement of 1952 (TIAS–2594). Supplement No. 3 (to the table of Canadian Television channel allocations within 250 miles of the Canada-U.S.A. border, dated March 21, 1973, as revised to January 20, 1973).

Pursuant to exchange of correspondence between the Department of Communications of Canada and the Federal Communications Commission, Table A of the Canadian-U.S.A. Television Agreement has been amended as follows:

| City and Province | Channel No. | |
|---|---|---|
| | Delete | Add |
| Brandon, Manitoba | [1]2 | [2]2 |

[1] Brandon site to be located no less than 170 miles from co-channel allocation at Grand Forks, N. Dak.
[2] Brandon site to be located no less than 170 miles from co-channel assignment at Grand Forks, N. Dak., with site coordinates 48° 08' 24" N., 97° 59' 38" W., and limited to 100 kilowatts maximum ERP and 1,000 feet EHAAT, or the equivalent, in the general direction of Grand Forks, N. Dak.

Further amendments to Table A will be issued as public notices in the form of numbered supplements or recapitulated lists.

Copies of the basic Table of Allocations may be obtained from Information Planning Associates, Inc., 310 Maple Drive, Rockville, Maryland 20850 (telephone 340–0250, area code 301).

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
*Chief, Broadcast Bureau.*

## FEDERAL MARITIME COMMISSION

### BRADBURY TECHNICAL CO. AND BRADY-HAMILTON STEVEDORE CO.

#### Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763 (46 U.S.C. 814)).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before October 17, 1973. Any person desiring a hearing o nthe proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Steven R. Schell, Esq., Black, Heterline, Beck, & Rappleyer, 12th Floor, The Bank of California Tower, Portland, Oreg. 97205.

Agreement No. T-2854, between Bradbury Terminal Company (Bradbury) and Brady-Hamilton Stevedore Co. (B.H.S.) is a 1-year arrangement (with renewal options) whereby B.H.S. will provide stevedoring and terminal services at Bradbury's Port Westward, Oregon terminal facility. As compensation B.H.S. will be reimbursed for its operating expenses plus ten percent of its operating expenses to cover overhead for services performed in accordance with Bradbury's Port Westward Tariff No. 1, Bradbury shall provide and collect for the use of all port facilities and shall collect for all services described in its tariff.

Dated September 24, 1973.

By Order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
*Secretary.*

[Docket No. 73-57]

### SEA-LAND SERVICE, INC.

#### Order of Investigation and Hearing Regarding Possible Violations in Connection With Rates on Military Cargo

Sea-Land Service, Inc. (Sea-Land) is a common carrier by water operating inter alia between the East Coast of the United States and the United Kingdom and Europe. Sea-Land submits bids for the carriage of military cargo pursuant to the negotiated competitive procurement system administered by Military Sealift Command (MSC).

In response to the latest Request for Proposal (RFP)-800, First Cycle, issued by MSC, Sea-Land submitted a bid of $11.49 per measurement ton for the carriage of Cargo N.O.S. from U.S. East Coast ports to the United Kingdom and Europe on MSC Route Index 4 and 5, to be effective during the period July 1, 1973-December 31, 1973. For the previous RFP, Sea-Land had bid $13.00 per measurement ton for the carriage of Cargo N.O.S. on the same Routes.

Sea-Land's previous bid, along with the bids of other United States-flag carriers on those routes had been the subject of a Commission investigation in Docket No. 72-64, a docket which is being held in abeyance pending a Commission decision on Docket No. 72-65 a docket dealing with military rates on the Trans-Pacific routes (see Commission Order served September 7, 1973).

The examination of data submitted by Sea-Land as justification for its rates bid for RFP-800, 1st Cycle, revealed numerous areas which required additional analysis by the Commission's staff in order to determine whether Sea-Land was in compliance with the provisions of General Order 29 (46 CFR Part 549). Accordingly, the Commission's staff informed Sea-Land that the staff intended to conduct a field review to take place at Sea-Land's offices at Elizabeth, New Jersey. The review commenced on July 9, 1973.

The staff accountants examined data supplied by Sea-Land covering the following areas of cost information: Operating statistics, vessel expense, port and cargo expenses, administrative and general expense, vessel depreciation, inactive vessel expense, container overhead and indirect container costs, and container and chassis depreciation and lease expense. On the basis of the results of the field review, which are set out in a report by the staff accountants to the Director, Sealift Procurement Studies, the staff is of the opinion that Sea-Land's rate bid for the carriage of Cargo N.O.S. pursuant to RFP-800, 1st Cycle, on MSC Route Indexes 4 and 5 may be below the fully distributed cost of carrying that class of cargo on those routes, in violation of the provisions of General Order 29 (46 CFR Part 549) and section 18(b)(5) of the Shipping Act, 1916. Therefore, the Commission is of the opinion that an investigation should be undertaken in order to determine whether such rate bid is in fact so unreasonably low as to be detrimental to the commerce of the United States, hence warranting disapproval by the Commission. Since the subject rate is

in effect for only a six month period, and because the Commission wants the issue seasonably resolved, we are directing expedition of the proceeding as ordered below.

*Now, therefore it is ordered,* That, pursuant to section 22 of the Shipping Act, 1916, as amended, an investigation and hearing is hereby instituted to determine the lawfulness of Sea-Land's RFP-800 First Cycle bid rate for carriage of Cargo N.O.S. under section 18(b)(5) of the Act:

*And it is further ordered,* That Sea-Land be made respondent in this proceeding:

*And it is further ordered,* That this proceeding be referred for public hearing before an administrative law judge of the Commission's Office of Administrative Law Judges with directions that the proceeding be expedited to the fullest extent possible, and that upon completion of the hearing the record developed therein be certified to the Commission; and that the hearing be held at a date and place to be determined and announced by the Presiding Administrative Law Judge:

*And it is further ordered,* That the Commission's Bureau of Hearing Counsel shall serve upon respondent Sea-Land a copy of the above-mentioned report of field review, as soon as practicable after service of this order; and

*It is further ordered,* That the provisions of Rule 12 of the Commission's rules of practice and procedure which require leave of the Commission to take testimony by deposition or by written interrogatory if notice thereof is served within 20 days of the commencement of the proceeding, are hereby waived for this proceeding inasmuch as the expeditious conduct of business so requires. The provision of Rule 12(h) which requires leave of the Commission to request admissions of fact and genuineness of documents if notice thereof is served within 10 days of commencement of the proceeding, is similarly waived; and

*It is further ordered,* That notice of this Order be published in the FEDERAL REGISTER and a copy thereof and notice of hearing be served upon respondent; and upon the Commanding Officer, Military Sealift Command; and

*It is further ordered,* That any person, other than respondent who desires to become a party to this proceeding and to participate therein shall file a petition to intervene with the Secretary, Federal Maritime Commission, Washington, D.C. 20573, promptly with copies to parties; and

*Finally, it is further ordered,* That all future notices issued by or on behalf of the Commission in this proceeding, including notice of time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
*Secretary.*

[FR Doc.73-20670 Filed 9-26-73;8:45 am]

[Commission Order No. 1 (Revised)]

### STATEMENTS OF ORGANIZATION AND FUNCTIONS

SEPTEMBER 15, 1973.

SEC. 1. *Purpose.*

1.01 The purpose of this Order is to describe the organization and functions of the Federal Maritime Commission.

SEC. 2. *Organization of the Federal Maritime Commission.*

2.01 *Establishment and Composition of the Commission*—The Federal Maritime Commission was established as an independent agency by Reorganization Plan No. 7 of 1961, effective August 12, 1961. The Federal Maritime Commission is composed of five members, appointed by the President, by and with the consent of the Senate. The President designates one of such members to be the Chairman.

2.02 *Quorum*—Any three members in office constitute a quorum for the transaction of the business of the Federal Maritime Commission. The affirmative vote of any three Commissioners shall be sufficient for the disposition of any matters which may come before the Commission.

2.03 *Organizational Components*—The Federal Maritime Commission has the following major organizational components:

1. Office of the Chairman of the Federal Maritime Commission.
2. Offices of the Members of the Federal Maritime Commission.
3. Managing Director.
(1) Bureau of Compliance.
a. Office of Agreements.
b. Office of Tariffs and Intermodalism.
c. Office of Domestic Commerce.
(2) Bureau of Industry Economics.
a. Office of Economic Analysis.
b. Office of Financial Analysis.
c. Office of Sealift Procurement Studies.
(3) Bureau of Certification and Licensing.
a. Office of Water Pollution Responsibility.
b. Office of Freight Forwarders.
c. Office of Passenger Vessel Certification.
(4) Bureau of Hearing Counsel.
(5) Office of Personnel.
(6) Office of Budget and Finance.
(7) Division of Office Services.
(8) District Offices.
4. Office of the Secretary.
5. Office of the General Counsel.
6. Office of Administrative Law Judges.

SEC. 3. *Lines of responsibility.*

3.01 The *Managing Director* shall be responsible to and report to, the Chairman, Federal Maritime Commission.

3.02 The Bureau of Compliance, Bureau of Industry Economics, Bureau of Certification and Licensing, Bureau of Hearing Counsel, Office of Personnel, Office of Budget and Finance, Division of Office Services, and the District Offices shall be responsible to, and report to the Managing Director.

3.03 The *Office of the Secretary* and *the Office of the General Counsel* shall report to the Chairman, subject to the managerial direction and coordination of the Managing Director. The Managing Director shall, with respect to the activities of such offices, (1) coordinate the development and execution of major programs, policies, plans, and projects to accomplish the objectives established by the Chairman and/or the Commission; (2) determine work priorities and schedule the flow of work to meet such priorities; (3) review program and activity progress and otherwise maintain surveillance to assure the accomplishment of programs and projects of major importance.

3.04 The *Office of Administrative Law Judges* shall report to the Chairman, and coordination of the Managing subject to the administrative direction Director.

SEC. 4. *General functions.*

4.01 The Federal Maritime Commission is responsible for administering the statutory functions and programs for the regulation of common carriers by water in the foreign and domestic offshore commerce of the United States and of other persons, under provisions of the Shipping Act, 1916, as amended; Merchant Marine Act, 1920, as amended; the Intercoastal Shipping Act, 1933, as amended; and other applicable statutes.

SEC. 5. *Specific functions of the organizational components of the Federal Maritime Commission.*

5.01 The *Office of the Chairman of the Federal Maritime Commission* executes and administers the activities of the Federal Maritime Commission; serves as the excutive head of the Commission; presides at meetings of the Commission; and administers the policies of the Commission to its responsible officials, and through conferences with and reports from such officials assures the efficient discharge of their responsibility.

5.02 The *Offices of the Members of the Federal Maritime Commission* are responsible, with the Chairman, for establishing the policies of the Commission; making decisions and determinations in the disposition of docketed cases and other matters within the jurisdiction of the Commission; and performing other duties as may be assigned under the provisions of Reorganization Plan No. 7 of 1961.

5.03 The Managing Director directs and administers the organizations and activities as enumerated in subsections 5.031 through 5.038 below; provides managerial administrative direction to, and effects work coordination with the Office of the General Counsel and the Office of the Secretary; provides administrative direction and coordination to the Office of Administrative Law Judges; assists, advises, and consults with the Chairman and/or the Federal Maritime Commission in the performance of major executive functions; and directs general administrative activities.

1. The *Bureau of Compliance* is responsible for program development, administration, and activities in connection with the operations of common car-

V 38 I 187 SEP 27 73 XUM

riers by water in the foreign and domestic offshore commerce of the United States, conferences of such carriers, terminal operators, and other persons subject to the regulatory jurisdiction of the Federal Maritime Commission, to the extent that such operations fall within the program activities of the several offices which comprise the Bureau of Compliance, and administers the activities of such offices.

The Bureau develops long-range programs, new or revised policies and standards, and rules and regulations, with respect to the program activities of the Bureau.

The program activities of the Bureau of Compliance are carried out by the Office of Agreements, the Office of Tariffs and Intermodalism, and the Office of Domestic Commerce, as outlined below:

a. The *Office of Agreements* (1) examines agreements and modifications thereto filed by common carriers by water in the foreign commerce of the United States, conferences of such carriers, and other persons subject to the regulatory jurisdiction of the Federal Maritime Commission for approval under statutory requirements; conducts negotiations with parties to such agreements for the purpose of obtaining information and compliance with applicable statutes, rules, and regulations; prepares for publication in the FEDERAL REGISTER notices of filings of agreements; prepares recommendations for approval, disapproval, or modification, or for formal investigation or hearing with respect thereto (these agreements include conference agreements, transshipment agreements, joint service agreements, pooling agreements, sailing agreements, container interchange agreements, and other cooperative working arrangements); (2) examines and recommends appropriate action on requests for permission to use contract rate systems; (3) reviews annual and special reports submitted by common carriers by water in the foreign commerce of the United States, conferences of such carriers, and other persons subject to the regulatory jurisdiction of the Federal Maritime Commission, including minutes of conference meetings, shippers' requests and complaints reports, reports of self-policing, and pooling statements, and makes appropriate recommendations with respect to any such reports or activities which indicate possible violations of applicable statutes or Commission regulations; (4) prepares recommendations, collaborating with the Managing Director and the Bureau of Hearing Counsel, for formal action and proceedings by the Commission; and (5) conducts studies and surveys for the development of new or revised policy and standards, and rules and regulations with respect to the program activities of the Office of Agreements.

b. The *Office of Tariffs ad Intermodalism* (1) reviews the rates and practices of common carriers by water in the foreign commerce of the United States, conferences of such carriers, and other persons subject to the regulatory jurisdiction of the Federal Maritime Commission in accordance with the requirements of law and the rules, orders, and regulations of the Commission; makes appropriate recommendations with respect to possible violations of applicable statutes and/or Commission regulations; and makes appropriate recommendations with respect to applications for special permission to file tariffs on less than statutory notice, or for waiver of tariff filing rules and regulations; (2) recommends appropriate action with respect to the rejection of improper or incorrectly filed tariffs; (3) prepares recommendations, collaborating with the Managing Director and the Bureau of Hearing Counsel for formal action and proceedings by the Commission; (4) supervises the public reference room which provides assistance to the public in the inspection of agreements, tariffs, and other public records, documents, and publications which are on file with or prepared by the Bureau of Compliance, and assists in obtaining copies of such documents for the public; (5) promulgates and implements policy, guidelines, and regulations to effectively regulate the activities of intermodal common carriers in the commerce of the United States; (6) insures that changes and developments due to new technologies and intermodal services are accomplished in an orderly manner; (7) oversees the regulatory aspects of a developing modern and efficient international transport system which provides movement of cargoes on a coordinated basis between the various transportation modes; (8) works closely with other regulatory agencies (Interstate Commerce Commission for surface transportation within the United States and the Civil Aeronautics Board for air transportation) in the development of multiagency regulations for the movement of cargoes; and (9) conducts studies and surveys for the development of new or revised policy and standards, rules, and regulations with respect to the program activities of the Office of Tariffs and Intermodalism.

c. The *Office of Domestic Commerce* (1) examines agreements and amendments thereto filed by terminal operators to determine whether they require approval under Section 15 of the Shipping Act, 1916; (2) makes appropriate recommendations with respect to applications for special permission to file tariffs on less than statutory notice, or for waiver of tariff filing rules and regulations; (3) obtains complete information and supporting data in order to determine the effect of agreements upon the public interest; (4) prepares recommendations to the Commission for approval, disapproval, modification, or formal hearing with respect to the agreement; (5) examines tariffs of domestic offshore carriers and terminal operators and conferences for compliance with sections 15, 16, and 17 of the Shipping Act, 1916, and provides advice relative to tariffs filed; (6) recommends appropriate action with respect to the prescription of reasonable maximum and minimum rates of common carriers by water engaged in the domestic offshore commerce of the United States and conferences of such carriers; (7) assists Bureau of Hearing Counsel with respect to domestic offshore and terminal matters involved in proceedings before the Commission; (8) reviews informal complaints or protests against the practices, methods, and operations of persons subject to the regulatory jurisdiction of the Federal Maritime Commission; (9) takes appropriate action relative thereto by (a) resolution through voluntary agreement of the parties, or (b) recommendation that the complaint or protest be rejected as not violative of the shipping statutes or rules or orders of the Commission, or (c) referral to the Managing Director for field inquiry, or (d) in collaboration with the Bureau of Compliance and the Bureau of Hearing Counsel, recommendation for formal action and proceedings by the Commission; (10) reviews minutes of domestic and terminal conference meetings to determine whether the parties may be acting outside the scope of their conference agreements; and (11) conducts studies and surveys for the development of new or revised policy and standards, and rules and regulations with respect to the program activities of the Office of Domestic Commerce.

2. The *Bureau of Industry Economics* is responsible for program development, administration, and activities in connection with the procurement, compilation, interpretation, and analysis of all essential data to establish with validity the economic implication and significance of the Commission's actions in administering its functions and regulatory authorities.

The Bureau develops long-range programs, new or revised policies and standards, and rules and regulations, with respect to the program activities of the Bureau.

The Program activities of the Bureau of Industry Economics are carried out by the Office of Economic Analysis, the Office of Financial Analysis, and the Office of Sealift Procurement Studies, as outlined below:

a. The *Office of Economic Analysis* (1) conducts research and economic studies necessary to the Commission in the fulfillment of its regulatory responsibilities, and compiles, interprets, and analyzes economic data essential to the study of freight rate structures and levels; (2) conducts studies leading to determinations as to the reasonableness of specific cargo rates in the ocean trades of the United States; (3) studies the economic implications of shipping practices; (4) studies the economic implications of trends of commodity movement, worldwide; (5) analyzes costs attributable to the movement of cargoes in the oceanborne foreign and domestic offshore commerce of the United States; and (6) conducts related studies and analyzes requisite to rendering by the Commission of sound economic judgments and decisions.

b. The *Office of Financial Analysis* (1) makes recommendations with respect to annual and special financial reports to be submitted by common carriers and other persons subject to the Act to bring about accurate, uniform, and comprehensive disclosure of financial data to the Commission; (2) recommends accounting and reporting instructions; (3) conducts examinations of the accounts, records, reports, and financial statements of such carriers to obtain and ascertain compliance with commission regulations; (4) analyzes justification for increased or lowered rates of common carriers and other persons subject to the Act; (5) develops and administers a continuing program for the audit of financial accounts and records of common carriers and other persons subject to the Commission's regulatory authorities; (6) develops cost formulas and related financial reporting requirements for application to the movement of waterborne commerce in the domestic and foreign commerce of the United States; (7) prepares reports and appears in rate proceedings and/or proceedings where rates and/or costs are a paramount issue; (8) conducts studies, as appropriate, for the purpose of determining classes of depreciable property, depreciation percentages, replacement costs, reasonable overhead, etc.; (9) analyzes, summarizes, and prepares studies and analytical reports of the financial statements filed with the Commission by common carriers and other persons subject to the Act; and (10) conducts special studies, audits, and analyses of a financial nature for other branches of the Commission.

c. The *Office of Sealift Procurement Studies* (1) develops and administers a continuing program for the audit of the financial accounts and records of common carriers involved in carrying military cargoes; (2) promulgates and revises the accounting regulations of the Commission prescribing uniform systems of accounting for common carriers carrying military cargo; (3) plans and develops cost formulas for application to the movement of waterborne military cargo; (4) develops cost for use in cases or proceedings to determine whether particular rates on military cargo may be detrimental to commerce; (5) renders interpretations of accounting regulations and effects the correction or adjustment of deviations; (6) makes continuing studies to determine classes of depreciable property, depreciation percentages, and reasonable allocation procedures of non-direct costs; (7) develops annual and special financial reports to be submitted by common carriers carrying military cargo; and (8) prepares analytical reports for consideration of the Commission and the staff related to the review and analysis of the costs and rate structures of carriers participating in the carriage of military cargo.

3. The *Bureau of Certification and Licensing* is responsible for program development administration and activities in connection with the certification of vessel owners and operators as to their financial responsibility to satisfy liability which may be incurred as a result of water pollution under the provisions of the Federal Water Pollution Control Act, as amended; the licensing of ocean freight forwarders under the provisions of the Shipping Act, 1916; and the certification of owners and operators of passenger vessels as to their financial responsibility to satisfy liability incurred by nonperformance of voyages or resulting from injury or death under Public Law 89–777.

The Bureau develops long-range programs, new or revised policies and standards, and rules and regulations with respect to the program activities of the Bureau.

The program activities of the Bureau of Certification and Licensing are carried out by the Office of Water Pollution Responsibility, the Office of Freight Forwarders, and the Office of Passenger Vessel Certification, as outlined below:

a. The *Office of Water Pollution Responsibility* (1) administers the provisions of Pub. L. 92–500 with respect to evidence of financial responsibility by owners and operators of vessels which may be subjected to liability to the United States for the cost of removal of oil or hazardous substances from the navigable waters of the United States, adjoining shorelines, or waters of the contiguous zone; (2) receives and processes applications for Certificates of Financial Responsibility (Pollution) from vessel owners and operators who wish to evidence their financial responsibility by means of self-insurance, surety bonds, certificates of insurance, guaranties, insurance policies, or other methods acceptable to the Commission; (3) reviews and makes appropriate recommendations on the adequacy of such evidence; (4) receives and reviews prescribed periodic accounting reports from certificants who have qualified as self-insurers to assure that such certificants remain financially stable; (5) recommends issuance, denial, revocation, modification, or suspension of such certificates; (6) notifies certificants whose evidence of financial responsibility is being cancelled or due to expire, and make appropriate recommendations in connection therewith; (7) makes appropriate recommendations with respect to violations of enabling statutes or regulations promulgated thereunder; (8) maintains records, files, and listings of applicants, certificants, vessels, and underwriters for use internally and by other Government agencies; (9) recommends acceptance or denial of persons or firms wishing to qualify with the Commission as acceptable underwriters; and (10) conducts studies and surveys for the development of new or revised policy and standards, and rules and regulations with respect to the program activities of the Office of Water Pollution Responsibility.

b. The *Office of Freight Forwarders* (1) reviews applications for the licensing of freight forwarders and makes appropriate recommendations as to the granting or denying of such applications, in accordance with the requirements of law and the rules, orders, and regulations of the Commission; (2) reviews the practices of licensed freight forwarders and makes appropriate recommendations with respect to any activities which indicate possible violations of applicable statutes or Commission regulations; (3) makes appropriate recommendations, collaborating with the Managing Director and the Bureau of Hearing Counsel, for formal action and proceedings by the Commission; and (4) conducts studies and surveys for the development of new or revised policy and standards, and rules and regulations with respect to the program activities of the Office of Freight Forwarders.

c. The *Office of Passenger Vessel Certification* (1) administers the provisions of Pub. L. 89–777 with respect to the financial responsibility of operators of passenger vessels to meet liability for nonperformance of voyages and claims for injury or death aboard ships; (2) makes appropriate recommendations with respect to the financial responsibility of said operators of passenger vessels; and (3) conducts studies and surveys for the development of new or revised policy and standards, and rules and regulations with respect to the program activities of the Office of Passenger Vessel Certification.

4. The *Bureau of Hearing Counsel* acts as Hearing Counsel in all formal investigations, nonadjudicatory investigations, rulemaking proceedings, and any other proceedings initiated by the Federal Maritime Commission under the Shipping Act, 1916, and other applicable shipping acts; examines and cross-examines witnesses, prepares and files briefs, motions, exceptions, and other legal documents, and participates in oral arguments before the Administrative Law Judges and the Federal Maritime Commission; acts as Hearing Counsel, where intervention is permitted, in formal complaint proceedings initiated under section 22 of the Shipping Act; reviews and concurs in all recommendations of other bureaus recommending the institution of formal proceedings; prepares all orders, notices, and other documents which institute formal or informal Commission proceedings; furnishes consultative and advisory services, and otherwise assists other bureaus in formulating procedures to be followed in connection with investigations and/or formal Commission proceedings; serves, with the concurrence of the Managing Director, as requested by the General Counsel and under his direction in matters of court litigation by or against the Commission rising out of violations previously adjudicated by the Commission.

5. The *Office of Personnel* plans and administers personnel management activities of the Commission in compliance with Federal laws and regulations; serves as staff advisor on personnel matters to executive management, supervisors, and individual employees; and initiates and implements programs designed to insure a progressive personnel program within the Commission.

6. The *Office of Budget and Finance* formulates recommendations and interprets budgetary policies and programs; develops and presents budget requests

V 38 I 187 SEP 27 73 XUM

and justifications; develops and administers fiscal plans and systems of internal control which provide accountability for public funds; and is responsible for financial management policies, procedures, and planning.

7. The *Division of Office Services* provides office services for the Commission and its District Offices, including communication services, printing, binding, reproduction, mail services, procurement of supplies and equipment, space management, building services, safety programs, and records storage and retrieval; and formulates guides, regulations, methods, and procedures governing the use of office services and facilities.

8. The *District Offices* represent the Federal Maritime Commission within their respective geographic areas; provide liaison between the industry and the shipping public and FMC headquarters, conveying pertinent information, highlighting regulatory problem areas, and recommending courses of action and solutions; furnish information, advice, counsel, and access to Commission public documents to the various segments of the regulated shipping industry and other evincing interest and concern in the Commission's work; receive informal complaints involving shippers and the regulated industry and take appropriate action thereon; provide advisory, consultative, and investigative services in support of substantive programs within the cognizance of the various bureaus of the Commission; plan and conduct investigations of alleged violations of the Shipping Acts, investigations of freight forwarders, compliance checks, background surveys, field audits, and other studies; and recommend policies to strengthen enforcement of the shipping laws.

5.04 The *Office of the Secretary* is responsible for preparing agenda and dockets of matters subject to action by the Federal Maritime Commission and the preparation of minutes with respect to such actions; receiving and processing formal complaints and staff recommendations for investigation and hearing involving violations of the Shipping Act, 1916, as amended, and other applicable laws, including the (a) reviewing of complaints for sufficiency and compliance with the Commission's Rules of Practice and Procedure; (b) assigning official docket numbers to such complaints and orders of investigation and hearings; (c) serving copies of such complaints and orders upon the respondent(s); and (d) subsequent to Administrative Law Judges' decisions or other disposition of cases by Administrative Law Judges, ruling upon requests for enlargement of time for the filing of exceptions to decisions and replies thereto, including ruling upon late filings of exceptions or replies, and processing all other motions and petitions to the Commission for action; issuing orders and notices of actions of the Commission; receiving formal communications, petitions, notices, documents, and other instruments directed to the Chairman and/or the Commission and maintaining official files and records with respect thereto; authenticating instruments or documents or documents of the Commission; administering oaths; issuing subpoenas at the direction of the Commission; disseminating complete, accurate, and necessary information on the activities, functions, and responsibilities of the Federal Maritime Commission to the maritime industry, news media, the general public, and other agencies of the Government; and providing copies of initial decisions of the Administrative Law Judges, reports of the Commission, publications, and miscellaneous documents submitted in proceedings before the Commission.

5.05 The *Office of the General Counsel* serves as the law office of the Commission and provides legal counsel to the Commission and its staff; reviews and approves as to legality and/or prepares proposed Commission rules, regulations, and orders; prepares drafts of proposed legislation and reports to Congressional committees; and represents the Commission in all matters before the courts.

5.06 The *Office of Administrative Law Judges* holds hearings and renders decisions therein in formal rulemaking and adjudicatory proceedings as provided in the Shipping Act, 1916, as amended, and other applicable laws and other matters assigned by the Commission, all in accordance with the Administrative Procedure Act and the Commission's Rules of Practice and Procedure. Administrative Law Judges are exempt from all direction, supervision, or control except for administrative purposes.

SEC. 6. *Delegation of authorities.*

6.01 Pursuant to Section 105 of Reorganization Plan No. 7 of 1961, effective August 12, 1961, the Federal Maritime Commission hereby delegates the authorities set forth in sections 7, 8, and 9 of this order to the officials designated therein, subject to the limitations prescribed in sections 6.02, 6.03, 6.04, and 6.05 of this Order.

6.02 The delegatees shall exercise the authorities delegated herein in a manner consistent with the established policy of the Federal Maritime Commission.

6.03 The authorities delegated herein, except those delegated to the Chief Administrative Law Judge, may not be exercised unless resolution of all legal questions and approval of the form of all legal documents have been obtained either concurrently or previously, from the General Counsel, or his designee.

6.04 The delegatees may in their discretion redelegate their authorities, unless otherwise restricted herein, to subordinate personnel under their direction, provided that such redelegation does not grant the recipient the authority to subsequent redelegation. The delegatees retain full responsibility for actions taken by their subordinates under any authority redelegated by them.

6.05 Notwithstanding the delegations contained herein, the Commission retains its discretionary right of review as provided in Section 105(b) of Reorganization Plan No. 7 of 1961.

SEC. 7. *Specific authorities delegated to the Managing Director.*

7.01 Authority to accept or reject tariff filings of domestic offshore carriers or common carriers in the foreign commerce of the United States, or conferences of such carriers for failure to meet the requirements of statute or the Commission's requirements, or for lack of completeness and clarity of the rules and regulations governing the tariff, or noncompliance with Special Permission or other Order of the Commission.

7.02 Authority to approve Special Permission applications submitted by domestic offshore carriers or carriers in the foreign commerce of the United States, or conferences of such carriers for relief from statutory and/or Commission tariff requirements.

7.03 Authority to review and determine the validity of alleged or suspected violations, exclusive of formal complaints, of the shipping statutes and rules and regulations of the Commission by common carriers by water in the domestic offshore or the foreign commerce of the United States, terminal operators, freight forwarders, and other persons subject to the provisions of the shipping statutes; authority to determine corrective action necessary with respect to violations and conduct negotiations and obtain compliance by the violating parties, except where violations involve major questions of policy or major interpretations of statutes, or orders, rules, and regulations of the Commission, or acts having material effect upon the commerce of the United States; authority to determine, with respect to the foregoing, whether alleged or suspected violations should or should not be referred to the Department of Justice for prosecution.

7.04 Authority to (a) approve, within the framework of prescribed Commission policy and criteria, applications for licenses and to issue or reissue or transfer licenses to persons, partnerships, corporations, or associations desiring to engage in the business of ocean freight forwarding; (b) issue a letter stating that the Commission intends to deny an application unless within 20 days applicant requests a hearing to show that denial of the application is unwarranted or unless within 30 days required security has been filed; (c) deny any application for freight forwarder license where applicant has received a letter of intent to deny and, within notice period, has not requested a hearing or has not furnished the required security; (d) rescind letters of intent to deny or grant extensions of the time specified in such letters; (e) revoke the grandfather rights of applicants who have requested withdrawal of the application, moved from their last known address and reasonable efforts to locate their present whereabouts have failed, or been denied a license in accordance with subsection (c) of this section; (f) revoke the license of a freight forwarder upon the request of the licensee; (g) upon receipt of notice of cancellation of any bond, to notify the licensee in writing that his license will automatically be suspended or revoked, effective on the bond cancellation date, unless a new or reinstated bond is submitted to and approved by the Commission prior to such date, and subsequently to order such suspension or revocation for failure to maintain a bond; (h) approve extension or extensions of time to licensed freight forwarders, in which to furnish the Commission the name(s) and ocean freight forwarding experience of the managing partner(s) or officer(s) who will replace the qualified partner or officer upon whose qualifications the original licensing was approved.

7.05 Authority to develop, prescribe, and administer programs to assure compliance with the provisions of the shipping statutes of all persons subject thereto, including without limitation those programs for: (a) The submission of regular and special reports, information, and data; (b) the conduct of a plan for the field audit of activities and practices of common carriers by water in the domestic offshore trade and the foreign commerce of the United States, conferences of such carriers, terminal operators, freight forwarders, and other persons subject to the shipping statutes; and (c) the conduct of rate studies.

7.06 Authority to approve, pursuant to Section 15, Shipping Act, 1916, as amended, unprotested, cooperative working arrangements between independent ocean freight forwarders eligible to carry on the business of forwarding pursuant to Section 44, Shipping Act, 1916, as amended.

7.07 Authority to approve, pursuant to Section 15, Shipping Act, 1916, as amended, unprotested modifications to terminal conference agreements and unprotested terminal leases, licenses, assignments, or other agreements of a similar character for the use of terminal property or facilities between persons subject to the Shipping Act, 1916, as amended.

7.08 Authority to determine whether terminal leases, licenses, assignments, or other agreements of a similar character for the use of terminal property or facilities between persons subject to the Shipping Act, 1916, as amended, are within the purview of Section 15.

7.09 Authority to approve unprotested transshipment agreements covering transportation of cargo in the foreign commerce of the United States which are not unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, detrimental to the commerce of the United States, contrary to the public interest, or violative of the Shipping Act, 1916, as amended; such agreements should include the:

1. Complete name of the parties entering into the arangement and specifically setting forth the portion of the trade that each party will cover, including; ports or areas of origin and destination; cargo to be carried; and ports or ranges of ports at which cargo will be transshipped;

2. Responsibility of parties for establishing and filing the applicable through rates, rules, regulations, and other tariff matters;

3. Provisions for the apportionment of the through revenue and transshipment expenses stated in percentages, or specific dollar amounts;

4. When applicable, provisions for application and apportionment of other expenses such as wharfage, special handling, lighterage, tonnage dues, surcharges, and other such charges assessed by a governmental authority;

5. When desired by the parties, provisions for indemnification between the parties for liabilities incurred from loss, damage, delay, or misdelivery of goods;

6. Provision for the termination of the agreement within a stated notice period; and

7. Provisions for the submission to the Federal Maritime Commission for approval of any modification or addition to the agreement.

7.10 The authority to approve or disapprove applications as specified in General Order 11, "Reports of Rate Base and Income Account by Vessel Operating Common Carriers in the Domestic Offshore Trades," Sections: 512.3(c)(1)—extensions for time of filing; 512.3(c)(2)—alternate data; and 512.3(c)(3)—waiver of filing.

7.11 Authority to (1) approve modifications to Section 15 agreements when such modifications are filed in accordance with the requirement of Commission rule or general order and are clearly in compliance with the criteria and/or intent of such rule or general order, and (2) require modification of the filed amendment to the extent necessary to conform to the requirements of such rule or general order.

7.12 Authority to approve the termination of Section 15 (Shipping Act, 1916, as amended) agreements between common carriers by water and conferences of such carriers engaged in the foreign and domestic commerce of the United States, and between other persons subject to the Act, after publication of notice of intent to terminate in the Federal Register, when such terminations are (1) requested by the parties to the agreements or, (2) deemed to have occurred when it is determined that the parties are no longer engaged in concerted activities requiring Section 15 approval and official inquiries and correspondence cannot be delivered to the parties.

7.13 Authority to approve unprotested modifications to approved Section 15 agreements which are filed to (1) reflect changes in the name of a country or port, or (2) increase or decrease the trade areas within the general geographic scope of the approved existing agreements, provided that such increases or decreases do not involve foreign-to-foreign trade, or (3) reflect non-substantive changes in language, procedures, or administration.

7.14 Authority to approve, pursuant to Section 15, Shipping Act, 1916, as amended, unprotested passenger agency agreements and container interchange agreements between ocean common carriers.

7.15 Authority to issue notices of intent to cancel inactive tariffs of carriers in the domestic offshore trades, after a diligent effort has been made to locate the carrier without success, or if the carrier has advised the Commission that it no longer offers a domestic common carrier service but refuses to cancel its tariff upon written request; and to cancel such tariff if within 30 days after publication, the carrier does not furnish reasons why such tariff should not be cancelled.

7.16 Authority to accept financial and operating data alternative to that required by Sections 511.2 and 511.3 of General Order 5, upon application and a showing of good cause that it is unnecessary to require full compliance to enable the Commission to carry out its regulatory function.

7.17 Authority to waive the requirements of Section 511.2 and 511.3 of General Order 5, for carriers with less than $25,000 gross revenue, upon application and showing that the gross revenue earned did not exceed such amount as provided by the Order.

7.18 Authority to grant or deny, in accordance with the provisions of General Order 5, Amendment 5, extensions of time limits prescribed for the filing of financial reports by common carriers who are subject to the provisions of General Order 5, 46 CFR, Part 511.

7.19 Authority to (a) approve applications for Certificates of Financial Responsibility (Pollution) and to issue or reissue or transfer such Certificates; (b) issue a letter stating that the Commission intends to deny an application, indicating the reasons therefor, unless within 20 days applicant requests a hearing to show that denial of the application is unwarranted; (c) deny any application for a Certificate where applicant has received a letter of intent to deny and, within the notice period, has not requested a hearing; (d) rescind letters of intent to deny or grant extensions of the time specified in such letters; (e) revoke a Certificate upon request of the certificant; (f) upon receipt of notice of termination of evidence of financial responsibility to notify the certificant in writing that his Certificate will automatically be suspended or revoked, effective on the termination date, unless new or reinstated evidence of financial responsibility is submitted to and approved by the Commission prior to such date, and subsequently to order such suspension or revocation for failure to maintain adequate evidence of financial responsibility; and (g) exercise the various grants, waivers, and requests relating to the filing of financial data by self-insurers and guarantors pursuant to the provisions of section 542.5(a) of General Order 27.

SEC. 8. *Specific authorities delegated to the Secretary.*

8.01 Authority to approve applications for permission to practice before

V 38 I 187 SEP 27 73 XUM

the Federal Maritime Commission and to issue admission certificates to approved applicants.

8.02 Authority to prescribe a time limit less than 20 days from date published in the FEDERAL REGISTER for the submission of written comments with reference to agreements filed pursuant to Section 15 of the Shipping Act, 1916, as amended.

8.03 Authority to assign informal small claims dockets under Subpart S of the Commission's Rules of Practice and Procedure to those Commission employees designated as "settlement officers."

SEC. 9. *General authority delegated to the Managing Director, Secretary, General Counsel, and Chief Administrative Law Judge.*

9.01 Authority to exercise all functions and take all actions necessary to direct and carry out the duties and responsibilities assigned to the Managing Director, Office of the Secretary, Office of the General Counsel, and Office of Administrative Law Judges, in accordance with their functional assignments as heretofore prescribed in this Order.

SEC. 10. *Public requests for information and decisions.*

10.01 *General.* 1. 5 U.S.C. 552(a)(1)(A) requires that every agency shall separately state and currently publish in the FEDERAL REGISTER for the guidance of the public, descriptions of its central and field organizations and the established places at which, the officers from whom, and the methods whereby, the public may secure information, make submittals or requests, or obtain decisions.

2. Section 5 of this Order complies with that portion of the above requirement with respect to stating and publication of the descriptions of the Federal Maritime Commission's central and field organizations.

3. Accordingly, there is hereby stated and published for the guidance of the public the established places at which, the officers from whom, and the methods whereby, the public may secure information, make submittals or requests, or obtain decisions. For this purpose, the officials hereinafter designated may be contacted by telephone, in writing, or in person, at the Federal Maritime Commission, 1405 I Street, NW., Washington, D.C. 20573.

10.02 The *Director, Bureau of Compliance,* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Bureau of Compliance. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Bureau of Compliance as set forth in Section 5.031 of this Order shall be filed with or submitted to the Director, Bureau of Compliance.

10.03 The *Director, Bureau of Industry Economics,* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Bureau of Industry Economics. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Bureau of Industry Economics as set forth in Section 5.032 of this Order shall be filed with or submitted to the Director, Bureau of Industry Economics.

10.04 The *Director, Bureau of Certification and Licensing,* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Bureau of Certification and Licensing. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Bureau of Certification and Licensing as set forth in Section 5.033 of this Order shall be filed with or submitted to the Director, Bureau of Certification and Licensing.

10.05 The *Director, Bureau of Hearing Counsel,* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Bureau of Hearing Counsel, provided, however, that the dissemination of such information or decisions is not prohibited by the Administrative Procedure Act or the Commission's Rules of Practice and Procedure. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Bureau of Hearing Counsel as set forth in Section 5.034 of this Order shall be filed with or submitted to the Director, Bureau of Hearing Counsel.

10.06 The *Director, Office of Personnel,* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Office of Personnel as set forth in Section 5.035 of this Order.

10.07 The *Director, Office of Budget and Finance,* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Office of Budget and Finance as set forth in Section 5.036 of this Order.

10.08 The *Directors of the Atlantic, Gulf, and Pacific Districts,* and the *Puerto Rico Area Representative* will provide information and decisions to the public within their geographic areas, or will expedite the obtaining of information and decisions from headquarters, relating to the program activities of the District Offices as set forth in Section 5.038 of this Order. The addresses of these offices are as follows:

Director, Atlantic District
Federal Maritime Commission
26 Federal Plaza, Room 4012
New York, New York 10007

Director, Gulf District
Federal Maritime Commission
P.O. Box 30550
610 South Street, Room 1035
New Orleans, Louisiana 70190

Director, Pacific District
Federal Maritime Commission
681 Market Street, Room 618
San Francisco, California 94105

Area Representative, Puerto Rico
Federal Maritime Commission
Old San Juan Post Office Bldg., Room 108A
Commercio and Tanca Streets
San Juan, Puerto Rico

Mailing Address:
P.O. Box 3168
Old San Juan Station
San Juan, Puerto Rico 00904

10.09 The *Secretary* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Office of the Secretary. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Office of the Secretary as set forth in Section 5.04 of this Order shall be filed with or submitted to the Secretary.

10.10 The *General Counsel* will provide information and decisions, and will accept and respond to requests, relating to the program activities of the Office of the General Counsel. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Office of the General Counsel as set forth in Section 5.05 of this Order shall be filed with or submitted to the General Counsel.

10.11 The *Chief Administrative Law Judge* will provide information and decisions and will accept and respond to requests, relating to the program activities of the Office of Administrative Law Judges. Any document, report, or other submission required to be filed with the Federal Maritime Commission by statute or the Commission's rules and regulations relating to the specific functions of the Office of Administrative Law Judges as set forth in Section 5.06 of this Order shall be filed with or submitted to the Chief Administrative Law Judge.

10.12 The public may inspect or obtain copies of agreements, tariffs, and other public records or documents which are on file with or prepared by the Bureau of Compliance from the Public Reference Room, Bureau of Compliance, 1405 I Street NW., Washington, D.C. 20573.

SEC. *11. Effect on Other Orders.*

11.01 This Order supersedes Commission Order Number 1 (Revised) dated May 1, 1972, and all amendments and supplements published subsequent thereto.

HELEN DELICH BENTLEY,
*Chairman.*

[FR Doc.73-20667 Filed 9-26-73;8:45 am]

[Independent Ocean Freight Forwarder License No. 36]

## THADDEUS W. WYATT, AND T. W. WYATT CO.

### Order of Revocation

By letter dated August 1, 1973, T. W. Wyatt Co., 405 Montgomery Street, San Francisco, California 94104 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 36 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before August 30, 1973.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Thaddeus W. Wyatt, d/b/a T. W. Wyatt Co. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(g) (dated May 1, 1972);

*It is ordered,* That Independent Ocean Freight Forwarder License No. 36 of Thaddeus W. Wyatt, d/b/a T. W. Wyatt Co. be returned to the Commission for cancellation.

*It is further ordered,* That Independent Ocean Freight Forwarder License No. 36 be and is hereby revoked effective August 30, 1973.

*It is further ordered,* That a copy of this Order be published in the FEDERAL REGISTER and served upon Thaddeus W. Wyatt, d/b/a T. W. Wyatt Co.

WM. JARREL SMITH, JR.,
*Deputy Managing Director.*

[FR Doc.73-20671 Filed 9-26-73;8:45 am]

[Docket No. 73-58]

## UNITED STATES LINES, INC.

### Order To Show Cause

United States Lines, Inc. (USL) is a common carrier by water operating inter alia, between the East Coast of the United States and the United Kingdom and Europe. USL submits bids for the carriage of military cargo pursuant to the negotiated competitive procurement system administered by the Military Sealift Command (MSC).

In response to the latest Request for Proposal (RFP)–800, First Cycle, issued by MSC, USL submitted bids of $11.72 per measurement ton for carriage of Cargo N.O.S. $21.32 per measurement ton for carriage of refrigerated cargo and $24.20 per measurement ton for carriage of vehicles from U.S. East Coast ports to the United Kingdom and Europe on MSC Route Index 4 and 5, to be effective during the period July 1, 1973–December 31, 1973.

Pursuant to § 549.4(a) of General Order 29 (46 CFR 549.4(a)) USL submitted a certification that its rate bid for RFP–800 First Cycle complied with the requirements of General Order 29. In justifying these rates, USL reduced its costs by deducting a credit for "Military Inland Profit", which USL defines as that pool of revenue in excess of cost associated with moving a container of military cargo from point of origin to ocean port or from ocean port to final inland destination. (This does not include cost or time spent while the containers are on the vessel while in the port or at sea.)

By using the credit for "Military Inland Profit",[1] USL reduced its ocean carriage costs to a level where its rates bid cover its fully distributed costs as required by General Order 29. If the ocean carriage cost is not reduced for the credit for "Military Inland Profit", the rates bid for carriage of Cargo N.O.S. and refrigerated cargo would not cover fully distributed cost and would thus be in violation of section 18(b)(5) of the Shipping Act, 1916.

The Commission is seriously concerned that carriers may be tempted to avoid the standards of General Order 29 by seeking to offset costs attributable to the ocean carriage of military cargo by claiming profits on inland carriage of that cargo, as USL has sought to do here. Such a tactic is not sanctioned by General Order 29, since General Order 29 requires that the legality vel non of the rate for ocean carriage of military cargo must be determined with regard to the costs and revenues associated with such ocean carriage.

The Commission is of the opinion that unless USL can justify its use of profits on inland carriage of military cargo to offset costs attributable to the ocean carriage of that cargo, USL's rates bid for the carriage of Cargo N.O.S. and refrigerated cargo for RFP–800 First Cycle on MSC Routes 4 and 5 must be found to be in violation of General Order 29 and section 18(b)(5) of the Shipping Act, 1916, and be stricken from USL's tariff on file with the Commission.

*Now, therefore, it is ordered,* That pursuant to Section 22 of the Shipping Act, 1916 United States Lines be named respondent in this proceeding and that it be ordered to show cause why its rates bid for the carriage of Cargo N.O.S. and refrigerated cargo for RFP–800 First Cycle on MSC Route Index 4 and 5 should not be stricken from its tariff for failure to comply with 46 CFR Part 549, and section 18(b)(5) of the Shipping Act, 1916.

*It is further ordered,* That this proceeding shall be limited to the submission of affidavits and memoranda of law, replies, and oral argument. Should any party feel that an evidentiary hearing be required, that party must accompany any request for such hearing with a statement setting forth in detail the facts to be proven, their relevance to the issues in this proceeding, and why such proof cannot be submitted through affidavit. Requests for hearing shall be filed on or before October 15, 1973. Affidavits of fact and memorandum of law shall be filed by respondent and served upon all parties no later than the close of business October 15, 1973. Reply affidavits and memoranda shall be filed by the Commission's Bureau of Hearing Counsel and intervenors if any, no later than close of business October 25, 1973.

Time and date of oral argument if requested and/or deemed necessary by the Commission will be announced at a later date.

*It is further ordered,* That a notice of this order be published in the FEDERAL REGISTER and that a copy thereof be served upon respondent, and upon the Commanding Officer, Military Sealift Command, and

*It is further ordered,* That persons other than those already party to this proceeding who desire to become parties to this proceeding and to participate therein shall file a petition to intervene pursuant to Rule 5(1) of the Commission's rules of practice and procedure (46 CFR 502.72) no later than the close of business October 5, 1973.

*It is further ordered,* That all documents submitted by any party of record in this proceeding shall be directed to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, in an original and 15 copies as well as being mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
*Secretary.*

[FR Doc.73-20668 Filed 9-26-73;8:45 am]

[1] Although for purposes of this Order we are assuming that the actual amount claimed as "Military Inland Profit" by USL is accurate, we are issuing a section 21 Order to USL in order to determine the accuracy of the figure claimed.

## FEDERAL POWER COMMISSION

[Docket Nos. CI73-863, CI73-864, & CI73-865]

### BRACKEN OIL PROPERTIES, INC.

#### Notice Cancelling Hearing

SEPTEMBER 21, 1973.

On August 31, 1973, an order was issued fixing a hearing in the above-designated matters. On September 10, 1973, Hoover & Bracken Oil Properties, Inc. filed an application to withdraw the applications filed in the above matters.

Upon consideration, notice is hereby given that the hearing scheduled for September 27, 1973, in the above matters is cancelled.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20614 Filed 9-26-73;8:45 am]

[Docket No. CI73-903]

### DOUGLAS B. MARSHALL, ET AL.

#### Notice Changing Date of Hearing

SEPTEMBER 19, 1973.

On August 31, 1973, an order was issued setting the above matters for hearing, prescribing procedures and fixing the date of hearing.

Upon consideration, notice is hereby given that the date of the hearing is changed to October 4, 1973.

KENNETH F. PLUMB,
*Secretary.*

[Project No. 2340]

## INTERSTATE POWER CO.

### Filing of a Notice of Destruction, Unfitness for Use, and Retirement of Essential Project Property of the Dehli Generating Station

SEPTEMBER 20, 1973.

Public notice is hereby given that the Interstate Power Company of Dubuque, Iowa, Licensee for the Dehli Hydro-Electric Project No. 2340, filed on August 29, 1973, a "Notice of Destruction, Unfitness For Use, And Retirement Of Essential Project Property of Dehli Hydro-Electric Generating Station As Minor Project Having Installed Capacity of 2,000 Horsepower Or Less." The project is located on the Moquoketa River in Delaware County, Iowa.

Licensee indicated that because of the failure of the Dehli Generator Unit No. 1 on September 1, 1968, the project was reduced to one generating unit. On June 16, 1973, the remaining Unit No. 2 was struck by lightning causing its failure and resulting in the discontinuance of operation, and that complete rewinding of this generator and replacement of the station service supply cables would be necessary to again commence service.

Licensee contends that there is no economic justification for these repairs. It had previously stated in its Application for Surrender of this project that continued operation did not effectively contribute significant support to its system operation, reliability, or economy.

Licensee proposes to dispose of all of its right, title, and interest in certain of the real estate and remaining facilities thereon formerly constituting the project works and used in connection with the generating station which have ceased to be electric facilities, by selling and conveying the same to L. J. Schlitz after the expiration of 90 days from the date of its Notice.

Any person desiring to be heard or to make protest with reference to the Notice filed by Interstate Power Company in Project No. 2340, should on or before October 29, 1973, file with the Federal Power Commission, Washington, D.C. 20426, protests or petitions to intervene in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Persons wishing to become parties to the proceeding or to participate as a party in this proceeding must file petitions to intervene in accordance with the Commission's rules. The Company's Notice is on file with this Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20627 Filed 9-26-73;8:45 am]

[Docket No. CI73-521]

## McCULLOCH OIL CORP.

### Extension of Time

SEPTEMBER 19, 1973.

On September 17, 1973, McCulloch Oil Corporation filed a request for an extension of the procedural dates fixed by order issued September 7, 1973, in the above-designated matter. The letter states that Northern Natural Gas Company supports the request.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Direct Testimony by Applicant and Interveners, supporting Applicant, September 24, 1973.
Direct Testimony and Evidence by Staff and all Interveners opposing Application, October 1, 1973.
Rebuttal testimony, October 9, 1973.
Hearing (unchanged), October 16, 1973 (10 a.m., e.d.t.).

[Docket No. E-8380]

## METROPOLITAN EDISON CO.

### Proposed Changes in Rates and Charges

SEPTEMBER 19, 1973.

Take notice that Metropolitan Edison Company (Met-Ed) on August 29, 1973, tendered for filing a POWER CONTRACT dated July 11, 1973, applicable to wholesale electric service to the Borough of Kutztown, Pennsylvania, effective as of the date upon which Kutztown's new 69 kv step-down substation commences service. The proposed contract contains Met-Ed's Resale Power Service Rate RP-Revision 2 which became effective July 1, 1971. The charges billed under Resale Power Service Rate RP-Revision 2 will result in an annual reduction in billing of $69,725, as compared to the present rate for the twelve month period beginning July 1, 1973.

A copy of the rate filing has been mailed to Borough of Kutztown.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 28, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20617 Filed 9-26-73;8:45 am]

[Docket No. RP72-118]

## MICHIGAN WISCONSIN PIPE LINE CO.

### Proposed Changes in Rates

SEPTEMBER 21, 1973.

Take notice that on August 31, 1973, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) endered for filing Third Substitute Fourth Revised Sheet No. 27F to its F.P.C. Gas Tariff, Second Revised Volume No. 1. This filing was subsequently revised and refiled on September 10, 1973. So as to permit this substitute filing to be made and to become effective as of October 1, 1973, Michigan Wisconsin requests waiver of the Commission's regulations.

Michigan Wisconsin states that the above revised tariff sheet reflects the effect of a net increase in advance payments to producers and is filed pursuant to its Settlement Agreement in Docket No. RP72-118.

Michigan Wisconsin further states that copies of the filing have been mailed to its customers and all interested parties in Docket No. RP72-118.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 28, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.72-20615 Filed 9-26-73;8:45 am]

[Docket No. RP72-118]

## MICHIGAN WISCONSIN PIPE LINE CO.

### Proposed Changes in Rates and Charges

SEPTEMBER 21, 1973.

Take notice that on August 31, 1973, Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) tendered Third Substitute Fourth Revised Sheet No. 27 to its FPC Gas Tariff, Second Revised Volume No. 1, proposing to increase the commodity component of its two part rates and the total of its single part rates by 1.50¢ per Mcf, effective as of October 1, 1973. The company states that the change relates to advance payments for gas as of October 1, 1973 and is made pursuant to Articles IV and V of the Stipulation and Agreement approved by Commission order issued July 24, 1973, in this proceeding.

Copies of the filing have been mailed to Michigan Wisconsin's customers and interested state commissions.

Any persons desiring to be heard or to protest said application should file a petition to intervene with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426 in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before September 27, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a petition to intervene. However, parties previously permitted to intervene in this proceeding need not file a further petition to intervene. Copies of this application are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20616 Filed 9-26-73;8:45 am]

[Docket No. RP73-102]

## MICHIGAN WISCONSIN PIPELINE CO.

### Extension of Time and Postponement of Prehearing Conference and Hearing

SEPTEMBER 19, 1973.

On August 20, 1973, Michigan Wisconsin Pipeline Company filed a motion for a postponement of the prehearing conference. On August 30, 1973, Staff Counsel filed a motion for an extension of the procedural dates fixed by the order issued May 30, 1973, in the above-designated matter. The motion states that there were no objections to the proposed dates.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff testimony, October 16, 1973.
Prehearing Conference, November 6, 1973 (10 a.m., e.d.t.).
Service of Intervener's Testimony, November 15, 1973.
Service of Company rebuttal, November 26, 1973.
Hearing, December 11, 1973 (10 a.m., e.s.t.).

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20628 Filed 9-26-73;8:45 am]

[Docket No. CP74-64]

## MOUNTAIN FUEL SUPPLY CO.

### Application or in the Alternative Request for Disclaimer of Jurisdiction

SEPTEMBER 21, 1973.

Take notice that on September 6, 1973, Mountain Fuel Supply Company (Applicant), 180 East First South Street, Salt Lake City, Utah 84111, filed in Docket No. CP74-64, an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas to, and the exchange of natural gas with Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), and for a disclaimer of jurisdiction as to the construction and operation of certain facilities for use therewith, or, in the alternative, authorization therefor, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has encountered mechanical problems downhole at its Spearhead Ranch Well No. 1, formerly known as Anadarko Well No. 1, in Converse County, Wyoming, as a result of which the well could not be shut and natural gas was being flared. Applicant further states it, therefore, has proceeded on an emergency basis to construct certain facilities necessary to collect this gas and prevent further waste. Applicant seeks authorization to exchange and sell this natural gas with CIG. Under the proposal, gas produced by Spearhead Ranch Well No. 1 will be delivered to McCullogh Gas Transmission Company (McCullough) for CIG's account for transportation through existing facilities to the northern terminus of CIG's existing Powder River Lateral in Converse County. Contemporaneously therewith, CIG will deliver gas equivalent to 75 percent of the Spearhead Ranch No. 1's volume to Applicant at an existing point of interconnection near Green River, Wyoming, and CIG will retain and purchase an amount equivalent to 25 percent of the volume. As stated in the application CIG is required to reimburse Applicant for the costs of treating the gas for removal of impurities and transporting the gas purchased by CIG from the source of supply to the point of delivery to McCullough for CIG's account at four cents per Mcf, while Applicant is to reimburse CIG for the portion of McCullough's transportation charges attributable to the volumes of gas retained by Applicant. Total volumes involved are estimated to average initially 8,000 Mcf per day. Under the provisions of the agreement between Applicant and CIG dated July 5, 1973, providing for the subject exchange, filed concurrently by CIG, certificate Applicant in Docket No. CP74-62, the price for the first year shall be as follows:

| | Price (cents per Mcf) |
|---|---|
| Depth of well: | |
| 0 to 15,000 feet | 40 |
| 15,000 to 19,000 feet | 45 |
| Below 19,000 feet | 50 |

For each successive twelve-month period the price shall increase one cent per Mcf above the applicable price listed above for the life of the agreement. The term of the contract is stated as five years from the month following initial delivery and from year-to-year thereafter unless terminated by either party upon six months written notice.

Applicant states that due to the geographically removed nature of Spearhead Ranch Well No. 1 from Applicant's transmission and distribution facilities it has had to construct certain facilities in order to effect the proposed exchange and sale. The application details these facilities as 13 miles of 10-inch pipeline and appurtenant facilities from the Spearhead Ranch Well No. 1 to the point of interconnection with McCullough's 16-inch transmission line. Applicant maintains these facilities, which are all within Converse County and used to deliver gas

V 38 I 187 SEP 27 73 XUM

to a point of interconnection with McCullough within the same county, perform solely a gathering function incident to the production of natural gas, and as such, are facilities which Section 1(b) of the Natural Gas Act exempts from the Commission's certificate jurisdiction. Applicant requests the Commission to disclaim jurisdiction over such facilities, or in the alternative, issue a certificate authorization for the same.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules or practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20629 Filed 9-26-73;8:45 am]

[Docket No. RP74-12]

## NORTHERN NATURAL GAS CO.

### Proposed Change in Rates

SEPTEMBER 19, 1973.

Take notice that on August 31, 1973, Northern Natural Gas Company (Northern) filed for an increase in its wholesale rates as a part of its Gas Tariff, Original Volume No. 4, described as:

First Revised Sheet No. 3a

The proposed effective date for the submitted tariff sheet is October 16, 1973.

Northern states that the revised tariff sheet provides for a rate increase of 5.43¢ per Mcf in the GS-1, IS-1 and I-1 rates, which are the three wholesale schedules contained in Volume No. 4. Northern further states that the basis for the filing of the increased rates is to recover increased gas costs for purchases from the Colorado Interstate Gas Company, the source of gas for the sales under these tariffs. Finally, Northern states that such increased costs relate to charges incurred prior to the implementation of the purchased gas adjustment clause now a part of Tariff Volume No. 4.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20631 Filed 9-26-73;8:45 am]

[Docket No. RP72-127]

## NORTHERN NATURAL GAS CO.

### Notice Deferring Procedural Dates

SEPTEMBER 19, 1973.

On September 13, 1973, Staff Counsel filed a motion for an extension of the procedural dates fixed by notice issued July 6, 1973, pending disposition of the proposed Stipulation and Agreement filed in this proceeding and Docket No. RP71-107 (Phase II) on January 11, 1973.

Upon consideration, notice is hereby given that the procedural dates in the above-designated matter are deferred pending further order of the Commission.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20632 Filed 9-26-73;8:45 am]

[Docket No. ID-1707]

## R. DEWITT MALLARY

### Notice of Application

SEPTEMBER 19, 1973.

Take notice that on August 2, 1973, R. DeWitt Mallary (Applicant), filed an initial application pursuant to Section 305(b) of the Federal Power Act, seeking authority to hold the positions of Director of Central Vermont Public Service Corporation and Vermont Electric Power Company, Inc.

The principal business of *Central Vermont Public Service Corporation* is the generation and purchase of electric energy and its transmission, distribution and sale for light, power, heat and other purposes to about 83,400 customers in Middlebury, Randolph, Rutland, Springfield, Windsor, Bradford, Bennington, Brattleboro, St. Johnsbury, St. Albans, Woodstock and 163 other towns and villages in Vermont. *Vermont Electric Power Company, Inc.* engages in the operation of a transmission system which interconnects the electric utilities in the State of Vermont. It is also engaged in the business of purchasing bulk power for resale to Central Vermont Public Service Corporation and the other electric utilities in the State.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 3, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20625 Filed 9-26-73;8:45 am]

[Docket No. RP73-94]

## VALLEY GAS TRANSMISSION, INC.

### Submission of Settlement Agreement

SEPTEMBER 19, 1973.

On September 10, 1973, Valley Gas Transmission, Inc. (Valley) submitted to the Presiding Administrative Law Judge for certification, at a prehearing conference convened in this matter pursuant to a notice issued by the Secretary on August 31, 1973, a "Motion to Terminate Proceeding" and an accompanying "Stipulation and Agreement."

In the Motion, Valley states that the parties have reached agreement, as reflected in the "Stipulation and Agreement," and that Valley's rates as filed are supported by Valley's cost of service and are therefore just and reasonable. Valley requests that the proceeding in this docket be terminated and that Valley's rates as filed be approved.

Any person desiring to comment upon said application should file comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such comments should be filed on or before September 28, 1973. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of the settlement agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.73-20618 Filed 9-26-73;8:45 am]

[Docket No. CP74-62]

## COLORADO INTERSTATE GAS CO.

### Notice of Application

SEPTEMBER 20, 1973.

Take notice that on September 4, 1973, Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (Applicant), P. O. Box 1087, Colorado Spring, Colorado 80944, filed in Docket No. CP74-62, an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the exchange of natural gas with the Mountain Fuel Supply Company (Mountain Fuel) and the construction and operation of a purchase and exchange meter station in the Anadarko Fox Area in Converse County, Wyoming, for use therewith, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that on or about August 27, 1973, pursuant to § 157.22 of the regulations under the Natural Gas Act (18 CFR 157.22), Applicant entered into emergency operations in conjunction with Mountain Fuel and McCulloch Interstate Gas Corporation (McCulloch) to prevent the continued waste of natural gas as a result of difficulties Mountain Fuel was encountering with its Anadarko Fox Well No. 1 located in the Powder River Basin in Converse County. Applicant states that Mountain Fuel is presently producing about 1,200 barrels of oil per day and flaring about 4,000 Mcf of gas per day from this well and that the proposed exchange is necessary to prevent further flaring and wastage of gas.

Under the proposal gas produced by the Anadarko Fox Well No. 1 will be delivered to McCulloch for Applicant's account for transportation through existing facilities to the northern terminus of Applicant's existing Powder River Lateral in Converse County. Contemporaneously therewith, Applicant will deliver gas equivalent to 75 percent of the Anadarko Fox volume to Mountain Fuel at an existing point of interconnection near Green River, Wyoming, and will retain and purchase an amount equivalent to 25 percent of the volume delivered by McCulloch. McCulloch will charge Applicant for the transportation of the total volume with reimbursement to Applicant by Mountain Fuel for that portion of the transportation charge attributable to the exchange volumes. Total volumes involved are expected to average initially 8,000 Mcf per day. The agreement between Applicant and Mountain Fuel dated July 5, 1973, providing for the subject exchange as stated in the application, provides that the price for the first year is as follows:

| Depth of well: | Price (cents per Mcf) |
|---|---|
| 0 to 15,000 feet | 40 |
| 15,000 to 19,000 feet | 45 |
| Below 19,000 feet | 50 |

The term of this agreement is stated as five years from the month following initial delivery and from year-to-year thereafter unless terminated by either party upon six months written notice.

Applicant further requests authorization for the operation of a temporary meter station constructed at the interconnection of Mountain Fuel and McCulloch's pipelines to measure exchange and purchase volumes. The estimated cost of the facility is $33,048, which will be financed by Applicant from current working funds on hand.

Applicant states that the instant proposal is necessary to enable it to meet the need for additional gas supplies to serve existing customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 15, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

## FEDERAL RESERVE SYSTEM

### FIRST COMMERCIAL BANKS, INC.

### Order Approving Acquisition of Bank

First Commercial Banks, Inc., Albany, N.Y., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to The Homer National Bank, Homer, New York ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and none were received. The application has been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls three banks, with aggregate deposits of $1.4 billion, representing 1.3 percent of total deposits in commercial banks in New York, and is the fourteenth largest banking organization in the State.[1] Acquisition of Bank (deposits of $16.7 million) would increase Applicant's share of Statewide deposits by only 0.02 of one percentage point and would not alter Applicant's ranking among the State's banking organizations and bank holding companies. The proposed acquisition represents Applicant's initial move into the Seventh Banking District.

Bank is the second largest of three banks competing in the market consisting of Cortland County and holds about 22.3 percent of the total commercial bank deposits therein. Bank has one branch office in Cortland.

The nearest office of a subsidiary of Applicant, the De Ruyter branch of First Trust and Deposit Co., is 19.2 miles from an office of Bank and is in a different Banking District. There is no meaningful competition between these offices or between Bank and any other of Applicant's subsidiary offices. Moreover, it is unlikely that any substantial amount of competition would develop in the future. Applicant's subsidiaries are precluded from branching into the Seventh Banking District until January 1, 1976, by State restrictions on branching. In addition, it appears unlikely that Applicant would establish a new bank in Cortland County, since the area is not characterized by rapid growth and the ratio of population to banking offices in the county is significantly lower than that in the State. Although approval of this application might tend to raise some slight barriers to entry, since only one independent bank would remain in the market, it would remove home office protection from the town of Homer and other banks in the Seventh Banking District could then branch into Homer.[2] Furthermore, consummation of the proposed acquisition could have a procompetitive effect, since Bank would be better able to compete with the two other commercial banks in

[1] Deposit and market data are as of December 31, 1972, and June 30, 1972, respectively.

[2] Under State law, a bank is prohibited from opening a branch in a city or village with a population of seventy-five thousand or less in which is located the principal office of another bank other than a bank holding company or a banking subsidiary thereof.

V 38 187 SEP 27 73 XUM

the market, one a holding company subsidiary and the other a substantially larger independent bank. Accordingly, it is concluded that consummation of the proposed acquisition would not have any significant adverse effect on existing or potential competition in any relevant area.

The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are satisfactory and consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served lend weight toward approval. Affiliation with Applicant will permit Bank to offer additional services including credit card, investment advisory, and trust services. It is the judgment of the Federal Reserve Bank of New York that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Federal Reserve Bank of New York, acting for the Board of Governors of the Federal Reserve System pursuant to delegated authority, effective September 17, 1973.

[SEAL] THOMAS M. TIMLEN, Jr.,
*Senior Vice President,*
*Federal Reserve Bank of New York.*

[FR Doc.73-20537 Filed 9-26-73;8:45 am]

## FIRST TENNESSEE NATIONAL CORP.

### Order Approving Acquisition of Bank

First Tennessee National Corp., Memphis, Tenn., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by merger to the Jackson State Bank, Jackson, Tenn. ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls eight banks with aggregate deposits of approximately $1.2 billion, representing 11.5 percent of the total commercial bank deposits in the State, and is the largest banking organization in Tennessee. (Banking data are as of December 31, 1972, adjusted to reflect holding company formations and acquisitions approved by the Board through May 31, 1973.) The acquisition of Bank ($15 million in deposits) would increase Applicant's share of the total State deposits by only 0.1 percent and would not result in any significant increase in the concentration of banking resources in Tenessee.

Bank, the smallest of four banks in the relevant market (approximated by Madison County), holds 8.6 per cent of total market deposits. The three largest banks each control approximately 36, 29 and 26 per cent, respectively. The Board concludes that acquisition of Bank would not have significantly adverse effects on any competing bank.

Applicant's banking subsidiary nearest to Bank is approximately 50 miles away. The distances between Bank and Applicant's subsidiaries preclude significant present competition between them. Furthermore, due to the distances involved and Tennessee's restrictive branching laws, there is little probability of substantial future competition developing between any of Applicant's subsidiaries and Bank. The Board concludes that competitive factors are consistent with approval.

Considerations relating to the financial and managerial resources and future prospectus of Applicant, its subsidiary banks, and Bank are satisfactory and consistent with approval of the application. There is no evidence that basic banking needs of the area are currently not being satisfied by existing banks. Applicant proposes to make available to Bank the services of its specialized personnel in the fields of mortgage lending, international banking, and accounts receivable financing. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.[1]

Applicant controls two nonbanking subsidiaries, Norlen Life Insurance Co., Phoenix, Arizona, and Investors Mortgage Service, Inc., Memphis, Tennessee, which were acquired on October 21, 1969, and on January 17, 1969, respectively. Norlen Life Insurance Company reinsures underwriters of credit life insurance, and Investors Mortgage Service, Inc., is a mortgage broker which manages real estate for others and develops real estate. Investors Mortgage Service, Inc., owns two subsidiaries, Griffen Mortgage Co., a mortgage broker acquired on December 4, 1969, and Investors Service, Inc., a real estate developer acquired on January 8, 1970.

In approving this application, the Board finds that the combination of an additional subsidiary bank with Applicant's existing nonbanking subsidiaries is unlikely to have an adverse effect upon the public interest at the present time. However, Applicant's banking and nonbanking activities remain subject to Board review and the Board retains the authority to require Applicant to modify or terminate its nonbanking activities or holdings if the Board at any time determines that the combination of Applicant's banking and nonbanking activities is likely to have adverse effects on the public interest.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,[2] effective September 18, 1973.

[SEAL] CHESTER B. FELDBERG,
*Secretary of the Board.*

[FR Doc.73-20538 Filed 9-26-73;8:45 am]

## HANCOCK GROUP, INC.

### Formation of Bank Holding Co.

The Hancock Group, Inc., Quincy, Mass., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares of Hancock Bank and Trust Co., Quincy, Mass. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Boston. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank, to be received not later than October 8, 1973.

Board of Governors of the Federal Reserve System, September 19, 1973.

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

[FR Doc.73-20539 Filed 9-26-73;8:45 am]

## MULTIBANK FINANCIAL CORP.

### Order Approving Acquisition of Bank

Multibank Financial Corp., Boston, Massachusetts, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of the Northampton National Bank, Northampton, Massachusetts ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired and none has been received. The Federal Reserve Bank of Boston has considered the application in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant has five subsidiary banks[3] and is the sixth largest banking organization and bank holding company in Massachusetts, with aggregate deposits of $464.8 million representing 3.64 percent of total deposits of commercial banks in the state.[4] Acquisition of Bank (deposits of approximately $16.9 million) will have a nominal effect on state-wide concentration, and would increase Applicant's share of commercial bank deposits in Massachusetts by .13 percent. Applicant's ranking would be unchanged as there is a considerable disparity in size between Applicant and the five larger, Boston-based bank holding companies, each of which controls deposits in excess of $1 billion. The proposed acquisition is part of an aggressive statewide expansion program by Applicant, which has acquired four banks in less than two years.[5]

Bank is the second largest of six commercial banks located in Hampshire County, in western Massachusetts. Bank currently operates two offices in the City of Northampton, with a population of approximately 30,000. Northampton is located on the northern periphery of the Springfield-Chicopee-Holyoke SMSA, in which Bank ranks seventh of thirteen commercial banks and controls 2.5% of total market deposits (data as of December 31, 1972).

Applicant's banking office closest to Bank is located 36 miles away in Berkshire County. All of Applicant's subsidiary banks operate in markets separate and distinct from the Springfield SMSA. Further, it is unlikely that competition would develop between Applicant and Bank in the future. Because Massachusetts law restricts branch banking to the home office county, Applicant's existing subsidiaries cannot establish de novo branches in Hampshire County. Moreover, the Northampton area is not particularly attractive for entry via establishment of a de novo bank because of its static economy and population. Approval of the proposed transaction will have no adverse competitive effects.

The financial and managerial resources and prospects of Applicant and its existing subsidiary banks are satisfactory, particularly in view of Applicant's commitment to inject equity capital into several subsidiary banks and to strengthen management at the holding company level. The financial and managerial resources of Bank are considered to be satisfactory. Although Bank's future prospects are considered good, recent bank holding company affiliations in the area have served to intensify competition. Affiliation with Applicant will provide Bank with additional management depth and greater financial resources which should improve Bank's prospects. It is the Reserve Bank's judgment that banking factors are consistent with, and lend some weight in support of, approval of the application.

There is no evidence in the record to indicate that the convenience and needs of the community are not being adequately served by existing institutions. However, Applicant has stated its intention to provide or improve Bank's services in areas of equipment leasing, accounts receivable financing and real estate financing. The convenience and needs factors are consistent with, and lend some weight toward, approval of the application.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the date of this Order or (b) later than three months after the date of this Order, unless such period is extended for good cause by the Board or by this Federal Reserve Bank pursuant to delegated authority.

By order of the Federal Reserve Bank of Boston, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective September 18, 1973.

[SEAL] FRANK E. MORRIS,
*President.*

[FR Doc.73-20541 Filed 9-26-73;8:45 am]

## SOUTHERN BANCORPORATION, INC.

### Order Approving Formation of Bank Holding Co. and Acquisition of World Acceptance Corp., Piedmont Premium Service, Inc., and SBT Real Estate, Inc.

Southern Bancorporation, Inc., Greenville, S.C., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)), for the formation of a bank holding company through acquisition of 100 percent of the voting shares of Crescent Bank and Trust Company, Greenville, S.C., the successor by merger to Southern Bank and Trust Company, Greenville, South Carolina (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

At the same time, Applicant has applied in separate applications for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of: (1) Taylor Acceptance Corporation, the successor by merger to World Acceptance Corp. (World Acceptance); (2) Paramount Premium Service, Inc., the successor by merger to Piedmont Premium Service, Inc. (Piedmont Premium); and (2) Sobanco Properties, Inc., the successor by merger to SBT Real Estate, Inc. (SBT); all located in Greenville, S.C. World Acceptance engages in the activities of making consumer finance loans and, in the States of Georgia and South Carolina, also acting as agent for the sale of credit related life, accident and disability insurance, and credit related property and casualty insurance issued in connection with extensions of credit by World Acceptance's consumer finance offices. Piedmont Premium provides loan financing for the payment of casualty insurance premiums under premium service agreements. SBT, through its ownership of all the outstanding stock of Sunland Life Insurance Company, Phoenix, Arizona (Sunland Life), acts as reinsurer for credit life, accident and health insurance directly related to extensions of credit. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1), (9), and (10)).

Notice of receipt of the applications has been given in accordance with sections 3 and 4 of the Act, and the time for filing comments and views has expired. The Board has considered the applications and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)), and the considerations specified in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant is a nonoperating corporation formed for the purpose of becoming a bank holding company. Bank is the sixth largest banking organization in South Carolina, with deposits of approximately $118 million, and upon Board

[1] Objections to the application were received from a competing bank and an individual shareholder of Bank ("Protestants"). Protestants' primary contention appears to be that Applicant's acquisition will result in the local market being glutted with facilities and services not presently required by the community and that the independent local banks will find it increasingly unprofitable to meet such competition. The Board finds this argument highly conjectural and believes it does not support a finding that consummation of the proposal would have a significant adverse effect on competing banks; indeed, Protestants concede that the competing banks are well-established, aggressive, and growing. The objection appears essentially to reflect a preference for nonaffiliation of independent banks with bank holding companies. One of the Protestants also contends that the acquisition would result in a centralization of economic strength into Memphis, where Applicant's lead bank is located, and that local funds would be drained away from this community. The Board regards the ability of a bank holding company system to marshal resources and supply them where needed as a benefit of the holding company structure. Protestants' argument that Applicant would channel the funds in a manner detrimental to the Jackson community is speculative and seems unpersuasive, particularly in the view of the fact that Applicant will retain local management responsive to the needs of the community. Furthermore, the Board has no evidence that in the past Applicant has caused its subsidiaries to channel to its lead bank funds needed in the local community.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Sheehan, Bucher, and Holland. Absent and not voting: Governor Brimmer.

[3] On August 31, 1973, Applicant received approval by the Board to acquire B. M. C. Durfee Trust Company, Fall River, Massachusetts (deposits of $63 million).

[4] All banking data are as of June 30, 1973.

[5] Applicant has also announced plans to acquire Security National Bank of Springfield (deposits of $26.4 million).

V 38 I 187 SEP 27 73 XUM

approval would become the fourth largest bank holding company in the State, controlling 3.7 percent of total commercial bank deposits in South Carolina.[1] Consummation of the proposal herein would neither alter existing banking competition nor significantly affect potential competition and would not result in an increase in the concentration of banking resources in any relevant area.

Considerations relating to the financial and managerial resources and future prospects of Applicant and Bank appear to be satisfactory and consistent with approval. Considerations relating to the convenience and needs of the communities involved, with respect to the acquisition of Bank, are consistent with approval. It is the Board's judgment that consummation of the transaction would be in the public interest and that the acquisition of Bank should be approved.

World Acceptance has total assets of $6 million, and net loan receivables of $5.6 million, as of December 31, 1972. It operates 49 consumer finance offices, 19 of which are in South Carolina, 17 in Georgia,[2] and 13 in Texas. Applicant's banking subsidiary has eight offices located in the relevant market area, which is the Greenville-Pickens SMSA. In that market, World Acceptance operates five consumer finance offices. However, World Acceptance is not a large factor in the small personal loan market as its market share is less than 1 percent, represented by outstandings of $800,000, as of December 31, 1972. Competing in the same market are 58 consumer finance companies with 76 offices and 11 other commercial banks with 63 offices. Neither Bank nor World Acceptance is dominant in the relevant market. Considering the large number of lending alternatives, the Board is of the opinion that Applicant's acquisition of World Acceptance would not have a significant effect on existing or potential competition in the small consumer installment loan market. World Acceptance also acts as an agent for the sale of credit insurance related to loans it originates. Due to the limited nature of this activity, Applicant's acquisition of World Acceptance would not appear to have a significantly adverse effect on competition in this product line. Similarly, with respect to the acquisition of Piedmont Premium, it appears that in view of the limited nature of its activity, the acquisition of Piedmont by Applicant would not have any significant adverse competitive consequences.

SBT was organized in 1966 for the principal purpose of purchasing banking facilities utilized by Bank and leasing such facilities to Bank. In 1967, SBT acquired all the shares of Sunland Life, an Arizona chartered company which engages solely in acting as reinsurer for certain credit life, accident and health insurance directly related to extensions of credit by Bank. The ownership of shares of a company engaged in holding or operating properties used wholly or substantially by any banking subsidiary of a bank holding company is permissible under section 4(c)(1)(A) of the Act without the need for prior Board approval. Accordingly, this Order considers only the proposed insurance underwriting activities of SBT. As of December 31, 1972, SBT had total assets of $845,000, of which $145,000 represented investment in the underlying equity of its insurance subsidiary and for the year ending that same date, SBT received gross premiums of $530,000. Approval of Applicant's proposed acquisition does not appear to eliminate any competition in the underwriting of credit life and disability insurance.

In adding credit life underwriting to the list of permissible activities for bank holding companies, the Board stated that, "To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an Applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service." Applicant has committed itself, within 30 days following consummation of the proposed acquisition, to reduce the rates charged by Sunland Life to its policy holders by 15 percent on all credit life insurance policies, and by 5 percent on all credit accident and health insurance policies written by it in all States in which it would offer such policies (Georgia and South Carolina). It is the Board's judgment that these benefits to the public outweigh any possible adverse effects.

In its consideration of this application, the Board has examined covenants not to compete contained in employment agreements with the principal executives of World Acceptance and Piedmont. The Board finds that the provisions of these covenants (limited to three years and to localities where Southern Bancorporation would be engaged in the licensed consumer finance business and the licensed insurance premium service business) are reasonable in scope, duration, and geographic area and are consistent with the public interest. As the United States District Court for the Southern District of New York has stated in Syntex Laboratories, Inc. v. Norwich Pharmacal Co.:[3]

> While agreements not to compete have at times been used for the unlawful purpose of monopolizing a part of trade or commerce • • • it is hornbook law that a covenant not to compete ancillary to the sale of a business (or a part of a business), when reasonably limited as to time and territory, does not fall within the prohibitions of the Sherman Act. The question in every case is whether the restraint is reasonably calculated to protect the legitimate interest of the purchaser in what he has purchased, or whether it goes so far beyond what is necessary as to provide a basis for the inference that its real purpose is the fostering of monopoly.

There is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, or unsound banking practices.

Approval of the applications would give World Acceptance access to Applicant's financial resources and enhance World Acceptance's competitive effectiveness. Based upon the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c)(8) are favorable and that consummation of these proposals would be in the public interest.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order; and the acquisitions of World Acceptance, Piedmont Premium, and SBT shall be consummated not later than three months after the effective date of this Order, unless such three month periods are extended for good cause by the Board or by the Federal Reserve Bank of Richmond pursuant to delegated authority. The determinations as to the activities of World Acceptance, Piedmont Premium, and SBT is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors, effective September 19, 1973.[4]

[SEAL] THEODORE E. ALLISON,
*Assistant Secretary of the Board.*

## NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

### SUBCOMMITTEE ON PROGRAM DEVELOPMENT

### Meeting

Notice of public meeting of the National Advisory Council on the Education of Disadvantaged Children.

Notice is hereby given, Pub. L. 92-463, that the next meeting of the subcommittee on Program Development of the National Advisory Council on the Education of Disadvantaged Children will be held at 2:30 p.m.-4:30 p.m., October 24, 1973 and from 9:00 a.m.-2:00 p.m., October 25, 1973, located at the Copley Plaza Hotel in Boston, Mass.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Education Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of Disadvantaged Children.

The meeting is called to develop a cohesive relationship to exchange ideas in helping to meet the educational services to disadvantaged children.

Because of limited space for the public meeting of October 24 and 25 all persons wishing to attend should call for reservations at Area Code 202/382-6945 by October 10, 1973.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located in Room 1012, 425 13th Street, NW., Washington, D.C. 20004.

Signed at Washington, D.C., on September 19, 1973.

ROBERTA LOVENHEIM,
*Executive Director.*

## NATIONAL CREDIT UNION ADMINISTRATION

### FEDERAL CREDIT UNION BYLAWS

### Increase of Maximum Permissible Dividend Rate; Correction

On page 26408 of the FEDERAL REGISTER of September 20, 1973, there was published a notice of an authorized amendment to Article XIV, section 2, of the Federal Credit Union Bylaws. The purpose of this notice is to make a technical correction as set forth below:

Notice is hereby given that as of September 13, 1973, the Administrator of the National Credit Union Administration, with the concurrence of the National Credit Union Board, pursuant to the authority conferred by section 108, 73 Stat. 631, 12 U.S.C. 1758, and section 120, 73 Stat. 635, 12 U.S.C. 1766, has authorized an amendment to Article XIV, section 2, of the Federal Credit Union Bylaws, to increase the maximum permissible dividend rate from 6 percent per annum to 7 percent per annum.

This correction is effective immediately.

### R. S. HERSHEY FUND, INC.

**Notice of Application for an Order Declaring That Applicant Has Ceased To Be an Investment Company**

SEPTEMBER 20, 1973.

Notice is hereby given that R. S. Hershey Fund, Inc. ("Applicant"), 875 North Michigan Avenue, Chicago, Illinois 60611, a diversified, open-end management investment company registered under the Investment Company Act of 1940 (the "Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

On February 14, 1973, Applicant's board of directors voted to submit a proposal for Applicant's dissolution to its shareholders, and, at a meeting held for that purpose on April 5, 1973, such shareholders duly authorized the dissolution of Applicant and the distribution of its assets. Subsequently, Applicant's portfolio was liquidated, and its total net assets of $81,964.15 were distributed on a pro rata basis to Applicant's shareholders as of June 1, 1973.

Applicant states that it has no assets and no liabilities and that its corporate existence was terminated by virtue of the forfeiture of its corporate charter. For these reasons, Applicant requests that the Commission issue an order declaring that Applicant has ceased to be an investment company.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is hereby given that any interested person may, not later than October 15, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of attorney at law, by certificate) shall be filed contemporaneously with the re-

V 38 I 187 SEP 27 73 XUM

quest. At any time after said date, as provided by Rule 0–5 of the Rules nad Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in such application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

## U. S. FINANCIAL INC.

### Order Suspending Trading

SEPTEMBER 20, 1973.

The common stock, $2.50 par value, of U.S. Financial Incorporated being traded on the New York Stock Exchange, pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of U.S. Financial Incorporated being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such securities on such exchange and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, pursuant to sections 15 (c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchange and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from September 21, 1973 through September 30, 1973.

By the Commission.

[812–3509]

## IDS LIFE VARIABLE ANNUITY FUND B AND IDS LIFE INSURANCE CO.

### Notice of Application for Exemption

SEPTEMBER 20, 1973.

Notice is hereby given that IDS Life Variable Annuity Fund B ("Fund B"), and IDS Life Insurance Company ("IDS Life") (herein collectively referred to as "Applicants"), IDS Tower, Minneapolis, Minnesota, have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 ("Act"), for an order exempting Applicants from the provisions of section 22(d) of the Act to the extent described below. Fund B is an open-end diversified management investment company registered under the Act. IDS Life established Fund B on June 10, 1968, under Minnesota Law as a separate account through which it will set aside and invest payments accruing from the sale of tax deferred variable annuity contracts offered by IDS Life. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants state that they propose to offer a Group Variable Annuity Contract, containing combination features which would allow payments under the contract to be allocated to a variable account, or fixed account, or both, and which would provide transfer provisions between the two accounts and group experience rating credit provisions.

In connection with the sale of the Group Variable Annuity Contract, charges are deducted from payments to pay sales and administrative expenses. Applicants state that the deduction for sales and administrative charges is 5¾ percent of the first $10,000 of payments received, 4 percent of the next $40,000 of payments, and 2 percent of all payments in excess of $50,000. Applicants request exemption from section 22(d) of the Act to the extent necessary to permit the following.

1. Applicants request the elimination of charges for sales and administrative expenses when the values under a participant's fixed account are transferred to a participant's variable account, both during the accumulation period and upon the commencement of the annuity pay-out period. Applicants state that the sales and administrative charges on payments allocated to the fixed account are identical to the sales and administrative charges which would have been paid had the participant initially allocated that amount toward the variable account. Applicants assert that since the deduction from payments with respect to the fixed and variable accounts are identical, to require an investor to incur duplicate loading charges would be unjust and inconsistent with the protection of investors. Applicants state that the transfer of accumulated amounts from the fixed to the variable account will be limited to one transfer each year per participant.

2. Applicants request exemption to permit the usual decreasing sales and administrative charges to apply regardless of whether prior payments under the contract were allocated to the variable account or the fixed account. Applicants state that in order to treat participants in a uniform and equitable manner, it is necessary to consider the sales and administrative charges deducted from payments allocated to the fixed account, which are identical to those made upon the payments to the variable account, as if they had been paid upon the purchase of variable annuities, since the contract provides for decreasing sales and administrative charges. The applicants represent, by way of example, that an investor under the group contract for whom annual payments of $2,000 are being made, and who allocates $1,000 to the variable account of the contract and $1,000 to the fixed account for each of the first five years, and who again allocates sixth-year payments equally between the variable and fixed accounts, should be required to pay only a 4 percent charge on such sixth-year payments, even though the amount theretofore allocated to the variable account is only $5,000.

3. Applicants request exemption to permit the beneficiary of a participant to elect to have the proceeds payable upon the death of the participant, including those not derived from the separate account, applied to a variable annuity in lieu of a lump sum payment without deduction of a sales or administrative charge. Applicants represent that since in all cases a sales and administrative charge would have been paid by the participant, this exemption,, if granted, would avoid any cumulating of sales charge.

4. Applicants request an exemption to permit experience rating on a non-discriminatory basis under the group contract. IDS Life will annually determine the actual cost applicable to each group contract and compare this amount with the amount deducted for sales and administrative expenses. IDS Life in its sole discretion may allocate all, a portion, or none of any excess of deductions over costs as an experience rating credit. Application of the credit would be effected by (a) a reduction in the amount deducted from subsequent payments, or (b) by the crediting of a number of additional accumulation units or annuity units, as applicable, equal in value to the amount of credit due. Such additional units would be credited without the deductions imposed on contributions.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current public offering price described in the prospectus. Because the above described securities may be sold at a load which varies from that described in the prospectus, the exemptions are requested.

Section 6(c) of the Act provides that the Commission may, by order upon application, conditionally or unconditionally exempt any persons from any provision of the Act or of any rule or regulation thereunder, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act.

Notice is further given that any interested person may, not later than October 15, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be

notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air-mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address set forth above. Proof of such service (by affidavit or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the Rules and Regulations under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in the application, unless an order for hearing upon the application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter including the date of hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

[FR Doc.73-20505 Filed 9-26-73;8:45 am]

## SMALL BUSINESS ADMINISTRATION

[License Application 08/08–5033]

## FIRST VENTURE CAPITAL CORP.

### Notice of Application for License as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 461 et seq.), has been filed by First Venture Capital Corporation (applicant) with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1973).

The officers and directors of the applicant are as follows:

Wallace L. Iverson, President, General Manager, Director, 1492 South 2400 East, Salt Lake City, Utah 84108.

Stephen R. Gilliland, Vice President, Director, 46 South 700 East, Salt Lake City, Utah 84102.

Harald E. Singer, Secretary-Treasurer, Director, 820 Hillcrest Avenue, Logan, Utah 84321.

The applicant, a Utah corporation with its principal place of business located at 46 South 700 East, Salt Lake City, Utah 84102, will begin operations with $302,000 of paid-in capital and paid-in surplus, derived from the sale of 302,000 shares of common stock to Mr. Dallas J. Elder, 800 East Center, Logan, Utah 84321.

As a small business investment company under section 301(d) of the Act, the applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Small Business Investment Act of 1958, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and SBA rules and regulations.

Any person may, not later than October 12, 1973, submit to SBA written comments on the proposed applicant. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Salt Lake City, Utah.

Dated September 21, 1973.

JAMES THOMAS PHELAN,
*Deputy Associate Administrator for Investment.*

[Notice of Disaster Loan Area 1005]

## PENNSYLVANIA

### Notice of Disaster Relief Loan Availability; Amendment 2

As a result of the President's declaration of the State of Pennsylvania as a major disaster area following severe storms and flooding beginning on or about June 27, 1973, applications for disaster relief loans will be accepted by the Small Business Administration from flood victims in the adjacent affected areas to those counties previously declared major disaster areas. (See 38 FR 20510 and 38 FR 21541).

Applications may be filed at the:

Small Business Administration
Regional Office
1 Decker Square—East Lobby Suite 400
Bala Cynwyd, Pa. 19004

and at such temporary offices as are established. Such addresses will be announced locally. Applications will be processed under the provisions of Pub. L. 93–24.

Applications for disaster loans under this announcement must be filed not later than September 17, 1973.

Dated August 2, 1973.

[Declaration of Disaster Loan Area 1013]

## MONTANA

### Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of July 1973, because of the effects of a certain disaster, damage resulted to business property located in the State of Montana;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Butte, Silver Bow County, Montana, suffered damage or destruction resulting from a fire of undetermined origin on July 28, 1973. Applications will be processed under the provisions of Pub. L. 93–24.

Office:
Small Business Administration
District Office
Corner Main and Sixth Avenue
Helena, Montana 59601

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to November 19, 1973.

Dated September 18, 1973.

## VETERANS ADMINISTRATION

### VOLUNTARY SERVICE NATIONAL ADVISORY COMMITTEE

### Notice of Meeting

The Veterans Administration gives notice that the annual meeting of the Veterans Administration Voluntary Service National Advisory Committee, composed of representatives of 46 national voluntary organizations, will be held at the Sheraton-Park Hotel, Washington, D.C., October 25–26, 1973.

The meeting will convene at 9 a.m., October 25th, in the Sheraton Ball Room. The purpose of the meeting is to constructively plan with the committee, which serves in an advisory role to the Chief Medical Director, for the further promotion and development of volunteer participation in the care and treatment of veteran patients in the agency's nationwide medical program.

Dated September 21, 1973.

By direction of the Administrator.

[SEAL] RUFUS H. WILSON,
*Associate Deputy Administrator.*

## OIL AND GAS OFFICE

### COMMITTEE ON ENERGY CONSERVATION; NATIONAL PETROLEUM COUNCIL

### Notice of Meeting

Pursuant to Executive Order 11686, notice is hereby given of the following meeting:

The Committee on Energy Conservation of the National Petroleum Council will meet at 1:30 p.m. on October 1, 1973, in the Michigan Room of the Statler Hilton Hotel in Washington, D.C. The agenda will include discussion of an outline, the organizational structure and a work schedule to carry out the energy conservation study requested by the Secretary of the Interior on July 23, 1973.

The purpose of the National Petroleum Council is solely to advise, inform and make recommendations to the Secretary of the Interior on any matter relating to petroleum or the petroleum industry.

The meeting is open to the public to the extent that facilities permit.

Dated: September 26, 1973.

J. ROY GOODEARLE,
*Associate Director.*

### FOURTH SECTION APPLICATION FOR RELIEF

SEPTEMBER 24, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before October 12, 1973.

FSA No. 42750—*Joint water-rail container rates—Showa Shipping Co., Ltd.* Filed by Showa Shipping Co., Ltd., (No. 6), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, and Taiwan, on the one hand, and rail stations on the U.S. Atlantic and Gulf Seaboard, on the other.

Grounds for relief—Water competition.

By the Commission.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

### INCREASES IN FREIGHT RATES AND CHARGES OF THE LONG ISLAND RAIL ROAD COMPANY TO OFFSET RETIREMENT TAX INCREASES—1973

SEPTEMBER 13, 1973.

ICC report and order permitting establishment of interim freight rate increases for most of the Nation's railroads, and rejecting proposed terminal surcharges of Long Island Rail Road Company, to offset retirement tax increases to become effective on October 1, 1973, and January 1, 1974.

1. Petition of railroads, except The Long Island Rail Road Company, for permission to file a tariff establishing certain interim increases in freight rates and charges to offset increases in retirement taxes, granted in part.

2. Petition of The Long Island Rail Road Company for permission to file a surcharge for the same purpose, denied without prejudice.
